(ii) The salinity problem shall be treated as a basinwide problem that needs to be solved in order to maintain lower main stem salinity at or below 1972 levels while the basin States continue to develop their compact apportioned waters.

(iii) The goal of the plan shall be to achieve compliance with the adopted standards by July 1, 1983. The date of compliance with the adopted standards shall take into account the necessity for Federal salinity control actions set forth in the plan. Abatement measures within the control of the States shall be implemented as soon as practicable.

(iv) Salinity levels in the lower main stem may temporarily increase above the 1972 levels if control measures to offset the increases are included in the control plan. However, compliance with 1972 levels shall be a primary consideration.

(v) The feasibility of establishing an interstate institution for salinity management shall be evaluated.

(d) The States are required to submit to the respective Environmental Protection Agency Regional Administrator established procedures for achieving (c) (1) and (c) (2) above within 30 days of the effective date of these regulations and to submit progress reports quarterly thereafter. EPA will on a quarterly basis determine the progress being made in the development of salinity standards and the implementation plan.

§ 120.10 [Amended]

§ 120.10 is amended by adding to the paragraphs entitled "Arizona", "California", "Colorado", "Nevada", "New Mexico", "Utah", and "Wyoming" a salinity control policy and procedures and requirements for establishing water quality standards for salinity control in the Colorado River System.

(Sec. 303, Pub. L. 92-500, 86 Stat. 816 (33 U.S.C. 1313))

Effective date: December 18, 1974.

Dated: December 11, 1974.

JOHN QUARLES,
Acting Administrator.

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 306-5]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Benomyl

A petition (PP 4F1452) was filed (39 FR 7484) by E. I. du Pont de Nemours & Co., Wilmington DE 19898, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance for combined residues of the fungicide benomyl (methyl 1-(butylcarbamoyl)-2-benzimidazolecarbamate) and its metabolites containing the benzimidasole moiety (calculated as benomyl) in or on the raw agricultural commodity tomatoes at 5 parts per million. (For a related document, see this issue of the FEDERAL REGISTER, page 43719.)

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

(1) The fungicide is useful for the purpose for which the tolerance is being established.

(2) The established tolerances for residues in milk and the meat, fat, and meat byproducts of cattle, goats, hogs, horses, and sheep are adequate to cover residues resulting from the proposed and existing uses, and § 180.6(a)(2) applies.

(3) There is no reasonable expectation of residues in eggs and poultry resulting from the proposed use, and § 180.6(a)(3) applies.

(4) The tolerance established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; (21 U.S.C. 346a(d)(2))), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18605), § 180.294 is amended by revising the paragraph "5 parts per million * * *" to read as follows:

§ 180.294 Benomyl; tolerances for residues.

* * * * *

5 parts per million in or on strawberries and tomatoes.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time on or before January 17, 1975 file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets SW., Waterside Mall, Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on December 18, 1974.

(Sec. 408(d)(2), 68 Stat. 512; (21 U.S.C. 346a(d)(2)))

Dated: December 11, 1974.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.74-29387 Filed 12-17-74;8:45 am]

[FRL 306-6]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carboxin

A petition (PP 4F1499) was filed (39 FR 20842) by Uniroyal Chemical, Bethany, CT 06525, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for combined negligible residues of the fungicide carboxin (5,6-dihydro-2-methly-1,4-oxathiin-3-carboxanilide) and its metabolite 5,6-dihydro-3-carboxanilide-2-methyl-1,4-oxathiin-4-oxide (calculated as carboxin) in or on the raw agricultural commodities peanuts and peanut hay at 0.2 part per million. Subsequently, the petitioner amended the petition by adding peanut hulls to the list of commodities.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The fungicide is useful for the purpose for which the tolerances are being established.

2. The established tolerances for residues in eggs, meat, milk, and poultry

XUM
DEC 1974
XUM

are adequate to cover residues resulting from the proposed use, and § 180.6(a)(2) applies.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 402(d)(2), 68 Stat. 512; (21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), § 180.301 is amended by revising the paragraph "0.2 part per million (negligible residue) * * *" to read as follows:

§ 180.301 Carboxin; tolerances for residues.

* * * * *

0.2 part per million (negligible residue) in or on cottonseed, peanuts, peanut hay, and peanut hulls.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time on or before January 17, 1975, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularly the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on December 18, 1974.

(Sec. 408(d)(2), 68 Stat. 512; (21 U.S.C. 346a(d)(2))

Dated: December 11, 1974.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FRL 308-7]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Isobutyric Acid; Exemption From Tolerance

In response to a request by W. R. Grace & Co., Columbia, MD 21044, a notice was published by the Environmental Protection Agency in the FEDERAL REGISTER of September 3, 1974 (39 FR 31919), proposing that residues of isobutyric acid resulting from the postharvest application of the fungicides ammonium isobutyrate and/or isobutyric acid as set forth in § 180.320 be exempted from the requirement of a tolerance and the restriction that limits application to grains and grasses intended for use as animal feed be deleted. No requests for referral to an advisory committee were received. One comment was received from Eastman Chemical Products, Inc., Kingsport, TN 37662, suggesting that the exemption be extended to allow for residues of isobutyric acid in or on alfalfa, Bermuda grass, brome grass, sorghum grain, and timothy from postharvest application of either ammonium isobutyrate or isobutyric acid.

Based on consideration given this comment and other information, it is concluded that the proposal should be adopted with an extension of the exemption to allow for residues of isobutyric acid in or on all the raw agricultural commodities set forth in § 180.320 resulting from postharvest application of either ammonium isobutyrate or isobutyric acid.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), Part 180 is amended as follows:

§ 180.320 [Deleted]

1. Section 180.320 *Isobutyric acid; tolerances for residues* is deleted from Subpart C.

2. The following new section is established in Subpart D:

§ 180.1030 Isobutyric acid; exemption from the requirement of a tolerance.

The fungicide isobutyric acid is exempted from the requirement of a tolerance for residues resulting from postharvest application of isobutyric acid or the fungicide ammonium isobutyrate in or on the following raw agricultural commodities: alfalfa; Bermuda grass; brome grass; clover; corn; fescue; grass of barley, oats, sorghum, and wheat; lespedeza; orchard grass; and timothy.

Any person who will be adversely affected by the foregoing order may at any time on or before January 17, 1975 file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets, SW, Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on December 18, 1974.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e))

Dated: December 11, 1974.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

PART 5A-76—EXHIBITS

Miscellaneous Exhibits

This change to the General Services Administration procurement regulations (GSPR) updates and amplifies procedures related to miscellaneous exhibits.

Section 5A-76.307 is revised to reflect current paying offices' addresses to be entered on purchase orders.

Section 5A-76.321 is amended to clarify the guide for determination of billed office and consignee codes from incoming requisition data.

NOTE.—Copies of the exhibits illustrated in Part 5A-76 are filed with the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. These regulations are effective on the date shown below.

Dated: November 22, 1974.

M. J. TIERNAN,
Commissioner,
Federal Supply Service.

Title 45—Public Welfare

CHAPTER XII—ACTION

PART 1218—VISTA VOLUNTEERS—HEARING OPPORTUNITY

Adoption of Proposed Regulations

On September 19, 1974, there was published in the Federal Register (39 FR 33711) a notice of a proposed amendment to Chapter XII, Title 45. The proposed regulations establish a procedure for VISTA volunteers to express views in connection with terms and conditions of their service.

Interested persons were given 30 days in which to submit comments.

One written comment has been received and given due consideration. As a result of such comment the following change will be made:

Section 1218.4(d) is amended to read *Response to volunteer's views by appropriate ACTION officials in a prescribed period of time.* This change will make it clear that each proposed plan must set a definite time in which ACTION officials will respond to volunteers' views.

Accordingly, with this change and additions, the proposed amendments are adopted as set forth below and become effective December 18, 1974.

Sec.
1218.1 Introduction.
1218.2 Applicability.
1218.3 Policy.
1218.4 Standards for Regional Plans.
1218.5 Procedures for Approval of Plan.
1218.6 Freedom to Present Views.

AUTHORITY: Sections 104(d), 402(14) and 420 of Pub. L. 93-113, 87 Stat. 398, 407 and 414.

§ 1218.1 Introduction.

Section 104(d) of the Domestic Volunteer Service Act of 1973, Pub. L. 93-113, 87 Stat. 398 requires that the Director of ACTION establish a procedure, including notice and an opportunity to be heard, for VISTA volunteers to present views in connection with the terms and conditions of their service.

§ 1218.2 Applicability.

This part applies to all volunteers enrolled under Part A of Title I of the Domestic Volunteer Service Act of 1973, Pub. L. 93-113, 87 Stat. 396.

§ 1218.3 Policy.

It is ACTION's policy to encourage the free exchange of views between volunteers and staff members with respect to the terms and conditions of the volunteers' service. Ordinarily these exchanges occur in the day-to-day contact between volunteers and staff. However, there are occasions when it is desirable to provide volunteers with an opportunity to present their views with respect to the terms and conditions of their service in a more formal way. The differences between ACTION regions require that the means selected in each region to accomplish this result be appropriate to its particular needs. This regulation provides standards within which regions must establish a procedure to enable volunteers to present their views to be heard with respect to the terms and conditions of their service on a regular basis by appropriate ACTION officials and receive a timely response to their concerns.

§ 1218.4 Standards for regional plan.

Each ACTION Domestic Regional Director shall recommend, after consultation with representative volunteers, sponsors, and other interested persons, the specific procedures to be established for VISTA volunteers to present their views concerning the terms and conditions of their service. Each proposed plan must incorporate the following features:

(a) A free and open opportunity for volunteers to communicate their views to appropriate ACTION regional office officials.

(b) An opportunity for all volunteers to be heard with respect to their views in connection with the terms and conditions of their service by a responsible ACTION regional office official, either personally, or through democratically selected representatives, on a regular basis. The plan must provide such an opportunity to the volunteer at least twice in each year, and provide for notice to volunteers of the time and place of the meeting at which they may be heard.

(c) Appropriate provisions with respect to volunteers' or volunteers' representatives travel expense and per diem which enable the volunteers or their representatives to attend and present their views to the regional office officials at scheduled meetings.

(d) Response to volunteer's views by appropriate ACTION officials in a prescribed period of time.

(e) Summmary reports by each Regional Director to the Deputy Associate Director for VISTA and ACTION Education Programs of problems and concerns expressed by volunteers concerning terms and conditions of their service and action taken in response to such problems and concerns.

(f) An opportunity for any volunteer who feels that his/her concerns have not been properly addressed to communicate the same to the Regional Director. Such communication shall be included in the Regional Director's report to the Deputy Associate Director and shall be reviewed by him.

§ 1218.5 Procedures for approval of plan.

Each Regional Director shall submit the plan for his region to the Deputy Associate Director, VISTA and ACTION Education Programs for approval.

Approval by the Deputy Associate Director for VISTA and ACTION Education Programs of the proposed regional plan shall be based upon: (1) the adequacy of the procedures to provide for systematic and open communication of volunteers' views regarding terms and conditions of their service; and (2) the adequacy of the procedures to provide for effective and efficient resolution of volunteers' problems or concerns regarding terms and conditions of their service.

§ 1218.6 Freedom to present views.

The expression by a volunteer of his views with respect to the terms and conditions of his service shall not be construed as reflecting on a volunteer's standing, performance or desirability as a volunteer. ACTION intends that its programs be conducted in an atmosphere in which volunteers can speak freely, and frankly discuss problems. Nor shall a volunteer who represents such views be subjected to restraint, interference, coercion, discrimination or reprisal because of presentation of his views.

Issued at Washington, D.C. on December 12, 1974.

JOHN L. GANLEY,
Deputy Director, ACTION.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER B—OTHER REGULATIONS RELATING TO TRANSPORTATION

[Ex Parte No. 55 (Sub-No. 10)]

PART 1100—GENERAL RULES OF PRACTICE

Shipper Certification Requirements

At a General Session of the Interstate Commerce Commission, Held at its office in Washington, D.C., on the 20th day of November 1974.

Notice of proposed rulemaking was published in the FEDERAL REGISTER on December 28, 1973, (38 FR 35495) setting forth a proposal to amend the regulations of the Interstate Commerce Commission with respect to Rule 247 in its General Rules of Practice in 49 CFR Part 1100.

Interested parties were invited to submit comments and suggestions for consideration pertaining to the proposed rulemaking by February 1, 1974, with statements in reply by February 15, 1974. Upon consideration of the comments received, the Commission has adopted amended Rule 247.

Since the decision in the Schaffer case in 1967 (106 MCC 100), as modified by subsequent decisions, the Commission has required applicants in motor carrier application cases to submit shipper certification of support pursuant to requirements set forth therein. A summary of these requirements appears as part of the application form. These requirements are now incorporated in the Commission's General Rules of Practice as substituted Section 1100.247, subparagraph (b) (1), as herein set forth.

The Commission has for some time been concerned with the extent to which applicants have evaded the purpose and proposal underlying the rules of the Schaffer case by the late submission and addition of shipper witnesses. In innumerable instances, this process of adding witnesses has continued even as late as the closing days of oral hearings. The Commission is of the view that the public interest and public convenience and necessity for a proposed operation should be the material and principal basis for the filing of an application and that the applicant should know at that time the need and support of shippers and the service. While some additional shipper support may reasonably be ascertained after the filing of an application, it is unfair to the Commission and to other parties to permit the process of adding witnesses to continue indefinitely. Substituted Rule 247(b) (1) limits the addition of shipper witnesses no later than thirty days prior to the date assigned for commencement of the hearing. This is accomplished by the insertion of a sentence in Section 247(b) (1) as amended and as shown below.

Additionally, by a notice issued November 4, 1971, (36 FR 21388, November 6, 1971), the Commission announced that restrictive amendments to operating authority applications would not be entertained following publication in the FEDERAL REGISTER of notice that the proceeding had been assigned for oral hearing. The purpose of this policy is to control the practice of certain applicants of filing applications for wide authority their subsequently submitting numerous amendments as necessary to eliminate opposing parties interest. The Commission is of the view that this process accentuates the ability of the applicant to negotiate with other carriers since the burden is upon the applicant to demonstrate the needs of the public for service. The policy of continuing these negotiations has continued through the course of oral hearings to the detriment and unnecessary expense of the public and other parties to the case, Accordingly, Rule 247

(c)(2) is amended herein to make the formally announced policy a part of the Commission's General Rules of Practice and in so doing to provide that restrictive amendments may not be submitted later than thirty days after the service date of a notice that the case has been assigned for oral hearing or not later than (1) thirty days after the service date, or (2) the date of a prehearing conference assigned to consider such amendments.

It appearing, That the Commission, on the date hereof, has made and filed its report in this proceeding setting forth its conclusions and findings and its reasons therefor, which report is hereby referred to and made a part hereof,

It is ordered, That petitions filed by National Tank Truck Carriers, Inc., and Contract Carrier Conference, seeking permission to file statements herein, be, and they are hereby, granted;

It is further ordered, That Subchapter B of Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, amended as follows:

§ 1100.247 [Amended]

(1) Section 1100.247, paragraph (a)(2) is amended by inserting at the beginning thereof the following words "Except as otherwise provided herein,"

(2) Section 1100.247, paragraph (b)(1) in its present form be, and it is hereby, deleted and replaced by the following paragraph:

(b) *Applications.*—(1) *Form and content.* An application filed with the Commission under these special rules shall be prepared in accord with and contain the information called for in the form of application prescribed by the Commission or in instructions which may have been issued by the Commission with respect to the filing of such an application. An application for a certificate, permit, or license as defined in subparagraph (a)(1) must be accompanied by certifications of support on the prescribed form for each individual, corporation or partnership known to the applicant upon whose support applicant intends to rely. Except for good cause shown, no application will be accepted for filing unless it is accompanied by certifications as herein required. Upon request by any party, the applicant shall furnish such party with copies of all certifications filed with the application. If, subsequent to the filing of an application, additional witnesses become known to the applicant, applicant shall file a certification for each such witness with the Commission and shall concurrently serve copies thereof upon all parties of record. The total number of witnesses subject to this rule whose testimony is offered in support of the application may not exceed twice the number for whom certifications were filed with the application, whether the case is designated for oral hearing or for modified procedure. In cases designated for oral hearing, certifications of additional witnesses as provided above must be filed and served not later than 30 days prior to the date assigned for commencement of hearing: *Provided*, That, the presiding officer may authorize additional certifications for witnesses to be presented at a continued hearing to be filed and served not later than 30 days prior to the date of the continued hearing. No testimony will be received from witnesses for whom such certifications have not been timely received. *Provided*, however, that the provisions of this paragraph limiting the total number of witnesses and requiring certifications for subsequently discovered witnesses shall not be applicable to applications to transport passengers, and that certifications for subsequently discovered witnesses shall not be required in cases handled under modified procedure except when reassigned for oral hearing.

(3) Section 1100.247, subparagraph (c)(2) is amended by deleting the second sentence thereof and substituting in its place the following:

Restrictive amendments acceptable to the Commission may be submitted at any time: *Provided*, That, except as hereinafter provided, in cases assigned for oral hearing amendments must be received by the Commission not later than (1) 30 days after the service date of a notice that the case has been assigned for oral hearing, or (2) the date of a prehearing conference assigned to consider such amendments. Restrictive amendments submitted after such date may be considered by the Commission or presiding officer only if exceptional reason is shown why the amendment could not have been timely filed. Prehearing conferences assigned for the consideration of amendments shall be subject to the provisions of subparagraph (d)(6) of this rule respecting appearances at hearings.

It is further ordered, That this order shall become effective on January 20, 1975, and shall remain in effect until modified or revoked in whole or in part by further order of the Commission;

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission, at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register. (49 U.S.C. 301, 302, 304, and 308, 5 U.S.C. 553 and 559.)

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE AND RECREATION

Bombay Hook National Wildlife Refuge, Delaware

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 28.28 Special regulations; public access, use and recreation; for individual wildlife refuge areas.

DELAWARE

BOMBAY HOOK NATIONAL WILDLIFE REFUGE

Travel by motor vehicle, bicycle, or on foot, is permitted from sunrise to sunset on designated routes unless prohibited by posting, for the purpose of nature study, photography, hiking, and sight-seeing. Pets are permitted if on a leash not over 10 feet in length.

The refuge area, comprising 15,111 acres, is delineated on maps available at refuge headquarters or from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director,
U.S. Fish and Wildlife Service.

DECEMBER 11, 1974.

[FR Doc.74-28465 Filed 12-17-74;8:45 am]

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Prime Hook National Wildlife Refuge, Delaware

The following special regulation is issued and is effective during the period January 1, 1975 through December 31, 1975.

§ 28.28 Special regulations, public access, use and recreation; for individual wildlife refuge areas.

DELAWARE

PRIME HOOK NATIONAL WILDLIFE REFUGE

Travel by motor vehicle, bicycle, or on foot, is permitted from sunrise to sunset on designated routes unless prohibited by posting, for the purpose of nature study, photography, hiking, and sight-seeing. Pets are permitted if on a leash not exceeding 10 feet in length.

The refuge area, comprising 8,403 acres, is delineated on maps available at refuge headquarters, or from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

Provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

RICHARD E. GRIFFITH,
Regional Director,
U.S. Fish and Wildlife Service.

DECEMBER 11, 1974.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Part 1]

CUSTOMS FIELD ORGANIZATION

Notice of Proposed Change in Customs Region III

In order to provide better Customs Service in the Philadelphia, Pennsylvania, Customs district, it is proposed to establish a Customs port of entry at Wilkes-Barre/Scranton, Pennsylvania.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 9 (38 FR 17517), Wilkes-Barre/Scranton, Pennsylvania, is hereby proposed as a port of entry in the Philadelphia, Pennsylvania, Customs district (Region III).

The geographical limits of the proposed port of entry will include all of the area within the counties of Lackawanna, Luzerne, and Monroe.

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To ensure consideration, communications must be received not later than January 17, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DECEMBER 6, 1974.

[FR Doc.74-20406 Filed 12-17-74;8:45 am]

[19 CFR Part 1]

CUSTOMS FIELD ORGANIZATION

Notice of Proposed Change in Customs Region V

In order to provide better Customs service in the New Orleans, Louisiana, Customs district, it is proposed to establish a Customs port of entry at Knoxville, Tennessee.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 9 (38 FR 17517), Knoxville, Tennessee, is hereby proposed as a port of entry in the New Orleans, Louisiana, Customs district (Region V).

The geographical limits of the proposed port of entry will include all that area which is within the counties of Knox, Anderson, and Blount.

Data, views, or arguments with respect to the foregoing proposal my be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To insure consideration, communications must be received not later than January 17, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DECEMBER 6, 1974.

[19 CFR Part 1]

CUSTOMS FIELD ORGANIZATION

Notice of Proposed Change in Customs Region IX

In order to provide better Customs service in the Chicago, Illinois, Customs district, it is proposed to establish a Customs port of entry at Des Moines, Iowa.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 9 (38 FR 17517), Des Moines, Iowa, is hereby proposed as a port entry in the Chicago, Illinois, Customs district (Region IX).

The geographical limits of the proposed port of entry will include that area in Polk County, Iowa, which is within the townships of Jefferson, Crocker, Douglas, Franklin, Webster, Saylor, Delaware, Clay, Walnut, Des Moines, Lee, Fourmile, Bloomfield, and Allen, and that area in Warren County, Iowa, which is within the townships of Linn, Greenfield, Allen, Richland, Jefferson, Lincoln, Palmyra, Union, and Washington (including the city of Indianola).

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To insure consideration, communications must be received not later than January 17, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 221]

UINTAH INDIAN IRRIGATION PROJECT, UTAH

Basic Water Charges

Pursuant to the authority vested in the Secretary of the Interior for issuance of irrigation operation and maintenance orders fixing per acre assessments against lands included in Indian Irrigation Projects, delegated to the Commissioner of Indian Affairs by 230 DM 1 and redelegated to the Area Directors by 10 BIAM 3.1, notice is hereby given that it is proposed to modify § 221.77 *Basic water charges*, of Title 25, Code of Federal Regulations, dealing with irrigation operation and maintenance assessments against lands of the Uintah Indian Irrigation Project, Utah, by increasing the annual basic assessment rate for the calendar year 1975 and subsequent years, unless changed by further order, from $4 to $5.49 per acre per annum, where not otherwise established by contract.

The revised section will read as follows:

§ 221.77 Basic water charges.

Pursuant to the provisions of the Acts of June 21, 1906 (34 Stat. 375), and March 7, 1928 (45 Stat. 210, 25 U.S.C. 387), the reimbursable costs expended in the operation and maintenance of the Uintah Indian Irrigation Project, Utah, are apportioned on a per-acre basis

DEC 18 1974 V 39 N 244
XUM

against the irrigable lands of all units of the project, and for the calendar year 1975 and each succeeding year unless changed by further order, there shall be collected for each acre of irrigable land to which water can be delivered from the constructed works, a uniform basic charge of $5.40 per acre per annum, where not otherwise established by contract.

It is the policy of the Department of the Interior whenever practicable to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed revision to John Artichoker, Area Director, Phoenix Area Office, Post Office Box 7007, Phoenix, Arizona 85011, on or before January 17, 1975.

JOHN ARTICHOKER,
Area Director.

Fish and Wildlife Service

[50 CFR Part 28]

DUNGENESS NATIONAL WILDLIFE REFUGE, WASHINGTON

Proposed Curtailment of Horseback Riding

It has been determined that a curtailment of horseback riding on Dungeness National Wildlife Refuge is necessary to protect the health and safety of the general public. In the past, horseback riding has been permitted year-round on Dungeness Spit and the trail leading to the Spit from Clallam County Parks Dungeness Recreation Area. To minimize conflict with the general public, horseback riding on the trail has been discouraged, but not specifically prohibited.

Increased use by both the horseback riders and the general public has led to an increased hazard to public health and safety. Incidents involving horseback riders and foot traffic have been observed by refuge personnel and have been reported by the public. The potential for conflicts is greatest on the trail and in the first linear mile of the Spit during the warmer portions of the year.

An evaluation of public use on the refuge has led to a recommendation that horses be permitted on the trail at all times and that horses be prohibited on the Spit during the principal public use season. Horses would be permitted on the Spit during the cooler months. Horse access to the Spit at this time could be gained along the shoreline bordering the Strait of Juan De Fuca or across adjoining private lands on the refuge's eastern boundary. These regulations should remain in effect until periodic reassessments indicate a need for further amendments.

Therefore, the Regional Director, Region 1, Portland, Oregon, proposes the following regulations under 50 CFR 28.28.

§ 28.28 Special regulations; public access, use and recreation, for individual wildlife refuge areas.

1. Horses are prohibited on all portions of Dungeness National Wildlife Refuge between April 15 and October 15 each year. Horses are permitted only on Dungeness Spit and adjoining beaches below the bluff from October 16 through April 14. Horses are prohibited at all times on all other portions of the refuge including the main trail leading from the Clallam County Parks Dungeness Recreation Area and the trail extending from Anderson Road to the base of Dungeness Spit.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed regulations to the Regional Director, Fish and Wildlife Service, P.O. Box 3737, Portland, Oregon 97208 on or before January 30, 1975.

LYNN A. GREENWALT,
Director, U.S. Fish and Wildlife Service.

National Park Service

[36 CFR Part 7]

CAPE HATTERAS NATIONAL SEASHORE, NORTH CAROLINA

Proposed Fishing Regulations

Notice is hereby given that pursuant to the authority contained in section 3 of the Act of August 25, 1916 (39 Stat. 535, as amended, 16 U.S.C. 3), the Act of August 17, 1937 (50 Stat. 669; 16 U.S.C. 459) and 245 DM-1 (34 FRI 3879, as amended), it is proposed to amend paragraph (c) to § 7.58 of Title 36 of the Code of Federal Regulations as set forth below.

Section 3 of the Act of August 17, 1937 (50 Stat. 669; 16 U.S.C. 459a-1) provides that the legal residents of the villages specified in section 1 shall have the right to earn a livelihood by fishing. Section 3 further provides, however, that the Secretary of the Interior shall protect the area for recreational use, with recreational fishing specifically referenced in other sections of this act. The purpose of this proposed amendment is to establish restrictions on the commercial fishing use of designated portions of the seashore beaches to balance the commercial and recreational use of the fishery resource. This proposed action has become necessary to provide for greater public safety and enhance recreational use of the seashore.

This notice specifies a period of the year when certain commercial fishing practices will be restricted on a small portion of the seashore beach. This action follows review of the testimony presented at public meetings of June 25, 1974, at Manteo, North Carolina, and June 26, 1974, and July 22, 1974, at Washington, D.C., and receipt of written comments by both sport-fishing and commercial fishing interests. In large part this testimony was to the effect that designating a specified portion of the seashore beaches for the enhancement of recreational sport-fishing use could eliminate confrontations between these competing user groups, and provide for a balanced use of the resource.

This proposed regulation would apply to the area from Beach Access Ramp No. 22, located approximately ¾ miles north of Cape Hatteras Lighthouse, southward and westward to Beach Access Ramp No. 30, approximately one mile west of Cape Point (Cape Hatteras) and near the west end of Cape Point Campground. Hauling of nets on to beaches by commercial fishermen would be prohibited in this posted zone Saturdays and Sundays effective 15 days after publication of final notice of rule making through April 30, 1975, and from October 1 through April 30 in subsequent years. During the remainder of the year (May 1 through September 30) and at all other locations commercial and sport-fishermen will have equal opportunity to operate under existing regulations on seashore beaches.

It is the policy of the Department of the Interior whenever practicable to afford the public an opportunity to participate in the rulemaking process. However, the full 30 day comment period cannot be followed in this notice of proposed rulemaking because the fishing season is already underway at the seashore. As discussed above, this matter has been under discussion for a substantial period of time with almost all members of the interested public. Furthermore, to delay immediate implementation of this rule could lead to serious confrontations between commercial and sport-fishing groups and unnecessarily endanger the public safety. Such a result is contrary to the public interest. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the Superintendent, Cape Hatteras National Seashore, P.O. Box 457, Manteo, North Carolina 27954, on or before January 2, 1975.

Paragraph (c) of § 7.58 as proposed would be amended by the addition of subparagraph (6) as follows:

§ 7.58 Cape Hatteras National Seashore.

* * * * *

(c) * * *

(6) *Sport-fishing Zone.* A zone is established for the protection and enhancement of recreational sport-fishing commencing at Beach Access Ramp No. 22 and continuing south and west along the ocean shore, including Cape Point (Cape Hatteras), to Beach Access Ramp No. 30. Within this zone commercial fishing, as specified in the Act of August 17, 1937 (50 Stat. 669), is permitted, except between the hours of 12:01 am on Saturday to 11:59 pm on Sunday from

October 1 through April 30, commercial fishermen are not permitted to haul their nets on the beach within the Zone.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 192]

STATE STUDENT INCENTIVE GRANT PROGRAM

Notice of Proposed Rulemaking

Pursuant to the authority contained in sections 415A–415D of Subpart 3 of Part A of Title IV of the Higher Education Act of 1965, as amended (20 U.S.C. 1070c through 1070–3), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, is proposing to issue the following amendments to the regulations governing the operation of the State Student Incentive Grant Program.

The purpose of the State Student Incentive Grant Program is to make incentive grants available to the States which will assist them in providing awards to eligible students with substantial financial need, thus enabling such students to attend or continue to attend institutions of higher education. The law provides funds separately for initial and continuation awards to such students. The proposed amendments to the regulations deal primarily with the allotment of funds among the States for continuation grants (§ 192.3(e)) and the criteria that will be used in determining a State approved level of funding for continuation grants (§ 192.6).

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed regulations to the State Student Incentive Grant Program Unit, Bureau of Postsecondary Education, U.S. Office of Education, Seventh and D Streets, SW., Room 4525, Washington, D.C. 20202. All relevant material must be received on or before January 16, 1975. Comments received in response to this notice will be available for public inspection at the above office Mondays through Fridays between 8:30 a.m. and 4:30 p.m.

Dated: November 12, 1974.

T. H. BELL,
Commissioner of Education.

Approved: December 12, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

(Catalog of Federal Domestic Assistance No. 13.548; State Student Incentive Grant Program)

Part 192 of Chapter I of Title 45 of the Code of Federal Regulations is amended as follows:

1. In § 192.2, the definition of "clock hour" is amended to read as follows:

§ 192.2 Definitions.

* * * * *

"Clock hour" means a period of time which is the equivalent of a 50 to 60 minute class, lecture, or recitation, or a 50 to 60 minute period of faculty-supervised laboratory, shop training, or internship.

* * * * *

2. In § 192.3 is amended by adding paragraphs (e) and (f) to read as follows:

§ 192.3 Allotment and reallotment.

* * * * *

(e) *Allotment of funds for continuation awards.* The Commissioner will allot the sums appropriated for each fiscal year for continuation grants pursuant to § 415A(b)(2) of the Act among the States in such manner that each State will receive the same percentage of its request for continuation grant funds for that fiscal year.

(f) The Commissioner may require each State receiving an allotment of funds for continuation awards under this part to submit a report prior to June 1 of each year projecting the portion, if any, of such allotment that will not be needed to make continuation awards. Such unused funds may be redistributed among the other States in proportion to the original allotments to such States for continuation awards, provided that no State receives more than its request.

3. In § 192.4 is amended by adding the words "for initial grants" between the words "it" and "under" in the introductory clause of paragraph (a) as set forth below and is further amended by adding paragraph (b) to read as follows:

§ 192.4 State program requirements.

(a) A State may receive funds allotted to it for initial grants under § 192.3 for any fiscal year only if such funds will be expended pursuant to a State program which:

* * * * *

(b) A State may receive the funds allotted to it for continuation grants under § 192.3 for any fiscal year only if such funds will be expended pursuant to a State program which satisfies the requirements set forth in subparagraphs (1) through (4) and (6) through (8) of paragraph (a) of this section.

5. In § 192.5, paragraph (b), is amended by deleting the word "and" after the semicolon in subparagraph (3); changing the period in subparagraph (4) to a semicolon; and adding subparagraphs (5) through (9) to read as follows:

§ 192.5 State applications.

* * * * *

(b) * * *

(5) The amount of funds requested for continuation awards;

(6) The amount of funds the State received for initial and continuation awards for the current academic year;

(7) The number of students who have previously received initial and continuation awards under this part who will be eligible to receive continuation awards during the next academic year;

(8) The average initial award and the average continuation award made under this part for the current academic year; and

(9) If available, the projected attrition rate for students receiving assistance under this part for the current academic year.

6. Section 192.9 is amended by adding the word "initial" between the words "of" and "awards". As amended this section reads as follows:

§ 192.9 Maintenance of effort.

The amount of funds expended by the State for the non-Federal portion of initial awards made under this part for each fiscal year shall represent an additional expenditure for that year by that State over the amounts, if any, expended by such State for grants to all students attending institutions of higher education during the second fiscal year preceding the fiscal year in which such State initially received funds under this part.

Social Security Administration

[20 CFR Part 404]

[Reg. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Elective Social Security Coverage for Vow-of-Poverty Members of Religious Orders

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553), that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments reflect the provisions of section 123 of P.L. 92–603, enacted October 30, 1972 (86 Stat. 1354), regarding elective social security coverage for members of religious orders who have taken a vow of poverty. Under prior law, the services performed by a member of a religious order who is subject to a vow of poverty which were in the exercise of the duties required by the order were excluded from coverage under social security. Under section 123 such service will be covered under social security if the order (or an autonomous subdivision of the order) irrevocably elects coverage for its members subject to a vow of poverty, and if the order also makes an irrevocable election (or makes irrevocable a previous election) to cover its lay employees. The election may be made retroactive for a maximum of 20 calendar quarters preceding the quarter in which the certificate of election is filed.

The "wages" of these members of religious orders for social security purposes include the fair market value of any board, lodging, clothing, and other

perquisites furnished to the member, except that the amount included as such individual's remuneration shall not be less than $100 a month. The proposed regulations provide that where the fair market value of any board, lodging, clothing, and other perquisites furnished to all members of an electing religious order or subdivision (or to all in a group of members) does not vary significantly, such order or subdivision may treat all of its members (or all in such group of members) as having a uniform wage.

A member of a religious order (i.e., an individual whose "wages" are subject to tax) is defined as any individual who is subject to a vow of poverty as a member of such order, who performs tasks usually required (and to the extent usually required) of an active member of such order, and who is not considered retired because of old age or total disability. The proposed regulations provide that, in determining whether it is reasonable to consider an individual to be retired because of old age, consideration is first to be given to the nature of the services rendered by the individual to his religious order, the amount of time the individual devotes to the performance of services for his religious order, and the nature and extent of the services rendered by the individual before he "retired," as compared with the services performed thereafter. Where consideration of these factors does not establish whether an individual is or is not reasonably considered retired, all other factors are c nsidered.

Under the proposed rules, an electing religious order or subdivision which determines that a member has retired must submit with its employment tax return a summary of the facts upon which the determination has been made.

The proposed regulations also provide that a religious order or an autonomous subdivision of such an order desiring to make an election of coverage shall file a certificate of election on Form SS–16, Certification of Election of Coverage. However, a document other than Form SS–16 may, under certain circumstances, constitute a certificate of election.

Consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before January 17, 1975. The regulation will be effective upon final publication in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed regulations are to be issued under the authority of section 205, 210, and 1102 of the Social Security Act, as amended, and section 123 of the Social Security Amendments of 1972 (P.L. 92–603), 53 Stat. 1368, as amended, 64 Stat. 494, as amended, 49 Stat. 647, as amended, 86 Stat. 1354; 42 U.S.C. 405, 410, and 1302.

(Catalog of Federal Domestic Assistance Program No. 13.803, Social Security—Retirement Insurance)

Dated: November 22, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: December 12, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Subpart H, Regulations No. 4 of the Social Security Administration, as amended (20 CFR Part 404), is further amended as follows:

1. Section 404.1015 is amended by revising paragraph (a) to read as follows:

§ 404.1015 Ministers of churches and members of religious orders.

(a) *In general.* Services performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, or by a member of a religious order not subject to a vow of poverty in the exercise of his duties required by such order, are excluded from employment, but are included under the self-employment provisions of the Act. However, services performed by a member of a religious order who has taken a vow of poverty which are in the exercise of duties required by such order (whether performed for the order or for another employer) are included in employment if an election of coverage under section 3121(r) of the Internal Revenue Code of 1954 is in effect with respect to such order or with respect to an autonomous subdivision thereof to which such member belongs. For provisions relating to the election available to certain ministers and members of religious orders not subject to a vow of poverty with respect to the extension of the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act to certain services performed by them, see §§ 404.1070(e), 404.1080, and 404.1086. See also section 1402(e) of the Internal Revenue Code of 1954 (26 U.S.C. 1402 (e)).

2. Section 404.1015a is added to read as follows:

§ 404.1015a Election of coverage by religious orders.

(a) *In general.* A religious order whose members are required to take a vow of poverty, or any autonomous subdivision of such an order, may elect to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to services performed by its members which are in the exercise of duties required by such order or subdivision. See § 404.1026 (e) for provisions relating to the computation of the amount of remuneration of such members. For purposes of this section, a subdivision of a religious order is autonomous if it directs and governs its members, if it is responsible for its members' care and maintenance, if it is responsible for members' support and maintenance in retirement, and if the members live under the authority of a religious superior who is elected by them or appointed by higher authority.

(b) *Definition of member.* (1) *In general.* For purposes of this section, a member of a religious order means any individual who is subject to a vow of poverty as a member of such order and who performs tasks usually required (and to the extent usually required) of an active member of such order and who is not considered retired because of old age or total disability.

(2) *Retirement because of old age.* (i) *In general.* For purposes of this paragraph, an individual is considered retired because of old age if the order to which he belongs has an established retirement program, (e.g., all members are retired at age 70, or all members are retired when they become incapacitated by advanced age), and the member meets the criteria established by such retirement program. If an order does not have an established retirement program, an individual is considered retired because of old age if (A) in view of all the services performed by the individual and the surrounding circumstances it is reasonable to consider him to be retired, and (B) his retirement occurred by reason of old age. Even though an individual performs some services in the exercise of duties required by the religious order, the first test (the retirement test) is met where it is reasonable to consider the individual to be retired.

(ii) *Factors to be considered.* In determining whether it is reasonable to consider an individual to be retired, consideration is first to be given to all of the following factors:

(A) *Nature of services.* Consideration is given to the nature of the services performed by the individual in the exercise of duties required by his religious order. The more highly skilled and valuable such services are, the more likely the individual rendering such services is not reasonably considered retired. Also, whether such services are of a type performed principally by retired members of the individual's religious order may be significant.

(B) *Amount of time.* Consideration is also given to the amount of time the individual devotes to the performance of services in the exercise of duties required by his religious order. This time includes all the time spent by him in any activity in connection with services which might appropriately be performed in the exercise of duties required of active members by the order. Normally, an individual who, solely by reason of his advanced age, performs services of less than 45 hours per month shall be considered retired. In no event shall an individual who, solely by reason of his advanced age,

performs services of less than 15 hours per month not be considered retired.

(C) *Comparison of services rendered before and after retirement.* In addition, consideration is given to the nature and extent of the services rendered by the individual before he "retired," as compared with the services performed thereafter. A large reduction in the importance or amount of services performed by the individual in the exercise of duties required by his religious order tends to show that the individual is retired; absence of such reduction tends to show that the individual is not retired. Normally, an individually who reduces by at least 75 percent the amount of services performed shall be considered retired.

Where consideration of the factors described in paragraph (b)(2)(ii) of this section does not establish whether an individual is or is not reasonably considered retired, all other factors are considered.

(3) *Retirement because of total disability.* For purposes of this paragraph, an individual is considered retired because of total disability (i) if he is unable, by reason of a medically determinable physical or mental impairment, to perform the tasks usually required of an active member of his order to the extent necessary to maintain his status as an active member, and (ii) if such impairment is reasonably expected to prevent his resumption of the performance of such tasks to such extent. A physical or mental impairment is an impairment that results from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. Statements of the individual, including his own description of his impairment (symptoms), are alone insufficient to establish the presence of a physical or mental impairment.

(4) *Evidentiary requirements with respect to retirement.* There shall be attached to the return of taxes paid pursuant to an election under section 3121(r) of the Internal Revenue Code of 1954 a summary of the facts upon which any determination has been made, by the religious order or autonomous subdivision, that one or more of its members retired during the period covered by such return. Each summary shall contain the name and social security number of each such retired member as well as the date of his retirement. Such order or subdivision shall maintain records of the details relating to each such "retirement" sufficient to show whether or not such member or members has in fact retired.

(c) *Certificates of election.* (1) *In general.* A religious order or an autonomous subdivision of such an order desiring to make an election of coverage pursuant to section 3121(r) of the Internal Revenue Code of 1954 and this section shall file Form SS–16, *Certificate of Election of Coverage Under the Federal Insurance Contributions Act*, with the Internal Revenue Service in accordance with the instructions applicable thereto. However, in the case of an election made before August 9, 1973, a document other than form SS–16 shall constitute a certificate of election if it purports to be a binding election of coverage and if it is filed with an appropriate official of the Internal Revenue Service. Such a document shall be given the effect it would have if it were a certificate of election containing the provisions required by paragraph (c)(2) of this section. However, it should subsequently be supplemented by a form SS–16.

(2) *Provisions of certificates.* Each certificate of election shall provide that:

(i) Such election of coverage by such order or subdivision shall be irrevocable,

(ii) Such election shall apply to all current and future members of such order, or in the case of a subdivision thereof to all current and future members of such order who belong to such subdivision.

(iii) All services performed by a member of such order or subdivision in the exercise of duties required by such order or subdivision shall be deemed to have been performed by such member as an employee of such order or subdivision, and

(iv) The wages of each member, upon which such order or subdivision shall pay the taxes imposed on employees and employers by sections 3101 and 3111 of the Internal Revenue Code of 1954, will be determined as provided in § 404.1026(e).

(d) *Effective date of election.* (1) *In general.* Services which are performed by members of orders as defined in §§ 404.1015a(b)(1) are covered during any period either retroactive or prospective for which an order has elected coverage provided the member is not considered retired because of old age or total disability. Except as provided in paragraph (e) of this section, a certificate of election of coverage filed by a religious order or its subdivision, pursuant to section 3121(r) of the Internal Revenue Code of 1954 and this section, shall be in effect, for purposes of section 3121(b)(8)(A) of the Internal Revenue Code of 1954 and for purposes of section 210(a)(8)(A) of the Act, for the period beginning with whichever of the following may be designated by the electing religious order or subdivision:

(i) The first day of the calendar quarter in which the certificate is filed,

(ii) The first day of the calendar quarter immediately following the quarter in which the certificate is filed, or

(iii) The first day of any calendar quarter preceding the calendar quarter in which the certificate is filed, except that such date may not be earlier than the first day of the 20th calendar quarter preceding the quarter in which such certificate is filed.

(2) *Retroactive elections.* Whenever a date is designated as provided in paragraph (d)(1)(iii) of this section, the election shall apply to services performed before the quarter in which the certificate is filed only if the member performing such services was a member at the time such services were performed and is living on the first day of the quarter in which such certificate is filed. Thus, the election applies to an individual who is no longer a member of a religious order on the first day of such quarter if he performed services as a member at any time on or after the date so designated and is living on the first day of the quarter in which such certificate is filed.

(e) *Coordination with coverage of lay employees.* If at the time the certificate of election of coverage is filed by a religious order or autonomous subdivision, a certificate of waiver of exemption under section 3121(k) of the Internal Revenue Code of 1954 (extending coverage to any lay employees) is not in effect, the certificate of election shall not become effective unless the order or subdivision files a Form SS–15, *Certificate Waiving Exemption from Taxes Under the Federal Insurance Contributions Act*, and a Form SS–15a, *List to Accompany Certificate on Form SS–15 Waiving Exemption from Taxes Under the Federal Insurance Contributions Act*, to accompany the certificate on Form SS–15, as provided by section 3121(k) of the Internal Revenue Code of 1954. The preceding sentence applies even though an order or subdivision has no lay employees at the time it files a certificate of election of coverage. The effective date of the certificate of waiver of exemption must be no later than the date on which the certificate of election becomes effective, and it must be specified on the certificate of waiver of exemption that such certificate is irrevocable. The certificate of waiver of exemption required under this paragraph shall be filed notwithstanding the provisions of section 3121(k)(3) of the Internal Revenue Code of 1954 (relating to no renewal of the waiver of exemption) which otherwise would prohibit the filing of a waiver of exemption if an earlier waiver of exemption had previously been terminated. If at the time the certificate of election of coverage is filed a certificate of waiver of exemption is in effect with respect to the electing religious order or autonomous subdivision, the filing of the certificate of election shall constitute an amendment of the certificate of waiver of exemption and make the latter certificate irrevocable.

3. Section 404.1016 is amended by revising paragraph (a) to read as follows:

§ 404.1016 Religious, charitable, educational, or certain other organizations exempt from income tax.

(a) *In general.* Services performed by an employee in the employ of a religious, charitable, educational, or other organization described in section 501(c)(3) of the Internal Revenue Code of 1954 which is exempt from income tax under section 501(a) of the Internal Revenue Code of 1954 (section 101 (6) of the Internal Revenue Code of 1939) are excepted from employment. However, this exception does not apply to services performed during the period for which a Form SS–15, *Certificate Waiving Exemption From Taxes Under the Federal Insurance Contributions Act*, or Form SS–15b, *Certificate for Retroactive Coverage*, filed pursuant to section

3121(k) or section 3121(r) of the Internal Revenue Code of 1954 or section 1426(l) of the Internal Revenue Code of 1939, is in effect if such services are performed by an employee (1) whose signature appears on form SS–15b or on the Form SS–15a, *List to Accompany Certificate on Form SS–15 Waiving Exemption from Taxes Under the Federal Insurance Contributions Act*, or Form SS–15a Supplement, *Amendment to List on Form SS–15a*, filed by such organization under section 3121(k) of the Internal Revenue Code of 1954 (section 1426(l) of the Internal Revenue Code of 1939); (2) who became an employee of such organization after the calendar quarter in which the form SS–15 was filed; or (3) who became a member of a group of employees as described in section 3121(k)(1)(E) of the Internal Revenue Code of 1954 after the calendar quarter in which the form SS–15 was filed with respect to such group. (See § 404.1015(b) and (d) relating to services performed by a minister of a church in the exercise of his ministry or by a member of a religious order not subject to a vow of poverty in the exercise of duties required by such order; § 404.1015a relating to services performed by a member of a religious order or subdivision thereof whose members are required to take a vow of poverty; § 404.1018 relating to services performed in the employ of an organization otherwise exempt from income tax under section 501(a) of the Internal Revenue Code of 1954 (section 101 of the Internal Revenue Code of 1939); § 404.1019 relating to services performed in the employ of a school, college, or university by certain students; and § 404.1022 relating to services performed by certain student nurses and hospital interns. See 26 CFR § 31.3121(k)–1 relating to waiver of exemption from taxes with respect to certain services under section 3121(k) of the Internal Revenue Code of 1954 and 26 CFR § 31.3121(r)–1 relating to services with respect to which a certificate is in effect under section 3121(r) of the Internal Revenue Code of 1954.)

* * * * *

4. Section 404.1026 is amended by adding paragraph (e) to read as follows:

§ 404.1026 Wages.

* * * * *

(e) *Remuneration for service performed by certain members of religious orders.* In any case where an individual is a member of a religious order as defined in § 404.1015a(b) and performing service in the exercise of duties required by such order, and an election of coverage under section 3121(r) of the Internal Revenue Code of 1954 is in effect with respect to such order or the autonomous subdivision thereof to which such member belongs, the term "wages" shall, subject to the provisions of section 3121(a)(1) of the Internal Revenue Code of 1954 (relating to definition of wages), include as such individual's remuneration for such service the fair market value of any board, lodging, clothing, and other perquisites furnished to such member by such order or subdivision or by any other person or organization pursuant to an agreement (whether written or oral) with such order or subdivision. Such other perquisites shall include any cash either paid by such order or subdivision or paid by another employer and not required by such order or subdivision to be remitted to it. For purposes of this section, perquisites shall be considered to be furnished over the period during which the member receives the benefit of them. In no case shall the amount included as such individual's remuneration under this paragraph be less than $100 a month. All relevant facts and elements of value shall be considered in every case. Where the fair market value of any board, lodging, clothing, and other perquisites furnished to all members of an electing religious order or autonomous subdivision (or to all in a group of members) does not vary significantly, such order or subdivision may treat all of its members (or all in such group of members) as having a uniform wage.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 110]

[CGD 74–189]

BEVERLY AND SALEM HARBORS, MASSACHUSETTS

Proposal To Establish Two Special Anchorage Areas

The Coast Guard is considering amending the anchorage regulations by establishing two additional special anchorage areas, one located in Beverly and Mackerel Coves, north side of Beverly Harbor and the second located in Collins Cove north of Salem Neck, Mass. The existing special anchorage areas in this locality are presently overcrowded and the establishment of the two proposed special anchorage areas would relieve this situation and enhance safety. In special anchorage areas, vessels under 65 feet in length, when at anchor, are not required to carry or exhibit anchor lights.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander, First Coast Guard District, 150 Causeway Street, Boston, Massachusetts 02114. Each person submitting comments should include his name and address, identify the notice (CGD 74–189), and give any reasons for any recommended change in the proposal. Copies of all submissions received will be available for examination by interested persons at the office of the Commander, First Coast Guard District.

The Commander, First Coast Guard District will forward any comments received before January 20, 1975, and his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters who will evaluate all communications received and take final action on this proposal. The proposed regulation may be changed in the light of comments received.

In consideration of the foregoing, it is proposed to amend Title 33 of the Code of Federal Regulations by adding new paragraphs (d) and (e) to § 110.25 to read as follows:

§ 110.25 Beverly and Salem Harbors, Mass.

* * * * *

(d) *Beverly and Mackerel Coves, north side of Beverly Harbor.* The water area enclosed by a line commencing at the southernmost point of Curtis Point in Beverly; thence bearing 238°, 1,400 yards to latitude 42°32'29.4" N., longitude 70°51'34" W.; thence 284°, 1,475 yards to the western shoreline of Mackerel Cove; thence north northeasterly to the point of beginning.

(e) *Collins Cove, Salem, Mass.* The water area enclosed by a line beginning at Monument Bar Beacon; thence 242°, 580 yards to latitude 42°32'14.5" N., longitude 70°52'46.3" W.; thence 284°, 220 yards to latitude 42°32'16" N., longitude 70°52'55" W.; thence 231°, 525 yards to a point on the shoreline; thence following the shoreline and the western boundary of the special anchorage area as described in 33 CFR 110.25(a) to the point of beginning.

(Sec. 1, 30 Stat. 98, as amended, sec. 6(g)(1)(B), 80 Stat. 937; 33 USC 180, 49 USC 1655(g)(1)(B), 49 CFR 1.46(c)(2), 33 CFR 1.05–1(c)(1))

Dated: December 9, 1974.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.74–29426 Filed 12–17–74;8:45 am]

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74–SW–49]

FEDERAL AIRWAY

Proposed Revocation

The Federal Aviation Administration (FAA) is considering an amendment to 14 CFR Part 71 of the Federal Aviation Regulations that would revoke VOR Federal Airway V-79 which extends from Hobbs, N. Mex., to Lubbock, Tex.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received on or after January 17, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the

Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would delete all of V-79 as it is presently designated. The 1974 Peak Day Traffic Count and previous random samplings revealed no IFR request for the use of this route. Since it is not required for air traffic-control, its continued designation as an airway can no longer be justified.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C. on December 12, 1974.

EDWARD J. MALO,
Acting Chief, Airspace and Air Traffic Rules Division.

ATOMIC ENERGY COMMISSION

[10 CFR Part 170]

FEES FOR FACILITIES AND MATERIALS LICENSES

Proposed Revision of License Fee Schedules; Extension of Comment Period

This notice extends the period for comments to the notice, published November 11, 1974 (39 FR 39734), proposing amendments to the Atomic Energy Commission's regulations to revise the Commission's schedule of fees for facilities and materials licenses.

Several requests for an extension of time have been received, and after consideration of the various factors involved, the Commission has decided to grant an extension of time for submitting comments, and the comment period is hereby extended to January 10, 1975.

Dated at Washington, D.C. this 12th day of December 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

Agency for International Development

RESEARCH ADVISORY COMMITTEE

Determination on Renewal

The RAC performs necessary and important advisory functions in connection with the formulation of AID research policy, the appraisal of central research projects and in evaluating and providing necessary advice concerning the progress and future potential of all centrally-funded research activities. There continues to be a need for such advisory functions.

Accordingly, I hereby determine, pursuant to the provisions of section 14(a)(1)(a) of the Federal Advisory Committee Act (Pub. L. 92-463) and paragraph 7 of OMB Circular A-63 (Revised) that renewal of the Research Advisory Committee for a two-year period beginning December 24, 1974, is in the public interest.

Dated: November 14, 1974.

DANIEL PARKER,
Administrator.

DEPARTMENT OF DEFENSE

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON "SPECIFICATIONS AND STANDARDS IMPROVEMENT"

Advisory Committee Meeting

Pursuant to the provisions of Public Law 92-463, effective January 5, 1973, notice is hereby given that the Defense Science Board Task Force on "Specifications and Standards Improvement" will meet in open session on 16-17 January 1975 in Room 1E801, the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to provide an evaluation of current DoD Specifications and Standards and the related DoD organization, system and procedures to serve as a basis for DoD policy decisions to reduce costs in systems/equipment design and acquisition.

At this meeting, the Task Force will review the current activity of the Electronics and Materials Panel of the Defense Materiel Specifications and Standards Board; discuss and critique the Standardization Organization of the DoD; review the process for updating and maintaining specifications and standards current; review previous reports dealing with the subject; and discuss and review other pertinent and related subjects as may come before the group.

Due to limited time and space availability, it is requested that persons interested in attending the DSB Task Force meeting provide written notice to the address listed below by January 10, 1975. Notices should include information with respect to interest and degree of participation.

Mr. Lester Fox, Director
Defense Materiel Specifications
and Standards Office
Cameron Station
Alexandria, Virginia 22314

Telephone inquiries may also be made to Mr. Fox at (202) 274-7061.

Dated: December 13, 1974.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

DEPARTMENT OF JUSTICE

Office of the Attorney General

[Order No. 586-74]

FREEDOM OF INFORMATION

Preliminary Guidance

Under date of December 11, 1974, the Justice Department has issued a memorandum to heads of all Federal departments and agencies providing preliminary guidance on application of the 1974 Freedom of Information Act Amendments, Pub. L. 93-502. These amendments will become effective February 19, 1975. Since the Memorandum is of special interest to the public, I am directing its publication in the FEDERAL REGISTER.

Dated: December 13, 1974.

WILLIAM B. SAXBE,
Attorney General.

MEMORANDUM TO HEADS OF ALL FEDERAL DEPARTMENTS AND AGENCIES

Re: *Preliminary Guidance* concerning the 1974 Freedom of Information Act Amendmtnts, P.L. 93-502, enacted November 21, 1974.

INTRODUCTION

DECEMBER 11, 1974.

By action of the Senate on November 21st in overriding the President's veto of the enrolled bill H.R. 12471, several important amendments have been made to the Freedom of Information Act, 5 U.S.C. 552. Most of these will have some effect upon your agency.

The new amendments (hereinafter the "1974 Amendments") will become effective on February 19, 1975. It is essential that every agency take certain actions as soon as possible, as discussed below, in order to be in compliance with the 1974 Amendments when they became effective.

OUTLINE OF DISCUSSION

(1) Time limits for agency determinations.
(2) Index publication.
(3) Uniform agency fees.
(4) Procedures on requests for classified records.
(5) Requirements for annual report.
(6) Assignment of responsibility.
(7) Substantive changes.
(8) Miscellaneous matters.
(9) Further actions.

ATTACHMENTS

A. Freedom of Information Act prior to 1974 Amendments.[1]

B. 1974 Amendments to the Act (P.L. 93-502).

C. Freedom of Information Act as now amended.

D. Summary of Principal Changes made by 1974 Amendments.

DISCUSSION

The discussion below is in the nature of advice and assistance rather than a directive. While it is intended to apply generally to all federal agencies (except to the extent an agency may be subject to unique provisions of law, e.g., 39 U.S.C. 410, 412),[2] some recommendations may not fit the circumstances of a particular agency.

1. *Time limits for agency determinations.* Agencies must amend their regulations to conform to the provisions in the 1974 amendments which prescribe administrative time limits for processing requests for access to their records. Basically, these provisions call for an initial determination to be made on any such request within 10 working days (usually two weeks) after its receipt. In case of an appeal from an initial denial, a determination on the appeal is to

[1] Appendices A, B, and C filed as part of the original document. Copies of Public Law 93-502 may be obtained through the Superintendant of Documents, Government Printing Office.

[2] These provisions modify the application of the Freedom of Information Act to records of the Postal Service.

be made by the agency within 20 working days (four weeks) after receipt of the appeal. After any agency determination to comply in whole or part with a request for records, whether made initially or on appeal, the records shall be made available "promptly."

These time limit provisions apply to requests and to appeals that are received by agencies on or after Wednesday, February 19, 1975. Agency regulations under the Act should be revised to reflect these provisions and the revisions should be published in the FEDERAL REGISTER and distributed to all concerned agency personnel before that date. The discussion which follows is chiefly concerned with the impact of the time limits on requests which, for one reason or another, an agency finds difficult to process properly within such periods.

It is important to note that these time limits run from the date of "receipt." The experience of the Justice Department with voluntarily adopted time limits for acting on requests and appeals for our own records has indicated that much time can be lost in mail rooms and elsewhere in routing requests and appeals to those who must act upon them. Such delays can be sharply reduced by explicit and well-conceived instructions to requesters on how to address their requests and their appeals. It is strongly recommended that such instructions be set forth in agency regulations, as well as in any other pertinent agency information and guidance materials that may be prepared. While failure to comply with such reasonable regulations will not necessarily disqualify a request from entitlement to processing under the Act, it will probably defer the date of "receipt" from which the time limitations are computed, to take account of the amount of time reasonably required to forward the request to the specified office or employee.[3] Such regulations designed to facilitate processing must not, of course, be used to protract or delay it.

Agencies should also consider the adoption of devices and the designing of procedures to speed processing of requests. It might be desirable, for example, to specify in agency regulations and guidance that FOIA requests be clearly identified by the requester as such on the envelope and in the letter. Similarly, agency personnel should be required to mark FOIA requests and appeals conspicuously so that they may be given expeditious treatment. Of course, the new time limits also mean that an efficient system of date-stamping for incoming matter is essential.

The 1974 amendments contain two provisions for extension of the foregoing time limits. One authorizes administrative extensions by giving requesters written notices with prescribed contents in three types of "unusual circumstances" which are specified in the amendments. It is clear that such extensions cannot exceed ten working days in the aggregate, so that only one ten-day extension can be invoked by the agency, either at the initial or the appellate stage. Neither the language of the statute, however, nor the legislative history specifically precludes the taking of more than one extension where the circumstances justify, so long as the ten-day maximum is not exceeded with respect to the entire request. Logic favors the latter interpretation, since the same circumstances which make a particular request difficult to process at the initial stage frequently complicate the appeal as well. Accordingly, we interpret the statute to permit more than one extension, either divided between the initial and appeal stages or within a single stage, so long as the total extended time does not exceed ten working days with respect to a particular request.

Agencies should carefully consider whether they should make some provisions in their regulations concerning (a) who controls the use of the 10-day extension and (b) its allocation to the initial stage, the appeal stage, or partly to one and partly to the other. Such provisions, of course, would only operate in the unusual circumstances specified in the statute. Subject to this condition it would appear permissible for agency regulations to provide for distribution of the ten days on a case-by-case basis, or by restricting any extension at the initial stage to five days absent special showing (so as to reserve five days for the appeal stage), or in some other manner. Agencies should also be prepared to instruct their staffs on the form, contents, and timeliness of extension notices in the light of the statutory requirements.

The second provision for time extension in the 1974 Amendments authorizes a court to allow an agency "additional time to complete its review of the records" if the government can show exceptional circumstances and that the agency is exercising due diligence in responding to the request. In cases where an agency believes that this provision would probably lead to a judicial extension of its time if the agency were to be sued immediately, the agency may in the interest of avoiding unnecessary litigation and exploring fully the scope of a possible administrative grant of access, wish to suggest to the requester the possibility of agreeing with the agency upon a specific extension of time. In preparing its regulations on time limits, an agency should consider (a) who within the agency should give attention to the considerations discussed in this paragraph, and (b) the extent to which communications or agreements with requesters under this paragraph should be recorded for such bearing as they may have on possible litigation.

The legal consequence provided in the 1974 Amendments for an agency's disregard of the prescribed administrative time limits (i.e., the 10 and 20 day limits and any up-to-10 days extension effected by notice to the requester) is that the requester may sue at once, without resort to further administrative remedies. The Act as amended expressly provides that the requester "shall be deemed to have exhausted his administrative remedies" in case the agency fails to comply with applicable time limits. This means that if the 10-day time limit for initial determinations (together with any permissible extension of this limit as discussed above) is not complied with, the agency may have lost the 20 days or more that would otherwise have been available to it in the event of a timely-issued denial and an appeal. Thus, every effort should be made to issue an initial determination—even one with qualifications or conditions [4]—within the required time. Where it is necessary to find and examine the records before the legality or appropriateness of their release can be assessed, and where, after diligent effort, this has not been achieved within the required period, the requester may be advised in substance that the agency has determined at the present time to deny the request because the records have not yet been found and/or examined; that this determination will be reconsidered as soon as the search and/or examination is complete, which should be within — days; but that the requester may, if he wishes, immediately file an administrative appeal.

In the event an agency fails to issue a timely determination and is sued, it should nevertheless continue to process the request. To the extent that the request is granted, the suit may become moot; to the extent the request is denied, the government will be able to prepare a defense on the merits.

If an initial denial in whole or part is issued by an agency after suit has been filed, and the requester administratively appeals, the agency should, unless otherwise instructed by its counsel or by the court, proceed to process the appeal. Moreover, agencies may wish to consider making provisions for the initiation of an appeal upon their own motions in such circumstances; otherwise, failing an appeal by the requester, the agency may be committed in litigation to a position it does not genuinely support. If suit is filed while an appeal is pending, whether or not the suit is premature, the agency should normally continue to process the appeal.

The time limit provisions of the 1974 amendments appear to presuppose that agencies will have a basically two-step, rather than a single-step, procedure in their regulations, i.e., that they will provide for an initial determination whether to grant or deny access, followed by an administrative appeal. While there is nothing in the 1974 amendments which expressly forbids an initial determination that is administratively final, it seems clear that the vast majority of agencies will continue to use some form of two-step procedure, not only because

[3] Where such delay has occurred, it would be desirable to provide for acknowledgment of effective receipt. Such acknowledgment should also be provided where delay is caused in the mails, or by any other means of which the requester is likely unaware.

[4] The qualifications or conditions cannot be so extensive as to render the response meaningless because such a response would not constitute the required "determination".

XUM
V 39 N 244 DEC 18 1974
XUM

it permits the correction of errors and avoidance of unnecessary litigation but also because, under the 1974 amendments, it makes available an additional 20 days for agency consideration of the request. Agencies contemplating changes in their regulations from a single-step to a two-step procedure, or changes to a different form of two-step procedure, should note that the 1974 amendments contemplate an administrative "appeal". This means that the agency official charged with acting on appeals must be different from the official responsible for initial denials.

Some agency regulations now prescribe a period of time, such as 30 days, within which a requester must file an appeal, ordinarily running from the requester's receipt of the denial letter. The 1974 amendments contemplate that an initial determination to furnish records will be dispatched within the time limits discussed above, and that the records will be furnished either at the same time or "promptly" thereafter. At the time of the initial determination there may be some uncertainty on the part of the requester, or even on the part of the agency, as to the precise extent of the materials being made available and being denied. Accordingly, if an agency's regulations as revised contain a time limit for the filing of an appeal,[5] it is suggested that the period run from receipt of the initial determination (in cases of denials of an entire request), and from receipt of any records being made available pursuant to the initial determination (in cases of partial denials). Such a provision would relate only to the end, not to the beginning, of the period for the requester to file an appeal; it would in no way interfere with the right to file an appeal immediately after any initial determination involving any degree of denial. Such a provision should promote fairness, help reduce premature and unnecessary appeals, and minimize technical questions about the timeliness of appeals.

2. *Index publications.* Under subsection (a)(2) of the Act prior to the 1974 amendments, each agency has been required to "maintain and make available for public inspection and copying a current index providing identifying information for the public" as to the agency's so-called (a)(2) materials, i.e., certain final opinions and orders, statements of policy and interpretation, and administrative staff manuals and instructions. Under the 1974 amendments, this index will be required to be published promptly at quarterly or more frequent intervals and distributed, unless the agency determines by order published in the FEDERAL REGISTER that such publication would be unnecessary and impractical, in which case copies of the index shall be provided on request at duplication cost. Therefore, on or before February 19, 1975, or "promptly" thereafter, each agency must publish the required index, or must adopt and publish in the FEDERAL REGISTER an order containing the determination referred to above. As indicated in the Conference Report (Senate Report 93-1200 of October 1, 1974 at p. 7) commercial publication may satisfy the publication requirement if the agency makes the publication readily available for public use.

If an agency already publishes or plans to publish indexes to some of its (a)(2) materials in compliance with the above publication requirement, but determines that it is unnecessary and impractical to publish its indexes of the remainder, there is apparently no objection under the 1974 amendments to using a combination of publication and the statutory alternative just described.

Recent court decisions have left some confusion as to what constitutes (a)(2) materials.[6] If an agency reasonably maintains that certain types of records are not covered, it may of course properly decline to publish them. In case of doubt, it may accompany its publication of the index or its FEDERAL REGISTER statement with the disclaimer that its action is being taken for the convenience of possible users of the materials, and does not constitute a determination that all of them are within subsection (a)(2) of the Act. As to what constitutes an acceptable index, consult the prior Justice Department guidance.[7]

3. *Uniform agency fees for search and duplication.* The 1974 Amendments make significant changes in the law pertaining to the fees which an agency may charge for services performed for requesters under the Act. Each agency must "promulgate regulations, pursuant to notice and receipt of public comment, specifying a uniform schedule of fees applicable to all constituent units of such agency." This means that agencies should, in accordance with 5 U.S.C. 553, publish in the FEDERAL REGISTER a notice of proposed rule making before January 13, 1975, containing a proposed uniform schedule of fees to become effective on February 19th, 1975; and then, after consideration of public comment, publish the regulations themselves as they will become effective on February 19th.

Since by reason of these procedural requirements, the fees schedule regulations involve more "lead time" than the other regulation changes which the 1974 amendments make necessary, it may be desirable to handle them separately, under an accelerated timetable. Of course provisions assigning functions and prescribing procedures for administration of the fee schedule need not be contained in the schedule itself, and may be reserved for inclusion in the other Freedom of Information regulations.

In providing for the administration of fee schedules, agencies may wish to consider whether and when they will furnish estimates of fees, and the circumstances in which they will request payment of estimated or incurred fees before the work is done or the materials transmitted. Since requesters will be financially liable for fees after the requested services have been performed, there is a need for some device to protect members of the public from unwittingly incurring obligations which far exceed their expectations. It is of course not possible simply to advise requesters of substantial costs and await their permission to proceed, since this process would consume much of the 10-day reply period. The problem might be met by including a provision in the agency's regulations to the effect that, unless the request specifically states that whatever cost is involved will be acceptable, or acceptable up to a specified limit that covers anticipated costs, a request that is expected to involve assessed fees in excess of $_____ will not be deemed to have been received until the requester is advised (promptly on physical receipt of the request) of the anticipated cost and agrees to bear it. There is some question whether such a provision can be effective to toll the statutory time period, but in light of the need to protect the public against large unanticipated expenses, and in light also of the fact that the requester can avoid all delay by specifying in his request that all costs (or costs to a specified limit) will be accepted, our view is that such provisions are likely to be sustained.

A separate problem is the need in some cases for adequate assurance that the requester will pay the fees where they are substantial. Of course, if a substantial public good is accomplishd by the request, the agency may under the 1974 amendments simply waive the fees. But where that provision is not to be applied, means to assure payment should be considered. This might be achieved by a requirement in the regulation that when the anticipated fees exceed $ _____, a deposit for a certain proportion of the amount must be made within ____ days of the agency's advising the requester.

The kinds of services for which fees may be charged under the 1974 amendments are limited to search and duplication. Agencies may thus no longer seek reimbursement (a) for time spent in examining the requested records for the purpose of determining whether an exemption can and should be asserted, (b) for time spent in deleting exempt matter being withheld from records to be furnished, or (c) for time spent in monitoring a requester's inspection of agency records made available to him in this manner.

Search services are services of agency personnel—clerical or, if necessary, of a higher salary level—used in trying to find the records sought by the requester. They

[5] The establishment of an explicit time limit is not mandatory. In its absence, a "reasonable time" would presumably be allowed. Such a disposition, however, increases uncertainty and hence litigation.

[6] See, e.g., *Grumman Aircraft Engineering Corp. v. Renegotiation Board*, 482 F. 2d 710 (D.C. Cir. 1973), cert granted upon the government's petition and now pending; *Tax Analysts and Advocates v. IRS*, 362 F. Supp. 1298 (D.D.C. 1973), affirmed ____ F. 2d ____ (1974). See also Attorney General's Memorandum on the Public Information Section of the Administrative Procedure Act, June 1967, at pp. 20–22.

[7] Attorney General's Memorandum, *supra*, at pp. 20–22.

include time spent in examining records for the purpose of finding records which are within the scope of the request. They also include services to transport personnel to places of record storage, or records to the location of personnel for the purpose of search, if they can be shown to be reasonably necessary. The legislative history of the 1974 amendments indicate that, when computerized record systems are involved, "the term 'search' would • • • not be limited to standard record-finding, and in these situations charges would be permitted for services involving the use of computers needed to locate and extract the requested information." Senate Report No. 93-854, May 16, 1974, p. 12.

Search fees are assessable even when no records responsive to the request, or no records not exempt from disclosure, are found. It is recommended, however, that requesters be charged for unsuccessful or unproductive searches only where they have been given fair notice that this may occur. Such notice should be plainly set forth in an agency's regulations. Of course, where the cost of search is small its unproductiveness is persuasive ground for waiver.

Duplication includes costs associated with the paper and other supplies used to prepare duplicates made to comply with the request and the services of personnel used in such preparation.

Where an agency undertakes, either voluntarily or under some other statute, to perform for a requester services which are clearly not required under the Freedom of Information Act—e.g., the formal certification of records as true copies, attestation under the seal of the agency, creation of a new list, tabulation or compilation of information, translation of existing records into another language—the question of fees should be resolved in the light of the federal user charge statute, 31 U.S.C. 483a, and any other applicable law. If for reasons of convenience an agency elects to include charges for such services in the fee schedule required to be promulgated by the 1974 Amendments, it should make clear the authority other than the Freedom of Information Act upon which such charges rest.

The amount of fees is ordinarily to be expressed as a rate per unit of service. The 1974 amendments contain three general criteria: (a) The fees must provide for recovery of only the "direct costs" of search and duplication services, (b) they must be "reasonable standard" charges, and (c) they must be waived or reduced where the agency determines such action would be in the public interest because furnishing the information "can be considered as primarily benefiting the general public". The reference to "direct costs" should be taken to mean that no agency overhead expense should be allocated to the services used in conducting a search. This would exclude such items as utilities, training expenses and management costs (except for management personnel directly involved in performing or supervising the particular search). If, for example, air freight or air express is used to transfer records at field offices to the office processing the request in order that the search can be completed and a determination made within applicable time limits, the air haul charge, but probably not the cost of ordering such transportation and processing payment, may be considered to be direct costs.

The requirement for "reasonable standard" charges should be taken to mean that the actual rates to be charged must be stated in dollars and cents or otherwise definitively indicated—as, for example, by reference to publicly filed tariffs. It precludes special rates based upon negotiation,* upon increases in federal personnel pay rates not reflected in an amended schedule, or upon other factors not incorporated in the schedule. There is, however, no requirement that the schedule contain only a single rate for personnel time. Legislative reference to the "direct costs" of search indicates that where there are sharp differences in the salaries of the personnel needed to conduct various types of searches which the agency may conduct, the schedule may set forth separate scales—e.g., one for clerical time and one for supervisory or professional time. The applicable rates may be determined after considering the pay scales, converted to hourly rates, of the numbers and grades of the personnel who would be assigned to perform the required services. Recognizing that some mix of personnel may be involved, it would seem that reasonable approximations of costs will satisfy the legislative requirement for "reasonable" standard charges.

The remaining legislative factor in the amount of fees is the provision concerning waiver or reduction, noted above. Either the fee schedule or the other agency regulations under the Act as amended should clearly assign the function of determining, both in connection with initial actions and at the appeal stage, whether such waivers or reductions should be made and the amount of any such reduction.

4. *Procedures on requests for classified records.* Passing for the purposes of this memorandum any constitutional questions, requests for documents that raise questions under exemption 1, as amended, may often require more detailed administrative processing at both the initial and appeal stages than was required under the decision in Environmental Protection Agency v. Mink, 410 U.S. 73 (1973). Such processing will nonetheless be subject to the new statutory time limits. The scope of the problem which this presents is not entirely clear at this time. All agencies which generate or hold substantial amounts of classified documents should immediately begin considering a range of procedures for accommodating to the statutory changes. The Department of Justice solicits the views of affected agencies in this regard and anticipates issuing more detailed guidance for the processing of requests for classified documents under the 1974 Amendments prior to their effective date.

5. *Requirements for annual report.* The 1974 amendments require each agency to file with the Congress a detailed annual report on March 1 of each year, covering administration of the Freedom of Information Act during the prior calendar year. With respect to the report due on March 1, 1975, some of the information called for in the amendments will not be available, since the amendments were not in effect during calendar 1974. Agencies should make as complete a report as possible on the basis of the information at hand. It is not our view that the Congress intended agencies to conduct interviews or detailed historical research to develop information not recorded at the time. Agencies should begin at once to develop procedures for compiling the information which the annual reports must contain, and these should be in place no later than January 1, 1975 so that the report for calendar 1975 will be complete. We recommend that these procedures be designed to accumulate, in addition to the other information required, data on the costs of administering the Act.

6. *Assignment of responsibility to grant and deny.* Agency regulations should leave no uncertainty as to who has the responsibility for acting upon requests under the Act. Responsibility means the duty and the authority to act; an assignment of either the duty or the authority normally carrier with it the other, except as regulations may otherwise provide. When an agency employee or official receives a request which exceeds his authority to grant or deny, the requester should be referred to the official or unit which has authority under the agency's regulations.*

The employee or official who denies a request is referred to in several places in the 1974 Amendments. Any notification of denial of a request for records must "set forth the names and titles or positions of each person responsible for the denial of such request." Section 552 (a)(6)(C). The required annual report must include "the names and titles or positions of each person responsible for the denial of records requested, • • • and the number of instances of participation for each." Section 552(d)(3). The so called sanctions provision states that when a court makes a written finding as to possible arbitrary or capricious withholding by agency personnel, the Civil Service Commission shall promptly initiate a proceeding to determine

*This does not preclude a negotiated settlement of a dispute over the fees for a particular request.

*As a matter of courtesy, if a request is misdirected the agency employee receiving it should himself route it to the proper official under the agency's regulations. The requester should be informed of this action and advised that the time of receipt for processing purposes will be deemed to run from the receipt by the proper official.

XUM
V 39 N 244 DEC 18 74 XUM

"whether disciplinary action is warranted against the officer or employee who was primarily responsible for the withholding." Section 552(a)(4)(F).

The common element in these provisions is the characterization of an agency employee or official as the person "responsible" or "primarily responsible" for a denial. It is therefore incumbent upon an agency to fix such responsibility clearly in its regulations by confining authority to deny, both on initial determinations and on appeals, to specified officials or employees. In view of the time limits discussed above, it would appear impracticable to specify such officials or employees by name, thereby preventing action during their absence; specifications by organizational title should be so drawn as to include both regular incumbents and persons acting in their stead.

It is not necessary that the head of the agency be the official designated to determine all appeals. The reference to an "appeal to the head of the agency" in the provision concerning time limits for initial determinations must be read in conjunction with the three provisions concerning "responsible" officials referred to above, particularly the last two sentences of the sanctions provision.[*] Coupled with the impracticability of running all appeals through Cabinet officers in certain departments, these provisions indicate that the head of an agency may, by regulation, delegate to another high official the function of acting on his behalf with respect to appeals.

Care should be taken to provide safeguards against confusion between the person who is authorized to deny access and the individuals or committees which assist him by providing information, furnishing legal or policy advice, recommending action, or implementing the decision. Care should also be taken to avoid the situation in which the official or employee whose signature appears on a notification of denial as ostensibly the responsible person is in fact acting on the orders of his superior. In such a case, the notification should identify the superior as the responsible person, with the subordinate signing "by direction" or with other appropriate indication of his role.

7. *Substantive changes.* The 1974 amendments include three provisions whose nature is "substantive", in the sense that they affect what records are subject to compulsory disclosure under the Act, rather than how requests for records shall be processed or litigated. These are a revision of the 1st exemption (pertaining to documents classified under an Executive Order for reasons of defense or foreign policy), a revision of the 7th exemption (investigatory law enforcement records), and a provision on the availability of "reasonably segregable" portions of records from which exempt matter has been deleted.

While these three substantive changes, like the rest of the 1974 amendments, do not become effective until February 19, 1975, it would be parsimonious and ultimately unwise to act before that time as if they were not in prospect. Each agency should take these changes into account to the best of its ability even before they become effective, particularly in its processing of requests and appeals and in assisting in the conduct of litigation. The application of these revisions will be the subject of a subsequent Justice Department memorandum.

8. *Miscellaneous matters.* The 1974 amendments replace the requirement that a request be for "identifiable records" with the requirement that it be one which "reasonably describes such records". Section 552(a)(3)(A). Agency regulations which contain provisions that parallel the old "identifiable records" language should be revised accordingly. A broad categorical request may or may not meet the "reasonably describes" standard; an agency receiving such a request may communicate with the requester to clarify it.

The 1974 amendments require that any adverse initial determination set forth the reasons therefor and a notice of the requester's appeal rights, and that any adverse determination on appeal give notice of the requester's rights of judicial review. Section 552(a)(6)(A). Agency regulations should be amended to reflect these new requirements.

In the event of suit under the Act, the government's time to answer is reduced from the 60 days generally available to the government in civil actions to 30 days "unless the court otherwise directs for good cause shown". Section 552(a)(4)(C). Upon termination of a suit under the Act in which the requester has "substantially prevailed", the court may assess "reasonable attorneys fees and other litigation costs reasonably incurred". Section 552(a)(4)(E). While neither of these changes necessarily calls for a revision of agency regulations, each can have an impact on agency operations: If a judicial extension of the 30-day time period is to be sought, the agency is likely to be called upon to provide information as to the facts and circumstances believed to constitute "good cause"; and if attorney's fees are assessed, they will be normally charged to the agency whose withholding of records was at issue. Needless to say, the attorney's fee provision increases substantially the likelihood that an agency will be sued when it issues a denial having weak or doubtful justification.

Each agency should carefully examine the text of the 1974 amendments to see if there are impacts upon its own regulations or operations which may not apply to other agencies and which are not discussed herein. It should also be noted that the amendments include a redefinition of "agency" for purposes of the Act, set forth in the new section 552(e), which extends the Act's coverage to some entities not considered agencies for purposes of other provisions of the Administrative Procedure Act.

As a general policy in cases where difficult problems are encountered as to such matters as the scope of the request, the time to process it, or the fees involved, agencies are encouraged to consider telephoning the requester to seek an informal accommodation, which should ordinarily be promptly confirmed in writing.

9. *Further action.* The administrative and reporting requirements of the new amendments, together with the relatively brief time limits imposed, demand the closest internal coordination of agency efforts, both in designing compliance with the 1974 revisions and in administering the Act after they become effective. To achieve this, agencies should consider establishing, perhaps on a temporary or ad hoc basis, an internal board or committee which would include talent at appropriate levels in the areas of law, public information, program operations, records management, budget and training.

The Justice Department will distribute before the effective date of the 1974 amendments an interpretive and advisory "Analysis", primarily addressed to the three "substantive" provisions referred to in item 7 above, but perhaps containing further guidance on procedural questions such as those discussed herein. Until that is issued, it would be appreciated if requests from agencies for advice and assistance concerning the Act be kept to a minimum. However, comments on this preliminary guidance memorandum are solicited, with a view to making desirable additions and changes.

ATTACHMENT D—SUMMARY OF PRINCIPAL CHANGES IN FREEDOM OF INFORMATION ACT MADE BY 1974 AMENDMENTS

Changes	*Place in Amended Act*
1. Publication or alternative requirement concerning indexes of (a)(2) materials.	552(a)(2).
2. Administrative time limits and extensions, and contents of denial letters.	552(a)(6).
3. Uniform agency fees for search and duplication.	552(a)(4)(A).
4. Disciplinary proceedings for arbitrary or capricious denials.	552(a)(4)(F).
5. In camera inspection by court of requested documents.	552(a)(4)(B).
6. Shortened time to answer complaint in court.	552(a)(4)(C).
7. Attorney fees award for requesters who prevail.	552(a)(4)(E).
8. Revision of exemption 1 for defense and foreign policy records classified under Executive Order.	552(b)(1).
9. Revision of exemption 7 for investigatory law enforcement records.	552(b)(7).
10. Availability of "reasonably segregable portion" of record.	552(b) (at end of subsection).
11. Annual reports to Congress.	552(d).

[*] "The [Civil Service] Commission, after investigation and consideration of the evidence submitted, shall submit its findings and recommendations to the administrative authority of the agency concerned and shall send copies of the findings and recommendations to the officer or employee or his representative. The administrative authority shall take the corrective action that the Commission recommends." Section 552(a)(4)(F).

(In addition, the 1974 Amendments make a number of other changes in the Act which, for the purposes of most agencies, are believed to be generally less significant.)

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

BETTLES FIELD, ALASKA

Eligibility of Unlisted Village

This decision is published in exercise of authority delegated by the Secretary of the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs, by § 2651.2(a) (6), (8), (9), and (10) of Subchapter B of Chapter II of Title 43 of the Code of Federal Regulations published on page 14223 of the May 30, 1973 issue of the FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Pub. L. 92-203, 92nd Congress; 85 Stat. 688-716), provides for the settlement of certain land claims of Alaska Natives and for other purposes.

Accordingly, the Director, Juneau Area Office, Bureau of Indian Affairs, pursuant to the authority delegated him in the regulations in 43 CFR Part 2650, authorizing him to make final decisions on behalf of the Secretary of the Interior on the eligibility of Native villages for benefits under the Alaska Native Claims Settlement Act, subject to appeal to the Ad Hoc Board, published on February 21, 1974, his final decision determining the eligibility of the unlisted Native village of Bettles Field, said decision appearing in 39 FR 6625(1974).

The decision was appealed by the Alaska Wildlife Federation & Sportsmen's Council; Philip R. Holdsworth; and the Sierra Club, Alaska Chapter, (appellants herein). The appellants brought forth, to the Ad Hoc Board, a withdrawal of protest. The Board therefore dismissed the appeals and thereby notified the Director that his final decision certifying the unlisted village of Bettles Field as eligible for benefits under the Alaska Native Claims Settlement Act shall become final upon the personal approval by the Secretary of the Interior.

The Ad Hoc Board, also known as the Alaska Native Claims Appeal Board, on July 1, 1974 determined the unlisted Native village of Bettles Field, pursuant to section 11(b)(3) of said Act, 43 U.S.C. 1610(b)(3), is now eligible to receive land benefits under sections 14 (a) and (b) of the Act, 43 U.S.C. 1613 (a) and (b).

In accordance with the Ad Hoc Board's decision, approved on July 9, 1974 by the Secretary of the Interior, Rogers C. B. Morton, and by telegram dated September 16, 1974 from Assistant Secretary of the Interior, Royston C. Hughes, authorized the Director, Juneau Area Office, Bureau of Indian Affairs to certify the unlisted Native village of Bettles Field as eligible for benefits under the Alaska Native Claims Settlement Act, said Director hereby certifies the Native village of Bettles Field is eligible for benefits under said Act, said decision being not further appealable, therefore issues to the unlisted Native village of Bettles Field a certification of eligibility.

CLARENCE ANTIOQUIA,
Director.

DECEMBER 9, 1974.

[FR Doc.74-29368 Filed 12-17-74;8:45 am]

CHENEGA, ALASKA

Eligibility of Unlisted Village

This decision is published in exercise of authority delegated by the Secretary of the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs, by § 2651.2(a) (6), (8), (9), and (10) of Subchapter B of Chapter II of Title 43 of the Code of Federal Regulations published on page 14223 of the May 30, 1973 issue of the FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Pub. L. 92-203, 92d Congress; 85 Stat. 688-716), provides for the settlement of certain land claims of Alaska Natives and for other purposes.

Accordingly, the Director, Juneau Area Office, Bureau of Indian Affairs, pursuant to the authority delegated him in the regulations in 43 CFR Part 2650, authorizing him to make final decisions on behalf of the Secretary of the Interior on the eligibility of Native villages for benefits under the Alaska Native Claims Settlement Act, subject to appeal to the Ad Hoc Board, published on February 26, 1974, his final decision determining the eligibility of the unlisted Native village of Chenega, said decision appearing in 39 FR 7468 (1974).

The decision was appealed by the Alaska Wildlife Federation and Sportsmen's Council, Inc.; Philip R. Holdsworth; the Sierra Club, Alaska Chapter; and the U.S. Forest Service, Department of Agriculture. The Ad Hoc Board directed that a hearing be and was conducted on July 18, 1974, at Cordova, Alaska by an Administrative Law Judge.

The Ad Hoc Board, also known as the Alaska Native Claims Appeal Board, on September 10, 1974 determined the unlisted Native village of Chenega, pursuant to section 11(b)(3) of said Act, 43 U.S.C. sec. 1610(b)(3), is eligible to receive land benefits under section 14(a) 43 U.S.C. 1613 (a) and (b), of the Act.

The Ad Hoc Board thereby notified the Director that his final decision certifying the unlisted Native village of Chenega as eligible for benefits under the Alaska Native Claims Settlement Act shall become final upon the personal approval by the Secretary of the Interior.

In accordance with the Ad Hoc Board's decision, approval on September 24, 1974, by the Secretary of the Interior, Rogers C. B. Morton and by telegram dated September 16, 1974, from Assistant Secretary of the Interior, Royston C. Hughes, authorized the Director, Juneau Area Office, Bureau of Indian Affairs, to certify the unlisted Native village of Chenega as eligible for benefits under the Alaska Native Claims Settlement Act, said Director, hereby certifies the unlisted Native village of Chenega is eligible for benefits under the Alaska Native Claims Settlement Act, said decision being not further appealable, therefore issues to the unlisted Native village of Chenega a certification of eligibility.

CLARENCE ANTIOQUIA,
Director.

DECEMBER 9, 1974.

COLVILLE INDIAN RESERVATION, WASHINGTON

Ordinance Governing the Sale, Distribution and Taxation of Tobacco Products

DECEMBER 10, 1974.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Notice is hereby given that the Colville Business Council of the Confederated Tribes of the Colville Reservation, Washington, duly enacted the Colville Tobacco Ordinance (Ordinance No. 74-565) on August 23, 1974. The Ordinance was enacted under authority contained in Article V, section 1(a) of the Constitution of the Confederated Tribes of the Colville Reservation which was ratified by the Colville Indians on February 26, 1938, and approved by the Commissioner of Indian Affairs on April 19, 1938. The Colville Tobacco Ordinance (Ordinance No. 74-565) was approved by the Area Director, Portland Area Office, Bureau of Indian Affairs, on October 22, 1974, under authority redelegated to him in 10 BIAM 3. The Colville Tobacco Ordinance (Ordinance No. 74-565) reads as follows:

Whereas, the Colville Business Council is the duly constituted governing body of the Confederated Tribes of the Colville Indian Reservation, and,

Whereas, under the Constitution and By-Laws of the Tribes, the Colville Business Council is charged with the duty of protecting the health, security and general welfare of the Colville Confederated Tribes, and

Whereas, by virtue of their status as Indian tribes, the Colville Confederated Tribes are authorized by federal law to possess unstamped cigarettes and other tobacco products on the Colville Indian Reservation and to regulate their sale and distribution, and

Whereas, the Colville Business Council deems it essential to the health, security, and general welfare of the Colville Confederated Tribes to enact a comprehensive tobacco ordinance regulating sale and distribution of cigarettes and other tobacco products and levying an excise tax upon their distribution on the Colville Indian Reservation, and

Whereas, the Colville Business Council has heretofore adopted Resolution 1973-375, but now wishes to clarify some sections of that ordinance and to expand the remedies available for violation of the ordinance, and to increase the number of cartons of cigarettes which may be sold to non-Indians,

Now, therefore, the Colville Business Council does hereby promulgate and enact the following amended tobacco ordinance to supersede any previous tobacco ordinance heretofore enacted.

AN ORDINANCE

GOVERNING SALE, DISTRIBUTION AND TAXATION OF TOBACCO PRODUCTS WITHIN THE COLVILLE INDIAN RESERVATION

SECTION 1. *Title.* This ordinance shall be known as the Colville Tobacco Ordinance.

SEC. 2. *Definitions.* As used in this ordinance, the following words and phrases shall each have the designated meaning unless a different meaning is expressly provided or the context is clearly indicated:

(a) "Tribes" shall mean the Confederated Tribes of the Colville Indian Reservation.

(b) "Council" shall mean the Colville Business Council.

(c) "Cigarettes" shall mean any roll for smoking made wholly or in part of tobacco, irrespective of size or shape and irrespective of the tobacco being flavored, adulterated, or mixed with any other ingredient where such roll has a wrapper or cover made of paper or any material, except where such wrapper is wholly or in the greater part made of natural leaf tobacco in its natural state.

(d) "Tobacco Products" shall mean cigarettes, cigars, smoking tobacco, snuff, chewing tobacco, and other kinds of forms of tobacco prepared in such manner as to be suitable for chewing or smoking.

(e) "Taxable Event" shall mean the sale, use, consumption, handling, possession, or distribution of each tobacco product.

(f) "Retail Selling Price" shall mean the ordinary, customary, or usual price paid by the consumer for each tobacco product, less the tax levied by this ordinance.

(g) "Wholesale Distribution Price" shall mean the price paid for each tobacco product by the Tribes together with all freight charges and other expenses incurred by the Tribes in their receipt and distribution.

(h) "Tobacco Outlet" shall mean a licensed tribal retail sales business selling tobacco products on trust land within the Colville Indian Reservation.

(i) "Operator" shall mean an enrolled member of the Colville Confederated Tribes licensed by the Tribes to manage a tobacco outlet.

SEC. 3. *Establishment of tobacco outlets.* The Council shall establish one or more tobacco outlets within the Colville Indian Reservation as the Council in its sole discretion deems necessary to provide adequate service to consumers of cigarettes and tobacco products.

SEC. 4. *Nature of outlet.* Each tobacco outlet established hereunder shall be a tribal tobacco outlet and shall be managed for the Tribes by an operator pursuant to a license granted by the Council hereunder, and shall also be managed pursuant to a Federal Indian Trader's License as provided in Section 7 hereof.

SEC. 5. *Application for tobacco outlet license.* Any enrolled member of the Colville Confederated Tribes may apply upon an application form provided by the Council for a tobacco outlet license. The application shall state the name and address of the applicant and shall be signed by the applicant under oath.

SEC. 6. *Tobacco outlet license.* Upon approval of an application, the Council shall issue the applicant a tobacco outlet license for a five-year period which shall entitle the operator to establish and maintain one tobacco outlet on the Colville Indian Reservation. The license shall be renewable in such manner as the Council shall prescribe and shall be nontransferable.

SEC. 7. *Trader's license.* No tobacco outlet license shall be issued to an operator until he has obtained a Federal Indian Trader's License from the Superintendent of the Colville Indian Agency. Revocation of the Federal Indian Trader's License shall be grounds for revocation of the operator's tobacco outlet license.

SEC. 8. *Excise tax imposed.* There is being levied and there shall be collected as hereinafter provided, a tax upon the sale, use, consumption, handling, possession or distribution of all cigarettes in the amount of three cents per package. The Council may levy an additional tax upon the distribution of cigarettes and other tobacco products as it deems desirable. The excise tax levied hereunder shall be a tax upon distribution of cigarettes and other tobacco products by the Tribes only and shall not constitute an assessment or license fee upon enrolled members of the Tribes doing business within the reservation or obtaining special rights or privileges.

The excise tax levied hereunder shall be first a tax upon distribution of cigarettes and other tobacco products by the Tribes pursuant to section 10 of this ordinance; provided, however, that failure to pay the tax at the time of such distribution shall not prevent tax liability from arising by reason of another taxable event. The excise tax levied hereunder shall be added to the retail price of tobacco products sold to the ultimate consumer.

SEC. 9. *Purchase by Tribes.* All tobacco products purchased by the Tribes pursuant hereto shall be purchased with federally-restricted tribal funds.

SEC. 10. *Wholesale distribution.* Wholesale distribution of tobacco products by the Tribes to a tobacco outlet shall be upon a cash basis for the wholesale distribution price which shall have added to it the excise tax levied in section 8 hereof.

SEC. 11. *Tobacco products Federally restricted Tribal property.* The entire stock of tobacco products distributed hereunder shall remain federally-restricted tribal property owned and possessed by the Tribes until sale to the ultimate consumer. Payment by the operator of the wholesale distribution price plus the excise tax as provided in section 10 hereof shall entitle the operator to custody of distributed tobacco products for sale to the ultimate consumer, at the operator's sole risk in the event of any loss whatsoever.

SEC. 12. *Remuneration to operator.* As remuneration for managing a tobacco outlet, an operator shall be entitled to the gross revenue derived from sale of tobacco products distributed hereunder in excess of the wholesale distribution price and the excise tax levied hereunder.

SEC. 13. *Restricted sales to non-Indians.* An operator may not sell more than three cartons of cigarettes per sale to a non-Indian. The Council may restrict sales of other tobacco products to non-Indians as it deems necessary.

SEC. 14. *Restricted sales to minors.* An operator may not sell any tobacco products to any person under the age of 18 years.

SEC. 15. *Other business by operator.* An operator may conduct another business simultaneously with managing a tobacco outlet for the Tribes. The other business may be conducted on the same premises and the operator shall not be required to maintain separate books of account for the other business.

SEC. 16. *Tribal immunity—liability-credit.* An operator shall not attempt or be authorized to waive the sovereign immunity of the Tribes from suit, nor shall such operator attempt or be authorized to create any liability on behalf of the Tribes or to utilize tribal credit.

SEC. 17. *Operating without license.* No person shall operate a tobacco outlet on the Colville Indian Reservation without having in effect a valid tobacco outlet license issued pursuant hereto.

SEC. 18. *Purchases.* An operator shall purchase all tobacco products sold in his tobacco outlet from the Tribes.

SEC. 19. *Liability insurance.* An operator shall maintain liability insurance upon his premises in the sum of $100,000.

SEC. 20. *Revocation of tobacco outlet license.* Failure of an operator to abide by the requirements of this ordinance and any additional requirement imposed by the Council will constitute grounds for revocation of the operator's tobacco outlet license as well as enforcement of the remedies provided in section 21 below.

SEC. 21. *Violation—remedies.* Upon application by the Chairman of the Council, the Tribal Judge shall issue an order directing the Tribal Law Enforcement Officer to seize all tobacco products from wherever purchased and by whomever owned from any tobacco outlet being operated in violation of this ordinance. Within three days of such seizure, after adequate notice to the operator of such outlet, a hearing shall be held in Tribal Court at which time the operator of such outlet shall be given an opportunity to present evidence in defense of his activities. If the Tribal Court shall determine by a preponderance of the evidence that such tobacco outlet was being operated in violation of this ordinance, the Judge shall impose a fine of not less than $50 nor more than $250 in addition to the forfeiture of tobacco products described above.

SEC. 22. *Recovery of taxes owed.* The Tribes shall have a cause of action in Tribal Court to recover any taxes owed and not paid to the Tribes in accordance with this or any previous ordinance.

SEC. 23. *Separability.* If any provision of this ordinance or its application to any person or circumstances is held invalid, the remainder of this ordinance, or the application of the provision to other persons or circumstances is not affected.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

KING ISLAND, ALASKA

Eligibility of Unlisted Village

This decision is published in exercise of authority delegated by the Secretary of the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs, by § 2651.2(a) (6), (8), (9), and (10) of Subchapter B of Chapter II of Title 43 of the Code of Federal Regulations published on page 14223 of the May 30, 1973 issue of the FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Pub. L. 92-203, 92nd Congress; 85 Stat. 688-716), provides for the settlement of certain land claims of Alaska Natives and for other purposes.

Accordingly, the Director, Juneau Area Office, Bureau of Indian Affairs, pursuant to the authority delegated him in the regulations in 43 CFR Part 2650, authorizing him to make final decisions on behalf of the Secretary of the Interior on the eligibility of Native villages for benefits under the Alaska Native Claims Settlement Act, subject to appeal to the Ad Hoc Board, published on February 21, 1974, his final decision determining the eligibility of the unlisted Native village of King Island, said decision appearing in 39 FR 6626 (1974).

The decision was appealed by the Alaska Wildlife Federation & Sportsmen's Council; Philip R. Holdsworth; and the Sierra Club, Alaska Chapter (appellants herein). The appellants brought forth, to the Ad Hoc Board, a withdrawal of protest. The Board therefore dismissed the appeals and thereby notified the Director that his final decision certifying the unlisted village of King Island as eligible for benefits under the Alaska Native Claims Settlement Act shall become final upon the personal approval by the Secretary of the Interior.

The Ad Hoc Board, also known as the Alaska Native Claims Appeal Board, on July 1, 1974 determined the unlisted Native village of King Island, pursuant to section 11(b)(3) of said Act, 43 U.S.C. 1610(b)(3), is now eligible to receive land benefits under sections 14 (a) and (b) of the Act, 43 U.S.C. 1613 (a) and (b).

In accordance with the Ad Hoc Board's decision, approved on July 9, 1974 by the Secretary of the Interior, Rogers C. B. Morton, and by telegram dated September 16, 1974, from Assistant Secretary of the Interior, Royston C. Hughes, authorized the Director, Juneau Area Office, Bureau of Indian Affairs to certify the unlisted Native village of King Island as eligible for benefits under the Alaska Native Claims Settlement Act, said Director, hereby certifies the Native village of King Island is eligible for benefits under said Act, said decision being not further appealable, therefore issues to the unlisted Native village of King Island a certification of eligibility.

CLARENCE ANTIOQUIA,
Director.

DECEMBER 9, 1974.

PAULOFF HARBOR (SANAK), ALASKA

Ineligibility of Listed Village

This decision is published in exercise of authority delegated by the Secretary of the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs, by § 2651.2(a) (1), (8), (9), and (10) of Subchapter B of the Chapter II of Title 43 of the Code of Federal Regulations published on page 14223 of the May 30, 1973, issue of the FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Pub. L. 92-203, 92nd Congress; 85 Stat. 688-716), provides for the settlement of certain land claims of Alaska Natives and for other purposes.

Accordingly, the Director, Juneau Area Office, Bureau of Indian Affairs, pursuant to the authority delegated him in the regulations in 43 CFR Part 2650, authorizing him to make final decisions on behalf of the Secretary of the Interior on the eligibility of Native villages for benefits under the Alaska Native Claims Settlement Act, subject to appeal to the Ad Hoc Board, published on March 7, 1974, his final decision determining the eligibility of the listed Native village of Pauloff Harbor (Sanak), said decision appearing in 39 FR 8943 & 8944 (1974).

The decision was appealed by the Alaska Wildlife Federation & Sportsmen's Council, Inc.; Philip R. Holdsworth; the Sierra Club, Alaska Chapter; and the Bureau of Sports Fisheries & Wildlife.

The Ad Hoc Board, also known as the Alaska Native Claims Appeal Board, directed that a de novo hearing be and was conducted on May 15, 1974, at Anchorage, Alaska by an Administrative Law Judge.

The Ad Hoc Board then determined that the Native village of Pauloff Harbor (Sanak), listed in section 11(b)(1) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1610(b)(1), is hereby certified not eligible for benefits under section 14 (a) and (b), 43 U.S.C. 1613 (a) and (b), of the Act.

The Ad Hoc Board thereby notified the Director, Juneau Area Office, Bureau of Indian Affairs, that his final decision certifying the listed village of Pauloff Harbor (Sanak) as eligible shall become ineligible for benefits under the Alaska Native Claims Settlement Act which shall become final upon the personal approval of the Secretary of the Interior.

In accordance with the Ad Hoc Board's decision, approved on June 14, 1974 by the Secretary of the Interior, Rogers C. B. Morton and by telegram dated September 16, 1974 from Assistant Secretary of the Interior, Royston C. Hughes, authorized the Director, Juneau Area Office, Bureau of Indian Affairs, to certify the listed Native village of Pauloff Harbor (Sanak) as not eligible for benefits under the Alaska Native Claims Settlement Act, said Director, hereby certifies the listed Native village of Pauloff Harbor (Sanak) is not eligible for benefits under said Act, said decision being not further appealable, therefore issues to the listed Native village of Pauloff Harbor (Sanak) a certification of ineligibility.

CLARENCE ANTIOQUIA,
Director.

SALAMATOFF, ALASKA

Ineligibility of Listed Village

This decision is published in exercise of authority delegated by the Secretary of the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs, by § 2651.2(a) (1), (8), (9), and (10) of Subchapter B of the Chapter II of Title 43 of the Code of Federal Regulations published on page 14223 of the May 30, 1973, issue of the FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Pub. L. 92-203, 92nd Congress; 85 Stat. 688-716), provides for the settlement of certain land claims of Alaska Natives and for other purposes.

Accordingly, the Director, Juneau Area Office, Bureau of Indian Affairs, pursuant to the authority delegated him in the regulations in 43 CFR Part 2650, authorizing him to make final decisions on behalf of the Secretary of the Interior on the eligibility of Native villages for benefits under the Alaska Native Claims Settlement Act, subject to appeal to the Ad Hoc Board, published on December 12, 1973, his final decision determining the eligibility of the listed Native village of Salamatoff, said decision appearing in 38 FR 34212 (1973).

The decision was appealed by the Bureau of Sport Fisheries & Wildlife. The Ad Hoc Board, also known as the Alaska Native Claims Appeal Board, directed that a de novo hearing be and was conducted on May 13, 1974, at Kenai, Alaska by an Administrative Law Judge.

The Ad Hoc Board, on June 10, 1974, determined that the listed Native village of Salamatoff, pursuant to section 11(b)(1), 43 U.S.C. 1610(b)(1) of the Act is not eligible to receive land benefits under sections 14 (a) and (b), 43 U.S.C. 1613 (a) and (b), of the Act.

The Ad Hoc Board thereby notified the Director that his final decision certifying the listed village of Salmatoff as eligible shall become ineligible for benefits under the Alaska Native Claims Settlement Act which shall become final upon the personal approval of the Secretary of the Interior.

In accordance with the Ad Hoc Board's decision, approved on June 14, 1974, by the Secretary of the Interior, Rogers C. B. Morton and by telegram dated September 16, 1974, from Assistant Secretary of the Interior, Royston C. Hughes, authorized the Director, Juneau Area Office Bureau of Indian Affairs, to certify the listed Native village of Salamatoff as not eligible for benefits under the Alaska Native Claims Settlement Act, said Director, hereby certifies the listed Native village of Salamatoff is not eligible for benefits under said Act, said decision is not further appealable, therefore issues to the listed Native village of Salamatoff a Certification of Ineligibility.

CLARENCE ANTIOQUIA,
Director.

UYAK, ALASKA

Ineligibility of Listed Village

This decision is published in exercise of authority delegated by the Secretary of the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs, by § 2651.2(a) (1), (8), (9), and (10) of Subchapter B of the Chapter II of Title 43 of the Code of Federal Regulations published on page 14223 of the May 30, 1973, issue of the FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Pub. L. 92-203, 92d Congress; 85 Stat. 688-716), provides for the settlement of certain land claims of Alaska Natives and for other purposes.

XUM
V 39 N 244 DEC 18 1974

Accordingly, the Director, Juneau Area Office, Bureau of Indian Affairs, pursuant to the authority delegated him in the regulations in 43 CFR Part 2650, authorizing him to make final decisions on behalf of the Secretary of the Interior on the eligibility of Native villages for benefits under the Alaska Native Claims Settlement Act, subject to appeal to the Ad Hoc Board, published on December 12, 1973, his final decision determining the eligibility of the listed Native village of Uyak, said decision appearing in 38 FR 34213 (1973).

The decision was appealed by the Bureau of Sport Fisheries & Wildlife. The Ad Hoc Board, also known as the Alaska Native Claims Appeal Board, directed that a de novo hearing be and was held on May 16, 1974, at Kodiak, Alaska by an Administrative Law Judge.

The Ad Hoc Board, on June 9, 1974, determined that the listed Native village of Uyak, pursuant to section 11(b)(1), 43 U.S.C. 1610(b)(1) of the Act is not eligible to receive land benefits under sections 14 (a) and (b), 43 U.S.C. 1613 (a) and (b), of the Act.

The Ad Hoc Board thereby notified the Director that his final decision certifying the listed village of Uyak as eligible shall become ineligible for benefits under the Alaska Native Claims Settlement Act which shall become final upon the personal approval of the Secretary of the Interior.

In accordance with the Ad Hoc Board's decision, approved on June 14, 1974, by the Secretary of the Interior, Rogers C. B. Morton, and by telegram dated September 18, 1974, from Assistant Secretary of the Interior, Royston C. Hughes, authorized the Director, Juneau Area Office, Bureau of Indian Affairs, to certify the listed Native village of Uyak as not eligible for benefits under the Alaska Native Claims Settlement Act, said Director, hereby certifies the listed Native village of Uyak is not eligible for benefits under the Alaska Native Claims Settlement Act, said decision is not further appealable, therefore issues to the listed Native village of Uyak a Certification of Ineligibility.

CLARENCE ANTIOQUIA,
Director.

Office of the Assistant Secretary

OIL SHALE ENVIRONMENTAL ADVISORY PANEL

Meeting

Notice is hereby given in accordance with Public Law 92-463 that a meeting of the Oil Shale Environmental Advisory Panel will be held on January 9 and 10, 1975, at the Denver Foothills Ramada Inn, 11595 West 6th Avenue, Lakewood, Colorado. The meeting will begin at 9:00 AM on Thursday, January 9, in the Merlin Room and conclude at 12:00 Noon on Friday, January 10.

The Panel was established to assist the Department of the Interior in the performance of functions in connection with the supervision of oil shale leases issued under the Prototype Oil Shale Leasing Program. The purpose of the meeting is to review progress of the prototype program since the Panel's October 1974 meeting; the coordination of already adopted guidelines; to receive reports from Departmental officials; and for technical briefings on Interior Department research programs on water resources of the Piceance Basin, Colorado, oil-shale geology, and oil-shale extraction.

The meeting is open to the public. It is expected that space will permit at least 100 persons to attend the session in addition to the panel members. Interested persons may make brief presentations to the Panel or file written statements. Requests should be made to Mr. William L. Rogers, Chairman, Office of the Secretary, Department of the Interior, Room 688, Building 67, Denver Federal Center, Denver, Colorado 80225.

Further information concerning this meeting may be obtained from Mr. Henry O. Ash, Office of the Oil Shale Environmental Advisory Panel, Room 820-A, Building 67, Denver Federal Center, Denver, Colorado 80225, Telephone No. (303) 234-3275. Minutes of the meeting will be available for public inspection 30 days after the meeting at the Panel Office.

Dated: December 11, 1974.

JACK O. HORTON,
Assistant Secretary of the Interior for Land and Water Resources.

National Bureau of Standards

FEDERAL INFORMATION PROCESSING STANDARDS COORDINATING AND ADVISORY COMMITTEE

Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that the Federal Information Processing Standards Coordinating and Advisory Committee (FIPSCAC) will hold a meeting from 9:00 a.m. to 12:00 noon on Wednesday, January 29, 1975, in Room B-255, Building 225, of the National Bureau of Standards in Gaithersburg, Maryland.

The purpose of the meeting is to review the actions of the Federal Information Processing Standards (FIPS) Task Groups and to consider other matters relating to Federal information processing standards.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify Joseph O. Harrison, Jr., Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, (Phone 301-921-3551).

Dated: December 12, 1974.

FEDERAL INFORMATION PROCESSING STANDARDS TASK GROUP 13 WORKLOAD DEFINITION AND BENCHMARKING

Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that the Federal Information Processing Standards Task Group 13 (FIPS TG-13), "Workload Definition and Benchmarking," will hold a meeting from 10:00 a.m. to 4:00 p.m. on Wednesday, January 22, 1975, in Room B-255, Building 225, of the National Bureau of Standards at Gaithersburg, Maryland.

The purpose of this meeting is to review the progress of four workgroups which are addressing the areas of Problem Definition, Benchmark Program Transferability, Preliminary Benchmarking Guidelines, and Workload Definition.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify the Executive Secretary, Mr. John F. Wood, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234 (Phone—301–921–3485).

Dated: December 12, 1974.

National Oceanic and Atmospheric Administration

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

Notice of Open Meeting

DECEMBER 13, 1974.

The National Advisory Committee on Oceans and Atmosphere (NACOA) will hold a meeting Monday and Tuesday, January 20 and 21, 1975. Both sessions will be open to the public and will be held in Room 6802 of the U.S. Department of Commerce Building, 15th and Constitution Avenue, NW., Washington, D.C., beginning at 9 a.m.

The Committee, consisting of 25 non-Federal members appointed by the President from State and local governments, industry, science, and other appropriate areas, was established by Congress by Public Law 92–125, on August 16, 1971. Its duties are to: (1) undertake a continuing review of the progress of the marine and atmospheric science and service programs of the United States, (2) submit a comprehensive annual report to the President and to the Congress setting forth an overall assessment of the status of the Nation's marine and atmospheric activities on or before June 30 of each year, and (3) advise the Secretary of Commerce with respect to the carrying out of the purposes of the National Oceanic and Atmospheric Administration.

The agenda will consist of briefings and discussion organized around the following topics:

Monday, January 20. Jurisdictional and regulatory issues in the management of offshore resources.

9:00 a.m. to noon. case studies by industry representatives.

1:30 to 5:00 p.m. views of representatives of State and Federal governments.

Tuesday, January 21. 9:00 a.m. to 1:00 p.m. progress reports from NACOA ad hoc working groups on such topics as coastal zone management, the future of the International Decade of Ocean Exploration, and military/civil weather services.

The public is welcome and will be admitted to the limit of the seating available. Persons wishing to make formal statements should notify the Chairman in advance of the meeting. The Chairman retains the prerogative to place limits on the duration of oral statements and discussion. Written statements may be submitted at any time.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Dr. Douglas L. Brooks whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Department of Commerce Building, Room 5225, Washington, D.C. 20230. Telephone: (202) 967–3143.

DOUGLAS L. BROOKS,
Executive Director.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the licensing policy of each Agency-sponsor.

Copies of patents are available from the Commissioner of Patents, Washington, D.C. 20231, at $0.50 each. Requests for copies of patents must include the patent number.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161, at the prices cited. Requests for copies of patent applications must include the PAT-APPL-number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent Office. Claims and other technical data can usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. Atomic Energy Commission, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent 3,728,170: Plastic-Bonded Explosive Compositions and the Preparation Thereof; filed 6 September 1962, patented 17 April 1973; not available NTIS.

Patent 3,728,270: Chemiluminescent Formulation Containing Inorganic Salt Solution; filed 30 July 1965, patented 17 April 1973; not available NTIS.

Patent 3,728,271: Chemiluminescent Formulation; filed 26 February 1969, patented 17 April 1973; not available NTIS.

Patent 3,728,525: Magnetic Navigation System; filed 19 October 1971, patented 17 April 1973; not available NTIS.

Patent 3,728,696: Inverse Logarithmic Function Generator; filed 28 December 1971, patented 17 April 1973; not available NTIS.

Patent 3,728,717: Digital to Time Interval Converter; filed 27 December 1971, patented 17 April 1973; not available NTIS.

Patent 3,728,719: R-2R Resistive Ladder, Digital-to-Analog Converter; filed 20 March 1972, patented 17 April 1973; not available NTIS.

Patent 3,728,734: Method of Resolving Multiple Sweep Ambiguities Encountered in High Resolution Graphic Recorders and the Like; filed 23 April 1971, patented 17 April 1973; not available NTIS.

Patent 3,728,748: Mooring Apparatus; filed 27 November 1970, patented 24 April 1973; not available NTIS.

Patent 3,729,350: Composition for Forming Cloud of Incapacitating Agent Upon Detonation; filed 2 February 1970, patented 24 April 1973; not available NTIS.

Patent 3,729,351: Flare Composition Comprising Dry Blend of Metal Fuel and Eutectic Mixture of Oxidizer Salts; filed 1 October 1969, patented 24 April 1973; not available NTIS.

Patent 3,729,586: Earphone Receiver Attenuation Measurement Technique; filed 11 November 1971, patented 24 April 1973; not available NTIS.

Patent 3,729,679: Suppressed Carrier Single-Sideband Signal Detection; filed 25 August 1971, patented 24 April 1973; not available NTIS.

Patent 3,729,730: Instantaneous Frequency Diversity Radar System; filed 28 July 1966, patented 24 April 1973; not available NTIS.

Patent 3,729,742: Simultaneous Sum and Difference Pattern Technique for Circular Array Antennas; filed 14 August 1972, patented 24 April 1973; not available NTIS.

Patent 3,729,829: Double Cantilever Split-Pin Displacement Gage; filed 22 October 1971, patented 1 May 1973; not available NTIS.

Patent 3,729,903: Carbon Dioxide Sorbent for Confined Breathing Atmospheres; filed 21 April 1971, patented 1 May 1973; not available NTIS.

Patent 3,729,980: Hydrodynamic Shock Simulator; filed 2 March 1972, patented 1 May 1973; not available NTIS.

Patent 3,730,099: Controlled Descent System; filed 17 December 1970, patented 1 May 1973; not available NTIS.

Patent 3,730,789: Monopropellant Composition Including Hydroxylamine Perchlorate; filed 8 July 1969, patented 1 May 1973; not available NTIS.

Patent 3,731,075: Automatic Rate Tracker; filed 29 June 1962, patented 1 May 1973; not available NTIS.

Patent 3,731,116: High Frequency Field Effect Transistor Switch; filed 2 March, 1972, patented 1 May 1973; not available NTIS.

Patent 3,731,264: Apparatus for Determining the Position of a Surface Vessel with Respect to a Signal Source; filed 24 January, 1972, patented 1 May 1973; not available NTIS.

Patent 3,731,304: Track-Before-Detect System; filed 8 September 1961, patented 1 May 1973; not available NTIS.

Patent 3,731,306: Sea State Analyzer Using Radar Sea Return; filed 24 January, 1972, patented 1 May 1973; not available NTIS.

Patent 3,731,315: Circular Array with Butler Submatrices; filed 24 April 1972, patented 1 May 1973; not available NTIS.

Patent 3,731,316: Butler Submatrix Feed for a Linear Array; filed 25 April 1972, patented 1 May 1973; not available NTIS.

Patent 3,731,742: Fire Control Apparatus Air Pollution Product Abatement; filed 30 October 1971, patented 8 May 1973; not available NTIS.

Patent 3,732,413: Light Producing Device; filed 30 September 1965, patented 8 May 1973; not available NTIS.

Patent 3,732,626: Spline Wear Measurement Gage; filed 22 January 1969, patented 15 May 1973; not available NTIS.

Patent 3,732,630: Visual Simulator; filed 21 October 1970, patented 15 May 1973; not available NTIS.

Patent 3,732,918: Bottom-Freezing Apparatus; filed 11 March 1971, patented 15 May 1973; not available NTIS.

Patent 3,733,073: Torsion Bar for Raising and Lowering a Target; filed 20 March 1972, patented 15 May 1973; not available NTIS.

Patent 3,733,542: Frequency Step Generator; filed 26 June 1972, patented 15 May 1973; not available NTIS.

Patent 3,733,545: Method for Locating Non-linear Mechanical Junctions of Metallic Electrical Conductors; filed 18 April 1972, patented 15 May 1973; not available NTIS.

Patent 3,733,586: Compact Variable Time Base and Delayed Pulse Oscillator; filed 20 April 1972, patented 15 May 1973; not available NTIS.

Patent 3,733,629: Buoyant Matrix Materials; filed 27 May 1971, patented 22 May 1973; not available NTIS.

Patent 3,733,981: Lens Protective System for Deep Sea Camera; filed 17 July 1972, patented 22 May 1973; not available NTIS.

Patent 3,734,019: Vent and Destruct System; filed 29 September 1971, patented 22 May 1973; not available NTIS.

Patent 3,734,788: High Density Solid Propellants and Methods of Preparation Using Fluoropolymers; filed 17 April 1964, patented 22 May 1973; not available NTIS.

Patent 3,737,606: Switch Seal; filed 8 April 1971, patented 5 June 1973; not available NTIS.

Patent 3,743,962: Clipped Correlation to Signal-to-Noise Ratio Meter; filed 21 March 1972, patented 3 July 1973; not available NTIS.

Patent 3,743,942: Compressive Scanning Receiver; filed 16 June 1972, patented 3 July 1973; not available NTIS.

Patent 3,743,951: Voltage Controlled Up-Down Clock Rate Generator; filed 26 April 1972, patented 3 July 1973; not available NTIS.

Patent 3,743,961: Inclined Air Core Solenoid Fields for Lasers; filed 9 February 1972, patented 3 July 1973; not available NTIS.

Patent 3,743,995: Two Color Detector; filed 14 March 1972, patented 3 July 1973; not available NTIS.

Patent 3,744,014: SUS Cable Trolley; filed 3 December 1971, patented 3 July 1973; not available NTIS.

Patent 3,744,015: Automatic Electronic Filter System; filed 14 April 1972, patented 3 July 1973; not available NTIS.

Patent 3,744,718: Luminescent Aerosol Marker; filed 20 May 1970, patented 10 July 1973; not available NTIS.

Patent 3,745,474: High Speed Logarithmic Video Amplifier; filed 20 December 1971, patented 10 July 1973; not available NTIS.

Patent 3,745,517: Distance Measuring Device and Method; filed 11 May 1970, patented 10 July 1973; not available NTIS.

Patent 3,745,519: Small Craft Positioning System; filed 3 June 1971, patented 10 July 1973; not available NTIS.

Patent 3,745,566: Optical Radiation Detector; filed 14 June 1962, patented 10 July 1973; not available NTIS.

Patent 3,745,579: Double Mixing Doppler Simulator; filed 26 February 1969, patented 10 July 1973; not available NTIS.

Patent 3,745,584: Log Periodic Radial Arm-Coupled Loop Antenna; filed 9 June 1971, patented 10 July 1973; not available NTIS.

Patent 3,745,775: Underwater in situ Placement of Concrete; filed 22 November 1971, patented 17 July 1973; not available NTIS.

Patent 3,746,216: Fluid Mixer-Dispenser; filed 10 September 1971, patented 17 July 1973; not available NTIS.

Patent 3,746,454: Infrared Receiver for Optical Radar; filed 3 March 1971, patented 17 July 1973; not available NTIS.

Patent 3,746,782: Shrunken Raster with Image Inserting; filed 4 November 1971, patented 17 July 1973; not available NTIS.

Patent 3,746,799: Method and Apparatus for Encoding and Decoding Analog Signals; filed 27 September 1971, patented 17 July 1973; not available NTIS.

Patent 3,746,920: Lightweight Xenon Lamp Igniter; filed 24 November 1971, patented 17 July 1973; not available NTIS.

Patent 3,746,969: Three-Phase Power Control and Phase Shifter Therefor; filed 3 February 1972, patented 17 July 1973; not available NTIS.

Patent 3,747,021: Wide Range Continuously Tunable Thin Film Laser; filed 18 July 1969, patented 17 July 1973; not available NTIS.

Patent 3,747,046: Receptacle for Large Scale Integrated Circuit (L.S.I.) Package; filed 22 October 1971, patented 17 July 1973; not available NTIS.

Patent 3,747,100: Apparatus for Identifying Main Lobe Responses; filed 20 July 1970, patented 17 July 1973; not available NTIS.

Patent 3,747,342: Control System for Flexible Seal Movable Nozzle; filed 18 November 1970, patented 24 July 1973; not available NTIS.

Patent 3,747,474: Controlled Acceleration Ejector Piston; filed 23 August 1971, patented 24 July 1973; not available NTIS.

Patent 3,747,528: Aircraft Parachute Flare Having Tapered Core Candle; filed 25 February 1972, patented 24 July 1973; not available NTIS.

Patent 3,747,877: Load Equalizing Sling; filed 21 October 1971, patented 24 July 1973; not available NTIS.

Patent 3,747,167: Method for Applying an Acoustic Barrier; filed 9 August 1971, patented 24 July 1973; not available NTIS.

Patent 3,748,374: Multi-Color Periscope View Simulator; filed 7 February 1972, patented 24 July 1973; not available NTIS.

Patent 3,748,569: Regulated Short Circuit Protected Power Supply; filed 13 April 1972, patented 24 July 1973; not available NTIS.

Patent 3,748,751: Laser Machine Gun Simulator; filed 7 September 1971, patented 31 July 1973; not available NTIS.

Patent 3,748,904: Semiconductor Electromagnetic Radiation Isolated Thermocouple; filed 28 May 1971, patented 31 July 1973; not available NTIS.

Patent 3,749,017: Parachute Retarding Tail Assembly for Bomb; filed 7 December 1971, Patented 31 July 1973; not available NTIS.

Patent 3,749,024: Outgassing Technique; filed 26 April 1971, patented 31 July 1973; not available NTIS.

Patent 3,749,962: Traveling Wave Tube with Heat Pipe Cooling; filed 24 March 1972, patented 31 July 73; not available NTIS.

Patent 3,750,040: Transistor Delay Line Driver; filed 21 June 1972, patented 31 July 1973; not available NTIS.

Patent 3,750,163: IFF-System; filed 23 January 1962, patented 31 July 1973; not available NTIS.

Patent 3,750,173: Frequency Translating Repeater (Boomerang) Using Single-Sideband Techniques; filed 29 July 1970, patented 31 July 1973; not available NTIS.

Patent 3,750,243: Low Loss Electrical Conductive Coating and Bonding Materials Including Magnetic Particles for Mixing; filed 16 December 1968, patented 7 August 1973; not available NTIS.

Patent 3,751,476: Bis(2-Fluoro-2,2-Dinitroethyl) Nitrosamine; filed 29 January 1970, patented 7 August 1973; not available NTIS.

Patent 3,751,900: Remote Time Transfer System with Epoch Pulse; filed 28 April 1971, patented 14 August 1973; not available

Patent 3,752,078: Dispenser Cargo Section; filed 21 January 1972, patented 14 August 1973; not available NTIS.

Patent 3,752,591: Sextant with Digital Readout and Night Viewing Capability; filed 4 August 71, patented 14 August 1973; not available NTIS.

Patent 3,752,992: Optical Communication System; filed 28 May 1969, patented 14 August 1973; not available NTIS.

Patent 3,753,066: Digital Two-Speed Motor Control; filed 6 May 1972, patented 14 August 1973; not available NTIS.

Patent 3,753,122: Sample-and-Hold Circuit; filed 3 March 1972, patented 14 August 1973; not available NTIS.

Patent 3,753,215: Cable Connector; filed 12 April 1971, patented 14 August 1973; not available NTIS.

Patent 3,753,218: Electro-Mechanical Acoustic Filter; filed 21 September 1956, patented 14 August 1973; not available NTIS.

Patent 3,753,403: Static Discharge for Electro-Explosive Devices; filed 19 September 1968, patented 21 August 1973; not available NTIS.

Patent 3,753,422: Marine Mammal Automatic Float Locating and Restraining Device and Method; filed 26 June 1972, patented 21 August 1973; not available NTIS.

Patent 3,753,656: Gas Chromatograph; filed 7 April 1971, patented 21 August 1973; not available NTIS.

Patent 3,754,121: Solid State Instrument System for Digital Counting and Continuously Indicating Count Results; filed 28 July 1972, patented 21 August 1973; not available NTIS.

Patent 3,754,142: High Frequency Lad Line Using Low Frequency Detectors; filed 1 March 1971, patented 21 August 1973; not available NTIS.

Patent 3,754,257: Bi-Static Circularly Symmetric Retrodirective Antenna; filed 25 February 1972, patented 21 August 1973; not available NTIS.

Patent 3,754,258: Linear or Planar Retrodirective Antenna System; filed 25 February 1972, patented 21 August 1973; not available NTIS.

Patent 3,754,262: High Resolution Recorder; filed 22 December 1972, patented 21 August 1973; not available NTIS.

Patent 3,754,596: Cooling System for Multiple Electrical Equipments; filed 3 December 1971, patented 28 August 1973; not available NTIS.

Patent 3,755,698: Free-Flooded Ring Transducer with Slow Wave Guide; filed 25 April 1972, patented 28 August 1973; not available NTIS.

Patent 3,755,731: System for Detecting Drop-out and Noise Characteristics of Magnetic Tape with Switch Means to Select Which Characteristics to be Detected; filed 10 January 1972, patented 28 August 1973; not available NTIS.

Patent 3,755,750: Noise Suppression Filter; filed 30 March 1972, patented 28 August 1973; not available NTIS.

Patent 3,755,814: Precision Transponder System; filed 8 February 1971, patented 28 August 1973; not available NTIS.

Patent 3,771,065: Tunable Internal-Feedback Liquid Crystal-Dye Laser; filed 9 August 1972, patented 6 November 1973; not available NTIS.

Patent 3,771,150: Three Dimensional Optical Information Storage System; filed 20 April 1971, patented 6 November 1973; not available NTIS.

Patent 3,771,484: Inflatable Floating Island; filed 14 April 1972, patented 13 November 1973; not available NTIS.

Patent 3,771,880: Roughness Analyzer; filed 29 September 1971, patented 13 November 1973; not available NTIS.

Patent 3,773,284: Controllable Multi-Stage Increasing Drag Parachute; filed 25 February 1972, patented 20 November 1973; not available NTIS.

Patent 3,774,159: Apparatus and Method for Determining the Profile of an Underwater Target; filed 24 November 1972, patented 20 November 1973; not available NTIS.

Patent 3,774,165: Apparatus for Processing the Flow of Digital Data; filed 2 August 1972, patented 20 November 1973; not available NTIS.

Patent 3,774,207: Nadir Seeker Orientation of a Space Vehicle in Relation to the Planet Being Orbited; filed 25 April 1972, patented 20 November 1973; not available NTIS.

Patent 3,774,540: Terradynamic Brake; filed 1 December 1971, patented 27 November 1973; not available NTIS.

Patent 3,775,199: Nitrogen Generator; filed 13 October 1972, patented 27 November 1973; not available NTIS.

Patent 3,775,268: Use of Lead in a Nonorganic-Containing Copper Pyrophosphate Bath; filed 30 December 1971, patented 27 November 1973; not available NTIS.

Patent 3,775,558: Digital Phase Discriminators and Video Gate Generators; filed 13 December 1971, patented 27 November 1973; not available NTIS.

Patent 3,775,735: Apparatus for Scanning an Underwater Area; filed 1 May 1972, patented 27 November 1973; not available NTIS.

Patent 3,775,770: Method and Means for Performing Distribution-Free Detection of Signals in Noise; filed 31 March 1972, patented 27 November 1973; not available NTIS.

Patent 3,775,976: Lox Heat Sink System for Underwater Thermal Propulsion System; Filed 26 May 1972, patented 4 December 1973; not available NTIS.

Patent 3,776,058: Multi-Axis Hand Controller; filed 17 May 1972, patented 4 December 1973; not available NTIS.

Patents 3,734,480: Lamellar Crucible for Induction Melting Titanium; filed 8 February 1972, patented 22 May 1973; not available NTIS.

National Aeronautics and Space Administration, Assistant General Council for Patent Matters, NASA Code GP-2, Washington, D.C. 20546.

Patent application 440,918: Photographic Film Restoration System; filed 8 February 1974; PC $3.25/MF $2.25.

Patent application 493,360: Field Sequential Stereo Television; filed 31 July 1974; PC $3.25/MF $2.25.

Patent application 500,981: Ion and Electron Detector for Use in an Ior Spectrometer; filed 27 August 1974; PC $3.25/MF $2.25.

Patent application 502,138: An Optical Process for Producing Classification Maps from Multispectral Data; filed 30 August 1974; PC $3.75/MF $2.25.

Patent 3,830,094: Method and Device for Detection of Surface Discontinuities or Defects; patented 20 August 1974; not available NTIS.

Patent 3,830,335: Noise Suppressor; patented 20 August 1974; not available NTIS.

Patent 3,830,673: Preparing Oxidizer Coated Metal Fuel Particles; Patented 20 August 1974; not available NTIS.

Patent 3,831,117: Capacitance Multiplier and Filter Synthesizing Network; patented 20 August 1974; not available NTIS.

Patent 3,832,764: Tool for Use in Lifting Pin Supported Objects; patented 3 September 1974; not available NTIS.

Patent 3,832,781: Measuring Probe Position Recorder; patented 3 September 1974; not available NTIS.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

NATIONAL ADVISORY BODIES

Notice of Meetings

The Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, announces the meeting dates and other required information for the following national advisory bodies scheduled to assemble the month of January 1975:

Committee name	Date, time, place	Type of meeting and/or contact person
Continuing Education Training Review Committee.	Jan. 2 and 3, 9 a.m., Executive Room, Shoreham Hotel, Washington, D.C.	Open—Jan. 2, 9 to 10 a.m., closed—otherwise contact Jeanette Chamberlain, 301-443-4795, Parklawn Bldg., room 9C-22, 5600 Fishers Lane, Rockville, Md. 20852.

Purpose. The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to training activities and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda. From 9 to 10 a.m., January 2, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552(b)(6), Title 5 U.S. Code and section 10(d) of Pub. L. 92–463.

* * * * *

Committee name	Date, time, place	Type of meeting and/or contact person
Epidemiologic Studies Review Committee.	Jan. 6 and 7, 9 a.m., Conference Room G101, Sheraton Park Hotel, Washington, D.C.	Open—Jan. 6, 9—10 a.m., closed—otherwise contact Dr. Shirley Reff-Margolis, 301-443-3774, Parklawn Bldg., Room 10C-00, 5600 Fishers Lane, Rockville, Md. 20852.

Purpose. The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to research and training activities and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda. From 9 to 10 a.m., January 6, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552(b)(4) and 552(b)(6), Title 5 U.S. Code and section 10(d) of Pub. L. 92–463.

Committee name	Date, time, place	Type of meeting and/or contact person
Mental Health Services Research Review Committee.	Jan. 6 to 8, 9 a.m., La Posada Motel, Santa Fe, N. Mex.	Open—Jan. 6, 9 to 10 a.m., closed—otherwise contact James T. Cumiskey, 301-443-3626, Parklawn Bldg., room 11-105, 5600 Fishers Lane, Rockville, Md. 20852.

Purpose. The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to research activities and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda. From 9 to 10 a.m., January 6, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552(b)(4) and 552(b)(6), Title 5 U.S. Code and section 10(d) of Pub. L. 92–463.

Committee name	Date, time, place	Type of meeting and/or contact person
Alcohol Research Review Committee.	Jan. 7 to 9, 9 a.m., Embassy Row Hotels, Washington, D.C.	Open—Jan. 7, 9 to 10 a.m., closed—otherwise contact J. O. Twegarden, 301-443-4228, Parklawn Bldg., room 6C-05, 5600 Fishers Lane, Rockville, Md. 20852.

Purpose. The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute on Alcohol Abuse and Alcoholism relating to research activities and makes recommendations to the National Advisory Council on Alcohol Abuse and Alcoholism for final review.

Agenda. From 9 to 10 a.m., January 7, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552(b)(4) and 552(b)(6), Title 5 U.S. Code and section 10(d) of Pub. L. 92–463.

Committee name	Date, time, place	Type of meeting and/or contact person
Juvenile Problems Research Review Committee.	Jan. 9 and 10, 8:45 a.m., Farragut Room, Washington Hilton Hotel, Washington, D.C.	Open—Jan. 9, 8:45 to 9:20 a.m., closed—otherwise contact Diana Souder, 301–443–3566, Parklawn Bldg., room 10–99, 5600 Fishers Lane, Rockville, Md. 20852.

Purpose. The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to research activities and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda. From 8:45 to 9:30 a.m., January 9, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552(b)(4) and 552(b)(6), Title 5 U.S. Code and section 10(d) of Pub. L. 92–463.

Committee name	Date, time, place	Type of meeting and/or contact person
Metropolitan Mental Health Problems Review Committee.	Jan. 9 and 10, 9 a.m., Ramsay Room, Ramada Inn of Alexandria, Alexandria, Va.	Open—Jan. 9, 9 to 10:30 a.m., closed—otherwise contact Joan Schulman, 301–443–3873, Parklawn Bldg., room 15–99, 5600 Fishers Lane, Rockville, Md. 20852.

Purpose. The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to research, fellowships, and training activities and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda. From 9 to 10:30 a.m., January 9, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552(b)(4) and 552(b)(6), Title 5 U.S. Code and section 10(d) of Pub. L. 92–463.

Committee name	Date, time, place	Type of meeting and/or contact person
Minority Mental Health Programs Review Committee.	Jan. 9 and 10, 9 a.m., Statler-Hilton Hotel, Washington, D.C.	Open—Jan. 9, 9 to 10:30 a.m., closed—otherwise contact Edna Hardy Hill, 301–443–3724, Parklawn Bldg., room 7–103, 5600 Fishers Lane, Rockville, Md. 20852.

Office of Education

STATE STUDENT INCENTIVE GRANT PROGRAM

State Applications; Closing Date for Receipt

Notice is hereby given that pursuant to the authority contained in section 415C of the Higher Education Act, as amended (20 U.S.C. 1070c-2), applications are being accepted from the 50 States, the District of Columbia, and outlying areas for initial and/or continuing grants under the State Student Incentive Grant Program (Title IV-A, HEA, 20 U.S.C. 1070c—1070c-3).

Applications must be received by the U.S. Office of Education, State Student Incentive Grant Program, on or before the dates indicated in paragraphs A through C, below, as appropriate:

A. For those 41 States and Territories (see list below) which are already active participants in the State Student Incentive Grant Program by reason of having received initial grants for Fiscal Year 1974, applications for Fiscal Year 1975 funds must be received on or before February 3, 1975:

California	North Dakota
Colorado	Ohio
Connecticut	Oklahoma
Delaware	Oregon
Florida	Pennsylvania
Georgia	Rhode Island
Idaho	South Carolina
Illinois	South Dakota
Indiana	Tennessee
Iowa	Texas
Kansas	Utah
Kentucky	Vermont
Maine	Virginia
Maryland	Washington
Massachusetts	West Virginia
Michigan	Wisconsin
Minnesota	American Samoa
Missouri	Puerto Rico
Nebraska	Trust Territory
New Jersey	Virgin Islands
New York	

B. For those 9 jurisdictions (see list below) for which Fiscal Year 1974 funds have been reserved contingent upon appropriations of State matching funds, applications for Fiscal Year 1975 funds must be received on or before April 15, 1975:

Arkansas	New Hampshire
District of Columbia	New Mexico
Mississippi	North Carolina
Montana	Wyoming
Nevada	

C. For those 6 jurisdictions (see list below) which did not receive Fiscal Year 1974 funds and thus have not previously participated in this program, applications for initial grants from Fiscal Year 1975 funds must be received on or before April 15, 1975:

Alabama	Hawaii
Alaska	Louisiana
Arizona	Guam

D. *Applications sent by mail.* An application sent by mail should be addressed as follows: Dr. Richard L. McVity, Director, State Student Incentive Grant Program (SSIGP), Bureau of Postsecondary Education, U.S. Office of Education, Regional Office Building #3, Room 4525, Washington, D.C. 20202. An application sent by mail will be considered to be received on time by the State Student Incentive Grant Program if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or, if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

E. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education, State Student Incentive Grant Program, Room 4525, Regional Office Building #3, 7th and D Streets, S.W., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4:00 p.m. on the closing date.

F. *Program information and forms.* Information and application forms may be obtained from the State Student Incentive Grant Program, Bureau of Postsecondary Education, Office of Education, Room 4525, 7th and D Streets, SW, Washington, D.C. 20202.

G. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulation (45 CFR Parts 100a and 100b) published in the FEDERAL REGISTER on November 6, 1973 at page 30654 and State Student Incentive Grant Program Regulations (45 CFR 192) published in the FEDERAL REGISTER on May 31, 1974 at page 19213 and the amendments published in this issue of the FEDERAL REGISTER.

(20 U.S.C. 1070c-1070c-3)

Dated: November 14, 1974.

T. H. BELL,
U.S. Commissioner of Education.

BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

Applications for Determination of Basic Grant Eligibility; Closing Date for Receipt

Pursuant to the authority contained in § 411 (b) (1) of Title IV, Part A, Subpart 1 of the Higher Education Act of 1965 as amended (20 U.S.C. 1070a(b)(1)), notice is hereby given that the United States Commissioner of Education has established a final cutoff date for the receipt of applications for the determination of expected family contributions (student eligibility index) under the Basic Educational Opportunity Grant Program. Under this program the calculation of an expected family contribution is a prerequisite to receiving a Basic Educational Opportunity Grant.

In order to be eligible to receive a Basic Educational Opportunity Grant for the academic year ending June 30, 1975 applications for determining expected family contributions for the academic year 1974-75 must be received by the Office of Education at the following address, BEOG, P.O. Box 2264, Washington, D.C. 20013 on or before March 15, 1975. Information and application forms may be obtained at institutions of higher education, high schools, or from the Office of Education at the following address, BEOG, P.O. Box 84, Washington, D.C. 20044.

Pursuant to §§ 190.15 and 190.16 of the Basic Educational Opportunity Grant Program Regulations (45 CFR 190.15, 16, 39 FR 39412, 39416, November 6, 1974), applicants may request a recomputation of their expected family contributions (student eligibility index) because of (1) clerical or arithmetic error (190.15), or (2) extraordinary circumstances affecting the expected family contribution determination (190.16). Request for such recomputations must be received by the Office of Education no later than five weeks after the processing date indicated on the latest Student Eligibility Report received. Requests for recomputation because of clerical or arithmetic error shall be submitted to the Office of Education at the following address: BEOG, P.O. Box 1842, Washington, D.C. 20013. Requests for recomputation based on extraordinary circumstances shall be submitted to the Office of Education at the following address: BEOG, P.O. Box 2264, Washington, D.C. 20013.

An application sent by mail will be considered received on time if the application was sent by registered or certified

mail not later than the fifth calendar day prior to the closing date (or if such fifth day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service.

It should be noted that in order to receive a Basic Grant for an academic year a student must apply for such a grant by submitting his Student Eligibility Report to the institution in which he is enrolled no later than May 31, 1975; except that if a student begins his enrollment after May 1, 1975, he must submit his Student Eligibility Report to the institution in which he is enrolled in no later than June 30, 1975. (45 CFR 190.76, 39 FR 41801, December 2, 1974).

((20 U.S.C. 1070a); 45 CFR 190.15–16, 76)

Dated: December 11, 1974.

T. H. BELL,
U.S. Commissioner of Education.

EARLY EDUCATION FOR HANDICAPPED CHILDREN

Notice of Extension of Closing Date for Receipt of Applications

Notice is hereby given that the U.S. Commissioner of Education has extended the December 19, 1974 closing date for receipt of application for support of new and continuation early education projects under section 623 of the Education of the Handicapped Act (20 U.S.C. 1414), previously published in the FEDERAL REGISTER at 39 FR 38406 on October 31, 1974, to January 6th, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, SW., Washington, D.C. 20202, Attention: 13.444. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education).

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and applications may be obtained from the Program Development Branch, Bureau of Education for the Handicapped, U.S. Office of Education, 400 Maryland Ave., SW., Washington, D.C. 20202. (20 U.S.C 1414)

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a) published in the FEDERAL REGISTER on November 6, 1973, at 38 FR 30654 and the regulations governing the Early Education for Handicapped Children Program published in the FEDERAL REGISTER on May 25, 1973 at 38 FR 13744–13745 (45 CFR Part 121, Subpart C–3). A notice of proposed rulemaking which would revise these regulations was published in the FEDERAL REGISTER on October 11, 1973 at 38 FR 28234–28237, proposed 45 CFR Part 121d. When republished in final form, the proposed regulations will supersede 45 CFR Part 121, Subpart C.

(Catalog of Federal Domestic Assistance, No. 13.444 Early Education for Handicapped Children)

Dated: December 11, 1974.

T. H. BELL,
U.S. Commissioner of Education.

Office of the Secretary

SECRETARY'S ADVISORY COMMITTEE ON THE RIGHTS AND RESPONSIBILITIES OF WOMEN

Notice of Meeting

The Secretary's Advisory Committee on the Rights and Responsibilities of Women, which was established to review the policies, programs, and activities of the Department of Health, Education, and Welfare relative to women and to make recommendations to the Secretary on how to better the services of HEW's programs to meet these special needs of women, will meet on Thursday and Friday, January 23–24, 1975 from 9 a.m. to 5 p.m. in Room 1137, HEW North Building, 330 Independence Ave., S.W., Washington, D.C. The agenda includes the consideration of a new operational process for the Committee to work with the DHEW and the development of its work priority areas for 1975.

Interested persons wishing to address the Committee, should contact the Acting Executive Secretary by COB Monday, January 20th. Phone: 202–245–8454. Written statements received by January 20th will be duplicated and distributed to the members. Members of the public are invited to attend the meeting.

SANDRA S. KRAMER,
Acting Executive Secretary, Secretary's Advisory Committee on the Rights and Responsibilities of Women.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Interstate Land Sales Registration

[Docket No. 74–127]

ROYAL PALM BEACH COLONY

Notice of Hearing

Notice is hereby given that:

1. Royal Palm Beach Colony, Inc., Herbert L. Kaplan, President its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90–448) (15 U.S.C. 1701 et seq), received a Notice of proceedings and opportunity for hearing issued October 11, 1974, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR §§ 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Royal Palm Beach Colony Subdivision, located in Palm Beach County, Florida, contain untrue statements of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an answer received November 1, 1974, in response to the Notice of proceedings and opportunity for hearing.

3. In said answer the Respondent requested a hearing on the allegations contained in the Notice of proceedings and opportunity for hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge Lewis F. Parker, in room 9260, Department of HUD, 451 7th Street, SW., Washington, D.C. on December 20, 1974, at 10 a.m.

The following time and procedure is applicable to such hearing:

All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington D.C., 20410 on or before December 13, 1974.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceeding shall be determined against Respondent, the allegations of which shall be deemed to be true, and an Order suspending the statement of record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: December 13, 1974.

LEWIS F. PARKER,
Administrative Law Judge.

[Docket No. 74-37; Notice 6]

PUERTO RICO

Implementation of Interim Agreement

By notice of November 25, 1974, (39 FR 41196) I approved an interim agreement between the Commonwealth of Puerto Rico, the Federal Highway Administration, and the National Highway Traffic Safety Administration in the matter of highway safety sanctions proceedings instituted by notice of October 21, 1974 (39 FR 37411).

In accordance with the terms of the agreement I hereby direct (1) that upon apportionment of the highway safety funds for Fiscal Year 1976 the apportionment to Puerto Rico will be suspended pending the outcome of any subsequent proceedings in this matter, and (2) that upon apportionment of the Federal-aid highway construction funds for Fiscal Year 1976 the condition be inserted with respect to Puerto Rico that Puerto Rico's apportionment may be reduced upon an adverse determination in this matter.

(Sec. 101, Pub. L. 89-564, 80 Stat. 731, 23 U.S.C. 402; and 23 CFR 1206.9)

Issued on December 12, 1974.

CLAUDE S. BRINEGAR,
Secretary,
Department of Transportation.

ATOMIC ENERGY COMMISSION

AD HOC ISOTOPES SUBCOMMITTEE GENERAL ADVISORY COMMITTEE

Notice of Meeting

DECEMBER 11, 1974.

In accordance with the purposes of section 26 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2036), the Isotopes Subcommittee of the General Advisory Committee will hold a meeting beginning at 9 a.m. at the Stanford Research Institute in Menlo Park, California, on January 3, 1975, for the purpose of discussing the laser isotopes separation program.

The meeting will be held in executive session and will include discussion of the laser isotopes separation (LIS) programs of both the Oak Ridge National Laboratory and the Department of Defense, in addition to considering the role of the AEC Division of Physical Research in LIS and the question of satisfying construction needs.

The meeting will not be open to the public under the authority of section 10(d) of Pub. L. 92-463 (Federal Advisory Committee Act). I have determined that it is necessary to close the meeting to discuss certain information that is classified and falls within exemptions (1) and (3) of 5 U.S.C. 552(b); information that is commercially privileged and falls within exemption (4) of 5 U.S.C. 552(b); and to exchange opinions and formulate recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the meeting will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close the meeting to protect such classified or privileged information and to protect the free interchange of internal views and avoid undue interference with Commission and Subcommittee operation.

JOE B. LA GROVE,
Acting Advisory Committee Management Officer.

[Docket 40-8022]

UTAH INTERNATIONAL INC.

Shirley Basin Uranium Mill, Availability of Final Environmental Statement for the

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in 10 CFR Part 51, notice is hereby given that the final environmental statement prepared by the Commission's Directorate of Licensing, related to Utah International's Shirley Basin Uranium Mill currently operating under an interim license in Carbon County, Wyoming, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. and in the local Public Document Room established at the Carbon County Public Library, Rawlings, Wyoming. The final environmental statement is also being made available at the Wyoming State Clearinghouse, State Planning Coordinator, Office of the Governor, Capital Building, Cheyenne, Wyoming 82001.

The notice of availability of the draft environmental statement for the Shirley Basin Uranium Mill and requests for comments from interested persons was published in the FEDERAL REGISTER on June 6, 1974 (39 FR 20096). The comments received from Federal, State, local and interested members of the public have been included as appendices to the final environmental statement.

Single copies of the final environmental statement may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Acting Deputy Director for Fuels and Materials, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 10th day of December, 1974.

For the Atomic Energy Commission.

RICHARD E. CHITWOOD,
Chief, Technical Support Branch,
Directorate of Licensing.

[FR Doc.74-29104 Filed 12-17-74;8:45 am]

[Docket No. 50-255]

CONSUMERS POWER CO.

Receipt of Application of Facility Operating License

Notice is hereby given that the Atomic Energy Commission (the Commission) has received an application for a full-term facility operating license from the Consumers Power Company (the licensee) to possess, use, and operate the Palisades Plant (the facility), located in Covert Township on the licensee's site in Van Buren County, Michigan, at an increased power level of up to 2,638 megawatts thermal. The currently authorized full-power level is up to 2,200 megawatts thermal.

The licensee has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, a special environmental report which discusses environmental considerations related to the proposed operation of the facility.

The Commission will consider the licensee's special environmental report in accordance with the provisions of 10 CFR Part 51.

The Commission will consider the issuance of a full-term facility operating license to the Consumers Power Company which would authorize the licensee to possess, use, and operate the Palisades Plant in accordance with the provisions of the license and the technical specifications appended thereto upon: (1) The completion of a favorable safety evaluation on the application by the Commission's Directorate of Licensing; (2) the completion of the environmental review required by the Commission's regulations in 10 CFR Part 51; (3) the receipt of a report on the licensee's application by the Advisory Committee on Reactor Safeguards; and (4) a finding by the Commission that the application for a full-term facility operating license, as amended, complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations in 10 CFR Chapter I. Construction of the facility was authorized by Construction Permit No. CPPR-25, issued by the Commission on March 13, 1967. The facility is presently being operated in accordance with Provisional Operating License No. DPR-20, as amended.

The full-term facility operating license will not be issued until the Commission has made the findings, reflecting its review of the application under the Act, which will be set forth in the proposed license and has concluded that the

issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. The licensee has satisfied its obligation concerning indemnification as required by section 170 of the Act and 10 CFR Part 140 of the Commission's regulations.

On or before January 17, 1975, the licensee may file a request for a hearing with respect to issuance of the full-term facility operating license and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR § 2.714. As required in 10 CFR § 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner, including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., by January 17, 1975. A copy of the petition and/or request should also be sent to the Chief Hearing Counsel Office of the General Counsel, Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545 and to Judd L. Bacon, Senior Attorney, Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201 and R. Rex Renfrow, III, Esquire, Isham, Lincoln & Beale, One First Natoinal Plaza, Chicago, Illinois 60670, attorneys for the licensee.

A petition for leave to intervene which is not timely will not be granted unless the Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on the petition determines that the petitioner has made a substantial showing of good cause for failure to file on time and after considering this factors specified in 10 CFR, §§ 2.714(a) (1)–(4) and 7.14(d).

For further details with respect to the matters under consideration, see the licensee's application dated January 22, 1974, which also contains the licensee's special environmental report (section 7), which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Michigan. The Commission's Final Environmental Statement issued June 1972 is available for public inspection at the above locations, and as they become available, the following documents may be inspected at the above locations: (1) The safety evaluation report prepared by the Directorate of Licensing; (2) the Commission's consideration of the licensee's special environmental report pursuant to 10 CFR Part 51; and (3) the report of the Advisory Committee on Reactor Safeguards on the application for a full-term facility operating license.

Copies of the Commission's Final Environmental Statement issued June 1972 and copies of items (1) through (3), when available, may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 11th day of December 1974.

For the Atomic Energy Commission.

ROBERT A. PURPLE, *Chief,*
Operating Reactors Branch #1,
Directorate of Licensing.

VIRGINIA ELECTRIC AND POWER CO.

Order Rescheduling Prehearing Conference

Before the Atomic Safety and Licensing Board; In the matter of Virginia Electric and Power Company; (North Anna Power Station, Units 1 and 2).

By joint Motion dated December 10, 1974, the parties have requested the Board to postpone until after January 15, 1975, the prehearing conference now scheduled for December 17, 1974. The parties through counsel for Regulatory Staff state that they have agreed to a joint statement of issues and will proceed with informal discovery thereon.

For good cause shown, the Board grants the Motion and hereby cancels the prehearing conference for December 17, 1974. It will be rescheduled at a later date.

It is so ordered.

CIVIL AERONAUTICS BOARD

[Docket No. 27212; Order 74-12-45]

AIR-SIAM AIR COMPANY LTD.

Statement of Tentative Findings and Conclusions and Order To Show Cause

DECEMBER 12, 1974.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 12th day of December, 1974.

In Order E-25071, approved by the President on April 27, 1967 (46 C.A.B. 433) the Board granted to VaranAIR-SIAM Air Company Limited, an airline of Thailand, a permit authorizing the carrier to engage in foreign air transportation with respect to persons, property, and mail between a point or points in Thailand; the intermediate points Hong Kong; Tokyo, Japan; and Honolulu, Hawaii; and the terminal point Los Angeles, California. The permit was reissued to the carrier in its present name by Order 70-6-74 dated June 11, 1970.

On November 29, 1974, Air-Siam Air Company Limited (Air-Siam) filed an application requesting the Board to amend its foreign air carrier permit so as to add Fukuoka, Japan, as an additional intermediate point on a temporary basis. Fukuoka is located on Kyushu Island approximately 550 miles southwest of Tokyo which is on Honshu Island.

In support of its request, Air-Siam states that: the bilateral agreement between the United States and Thailand provides authority for the designation of Fukuoka as an intermediate point on Air-Siam's route; that Air-Siam operates three round trips per week with B-747 aircraft between Bangkok and Honolulu via Hong Kong and Tokyo, and

plans the addition of two weekly round-trip flights with DC–10 aircraft between Bangkok and Los Angeles via Hong Kong, Tokyo and Honolulu; that the Japanese authorities will not permit both of the two additional DC–10 flights to land at Tokyo due to airport congestion; and that negotiations between Thailand and Japanese authorities, now in the process of being finalized, will provide for the operation of one additional weekly round-trip flight through Fukuoka, Japan, until a new airport at Narita, serving Tokyo, has become operational.

The Board has tentatively determined that the foreign air carrier permit of Air-Siam should be amended to add Fukuoka, Japan, as an additional intermediate point on the carrier's route for a period of two years. The carrier has been authorized by the Board to serve Tokyo, Japan, and is now serving the point. Its request to serve Fukuoka stems solely from the Japanese Government's prohibition of an additional DC–10 flight as a result of congestion at Tokyo. The authority to serve the point would be for a temporary period. The application is supported by the Government of Thailand. The Department of State, in transmitting the application to the Board, states that, insofar as scheduled air services are concerned, the authority being sought is consistent with the rights granted to the Government of Thailand under the bilateral agreement and that the applicant was designated by the Thai Government in 1966 to exercise these rights. No U.S. carrier operates scheduled service to Fukuoka.

Accordingly, upon consideration of the application, and all the relevant facts, the Board tentatively finds and concludes that it is in the public interest, subject to the approval of the President under section 801 of the Federal Aviation Act, to amend the foreign air carrier permit of Air-Siam so as to authorize the carrier for a period of two years to serve Fukuoka, Japan, as an additional intermediate point on its route between Thailand and the United States. The Board also tentatively finds that Air-Siam is fit, willing, and able properly to perform the foreign air transportation proposed to be authorized herein and to conform to the provisions of the Act and the rules, regulations and requirements of the Board thereunder.

Accordingly, *It is ordered*, That:

1. All interested persons be and they hereby are directed to show cause why the Board should not make final the tentative findings and conclusions herein and, subject to approval by the President pursuant to section 801 of the Federal Aviation Act of 1958, issue an amended foreign air carrier permit to Air-Siam Air Company Limited in the form attached hereto.[1]

2. Any interested person having objections to the tentative findings and conclusions set forth herein or to the issuance of the proposed foreign air carrier permit shall file such objections within 15 days after the date of adoption of this order, and file with the Board and serve on the persons specified in paragraph 5 below, a statement of objections specifying the part or parts of the tentative findings and conclusions objected to and stating the specific grounds of any such objections supported by statistical data and other materials and evidence relied upon to support the stated objections;[2]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board: *Provided*, That the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein if it determines that there are not factual issues presented that warrant the holding of an evidentiary hearing;

4. In the event no objections are filed, all further procedural steps shall be deemed waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein;

5. This order shall be served upon Air Siam Air Company Limited; Northwest Airlines, Inc.; Pan American World Airways, Inc.; Trans World Airlines, Inc.; The Flying Tiger Line Inc.; the Departments of State and Transportation; and the Ambassador of Thailand.

6. This order will be published in the FEDERAL REGISTER and will be transmitted to the President.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

PERMIT TO FOREIGN AIR CARRIER (AS AMENDED)

Air-Siam Air Company Limited is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in foreign air transportation with respect to persons, property, and mail, as follows:

Between a point or points in Thailand; the intermediate points Hong Kong; Fukuoka and Tokyo, Japan; and Honolulu, Hawaii; and the terminal point Los Angeles, California.

The holder shall be authorized to engage in charter trips in foreign air transportation, subject to the terms, conditions, and limitations prescribed by Part 212 of the Board's Economic Regulations.

The authority of the holder to serve the intermediate point Fukuoka, Japan, shall terminate two years after the effective date of this permit.

The holder shall not commence scheduled service between any of the points authorized herein, except pursuant to an initial tariff setting forth rates, fares and charges no lower than rates, fares or charges that are then in effect for any U.S. air carrier engaged in the same scheduled foreign air transportation.

The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Thailand for Thai international air service.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Thailand shall be parties.

The holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E–23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in C.A.B. Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall be effective on _____ Unless otherwise terminated at an earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment thereto, which shall have the effect of eliminating the route hereby authorized from the routes which may be operated by airlines designated by

---

[1] We have included in the proposed permit the liability insurance condition normally imposed by the Board. The proposed permit also contains the rate condition which the Board currently includes in permits of foreign air carriers, for dealing with "initial tariffs" as to which Board suspension power is more limited under the recent amendments to the Federal Aviation Act authorizing the Board generally to suspend fares in foreign air transportation (P.L. 92–259, March 22, 1972.) In addition, we have modified the standard termination clause in the proposed permit to clarify that an amendment to the bilateral agreement eliminating only part of a carrier's route or routes will automatically terminate the carrier's authority to that extent. See, Jugoslovenski Aerotransport (JAT), Order 74–9–33. By Order to Show Cause, Order 74–3–71, March 18, 1974, Docket 26509, the Board proposed certain major revisions to Part 212 of its Regulations. Air Siam was made a party to that proceeding and the revised permit proposed to be issued herein will be subject to any revisions to Part 212 ultimately adopted in Docket 26509.

[2] Since provision is made for the filing of objections to this order, petitions for reconsideration of the order will not be entertained.

the Government of Thailand (or in the event of the elimination of any part of a route or routes hereby authorized, the authority granted shall terminate to the extent of such elimination), or (3) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of Thailand in lieu of the holder hereof, or (3) upon the termination or expiration of the air Trnsport Agreement between the United States and Thailand, effective February 26, 1947, as amended by an exchange of notes, effective March 3, 1970: *Provided, however*, That clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention, or agreement to which the United States and Thailand are or shall become parties.

In witness whereof, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the

[Docket 25513; Agreement C.A.B. 24663, R-1 through R-3; Agreement C.A.B. 24666, R-1 and R-2; Order 74-12-40]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreements Adopted by Traffic Conference 1 Relating to Increased Fuel Costs; Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 13th day of December, 1974.

Orders 74-9-81, September 23, 1974 and 74-9-97, September 27, 1974, established procedural dates for the receipt of carrier justification, comments and/or objections pertaining to an agreement of the members of the International Air Transport Association (IATA) to increase various Western Hemisphere fares as a consequence of escalation in fuel costs. The increase in one-way U.S.-Mexico fares would be six percent of the applicable one-way normal economy fare, and twice that amount in all round-trip fares.[2] U.S.-Caribbean fares would be increased by four percent.[3] U.S.-Central/South America (long-haul) one-way and round-trip first-class fares would be increased by seven percent; all other one-way fares would be increased by a dollar amount equal to eight percent of the applicable specified one-way economy fare from Miami, and round trip fares would be increased by twice the amount applicable to one-way fares.

Statements of justification have been received from American Airlines, Inc. (American); Eastern Air Lines, Inc. (Eastern); Braniff Airways, Inc. (Braniff); Pan American World Airways, Inc. (Pan American) and Western Air Lines, Inc. (Western). The carriers generally assert that past fuel-related fare increases have simply not kept pace with the continuing, drastic escalation in fuel costs, and that accordingly a further adjustment in fares is necessary. The carriers have also submitted financial forecasts for the year ending September 30, 1975 and, except for Braniff's Central/South America operations, none anticipates excess earnings under either present or proposed fares. The submissions are summarized in greater detail in Appendix A.[3]

The Board has carefully reviewed the carriers' justifications, and finds them deficient in certain respects. In some cases, their forecasts appear to include anticipatory cost increases. In others, the forecast is not supported by historical background data, thereby making it difficult to ascertain the degree to which forecast operating costs are based on actual increases in unit costs as opposed to fluctuations in operational levels. Moreover, a comparison of the historical data which have been supplied with Form 41 reports for Latin American Division service discloses discrepancies which cannot be resolved with the information now available to the Board. For this reason, we are directing the carriers to submit additional data, as specified in Appendix C, relating to U.S.-Mexico, U.S.-Caribbean, U.S.-Puerto Rico/Virgin Islands and U.S.-Central/South America operations, respectively.

Pending receipt and analysis of this additional information, the Board has concluded to approve the proposed increase in most U.S.-Mexico fares for the reasons stated below. Action on the remaining agreements (Caribbean, long-haul and U.S. west coast-Mexico) will be deferred. Because U.S.-Mexico revenues and traffic are reported to the Board in Form 41 Statistical Market Reports, it is possible to evaluate the carriers' submissions against historical data, and this comparison shows them to be in line with recent experience. No such comparison is possible for the Caribbean and long-haul routes, and the Board does not have sufficient information from the justifications to act on those agreements.

With respect to the U.S.-Mexico fares, the justifications indicate that, on a composite basis, the carriers will experience a fuel cost increase of $15,033,000 during the forecast period, based on present costs as compared with prices in effect at September 30, 1973. Revenue recovery (including the proposed increase) is estimated at a total of $11,966,000, for a shortfall of $3,067,000. However, neither Eastern nor Pan American include the revenue flowing from the April 1, 1974 general fare increase on most U.S.-Mexico routes. Eastern contends that this exclusion is warranted since the April 1 increase was not exclusively related to escalation in fuel costs. In the Board's opinion, a portion of this revenue is a proper consideration in evaluating the instant proposal. Except for Eastern, the U.S. carriers serving Mexico included fuel as well as other cost increases in their forecasts supporting the April 1 fare increase (in some cases using anticipatory as well as experienced costs), stating that that fare increase was intended to cover escalation in all costs. We have reexamined the justifications for the April 1 fare increase, and estimated that $2,460,000 of the resultant revenue improvement is properly attributable to higher fuel costs. On this basis, total recovery from the previous fare increases plus that proposed here would amount to $14,004,000, for a shortfall of $1,029,000 from that needed to cover experienced fuel cost increases.[4] (See Appendix B). With the exception of Western, none of the U.S. carriers serving Mexico is presently realizing earnings above the 12 percent standard, and all of the carriers' return positions will be eroded by increases in fuel cost already experienced which, as explained above, will not be fully covered by the higher fares.

The Board cannot, however, conclude that the proposed increase is warranted with respect to U.S. west coast-Mexico fares. Western, the only U.S. carrier serving those markets, is currently realizing a 19.79 percent return on investment in Mexico, and appears quite capable of absorbing fuel cost increases to date. Western's own forecast, which predicts a decline in ROI to about 10 percent, reflects Western's anticipated traffic and capacity levels as well as escalations in unit costs, and it is uncertain to what degree the forecast is influenced by each of these two elements. For this reason action will be deferred pending receipt of data in the format prescribed herein.

Finally, the Board cannot approve the proposed restoration of individual return travel on U.S.-Mexico GIT fares. The Board has not favored liberalizing conditions on promotional fares, and approved a previous IATA agreement which required the tour group to travel together for the entire itinerary.[5] We recognize that the Government of Mexico disapproved this portion of the relevant agreement and prefers maintenance of the individual return facility.

---

[1] The agreement also proposes to amend the U.S.-Mexico GIT fares to permit individual travel by tour group members from destination to point of origin during the period October 15, 1974 to January 9, 1975, and ties the effectiveness of this amendment and the proposed fare increase to government approval of both.

[2] The increase would not apply to travel between Baltimore / Boston / Hartford / New York/Philadelphia/Providence / Washington, D.C.-Bermuda/Bahamas and between New York-Port-au-Prince. Florida-Bahamas fares would be increased six percent, and the dollar increase for Miami-Jamaica/Venezuela fares would apply to Los Angeles/San Francisco-Jamaica/Venezuela fares.

[3] Appendices A, B, and C, filed as part of the original document.

[4] Braniff's revenue estimates reflect several fuel-related cargo rate increases since it does not separate fuel cost by type of service. Likewise, Western's forecast fuel consumption apparently includes allocation to cargo service, and, accordingly, the revenue recovery for Western includes an estimate of the revenue from the increased cargo rates.

[5] Order 74-4-144, April 26, 1974, dealing with the overall U.S.-Mexico fare structure.

In the Board's opinion, it would be preferable to replace all U.S.-Mexico GIT fares with individual inclusive tour (IIT) fares, as had already been done in the New York, Philadelphia, and Detroit markets. We expect the carriers to address this issue in connection with their consideration of the fare structure to apply after March 31, 1975. Accordingly, the resolution permitting individual returns will be disapproved.

While the Board will, upon receipt of the required data, process the fuel-related fare increases presently on file, we believe that the apparent leveling off in the price of fuel indicates there is no need for the carriers to continue to resort to this technique. We note that agreements establishing fares and rates in major IATA conference areas are shortly due to expire and suggest that fuel costs be taken into account along with all other costs in the carriers' negotiations to reestablish international fares and rates.

Pursuant to the Federal Aviation Act of 1958 and particularly sections 102, 204(a), and 412 thereof, the Board makes the following findings:

(1) It is not found that the following resolutions are adverse to the public interest or in violation of the Act to the extent they would establish fares other than between Los Angeles, San Francisco, San Diego, Portland, and Seattle, on the one hand, and Mexico City and Acapulco, on the other hand:

Agreement C.A.B.	*IATA Resolution*
24663:	
R-1	100(Mail 962)001b.
R-2	100(Mail 962)005v.

(2) It is found that the following resolution is adverse to the public interest and in violation of the Act:

Agreement C.A.B.	*IATA Resolution*
24663:	
R-3	100 (Mail 962)084ee (Insofar as it applies in air transportation as defined by the Act).

Accordingly, *it is ordered*, That:

1. Those portions of Agreement C.A.B. 24663, R-1 and R-2, set forth in finding paragraph (1) above, be and hereby are approved;

2. Action be and hereby is deferred with respect to Agreement C.A.B. 24666, R-1 and R-2, and with respect to Agreement C.A.B. 24663, R-1 through R-3, to the extent it would establish fares between Los Angeles, San Francisco, San Diego, Portland, and Seattle, on the one hand, and Mexico City and Acapulco on the other hand, pending receipt of the data specified in Appendix C, separately by market area, from the U.S. carrier members of the International Air Transport Association operating U.S.-Mexico, U.S.-Caribbean, U.S.-Puerto Rico/Virgin Islands and U.S.-Central/South America services, respectively, and from Western Air Lines, Inc. in the case of Mexico. The carriers are hereby directed to submit the required data within 30 days of the date of service of this order;

3. That portion of Agreement 24663, R-3, specified in finding paragraph (2) above be and hereby is disapproved;

4. Agreement C.A.B. 24663, R-3, be and hereby is approved insofar as it does not directly affect air transportation as defined by the Act;

5. The direct air carriers and foreign air carriers are hereby authorized to file tariffs reflecting the provisions of those portions of Agreement C.A.B. 24663, R-1 and R-2, set forth in finding paragraph 1 above on not less than one day's notice for effectiveness not earlier than December 16, 1974. The authority granted in this paragraph expires with January 16, 1975; and

6. Tariffs reflecting the provisions of Agreement C.A.B. 24663, R-1 and R-2, shall be marked to expire not later than March 31, 1975.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-32000/155; FRL 307-2]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before February 18, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after February 18, 1975.

APPLICATIONS RECEIVED

EPA File Symbol 6233-RA. Amador Chemical Corp., 1640 N. Broadway St., Stockton CA 95205. AMADOR WESTO-RINSE. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 5%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 5%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 241-EUL. American Cyanamid Co., Agricultural Div., PO Box 400, Princeton, NJ 08540. PROWL TECHNICAL HERBICIDE. Active Ingredients: [N-(1-ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzenamine] 90.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 9601-I. Chardon Laboratories, Inc., 599 Stimmel Rd., PO Box 1004, Columbus OH 43216. SLIMEX-R. Active Ingredients: Disodium cyanodithioimidocarbonate 4.90%; Potassium N-methyldithiocarbamate 6.76%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 11738-L. Chemical Water Treating Engineers, Inc., PO Box 9806, Dallas TX 75214. KEMCIDE-4. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N-methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 4715-GGO. Colorado International Corp., 5321 Dahlia St., Commerce City CO 80022. GREENHOUSE FOGGING SPRAY. Active Ingredients: (5-Benzyl-3-furyl) methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate 3.000%; Related compounds 0.409%; Aromatic Petroleum Hydrocarbons 91.471%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 2968-I. Culligan USA, One Culligan Pkwy., Northbrook IL 60062. CHEMICAL TREATMENT M-35. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N-methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 10810-L. Dacar Chemical Co., Inc., 1007 McCartney St., Pittsburgh PA 15220. DACARCIDE E-18. Active Ingredients: Disodium cyanodithioimidocarbonate 1.47%; Potassium N-methyldithiocarbamate 2.03%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 10810-U. Dacar Chemical Co., Inc., 1007 McCartney St., Pittsburgh PA 15220. DACARCIDE E-6. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N-methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34694-U. Dearborn Aqua-Serv of Wilson, N.C., Inc., PO Box 3897, Wilson NC 27893. TOWERCIDE 705. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N-methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 10163-TN. The Dunn Co., Agricultural Chemicals, PO Box 458, 340 E. Main St., Calipatria CA 92233. PROKIL MALATHION B.T. 4-1.5 DUST. Active Ingredients: Malathion: O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate 4.00%; A pure culture containing ½ billion viable spores of the micro-organism Bacillus thuringiensis Berliner per gram of product. Each milligram of dust contains 320 international units of activity 0.05%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 7048-RN. Edmar Chemical Co., 7800 Bessemer Ave., Cleveland, OH 44127. BIO-MAGIC RINSE G 100 LIQUID FABRIC SOFTENER-BACTERIOSTAT. Active Ingredients: 2,4,4'-Trichloro-2'-Hydroxydiphenyl ether 2.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 10654-G. Environmental Control Systems, Inc., 400 Washington Ave., Baltimore MD 21204. S-F CONCENTRATE. Active Ingredients: n-Alkyl (C14 60%, C16 30%, C12 5%, C18 5%) dimethyl benzylammonium chlorides 6.25%; n-Alkyl (C12 68%, C14 32%) dimethyl ethyl benzylammonium chlorides 6.25%; Tetrasodium ethylenediamine tetraacetate 5.50%; Essential oils 0.50%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 11528-T. Farris Chemical Co., Inc., PO Box 10126, Knoxville, TN 37919. RAF-70. Active Ingredients: Disodium cyanodithioimidocarbonate 4.90%; Potassium N - methyldithiocarbamate 6.76%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA Reg. No. 1386-124. F C X, Inc., PO Box 2419, Raleigh NC 27602. F C X 5% MALATHION DUST. Active Ingredients: Malathion (0,0-dimethyl dithiophosphate of diethyl mercaptosuccinate) 5%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 1763-E. Fields Point Mfg. Corp., Chem. Div., PO Box 2096 Edgewood Sta., Providence RI 02905. SODIUM HYPOCHLORITE 15%. Active Ingredients: Sodium Hypochlorite 15%. Method of Support: Application proceeds under 2(c) of interim policy.

AREAWIDE WASTE TREATMENT MANAGEMENT PLANNING APPROVALS

Area and Agency Designations

Pursuant to section 208 of the Federal Water Pollution Control Act Amendments of 1972, notice is hereby given of approvals of designation of areawide waste treatment management planning areas and agencies for the period November 2, 1974 thru December 2, 1974.

The following area and agency designations have been approved by the Environmental Protection Agency:

Portland, Oregon (Columbia Regional Association of Governments, 6400 S.W. Canyon Court, Portland, Oregon 97221).

Salem, Oregon (Mid-Willamette Valley Council of Governments, 556 Liberty Street S.E., Salem, Oregon 97301).

Eugene-Springfield, Oregon (Lane Council of Governments, 135 Sixth Avenue East, Eugene, Oregon 97401).

Dated: December 12, 1974.

JAMES L. AGEE,
Assistant Administrator,
Water and Hazardous Materials.

[FR Doc.74-29391 Filed 12-17-74;8:45 am]

[FRL 308-2]

HAWAII

Program for Control of Discharges of Pollutants to Navigable Waters

Notice is given hereby that the U.S. Environmental Protection Agency has granted the State of Hawaii's request for approval of its program for controlling discharges of pollutants to navigable waters in accordance with the National Pollutant Discharge Elimination System (NPDES), pursuant to section 402(b) of the Federal Water Pollution Control Act, as amended (P.L. 92-500, 86 Stat. 816; 33 U.S.C. 1251; the Act).

Section 402 of the Act establishes a permitting system, known as the National Pollutant Discharge Elimination System, under which the Administrator of the U.S. Environmental Protection Agency (EPA) may issue permits for the discharge of any pollutant, upon condition that the discharge meets the applicable requirements of the Act. Section 402(b) provides that any State desiring to administer its own permit program for discharges into navigable waters within its jurisdiction may submit such program to the Administrator. If the Administrator determines that the State has adequate authority to carry out the requirements of the Act, he shall approve the submitted program and suspend the issuance of permits as to those navigable waters subject to such program, except with respect to agencies and instrumentalities of the Federal Government. Guidelines specifying procedural and other elements for State NPDES programs appear at 40 CFR Part 124 (as amended by 38 F.R. 18000, July 5, 1973, and 38 F.R. 19894, July 24, 1973).

On August 30, 1974, Hawaii submitted a program for carrying out the NPDES. On October 10, 1974, EPA conducted a public hearing on the proposed approval in Honolulu, Hawaii. After a thorough review of the Hawaii program, the accompanying legal certification, and all comments submitted by the public during and following the public hearing, the Administrator determined that the State's authority was adequate to carry out the requirements of the Act, and so informed Governor John A. Burns in a letter dated November 28, 1974.

As of November 29, 1974, the Hawaii NPDES permit program is being administered by the Hawaii State Department of Health, P.O. Box 3378, Honolulu, Hawaii 96801 (telephone (808) 548-2211). Dr. Walter B. Quisenberry is Director of the Department of Health. The Hawaii program is being administered in accordance with Hawaii statutes and regulations and a Memorandum of Agreement between Hawaii and the EPA Region IX office, 100 California Street, San Francisco, California 94111 (telephone (415) 556-2320). All pertinent documents are available for inspection at the Hawaii State agency and EPA Regional office at the addresses given above and EPA Headquarters in Room 3201, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460.

Dated: December 12, 1974.

ALAN G. KIRK II,
Assistant Administrator,
Enforcement and General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 20254, 20255, File Nos. 11-A-RL-104, 73-A-L-104]

LOWE AVIATION CO., INC. AND ARNOLD AVIATION CORP.

Order Designating Applications for Consolidated Hearing on Stated Issues

By the Chief, Safety and Special Radio Services Bureau: 1. Lowe Aviation Company, Inc. (hereinafter called Lowe) has filed an application for renewal of its license for aeronautical advisory station WIQ8 at the Lewis B. Wilson Airport, Macon, Georgia, and Arnold Aviation Corporation (hereinafter called Arnold) has filed an application for new aeronautical advisory facilities at the same airport. Section 87.251(a) of the Commission's rules provides that only one aeronautical advisory station may be authorized to operate at a landing area and, therefore, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate the applications for a comparative hearing in order to determine which application should be granted. Except for the issues specified herein, each applicant is otherwise qualified.

2. By letter, dated September 25, 1974, Arnold has alleged that the present licensee (Lowe) has violated § 87.257(b) of the rules by not providing impartial information to incoming aircraft concerning available ground services.

3. In view of the foregoing, *it is ordered*, That, pursuant to the provisions of section 309(e) of the Communications Act of 1934, as amended, and § 0.331(b)(21) of the Commission's rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent Order on the following issues:

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications;

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other fixed base operators;

(b) To determine whether Lowe has operated aeronautical advisory station WIQ8 in violation of § 87.257(b) by not providing impartial information concerning available ground services; and

(c) To determine in light of the evidence adduced on the foregoing issues which, if either, of the applications should be granted.

4. *It is further ordered*, That the burden of proof and the burden of proceeding with the introduction of evidence on issue (b) is on Arnold, and on all other issues, the burdens are on each applicant with respect to its application except issue (c) which is conclusory.

5. *It is further ordered*, That to avail themselves of an opportunity to be heard, Lowe and Arnold, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

Adopted: December 2, 1974.

Released: December 11, 1974.

[SEAL]

CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special Radio Services Bureau.

[FR Doc.74-29420 Filed 12-17-74;8:45 am]

[Docket Nos. 20055, 20056, 20057, 20059; File Nos. BPH-8066, BPH-8267, BPH-8351, BPH-8352; FCC 74R-437]

PRAIRIELAND BROADCASTERS, ET AL

FM Broadcast Stations, Applications for Construction Permits

In re applications of Stephen P. Bellinger, Joel W. Townsend, Ben H. Townsend and Reynold Fischmann, d/b as Prairieland Broadcasters, Decatur, Illinois; WBIZ, Inc., Decatur, Illinois; Superior Media, Inc., Decatur, Illinois; L.E.G., Inc. and John G. Cheeks, d/b as Soy Communications Company, A Joint Venture, Decatur, Illinois, for construction permits.

1. This proceeding, involving the above-captioned mutually exclusive applications for authorization to construct a new FM broadcast station in Decatur, Illinois, was designated for hearing by Order of the Chief of the Broadcast Bureau, acting pursuant to delegated authority, 39 FR 19804, published June 4, 1974. Now before the Review Board is a motion to enlarge issues, filed July 30, 1974, by Prairieland Broadcasters (Prairieland) requesting the addition of financial, trafficking, legal disability, violation of law, misrepresentation, lack of candor, and § 1.514 issues against Superior Media, Inc. (Superior).[1]

FINANCIAL ISSUE

2. Prairieland first questions whether Superior possesses the requisite financial ability to construct and operate its proposed FM facility in light of the allegedly incomplete balance sheets filed by two of Superior's stockholders, William L. Burdick and Clyde Copeland.[2] Prairieland contends that Burdick failed to list any personal liabilities on his balance sheet and that he did not reflect the assets and liabilities of Burdick Plumbing and Heating Co., of which he is President and 90 percent owner. Prairieland adds that Copeland's statement lists, as his only asset, $15,000 in "cash on hand or in banks" and $414 in accounts payable as his only liability. While conceding that the statement may, in fact, correctly reflect Copeland's financial status, Prairieland argues that further detail is necessary. Prairieland also alleges that Superior's $6,000 estimate for legal fees is inadequate for a four-party proceeding. According to Prairieland, Superior cannot rely on its surplus of $7,000 because its cash on hand was reduced by approximately $2,000 between the time the original application was filed and the filing of the amendment on September 5, 1973, and the interest rate on its bank loans (specified as 1 percent above a 10 percent prime rate) was underestimated. In addition, Prairieland asserts that Superior failed to provide for any contingencies. The Broadcast Bureau urges that the requested financial issue is without merit, observing that Burdick and Copeland have clearly listed any amounts owed as liabilities in their financial statements and that Burdick is not required to list corporate assets and liabilities in his personal statement. In its opposition, Superior includes affidavits from Burdick and Copeland reaffirming their ability to meet their commitments. Superior also indicates that it is amending its application to show an increase in its bank loans from $110,000 to a total of $125,000.[3] In reply, Prairieland argues that Superior has still not provided a fixed estimate of its legal expenses. Prairieland also questions a proposed loan of $10,000, included in Superior's recent amendment, to Milburn H. Stuckwish, Superior's Vice-President, from his brother, Donald Stuckwish.

3. The Review Board will deny the requested financial issue. First, Prairieland's allegations regarding the balance sheets of Burdick and Copeland are highly speculative and fail to set forth any basis for challenging the figures included therein.[4] Similarly, Prairieland has not provided the supporting documentation required by Rule 1.229(c) to support its claim that Superior's allowance for legal costs is inadequate. See WVOC, Inc., 32 FCC 2d 765, 23 RR 2d 371 (1971), and cases cited therein. In any event, as a result of Superior's amendment, filed September 13, 1974 and granted by the Presiding Judge on October 1, 1974, Superior now apparently has a total of $22,000 in available funds (a $15,000 increase in its bank loans plus its already existing $7,000 surplus)[5] beyond projected operating costs. Although Donald Stuckwish's balance sheet does raise questions regarding his ability to loan the applicant $10,000, a cushion of $12,000 would still be available even discounting the availability of the $10,000 loan, and thus there appear to be sufficient funds to meet any unexpected contingencies including increased legal expenses.

TRAFFICKING ISSUE

4. In support of its requested trafficking issue, Prairieland alleges that Milburn Stuckwish, the Vice-President, director and 18.75 percent shareholder of Superior has engaged in a pattern of

---

[1] Other related pleadings before the Board for consideration are: (a) request for late acceptance, filed July 30, 1974, by Prairieland; (b) opposition, filed September 13, 1974, by Superior; (c) partial opposition, filed September 13, 1974, by the Broadcast Bureau; and (d) reply, filed October 2, 1974, by Prairieland.

[2] The motion to enlarge issues was filed July 30, 1974, approximately six weeks late. (The designation Order in this case was published June 4, 1974, and the 15-day period for filing motions to enlarge expired June 19, 1974.) Although Prairieland has not pleaded sufficient good cause to warrant its acceptance, we are of the view that significant public interest questions have been raised, and therefore the motion will be considered on its merits. *See* The Edgefield-Saluda Radio Co. (WJES), 5 FCC 2d 148, 8 RR 2d 611 (1966).

[3] In an amendment to its application, filed September 5, 1973, Superior estimated its first-year operating costs to be $175,694 with $182,000 in available funds, consisting of cash on hand or in banks, totalling $2,900; new capital totalling $69,700; and loans from banks totalling $110,000. New capital is to be contributed by Superior's six stockholders pursuant to stock subscription agreements. Superior points out that it would have a surplus of $7,000 in available funds.

[4] The petition for leave to amend, filed September 13, 1974, was granted by the Administrative Law Judge on October 1, 1974 (FCC 74M-1268).

[5] *Warwick Broadcasting Corp.* 15 FCC 2d 1015, 15 RR 2d 331 (1969), cited by petitioner, is inopposite. In that case, each of the balance sheets submitted contained a statement that it did not include liabilities secured by unlisted assets, and the Board determined that without details as to the nature and value of the unlisted assets and liabilities, it could not conclude that the principals would be able to meet their respective commitments.

[6] Prairieland's allegation that Superior's surplus of $7,000 had been reduced by a decline in the cash on hand is erroneous. While the cash on hand dropped from $4,339.94 in the original application to $2,900 in the amendment, filed September 5, 1973, Superior showed an increase in its bank loan commitment from $100,000 to $110,000 in a letter from the Millikin National Bank of Decatur, dated August 17, 1973.

acquiring and selling broadcast properties in violation of the Commission's prohibition against trafficking in broadcast licenses. Specifically, Prairieland contends that Stuckwish has acquired FM permits or licenses in order to greatly enhance the market value of his existing AM facilities. A review of the broadcast activities of Stuckwish, as described in Prairieland's petition, will facilitate an understanding of the Board's disposition.

5. In 1962, WTIM(AM), Taylorville, Illinois, was purchased by Community Broadcasters, Inc. (Community), of which Stuckwish was a principal officer, director and stockholder, for $115,000, $15,000 of which was in consideration for a covenant-not-to-compete. It was represented at the time of the assignment, states Prairieland, that Milburn Stuckwish would supervise administrative duties at the station, would temporarily assist in supervising the Program Department, and would serve as manager. It was further represented that Stuckwish and another principal, John Uis, would reside in Taylorville if the application were granted (BAL-4642). When WTIM filed its license renewal on September 3, 1964, Community stated that they proposed no change in the present staff operating WTIM and represented that Stuckwish, as General Manager, and Uis, as Commercial and Promotion Manager, had integrated themselves into the community. On April 27, 1966, within 18 months after WTIM's license renewal was granted, an application was filed requesting Commission approval to the assignment of license of radio Station WCSJ(AM), Morris, Illinois, to Grundy County Broadcasters, Inc. (Grundy County), of which Stuckwish was and is President and 75.08 percent owner. According to the assignment agreement, three employees of WTIM were committed to leave Taylorville in order to devote full time to WCSJ, and Stuckwish proposed to devote a minimum of 50 percent of his time to the new acquisition. The acquisition was consummated on June 30, 1966 and the consideration paid by Grundy County for the assets of WCSJ(AM) was $105,000.

6. On September 27, 1967 (approximately 15 months after WCSJ was assigned to Grundy County), Community filed for a construction permit for a new FM station to be operated in conjunction with WTIM(AM) at Taylorville. The application was granted February 7, 1968. On October 28, 1968, before construction was completed, Community requested approval of the assignment of WTIM(AM) and the FM construction permit to Public Service Broadcasters (PSB) for $270,000.[1] The application was granted on or about December 19, 1968. Stuckwish indicated at the time that he desired to devote his full time to WCSJ which was ". . . in need of 100% management participation for a while" (BAL-6514). Subsequently, according to Prairieland, Grundy County proceeded to acquire WRMI(FM), Morris, Illinois. The application approving the assignment was granted August 23, 1971. Prairieland further notes that in April, 1973, Stuckwish filed for the FM construction permit in Decatur, Illinois, which is the subject of the instant proceeding, and proposed to serve as its general manager. Referring to a "letter of intent" executed on June 19, 1974, for the assignment of licenses of WCSJ (AM) and WRMI(FM), Morris, Illinois, Prairieland points out that Grundy County is now proposing to sell both of the Morris stations.

7. In addition to the above alleged pattern of acquisition and sale, Prairieland also bases its request for a trafficking issue on the fact that Decatur is located less than 30 miles from Taylorville, and Superior's Decatur proposal will place a 1 mV/m contour over Taylorville. Citing Edina Corp., 4 FCC 2d 36, 7 RR 2d 767 (1966), aff'd sub nom. Norseman Broadcasting Corp. v. FCC, 12 RR 2d 2007 (1968); and Harriman Broadcasting Co. (WXXL), 9 FCC 2d 731, 10 RR 2d 981 (1967), aff'd 399 F. 2d 569 (D.C. Cir. 1968), cert. denied, 393 U.S. 962 (1968), Prairieland argues that a trafficking issue is warranted where a licensee has sold a station at a substantial profit and later makes application for a facility in the same market. The Broadcast Bureau supports addition of an issue absent a satisfactory explanation by Superior.

8. Superior responds, in its opposition, that the $250,000 received for WTIM (AM) was less than two times station gross revenues which is a customary industry valuation standard and that the $20,000 received for WTIM(FM) was actually less than total equipment costs. According to Superior, the proposed total sales price of $250,000[2] for the Morris, Illinois, stations represents no substantial profit for Grundy County because the stations were purchased for $180,000 and $15,000 in improvements were made. In support of its contention that changed circumstances led to the assignment of the Taylorville licenses and proposed assignment of the Morris licenses, Superior attaches the affidavit of Milburn H. Stuckwish, dated September 6, 1974. Stuckwish avers that when he joined WCSJ in Morris, he proposed to divide his time between Morris and Taylorville, and that the decision to assign the Taylorville stations was made after his principal associate at Taylorville decided to go into the educational field. He further alleges that additional personnel problems at the Morris stations, in combination with declining sales revenues, led to their proposed assignment. Prairieland replies that Stuckwish represented in the Taylorville assignment application that he wished to devote full time and attention to WCSJ in Morris but, according to an affidavit from Prairieland's principal, Stephen P. Bellinger, submitted with the reply, from January, 1971 through November, 1971, Stuckwish worked as a full time accountant and on December 21, 1971, he undertook responsibilities as a broker of broadcast stations under an agreement with Chapman Company, Inc.

9. "Trafficking in broadcast operations occurs when a licensee (or its principals) acquires and/or operates a station for the primary purpose of selling or otherwise disposing of it for profit rather than for the primary purpose of serving the public interest. . . ." Harriman Broadcasting Co. (WXXL), *supra*, 9 FCC 2d at 733, 10 RR 2d at 983. The Board has pointed out on numerous occasions that intention, time and price are all important elements in determining whether there has been a trafficking violation. See *e.g.*, Phil D. Jackson, 33 FCC 2d 928, 23 RR 2d 1923 (1972). Ordinarily, the requisite intent is determined by considering all relevant circumstances, past and present. Romac Baton Rouge Corp., 7 FCC 2d 564, 9 RR 2d 1029 (1967). In the Board's view, the undisputed allegations set forth above suggest a course of conduct which warrants further examination in an evidentiary hearing. Within a period of approximately twelve years, Milburn Stuckwish purchased an AM station in Taylorville, Illinois, and, subsequently, an AM station at some distance away in Morris, Illinois. Shortly thereafter, Stuckwish purchased an FM facility in Taylorville, then sold the Taylorville AM–FM combination, purchased an FM facility in Morris, and then applied for the proposed FM facility in Decatur which would serve Taylorville—the community of his first AM–FM operation. Now Stuckwish intends to sell the Morris AM–FM combination. The sale of his first two facilities resulted in a substantial profit and the sale of the second AM–FM combination will apparently bring a modest profit. In addition to the fact that these transactions occurred within a relatively short period of time and for a profit, Stuckwish's reasons for the above transactions appear suspect, particularly in light of his intention to now devote time to the operation of the facility proposed at Decatur which will serve the community he originally left.[3] In view of this pattern of acquisition and sale, or

---

[1] The data submitted by Prairieland was allegedly obtained from Commission files. The substantial accuracy of the data has not been challenged by Superior with the exception of Prairieland's assertion that Community Broadcasters, Inc. (Community) never completed construction of WTIM(FM), Taylorville, Illinois. Superior attaches the affidavit of Milburn Stuckwish, dated September 6, 1974, which states that Community completed construction in late November, 1968, the Commission granted Program Test Authorization on December 3, 1968, and operation of the station commenced December 11, 1968. Prairieland acknowledges these facts in its reply pleading.

[2] In the motion to enlarge, Prairieland made no mention of the proposed sales price for the Morris, Illinois, stations.

[3] We are constrained to reject the supporting hearsay affidavit (relating to Stuckwish's other activities) from Prairieland's principal submitted with its reply pleading.

XUM 21934 DEC 18 1974 XUM

proposed sale, the Board will add a trafficking issue in order that these allegations may be more fully explored."

LEGAL DISABILITY ISSUES

10. Petitioner next requests issues inquiring into the legal ability of Superior to operate its proposed station. In support, Prairieland refers to a covenant contained in Community's agreement to sell WTIM(AM) and FM to PSB, according to which the officers of Community (including Stuckwish) "... agree that they will not own or participate in the ownership of any other radio station in Christian County, Illinois for a period of ten years from and after the Closing Date." According to Prairieland, the assignment was consummated on or about January 3, 1969, and consequently, the covenant is not due to expire until January, 1979. Prairieland alleges that Superior's proposed station would be in direct competition with WTIM for audience and advertising revenues because its 1 mV/m and its 3.16 mV/m contours would encompass Taylorville. Even should the current licensee of WTIM decide not to seek enforcement of the covenant, Prairieland asserts that a cross-interest issue is warranted because the present licensee of WTIM(AM) and FM is still financially obligated to the former owners of the station, including Stuckwish,[11] and Stuckwish is an employee of Chapman Company, Inc. which acted as broker for the WTIM sale. In its partial opposition, the Broadcast Bureau asserts that the mere existence of the covenant is a factor that might inhibit full and effective competition and that substantial questions are raised warranting a cross-interest issue.

11. In opposition, Superior maintains that the covenant refers only to stations in Christian County and, therefore, does not apply to its proposed Decatur station (which is in Macon County). Superior supports this assertion by submitting a letter, dated August 19, 1974, from Donald G. Jones, President of PSB, to Milburn Stuckwish, stating that the covenant pertains to Christian County, Illinois, and does not limit or prevent Stuckwish's participation in the ownership and operation of a station in Decatur, Illinois. In response to Prairieland's other allegations, Superior argues that the payments by PSB will be completed in 1976, and, therefore, before his present proposal would become operational should he receive a grant. Stuckwish also states, in his affidavit of September 6, 1974, that he has never been an employee of Chapman Company, Inc., but, rather, that his association with Chapman has been on a minimal, part-time basis and that, therefore, no conflict exists. In reply, Prairieland reiterates its contention that appropriate issues are required.

12. The requested legal disability issue based on the covenant-not-to-compete will be denied. The covenant specifically refers to participation or ownership of a radio station in Christian County, Illinois (where Taylorville is situated), whereas Superior's studio and transmitter are to be located in Macon County (where Decatur is situated). Moreover, and of particular significance, the President of PSB, in his letter to Milburn Stuckwish, states that he has no objection to Superior's proposed FM facility. Since the beneficiary of the covenant has explicitly denied that any breach would occur as a result of the proposed operation, we see no reason for any further inquiry into this matter. We do agree, however, with the Bureau, that the addition of a cross-interest issue is warranted. According to the engineering map, submitted as Exh. E, p. 17 of Superior's application, Superior's proposed station lies midway between Decatur and Taylorville. The map reveals that the city-grade contour (3.16 mV/m) of the proposed Decatur station encompasses Taylorville and the WTIM(AM) and FM site. As noted *supra*, Stuckwish will remain a creditor of PSB until payments are completed in February 1976. The Commission's cross-interest policy, emanating from the overlap prohibitions (Section 73.240 of the Rules, in the case of FM stations) of the multiple ownership rules, applies when an applicant has a "meaningful relationship" with a station in the same service and there is a 1 mV/m overlap between the stations. Lexington County Broadcasters, Inc., 42 FCC 2d 581, 28 RR 2d 353 (1973). Since there is a 1 mV/m overlap between the Taylorville station and the proposed Decatur station and Stuckwish is a creditor of WTIM,[12] it is clear that the public interest considerations underlying the cross-interest policy are applicable and, therefore, warrant further exploration in an evidentiary hearing. Cf. KFRM, Inc., 5 FCC 2d 348, 8 RR 2d 903 (1966). Whether Stuckwish's alleged association with Chapman Company, Inc. is sufficient to preclude his participation in the instant proposal may also be explored under the cross-interest issue added herein.

"VIOLATION OF LAW" ISSUE

13. Prairieland bases its request for a "violation of law" issue on the fact that since May, 1971, Robert Beadles, an Assistant Secretary, director and 18.75 percent shareholder of Superior, has owned a franchise (with a book value of $7,000) of Koscot Interplanetary, Inc., a corporation organized by Mr. Glenn Turner. Citing various magazine articles, Prairieland asserts that legal action has been taken against Turner in 42 states and that in several states he has been indicted on various counts including conspiracy to cheat and defraud by false pretense. It is Prairieland's contention that Beadles' association with such a scheme is sufficient, in itself, to raise questions as to Beadles' and, thus, Superior's qualifications to be a licensee. The Board agrees with Superior and the Broadcast Bureau that the issue should be denied. First, petitioner has not supported its allegations with the requisite specificity. Rather, Prairieland relies on magazine articles which are clearly hearsay and, therefore, insufficient to support addition of an issue. See LeFlore Broadcasting Company, FCC 74R-361, released October 2, 1974; Jimmie H. Howell, 46 FCC 2d 50, 57-8, 29 RR 2d 1317, 1326-7 (1974). Second, the Board has frequently emphasized its position of declining to interfere in questions of alleged state law violations where there has been no challenge in the state courts and the determination is more appropriately a matter of state resolution. See Intercast, Inc., 43 FCC 2d 658, 28 RR 2d 367 (1973). In the instant case, no suit alleging misconduct has been filed against Beadles and no facts have been presented showing that Beadles has violated any law.[13] Thus, the requested issue is unwarranted.

MISREPRESENTATION, LACK OF CANDOR AND 1.514 ISSUES

14. Prairieland next alleges that Robert Beadles did not disclose his Koscot distributorship in Superior's application or in the license renewal application of Grundy County (of which he is an officer and 24.92 percent stockholder) for WCSJ and WRMI(FM), Morris, Illinois. In addition, Prairieland avers that Beadles failed to disclose that he was sued in May, 1972 for back rent on a building he leased for Koscot and that a judgment was entered against him and two other persons in October, 1972. These omissions, argues petitioner, raise questions of misrepresentation and lack of candor. Similar issues are required against Stuckwish, urges Prairieland, because Superior failed to disclose the covenant-not-to-compete and because Stuckwish did not reveal that he is a broker of communications media. Prairieland also contends that Superior failed to indicate

---

[10] There is no indication that Superior has concealed any facts from the Commission concerning its proposed site, as alleged in Prairieland's petition; Superior's application, Exhibit E, p. 17, shows the proximity of the proposed Decatur site to Taylorville. Accordingly, petitioner's request for a good faith issue and an issue as to whether Superior has misled the Commission will be denied.

[11] Reference is made by Prairieland to Paragraph 3(d) of the Sales Agreement requiring delivery by the buyer, at closing, of a promissory note for $150,000, payable (with interest) in 84 monthly installments. Since the closing took place in January, 1969, Prairieland notes that the final payment (if not prepaid or extended) would be due in February, 1976.

[12] Furthermore, the Broadcast Bureau points out that the sales agreement between Community and PSB is secured by a mortgage on the assets conveyed to the assignee.

[13] "While the Commission is not precluded, in appropriate circumstances, from considering a violation of law by an applicant, even where, as here, no suit alleging illegal conduct has been filed, the Commission must be in possession of facts showing that the applicant has violated the law." Sumiton Broadcasting Company, Inc., 15 FCC 2d 410, 412, 14 RR 2d 970, 973 (1968), citing Report on Uniform Policy as to Violation by Applicants of Laws of United States, 1 RR (Part 3) 91:405, 499 (1951).

Stuckwish's connection with an application for Centralia, Illinois, denied by the Commission on December 1, 1947,[14] and that his partner in that application, F. M. Lindsay, Jr., is now President of the licensee of WSOY and WSOY(FM) in Decatur which petitioner suggests may be the basis for a cross-interest issue and, therefore, should have been revealed. The Bureau contends, in its opposition, that a § 1.514 issue may be warranted concerning Stuckwish's failure to report the covenant and his employment as a media broker, absent a satisfactory response from Superior.

15. Superior opposes addition of the requested issues, arguing that the Koscot franchise was listed on Beadles' balance sheet submitted with Superior's application and, in any event, Beadles' participation in Koscot was minimal.[15] Furthermore, Superior states that it has listed the Koscot franchise in its amendment, filed September 13, 1974, and that it has also corrected, in its amendment, the inadvertent failure to include Stuckwish's connection with the Centralia, Illinois application, denied in 1947. With respect to the lawsuit, Superior states that the judgment against Beadles was satisfied immediately upon issuance. With regard to the Taylorville covenant, presents no legal disability, has been on Superior maintains that the covenant record with the Commission for five years and does not relate to any question in the application form. As to his alleged activities as media broker and/or his alleged association with Chapman Company, Inc., Stuckwish states that he is not an employee, owner or principal in Chapman Company, Inc.[16] Finally, Superior notes that there has been no attempt to conceal Stuckwish's relationship with Lindsay, as evidenced by Exhibit 2 to its application, which reveals that Stuckwish worked for the licensee of WSOY and WSOY(FM) until 1962.

16. The Board does not believe that any of the above omissions require addition of misrepresentation or § 1.514 issues. Although Beadles' failure to list his Koscot franchise in the appropriate place in Superior's application may amount to a technical violation of Section 1.514, the violation appears to have been unintentional, and the franchise was listed elsewhere, thereby indicating a lack of intent to deceive the Commission. See Payne of Virginia, Inc., 45 FCC 2d 170, 29 RR 2d 495 (1974). Therefore, no issue is warranted. The same is true of Superior's failure to disclose the covenant-not-to-compete. There is no reason to believe that Superior intended to conceal this matter since it had been previously reported to the Commission and the applicant's belief that the terms of the covenant were not relevant have been confirmed by a letter from the beneficiary of the covenant. Similarly, Superior's failure to indicate Stuckwish's association with the application for Centralia, Illinois, does not warrant inquiry since there appears to have been no motive for this inadvertent and insignificant omission. We have consistently denied requests for issues predicated on violations of the reporting requirements of the Commission's rules and regulations where the violations have been unintentional and not so numerous as to indicate a pattern of non-disclosure, and the information not reported is of questionable significance. See *Post-Newsweek Stations, Florida, Inc.* (*WPLG–TV*), FCC 74R–365, __ FCC 2d __, released October 2, 1974, and cases cited therein. With respect to Superior's failure to report the judgment against Beadles (an 18.75 percent shareholder in Superior) for nonpayment of rent, the Board is of the view that such a judgment "[does] not sufficiently put in question the character of the applicant to warrant addition of a specific issue", Tri-Cities Broadcasting Company, FCC 65R–74, 4 RR 2d 642, 646 (1965), particularly when there is not showing of misconduct related to matters entrusted to the Commission. Regarding the allegations concerning Stuckwish's activities as a media broker, Prairieland offers nothing to rebut Stuckwish's statement denying that he is an employee of Chapman Company, Inc. The Board has no evidence that Stuckwish's activities as a media broker are anything other than minimal and part-time as he states in his affidavit of September 6, 1974. In any event, the significance of Stuckwish's activities can be explored under the cross-interest issue added herein. Finally, we note that Prairieland's request for an inquiry into Stuckwish's relationship with Lindsay is groundless. In his affidavit of September 6, 1974, Stuckwish states that he has had no business relationship with Lindsay since 1962.[17] Moreover, Stuckwish's association with WSOY and WSOY(FM) from 1937 to 1962 is set forth in Exhibit 2 to Superior's application. Thus, the requested issue will be denied.

17. Accordingly, it is ordered, That the request for late acceptance, filed July 30, 1974, by Prairieland Broadcasters, is granted; and

18. It is further ordered, That the motion to enlarge issues, filed July 30, 1974, by Prairieland Broadcasters, is granted to the extent indicated herein, and is denied in all other respects; and

19. It is further ordered, That the issues in this proceeding are enlarged to include the following issues:

(a) To determine whether the interests of Milburn H. Stuckwish, as a creditor of WTIM(AM) and FM, Taylorville, Illinois, as a media broker involved in the WTIM sale, and as Vice-President, director and shareholder in Superior Media, Inc., provide a potential for the impairment of open, arms length competition between broadcast stations serving substantially the same area, contrary to the principles underlying the Commission's cross-interest policy and, if so, the effect thereof on the basic and/or comparative qualifications of Superior Media, Inc. to be a Commission licensee.

(b) To determine whether Milburn H. Stuckwish has engaged in trafficking in broadcast licenses; and, if so, to determine the effect of such misconduct on the basic and/or comparative qualifications of Superior Media, Inc. to be a broadcast licensee.

21. It is further ordered, That the burden of proceeding with the introduction of the evidence and the burden of proof under issue (a) added herein shall be on Superior Media, Inc.; and that the burden of proceeding with the introduction of the evidence under issue (b) added herein shall be on Prairieland Broadcasters, and the burden of proof shall be on Superior Media, Inc.

Adopted: December 2, 1974.

Released: December 11, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

WILLIAM F. WALLACE, ET AL

FM Broadcast Stations, Applications for Construction Permits

In re Applications of William F. Wallance and Anne K. Wallace, Joint Tenants, Santa Paula, California; Clark Ortone, Inc., Fillmore, California; Class A Broadcasters, Inc., Fillmore, California; for construction permits.

1. The above-captioned mutually exclusive applications for new FM broadcast stations were designated for consolidated hearing by Commission Order,

[14] FCC Form 301, Section II, p. 5, Question 19(c) requires the applicant or any party to the application to report any interest in or connection with "any application which has been denied" by the Commission.

[15] In support, Superior attaches the affidavit of Robert D. Beadles, dated September 6, 1974, and a copy of Beadles' claim of $4,300 against Koscot under Chapter XI of the Bankruptcy Act. Mr. Beadles states that his active participation in Koscot ended in early 1971, and he never regarded the franchise as a business and, therefore, did not list it as a business interest in the application. He notes that his "inadvertent failure" to list the franchise is being corrected by Superior's amendment.

[16] Table II of FCC Form 301 asks for the *principal* occupation and businesses in which each party named is engaged at the present time or has been engaged at any time during the past five years, and, in addition, any other business or financial enterprise in which such party has now or within the past 5 years has had either a 25 percent or greater interest or any official relationship. (Emphasis supplied.)

[17] Prairieland's assertion that the Commission's cross-interest policy is applicable to the relationship of Stuckwish and Lindsay is incorrect because Stuckwish is no longer associated with Lindsay. See Rosemor Broadcasting Co., Inc., 45 FCC 2d 920, 29 RR 2d 1113 (1974).

FCC 73-1198, 38 FR 32971, published November 29, 1973.[1] Presently before the Review Board is a petition for reconsideration or in the alternative for enlargement of issues, filed September 6, 1974, by William F. Wallace and Anne K. Wallace, Joint Tenants (Wallace).[2] The petition seeks reconsideration by the Review Board of its Memorandum Opinion and Order (Jerry Lawrence, 48 FCC 2d 373, 31 RR 2d 59, released August 13, 1974) to the extent that it denied the request of Class A Broadcasters, Inc. (Class A) to add a site availability issue against Clark Ortone, Inc. (Ortone).[3] Alternatively, should the Board decline to reconsider this matter, Wallace requests that the issues be enlarged to include site availability and misrepresentation issues against Ortone.

2. Petitioner contends that the Board, in denying the Class A request for a site availability issue, held, in effect, that because Ortone had not in fact conceded that its proposed site was not presently available, the hearsay affidavit of Class A's president, which was submitted with the petition, was insufficient to support the request.[4] Wallace states, however, that while Class A's petition to enlarge issues was before the Board, the affidavits of both the former and present owners of the site specified by Ortone[5] were before the Administrative Law Judge in connection with a petition for leave to amend filed by Ortone.[6] Wallace does concede, however, that the Board had not been requested to take official notice of the affidavits. Petitioner now requests the Board to take official notice of these affidavits and has attached them to its instant petition. Wallace submits that in Belo Broadcasting Corp., 44 FCC 2d 707, 29 RR 2d 323 (1974), the Board reconsidered its denial of a request for a site availability issue and added the issue, concluding that clarification of prior sworn statements controverted the basis for originally denying the request. Wallace argues that the Board should do likewise here. If the Board does not reconsider its earlier ruling, Wallace requests, in the alternative, that the issues be enlarged to include site availability and misrepresentation issues against Ortone. Petitioner argues that the affidavits of the present and former owners of the site proposed by Ortone, as well as the hearsay affidavit of Class A's president, clearly indicate that the site has not only been unavailable for at least a year and a half, but that Ortone has made no inquiry concerning the availability of that property for a proposed transmitter site. Wallace contends that the affidavit of Richard Quine, the owner of the site until December 31, 1973, establishes that no inquiry was made as to the availability of his property for a transmitter site until approximately December of 1973, when he was contacted once. Since the Ortone application was filed in 1972, argues Wallace, Ortone never contacted Quine before specifying Quine's property as a proposed transmitter site.[7]

3. Both Ortone and the Broadcast Bureau oppose Wallace's instant petition. Attached to Ortone's opposition is an affidavit of Clark Ortone, president of the applicant, describing a meeting with Julius Goldman, the present owner of the proposed transmitter site. Ortone contends that Goldman's statement in the presence of a real estate broker, Marjorie Dimmick, serves to indicate that the site is, in fact, available on reasonable terms. It is the Bureau's position that both the Quine and Goldman affidavits are very narrowly framed in terms of authorizing use of the land "as a transmitter site". The possibility is left open, contends the bureau, that a representative of Ortone contacted Quine or Goldman about lease of the land without specifying its proposed use and was told it was available. The bureau concludes that Wallace has not presented specific allegations of fact sufficient to support the requested issues as required by § 1.229(c) of the rules.

4. In reply to Ortone, Wallace contends that, since Clark Ortone's affidavit only concerns an alleged assurance of the present availability of the Ortone proposed site, it constitutes an admission that Ortone made no inquiry as to the availability of its proposed site prior to the filing of its application. Wallace also alleges that since Clark Ortone's affidavit is hearsay and no reasons for failing to submit the affidavit of Goldman were submitted, it cannot be accepted. Moreover, argues Wallace, it would appear that Ortone attempted to mislead the board into concluding, through the device of not specifying the meeting date between Clark Ortone and Julius Goldman, that it had some assurance that its proposed site would be available at the time the application was filed. Wallace also contends that the position taken by the bureau is not only highly speculative, but is legally in error. A general inquiry as to the availability of property without specifying the use intended, alleges Wallace, is insufficient to support a finding of reasonable assurance of the availability of a proposed site.

5. The review board will not reconsider its earlier Memorandum Opinion and Order; the Commission's Rules state explicitly that petitions for reconsideration of interlocutory actions of the Board will not be entertained. See §§ 1.102(b)(2), 1.106(a)(1) and 1.291(c)(3) of the rules. See also Broadcasters 7, Inc., 33 FCC 2d 277, 23 RR 2d 566 (1972).[8] However, the Wallace pleading will be considered as a petition to enlarge issues.[9]

6. The board will add both requested issues. In the Goldman affidavit, attached to Wallace's petition, it is stated that, as of June 25, 1974, the present owner of Ortone's proposed site had not

---

[1] The mutually exclusive application of Jerry Lawrence was subsequently dismissed with prejudice by the Presiding Judge by Order, FCC 74M-1059, released August 26, 1974.

[2] Also before the Review Board for consideration are the following related pleadings: (a) opposition, filed September 25, 1974, by the Broadcast Bureau; (b) opposition, filed September 26, 1974, by Ortone; (c) reply, filed October 1, 1974, by Wallace; (d) request to file an additional pleading, filed October 11, 1974, by Wallace; (e) supplement to Wallace's reply to oppositions, filed October 11, 1974; and (f) comments on supplement, filed October 22, 1974, by the Broadcast Bureau. Supplemental pleadings are not authorized by the Commission's Rules, and the showing made by Wallace in its request does not warrant a departure from the Rules. Wallace's request to file an additional pleading will, therefore, be denied and the supplemental pleadings dismissed. See Filing of Supplemental Pleadings Before the Review Board, 40 FCC 2d 1026 (1972). See also Rosemor Broadcasting Co., Inc., 48 FCC 2d 1182, 30 RR 2d 360 (1974); and Rosemor Broadcasting Co., Inc., 45 FCC 2d 920, 29 RR 2d 1113 (1974).

[3] The request was made in a petition to enlarge issues, filed December 14, 1973, by Class A. A site suitability issue was added against Ortone, however, and that action is not being challenged.

[4] In our earlier memorandum opinion and order we stated the following: Class A alleges that Ortone's proposed transmitter-studio site will be unavailable to it. The site, Class A contends, is in an undeveloped hilltop area which is without water, power, or telephone facilities, and is inaccessible other than on foot. Furthermore, Class A asserts, the owner of the property, Richard Quine, told Class A's president, John J. Davis, that no one from Ortone had contacted him concerning lease of the land and that the property is in escrow and could not be leased at the present time in any case. Although Ortone states in its opposition that its recently tendered amendment specifies a new site, the Board must consider the originally proposed site to be the one of record because the Judge has not yet acted on Ortone's petition for leave to amend. See Edward G. Atsinger III, 28 FCC 2d 493, 499-500, 22 RR 2d 236, 244 (1971), and cases cited therein. We will not add an issue as to the availability of that site, however, because Class A offers no explanation for its failure to submit an affidavit from the owner of the property in support of its allegations. See Salem Broadcasting Co., Inc., 29 FCC 2d 170, 177, 25 RR 2d 755, 765 (1972). Nor does Ortone concede that the presently proposed site is now unavailable. 48 FCC 2d at 376-377, 31 RR 2d at 65.

[5] Ortone's proposed site was owned by Richard Quine from 1941 to December 31, 1973, and since that time has been owned by Julius Goldman.

[6] Although Ortone sought to amend its application to change its proposed site, that amendment was denied by the Presiding Judge by Memorandum Opinion and Order, FCC 74M-954, released August 7, 1974.

[7] The Ortone application was filed with the Commission on October 18, 1972.

[8] As previously indicated, petitioner relies on Belo Broadcasting Corp., supra, in support of its request for reconsideration. In that case, however, the Board reconsidered its earlier Memorandum Opinion and Order because it had misconstrued an affidavit of a person with personal knowledge of the facts. In this proceeding, however, no such misinterpretation had taken place. The request for a site availability issue had been denied because its only support had been a hearsay affidavit, not because there was any confusion over the significance of that affidavit. See note 4, supra.

[9] Although the Wallace petition is clearly untimely, as Wallace concedes, and good cause for the delay has not been shown, it raises serious public interest questions and will be considered on its merits. The Edgefield-Saluda Radio Co. (WJES), 5 FCC 2d 148, 8 RR 2d 611 (1966).

authorized anyone, other than his own business,[10] to place a transmitter on any property he owns. The affidavit of Clark Ortone does not dispute this, but states that during a meeting with Goldman to discuss the possibility of locating a transmitter on the latter's property, Goldman stated that "he could foresee 'no problem' " in Ortone locating on his property. Although an applicant need not have a binding agreement or absolute assurance of the availability of a proposed site, an applicant must show that it has obtained reasonable assurance that its proposed site is available. See Marvin C. Hanz, 21 FCC 2d 420, 18 RR 2d 310 (1970). Some indication by the property owner that he is favorably disposed toward making an arrangement is necessary. A mere possibility that the site will be available will not suffice. El Camino Broadcasting Corp., 12 FCC 2d 25, 12 RR 2d 720 (1968). In its opposition, Ortone has failed to show any likelihood of a lease agreement being reached between Goldman and itself. Thus, the board is of the opinion that a substantial question has been raised regarding the availability of the proposed site.

7. A misrepresentation issue will also be added. The specification of a site is an implied representation that an applicant has obtained reasonable assurance that the site will be available. A failure to inquire as to the availability of the site until after the application is filed is inconsistent with such a representation and, therefore, warrants a character qualifications issue. See Lake Erie Broadcasting Co., 31 FCC 2d 45, 22 RR 2d 647 (1971); Marbro Broadcasting Co., Inc., 4 FCC 2d 290, 3 RR 2d 51 (1966); and Geoffrey A. Lapping, 27 FR 6440, 23 RR 919 (1962). Richard Quine owned the site proposed by Ortone at the time the Ortone application was filed in October of 1972. However, according to the pleadings, it was not until December of 1973, that Quine was contacted as to the possible use of his property as an FM transmitter site. Therefore, an issue will be added.

8. *Accordingly, it is ordered*, That the request to file an additional pleading, filed October 11, 1974, by William F. Wallace and Anne K. Wallace, Joint Tenants, is denied; and that the supplement to Wallace's reply to oppositions, filed October 11, 1974, and the Broadcast Bureau's comments on supplement to Wallaces' reply, filed October 23, 1974, are dismissed; and

9. *It is further ordered*, That the petition for reconsideration or in the alternative for enlargement of issues, filed September 6, 1974, by William F. Wallace and Anne K. Wallace, Joint Tenants, is granted to the extent indicated herein, and is denied in all other respects; and

10. *It is further ordered*, That the issues in this proceeding are enlarged by the addition of the following issues: 1. To determine whether Clark Ortone, Inc. has reasonable assurance of the availability of its proposed transmitter site.

2. To determine whether Clark Ortone, Inc. made a willful misrepresentation to the Commission by proposing a site without having made adequate inquiries as to its availability, and, if so, the effect upon that applicant's basic and/or comparative qualifications to be a station licensee.

11. *It is further ordered*, That the burden of proceeding with the introduction of evidence under Issue 1 shall be on Clark Ortone, Inc., that the burden of proceeding with the introduction of evidence under Issue 2 shall be on William F. Wallace and Anne K. Wallace, joint tenants, and the burden of proof under both issues shall be on Clark Ortone, Inc.

Adopted: December 5, 1974.

Released: December 12, 1974.

FEDERAL DEPOSIT INSURANCE CORPORATION

INSURED STATE NONMEMBER BANKS

Policy Statement on Gold

On December 31, 1974, Public Law 93-373, which removes the restrictions on a person "purchasing, holding, selling, or otherwise dealing with gold," becomes effective. The word "person" in the Act has been construed to include banks. Thus, to the extent authorized by state law, State nonmember banks will be permitted to deal in gold.

Trading in any commodity, including gold, is a highly speculative activity. The past experience of individuals and companies in the commodities markets indicates that, at minimum, commodities trading is a very risky activity for the novice. In the case of gold, moreover, the more than forty year old prohibition against U.S. citizens holding and trading in gold has meant that few persons have even a nominal degree of expertise in such activity. The Corporation therefore believes that insured State nonmember banks should consider confining their trading in gold to purchases and sales on a consignment or agency basis. Irrespective of the manner in which an insured nonmember bank intends to deal in gold, the Corporation should be notified of such intention.[1]

Insured nonmember banks which are considering dealing in gold for their own accounts should carefully evaluate the experience and ability of their present staffs in this regard before proceeding. Further, such banks should bear in mind that gold ownership exposes them to possible loss due to adverse fluctuations in market value. In order to minimize such exposure, banks may find it necessary to conduct limited trading in gold futures for hedging purposes. Banks considering holding inventories of their own gold are reminded that gold bears no yield or interest and that any such inventory should be reflected as "other assets" and should be periodically adjusted to current market value.

Even the sale of gold by a bank to its customers on a consignment basis, while not subjecting the bank to possible losses due to fluctuations in the price of gold, entails certain other risks of which insured State nonmember banks should be aware. These problems can also arise with respect to sales of a bank's own gold. First, banks may bear the risk of any loss with respect to gold which they hold, even when it is held on consignment. Banks considering holding gold should therefore evaluate the adequacy of their present security arrangements. Second, gold purchase or consignment agreements entered into by a bank may not provide it with the right to re-sell to the dealer any gold which the bank's customers ask the bank to repurchase. Thus a bank might be forced to refrain from repurchasing gold which it had previously sold to its customers. Third, banks should attempt to minimize the possibility of receiving, and ultimately selling, bogus gold by entering into agreements only with responsible, reputable dealers. In this connection, insured nonmember banks should be especially wary of proposals which purport to offer gold to them at or below the current market price. They should pay particular attention to the degree of fineness (purity) of the gold so offered. The inadvertent sale of gold which does not conform to a bank's representations may well expose the bank to unfavorable publicity or legal action. Fourth, banks engaging to repurchase gold from their customers should consider retaining possession of the gold pursuant to a sale/safekeeping agreement. Unless the gold has constantly remained in the possession or control of the bank, it may be necessary for the bank to acquire or utilize facilities for weighing and assaying gold it plans to repurchase.

Many insured nonmember banks, including banks which do not choose to offer gold for sale to their customers, may find themselves engaged in safekeeping arrangements for gold owned by their customers. Here too, banks contemplat-

[1] Insured nonmember banks intending to trade in gold should submit written notice of such intent to the appropriate Regional Office of the Corporation at least 10 business days prior to the initiation of such trading. Such notice should include all information the bank deems relevant to its proposed activity including whether the bank will be trading for its own account or solely on an agency or consignment basis, the projected amount and purpose of any such trading, the experience of those individuals who will be engaged in the trading, insurance arrangements which will be in effect and, where applicable, the relation of the bank's capital and earnings to the projected amount of gold that the bank will acquire for its own account.

ing providing such services should evaluate the adequacy of their security arrangements. Where the size or amount of the gold received cannot feasibly be held in normal safe deposit facilities, banks should take care to segregate such gold in their vaults and to issue receipts to their customers therefor. Such receipts, whether issued in connection with a sale/safekeeping transaction or otherwise, should be issued in non-negotiable form and should refer to a specifically identifiable amount of gold. Each receipt and any advertisement of gold safekeeping services should also state clearly and conspicuously that the gold held pursuant to the safekeeping arrangement is not a deposit insured by FDIC.

It is the opinion of the Secretary of the Treasury that Public Law 93-373 did not repeal or alter the so-called Gold Clause Resolution of 1933 (31 U.S.C. 463). The Resolution prohibits any contractual provision which purports to give the obligee the option of requiring payment of the obligation in money or a specified amount of gold. Deposit contracts which purport to give the bank's customer such an option are therefore rendered legally unenforceable by the terms of the Gold Clause Resolution. Contracts specifically payable only in gold may be similarly unenforceable where the parties to the contract view the gold as a medium of discharging a debt, such as a deposit liability, rather than as a commodity to be traded. Needless to say, sound banking practice dictates that insured nonmember banks not enter into legally unenforceable deposit contracts. Conversely, while contracts entered into by a bank treating gold as a commodity, rather than a currency, such as futures contracts, may be valid obligations of the bank, they do not give rise to "deposits" insured by FDIC.

Insured nonmember banks should exercise care so that the aggregate amount of gold held as collateral for loans does not become unduly large. Adequate margin requirements on such loans (such as valuing the gold at 50 percent of the current market price) should be maintained and banks should revalue gold held as collateral at least monthly. Banks considering making loans for the purpose of enabling the borrower to purchase gold should bear in mind that such loans, unless made for industrial or commercial purposes, are speculative and nonproductive. As in the cases of the sale and safekeeping of gold, banks should consider the adequacy of their facilities for authenticating and protecting gold held as collateral for loans.

In sum, the Corporation believes that insured nonmember banks should move cautiously in regard to dealing in gold. Those banks offering gold for sale should consider possible adverse customer reaction if the price of gold drops and endeavor to warn their customers of the highly speculative nature of such an investment. Banks should also check their security systems for compliance with the Corporation's Part 326 and any subsequent revisions thereof.

Similar policy statements are being issued by the other Federal bank regulatory agencies with respect to banks under their jurisdictions.

Effective date. The policy enunciated in the preceding statement shall be effective on the date of its publication.

By order of the Board of Directors, December 9, 1974.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

FEDERAL MARITIME COMMISSION

PACIFIC/STRAITS CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before January 7, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed for Approval by:

H. R. Rollins, Secretary
Pacific/Straits Conference
215 Sacramento Street
San Francisco, California 94111

Agreement No. 5680-16, among the member lines of the Pacific/Straits Conference, modifies the basic agreement by (1) deleting and/or adding new language in Article 8(c) relative to the admission of common carrier members and, (2) amending Article 8(f) to provide for a deposit requirement of $1,-$500.00 as an admission fee in place of the present deposit requirement of $500.00.

By order of the Federal Maritime Commission.

Dated: December 13, 1974.

FRANCIS C. HURNEY,
Secretary.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 12/13/74 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the clearance office, Office of Management and Budget Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

NATIONAL SCIENCE FOUNDATION

STATEMENT OF ORGANIZATION

Information for Guidance of the Public

A. *Creation and authority.* The National Science Foundation (NSF) is an independent agency of the U.S. Government, established by the National Science Foundation Act of 1950 (64 Stat. 149; 42 U.S.C. 1861–1875), as amended, and was given additional authority by the National Defense Education Act of 1958 (72 Stat. 1601; 42 U.S.C. 1876–1879). More recently, Reorganization Plan No. 1 of 1973, effective July 1, 1973, transferred to the Director of NSF the functions of the Office of Science and Technology which was abolished by the reorganization plan. The Foundation consists of the National Science Board of 24 members, and a Director, each appointed by the President with the advice and consent of the Senate. Other senior officials include a Deputy Director and five Assistant Directors.

The general functions of the National Science Foundation are to:

1. Initiate and support basic scientific research and programs to strengthen scientific research potential and programs at all levels; and to appraise the impact of research upon industrial development an the general welfare.

2. Award scholarships and graduate fellowships in the sciences.

3. Foster the interchange of scientific information among scientists in the United States and foreign countries.

4. Foster and support the development and use of computer and other scientific methods and technologies, primarily for research and education in the sciences.

5. Evaluate the status and needs of the various sciences and take into consideration the results of this evaluation in correlating its research and educational programs with other Federal and non-Federal programs.

6. Maintain a current register of scientific and technical personnel, and in other ways provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and technical resources in the United States.

7. Determine the total amount of Federal money received by universities, and appropriate nonprofit organizations for the conduct of scientific research, including both basic and applied but excluding development, and report annually thereon to the President and the Congress.

8. Initiate and support specific scientific activities in connection with matters relating to international cooperation, national security, and the effects of scientific applications upon society.

9. Initiate and support scientific research, including applied research, at academic and other nonprofit institutions and, at the direction of the President, support special applied research at other organizations.

10. Recommend and encourage the pursuit of national policies for the promotion of basic research and education in the sciences.

B. *Organization.* The Foundation is organized along functional and disciplinary lines corresponding to program support of science, engineering and science education.

National Science Board. The National Science Board consists of twenty-four members appointed by the President, by and with the advice and consent of the Senate, and of the Director ex officio. The Board exercises the authority granted it by the NSF Act, including establishing policies for carrying out the purposes of the Act.

Director. The Director of the National Science Foundation is appointed by the President, by and with the advice and consent of the Senate. The Director is the Chief Executive Officer of the Foundation. He serves as ex officio member of the National Science Board and as Chairman of its Executive Committee. The Director is responsible for the execution of the Foundation's programs in accordance with the NSF Act, and the powers and duties delegated to him by the Board; and for recommending policy considerations to the Board. By appointment of the President, the Director also serves as Science Adviser and as Chairman of the Federal Council for Science and Technology. The Director is assisted by a Deputy Director who is appointed by the President, by and with the advice and consent of the Senate.

C. *Activities of the Foundation.* The Activities of the Foundation are carried out by a number of Foundation components reporting to the Director through their respective senior officers:

Director, Science and Technology Policy Office. Responsible for providing cetral staff support to the Director in his role of Science Adviser and as Chairman of the Federal Council for Science and Technology (FCST). Responsible for matters of national civilian science technology policy, developing policy options for solution of national civilian problems, appraising effectiveness of Federal and National R&D efforts, interacting with the total science community on matters of science policy, and providing advice and assistance in furthering U.S. international science and technology objectives.

Director, Office of Energy R&D Policy. Responsible for providing the Director, in support of his role as Science Adviser to the President, an independent source of advice and analysis of energy research and development and other energy-related programs for use by the Executive Office of the President. Also responsible for assembling and mobilizing the wide range of information and advice in energy-related matters, and furnishing the Director with a capability to respond effectively to requests for policy analysis of energy issues.

Director, Office of National R&D Assessment. Responsible for providing an assessment capability, consonant with the expressed needs of Congress and the Executive Office of the President, to better understand R&D and innovation processes, the impact of science and technology on the various elements of the economy and on society, and the effects of Government policies and practices on technological innovation.

General Counsel. The General Counsel advises the Director and the National Science Board with respect to the substantive aspects of legislation and renders counsel and advice on policy and legal aspects of all phases of the Foundation's operations.

XUM
V 39 N 244 DEC 18 1974
XUM

Director, Office of Government and Public Programs. The Office of Government and Public Programs is responsible for representing the Foundation, the Director, and his key associates in relationships with the Congress, State and local governments, various academic groups and professional societies, institutions and other NSF clientele, the communications media and the public. The Office is also responsible for administering a program to increase the public's understanding of science. This office is also responsible for coordinating NSF-related activities in preparation for America's Bicentennial celebration. This activity would focus upon the national and international role of science and technology, particularly as related to the future of the United States. The Office of Government and Public Programs carries out the above responsibilities through four major elements: the Congressional Liaison Office, the Public Understanding of Science Office, the Public Affairs Office, and the Publications Resource Office.

Director, Office of Planning and Resources Management. Responsible for the development, coordination and direction of programs, policies and systems in support of Foundation mission operations and the implementation of legislative and Executive requirements. This responsibility encompasses program planning, programming, and budgeting activities; the development of long-range planning estimates; and includes cognizance for functions associated with the appropriation and authorization process, and program evaluation and review.

Director, Equal Employment Opportunity Office. Provides agency-wide focus for equal employment activities in all areas of Foundation operations. Responsible for the administration of the NSF Equal Employment Opportunity Program, including the function of Coordinator for the Federal Women's Program and Opportunities for Spanish Speaking People.

Assistant Director for Research. The Assistant Director for Research is appointed by the President, by and with the advice and consent of the Senate. He serves as a principal advisor to the Director in the development of long-range plans, annual programs and on research policy as established under statutory and National Science Board authority and is responsible for developing and carrying out a program to accomplish the Foundation's research mission. One office and seven Divisions report to the Assistant Director for Research. Each Division is headed by a Division Director and is generally subdivided on a disciplinary and/or functional basis into Sections, and/or Programs.

Office of Energy-Related General Research. Responsible for coordinating the energy-related research sponsored by all Research Directorate Divisions. In addition, the Office serves as the focal point within the Directorate for coordinating program activities with other NSF directorates and Federal agencies.

Division of Biological and Medical Sciences. Responsible for supporting research in cellular biology, ecology and systematic biology, molecular biology, physiological processes, psychobiology and neurobiology. The Division is also responsible for providing support for specialized research facilities and equipment, for research workshops, symposia, and conferences, and for travel to international scientific meetings abroad.

Division of Engineering. Responsible for supporting research in Engineering Chemistry and Energetics, Mechanics (including civil and aeronautical engineering), Electrical Sciences and Analysis, and special areas such as bioengineering. The Division also provides support for specialized research equipment, and through its Research Initiation Grants provides support for young engineering faculty. In addition to its unstructured research programs, the Division supports a number of organized research programs on such topics as advanced automation, chemical process dynamics, optical communications, the planning and design of tall buildings, and wind engineering. The Division also provides support for travel to international scientific meetings abroad.

Division of Environmental Sciences. Responsible for supporting research in the atmospheric sciences, earth sciences, and oceanography; and for maintaining liaison with other Federal agencies and with the sector of the scientific community concerned with these fields. The Division also provides support for dissertation research; for travel to international scientific meetings abroad; and for specialized facilities and research equipment.

Division of Mathematical and Physical Sciences. Responsible for supporting research in the fields of Astronomy, Chemistry, Mathematical Sciences, and Physics. In addition, support is provided for university physics research facilities, chemistry research instruments, research facilities for astronomy and for travel to international scientific meetings abroad.

Division of Social Sciences. Responsible for supporting scientific research in the social sciences. The Division is also responsible for providing support for doctoral dissertation research and for travel to international scientific meetings abroad, as appropriate.

Division of Materials Research. Responsible for the support of research designed to extend and deepen our understanding of solids and liquids and to help discover ways to apply that understanding. Included is research in solid state physics, physical metallurgy, physical chemistry, ceramics, mechanics, and other areas of science and engineering necessary to improve basic understanding of materials and their engineering properties. This also includes research on the preparation, characterization, and understanding the properties of all classes of materials. The Division also provides support for travel to international scientific meetings abroad.

Division of Computer Research. Responsible for supporting research in computer science and engineering, advanced computer-based research techniques, and the impact of the computer on organizations and the individual. The Division also provides support for travel to international scientific meetings abroad.

Assistant Director for Education. The Assistant Director for Education is appointed by the President, by and with the advice and consent of the Senate. He serves as a principal advisor to the Director in the development of long-range plans, annual programs and on all science education policy as established under statutory and National Science Board authority. The Assistant Director for Education is responsible for the development, coordination, and direction of programs having three major objectives: improvement of education for professional careers in science and technology-based fields; the development of programs for the improvement of scientific literacy; and the development of programs for increasing the efficiency and effectiveness of educational processes. He is also responsible for institutional grants for science. One Office and three Divisions, three of which are organized by levels of education, report to the Assistant Director for Education. Each Division is headed by a Division Director and is further subdivided into Programs on a functional basis.

Office of Experimental Projects and Programs. Responsible for research and experimentation to discover new methods by which education in the sciences at all levels can be improved; responsible for the testing and evaluation of these new methods for the improvement of education in the sciences to determine their success and utility as Foundation program activities; and development and implementation of highly experimental activities to reform science instruction.

Division of Pre-College Education in Science. Responsible for developing and implementing means to improve science instruction from kindergarten through the twelfth grade; responsible for raising the level of the Nation's science literacy and for increasing the effectiveness and efficiency of the instructional process at the pre-college level.

Division of Higher Education in the Sciences. Responsible for developing and implementing means to improve science instruction at the post-secondary level, including post-secondary technician training and continuing education programs for career scientists and engineers; responsible for raising the level of the Nation's science literacy and for increasing the effectiveness and efficiency of the instructional process at the post-secondary level. This Division is also responsible for administering the institutional grants for science and the fellowship programs.

Division of Science Resources Studies. Responsible for the development of data and analyses dealing with the magnitude and utilization of the nation's resources for science and technology. Studies provide information on scientific and technical manpower, science education, scientific institutions, the funding of

research and development (R&D), the nature and interrelationship of different types of R&D activities, the economic impact of R&D, and related topics. Information is developed through sponsorship or conduct of recurring or periodic surveys and studies as well as through ad hoc studies carried out in response to special needs on the part of the Foundation or other Federal agencies or groups.

Assistant Director for National and International Programs. The Assistant Director for National and International Programs is appointed by the President, by and with the advice and consent of the Senate. He is responsible for the overall conduct of activities which involve management of large-scale scientific activities, and national programs and facilities, science information, and international programs. Additionally, he serves as a principal advisor to the Director in the development of long-range plans, annual programs, and national science policy for national and international programs. Seven Offices report to the Assistant Director for National and International Programs. Each Office is headed by an Office Head and is generally subdivided on a functional basis into Sections and/or Programs.

Office of Polar Programs. Responsible for developing and implementing an integrated U.S. program for Antarctica and for carrying out the Foundation's "lead agency" role in the extension of arctic research. The office promotes international scientific cooperation in the polar regions and maintains a clearinghouse of information on polar matters.

Office of International Programs. Administers the Foundation's Executive Agency responsibilities for bilateral research and exchange of scientists programs; supports effective U.S. scientific representation in international organizations; and has a coordination and oversight role concerning Foundation programs with international aspects, providing necessary guidance.

Office of National Centers and Facilities Operations. Responsible for the planning, coordination, and management of the Foundation's support of the National Research Centers: the National Center for Atmospheric Research, Boulder, Colorado; the National Astronomy and Ionosphere Center, Arecibo, Puerto Rico; the National Radio Astronomy Observatory, Green Bank, West Virginia; the Kitt Peak National Observatory, Tuscon, Arizona; and the Cerro Tololo Inter-American Observatory, Santiago, Chile. Coordinates and administers the Ocean Sediment Coring Program, under which the Deep Sea Drilling Project is managed. The office also facilitates national and international arrangements for the U.S. scientific effort related to total solar Eclipses and the Foundation's responsibilities on the part of the scientific community for radio frequency management.

Office of Science Information Service. Responsible for discharging the Foundation's mission to foster the interchange of scientific and technical information. The programs of this office are organized with focus on five priorities: research, economics of information transfer, user requirements, information systems, and national and international conditions.

Office for the International Decade of Ocean Exploration. Implements fulfillment of the Foundation's commitment as "lead agency" for the International Decade of Ocean Exploration (IDOE). This is accomplished by developing the U.S. contribution to the IDOE through research supported on major aspects of human interaction with the oceans through the Environmental Quality, Environmental Forecasting, Seabed Assessment, and Living Resources Programs. The Office, through coordination within interagencyy and international mechanisms, ensures that the U.S. IDOE effort is identified with and is closely coupled to the Intergovernmental Oceanographic Commission's Long-Term and Expanded Program on Oceanic Exploration and Research.

Office for Oceanographic Facilities and Support. Responsible for planning, implementing, coordinating, and managing the support of operations, maintenance, and construction of ships and shore-based academic oceanographic facilities. The Office supports the University National Oceanographic Laboratory System and through it develops coordinated utilization and planning of oceanographic facilities operated by academic institutions.

Office for Climate Dynamics. Responsible for integrating a variety of climate research efforts and for developing from these efforts a balanced approach to the basic and applied problems of climate dynamics. Also responsible for providing support for research and coordinating the Foundation's efforts in international programs aimed at increasing understanding of the general circulation of the atmosphere and the physical basis of climate, including the Global Atmospheric Research Program (GARP).

Assistant Director for Research Applications. The Assistant Director for Research Applications is responsible for the Foundation's coordinated basic and applied research efforts focused on the solution of selected National problems. He is responsible for managing the research effort to respond to specific problems of national concern relating to energy, environmental and productivity for the assessment of new problem areas and the impact of technology on society and the environment; for experimenting in the development of incentives to innovation; and for strengthening the ability of State and local governments to utilize science and technology in meeting their problems. Additionally, he serves as principal advisor to the Director in the development of long-range plans, annual programs and national science policy for Research Applications. Three Divisions and six Offices report to the Assistant Director for Research Applications. This Directorate also operates a Western Projects Office responsible for improving the formulation and management of projects conducted under the Foundation's Research Applied to National Needs Program in the western United States.

Division of Advanced Productivity Research and Technology. Responsible for the support of research to provide technology and information necessary to increase performance and output in the public and private sectors and to identify the impacts of public policies on public and private sector productivity. The objectives of this research are to develop, test and assess alternative management techniques, organizational structures and technologies necessary to improve productivity in the public and private sectors.

Division of Advanced Environmental Research and Technology. Responsible for the support of research to provide greater understanding of how the Nation can most effectively manage and protect our environment, both natural and manmade. The objective of this research is to define the environmental problems caused by man and nature and evaluate the policy and management alternatives necessary to mitigate these problems. This research will enhance efforts to prevent environmental degradation by developing the appropriate technology for the maintenance and growth of resources and ecosystems while allowing an intelligent accommodation of man's activities.

Division of Advanced Energy Research and Technology. Responsible for the advanced research and technology programs in Solar Energy, Geothermal Energy, Energy Conversion, and storage, Energy Resources, Advanced Automotive Propulsion and Energy and Fuel Transportation. The objectives of this support program are to identify and investigate neglected or under-utilized technologies that have the potential for significant impact on the energy situation, and to contribute to the Nation's capability to produce, transport or store energy more efficiently, at less cost, or with minimal detriment to the environment.

Office of Intergovernmental Science and Research Utilization. Responsible for assisting State and local levels of government to develop organizational concepts and procedures, and planning and decision-making processes which will enhance the application of science and technology to governmental problems. Also, this Office serves as a scientific liaison between State and local governments and the Federal government. It is responsible for eliciting requirements from potential users of Research Applied to National Needs (RANN) research results and for assisting in the communication of those results to the users in both the public and private sectors.

Office of Exploratory Research and Problem Assessment. Responsible for the support of exploratory research projects to assess which national problems are amenable to solutions through the application of science and engineering capabilities. Also, this Office provides a continuous assessment of problems of society

and the environment through a series of systems-oriented studies, including all major NSF technology assessment functions.

Office of Programs and Resources. Responsible for aiding the Assistant Director in the management of personnel and financial resources, including planning, scheduling, budgeting, programming, analysis and reporting. Responsible for the development of management systems and procedures unique to the needs of the Research Applications Directorate. Also provides administrative services support for activities of the Directorate.

Office of Systems Integration and Analysis. Responsible for carrying out the overall systems integration and analysis functions which are essential for effective interdisciplinary research in the Research Applications Directorate program. Additionally this Office is responsible for the management of the Energy System Program.

Office of Public Technology Projects. Responsible for the management of major projects as they evolve from basic and applied research programs to the proof-of-concept experiment stage.

Office of Experimental R&D Incentives. Responsible for an experimental program to determine how the Federal Government can best provide incentives to improve and accelerate the application of results of new science and technology into the private and public service sectors of the economy; and to encourage increased investment in research and development from non-Federal sources.

Assistant Director for Administrative Operations. The Assistant Director for Administrative serves as the principal advisor to the Director on all administrative and general management activities of the National Science Foundation. This responsibility encompasses grants and contracts administration; analysis and audit activities; personnel management and employee-oriented programs; general administrative and logistic support functions; financial management systems and activities; and data management activities, including the development and implementation of a modern computer-based Management Information System for the entire Foundation. The organization consists of eight Offices: Health Service; Grants and Contracts Office; Audit Office; Management Analysis Office; Administrative Services Office; Financial Management Office; Personnel Office; and the Management Information Office.

Information for Guidance of the Public

Inquiries and transaction of business. All inquiries, submittals or requests should be addressed to the National Science Foundation, Washington, D.C. 20550. A member of the public may call at the Foundation offices at 1800 G Street, NW., Washington, D.C., during normal business hours, which are 8:30 a.m. to 5 p.m., Monday through Friday. The statement of organization, set forth above, indicates the Offices with whom members of the public should deal on a particular matter. If an individual is not sure of which office to contact on a particular matter, he should forward his communication to the Foundation's mailing address, or he may, in person, visit the National Science Foundation, Public Affairs Office, Room 531, 1800 G Street, NW.

General method of functioning, procedures, forms, descriptions of programs. The Foundation accomplishes its mission primarily through the award of grants to universities, colleges, other nonprofit organizations, and to individuals as well as some profit-making organizations. In instances where NSF has a specially assigned mission, or where services are being procured, or for reasons of effecting management control, contracts are used rather than grants. The Foundation's general course and method of operations is to provide financial support for basic and applied research and education in the sciences in response to requests, applications and proposals submitted by the person or organization desiring support. In general, grants in support of scientific research or science education, and fellowship awards are made on a merit basis after a review process involving both the Foundation staff and qualified outside commentators acting individually or in review panels drawn from the scientific, educational, and industrial community and the public sector.

Pertinent NSF publications. The Foundation publishes a variety of booklets and other materials describing the programs of the Foundation and covering its procedures and the methods by which its functions are channeled. All publications and forms may be obtained by writing to or calling at the Foundation as indicated above. The following are key publications of the Foundation:

NSF Annual report. An annual presentation to the President for submission to the Congress highlighting the activities of the Foundation for the fiscal year. Accomplishments in each of the four basic program areas of research project support activities, national and international programs, research applications, and scientific education are reflected in a series of brief synopses illustrating and explaining recent undertakings and results which have been brought about through NSF grants. Other data relating to the Foundation staff, organization changes and appointments, financial report, patents, publications, research center contractors, and advisory committees and panels and their membership are also contained in the appendix.

Publications of the National Science Foundation. Provides a listing of issued NSF publications available to the public (annual reports, descriptive brochures and program announcements), with prices where copy costs apply.

Guide to Programs. Contains summary information about assistance support programs of the National Science Foundation and is intended as a source of general guidance to individuals interested in participating in these programs. Program listings describe the principal characteristics and basic purpose of each activity, eligibility requirements, closing dates (where applicable), and the address from which more detailed information, brochures, or application forms may be obtained.

Grants for Scientific Research. Provides basic guidelines and instructions directed specifically to the interests of investigators applying to the Foundation's program of scientific research project support and other closely related programs, such as the support of foreign travel, conferences, symposia and specialized research equipment and facilities. The contents indicate who may apply, when, where and what materials must be submitted. Additional information outlines the more detailed areas of how application data must be presented; and other various scientific areas for which NSF support funds may be granted and applied. Also provides information on the evaluation process concerning the merit review of proposals for support.

Guidelines for preparation of unsolicited proposals to research applied to National needs. Provides specific guidance and criteria in preparing unsolicited proposals for funding consideration by the Research Applications Directorate. These guidelines provide instructions in synthesizing a submission in accordance with the requirements of the Directorate and for use in evaluating the proposal's potential and relevance to National needs.

NSF Grant administration manual. A compendium of basic NSF grant administration policies and procedures which are generally applicable to most types of NSF grants, to most categories of recipients. Included are fiscal regulations regarding the use and expenditure reporting of NSF granted funds, and other specific administrative procedures and policies.

Science indicators, 1972. The Fifth Annual Report of the National Science Board, presents the first results of a newly initiated effort to develop indicators of the state of the science enterprise in the United States. These indicators contribute to the measurement and monitoring of U.S. Science—to identify its strengths and difficulties, and to chart its changing course. The indicators in this report deal principally with resources devoted to research and development, coupled with selected measures of the outputs produced from these resources. The indicators range from measures of basic research activity and industrial R&D, through indices of scientific and engineering personnel and institutional capabilities, to the U.S. balance of trade in high technology products and the general public's attitudes toward science and technology.

Individual program announcements. Detailed program publications are issued by individual program areas of the Foundation, announcing and describing award programs and containing critical

dates and application procedures for competitions. Examples: Program Solicitation—Research Applied to National Needs; Guide for Preparation of Proposals—Instructional Improvement Implementation; Guide to the Preparation of Proposals—International Decade of Ocean Exploration.

Important notices. Important notices are the primary means of general communication by the Director, NSF, with organizations receiving or eligible for NSF support. These notices convey important announcements of NSF policies and procedures or deal with other subjects determined to be of interest to the academic community and to other selected audiences.

NSF organization and functions manual. Describes in chart and narrative form the approved organizational structure of the Foundation and the functions and responsibilities of each major component.

Internal directives. The Foundation also maintains a system of internal issuances for communication within the agency on matters of policy, procedures, and general information. These internal directives are issued to establish organizations, define missions set objectives, assign responsibilities, delegate or limit authorities, establish program guidelines and delineate basic requirements affecting activities of the Foundation.

Staff memoranda. These are issuances reserved for use by the Director and the Deputy Director, for communication with the staff on subjects of their choice.

Circulars. A series of issuances to communicate agency policies, regulations, and procedures of a continuing nature.

Manuals. Developed to implement detailed information on operating procedures, requirements and criteria.

Bulletins. Issuances to communicate urgent information concerning changes to policy or procedure prior to their incorporation into a circular or manual, and to communicate information that is pertinent generally for a period of less than one year.

Availability of information. Persons desiring to obtain a Foundation record, statement of policy, or similar document which is legally available to the public should write to or call at the Foundation as described above. Records or documents will be made available for inspection or copying according to the terms of the current Foundation rules on this subject, (and upon payment of charges as prescribed therein), which may be obtained by writing to or calling at the Foundation as described above. The Foundation's substantive rules are published in Titles 41 and 45 of the Code of Federal Regulations.

SOURCES OF INFORMATION

Grants. Individuals or organizations who plan to submit grant proposals should refer to the NSF Guide to Programs and appropriate program brochures and announcements which may be obtained by writing to or calling at the Foundation.

Contracts. The Foundation publicizes contracting and subcontracting opportunities in the Commerce Business Daily and other appropriate publications. Organizations seeking to undertake contract work for the Foundation may contact the Contracts Branch, Grants and Contracts Office, Room 630. Phone (202) 632-5872.

Committee minutes. Summary minutes of open meetings of Foundation advisory groups may be obtained from the Management Analysis Office, 1800 G Street, NW., Washington, D.C. 20550.

Reading room. Persons who wish to inspect or copy records should contact the NSF Public Affairs Office, Room 531. Phone (202) 632-5728.

Employment. Inquiries may be directed to the National Science Foundation, Personnel Office, Room 212, 1800 G Street, NW., Washington, D.C. 20550. Junior colleges interested in the recruitment program for secretaries should contact the Personnel Office at the address indicated.

Dated: December 12, 1974.

ELDON D. TAYLOR,
Assistant Director for Administrative Operations, National Science Foundation.

[FR Doc.74-29477 Filed 12-17-74;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[34-11131; File No. 4-173]

CENTRAL MARKET SYSTEM

Request for Comments

At the request of its Advisory Committee on the Implementation of a Central Market System (the "Committee"), the Securities and Exchange Commission today published for public comment the Committee's "Preliminary Statement of Characteristics and Principles of the Central Market System."

The Commission wishes to note that the views expressed in this preliminary statement are those of the Committee and that the Commission is simply making available its facilities to assist the Committee in soliciting public comment.

Dated: December 11, 1974.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

ADVISORY COMMITTEE ON THE IMPLEMENTATION OF A CENTRAL MARKET SYSTEM TO THE SECURITIES AND EXCHANGE COMMISSION

PRELIMINARY STATEMENT OF CHARACTERISTICS AND PRINCIPLES OF THE CENTRAL MARKET SYSTEM

I. Introduction. As the first step in carrying out its charge to recommend approaches for ". . . implementing proposals for a Central Market System and insuring that such a system will meet the future needs of this country's capital markets, consistent with the public interest and the protection of investors",[1] the Advisory Committee on the Implementation of a Central Market System to the Securities and Exchange Commission ("the Committee") is developing its views on the objectives, characteristics and critical operating principles of the Central Market System. To allow interested parties an opportunity to comment on this work, the Committee is publishing at this time its preliminary views on the overall objectives and characteristics of the System and the rules under which certain participants, primarily specialists and other market-makers, would be required to operate. Additional rules concerning the operation of brokers and agents are currently under consideration.

In reviewing this material, three points should be kept in mind. First, in designing the Central Market System, the Committee assumes that the identity and role of the participants in the capital markets of the future generally will be similar to what they have been in the past. However, some existing trends suggest this may not be true. For example, public participation in the markets has steadily eroded over the past several years and there appears to have been a greater concentration of holdings under the management of a relatively small number of institutions. Too great a concentration of investment decision centers may ultimately be both incompatible with an auction market and not in the public interest. This statement does not deal with this concern; however, the Committee expects to address itself to this as well as other issues of possible major economic impact on the future of the Central Market System.

Second, the Committee has as not yet addressed itself in depth to either the governance or the cost of implementation of the Central Market System, but intends to do so. The Committee is fully aware of the difficult economic environment in which the securities industry is presently operating, as well as the uncertainties as to its future, and will bear these in mind in reaching its final conclusions.

Third, in its initial discussions the Committee has focused on development of a plan for an ultimate system without being hampered by the pragmatic considerations of technology and hardware. In recognition of these considerations, the Committee will also suggest a phased program for implementing the Central Market System, reflecting the constraints of cost and technology.

The members of the Committee wish to emphasize that they are not in unanimous agreement on many of the views expressed in this statement and that they have not reached final conclusions on most of these matters. The Committee welcomes comments on its proposals and requests that written comments be submitted prior to February 1, 1975 to Andrew P. Steffan, Executive Secretary of the Advisory Committee on the Implementation of a Central Market System, Securities and Exchange Commission, Washington, D.C. 20549. Since the Committee wishes to consider these comments during its meetings on January 9th and 10th (Washington, D.C.) and February 6th and 7th (Los Angeles), comments should be supplied as soon as possible. Copies of all comments will be made available for examination at the Commission's Office of Public Reference, File No. 4-173.

Although the Committee does not plan to hold hearings, it will consider the possibility of providing time for oral presentations by those persons who have submitted written comments. Those interested in making oral presentations should notify the Executive Secretary.

II. The objectives and basic characteristics of the Central Market System. Our capital markets play an essential role in the national economy by allocating one of our most precious resources—investment capital. To insure efficient allocation and continuing

[1] Preamble to the Charter of the Advisory Committee on the Implementation of a Central Market System to the Securities and Exchange Commission.

XUM
DEC 18 1974 V39 N244
XUM

availability of increasing quantities of investment capital, it is important that the markets value each security in a manner which reflects an accurate appraisal of overall supply and demand, affected as little as possible by temporary fluctuations therein. By linking together and facilitating effective competition among all market centers, the central market system should improve this valuation process.

Auction market principles must be preserved if the central market system is to achieve its objectives, since an auction market provides maximum interactive competition among buyers and sellers and the most effective and economic manner in which buyers and sellers can meet. This will be accomplished partly by building the system on the mechanisms developed by the various stock exchanges to provide the present auction markets. These mechanisms are operated through specialist-dealers and agent-brokers, the functions of which must be maintained to assure the effectiveness of the central market system. However, certain over-the-counter dealers have also played a role in the markets for listed securities, and the system will provide adequate opportunity and incentive for these dealers to participate.

The Central Market System shall be based on the following characteristics and principles:

(1) The best bid and offer, with size, of each specialist and other qualified market-maker shall be available to all members of the system at all times.

(2) There shall be maximum opportunity to improve on and displace the best bid and offer at all times.

(3) There shall be an opportunity for public customers to meet through brokers at the best execution price without a dealer necessarily participating in the process.

(4) Transactions for retail/individual customers shall be handled on an equitable basis with those for institutions.

(5) All orders at a given price shall be executed on a time sequence basis, subject to public order preference.

(6) All transactions in qualified listed securities shall pass through the Central Market System.

(7) All qualified broker-dealers shall be permitted to become members of the system and have economic access to all specialists and other qualified market-makers.

(8) All member broker-dealers shall have an affirmative obligation to execute orders at the best possible price.

(9) All participants shall be subject to equitable regulation and prescribed capital requirements.

III. Operating principles affecting specialists and other market-makers. The Central Market System will provide for the registration of specialists and other market-makers.

Specialists will be registered with an exchange to deal in specific securities allocated by the exchange, while market-makers will be registered with the Central Market System and may deal in any security in accordance with CMS regulations.

There will be no more than one specialist in a given security at each exchange location. It is expected that there will be competition among specialists and other market-makers dealing in the same securities.

Specific obligations of specialists and other market-makers are set forth below.

A. Net capital. All exchange specialists and over-the-counter market-makers shall be required to maintain minimum net capital of $100,000 at all times.

Net capital shall be defined broadly as the excess of assets over liabilities, subject to certain adjustments. These adjustments shall include:

(1) The elimination of fixed assets and assets not readily convertible into cash;

(2) The deduction (haircuts) of:

(a) 15% of the market value of the greater of the long or short positions in common stocks; and

(b) 30% of the amount by which the aggregate market value of the lesser of the long or short positions exceeds 25% of the market value of the greater of the long or short positions; and

(3) An undue concentration charge equal to 15% of the amount by which each long or short position exceeds 10% of net capital before haircuts.

NOTE: The Committee proposes that all the provisions of the "Alternative Net Capital Requirements" contained in proposed S.E.C. Rule 15c3-1 (Securities Exchange Act Release No. 11024, November 11, 1974, 39 FR 41540) apply to specialists and other market-makers in the Central Market System. This section simply highlights some of the more important provisions for specialists and other market-makers.

B. Market continuity. All specialists and other market-makers entering quotations in the Central Market System shall be required to make bona-fide two-sided markets, firm for one unit of trading; and in the event that they entered a bid or ask quotation in the system showing a size larger than one unit, they must make it good for the amount shown. However markets could be changed without a transaction being effected. Specialists and other market-makers must make a reasonable market (to be defined) in those stocks which they enter into the system for a period of one year; and if they drop out without cause, they would not be permitted to enter a quotation in that stock for a period of six months.

C. Public preference. All public orders entered as limit orders into the system shall take precedence over bids and offers by specialists or other market-makers, who shall not effect transactions for their own accounts before existing limit orders at the same or better prices are serviced. Priority for public limit orders at the same price shall be determined by the time of entry. In the event of a transaction at a price away from the market, all public limit orders at intervening prices shall be executed at the same price as the transaction.

Public orders are defined as those entered by any individuals or institutions, except broker-dealers, who must enter orders in the Central Market System through a member of the system.

Nothing in the above shall prevent anyone, including a specialist or other market-maker, from displacing the best bid or offer at any time.

D. Treatment of limit orders. Each specialist may maintain his own book of limit orders. When a transaction in the market results in execution of a limit order, the specialist will receive the floor brokerage associated with that limit order. All specialists' books shall be linked electronically and all transactions in the system shall clear all books.

Other market-makers shall be permitted to enter limit orders in the System only through specialists. Any member of the System may choose to hold limit orders instead of entering them through a specialist, but these orders will not be automatically executed when a transaction clears the books.

Each specialist shall have the right to inquire as to price and size of orders on all specialists' books and any member of the System wishing to effect a transaction at a price away from the market shall have the right to inquire of any specialist as to how much of the order would be lost to the books.

E. Limitations on trading. Specialists shall be prohibited from accepting orders for the purchase or sale of any stock in which they are registered as specialists directly (1) from the company issuing such stock; (2) from any officer, director or 10 percent stockholders of that company; (3) from any pension or profit-sharing fund; (4) from any institution, such as a bank, trust company, insurance company, or investment company. Other market-makers shall be permitted to deal for their own accounts with any customer.

Specialists and other market-makers are permitted to trade between and among each other, subject to the auction process.

F. Allocation of securities to dealers. Any exchange approving a security for listing shall allocate or assign to a specialist the responsibility to maintain a continuous, fair and orderly market in that security.

Other market-makers shall not be assigned responsibility for dealing in any security.

G. Affirmative obligations. All specialists and other market-makers will be subject to rules designed to insure they are maintaining continuous, fair and orderly markets. Rules to implement this principle will be developed subsequently.

[File No. 500-1]

BBI, INC.

Suspension of Trading

DECEMBER 4, 1974.

The common stock of BBI, Inc., being traded on the American Stock Exchange and the Philadelphia-Baltimore-Washington Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of BBI, Inc. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to sections 19(a)(4) and 15(c)(5) of the Securites Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from December 5, 1974 through December 14, 1974.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[Rel. No. 18709; 70-5501]

CONSOLIDATED NATURAL GAS CO. ET AL.

Post-Effective Amendment Regarding Proposed Intrasystem Financing

DECEMBER 11, 1974.

In the matter of Consolidated Natural Gas Company, 30 Rockefeller Plaza, New York, New York 10020; CNG Development Co., Ltd.; CNG Producing Co.; Consolidated Natural Gas Service Co., Inc.; Consolidated System LNG Co.; Consolidated Gas Supply Corp.; The East Ohio Gas Co.; The Peoples Natural Gas Co.; The River Gas Co.; West Ohio Gas Co.

Notice is hereby given that Consolidated Natural Gas Company ("Consolidated"), a registered holding company, and its above-named subsidiary companies have filed with this Commission a second post-effective amendment to the application-declaration in this proceeding pursuant to sections 6(a), 7, 9(a), 10, and 12(b) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 45 promulgated thereunder regarding the following proposed transactions. All interested persons are referred to the application-declaration, as now amended, which is summarized below, for a complete statement of the proposed transactions.

By orders in this proceeding dated June 20, 1974, and October 24, 1974 (HCAR Nos. 18466 and 18627), the Commission authorized Consolidated and its subsidiaries to engage in various security transactions in connection with the system's financing program for 1974. Increased financing is now proposed as described below.

CNG Producing Company ("Producing Company") now proposes to issue and sell, and Consolidated proposes to acquire at the par value thereof, an additional 30,750 shares of Producing Company's common stock, $100 par value. The proceeds will be used by Producing Company to reimburse Consolidated for $3,075,000 of advances made to enable Producing Company to pay its obligation resulting from its participation in group bids on leases offered by the U.S. Department of the Interior on acreage in the Gulf of Mexico. In order to accommodate the transactions in this proceeding and to have additional authorized shares available for future financing transactions, Producing Company proposes to amend its certificate of incorporation, which presently authorizes 150,000 shares of common stock, $100 par value, to provide for an authorization of 1,250,000 shares of such stock.

Consolidated also proposes to make open account advances up to an aggregate of $2,000,000 to Producing Company from time to time until May 31, 1975, to provide funds for working capital through said date. Such advances will be repaid on or before December 31, 1975, and will bear interest at substantially the same effective rate as the related commercial paper or bank borrowings of Consolidated.

CNG Development Company Ltd. ("Development Company") proposes to issue and sell, and Consolidated proposes to acquire at $100 par value (Canadian), such number of shares (not exceeding 7,000) of Development Company stock as shall, together with the 3,000 shares previously authorized in this proceeding, equal $1,000,000 (U.S.) on the date of issuance. The proceeds will be used to repay an advance by Consolidated to Development Company of $1,000,000 (U.S.) to enable it to meet unanticipated obligations in its Canadian operations.

It is also stated that because Development Company presently has limited cash flow, it will need funds for working capital requirements through May 31, 1975, and that, therefore, Consolidated proposes to make open account advances, without interest, from time to time through May 31, 1975, up to an aggregate of $2,000,000 (U.S.). Such advances will be repaid on or before December 31, 1975.

In its order of June 20, 1974, the Commission authorized Consolidated System LNG Company ("LNG Company") to sell 165,000 shares of its common stock, $100 par value, and $15,180,000 of long-term notes and Consolidated to acquire such shares and notes during 1974. It now appears that LNG Company will not require all of such financing during 1974 but will require part of it during the early months of 1975. Therefore, it is now proposed that the authorization contained in said order of June 20, 1974, be extended from December 31, 1974, to May 31, 1975. Additionally, in order to finance further capital expenditures of LNG Company through May 31, 1975, the following transactions are also proposed: (a) the issuance and sale by LNG Company of a maximum of 140,000 shares of its common stock, $100 par value, and the purchase thereof by Consolidated and (b) open account advances by Consolidated to LNG Company of amounts aggregating not more than $12,000,000, such open account advances to bear interest at the prime commercial rate of interest at The Chase Manhattan Bank, N.A., in effect from time to time, until such time as they are converted to long-term debt. Such conversion will be the subject of a future filing. Finally, LNG Company proposes to amend its Certificate of Incorporation to provide for 750,000 shares of authorized stock to accommodate the additional financing sought herein and to have additional authorized shares available for future transactions.

The Rule 24 certificates of notification with respect to the proposed transactions are to be filed on a quarterly basis. No State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Expenses to be incurred in connection with the proposed transactions are estimated not to exceed $750 and are to be paid by Consolidated.

Notice is further given that any interested person may, not later than January 2, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulation promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[Rel. No. 9513; 811-44]

THE DOMINICK FUND, INC.

Filing of Application for Order Declaring That Company Has Ceased To Be an Investment Company

DECEMBER 11, 1974.

Notice is hereby given that The Dominick Fund, Inc., 55 Water Street, New York, New York 10041 ("Applicant"), registered under the Investment Company Act of 1940 ("Act") as a diversified, closed-end, management investment company, filed an application on November 29, 1974, pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was incorporated in 1929 under the laws of the State of Delaware as National Bond and Share Corporation and registered under the Act in 1941. Applicant assumed its present name in 1959.

The application states that at a Special Meeting of Stockholders of Applicant held on October 3, 1974, a resolution was adopted approving (1) an agreement and plan of reorganization, dated July 20, 1974 ("Agreement"), which provided, among other things, for the acquisition of substantially all the assets of Applicant by Putnam Investors Fund, Inc. ("Putnam Investors"), an open-end, diversified, management investment company registered under the Act, in exchange for common stock of Putnam Investors, and (2) the subsequent dissolution of Applicant.

On October 7, 1974, the exchange contemplated by the Agreement was consummated and the common stock of Putnam Investors issued in connection therewith has been distributed to Applicant's stockholders. Pursuant to the Agreement, Applicant retained assets estimated by it to be sufficient to pay its liabilities and costs of liquidation. Any such assets still in Applicant's possession been paid will be acquired, not later

after all such liabilities and costs have than December 31, 1975, by Putnam Investors in exchange for additional common stock of Putnam Investors. Any such common stock will be distributed to Applicant's former stockholders.

Applicant represents that it is not engaged in any investment company activity nor does it propose to engage in any investment company activity. The Certificate of Dissolution of Applicant was filed in the office of the Secretary of State of the State of Delaware on November 6, 1974.

Section 3(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than January 6, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

GREATER WASHINGTON INVESTORS, INC.

Suspension of Trading

DECEMBER 6, 1974.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Greater Washington Investors, Inc. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from December 7, 1974 through December 16, 1974.

By the Commission.

[Rel. No. 18708; 70-5507]

THE HARTFORD ELECTRIC LIGHT CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds

DECEMBER 12, 1974.

Notice is hereby given that The Hartford Electric Light Company, 176 Cumberland Avenue, Wethersfield, Connecticut 06109 ("HELCO"), an electric and gas utility subsidiary of Northeast Utilities ("Northeast"), a registered holding company, has filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the application-declaration, which is summarized below, for a more complete statement of the proposed transaction.

HELCO proposes to issue and sell for the best price obtainable, at competitive bidding, up to $25,000,000 principal amount of its % First Mortgage Bonds, 1975 Series "Bonds"). HELCO will fix the principal amount of the Bonds to be issued by amendment filed with the Commission prior to the application-declaration becoming effective. HELCO will designate, by telegraphic or written notice (not less than 72 hours prior to the time designated for the presentation of bids) to the representatives of the bidding groups the maturity of the Bonds, which maturity shall be a date of not less than five nor more than thirty years from the first day of January, 1975. The interest rate (which shall be a multiple of ⅛ of 1%) and the price, exclusive of accrued interest, to be paid to HELCO (which shall not be less than 99% nor more than 102.75% of the principal amount thereof) will be determined by the competitive bidding. HELCO will publicly invite written proposals for the purchase of the Bonds at least six days prior to entering into any contract or agreement for their sale.

The Bonds will be issued under the First Mortgage Indenture and Deed of Trust dated as of January 1, 1958, between HELCO and The First National Bank of Boston, Successor Trustee, as heretofore supplemented and amended by various indentures supplemental thereto, and as to be further supplemented by a Fourteenth Supplemental Mortgage Indenture to be dated as of January 1, 1975, setting out the terms of the Bonds. The terms shall include a provision that no Bond shall be redeemed at the applicable general redemption price prior to January 1, 1980, if such redemption is for the purpose of or in anticipation of refunding such Bond through the use, directly or indirectly, of funds borrowed by HELCO at an effective interest cost to HELCO of less than the effective interest cost to HELCO of the Bonds.

The net proceeds from the issue and sale of the Bonds will be used to repay a portion of HELCO's short-term borrowings estimated to total $61,000,000 at the time of such sale. Such short-term borrowings, together with a capital contribution of $5,000,000 which Northeast made to HELCO in April, 1974, and the proceeds of the sale by HELCO in April, 1974 of $30,000,000 of First Mortgage Bonds, 1974 Series, and 300,000 shares of Preferred Stock, 1974 Series, were applied to finance HELCO's construction program.

HELCO's 1974-1975 construction program is expected to total about $135,500,000 ($70,600,000 in 1974 and $64,900,000 in 1975). HELCO estimates that it will require an additional $39,000,000 of funds from external sources to complete its 1975 construction program. It expects to obtain such funds temporarily through short-term borrowings. Additional long-term financing (first mortgage bonds or preferred stock, or both) will be undertaken by HELCO in 1975, although the nature, amount and timing of such financing has not been determined. In addition, Northeast may make a capital contribution to HELCO in 1975.

A statement of the fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that the Connecticut Public Utilities Commission must approve the proposed transaction, but that no other State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than January 6, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be

granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[Rel. No. 18711; 70-5590]

OHIO EDISON CO.

Proposed Amendment of Articles of Incorporation, Issue of First Mortgage Bonds; Order Authorizing Solicitation of Shareholders' Proxies

DECEMBER 11, 1974.

Notice is hereby given that Ohio Edison Company (47 North Main Street, Akron, Ohio 44308) ("Ohio Edison"), a registered holding company and an electric public utility company, has filed an application-declaration, and an amendment thereto, with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(a), 7, and 12(e) of the Act and Rules 42, 50, 62 and 65 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

Ohio Edison proposes a series of transactions involving the proposed issuance and sale of a new series of preferred stock, the issuance of first mortgage bonds for sinking fund purposes and a proposed amendment to Ohio Edison's Articles of Incorporation ("charter"). As initial steps, Ohio Edison proposes the issuance of first mortgage bonds for sinking fund purposes and to amend the FOURTH Article of its charter to grant Ohio Edison's Board of Directors the authority to fix and establish a sinking fund for new series of Ohio Edison preferred stock.

The charter amendment would permit the Board of Directors to fix the purchase and/or redemption price of shares of a new series of preferred stock to be subject to a sinking fund. Sinking fund obligations would not be met under the charter provision if there is an arrearage on preferred dividends of any series, subject to the requirements of the Act.

The proposed amendment of the charter will be submitted for consideration and vote at a special meeting of shareholders expected to be held on or about January 13, 1975. Ohio Edison proposes to solicit, or engage a proxy solicitation firm to solicit, proxies from the holders of its outstanding preferred and common stock in connection with the vote to be taken at that special meeting.

Ohio Edison also proposes to issue on or about May 1, 1975, and November 1, 1975, a total of $10,906,000 principal amount of its First Mortgage Bonds, 3¼% Series of 1955 due 1985 ("bonds"). The bonds will be issued under the indenture of Ohio Edison to Bankers Trust Company, as Trustee, as amended and supplemented. The bonds are to be of the series provided for by the Twelfth Supplemental Indenture dated as of May 1, 1955, and will be identical with those authorized by the Commission on August 12, 1974 (Holding Company Act Release No. 18530).

Ohio Edison proposes to use the bonds solely to obtain the inclusion in its general funds of the sinking fund payments on deposit and required to be made during 1975. It is proposed that the bonds will be issued on the basis of unfunded property additions.

Fees and expenses to be incurred in connection with the proposed (1) amendment of the Articles of Incorporation are estimated at $63,575, including legal fees of $5,000; (2) bond issuance are estimated at $1,600. It is stated that the Public Utilities Commission of Ohio has jurisdiction over the proposed issue and sale of the bonds, and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than January 10, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulation promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It appearing to the Commission that the application-declaration, as amended, insofar as it proposes the solicitation of proxies from Ohio Edison's common and preferred stockholders, should be granted and permitted to become effective forthwith pursuant to Rule 62:

It is ordered, That the application-declaration regarding the proposed solicitation of proxies from Ohio Edison's common and preferred stockholders be, and it hereby is, granted and permitted to become effective forthwith pursuant to Rule 62 and subject to the terms and

conditions prescribed in Rule 24 under the Act.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.74-29455 Filed 12-17-74;8:45 am]

[Rel. No. 18710; 70-5591]

PENNSYLVANIA POWER CO.

Proposed Amendment of Articles of Incorporation; Order Authorizing Solicitation of Proxies

DECEMBER 11, 1974.

Notice is hereby given that Pennsylvania Power Company (1 East Washington Street, New Castle, Pennsylvania 16103) ("Pennsylvania"), an electric utility subsidiary company of Ohio Edison Company, a registered holding company, has filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 12(c) and 12(e) of the Act and Rules 42, 50, 62 and 65 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Pennsylvania proposes a series of transactions involving the proposed issuance and sale of a new series of preferred stock and a proposed amendment to Pennsylvania's Agreement of Merger and Consolidation ("charter"). As an initial step, Pennsylvania proposes to amend Article IV of its charter to grant Pennsylvania's Board of Directors the authority to fix and establish a sinking fund for new series of Pennsylvania preferred stock. The charter amendment would permit the Board of Directors, subject to the requirements of the Act, to fix the purchase and/or redemption price of shares of a series to be subject to a sinking fund. Sinking fund obligations would not be met under the charter provision if there is an arrearage on preferred dividends of any series.

Pennsylvania proposes to submit the proposed amendment for consideration and vote at a special meeting of stockholders expected to be held on or about January 13, 1975. In connection with the proposed meeting, Pennsylvania proposes to solicit proxies, or to engage a proxy solicitation firm to solicit proxies, from the holders of its outstanding preferred stock. Ratification of the proposed amendment requires the affirmative favorable vote of at least 66⅔% of Pennsylvania's outstanding 339,049 shares of preferred stock. Ratification also requires the favorable vote of Pennsylvania's common stock, all of which is owned by Ohio Edison Company. Ohio Edison Company has advised Pennsylvania that it intends to vote all Pennsylvania's common shares in favor of the proposed amendment.

Fees and expenses to be incurred in connection with the proposed amendment to the charter are estimated at $13,900, including attorney's fees of $5,000. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed charter amendment.

Notice is further given that any interested person may, not later than January 10, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issue of fact or law raised by said application-declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It appearing to the Commission that the application-declaration, insofar as it proposes the solicitation of proxies from Pennsylvania's preferred stockholders, should be permitted to become effective forthwith pursuant to Rule 62:

It is Ordered, That the application-declaration regarding the proposed solicitation of proxies from Pennsylvania's preferred stockholders be, and it hereby is, granted and permitted to become effective forthwith pursuant to Rule 62 and subject to the terms and conditions prescribed in Rule 24 under the Act.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

ZENITH DEVELOPMENT CORP.

Suspension of Trading

DECEMBER 6, 1974.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Zenith Development Corporation being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from December 8, 1974 through December 17, 1974.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

Committee Meetings

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, January 9, 1975
Thursday, January 16, 1975
Thursday, January 23, 1975
Thursday, January 30, 1975

The meetings will convene at 10 a.m. and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street, NW., Washington, D.C.

The committee's primary responsibility is to study the prevailing rate system and from time to time advise the Civil Service Commission thereon.

At these scheduled meetings, the committee will consider proposed plans for implementation of Public Law 92-392, which law establishes pay systems for Federal prevailing rate employees.

The meetings will be closed to the public on the basis of a determination under section 10(d) of the Federal Advisory Committee Act (Public Law 92-463) and 5 U.S.C., section 552(b)(2), that the closing is necessary in order to provide the members with the opportunity to advance proposals and counter-proposals in meaningful debate on issues related solely to the Federal Wage System with the view toward ultimately formulating advisory policy recommendations for the consideration of the Civil Service Commission.

However, members of the public who wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Committee, Room 5451, 1900 E Street, NW., Washington, D.C. 20415.

Dated: December 13, 1974.

DAVID T. ROADLEY,
Chairman, Federal Prevailing Rate Advisory Committee.

FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

DECEMBER 13, 1974.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 55348, filed November 26, 1974. Applicant: MERRILL E. WOLKINS, doing business as CALIFORNIA MAIL DELIVERY SERVICE, 980 Brannon Street, San Francisco, Calif. 94107. Applicant's representative: Raymond A. Greene, Jr., 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General Commodities*, except as hereinafter provided: Part I.: (1) Between all points and places in the San Francisco Territory as described in Part II; (2) Between all points and places on or within 10 lateral miles of the following routes: (a) Interstate Highway 80 between San Francisco and Sacramento, inclusive; (b) State Highway 4 between its junction with Interstate Highway 80 near Pinole, and Stockton, inclusive; (c) Interstate Highway 580 between its intersection with State Highway 17 and its intersection with Interstate Highway 5, inclusive; (d) Interstate Highway 5 between its intersection with State Highway 4 at Stockton and its intersection with State Highway 198, inclusive; (e) State Highway 120 between its intersection with Interstate Highway 5 and its intersection with State Highway 99, inclusive; (f) State Highway 198 between its intersection with Interstate Highway 5 and its intersection with State Highway 99 near Visalia, inclusive; (g) State Highway 99 between Sacramento and Tulare, inclusive; (h) State Highway 152 between its intersection with Interstate Highway 5 and its intersection with State Highway 99, inclusive.

(i) State Highway 33 between its intersection with State Highway 152 at the Dos Palos Wye and its intersection with Interstate Highway 5, via Firebaugh, inclusive; (j) State Highway 180 between its intersection with State Highway 33 and its intersection with State Highway 99, inclusive; and (k) State Highway 140 between its intersection with Interstate Highway 5 and State Highway 99, inclusive; (l) U.S. Highway 101 between its intersection with Tully Road at San Jose and Salinas; (m) State Highway 17 between its intersection with Los Gatos-San Jose Road at Los Gatos and its intersection with State Highway 1 at Santa Cruz, inclusive; (n) State Highway 1 between its intersection with State Highway 17 at Santa Cruz and its intersection with State Highway 68 at Monterey, inclusive; (o) State Highway 156 West from its intersection with State Highway 1 at Castroville to its intersection with U.S. Highway 101, inclusive; (p) State Highway 68 between its intersection with State Highway 1 at Monterey and its intersection with U.S. Highway 101 at Salinas, inclusive; (q) State Highway 152 between its intersection with U.S. Highway 101 at Gilroy and its intersection with State Highway 1 at Watsonville, inclusive. In performing the service herein authorized, applicant may make use of any and all streets, roads, highways, and bridges necessary or convenient for the performance of said service.

Part II: San Francisco Territory includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Boundary Line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs, northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive; Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to Berkeley-Oakland boundary line.

Northerly along said boundary line to the campus boundary of the University

XUM
V 39 N 244 DEC 18 1974
8 74
XUM

of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue, northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. Except that pursuant to the authority herein granted carrier shall not transport any shipments of: (1) Used household goods, personal effects and office, store, and institution furniture, fixtures and equipment not padded in accordance with the crated property requirements set forth in Item 5 of Minimum Rate Tariff 4-B; (2) Automobiles, trucks, and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis, freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis.

(3) Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine, or wethers; (4) Liquids, compressed gases, commodities in semi-plastic form, and compodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles; (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks; (6) Commodities when transported in motor vehicles equipped from mechanical mixing in transit; (7) Cement; (8) Logs; (9) Commodities of unusual or extraordinary value; (10) Commodities in vehicles not exceeding a licensed weight of five thousand pounds; (11) Commodities requiring mechanical refrigeration equipment; and (12) Shipments in excess of five hundred pounds. Intrastate, interstate, and foreign commerce authority sought.

HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

Oklahoma Docket No. 31849 (Sub-No. 1), filed November 27, 1974. Applicant: HAROLD L. MANNING, doing business as MANNING FREIGHT LINES, 200 E. Garvin Street, Pauls Valley, Okla. 73075. Applicant's representative: Glen Ham, P.O. Box 198, Pauls Valley, Okla. 73075. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities*, from Marietta via U.S. No. 77 to Thackerville, thence to Bomer, thence to Marietta; From Sulphur via State Highway No. 7 to Scullin, thence to Mill Creek, thence to Troy, thence to Davis, thence via State Highway No. 12 and U.S. No. 70 to Mannsville thence via U.S. No. 70 to Mannsville, thence to Dickson, serving the off-route point of Durwood; That all of above points be unitized with applicant's present authority which is as follows, to wit: Order No. 103111, Certificate No. MC 31849 dated February 12, 1974, "for the transportation of general commodities from Oklahoma City to Paoli via U.S. No. 77 to Marietta, thence to Ardmore, thence over U.S. No. 70 to Dickson, thence over State Highway No. 177 to Sulphur, thence over State Highway No. 7 to Davis, thence over U.S. No. 77 returning to Oklahoma City, serving the points of Oklahoma City, Paoli, Pauls Valley, Wynnewood, Davis, Springer, Ardmore, Overbrook, Marietta, Dickson, Baum, Nebo, Drake, and Sulphur, Okla." That applicant be granted the additional points of Wayne, Lexington, and Purcell on U.S. No. 77 and that these points be unitised with applicant's present authority set forth above. Intrastate, interstate and foreign commerce authority sought.

HEARING: January 20, 1975, at the Jim Thorpe Office Building, Oklahoma City, Okla. Request for procedural information should be addressed to the Oklahoma Corporation Commission, Jim Thorpe Office Building, Oklahoma City, Okla. 73105, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON, *Acting Secretary.*

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY-ELIMINATION OF GATEWAY LETTER NOTICES

DECEMBER 13, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065 (a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before December 30, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 37203 (Sub-No. E3), filed May 31, 1974. Applicant: MILLSTEAD VAN LINES, INC., P.O. Drawer 878, Bartlesville, Okla. 74003. Applicant's representative: Thomas F. Sedberry, Suite 1102, Perry-Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Montana, on the one hand, and, on the other, points in Texas on and east of U.S. Highway 283 from the Texas-Oklahoma border to its intersection with U.S. Highway 67, thence along U.S. Highway 67 to its intersection with U.S. Highway 277, thence along U.S. Highway 277 to Del Rio, Tex., on the United States-Mexico border; (2) between points in Wyoming, on the one hand, and, on the other, points in Missouri on and south of a line beginning at the Kansas-Missouri, thence along U.S. Highway 160 to Springfield, Missouri, thence along U.S. Highway 60 to its intersection with Missouri Highway 34, thence along Missouri Highway 34 to Jackson, Mo., thence along U.S. Highway 61 to Cape Girardeau, Mo., on the Missouri-Illinois border; (3) between points in Montana, on the one hand, and, on the other, points in Missouri on and south of a line beginning at the Missouri-Kansas line on U.S. Highway 66 to Joplin, thence along Interstate Highway 44-U.S. Highway 66 to St. Louis, Mo., on the Missouri-Illinois border; and (4) between points in Kansas, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 37203 (Sub-No. E4), filed May 31, 1974. Applicant: MILLSTEAD VAN LINES, INC., P.O. Drawer 878, Bartlesville, Okla. 74003. Applicant's representative: Thomas F. Sedberry, Suite 1102, Perry-Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Kansas on and south of a line beginning at the Kansas-Colorado line on Colorado Highway 96, to its intersection with U.S. Highway 183, thence along U.S. Highway 183 to its intersection with U.S. Highway 50, thence along U.S. Highway 50 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma line, on the one hand, and, on the other, points in Illinois, Indiana, and Kentucky (Coffeyville, Kans., and points within 25 miles thereof, and Shawnee, Okla., and points in that part of Oklahoma, Arkansas, Kansas, and Texas within 150 miles of Shawnee)*; (2) between points in Kansas on and south of a line beginning at the Kansas-Colorado line on Colorado Highway 96, to its intersection with U.S. Highway 183, thence along U.S. Highway 183 to its intersection with U.S. Highway 50, thence

along U.S. Highway 56 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma line, on the one hand, and, on the other, points in Michigan, Ohio, West Virginia, Pennsylvania, New York, New Jersey, Rhode Island, Massachusetts, and Maine (Coffeyville, Kans., and points within 25 miles thereof, McLean County, Illinois, and Shawnee, Okla., and points in that part of Oklahoma, Arkansas, Kansas, and Texas within 150 miles of Shawnee)*; (3) between points in Kentucky, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma border on U.S. Highway 75 to Dallas, Tex., thence along Interstate Highway 45 to Houston, Tex., thence along Interstate Highway 10-U.S. Highway 81 to San Antonio, Tex., thence along Interstate Highway 35-U.S. Highway 81 to Laredo, on the U.S.-Mexico border (points in Oklahoma)*; (4) between points in Colorado, on the one hand, and, on the other, points in Texas on and east of a line beginning at the Texas-Oklahoma border on U.S. Highway 283 to its intersection with U.S. Highway 87, thence along U.S. Highway 87 to Brady, Tex., thence along U.S. Highway 377 to Junction, Tex., thence along U.S. Highway 83 to the United States-Mexico border (points in Oklahoma)*; and (5) between points in Ohio, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma border on U.S. Highway 75 to Dallas, Tex., thence along Interstate Highway 35-U.S. Highway 81 to Laredo, Tex., on the U.S.-Mexico border (points in Oklahoma, and McLean County, Ill.)*. The purpose of this filing is to eliminate the gateways marked with asterisks above.

No. MC 51146 (Sub-No. E14), filed November 2, 1974. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, Wisconsin 54306. Applicant's representative: Neil A. Du Jardin (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products* (except commodities in bulk), from Plymouth, N.C., to points in North Dakota, South Dakota, Nebraska, Kansas, Missouri (except points south and east of a line beginning at the intersection of the Missouri-Arkansas State line and Missouri Highway 17, thence along Missouri Highway 17 to its intersection with U.S. Highway 60, thence along U.S. Highway 60 to its intersection with Missouri Highway 34, thence east along Missouri Highway 34 to Cape Girardeau, Mo.), Oklahoma (except point south and east of a line beginning at the intersection of the Oklahoma-Texas State line and U.S. Highway 69 thence along U.S. Highway 69 to its intersection with Interstate Highway 40, thence along Interstate 40 to the Arkansas-Oklahoma State line), and points in Texas (except points east of U.S. Highway 377). Restriction: Shipments of pulpboard and fibreboard will be limited to movements in mixed loads with the other commodities described above.

(2) *Disposable paper diapers* (except commodities in bulk), from Cheboygan, Mich., to Memphis, Tenn., and points in Arkansas, Louisiana, Mississippi, Alabama, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, New York (except points west of a line beginning at Oswego, N.Y., thence along New York Highway 57 to Syracuse, thence along U.S. Highway 11 to the New York-Pennsylvania State line), Missouri (except points north and east of a line beginning at St. Joseph, Mo., thence along U.S. Highway 36 to its intersection with U.S. Highway 65, thence along U.S. Highway 65 to its intersection with U.S. Highway 40, thence along U.S. Highway 40 to the Missouri-Illinois State line) and the District of Columbia. (3) *Paper and Paper products* (except commodities in bulk), from the plants and storage facilities of Menasha Corporation at or near Neenah and Menasha, Wisc., to points in Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Maryland, Delaware, Virginia, North Carolina, South Carolina, Alabama, and points in Mississippi on and east of U.S. Highway 11, and the District of Columbia. (4) *Paper and paper products* (except commodities in bulk), from the plant and warehouse sites of the Personal Products Co. and Cel Fibre, Inc., at or near Wilmington, Ill., to points in South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, New York, Massachusetts, Rhode Island, Connecticut, Vermont, New Hampshire, Maine, and the District of Columbia. Paper and paper products (except commodities in bulk), from the plant site of the West Virginia Pulp and Paper Co. located at or near Wickliff, Ky., to points in Vermont, New Hampshire, and Maine.

(6) *Paper and paper products* (except commodities in bulk), from the plant and warehouse sites of Hoerner Waldorf Corporation at Columbus, Ind., to points in Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Maryland, Delaware, North Dakota, The District of Columbia, Virginia, (except points west of U.S. Highway 52), North Carolina (except points west of a line beginning at the intersection of the Virginia-North Carolina State line and U.S. Highway 52 along U.S. Highway 52 to Winston Salem, N.C., thence U.S. Highway 311 to its intersection with U.S. Highway 220, thence along U.S. Highway 220 to Rockingham, N.C., thence along U.S. Highway 1 to the North Carolina-South Carolina State line), South Dakota (except points south and east of a line beginning at the intersection of the South Dakota-Nebraska State line and U.S. Highway 183, thence along U.S. Highway 183 to its intersection with Interstate Highway 90, thence along Interstate Highway 90 to the South Dakota-Minnesota State line), Nebraska (except points south and east of a line beginning at the intersection of the Nebraska-Kansas State line and U.S. Highway 183, thence along U.S. Highway 183 to Ansley, thence along Nebraska Highway 92 to its intersection with U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-South Dakota State line), and Texas (except points north and east of a line beginning at the intersection of the Oklahoma-Texas State line and U.S. Highway 287, thence and east along U.S. Highway 287 to Childress, Texas, thence along U.S. Highway 83 to Eden, thence along U.S. Highway 87 to the Gulf of Mexico). (7) *Paper and paper products* (except commodities in bulk), from the plant site of the United States Envelope Co. located at Williamsburg, Pa.; Springfield, Mass., and Enfield and Rockville, Conn., to Memphis, Tenn., and points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Missouri, Arkansas, Louisiana, Mississippi, and Alabama (except points east of a line beginning at the intersection of the Georgia-Alabama State line and U.S. Highway 11, thence along U.S. Highway 11 to its intersection with U.S. Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line).

(8) *Paper and paper products* (except commodities in bulk), from the plant site of Laminated and Coated Products Div. of St. Regis Paper Co. at Troy, Ohio, to points in Arizona, Nevada (except points north of a line beginning at the intersection of the California-Nevada State line and U.S. Highway 6, thence along U.S. Highway 6 to its intersection with Nevada Highway 25, thence along Nevada Highway 25 to the Nevada-Utah State line), and California (except points north and east of a line beginning at the origin of California Highway 299 on the Pacific Ocean then along California Highway 299 to its intersection with Interstate Highway 5, thence along Interstate Highway 5 to its intersection with California Highway 20, thence along California Highway 20, to its intersection with Interstate Highway 80, thence along Interstate 80 to the California-Nevada State line). (9) *Paper and paper products* (except commodities in bulk), from the plant or warehouse sites of Menasha Corporation at Air Lake Industrial Park, or near Lakeville, Minn., to points in Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Alabama (except points west of a line beginning at the intersection of the Tennessee-Alabama State line and Interstate Highway 65, thence along Interstate Highway 65 to Birmingham, thence along U.S. Highway 11 to its intersection with Alabama Highway 5, thence along Alabama Highway 5 to its intersection with U.S. Highway 43, thence along U.S. Highway 43 to Mobile), and the District of Columbia. Restriction: The operating authority granted above is restricted to the transportation of traffic originating at the plant and warehouse sites of Menasha Corporation at Air Lake Industrial Park at or near Lakeville, Minn.

(10) *Paper and paper products* (except commodities in bulk), from the plant sites and warehouse facilities of Howard Paper Mills, Inc., at Dayton and

XUM

Urbana, Ohio; The Maxwell Paper Corporation at Franklin, Ohio, and the plant sites and warehouse facilities of Kimberley-Clark Corp. and Bergstrom Paper Co. at or near Dayton, Ohio, to Baltimore, Md., St. Louis, Mo., Memphis, Tenn., New York, N.Y., and points in Nassau and Suffolk Counties N.Y., and points in Alabama, South Carolina, North Carolina, New Jersey, and Connecticut. Restriction: The operations granted herein are restricted to the transportation of shipments originating at the named plant sites and warehouse facilities at Franklin, Dayton, and Urbana, Ohio. (11) *Paper and paper products* (except commodities in bulk), from the plant site of U.S. Envelope Co. at Worcester, Mass., and the plant site of Kimberly-Clark Corp. at New Milford, Conn., to Memphis, Tenn., and points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Arkansas, Louisiana, Mississippi, and Alabama (except points south and east of a line beginning at the intersection of the Georgia-Alabama State line and U.S. Highway 78, thence along U.S. Highway 78 to its intersection with Alternate U.S. Highway 231, thence along Alternate U.S. Highway 231 to Sylacauga, thence along U.S. Highway 231 to Montgomery, thence along U.S. Highway 331 to the Alabama-Florida State line.) (12) *Paper and paper products* (except commodities in bulk), from the plant and warehouse sites of St. Regis Paper Co. at Marshall, Mich., to points in South Carolina, Arkansas, Oklahoma, and Texas. Restriction: The operations authorized above are restricted to the transportation of shipments originating at the above named plant and warehouse sites.

(13) *Paper and paper products* (except commodities in bulk), from Plattsburgh and Lyons Falls, N.Y., to Memphis, Tenn., and points in North Dakota, South Dakota, Nebraska, Kansas, Missouri, Oklahoma, Arkansas, Texas, Louisiana, Mississippi, and Alabama. (14) *Paper and paper products* (except commodities in bulk), from the facilities of the Nekoosa Edwards Paper Co., Inc., at or near Potsdam, N.Y., to Memphis, Tenn., and points in Oklahoma, Texas, Arkansas, Louisiana, Mississippi, Alabama, and points in North Carolina on and west of a line beginning at the intersection of the Tennessee-North Carolina State line and U.S. Highway 25 thence along U.S. Highway 25 to the North Carolina-South Carolina State line and U.S. Highway 176, thence along U.S. Highway 176 to its intersection with South Carolina Highway 12, thence along South Carolina Highway 121 to its intersection with U.S. Highway 25 near Trenton, S.C., thence along U.S. Highway 25 to the Georgia-South Carolina State line. (15) *Fibreboard and pulpboard products* (except commodities in bulk), from Elk Grove Village, Ill., Aurora and Chicago Heights, Ill., to points in New York, Massachusetts, New Hampshire, Vermont, Maine, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, and points in Alabama on, south, and east of a line beginning at the intersection of the Georgia-Alabama State line and Alabama Highway 21, thence along Alabama Highway 21 to its intersection with Alabama Highway 22 thence along Alabama Highway 22 to Selma, Alabama, thence along Alabama Highway 41 to the Alabama-Florida State line. Restriction: The authority granted above is restricted to shipments originating at the plant and warehouse sites of Georgia Pacific Corporation. (16) *Paper and paper products* (except commodities in bulk), from Glen Falls, N.Y., to Memphis, Tenn., and points in North Dakota, South Dakota, Nebraska, Kansas, Missouri, Oklahoma, Texas, Arkansas, Louisiana, Mississippi, and Alabama. Restriction: The operations authorized above are restricted to the transportation of shipments originating at the plant site of Finch Pruen & Co., Inc., at Glen Falls, N.Y.

(17) *Paper and paper products* (except commodities in bulk), from points in Minnesota to points in New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, and points in Alabama on, south, and east of a line beginning at the intersection of the Georgia-Alabama State line and U.S. Highway 78 thence along U.S. Highway 78 to its intersection with U.S. Highway 231, thence along U.S. Highway 231 to Montgomery, thence along U.S. Highway 331 to the Florida-Alabama State line. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and wastepaper. (18) *Paper and paper products* (except commodities in bulk), from points in Minnesota on, east, and north of a line beginning at International Falls, Minn., thence along U.S. Highway 71 to Bemidji, thence along U.S. Highway 2 to its intersection with Minnesota Highway 371, thence along Minnesota Highway 371 to Little Falls, thence along U.S. Highway 10 to Anoka, thence south along U.S. Highway 52 to Minneapolis, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line, to those points in Alabama East of a line beginning at the intersection of the Tennessee-Alabama State line and Interstate Highway 65, thence along Interstate Highway 65 to its intersection with Alabama Highway 69, thence along Alabama Highway 69 to Tuscaloosa, thence along U.S. Highway 43 to Mobile, Ala. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and wastepaper. (19) *Paper and paper products* (except commodities in bulk), from points in Iowa to points in Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia, North Carolina and South Carolina, and the District of Columbia.

(20) *Paper and paper products* (except commodities in bulk), from points in Wisconsin to points in New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, and the District of Columbia. (21) *Paper and paper products* (except commodities in bulk), from points in Wisconsin on and east of U.S. Highway 51, to points in Alabama on, south, and east of a line beginning at the intersection of the Alabama-Georgia State line and U.S. Highway 11, thence along U.S. Highway 11 to Birmingham, thence along Interstate Highway 65 to its intersection with Alabama Highway 22, thence along Alabama Highway 22 to Selma, thence along Alabama Highway 41 to the Alabama-Florida State line. (22) *Paper and paper products* (except commodities in bulk), from points in Wisconsin on and east of U.S. Highway 41, to points in Alabama on, south, and east of a line beginning at the intersection of the Alabama-Tennessee State line and Interstate Highway 65, thence along Interstate 65 to its intersection with Alabama Highway 69, thence along Alabama Highway 69 to Tuscaloosa, thence along U.S. Highway 43 to its intersection with Alabama County Truck Highway 96 thence along Alabama County Truck Highway 96 to the Mississippi-Alabama State line and points in Mississippi on and south of a line beginning at the intersection of the Louisiana-Mississippi State line and Mississippi Highway 26, thence along Mississippi Highway 26 to Lucedale, thence along U.S. Highway 98 to the Mississippi-Alabama State line, and points in Louisiana on and west of a line beginning at the intersection of the Mississippi-Louisiana State line and Louisiana Highway 21, thence along Louisiana Highway 21 to its intersection with Louisiana Highway 22, thence along Louisiana Highway 22 to its intersection with U.S. Highway 51, thence along U.S. Highway 51 to its intersection with U.S. Highway 61, thence along U.S. Highway 61 to New Orleans, thence along U.S. Highway 90 to Houma, thence along Louisiana Highway 315 to its termination on the Gulf of Mexico.

(23) *Paper and paper products* (except commodities in bulk), from Muskegon, Mich., to Memphis, Tenn., and points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, the District of Columbia, Virginia, North Carolina, South Carolina, Alabama, Mississippi, Louisiana, Texas, and points in Kansas on, south, and west of a line beginning at the intersection of the Colorado-Kansas State line and U.S. Highway 50, thence along U.S. Highway 50 to Dodge City, thence along U.S. Highway 283 to the Oklahoma-Kansas State line, points in Oklahoma on, south, and west of a line beginning at the intersection of the Oklahoma-Kansas State line and U.S. Highway 177, thence along U.S. Highway 177 to its intersection with U.S. Highway 64, thence along U.S. Highway 64 to the Arkansas-Oklahoma State line, points in Arkansas on and south of

a line beginning at the intersection of the Oklahoma-Arkansas State line and Arkansas Highway 10, thence along Arkansas Highway 10 to Little Rock, thence along U.S. Highway 70 to the Arkansas-Tennessee State line, and points in New York on and east of a line beginning at Oswego, thence along New York Highway 57 to Syracuse, thence along U.S. Highway 11 to the New York-Pennsylvania State line. (24) *Paper and paper products* (except commodities in bulk), from Plainwell, Otsego, and Kalamazoo, Mich., to Memphis, Tenn., and points in Oklahoma, Texas, Louisiana, Arkansas, Mississippi, Alabama, South Carolina, North Carolina, Virginia, Maryland, Delaware, the District of Columbia, New Jersey, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, and points in New York on and east of a line beginning at Clayton, thence along New York Highway 12 to Watertown, thence along U.S. Highway 11 to the Pennsylvania-New York State line, and points in Kansas on, south, and west of a line beginning at the intersection of the Colorado-Kansas State line and Kansas Highway 96, thence along Kansas Highway 96 to its intersection with U.S. Highway 283, thence along U.S. Highway 283 to its intersection with U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Missouri State line. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(25) *Paper and paper products* (except commodities in bulk), from Battle Creek, Mich., to Memphis, Tenn., and points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Alabama, Mississippi, Arkansas, Louisiana, Texas, Oklahoma, and points in Kansas on and south of U.S. Highway 24, and points in New York on and east of a line beginning at the intersection of the International Boundary between Canada and the United States in New York and U.S. Highway 9, thence along U.S. Highway 9 to Poughkeepsie, thence along U.S. Highway 44 to its intersection with U.S. Highway 209, thence along U.S. Highway 209 to Port Jervis, N.Y. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (26) *Paper and paper products* (except commodities in bulk), from Detroit, Mich., to Memphis, Tenn., and points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Missouri, Arkansas, Louisiana, Mississippi, Alabama, South Carolina, North Carolina, and points in Virginia on and south of a line beginning at the intersection of the West Virginia-Virginia State line and U.S. Highway 250, thence along U.S. Highway 250 to Richmond, thence along U.S. Highway 360 to its termination on the Chesapeake Bay, and points in Maine on and north of a line beginning at the intersection of the New Hampshire-Maine State line and Maine Highway 26, thence southeast along Maine Highway 26 to Portland, Me. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(27) *Paper and paper products* (except commodities in bulk), from points in the Lower Peninsula of Michigan on and north of a line beginning at Ludington, thence along U.S. Highway 10 to Bay City, Mich., to Memphis, Tenn., and points in Texas, Louisiana, Mississippi, Alabama, South Carolina, North Carolina, Virginia, Delaware, District of Columbia, Maine, points in Vermont north and east of a line beginning at the intersection of the International Boundary between Canada and United States and Vermont Highway 100, thence along Vermont Highway 100 to its intersection with Vermont Highway 12, thence along Vermont Highway 12 to Montpelier, thence along U.S. Highway 2 to the Vermont-New Hampshire State line, points in New Hampshire north and east of a line beginning at the intersection of the Vermont-New Hampshire State line and New Hampshire Highway 25, thence along New Hampshire Highway 25 to Plymouth, thence south along U.S. Highway 3 to the New Hampshire-Massachusetts State line, points in Maryland south and east of Interstate Highway 95, points in Arkansas on and south of a line beginning at Ft. Smith, along Arkansas Highway 10 to Little Rock, thence along U.S. Highway 70 to the Arkansas-Tennessee State line, points in Oklahoma south and west of a line beginning at the intersection of the Kansas-Oklahoma State line and U.S. Highway 177 thence along U.S. Highway 177 to its intersection with U.S. Highway 64, thence along U.S. Highway 64 to the Arkansas-Oklahoma State line, and points in Kansas on, south, and west of a line beginning at the intersection of the Colorado-Kansas State line and U.S. Highway 50, thence along U.S. Highway 50 to Dodge City, thence along U.S. Highway 283 to the Kansas-Oklahoma State line.

(28) *Paper and paper products* (except commodities in bulk), from Alpena, Mich., to Memphis, Tenn., and points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Alabama, Mississippi, Louisiana, Arkansas, Oklahoma, Texas, Missouri, Kansas, points in Nebraska on and south of a line beginning at the intersection of the Wyoming-Nebraska State line and U.S. Highway 26, thence along U.S. Highway 26 to its intersection with U.S. Highway 30, thence along U.S. Highway 30 to its intersection with U.S. Highway 34, thence along U.S. Highway 34 to the Nebraska-Iowa State line, and points in New York on and east of a line beginning at the intersection of the International Boundary between Canada and the United States and U.S. Highway 9, thence along U.S. Highway 9 to its intersection with New York Highway 7, thence along New York Highway 7 to its intersection with New York Highway 30, thence along New York Highway 30 to the New York-Pennsylvania State line. (29) *Paper and paper products* (except commodities in bulk), from Port Huron, Mich., to Memphis, Tenn., and points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Missouri, Arkansas, Louisiana, Mississippi, Alabama, South Carolina, North Carolina, Maine, and points in Virginia on and south of a line beginning at the intersection of the West Virginia-Virginia State line, and U.S. Highway 33, thence along U.S. Highway 33 to Richmond, thence along U.S. Highway 360 to its termination on the Chesapeake Bay. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(30) *Paper and paper products* (except commodities in bulk), from points in the Upper Peninsula of Michigan, to points in Alabama, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, points in New York on and east of a line beginning at Oswego, thence along New York Highway 104 to its intersection with New York Highway 34, thence along New York Highway 34 to the New York-Pennsylvania State line, points in Mississippi on, south, and east of a line beginning at Natchez, thence along U.S. Highway 84 to Laurel, thence along U.S. Highway 11 to the Mississippi-Alabama State line, and the District of Columbia. (31) *Paper and paper products* (except commodities in bulk), from points in Indiana on, north, and west of a line beginning at the intersection of the Illinois-Indiana State line and U.S. Highway 24, thence along U.S. Highway 24 to Logansport, thence along Indiana Highway 25 to its intersection with U.S. Highway 31, thence along U.S. Highway 31 to the Michigan-Indiana State line, to points in Maine New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, points in New York on and east of a line beginning at Rochester, thence along U.S. Highway 15 to its junction with New York Highway 21, thence along New York Highway 21 to the Pennsylvania-New York State line, points in Texas on, south, and west of a line beginning at El Paso, thence along U.S. Highway 80 to Van Horn, thence along U.S. Highway 90 to Uvalde, thence along U.S. Highway 83 to its intersection with Texas Highway 44, thence along Texas Highway 44 to Corpus Christi, and the District of Columbia. Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products and waste paper.

(32) *Paper and paper products* (except commodities in bulk), from points in Indiana on, north, and east of a line beginning at the intersection of the Michigan-Indiana State line and U.S. Highway 31, thence along U.S. Highway

31 to its intersection with Indiana Highway 25, thence along Indiana Highway 25 to Logansport, thence along U.S. Highway 24 to the Indiana-Ohio State line, to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, and points in New York on and east of a line beginning at the intersection of the International Boundary between the United States and Canada and New York Highway 56, thence along New York Highway 56 to its intersection with New York Highway 3, thence along New York Highway 3 to Tupper Lake, thence along New York Highway 30 to the Pennsylvania-New York State line, points in Alabama on and south of a line beginning at the intersection of the Mississippi-Alabama State line and U.S. Highway 11, thence along U.S. Highway 11 to Tuscaloosa, thence along U.S. Highway 82 to its intersection with Alabama Highway 25, thence along Alabama Highway 25 to its intersection with Alabama Highway 76, thence along Alabama Highway 76 to its intersection with Alabama Highway 21, thence along Alabama Highway 21 to its intersection with U.S. Highway 78, thence along U.S. Highway 78 to the Alabama-Georgia State line, points in Mississippi on, south, and east of a line beginning at Natchez, Miss., thence along U.S. Highway 84 to U.S. Highway 11, thence along U.S. Highway 11 to the Mississippi-Alabama State line, points in Louisiana, on and south of a line beginning at the intersection of the Texas-Louisiana State line and U.S. Highway 80, thence along U.S. Highway 80 to Shreveport, thence along U.S. Highway 71 to its intersection with U.S. Highway 84, thence along U.S. Highway 84 to the Mississippi-Louisiana State line, and points in Texas south and west of a line beginning at the intersection of the Texas-Oklahoma State line and U.S. Highway 287, thence along U.S. Highway 287 to Ft. Worth, thence along U.S. Highway 80 to the Louisiana-Texas State line and the District of Columbia.

(33) *Paper and paper products* (except commodities in bulk), from points in Indiana on and within an area bordered on the east by the Ohio-Indiana State line and bordered on the north by U.S. Highway 24, and bordered on the west by a line beginning at Logansport, Ind., thence along Indiana Highway 29 to its intersection with U.S. Highway 421, thence along U.S. Highway 421 to Indianapolis, and bordered on the south by U.S. Highway 40, to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, New York (except points west of U.S. Highway 219), points in Louisiana on, south, east of a line beginning at Cameron, thence along Louisiana Highway 82 to Abbeville, thence along U.S. Highway 167 to Opelousas, thence along U.S. Highway 190 to its intersection with U.S. Highway 90, thence along U.S. Highway 90 to the Louisiana-Mississippi State line, and points in Texas on, south, and west of a line beginning at the intersection of the Texas-Oklahoma State line and U.S. Highway 287, thence along U.S. Highway 287 to Childress; thence along U.S. Highway 83 to Abilene, thence along Texas Highway 36 to its intersection with Interstate Highway 10, thence along Interstate Highway 10 to the Texas-Louisiana State line. Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(34) *Paper and paper products* (except commodities in bulk), from Sodus, Mich., to points in Maine, New Hampshire, Vermont, Rhode Island, Massachusetts, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Alabama, Louisiana, Texas, New York (except points west of New York Highway 19), Mississippi (except points north and west of a line beginning at Greenville, thence along U.S. Highway 82 to Columbus, thence along U.S. Highway 45 to the Mississippi-Tennessee State line), Arkansas (except points north and east of a line beginning at the intersection of the Oklahoma-Arkansas State line and U.S. Highway 270, thence along U.S. Highway 270 to Hot Springs, thence along U.S. Highway 70 to Little Rock, thence along U.S. Highway 65 to its intersection with U.S. Highway 82, thence along U.S. Highway 82 to the Mississippi-Arkansas State line), and points in Oklahoma (except points north and east of a line beginning at the intersection of Kansas-Oklahoma State line and U.S. Highway 83, thence along U.S. Highway 83 to its intersection with U.S. Highway 270, thence along U.S. Highway 270 to Seminole, thence along Oklahoma Highway 3 to Broken Bow, thence along U.S. Highway 70 to the Oklahoma-Arkansas State line). Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(35) *Paper and paper products* (except commodities in bulk), from Ypsilanti, Mich., to Memphis, Tenn., and points in North Carolina, South Carolina, Alabama, Mississippi, Louisiana, Arkansas, Missouri, Kansas, Oklahoma, Texas, North Dakota, South Dakota (except points east and south of a line beginning at the intersection of the South Dakota-Nebraska State line and U.S. Highway 281, thence along U.S. Highway 281 to its intersection with U.S. Highway 81, thence along U.S. Highway 81 to its intersection with U.S. Highway 12, thence along U.S. Highway 12 to the South Dakota-Minnesota State line), Nebraska (except points north and east of a line beginning at the intersection of the South Dakota-Nebraska State line and U.S. Highway 281, thence along U.S. Highway 281 to its intersection with Nebraska Highway 2, thence along Nebraska Highway 2 to the Missouri-Nebraska State line), Virginia (except points north of a line beginning at the intersection of the West Virginia-Virginia State line and U.S. Highway 33, thence along U.S. Highway 33 to Richmond, thence along U.S. Highway 360 to its termination on the Chesapeake Bay), and Maine (except points south and west of Maine Highway 26). Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (36) *Paper and paper products*, (except commodities in bulk), from points in Illinois on, north and west of Illinois Highway 2, to points in South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and the District of Columbia, Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (37) *Paper and paper products* (except commodities in bulk), from points in Escambia County, Florida, to points in New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and New Jersey (except points south and west of a line beginning at Camden, then along U.S. Highway 30 to its intersection with New Jersey Highway 50, thence along New Jersey Highway 50 to its junction with U.S. Highway 9, thence along U.S. Highway 9 to Cape May) Restriction: The authority granted herein is restricted to transportation of traffic originating at Escambia Co., Florida, and further restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(38) *Paper and paper products* (except commodities in bulk), from points in the Lower Peninsula of Michigan to points in South Carolina, North Carolina, points in Virginia on and south of a line beginning at the intersection of the Virginia-West Virginia State line and U.S. Highway 250, thence along U.S. Highway 250 to Richmond, thence along U.S. Highway 360 to its termination on the Chesapeake Bay, points in Alabama on and south of a line beginning at the intersection of the Alabama-Mississippi State line and U.S. Highway 82, thence along U.S. Highway 82 to Tuscaloosa, thence along U.S. Highway 11 to the Alabama-Georgia State line, points in Mississippi on and south of U.S. Highway 80, points in Louisiana on and south of U.S. Highway 80, points in Texas on, south, and west of a line beginning at the intersection of New Mexico-Texas State line and U.S. Highway 66, thence along U.S. Highway 66 to Amarillo, thence along U.S. Highway 287 to its intersection with U.S. Highway 283, thence along U.S. Highway 283 to its intersection with U.S. Highway 84, thence along U.S. Highway 84 to the Louisiana-Texas State line. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper from points on and south of Michigan Highway 21. (39) *Paper and paper products* (except commodities in bulk), from points in the Lower Peninsula of Michigan north of Michigan Highway 21, to Memphis, Tenn., and points in Maine, North Carolina, South

Carolina, Alabama, Mississippi, Arkansas, Louisiana, Texas, Oklahoma, points in Virginia on and south of a line beginning at the intersection of the West Virginia-Virginia State line and U.S. Highway 33, thence along U.S. Highway 33 to Richmond, thence along U.S. Highway 360 to its termination on the Chesapeake Bay, points in Kansas on, south, and west of a line beginning at the intersection of the Colorado-Kansas State line and Kansas Highway 96, thence along Kansas Highway 96 to Great Bend, thence along U.S. Highway 281 to Pratt, thence along U.S. Highway 54 to Wichita, thence along U.S. Highway 81 to the Kansas-Oklahoma State line.

(40) *Paper and paper products* (except commodities in bulk), from points in the Lower Peninsula of Michigan on and west of U.S. Highway 27, to points in Maine, New Hampshire, Rhode Island, Delaware, Maryland, Virginia, North Carolina, South Carolina, Connecticut, Massachusetts (except points west of U.S. Highway 7), Vermont (except points west of U.S. Highway 7), New York (except points north and west of a line beginning at Hillburn, thence along Interstate Highway 87 to its intersection with U.S. Highway 44, thence along U.S. Highway 44 to the New York-Connecticut State line), New Jersey (except points north and west of a line beginning at the intersection of the Pennsylvania-New Jersey State line and Interstate Highway 78, thence along Interstate Highway 78 to its intersection with U.S. Highway 202, thence along U.S. Highway 202 to the New York-New Jersey State line), Alabama (except points north and west of a line beginning at the intersection of the Alabama-Mississippi State line and U.S. Highway 82, thence along U.S. Highway 82 to Tuscaloosa, thence along U.S. Highway 11 to the Alabama-Georgia State line), Mississippi (except points north of U.S. Highway 80), Louisiana (except points north of U.S. Highway 80), Texas (except points north and east of a line beginning at the intersection of the New Mexico-Texas State line and U.S. Highway 66, thence along U.S. Highway 566 to Amarillo, thence along U.S. Highway 287 to its intersection with U.S. Highway 83, thence along U.S. Highway 83 to its intersection with U.S. Highway 84 thence along U.S. Highway 84 to the Texas-Louisiana State line), and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products and waste paper from points in Michigan on and south of Michigan Highway 21.

(41) *Paper and paper products* (except commodities in bulk), from points in the Lower Peninsula of Michigan on and east of U.S. Highway 27, to Memphis, Tenn., and points in Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Alabama, North Carolina, South Carolina, Virginia (except points north of a line beginning at the intersection of the West Virginia-Virginia State line and U.S. Highway 250, thence along U.S. Highway 250 to Richmond, thence along U.S. Highway 360 to its termination on the Chesapeake Bay), Kansas (except points north of U.S. Highway 24), and Missouri (except points north and east of a line beginning at Kansas City, Mo., thence along U.S. Highway 71 to its junction with Missouri Highway 7, thence along Missouri Highway 7 to its intersection with U.S. Highway 66, thence along U.S. Highway 66 to Rolla, thence along Michigan Highway 72 to its intersection with Missouri Highway 51, thence along Missouri Highway 51 to the Missouri-Illinois State line). Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper from points in Michigan on and south of Michigan Highway 21. (42) *Paper and paper products* (except commodities in bulk), from Niles, Mich., to Memphis, Tenn., and points in Texas, Louisiana, Mississippi, Alabama, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, New York (except points west of New York Highway 19), Arkansas (except points north of a line beginning at Fort Smith, thence along U.S. Highway 71 to its junction with Arkansas Highway 10, thence along Arkansas Highway 10 to Little Rock, thence along U.S. Highway 70 to the Arkansas-Tennessee State line), Oklahoma (except points north and east of a line beginning at the intersection of the Kansas-Oklahoma State line and U.S. Highway 77, thence along U.S. Highway 77 to Ponca City, thence along U.S. Highway 177 to its intersection with U.S. Highway 64, thence along U.S. Highway 64 to the Arkansas-Oklahoma State line), and points in Kansas (except points north and east of a line beginning at the intersection of the Colorado-Kansas State line along U.S. Highway 283 to the Oklahoma-Kansas State line) the District of Columbia. Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(43) *Paper and paper products*, (except commodities in bulk), from Watervliet, Mich., to points in Texas, Louisiana, Alabama, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, New York (except points west of New York Highway 19), Mississippi (except points north and west of a line beginning at Greenville, thence along U.S. Highway 82 to its intersection with U.S. Highway 61, thence along U.S. Highway 61 to its intersection with Mississippi Highway 6, thence along Mississippi Highway 6 to Tupelo, thence north along U.S. Highway 45 to the Mississippi-Tennessee State line), Arkansas (except points north and east of a line beginning at the intersection of the Oklahoma-Arkansas State line and U.S. Highway 270, thence along U.S. Highway 70 to Little Rock, thence along U.S. Highway 65 to the Arkansas-Louisiana State line), Oklahoma (except points north and east of U.S. Highway 270), and the District of Columbia. Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(44) *Paper and paper products* (except commodities in bulk), from points in Illinois (except Chicago, Illinois and points in its Commercial Zone, as defined by the Commission, points in that part of the St. Louis-East St. Louis Commercial Zone within Illinois and points in Illinois on and south of U.S. Highway 460) to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, New York (except points west of a line beginning at Westfield, thence along New York Highway 17 to Jamestown, thence along U.S. Highway 62 to the New York-Pennsylvania State line), Virginia (except points south and west of a line beginning at the intersection of the West Virginia-Virginia State line and U.S. Highway 250, thence along U.S. Highway 250 to Richmond, thence along U.S. Highway 301 to the Virginia-North Carolina State line), North Carolina (except points west of a line beginning at the intersection of the Virginia-North Carolina State line and U.S. Highway 301, thence along U.S. Highway 301 to Rocky Mount, thence along North Carolina Highway 43 to its junction with U.S. Highway 17, thencé along U.S. Highway 17 to its intersection with U.S. Highway 70, thence along U.S. Highway 70 to Morehead City, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (45) *Paper and paper products* (except commodities in bulk), from points in Illinois on and north of a line beginning at the intersection of the Iowa-Illinois State line and U.S. Highway 34, thence along U.S. Highway 34 to its junction with Illinois Highway 116, thence along Illinois Highway 116 to Peoria, thence along U.S. Highway 24 to the Illinois-Indiana State line (except points in Chicago, Ill., and its Commercial Zone, as defined by the Commission), to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, points in New York (except points west of a line beginning at Buffalo, thence along U.S. Highway 62 to the New York-Pennsylvania State line), and the District of Columbia. Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(46) *Paper and paper products* (except commodities in bulk), from points in Illinois on and within an area bordered on the east by the Indiana-Illinois State line, on the north by U.S. Highway 24, on the west by a line beginning at Peoria, thence along Illinois Highway 29 to Springfield, thence along U.S. Highway 66 to Litchfield, and on the south by a line beginning at Litchfield, thence along Illinois Highway 16 to Paris, thence along U.S. Highway 150 to the Indiana-Illinois State line, to points in

Maine, Vermont, New Hampshire, New York, Connecticut, Rhode Island, Massachusetts, New Jersey, Delaware, Maryland, Virginia (except points west of U.S. Highway 21), North Carolina (except points west of U.S. Highway 21), points in South Carolina (except points west and south of a line beginning at the intersection of the North Carolina-South Carolina State line U.S. Highway 21, thence south along U.S. Highway 21 to Columbia, thence along U.S. Highway 176 to Charleston, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (47) *Paper and paper products* (except commodities in bulk), from points in Illinois on and within an area bordered on the north by Illinois Highway 116 on the east and south by a line beginning at Peoria, thence along Illinois Highway 29 to Springfield, thence along U.S. Highway 66 to the Illinois-Missouri State line, and on the west by the Illinois State line (except points in the St. Louis-East St. Louis Commercial Zone which lie in Illinois), to points in New York, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Maryland, Delaware, Virginia (except points west of U.S. Highway 21), points in North Carolina (except points west of U.S. Highway 21), points in South Carolina (except points west of U.S. Highway 521), and the District of Columbia. Restriction: The authority granted herein is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(48) *Paper and paper products* (except commodities in bulk), from points in Illinois on and within an area bordered on the east by the Illinois-Indiana State line, on the southwest by U.S. Highway 460, and on the northwest by a line beginning at St. Louis, thence along U.S. Highway 66 to Litchfield, thence along Illinois Highway 16 to Paris, thence along U.S. Highway 50 to the Illinois-Indiana State line (except points in the St. Louis-East St. Louis Commercial Zone, as defined by the Commission, which lie in Illinois, and except points in U.S. Highway 460), to points in New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia (except points west of a line beginning at the intersection of the West Virginia-Virginia State line and U.S. Highway 33, thence along U.S. Highway 33 to its intersection with U.S. Highway 15, thence along U.S. Highway 15 to the Virginia-North Carolina State line), and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (49) *Paper and paper products* (except commodities in bulk), from Chicago, Ill., to points in South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, New York (except points west of a line beginning at Buffalo, thence along U.S. Highway 62 to the New York-Pennsylvania State line), Alabama (except points west of a line beginning at the intersection of the Georgia-Alabama State line and U.S. Highway 11, thence along U.S. Highway 11 to Birmingham, thence along U.S. Highway 31 to Montgomery, thence along Interstate Highway 65 to Mobile), and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(50) *Paper and paper products* (except commodities in bulk), from points in Indiana (except Evansville), to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, New York (except points west of a line beginning at Clayton, thence along New York Highway 12 to Watertown, thence along U.S. Highway 11 to the New York-Pennsylvania State line), Virginia (except points west of a line beginning at the intersection of the West Virginia-Virginia State line and U.S. Highway 522, thence along U.S. Highway 522 to its intersection with U.S. Highway 33, thence along U.S. Highway 33 to Richmond, thence along U.S. Highway 301 to its junction with Virginia Highway 35, thence along Virginia Highway 35 to the North Carolina-Virginia State line), and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (51) *Paper and paper products* (except commodities in bulk), from points in Indiana on and within an area bordered on the west by the Indiana-Illinois State line, on the north by U.S. Highway 24, on the east by a line beginning at Logansport, thence along Indiana Highway 29 to its junction with U.S. Highway 421, thence along U.S. Highway 421 to Indianapolis, and on the south by U.S. Highway 40, to points in New York, Maine, Vermont, Massachusetts, New Hampshire, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia (except points southwest of a line beginning at the intersection of the Kentucky-Virginia State line, thence along U.S. Highway 23 to Norton, thence along alternate U.S. Highway 58 to its junction with U.S. Highway 58, thence along U.S. Highway 58 to Briston), North Carolina (except points west of a line beginning at the intersection of the Virginia-North Carolina State line and U.S. Highway 21, thence along U.S. Highway 21 to its intersection with North Carolina Highway 18, thence along North Carolina Highway 18 to its intersection with U.S. Highway 64, thence along U.S. Highway 64 to its intersection with U.S. Highway 221, thence along U.S. Highway 221 to the North Carolina-South Carolina State line), South Carolina (except points west of a line beginning at the intersection of the North Carolina-South Carolina State line and U.S. Highway 221, thence along U.S. Highway 221 to its intersection with Interstate Highway 85, thence along Interstate Highway 85 to the Georgia-South Carolina State line), and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(52) *Paper and paper products* (except commodities in bulk), from points in Kentucky (except Florence and points in the Cincinnati, Ohio Commercial Zone, as defined by the Commission, which are in Kentucky), to points in New York on and north of a line beginning at Otsego, thence along New York Highway 57 to Syracuse, thence along New York Highway 5 to Schenectady, thence along New York Highway 7 to the New York-Vermont State line), points in Vermont on and north of U.S. Highway 4, points in New Hampshire on and north of a line beginning at the intersection of the New Hampshire-Vermont State line and U.S. Highway 4, thence along U.S. Highway 4 to Concord, thence along U.S. Highway 3 to Meredith, thence along New Hampshire Highway 25 to the New Hampshire-Maine State line, and points in Maine on and north of a line beginning at the intersection of the Maine New Hampshire State line and U.S. Highway 302, thence along U.S. Highway 302 to its intersection with Maine Highway 11, thence along Maine Highway 11 to Lewiston, thence along Maine Highway 196 to Brunswick, and thence along Maine Highway 123 to the Atlantic Ocean. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (53) *Paper and paper products* (except commodities in bulk), from points in Kentucky on and west of U.S. Highway 41, to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Points in Virginia on and north of U.S. Highway 50, points in Maryland on and north of U.S. Highway 50, and the District of Coulmbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(54) *Paper and paper products* (except commodities in bulk), from points in Kentucky on and within an area bordered on the north by the Indiana-Kentucky State line, on the west by U.S. Highway 45, on the south by the Tennessee-Indiana State line, and on the east by Interstate Highway 65, to points in New York, Maine, Vermont, New Hampshire, Connecticut, Massachusetts, Rhode Island, New Jersey, points in Virginia on and north of U.S. Highway 50, points in Maryland on and north of U.S. Highway 50, points in North Dakota on, north, and east of a line beginning at the intersection of the Montana-North Dakota State line and U.S. Highway 2, thence along U.S. Highway 2 to its intersection with U.S. Highway 281, thence along U.S.

Highway 281 to the International Boundary between Canada and the United States, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (55) *Paper and paper products* (except commodities in bulk), from points in Kentucky on and within an area bordered on the south by U.S. Highway 60, on the east by U.S. Highway 25, and on the northwest by the Kentucky-Indiana State line (except Florence, Kentucky, and points within the Cincinnati Commercial Zone, as defined by the Commission, which lie within Kentucky), to points in New York, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, those points in Virginia on and north of U.S. Highway 50, those points in Maryland north and east of a line beginning at the intersection of the Pennsylvania-Maryland State line and U.S. Highway 220, thence along U.S. Highway 220 to Cumberland, thence following the Maryland State line east and south to its intersection with U.S. Highway 50, thence along U.S. Highway 50 to the Atlantic Ocean, points in North Dakota, South Dakota, points in Nebraska on, north, and west of a line beginning at the intersection of the Colorado-Nebraska State line and U.S. Highway 30, thence along U.S. Highway 30 to Columbus, thence along U.S. Highway 81 to its intersection with U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line, points in Texas on and west of a line beginning at the intersection of the New Mexico-Texas State line and U.S. Highway 285, thence along U.S. Highway 285 to Pecos, thence along Texas Highway 17 to the intersection with Texas Highway 118, thence along Texas Highway 118 to Boquillas, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(56) *Paper and paper products* (except commodities in bulk), from points in Kentucky on and within an area bordered on the west by Interstate Highway 65, on the north by U.S. Highway 60, on the east by U.S. Highway 25, and on the south by the Tennessee-Kentucky State line, to points in North Dakota, Maine, New Hampshire, Vermont, South Dakota (except points south and east of a line beginning at the intersection of the Nebraska-South Dakota State line and U.S. Highway 83, thence along U.S. Highway 83 to its intersection with U.S. Highway 16, thence along U.S. Highway 16 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the South Dakota-Minnesota State line), New York (except points south of a line beginning at Narrowsburg, thence along New York Highway 52 to its intersection with U.S. Highway 209, thence along U.S. Highway 209 to its junction with U.S. Highway 44, thence along U.S. Highway 44 to the Connecticut-Massachusetts State line), and Massachusetts (except points south and east of a line beginning at the intersection of the Connecticut-Massachusetts State line and U.S. Highway 7, thence along U.S. Highway 7 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to Springfield, thence along U.S. Highway 5 to its intersection with U.S. Highway 202, thence along U.S. Highway 202 to its intersection with Massachusetts Highway 9, thence along Massachusetts Highway 9 to Boston. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(57) *Paper and paper products* (except commodities in bulk), from Nicholasville, Ky., to points in North Dakota, South Dakota, Nebraska, New York, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, points in Virginia on and north of U.S. Highway 50, points in Maryland on, north, and east of a line beginning at the intersection of the Pennsylvania-Maryland State line and U.S. Highway 20, thence along U.S. Highway 20 to Cumberland, thence along the Maryland-Pennsylvania State line to its intersection with U.S. Highway 50, thence along U.S. Highway 50 to its termination on the Atlantic Ocean, points in Kansas on, north, and west of a line beginning at the intersection of the Missouri-Kansas State line and U.S. Highway 36, thence along U.S. Highway 36 to its intersection with Kansas Highway 99, thence along Kansas Highway 99 to its intersection with Interstate Highway 35, thence along Interstate Highway 35 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, points in Oklahoma on and west of a line beginning at the intersection of the Kansas-Oklahoma State line and U.S. Highway 77, thence along U.S. Highway 77 to Oklahoma City, thence along U.S. Highway 277 to the Oklahoma-Texas State line, points in Texas on and west of a line beginning at the intersection of the Oklahoma-Texas State line and U.S. Highway 277, thence along U.S. Highway 277 to Abilene, Texas, thence along U.S. Highway 80 to its intersection with Texas Highway 163, thence along Texas Highway 163 to its intersection with U.S. Highway 90, thence along U.S. Highway 90 to DelRio, thence southwest along unnumbered highway to the Rio Grande and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(58) *Paper and paper products* (except commodities in bulk), from points in Kentucky on and within an area bordered on the west by U.S. Highway 25, on the southwest by U.S. Highway 68, and on the northeast by the Ohio-Kentucky State line (except points in the Cincinnati, Ohio, Commercial Zone, as defined by the Commission, which are in Kentucky), to points in North Dakota, South Dakota, Nebraska, Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, those points in Maryland on and north of a line beginning at the intersection of the Maryland-Pennsylvania State line and U.S. Highway 11, thence along U.S. Highway 11 to Hagerstown, thence along U.S. Highway 40 to Baltimore, thence along Maryland Highway 2 to Annapolis, thence along U.S. Highway 50 to its termination on the Atlantic Ocean, points in Kansas on and west of a line beginning at Atchison, thence along Kansas Highway 4 to Topeka, thence along Interstate Highway 35 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, those points in Oklahoma on and west of a line beginning at the intersection of the Kansas-Oklahoma State line and U.S. 77, thence along U.S. Highway 77 to its intersection with Oklahoma Highway 19, thence along Oklahoma Highway 19 to its intersection with U.S. Highway 277, thence along U.S. Highway 277 to the Oklahoma-Texas State line, and points in Texas on and west of a line beginning at the intersection of the Texas-Oklahoma State line and U.S. Highway 277 thence along U.S. Highway 277 to Eagle Pass, Texas. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(59) *Paper and paper products* (except commodities in bulk), from points in Kentucky on and east of a line beginning at Maysville, thence along U.S. Highway 68 to Lexington, thence along U.S. Highway 25 to the Kentucky-Tennessee State line, to points in North Dakota, South Dakota, Nebraska, points in Maine, on, north, and east of a line beginning at the intersection of the New Hampshire-Maine State line and Maine Highway 2, thence along Maine Highway 2 to its intersection with Maine Highway 26, thence along Maine Highway 26 to Portland, points in Kansas on and west of a line beginning at the intersection of the Missouri-Kansas State line and U.S. Highway 36, thence along U.S. Highway 36 to its intersection with Kansas Highway 99, and along Kansas Highway 99 to Emporia, thence along U.S. Highway 50 to its intersection with U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Oklahoma State line, points in Oklahoma on and west of a line beginning at the intersection of the Kansas Oklahoma State line and U.S. Highway 81, thence along U.S. Highway 81 to Enid, thence along U.S. Highway 60 to its intersection with U.S. Highway 183, thence along U.S. Highway 183 to its intersection with U.S. Highway 62, thence along U.S. Highway 62 to the Texas-Oklahoma State line, and points in Texas on and north of a line beginning at the intersection of the Texas-Oklahoma State line and U.S. Highway 62, thence along U.S. Highway 62 to Lubbock, thence along U.S. Highway 84 to the New Mexico-Texas State line, and points in El Paso and Hudspeth Counties, Tex. Restriction: The authority granted

XUM

above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(60) *Paper and paper products* (except commodities in bulk), from points in Indiana on and within an area bordered on the north by U.S. Highway 40, on the west by U.S. Highway 31, on the south by U.S. Highway 50, and on the east by the Indiana-Ohio State line, to points in Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, points in Virginia on and east of a line beginning at the intersection of the Virginia-West Virginia State line and U.S. Highway 250, thence along U.S. Highway 250 to its intersection with U.S. Highway 11, thence along U.S. Highway 11 to its intersection with U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line, points in North Carolina on and east of a line beginning at the intersection of the Virginia-North Carolina State line and U.S. Highway 220 to Greensboro, thence along U.S. Highway 421 to Wilmington, points in Texas on and west of a line beginning at the intersection of the Oklahoma-Texas State line and U.S. Highway 287, thence along U.S. Highway 287 to its intersection with U.S. Highway 83, thence along U.S. Highway 83 to its intersection with U.S. Highway 87, thence along U.S. Highway 87 to its termination on the Gulf of Mexico, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (61) *Paper and paper products* (except commodities in bulk), from points in Indiana on and within an area bordered on the north by U.S. Highway 40, on the east by U.S. Highway 31, on the south by the Kentucky-Indiana State line, and on the west by the Indiana-Illinois State line (except Evansville), to points in New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland (except points east of Interstate Highway 81), points in Virginia on and east of a line beginning at the intersection of the Virginia-District of Columbia State line and U.S. Highway 1, thence along U.S. Highway 1 to Richmond, thence along U.S. Highway 60 to Hampton, thence along U.S. Highway 17 to the Virginia-North Carolina State line, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper.

(62) Paper and paper products (except commodities in bulk), from points in Indiana on and within an area bordered on the north by U.S. Highway 50, on the west by U.S. Highway 31, and on the southeast by the Indiana-Kentucky State line, to points in New York, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland (except points west of Interstate Highway 81), points in Virginia on and east of a line beginning at the intersection of the Virginia-District of Columbia State line and U.S. Highway 1, thence along U.S. Highway 1 to Richmond, thence along U.S. Highway 60 to Hampton, thence along U.S. Highway 17 to the Virginia-North Carolina State line, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of pulpboard, pulpboard products, and waste paper. (63) *Paper and paper products* (except commodities in bulk), from points in Tennessee on and west of a line beginning at the intersection of the Kentucky-Tennessee State line and U.S. Highway 641, thence along U.S. Highway 641 to Paris, thence along U.S. Highway 79 to its intersection with Tennessee Highway 22, thence along Tennessee Highway 22 to the Tennessee-Mississippi State line (except Memphis, Tenn.), to points in Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland (except points south of U.S. Highway 50), Virginia (except points south of U.S. Highway 50), and the District of Columbia. Restriction: The authority granted above is restricted to against the transportation of cardboard cartons.

(64) *Paper and paper products* (except commodities in bulk), from points in Tennessee on and within an area bordered on the west by a line beginning at the intersection of the Kentucky-Tennessee State line and U.S. Highway 641, thence along U.S. Highway 641 to Paris, thence along U.S. Highway 79 to its intersection with Tennessee Highway 22, thence along Tennessee Highway 22 to the Tennessee-Mississippi State line, bordered on the north by the Kentucky State line, on the east by U.S. Highway 41, and on the south by the Tennessee-Georgia State line, to points in New York, New Hampshire, Vermont, Maine, Connecticut, Massachusetts, Rhode Island, and points in New Jersey on and north of a line beginning at the intersection of the Pennsylvania-New Jersey State line and New Jersey Highway 57, thence along New Jersey Highway 57 to its junction with New Jersey Highway 24, thence along New Jersey Highway 24 to Newark, thence along U.S. Highway 1 to the Hudson River. Restriction: The authority granted above is restricted against the transportation of Cardboard cartons. (65) *Paper and paper products* (except commodities in bulk), from points in Tennessee on and within an area bordered on the north by the Tennessee-Kentucky State line, on the southwest by U.S. Highway 41, and on the east by U.S. Highway 127, to points in New York, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, North Dakota, those points in New Jersey on and north of a line beginning at the intersection of the Pennsylvania-New Jersey State line and New Jersey Highway 57, thence along New Jersey Highway 57 to its junction with New Jersey Highway 24, thence along New Jersey Highway 24 to Newark, thence along U.S. Highway 1 to the Hudson River, and points in South Dakota on, north, and west of a line beginning at the intersection of the Wyoming-South Dakota State line and U.S. Highway 212, thence along U.S. Highway 212 to its intersection with South Dakota Highway 47, thence along South Dakota Highway 47 to its intersection with U.S. Highway 12, thence along U.S. Highway 12 to Aberdeen, thence along U.S. Highway 281 to the North Dakota-South Dakota State line. Restriction: The authority granted above is restricted against the transportation of cardboard cartons.

(66) *Paper and paper products* (except commodities in bulk), from points in Tennessee on and within an area bordered on the west by U.S. Highway 127, on the north by the Kentucky-Tennessee State line, on the east by a line beginning at the intersection of the Kentucky-Tennessee State line and U.S. Highway 25E, thence along U.S. Highway 25E to its intersection with Tennessee Highway 33, thence along Tennessee Highway 33 to Knoxville, thence south along U.S. Highway 29 to the Tennessee-North Carolina State line, and on the south by the Tennessee-Georgia State line, to points in North Dakota, South Dakota, Maine, Vermont, New Hampshire (except points east and south of a line beginning at the intersection of the New Hampshire-Massachusetts State line and New Hampshire Highway 10, thence along New Hampshire Highway 10 to Keene, thence along New Hampshire Highway 9 to its intersection with New Hampshire Highway 114, thence along New Hampshire Highway 114 to Manchester, thence along New Hampshire Highway 101 to the Atlantic Ocean), New York (except points south and east of a line beginning at the intersection of the Pennsylvania-New York State line and New York Highway 79, thence along New York Highway 79 to its intersection with New York Highway 7, thence along New York Highway 7 to the New York-Vermont State line), and Nebraska (except points south and east of a line beginning at the intersection of the Wyoming-Nebraska State line and U.S. Highway 30, thence along U.S. Highway 30 to North Platte, thence along Nebraska Highway 70 to its junction with Nebraska Highway 92, thence along Nebraska Highway 92 to its intersection with U.S. Highway 81, thence along U.S. Highway 81 to its intersection with U.S. Highway 20, thence along U.S. Highway 20 to the Nebraska-Iowa State line). Restriction: The authority granted above is restricted against the transportation of cardboard cartons.

(67) *Paper and paper products* (except commodities in bulk), from points in Tennessee on and east of a line beginning at the intersection of the Kentucky-Tennessee State line and U.S. Highway 25E, thence along U.S. Highway 25E to its intersection with Tennessee Highway 33, thence along Tennessee Highway 33 to Knoxville, thence along U.S. Highway 129 to the Tennessee-North Carolina State line, to points in North Dakota, South Dakota, Nebraska (except

points south and east of a line beginning at the intersection of the Kansas-Nebraska State line and U.S. Highway 77, thence along U.S. Highway 77 to its intersection with Nebraska Highway 2, thence along Nebraska Highway 2 to the Nebraska-Iowa State line), and points in Kansas north and west of a line beginning at the intersection of the Colorado-Kansas State line and U.S. Highway 24, thence along U.S. Highway 24 to its intersection with U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Nebraska State line. Restriction: The authority granted above is restricted against the transportation of cardboard cartons.

(68) *Paper and paper products* (except commodities in bulk), from Kingsport, Tenn., to points in North Dakota, South Dakota, Nebraska, Kansas (except points south and east of a line beginning at the intersection of the Oklahoma-Kansas State line and U.S. Highway 75, thence along U.S. Highway 75 to its intersection with U.S. Highway 160, thence along U.S. Highway 160 to the Kansas-Missouri State line), Missouri (except points south and east of a line beginning at the intersection of the Kansas-Missouri State line and U.S. Highway 160, thence along U.S. Highway 160 to its intersection with Missouri Highway 39, thence along Missouri Highway 39 to its intersection with Missouri Highway 32, thence along Missouri Highway 32 to Lebanon, thence along Missouri Highway 5 to its intersection with U.S. Highway 54, thence along U.S. Highway 54 to Louisiana, Mo.), points in Oklahoma on, north, and west of a line beginning at the intersection of the Oklahoma-Texas State line and Oklahoma Highway 33, thence along Oklahoma 33 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the Oklahoma-Kansas State line, those points in Texas on and north of a line beginning at the intersection of the New Mexico-Texas State line and U.S. Highway 60, thence along U.S. Highway 60 to Amarillo, thence along U.S. Highway 66 to the Texas-Oklahoma State line, points in El Paso and Hudspeth Counties, Texas. Restriction: The authority granted above is restricted against the transportation of cardboard cartons.

(69) *Paper and paper products* (except commodities in bulk), from Tullahoma, Tenn., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, North Dakota, South Dakota (except points south and east of a line beginning at the intersection of the Nebraska-North Dakota State line and South Dakota Highway 47, thence along South Dakota Highway 47 to its intersection with U.S. Highway 16, thence along U.S. Highway 16 to the Minnesota-South Dakota State line), points in Nebraska on, north, and west of a line beginning at the intersection of the Wyoming-Nebraska State line and U.S. Highway 26 thence along U.S. Highway 26 to its intersection with U.S. Highway 385, thence along U.S. Highway 385 to the Nebraska-South Dakota State line, and points in New York. Restriction: The authority granted above is restricted against the transportation of cardboard cartons. (70) *Paper and paper products* (except commodities in bulk), from Nashville, Tenn., to points in North Dakota, Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, points in Virginia on and north of U.S. Highway 50, points in Maryland on and north of U.S. Highway 50, points in South Dakota on, north, and west of a line beginning at the intersection of the South Dakota-Nebraska State line and U.S. Highway 385, thence along U.S. Highway 385 to its intersection with U.S. Highway 16, thence along U.S. Highway 16 to Chamberlain, thence along South Dakota Highway 47 to Highmore, thence along U.S. Highway 14 to the South Dakota-Minnesota State line, and the District of Columbia. Restriction: The authority granted above is restricted against the transportation of cardboard cartons. The purpose of this filing is to eliminate the gateways of the plant site of Laminated and Coated Products Division of St. Regis Paper Co., at Troy, Ohio in 1–7, 9–36, 38–48, and 50–70 above. Lexington, Ky., and the plantsite of Laminated and Coated Products Division of St. Regis Paper Co., at Troy, Ohio in 37. Points in Little River County, Ark., in 8. Chicago Heights, Ill., and the plant site of Laminated and Coated Products Division of St. Regis Paper Co., at Troy, Ohio in 49.

No. MC 52709 (Sub-No. E1), filed June 4, 1974. Applicant: BEKINS VAN LINES, INC., P.O. Box 109, LaGrange, Ill. 60525. Applicant's representative: Robert McClure (same as above). County, Pa., within 25 miles of Pittsburgh, Pa., west of Pennsylvania Highway 51, on the one hand, and, on the other, points in Ohio on, north, and west of a line beginning at the Ohio-West Virginia State line extending along Ohio Highway 30 to junction Ohio Highway 3, thence along Ohio Highway 3 to junction Ohio Highway 13, thence along Ohio Highway 13 to junction U.S. Highway 33 to the Ohio-West Virginia State line, points in West Virginia on and west of Interstate Highway 77, and Baltimore, Md. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 88368 (Sub-No. E55), filed August 9, 1974. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Ave., Grandview, Mo. 64030. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission: (1) from points in Georgia to points in Illinois (Birmingham, Ala., and points within 100 miles thereof, and points in Mississippi and Missouri)*, and points in Michigan (points in Harlan County, Ky., Florence, Sheffield, and Tuscumbia, Ala., points in Missouri and Mississippi, and Bloomington, Ill., and points within 25 miles thereof)*; (2) from points in Georgia in and north of Muscogee, Chattahoochee, Stewart, Randolph, Terrell, Dougherty, Worth, Tift, Berrien, Atkinson, Ware, and Charlton Counties to points in Texas on, north, and west of a line from the Texas-New Mexico State line along U.S. Highway 80 to Midland, thence along Texas Highway 349 to Lamesa, thence along U.S. Highway 87 to Lubbock, thence along U.S. Highway 82 to Guthrie, thence along U.S. Highway 83 to Paducah, thence along Texas Highway 104 to Quanah, thence along Texas Highway 283 to the Texas-Oklahoma State line (Florence, Sheffield, and Tuscumbia, Ala., points in Mississippi and Missouri, and Waurika or Altus, Okla.)*; (3) from points in Georgia in and north of Carroll, Coweta, Spaulding, Pike, Upson, Crawford, Peach, Houston, Pulaski, Dodge, Telfair, Jeff Davis, Bacon, Appling, Wayne, and Glynn Counties to points in Texas on, north, and west of a line from the Texas-New Mexico State line along U.S. Highway 80 to Dallas, thence along U.S. Highway 75 to the Texas-Oklahoma State line (Florence, Sheffield, and Tuscumbia, Ala., points in Mississippi, points in Missouri, and Broken Bow or Altus, Okla.)*.

(4) From points in Georgia to points in Texas on, north, and west of a line from the Texas-New Mexico State line along U.S. Highway 80 to Dallas, thence along U.S. Highway 75 to the Texas-Oklahoma State line and points in Cherokee County, Tex. (points in Alabama within 100 miles of Birmingham, points in Arkansas, Terral, or Waurika, Okla., Shreveport, La., and points in Cherokee County, Tex.)*; (5) from points in Georgia in and north of Carroll, Coweta, Fayette, Spalding, Lamar, Crawford, Peach, Houston, Dooly, Crisp, Turner, Irwin, Coffee, Ware, and Charlton Counties to points in Cherokee County, Tex. (Florence, Sheffield, and Tuscumbia, Ala., and Shreveport, La.)*; (6) from points in Haralson, Spalding, Cobb, Fulton, Dekalb, Rockdale, Newton, Morgan, Greene, Taliaferro, McDuffie, and Columbia Counties, Ga., to points in Box Elder, Rich, Cache, Morgan, Davis, and Salt Lake Counties, Utah (Florence, Sheffield, and Tuscumbia, Ala., points in Mississippi, Newton, Kans., and points within 15 miles thereof, points in Colorado and Monida, Mont.)*; (7) from points in Georgia to points in and west of Henry, Carroll, Madison, and Hardiman Counties, Tenn. (Florence, Sheffield, or Tuscumbia, Ala.)*; (8) from points in Georgia in and south of Harris, Talbot, Crawford, Bibb, Wilkinson, Johnson, Emanual, Bullock, and Effingham Counties to points in Tennessee in and west of Giles, Marsh, Bedford, Rutherford, Wilson, and Sumner Counties (Florence, Sheffield, or Tuscumbia, Ala.)*. The purpose of this filing is to eliminate the gateways marked with asterisks above.

No. MC 95540 (Sub-No. E789), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from the facilities of ITT Gwaltney Company at Smithfield, Va., to points in California, Arizona, New Mexico, Oklahoma, and to those points in Texas on and west of a line beginning at the Texas-New Mexico State line and extending along U.S. Highway 59 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to its junction with Interstate Highway 37, thence along Interstate Highway 37 to the Texas-Arkansas State line, and to those points in Arkansas on and west of a line beginning at the Arkansas-Missouri State line and extending along Interstate Highway 55 to its junction with Arkansas Highway 18, thence along Arkansas Highway 18 to its junction with Arkansas Highway 1, thence along Arkansas Highway 1 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to its junction with U.S. Highway 49, thence along U.S. Highway 49 to its junction with U.S. Highway 79, thence along U.S. Highway 79 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line. The purpose of this filing is to eliminate the gateway of Washington, Pa.

No. MC 95540 (Sub-No. E790), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from the facilities of ITT Gwaltney Co., at Smithfield, Va., to points in Maine, Vermont, and New Hampshire. The purpose of this filing is to eliminate the gateway of Newburgh, N.Y.

No. MC 95540 (Sub-No. E792), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Potato flakes, in mixed loads with frozen potatoes, frozen potato products, frozen onions, or frozen carrots*, from Presque Isle, Maine, to points in Arkansas, New Mexico, Arizona, and California, restricted to the transportation of shipments destined to points in the above-described destination States. The purpose of this filing is to eliminate the gateway of Albany, N.Y.

No. MC 95540 (Sub-No. E794), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen fruits, frozen berries, and frozen vegetables*, from points in Maryland and Delaware to points in California, Arizona, New Mexico, Arkansas, Louisiana, Texas, and Oklahoma, restricted to the transportation of shipments destined to points in the above-described destination States. The purpose of this filing is to eliminate the gateway of Washington, Pa.

No. MC 95540 (Sub-No. E795), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen food*, from Rocky Mount, N.C., to points in California, Arizona, New Mexico, and those points in Oklahoma on and north of a line beginning at the Oklahoma-Missouri State line and extending along Interstate Highway 44 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to its junction with Oklahoma Highway 99, thence along Oklahoma Highway 9 to its its junction with Oklahoma Highway 9,

thence along Oklahoma Highway 9 to its junction with U.S. Highway 177, thence along U.S. Highway 177 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to the Oklahoma-Texas State line, and to those points in Texas on and northwest of a line beginning at the Texas-Oklahoma State line and extending along Texas Highway 79 to its junction with U.S. Highway 180, thence along U.S. Highway 180 to its junction with Texas Highway 360, thence along Texas Highway 360 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with Texas Highway 16, thence along Texas Highway 16 to its junction with U.S. Highway 290, thence along U.S. Highway 290 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to the U.S.-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of Washington, Pa.

No. MC 95540 (Sub-No. E796), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636 Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from those points in New York on and northwest of a line beginning at the New York-Massachusetts State line and extending along New York Highway 2 to its junction with U.S. Highway 4, thence along U.S. Highway 4 to its junction with Interstate Highway 787, thence along Interstate Highway 787 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with New York Highway 7, thence along New York Highway 7 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line, to those points in Mississippi on and west of a line beginning at the Mississippi-Louisiana State line and extending along U.S. Highway 82 to its junction with U.S. Highway 61, thence along U.S. Highway 61 to the Mississippi-Louisiana State line. The purpose of this filing is to eliminate the gateway of Russellville, Ark.

No. MC 95540 (Sub-No. E797), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods* in vehicles equipped with mechanical refrigeration, from Newburgh, N.Y., to points in Arkansas, Louisiana, and Texas. The purpose of this filing is to eliminate the gateways of points in Pike and Spaulding Counties, Ga.

No. MC 95540 (Sub No. E798), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen potato products*, from Caribou, Maine, to points in California, Arizona, and New Mexico. The purpose of this filing is to eliminate the gateways of points in New York.

No. MC 95540 (Sub No. E799), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen potatoes, frozen potato products, frozen onions, and frozen carrots*, from Corinna, Easton, Portland, Presque Isle, and Washburn, Maine to points in Arkansas. The purpose of this filing is to eliminate the gateway of Washington, Pa.

No. MC 95540 (Sub-No. E800), filed November 25, 1974. Applicant: WATKINS, MOTORS LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products, and articles distributed by meat packinghouses, and dairy products*, as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Orangeburg, S.C., to those points in California on and north of a line beginning at the Pacific Ocean and extending along California Highway 22 to its junction with California Highway 55, thence along California Highway 55 to its junction with California Highway 91, thence along California Highway 91 to its junction with Interstate Highway 15, thence along Interstate Highway 15 to the California-Nevada State line. The purpose of this filing is to eliminate the gateways of points in Pennsylvania.

No. MC 95540 (Sub-No. E801), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen prepared foods* (except in bulk), from the facilities of the Quaker Oats Company at Jackson, Tenn., to points in Rhode Island. The purpose of this filing is to eliminate the gateway of Newburgh, N.Y.

No. MC 95540 (Sub-No. E813), filed November 29, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except commodities in bulk, in tank vehicles), from Charlotte and Concord, N.C., to points in Louisiana, Texas, and those points in Mississippi on and north of U.S. Highway 80. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC 95540 (Sub-No. E814), filed November 29, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Frozen foods, from Charlotte, and Concord, N.C., to points in Alabama, Arkansas, Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, Oklahoma, Wisconsin, and to those points in Indiana on and west of a line beginning at the Indiana-Kentucky State line and extending along U.S. Highway 231 to junction with Indiana Highway 45, thence along Indiana Highway 45 to its junction with Indiana Highway 37, thence along Indiana Highway 37 to its junction with Interstate Highway 465, thence along Interstate Highway 465 to its junction with U.S. Highway 31, thence along U.S. Highway 31 to the Indiana-Michigan State line, and to those points in Michigan on and west of a line beginning at the Michigan-Indiana State line, and extending along U.S. Highway 131 to its junction with U.S. Highway 31, thence along U.S. Highway 31 north to the junction with Interstate Highway 75, thence along Interstate Highway 75 to the U.S.-Canada International Boundary line, and to those points in Kentucky on and west of a line beginning at the Kentucky-Tennessee State line, and extending along U.S. Highway 31E to its junction with Kentucky Highway 90 to its junction with Interstate Highway 65, thence along Interstate Highway 65 to its junction with U.S. Highway 31W, thence along U.S. Highway 31W to its junction with Kentucky Highway 1638, thence along Kentucky Highway 1638 to the Indiana-Kentucky State line. The purpose of this filing is to eliminate the gateway of Gainesville, Ga.

No. MC 95540 (Sub-No. E815), filed November 29, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Charlotte and Concord, N.C., to points in Arizona, California, and New Mexico. The purpose of this filing is to eliminate the gateways of points in Georgia.

No. MC 95540 (Sub-No. E816), filed November 29, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61

M.C.C. 209 and 766 (except hides and commodities in bulk), from Eau Claire, Wis., to points in Maine, Vermont, Rhode Island, New Jersey, and those points in Delaware on and north of New Jersey Highway 8. The purpose of this filing is to eliminate the gateway of Newburgh, N.Y.

No. MC 95540 (Sub-No. E317), filed December 5, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome P. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Confectionery*, from Bryan, Ohio, to those points in California on and south of a line beginning at the California-Arizona State line and extending along U.S. Highway 66 to its junction with California Highway 58, thence along California Highway 58 to its junction with California Highway 99, thence along California Highway 99 to its junction with California Highway 152, thence along California Highway 152 to its junction with California Highway 1, thence along California Highway 1 to the Pacific Ocean. The purpose of this filing is to eliminate the gateway of Chattanooga, Tenn.

No. MC 95540 (Sub-No. E318), filed December 5, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome P. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen potato products*, from Caribou, Maine, to those points in Missouri on and south of a line beginning at the Missouri-Kansas State line and extending along U.S. Highway 50 to its junction with U.S. Highway 63, thence along U.S. Highway 63 to its junction with Missouri Highway 68, thence along Missouri Highway 68 to its junction with Missouri Highway 5, thence along Missouri Highway 5 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with Missouri Highway 32, thence along Missouri Highway 32 to the Missouri-Illinois State line. The purpose of this filing is to eliminate the gateway of Gainesville, Ga.

No. MC 106647 (Sub-No. E4), filed May 24, 1974. Applicant: CLARK TRANSPORT CO., INC., 13101 S. Torrence Ave., Chicago, Ill. 60633. Applicant's representative: Edward E. Coit (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Automobiles, trucks, cabs, and chassis*, new, used, unfinished, and wrecked, in secondary movements, in truckaway and driveaway service, between points in Illinois, Indiana, Maryland, Ohio, Pennsylvania, the District of Columbia, and Warren Township, Macomb County, Mich., on the one hand, and, on the other, Omaha, Nebr., Detroit, Mich., and points in that part of Minnesota south of a line beginning at the Minnesota State line at the junction of the North Dakota-South Dakota State lines, thence along a line extending in an easterly direction through Pine City to the Minnesota-Wisconsin State line. The purpose of this filing is to eliminate the gateway of Toledo, Ohio, or points in Iowa.

No. MC 111545 (Sub-No. E646), (Correction), filed May 30, 1974, published in the FEDERAL REGISTER November 14, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, in sections, the transportation of which, because of size or weight, requires the use of special equipment (except commodities to be used in, or in connection with, main or trunk pipelines), from points in that part of Utah on and south of a line beginning at the Utah-Colorado State line, thence along U.S. Highway 666 to Monticello, thence along U.S. Highway 163 to Crescent Junction, thence along U.S. Highway 6 to junction Interstate Highway 70, thence along Interstate Highway 70 to Salina, thence along Utah Highway 26 to Delta, thence along U.S. Highway 6 to the Utah-Nevada State line, to points in that part of the Lower Peninsula of Michigan on, north, and east of a line beginning at the Michigan-Indiana State line, thence along Michigan Highway 66 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction Michigan Highway 46, thence along Michigan Highway 46 to Muskegon. The purpose of this filing is to eliminate the gateways of points in that part of Missouri within 100 miles of Kansas City, Kans., and the plant site of Continental Homes, Inc., at or near Malden, Mo. The purpose of this correction is to correct the "E" number, previously published as E506.

No. MC 113843 (Sub-No. E70) (Correction), filed May 6, 1974, published in the FEDERAL REGISTER August 1, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Cortland, N.Y., to Sioux City, Iowa. The purpose of this filing is to eliminate the gateway of Newark, N.J. The purpose of this correction is to correct a typographical error.

No. MC 113843 (Sub-No. E483) (Correction), filed May 20, 1974, published in the FEDERAL REGISTER September 12, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*; (1) from New York, N.Y., and points in Passaic, Sussex, Warren, Essex, Bergen, Hudson, Somerset, Morris, and Union Counties, N.J., to points in that part of Tennessee on and west of U.S. Highway 51; (2) from points in Middlesex County, N.J., to Dyersburg, Tenn.; (3) from Bradford and Susquehanna Counties, Pa., to points in that part of Tennessee on and west of a line beginning at the Kentucky-Tennessee State line and extending along Tennessee Highway 51 to junction Tennessee Highway 52, thence along Tennessee Highway 52 to junction Tennessee Highway 53, thence along Tennessee Highway 53 to junction Tennessee Highway 135, thence along Tennessee Highway 135 to Cookeville, thence along Tennessee Highway 42 to junction U.S. Highway 70S, thence along U.S. Highway 70S to McMinnville, thence along Tennessee Highway 55 to Tullahoma, thence along Tennessee Highway 130 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Tennessee Highway 97, thence along Tennessee Highway 97 to the Tennessee-Alabama State line; (4) from points in Lackawanna County, Pa., to points in that part of Tennessee on and west of Interstate Highway 65; (5) from Pittston and Wilkes-Barre, Pa., to Jackson, Dyersburg, and Memphis, Tenn., (6) from points in Somerset County, N.J., to Dyersburg and Memphis, Tenn.; (7) from points in Pike County, Pa., to points in that part of Tennessee on and west of Interstate Highway 65; and (8) from points in Monroe County, Pa., to Dyersburg, Jackson, and Memphis, Tenn. The purpose of this filing is to eliminate the gateways of Elmira, N.Y., and Detroit, Mich. (via Canada). The purpose of this correction is to correct a typographical error.

No. MC 113908 (Sub-No. E139), filed September 17, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glen Stone Station, Springfield, Mo. 65803. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Distilled spirits used as vinegar stock*, from Bailey, Belding, and Fremont, Mich., to Lakeland, Fla., restricted against the transportation of vinegar, cider, and cider stock, from Bailey, Mich., to points in Ohio and Kentucky. The purpose of this filing is to eliminate the gateway of Bardstown, Ky.

No. MC 115603 (Sub-No. E1), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94630, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and*

supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof (except the stringing or picking up of pipe in connection with main or trunk pipelines); (2) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipe line rights-of-way; and (3) *Earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, between points in Oklahoma, on the one hand, and, on the other, points in North Dakota on and west of a line beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to Lehr, N. Dak., thence along unnumbered highway to Ashley, N. Dak., and thence along North Dakota Highway 3 to the North Dakota-South Dakota State line. The purpose of this filing is to eliminate the gateway of points in Texas.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[Notice No. 101]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

DECEMBER 13, 1974.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications *as filed* by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 114552 (Sub-No. 67) (Republication) filed August 24, 1972, and published in the FEDERAL REGISTER issue of September 21, 1972, and republished this issue. Applicant: SENN TRUCKING COMPANY, a Corporation, P.O. Box 333, Newberry, S.C. 29108. Applicant's representative: Frank A. Graham, Jr., 707 Security Federal Bldg., Columbia, S.C. 29201. An Order of the Commission, Review Board Number 4, dated July 18, 1973, and served July 30, 1973, finds that the present and future public convenience and necessity require operation by applicant in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of (a) *plastic pipe* from Williamsport, Md., to points in Connecticut, Illinois, Indiana, Kentucky, Maine, Massachusetts, Michigan, Mississippi, New Hampshire, Rhode Island, and Tennessee (except points in Tennessee within 150 miles of Wythe County, Va.); and (b) *vinyl siding* from Williamsport, Md., to points in Alabama, Connecticut, Florida, Illinois, Indiana, Kentucky, Maine, Massachusetts, Michigan, Mississippi, Rhode Island, Vermont, points in Minnesota on and east of a line extending along the Mississippi River from the Minnesota-Iowa border to the junction of the Mississippi River with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada, and points in Tennessee (except points in Tennessee within 150 miles of Wythe County, Va.); that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate a modification in the commodity and territorial descriptions. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief on this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

APPLICATIONS UNDER SECTIONS 5(a) AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 66746 (Sub-No. 18), filed October 25, 1974. Applicant: JOHN L. KERR AND G. O. KERR, JR., PARTNERS, doing business as SHIPPERS EXPRESS, P.O. Box 8308, Jackson, Miss. 39204. Applicant's representative: Dan McCullen, P.O. Box 22567, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Jackson, Miss. and the Mississippi-Louisiana State Boundary line: From Jackson, Miss. over U.S. Highway 51 and also Interstate Highway 55 to the Mississippi-Louisiana State Boundary line, and return over the same route, serving all intermediate points, restricted such that the authority requested in this proceeding if granted shall not be severable by sale or otherwise from the underlying irregular-route authority presently held by applicants and upon approval of the requested authority the certificates now held by applicants shall be amended by placing a restriction thereon, providing that applicants shall not, pursuant to the irregular-route authority contained in such certificate, transport shipments moving between any points authorized herein, as well as points in their respective commercial zones which are to be served by applicants in regular-route operations.

NOTE.—Applicant states that it presently holds irregular-route authority duplicating the authority sought herein. Applicant further states the purpose of the instant application is to convert its irregular-route authority to regular-route authority. This proceeding is directly related to MC-F-12354 which was published in the FEDERAL REGISTER issue of November 13, 1974. If a hearing is deemed necessary, the applicant requests it be held at Jackson, Miss.

No. MC 98742 (Sub-No. 13), filed December 4, 1974. Applicant: THE ROCKET FREIGHT LINES COMPANY, 2921 Dawson Road, Tulsa, Okla. 74110. Applicant's representative: I. R. Chenoweth, Suite 1012 Mayo Bldg., 420 South Main Street, Tulsa, Okla. 74103. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (1) Between Okla.; (5) Between the junction of Oklahoma-Kansas State line

north of Quapaw, Okla., over U.S. Highway 66, serving the termini and all intermediate points; (3) Between the Oklahoma-Kansas State line north of Quapaw, Okla., and Tulsa, Okla.; over Highway 66, serving the termini and all intermediate points; (3) Between the junction of U.S. Highway 66 and U.S. Highway 69, west of Vinita, Okla., and Muskogee, Okla., over U.S. Highway 69, serving the termini and all intermediate points and off-route points of Tullahassee, Porter, Redbird, and Coweta, Okla.; (4) Between Muskogee, Okla., and the Oklahoma-Texas State Line south of Colbert, Okla., over U.S. Highway 69 serving the points of Muskogee, McAlester, Atoka, Durant, and Colbert, Okla., (5) Between the junction of Oklahoma U.S. Highway 60, thence over U.S. Highway 60 to Ponca City, Okla., thence over U.S. Highway 77 to the Oklahoma-Kansas Border north of Newkirk, Okla., thence over U.S. Highway 77 to its junction with U.S. Highway 60, thence over U.S. Highway 60 to its junction with Oklahoma Highway 18, thence over Oklahoma Highway 18 to the Oklahoma-Kansas Border north of Grainola, Okla., and return over the same route serving the termini and all intermediate points, and the off-route points of Autwine, Kildare, Chilocco, Uncas, Apperson, Burbank, Webb City, Lyman, and Foraker; (9) Between Tulsa, Okla., and Muskogee, Okla.: From Tulsa over U.S. Highway 64 to its junction with Oklahoma Highway 162 (U.S. Highway 62) thence over Oklahoma Highway 162 to Taft, Okla., thence over Oklahoma Highway 162 to its junction with U.S. Highway 64, thence over U.S. Highway 64 to Muskogee, Okla., and return over the same route, serving all intermediate points, except Bixby, Okla., and including the off-route points of Jamesville and Yahola, Okla.

(10) Between Oklahoma City, Okla. and Miami, Okla.; From Oklahoma City, over Interstate Highway 44 to Miami, Okla., and return over the same route, serving no intermediate points, as an alternate route for operating convenience only; (11) Between Oklahoma City, Okla., and Muskogee, Okla.: From Oklahoma City, Okla., over Interstate Highway 40 to Checotah, thence over U.S. Highway 69 to Muskogee, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only; (12 Between Tulsa, Okla., and McAlester, Okla.: From Tulsa over U.S. Highway 75 to Indian Nation Turnpike to McAlester, serving no intermediate points an an alternate route for operating convenience only; (13) Between Blackwell, Okla., and Tulsa, Okla.: From Blackwell over Oklahoma Highway 11 to its junction with Interstate Highway 35, thence over Interstate Highway to its junction with U.S. Highway 64 west of Perry, thence over U.S. Highway 64 to Tulsa, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only; (14) Between Ponca City, Okla., and Tulsa, Okla.; From Ponca City over U.S. Highway 177 to its junction with U.S. Highway 64, thence over U.S. Highway 64 to Tulsa and return over the same route serving no intermediate points, as an alternate route for operating convenience only; and (15) Between junction U.S. Highway 60 and Oklahoma Highway 20 and junction Oklahoma Highway 11 and Oklahoma Highway 20: From junction U.S. Highway 60 and Oklahoma Highway 20, thence over Oklahoma Highway 20 to junction Oklahoma Highway 11 serving no intermediate points, as an alternate route for operating convenience only.

NOTE.—This application is to convert intrastate registered authority to certificated authority. Present registered authority in MC-98742 Sub-No. 9, within the state of Oklahoma. This is a matter directly related to the Section 5 proceeding in MC-F-12382 published in the Federal Register of December 18, 1974. If a hearing is deemed necessary, the applicant requests it be held at either Tulsa or Oklahoma City, Okla.

No. MC 121393 (Sub-No. 5) (Correction), filed October 18, 1974, published in the FEDERAL REGISTER issue of November 27, 1974, and republished as corrected this issue. Applicant: HEMPSTEAD DELIVERY CO., INC., 407 West 35th Street, New York, N.Y. 10001. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wearing apparel*, as described in Appendix X in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209, and *accessories and dry goods*, between New York, N.Y., on the one hand, and, on the other, points in Nassau and Suffolk Counties, N.Y.; and (3) *wearing apparel and accessories*, between points in Bergen, Essex, Hudson, Middlesex, Passaic, and Union Counties, N.J., on the one hand, and, on the other, points in Nassau and Suffolk Counties, N.Y.

NOTE.—The purpose of this republication is to change MC-F-12344 to MC-F-12345. Applicant seeks to purchase portion of the authority held by Empire Carriers Corporation. This is a matter directly related to the Section 5 proceeding in MC-F-12345 published in the FEDERAL REGISTER issue of October 31, 1974. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC-F-11748. (Amendment) (COASTAL INDUSTRIES INC.—CONTROL—P.B. MUTRIE MOTOR TRANSPORTATION, INC.), published in the December 26, 1972, issue of the FEDERAL REGISTER on page 28675. By amendment filed November 25, 1974, the subject application would be amended so as to provide for merger of P. B. Mutrie Motor Transportation, Inc. (Mutrie), into Coastal Tank Lines, Inc. (Coastal).

No. MC-F-12372. Authority sought for control by JAMES S. PEDLER, JR., EDWARD T. PEDLER, J. F. POETZINGER, FRANK B. REID, C. O. BELL, AND R. A. VANDEVERE, individuals presently in control of CASCADE INDUSTRIES (Cascade), a non carrier holding company, to acquire control of CHAMPION INVESTMENTS, INC., (Champion). Cascade owns all of the stock of Champion; Champion owns directly or indirectly the stock of several motor common carriers: (1) Champion owns all of the stock of Paceway, Inc. (Paceway), a non carrier holding company, which, in turn, owns all the stock of Glosson Motor Lines, Inc., (Glosson). Glosson, in turn, has a wholly owned motor carrier subsidiary, State Motor Lines, Ind. (State); (2) Champion owns all the stock of R.T.C., Inc., a non carrier holding company. R.T.C., Inc., owns all the stock of Renner Motor Lines, Inc.; and (3) Champion owns all the stock of P. B. Mutrie Motor Transportation, Inc. (Mutrie).

NOTE.—(a) In No. MC-F-11748, authority is sought for control by Coastal Industries, Inc., of the operating rights and property of P. B. Mutrie Transportation, Inc., Coastal controls Coastan Tank Lines, Inc., a motor common carrier, and in No. MC-F-12108, authority sought for merger by Glosson Motor Lines, Inc., of the operating rights and property of State Motor Lines, Inc. Applicants' attorney: Homer S. Carpenter, 618 Perpetual Bldg., 1111 E Street, NW., Washington, DC 20004. (Glosson), is authorized to transport general commodities and certain specified commodities as a common carrier over irregular routes, from, to, and between points in the States of North Carolina, Maryland, Virginia, New York, New Jersey, Pennsylvania, Georgia, Maine, South Carolina, Connecticut, Rhode Island, New Hampshire, Vermont, Massachusetts, Delaware, Florida, Alabama, Tennessee, Kentucky, Ohio, Arkansas, Louisiana, Mississippi, Texas, Oklahoma, West Virginia, and the District of Columbia, with certain restrictions, as more specifically described in Docket No. MC-41255 and Sub-numbers thereunder. (Renner) is authorized to transport general commodities and certain specified commodities, as a common carrier over irregular routes, from, to, and between points in the States of Ohio, West Virginia, Pennsylvania, Maryland, New York, Delaware and the District of Columbia, with certain restrictions, as more specifically described in Docket No. MC-10955 and Sub-numbers thereunder.

(Mutrie) is authorized to transport general commodities, and numerous other specified commodities, as a common carrier, over regular and irregular routes, from, to, and between specified points in the States of Massachusetts, Rhode Island, New York, New Hampshire, Connecticut, Maine, New Jersey, Vermont, Pennsylvania, Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, Ohio, West Virginia, California, District of Columbia, South Carolina, North Carolina, Wisconsin, Virginia, Georgia, Alabama, Tennessee, Minnesota, Missouri, Arkansas, Florida, Louisiana, Nebraska, Mississippi, and Texas, with certain restrictions, as more specifically described in Docket No. MC-31600 and Sub-numbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carriers involved. The foregoing summaries is believed to be sufficient for purposes of public notice regarding the nature and extent of the carriers operating rights, without stating, in full, the entirety, thereof.

NOTE.—Motion to dismiss for lack of jurisdiction is filed concurrently herewith by applicant.

No. MC-F-12376. Authority sought for control by GRAVES TRUCK LINE, INC.,

2130 So. Ohio, Salina, KS 67401, of CAPITOL TRUCK LINES, INC., 300 W. First St., Topeka, KS 66603, and for acquisition by WILLIAM H. GRAVES AND JOHN A. GRAVES, both of Salina, KS 67401, and LOWELL P. GRAVES, 92 Shawnee Ave., Kansas City, KS, of control of CAPITOL TRUCK LINES, INC., through the acquisition by GRAVES TRUCK LINE, INC. Applicants' attorneys: John E. Jandera, 641 Harrison St., Topeka, KS 66603, and Frank W. Taylor, Jr., Suite 812, 1221 Baltimore Ave., Kansas City, MO 64105. Operating rights sought to be controlled: *General commodities* with exceptions, as a *common carrier* over regular routes radiating between Kansas City to St. Joseph, Mo., and Pittsburgh, Independence, and Topeka, Kans., serving various intermediate and off-route points, GRAVES TRUCK LINE, INC., is authorized to operate as a *common carrier* in Arkansas, Colorado, Iowa, Kansas, Missouri, Nebraska, New Mexico, Texas, and Oklahoma. Application has been filed for temporary authority under section 210 a(b).

MC-F-12377. Authority sought for purchase by CENTRAL TRANSPORT, INCORPORATED, P.O. Box 5044, Uwharrie Road, High Point, N.C. 27262, of a portion of the operating rights of PIEDMONT PETROLEUM PRODUCTS INC., P.O. Box 1383, 1204 Gallop Avenue, Chesapeake, VA. 23320, and for acquisition by A. L. HONBARRIER, also of High Point, N.C. 27262, address, of control of such rights through the purchase. Applicants' attorney: E. Stephen Heisley, 666 11th Street NW., Washington, D.C., 20001. Operating rights sought to be transferred: *Chemicals*, in bulk, as a *common carrier*, over irregular routes, from Grasselli and Passaic, New Jersey, and Philadelphia, Pa., to Norfolk, Virginia, with no transportation for compensation on return except as otherwise authorized. Vendee is authorized to operate as a *common carrier* in all states in the United States except Alaska and Hawaii. Application has been filed for temporary authority under section 210a (b). Under the proposed transaction vendee proposes to tack at Norfolk, Va., and then at any point in North Carolina or South Carolina to serve any point which Central could serve in MC 11642 and subs thereto, including any pending applications, especially Subs 97 and 98. After the authority sought herein is authorized and the transaction consummated, vendee herein intends to file an application to eliminate any existing gateways.

No. MC-F-12378. Authority sought for purchase by JAMES H. HARTMAN & SON, INC., P.O. Box 55, Pocomoke City, MD 21851, of a portion of the operating rights and property of PIEDMONT PETROLEUM PRODUCTS, INCORPORATED, 1204 Gallop Ave., Chesapeake, VA 23324, and for acquisition by D. PAGE ELMORE, Painter, VA 23420, of control of such rights and property through the purchase. Applicants' attorney: Wilmer B. Hill, 805 McLachlen Bank Bldg., 666 Eleventh St. NW., Washington, DC 20001. Operating rights sought to be transferred: *Lumber*, as a *common carrier*, over irregular routes, from Norfolk, Va., and points within 15 miles thereof, to Washington, D.C., and New York, N.Y., points in Virginia, Maryland, Delaware, those in that part of Pennsylvania on and east of U.S. Highway 11, those in that part of New Jersey on and within 15 miles west of U.S. Highway 1, and those in that part of New Jersey east of U.S. Highway 1; *oysters*, from Norfolk, Va., to Boston, Mass.; fish and scallops, from Rockland and Portland, Me., Boston and Gloucester, Mass., New York, N.Y., Cape May, Wildwood, and Beach Haven, N.J., to Norfolk, Va.; *seafood*, from Portsmouth and Norfolk, Va., to Washington, D.C., Baltimore, Md., Wilmington, Del., Philadelphia, Pa., and New York, N.Y.; *agricultural commodities*, from Elizabeth City, N.C., and points in Norfolk, Princess Anne, and Nansemond Counties, Va., to New York, N.Y., Newark, N.J., Philadelphia and Scranton, Pa., Baltimore, Md., and Washington, D.C.; *oils, grease, and empty oil containers*, from Marcus Hook, Pa., to Norfolk, Va.; *electric storage batteries*, from New Brunswick, N.J., to Norfolk, Va.

Malt beverages, from Trenton, N.J., and Wilmington, Del., to Norfolk, Va., from Philadelphia, Reading and DuBois, Pa., and Orange and Newark, N.J., to Norfolk, Va., from New York, N.Y., and Newark, N.J., to Newport News, Va., from New York, N.Y., Pottsville, Pa., and Baltimore, Md., to Portsmouth and Norfolk, Va., from Norfolk, Va., to Charles Town and Martinsburg, W. Va., and points in Maryland and the District of Columbia; and return with *empty malt beverage containers, creosoted or otherwise chemically preserved poles, piling, lumber*, and *cross and switch ties, from* Norfolk, Va., and points within 25 miles of Norfolk, to points in Delaware, Maryland, New Jersey, North Carolina, Pennsylvania, and the District of Columbia, from Norfolk, Va., and points within 25 miles thereof, to points in Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont; *poles, piling, lumber*, and *ties, creosoted or otherwise chemically preserved*, from Norfolk, Va., and points within 25 miles thereof, to points in Connecticut, New York, and West Virginia; *prefabricated metal buildings*, complete or in sections, from Virginia Beach, Va., to points in Delaware, Maryland, New Jersey, and North Carolina; *composition board* and *particleboard*, from Chesapeake, Va., to Washington, D.C., New York, N.Y., points in Virginia, Maryland, and Delaware, and certain specified points in New Jersey. Vendee is authorized to operate as a *common carrier* in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, Vermont, Washington, and West Virginia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12379. Authority sought for purchase by COURIER-NEWSOM EXPRESS, INC., P.O. Box 270, Columbus, IN 47201, of the operating rights and property of BERGLUND TRUCKING, INC., 124 S. Wisconsin Ave., Addison, IL 60101, and for acquisition by PAUL ROBERT NEWSOM, also of Columbus, IN 47201, of control of such rights and property through the purchase. Applicants' attorneys: Carl L. Steiner, 39 S. LaSalle St., Chicago, IL 60603, and Harold Bell, 33 N. LaSalle St., Chicago, IL 60602. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC 96705 (Sub-No. 1), covering the transportation of specified commodities, as a common carrier in interstate commerce, within the State of Illinois. Vendee is authorized to operate as a *common carrier* in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, New York, Ohio, Pennsylvania, Tennessee, West Virginia, and Wisconsin. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC 69801 (Sub-No. 39), is a matter directly related.

Under the proposed transaction vendee proposes to tack at common points in the Chicago Commercial Zone as well as common points in McHenry and DeKalb Counties, Ill. After the authority sought herein is authorized and transaction consummated, vendee herein intends to file an application to eliminate any existing gateways.

No. MC-F-12380. Authority sought for purchase by BELGER CARTAGE SERVICE, INC., 2100 Walnut St., Kansas City, MO 64108, of a portion of the operating rights and property of GRAY VAN LINES, INC., P.O. Box 25085, Oklahoma City, OK 73106, and for acquisition by JOHN BELGER and LARRY BELGER, also of Kansas City, MO 64108, of control of such rights and property through the purchase. Applicants' attorney, and representative: Dick L. Shaw, 2100 Walnut St., Kansas City, MO 64108, and Frank W. Taylor, Jr., 1221 Baltimore Ave., Kansas City, MO 64105. Operating rights sought to be transferred: *Machinery, tools* and *mine* supplies, as a *common carrier*, over irregular routes, between points in Oklahoma and Arkansas within 75 miles of Fort Smith, Ark., including Fort Smith, Ark. Vendee is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12381. Authority sought for purchase by ARROW TRUCKING CO., P.O. Box 7280, Tulsa, OK 74105, of a portion of the operating rights of D & H TRUCKING, INC., P.O. Box 3158, Tulsa, OK 74107, and for acquisition by J. W. PIELSTICKER, and T. N. WORD, III, both of Tulsa, OK 74105, of control of such rights through the purchase. Applicants' attorney: J. G. Dail, Jr., 1111 E

St. NW., Washington, D.C. 20004. Operating rights sought to be transferred: *Machinery, equipment, materials, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe line, including the stringing and picking up thereof, except the stringing and picking up of main or trunk pipe lines, and *machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, as a common carrier over irregular routes, between points in Kansas, on the one hand, and, on the other, points in Colorado, Illinois, Missouri, Nebraska, New Mexico, and Wyoming. Vendee is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b). Under the proposed transaction vendee proposes to tack its authority at points in Kansas to operate between points in Texas, Oklahoma, Arkansas, Louisiana, and Mississippi, on the one hand, and, on the other, points in New Mexico, Colorado, Wyoming, Nebraska, Missouri, and Illinois. After the authority sought herein is authorized and the transaction consummated, vendee herein intends to file an application to eliminate any existing gateways.

MC-F-12382. Authority sought for purchase by ROCKET FREIGHT LINES COMPANY, 2921 Dawson Road, Tulsa, OK 74110, of the operating rights and property of BEE LINES FREIGHT, INC., 449 South State Street, Tahlequah, OK 74464, and for acquisition by A. W. Jenkins, also of Tulsa, OK 74110, of control of such rights through the purchase. Applicants' attorney: I. E. Chenoweth, Suite 1012, Mayo Building, 420 South Main Street, Tulsa, OK 74103. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier*, over regular routes, between Fort Smith, Ark., and Hulber, Okla., serving the intermediate points of Westville, Stilwell, Titanic, and Tahlequah, Okla., and intermediate points located on U.S. Highways 59 and 62, between Tahlequah, Okla., and Muskogee, Okla., serving all intermediate points. NOTE.—MC 98742 (Sub-No. 13), is a matter directly related.

No. MC-F-12383. Authority sought for purchase by GRAND ISLAND MOVING & STORAGE CO., INC., P.O. Box 1665, Grand Island, NE 68801, of a portion of the operating rights of J. E. LAMMERT TRANSFER, INC., P.O. Box 488, Grand Island, NE 68801, and for acquisition by JAMES D. PIRNIE, also of Grand Island, NE 68801, of control of such rights through the purchase. Applicants' attorney: Gailyn L. Larsen, 521 So. 14th St., P.O. Box 81849, Lincoln NE 68501. Operating rights sought to be transferred: *Malt beverages*, as a *common carrier* over irregular routes, from St. Paul and Minneapolis, Minn., to Grand Island and North Platte, Nebr., and return with *empty malt beverage containers*, *malt beverages*, in containers, from St. Paul, Minn., and Peoria, Ill., to McCook, Nebr., and return with *empty malt beverage containers*. Vendee is authorized to operate as a *common carrier* in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, Pennsylvania, and Wisconsin. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12384. Authority sought for purchase by WISCONSIN-PACIFIC EXPRESS, INC., P.O. Box 190, Weyauwega, WI 54983, of a portion of the operating rights of KUJAK BROS. TRANSFER, INC., P.O. Box 677, Winona, MN 55987, and for acquisition by BERNIE KRUSE, also of Weyauwega, WI 54983, of control of such rights through the purchase. Applicants' attorney: Nancy J. Johnson, 4506 Regent St., Suite 100, Madison, WI 53705. Operating rights sought to be transferred: *General commodities*, excepting among others, Classes A and B explosives, household goods, as a *common carrier*, over irregular routes, from South St. Paul, St. Paul, and Minneapolis, Minn., to points in the Towns of Arcadia, Etterick, and Preston, Trempealeau County, and those in the Towns of Glencoe and Montana, Buffalo County, Wis., from Winona, Minn., to points in the Towns of Buffalo, Cross, and Glencoe, Buffalo County, and the Town of Trempealeau, Trempealeau County, Wis., from Winona, Minn., and points in Minnesota within 35 miles of Winona, to Trempealeau, Wis., and points in the Towns of Dodge, Arcadia, and Gale, in Trempealeau County, Wis. Vendee is authorized to operate as a common carrier in Minnesota and Wisconsin. Application has not been filed for temporary authority under section 210a(b). Under the proposed transaction vendee proposes to tack at St. Paul, South St. Paul, and Minneapolis, Minn. After the authority sought herein is authorized and the transaction consummated, vendee herein intends to file an application to eliminate any existing gateways.

PROPOSED NOTICE

Burlington Northern Inc., a common carrier by rail, with headquarters at St. Paul, Minnesota, hereby gives notice that on November 7, 1974, it filed an application with the Interstate Commerce Commission pursuant to Section 5(2) of the Interstate Commerce Act for an order authorizing trackage rights over forty-one (41) miles of Union Pacific Railroad Company trackage between Hastings and Kearney, Nebraska. This application has been assigned Finance Docket No. 27785. The line of Union Pacific Railroad Company over which Burlington Northern, Inc. seeks trackage rights is located east of Lincoln, Nebraska, in the south-central portion of the State of Nebraska. Applicant Burlington Northern Inc.'s attorney is Richard M. Gleason, Burlington Northern Inc., 176 East Fifth Street, St. Paul, Minnesota 55101. In the opinion of the Applicant, the proposal is not a major federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—Nat'l Environmental Policy Act of 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b)(1)–(5), 340 I.C.C. 431, 461. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission on or before January 17, 1975.

BURLINGTON NORTHERN, INC.

NOTICE OF PROPOSED ACQUISITION OF TRACKAGE

Notice is hereby given that the Missouri Pacific Railroad Company has filed an application with the Interstate Commerce seeking authority to acquire and operate certain segments of trackage located in Leavenworth County, Kansas, which segments are now owned in whole or in part by the Union Pacific Railroad Company and are involved in or related to that company's abandonment application docketed as AB-33 (Sub-No. 8). The application of the Missouri Pacific Railroad Company has been assigned Finance Docket No. 27787.

(i) The name and address of applicant are as follows: Missouri Pacific Railroad Company, 210 North 13th Street, St. Louis, Missouri 63103.

The name and address of applicant's attorney are as follows: Mr. R. H. Stahlheber, General Attorney-Commerce, Missouri Pacific Railroad Company, 210 North 13th Street, St. Louis, Missouri 63103.

(ii) The segments of exclusively owned Union Pacific Railroad Company trackage to be acquired and operated are:

(1) The segment of branch line between mileposts 4.03 and 4.29 at Cochrane, Kansas; and

(2) Approximately 7,095 feet of side track, approximately 6,735 feet of which are at Leavenworth, Kansas, and approximately 360 feet of which are at Alfa (Cochrane), Kansas.

The segments as to which the Missouri Pacific Railroad Company seeks to acquire the Union Pacific Railroad Company's interests in trackage now jointly owned are as follows:

(1) Between Union Pacific mileposts 0.00 and 0.07 and between mileposts 0.10 and 4.03 at Leavenworth, Kansas;

(2) Approximately 4,372 feet of yard tracks at Leavenworth; and

(3) Approximately 6,406 feet of siding at Alfa (Cochrane), Kansas.

The acquisition of Union Pacific Railroad Company's interest in the jointly owned line between Leavenworth and Cochrane, Kansas, will enable the Missouri Pacific Railroad Company to continue its present main line operations between Kansas City, Missouri, and Omaha, Nebraska. Acquisition of the other segments by the Missouri Pacific Railroad Company will enable it to continue rail service to Union Pacific Railroad Company industries which would otherwise be left without service as a result of that company's proposed abandonment.

Applicant states that the authority sought and the requested Commission action will have no significant effect on the quality of human environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-Nat'l Environmental Policy Act of 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include in Ex Parte No. 55 (Sub-No. 4), supra, Part (b)(1)–(5), 340 I.C.C. 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission on or before January 17, 1975.

MISSOURI PACIFIC RAILROAD COMPANY.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[Notice No. 41]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

DECEMBER 13, 1974.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 C.F.R. 1042.4(c)(11) and notice thereof to all interested persons is hereby given as provided in such rules (49 C.F.R. 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 C.F.R. 1042.4(c)(12) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 2202 (Deviation No. 138), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Blvd., Akron, Ohio 44309, filed November 26, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Hartford, Conn., over Connecticut Highway 15 to junction Connecticut Highway 195, thence over Connecticut Highway 195 to junction U.S. Alternate Highway 44, thence over U.S. Alternate Highway 44 to junction U.S. Highway 44 thence over U.S. Highway 44 to junction Connecticut Highway 101, thence over Connecticut Highway 101 to junction Connecticut Highway 12, (2) From Providence, R.I., over U.S. Highway 44 to Putnam, Conn., (3) From Worcester, Mass., over Massachusetts Highway 12 to Massachusetts-Connecticut State line, thence over Connecticut Highway 12 to Putnam, Conn., and (4) From Southbridge, Mass., over Massachusetts Highway 169 to the Massachusetts-Connecticut State line, thence over Connecticut Highway 169 to junction Connecticut Highway 171, thence over Connecticut Highway 171 to Putnam, Conn., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From Hartford, Conn., over U.S. Highway 5 to New Haven, Conn., thence over U.S. Highway 1 to junction Connecticut Highway 32, thence over Connecticut Highway 32 to junction Connecticut Highway 12, thence over Connecticut Highway 12 to junction Connecticut Highway 101, (2) From Providence, R.I., over Rhode Island Highway 3 to Westerly, R.I., thence over U.S. Highway 1 to Groton, Conn., thence over Connecticut Highway 32 to junction Connecticut Highway 12, thence over Connecticut Highway 12 to Putnam, Conn., (2) From Worcester, Mass., over U.S. Highway 20 to Springfield, Mass., thence over U.S. Highway 5 via Hartford, Conn., to New Haven, Conn., thence over U.S. Highway 1 to junction Connecticut Highway 32, thence over Connecticut Highway 32 to junction Connecticut Highway 12, thence over Connecticut Highway 12 to Putnam, Conn., and (4) From Southbridge, Mass., over Massachusetts Highway 131 to U.S. Highway 20, thence over the routes described in (3) above and return over the same routes.

No. MC 89723 (Deviation No. 31), MISSOURI PACIFIC TRUCK LINES, INC., 210 North 13th Street, St. Louis, Mo. 63103, filed December 5, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction Kansas Highway 9 and Kansas Highway 15 over Kansas Highway 15 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction U.S. Highway 81 near Salina, Kans., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From junction Kansas Highway 9 and Kansas Highway 15 over Kansas Highway 9 to Concordia, Kans., thence over U.S. Highway 81 to junction Interstate Highway 70 and return over the same route.

By the Commission.

[Notice No. 205]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 16, 1974.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 7, 1975. Pursuant to Section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75263. By order of December 9, 1974 Division 3, acting as an Appellate Division, approved the transfer to Seco Trucking Co., a corporation, Mason City, Iowa, of the operating rights in Certificates No. MC 127622 and MC 127622 (Sub-No. 1) issued February 18, 1966 and July 25, 1969 respectively to Clyde Love, doing business as Clyde Love

Distributing Company, Joplin, Mo., authorizing the transportation of malt beverages from St. Louis, Mo. to Coffeyville and Frontenac, Kan., Thomas F. Kilroy, P.O. Box 624, Springfield, Va., 22150 Attorney for applicants.

[Notice No. 166]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 12, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 76065 (Sub-No. 26TA), filed December 4, 1974. Applicant: EHRLICH-NEWMARK TRUCKING CO., INC., 505-509 West 37th Street, New York, N.Y. 10018. Applicant's representative: Martin Werner, 2 West 45th Street, New York, N.Y. 10036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel*, on hangers and in containers, and materials, supplies, and equipment used in the manufacture of wearing apparel, except commodities in bulk, between New York, N.Y., and points in New Jersey, on the one hand, and, on the other, Dublin, Elkton, Fairfield, Independence, and Staunton, Va., for 180 days. Supporting shipper(s): Jane Colby, 113 4th Avenue, New York, N.Y., Rockingham Sleepwear, Elkton, Va. 27117, Dublin Garment Co., Inc., Dublin, Va., Loritil, Ind., 152 Madison Avenue, New York, N.Y. 10016. Grayson Garment Co., Inc. Independence, Va. 24348. Send protest to: Paul W. Assenza, District Supervisor, Interstate Commerce Commission 26 Federal Plaza, New York, N.Y. 10007.

No. MC 111401 (Sub-No. 438TA), filed December 4, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic plastics*, dry, in bulk, in tank vehicles, from the plantsite of Georgia-Pacific Corporation at or near Plaquemine, La., to points in Arkansas, Arizona, California, Colorado, Delaware, Florida, Iowa, Kentucky, Massachusetts, Mississippi, Missouri, North Carolina, New Jersey, Ohio, Oklahoma, Oregon, Pennsylvania, Texas, and Tennessee, for 180 days. Supporting shipper: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 240, Old P.O. Bldg., 215 NW Third, Oklahoma City, Okla. 73102.

No. MC 111729 (Sub-No. 482TA), filed December 5, 1974. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except household goods, commodities in bulk, explosives, articles of unusual value, and commodities which because of their size and weight require special equipment), restricted against the transportation of packages or articles weighing in excess of 150 pounds from one consignor to one consignee on any one day, (a) Between Spokane, Wash., on the one hand, and, on the other, points in Kootenai and Shoshone Counties, Idaho; and (b) Between Portland, Oreg., on the one hand, and, on the other, points in Clark, Cowlitz, and Lewis Counties, Wash., for 180 days.

NOTE.—Transportation to be performed in courier type service, with pickups and deliveries to be effected within a specified period on a timely basis. Supporting shippers: There are 37 statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Anthony D. Giaimo, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 111729 (Sub-No. 483TA), filed December 5, 1974. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Human blood samples, urine samples, and diagnostic reports related thereto*, between Fairfield, Conn., on the one hand, and, on the other, points in Norfolk and Suffolk Counties, Mass., and points in Rhode Island; and (2) *Automotive parts*, restricted against the transportation of packages or articles weighing in the aggregate more than 100 pounds from one consignor to one consignee on any one day, from Elmsford, N.Y., to points in Connecticut, New Jersey, and New York, for 90 days. Supporting shippers: Reference Diagnostics, Inc., 1700 Post Road, Fairfield, Conn. 06430, and American Motors Sales Corp., 444 Saw Mill River Road, Elmsford, N.Y. Send protests to: Anthony D. Giaimo, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 111729 (Sub-No. 484TA), filed December 5, 1974. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Business papers, records,*

audit and accounting media, Between Kalamazoo, Mich., on the one hand, and, on the other, Keokuk, Idaho, and points in Illinois, Indiana, Ohio, and Pennsylvania, for 180 days. Supporting shipper(s): Parallex Corporation, 10528 Shaver Road, Kalamazoo, Mich. 49002. Send protests to: Anthony D. Giaimo, District Supervisor, Interstate Commerce Commission, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 112934 (Sub-No. 7TA), filed December 5, 1974. Applicant: AUTOBUSES INTERNACIONALES S. de R. L., 208 Palo Verde, Meadow Vista, N. Mex. 88063. Applicant's representative: Edwin E. Piper, Jr., 1115 Simms Building, Albuquerque, N. Mex. 87101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* between the boundary of the United States at or El Paso, Tex., and Mattox Ranch, N. Mex., from the boundary of the United States at or near El Paso, Tex., and the Ports of Entry thereon, over the Stantion St., Santa Fe, and any other Downtown Bridges through El Paso, Tex., over unspecified city streets, to junction with U.S. Highway 62–180, thence over U.S. Highway 62–180 to junction with Texas Farm Road 1437, thence over Texas Farm Road 1437 through Dell City, Tex., to the New Mexico-Texas border and thence over unnumbered road to Mattox Ranch, N. Mex., and return over the same route, serving all intermediate points, for 180 days. Restriction: Restricted to transportation in foreign commerce with no interstate transportation except that interstate movements originating at or destined to Anapra, Meadow Vista, and Mattox Ranch, N. Mex., and Dell City, Tex., shall be authorized.

NOTE.—Applicant does request to tack the above authority with items (1) and (2) at the common point of El Paso, Tex., sought in a separate application for permanent and temporary authority Sub No. 5TA and Sub No. 6. Supporting shippers: There are approximately 23 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: John H. Kirkemo, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1106 Federal Office Building, 517 Gold Avenue, SW, Albuquerque, N. Mex. 87101.

No. MC 116519 (Sub-No. 26TA), filed December 4, 1974. Applicant: FREDERICK TRANSPORT LIMITED, R.R. 6, Chatham, Ontario, Canada. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vibratory rollers and compactors and parts and attachments* for vibratory rollers and compactors moving in mixed loads therewith, from Minneapolis, Minn., to ports of entry on the International Boundary line between the United States and Canada located at or near Detroit and Port Huron, Mich., for 180 days. Restriction: The transportation authorized herein is restricted to traffic moving in foreign commerce. Supporting shipper: Blackwood Hodge, Douglas J. Carrier, Purchasing Agent, 10 Suntract Road, Weston, Ontario, Canada. Send protests to: Melvin F. Kirsch, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1110 Broderick Tower, 10 Witherell Avenue, Detroit, Mich. 48226.

No. MC 119792 (Sub-No. 48TA), filed December 6, 1974. Applicant: CHICAGO SOUTHERN TRANSPORTATION COMPANY, 3215 South Hamilton Avenue, Chicago, Ill. 60608. Applicant's representative: Carl L. Steiner, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Potatoes and frozen potato products*, from the plantsite and storage facilities of J. R. Simplot Company, Inc., at Crookston and Minneapolis, Minn., to points in Kentucky, Tennessee, Alaska, Mississippi, Louisiana, North Carolina, South Carolina, Georgia, Virginia, and Florida, for 180 days. Supporting shipper: Bill R. Daniels, General Manager, J. R. Simplot Company, Inc., P.O. Box 618, Crookston, Minn. 57716. Send protests to: Robert G. Anderson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 125950 (Sub-No. 8TA), filed December 9, 1974. Applicant: C.B.S. TRANSPORTATION, INC., 1207 Columbus Circle, Wilmington, N.C. 28401. Applicant's representative: Francis J. Ortman, 1100 17th Street NW., Suite 613, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fruit and vegetable containers*, from the plantsite of the Talley-Corbett Box Company at Adel, Ga., and Springfield, N.C., to points in Florida, Georgia, South Carolina, North Carolina, Virginia, Maryland, Delaware, Pennsylvania, New Jersey, and New York, for 180 days. Supporting shipper: Talley-Corbett Box Company, Inc., P.O. Box 89, Adel, Ga. 31620. Send protests to: Archie W. Andrews, District Supervisor, Interstate Commerce Commission, Bureau of Operations, P.O. Box 26896, Raleigh, N.C. 27611.

No. MC 128383 (Sub-No. 63TA), filed December 6, 1974. Applicant: PINTO TRUCKING SERVICE, INC., 1414 Calcon Hook Rd., Sharon Hill, Pa. 19079. Applicant's representative: Gerald K. Gimmel, 303 N. Frederick Ave., Gaithersburg, Md. 20760. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, Class A and B explosives, and motor vehicles requiring the use of special equipment), in vehicles equipped with roller bed floors, Between Oneida County Airport, Oneida County, N.Y., on the one hand, and, on the other, points in Pennsylvania, restricted to the transportation of traffic having a prior or subsequent movement by air, for 180 days. Supporting shipper(s): Shulman Air Freight, Inc., 20 Olney Ave., Cherry Hill, N.J. Send protests to: Peter R. Guman, District Supervisor, Federal Building, Room 3238, 600 Arch St., Philadelphia, Pa. 19106.

No. MC 128763 (Sub-No. 7TA), filed December 4, 1974. Applicant: K. H. TRANSPORT, INC., 4796 Linthicum Road, Dayton, Md. 21036. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Laminated plastic sheets, plastic moldings, and adhesives* used in the application thereof, from the plant site and warehouse facilities of Exxon Chemical Company, U.S.A., Odenton, Md., to Birmingham, Montgomery, and Scottsboro, Ala.; Fort Smith and Little Rock, Ark., Phoenix and Tucson, Ariz., Denver and Pueblo, Colo., Jacksonville, Miami, and Orlando, Fla., Atlanta and Valdosta, Ga., Long Beach, Hemet, San Diego, and San Francisco, Calif., Aurora and Chicago, Ill., Batesville, Connersville, Elkhart, Evansville, Indianapolis, and Marion, Ind., Kansas City and Wichita, Kans., Lexington and Louisville, Ky., Baton Rouge, New Orleans, and Shreveport, La., Battle Creek, Detroit, and Grand Rapids, Mich., Jackson and St. Louis, Mo., Jackson, Kilmichael, and Kosciusko, Miss., Albuquerque and Carlsbad, N. Mex., Charlotte and High Point, N.C., Oklahoma City and Tulsa, Okla., Columbia and Hampton, S.C., Chattanooga, Knoxville, Memphis, and Nashville, Tenn., Dallas, El Paso, and Houston, Tex., Salt Lake City, Utah, Casper and Laramie, Wyo., Seattle and Spokane, Wash., and Portland, Oreg., serving the above Commercial Zones thereof, under a contract with Exxon Chemical Company, U.S.A., Odenton, Md., for 180 days. Supporting shipper; Thomas J. Nunn, Traffic Manager, Exxon Chemical Company, U.S.A., Odenton, Md. 21113. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814–B Federal Building, Baltimore, Md. 21201.

No. MC 133559 (Sub-No. 1TA), filed December 5, 1974. Applicant: CHARLOTTE TRUCK SERVICE, INC., 4109 Thrift Road, Charlotte, N.C. 28206. Applicant's representative: Ward Whitney Dunlap, Route 2, Box 144, Gastonia, N.C. 28052. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked and disabled trucks, tractors, and trailers* (other than those designed to be drawn by passenger vehicles), from points in Illinois, Indiana, Ohio, West Virginia, Kentucky, Tennessee, to points in Mecklenburg County, N.C., and *replacement vehicles* for the above named vehicles, from points in Mecklenburg County, to points in the above named origin states, for 180 days. Supporting shipper: Akers Motor Lines, Inc.—Control/Central Motor Lines, Inc., P.O. Box 10303, Charlotte, N.C. 28237. Send protests to: District Supervisor Terrell Price, Interstate Commerce Commission, Bureau of Operations, 800 Briar Creek Road—Room CC516, Mart Office Building, Charlotte, N.C. 28205.

No. MC 134063 (Sub-No. 8TA), filed December 4, 1974. Applicant: MIDWEST TRANSPORTATION COMPANY, a Corporation, 2802 Avenue "B", Council Bluffs, Iowa 51501. Applicant's representative: Frank R. Chellino (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products, cheese, butter, and powdered milk* (except in bulk, in tank vehicles), from Arlington, Iowa, to Philadelphia and Doylestown, Pa., Secaucus, N.J., and New York, N.Y., for 180 days. Supporting shipper: Associated Milk Producers, P.O. Box 61, Mason City, Iowa 50401. Send protests to: District Supervisor Carroll Russell, Interstate Commerce Commission, Bureau of Operations, Suite 620 Union Pacific Plaza, 110 North 14th Street, Omaha, Nebr. 68102.

No. MC 138761 (Sub-No 12TA), filed November 27, 1974. Applicant: E. K. MOTOR SERVICE, INC., 2005 N. Broadway, Joliet, Ill. 60435. Applicant's representative: Tom B. Kretsinger, Suite 910 Fairfax Building, 101 West 11th Street, Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick and brick related masonry construction materials* (except commodities in bulk), (1) from Chattanooga, Johnson City, Kingsport, and Knoxville, Tenn., to points in Illinois, Indiana, Kentucky, and Wisconsin; (2) from Coral Ridge, Ky., to points in Illinois, Indiana, and Wisconsin; and (3) from Mooresville, Ind., to points in Illinois, Kentucky, and Wisconsin, restricted to traffic originating at the plantsites and production and storage facilities of General Shale Products Corporation at or near the above named origin points, for 180 days. Supporting shipper: Archie T. Moore, Traffic Manager, General Shale Products Corp., P.O. Box 3547, C.R.S., Johnson City, Tenn. 37601. Send protests to: Robert G. Anderson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 S. Dearborn Street, Room 1086, Chicago, Ill. 60604.

No. MC 138741 (Sub-No. 13TA), filed December 5, 1974. Applicant: E. K. MOTOR SERVICE, INC., 2005 N. Broadway, Joliet, Ill., 60435. Applicant's representative: Tom B. Kretsinger, Suite 910 Fairfax Building, 101 West Eleventh Street, Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron or steel billets and ingots*, from Centerville, Iowa, to Peoria, Ill., Sharon, Pa., Kokomo, Ind., Canton, Cleveland, Massillon, Warren, and Youngstown, Ohio, for 180 days. Supporting shipper: Robert L. Lockridge, V. P. & Director of Marketing, Iowa Steel & Wire Co., Centerville, Iowa 52544. Send protests to: Robert G. Anderson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 139193 (Sub-No. 25 TA), filed December 2, 1974. Applicant: ROBERTS & OAKE, INC., 208 South LaSalle Street, Chicago, Ill. 60604. Applicant's representative: Jacob P. Billig, 1126 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meat, meat products, meat by-products, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Amarillo, Tex., to points in the United States (except Alaska and Hawaii); and (2) *Such commodities as are used by meat packers in the conduct of their business*, from points in the United States (except Alaska and Hawaii), to Amarillo, Tex., restricted to traffic transported under contracts with John Morrell & Co., for 180 days. Supporting shipper: J. G. Lonzurro, Corporate Director, Physical Distribution, John Morrell & Co., 208 South LaSalle Street, Chicago, Ill. 60604. Send protests to: William J. Gray, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 140414 (Sub-No. 1TA), filed December 3, 1974. Applicant: GEORGE H. RATCHFORD, Route 1, Box 10, Wadley, Ga. 30477. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree Street NW., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural lime*, in bulk, from Blount, Jefferson, and Knox Counties, Tenn., to points in Jefferson County, Ga., on and south of Georgia Highway 24, for 180 days. Supporting shipper(s): Louisville Fertilizer & Gin Co., P.O. Box 182, Louisville, Ga. 30434. Farmers Mutual Exchange of Wadley, Inc., P.O. Box 647 Wadley, Ga. 30477. Bryant's Inc., Barlow, Ga. 30413. Send protests to: William L. Scroggs, District Supervisor, 1252 West Peachtree Street NW., Room 546, Atlanta, Ga. 30309.

No. MC 140434 (Sub-No. 1TA), filed December 2, 1974. Applicant: A-1 TRANSFER SERVICE, 121 West College, P.O. Box 61, Jackson, Tenn. 38301. Applicant's representative: Edward G. Grogan, Suite 2020, First National Bank Bldg., Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Merchandise* as dealt in by home product distributors, for residence delivery only, from Jackson, Tenn., to points in Tennessee, west of the Tennessee River, for residence delivery only, and *returned, refused, or damaged shipments* on return, for 180 days. Supporting shipper: Amway Corporation, 300 Villa Nova Drive, Atlanta, Ga. 30139. Send protests to: District Supervisor Floyd A. Johnson, Interstate Commerce Commission, Bureau of Operations, 435 Federal Office Building, 167 North Main Street, Memphis, Tenn. 38103.

No. MC 140435 (Sub-No. 1TA), filed December 3, 1974. Applicant: DENNIS CHUTZ AND WAYNE CHUTZ, doing business as D & W TRUCKING COMPANY, P.O. Box 116, Slippery Rock, Pa. 16057. Applicant's representative: Donald E. Cross, 918-16th Street NW., Suite 700, Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: Coal, in dump vehicles, from points in Cambria, Somerset, Indiana, Venango, and Clearfield Counties, Pa., to the plant sites of Cleveland Electric Illuminating Company in Ashtabula County, Ohio, for 180 days. Supporting shipper: Pengrove Coal Company, P.O. Box 116, Slippery Rock, Pa. 16057. Send protests to: John J. England, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 2111 Federal Bldg., 1000 Liberty Avenue, Pittsburgh, Pa. 15222.

No. MC 140445TA, filed December 5, 1974. Applicant: RIGHT-O-WAY, INC., P.O. Box 15067, Santa Ana, Calif. 92705. Applicant's representative: Robert Ferrero (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Aircraft parts and components thereof*, packaged or unpackaged, between Burbank, Calif., and Gainesville, Tex., for the account of Weber Aircraft, Burbank, Calif., for 180 days. Supporting shipper: Weber Aircraft, 3230 Ontario St., Burbank, Calif. Send protests to: District Supervisor Philip Yallowitz, Interstate Commerce Commission, Bureau of Operations, 300 North Los Angeles Street, Room 7708, Los Angeles, Calif. 90012.

No. MC 140446TA, filed December 5, 1974. Applicant: TRIPP MOTOR SERVICE, INC., 3120 South St. Louis Avenue, Chicago, Ill. 60623. Applicant's representative: Dominic Airrio (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Crushed automobile bodies*, including *component parts and accessories thereof*, as well as *junk automobiles* in truckaway or towaway service, between the warehouse and plantsite facilities of United Industries, located at Gary, Ind., or other points in the Chicago, Ill., Commercial Zone as defined by the Interstate Commerce Commission, and points in Illinois, Kentucky, Minnesota, Tennessee, and Wisconsin, for 180 days. Supporting shipper: O. Scott Reed, Supt. of Operations, United Industries, 6301 West Chicago Avenue, Gary, Ind. 46406. Send protests to: Robert G. Anderson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, Room 1086, Chicago, Ill. 60604.

No. MC 140447TA, filed December 6, 1974. Applicant: BOYCE HOWARD, doing business as BOYCE HOWARD TRUCKING, P.O. Box 165, Newport, Ark. 72112. Applicant's representative: Thomas J. Preston, P.O Box 71, Redfield, Ark. 72132. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Steel borings or turnings*, in bulk, in open top dump trailers, from Pocahontas, Ark., to Sheffield, Ala., for 180 days. Supporting shipper: Donnie Bryant Machine & Tool Company, P.O. Box 2011, Batesville, Ark. 72501. Send protests to: District Supervisor William H. Land, Jr., Interstate

Commerce Commission, Bureau of Operations, 2519 Federal Office Building, 700 West Capitol, Little Rock, Ark. 72201.

No. MC 140448TA, filed December 6, 1974. Applicant: KENDALL R. STEWART AND KENNETH W. STEWART, doing business as K & K STEWART TRUCKING COMPANY, Kentucky Highway 15, P.O. Box 126, Clay City, Ky. 40312. Applicant's representative: R. H. Kinker, 711 McClure Building, P.O. Box 464, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk, from points in Breathitt, Clay, Floyd, Jackson, Johnson, Knox, Laurel, Lee, Magoffin, Owsley, Perry, Rockcastle, Wolfe, and Whitley Counties, Ky., to Cincinnati, Columbus, Dayton, Fairborn, Hamilton, Middletown, and Springfield, Ohio, and their respective commercial zones, for 180 days. Supporting shipper: Homer Hart, President, Landmark Coal Company, P.O. Box 615, Corbin, Ky. 40701, and William Cress, Vice President, Breathitt Coal Company, Box 620, Jackson, Ky. 41339. Send protests to: R. W. Schneiter, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 222 Bakhaus Building, 1500 West Main Street, Lexington, Ky. 40505.

No. MC 140451TA, filed December 4, 1974. Applicant: RICHARD T. MEREDITH, 2710 S. W. Troy, Portland, Oreg. 97219. Applicant's representative: Richard T. Meredith (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Automobiles, pickup trucks, and motor homes*, from points in the United States, to points in Oregon, for 180 days. Supporting shipper: Ford Motor Credit Co., P.O. Box 13070, 4309 N.E. Tillamook Street, Portland, Oreg. 97213. Send protests to: District Supervisor W. J. Huetig, Interstate Commerce Commission, Bureau of Operations, 114 Pioneer Courthouse, Portland, Oreg. 97204.

MOTOR CARRIERS OF PASSENGERS

No. MC 140385 (Sub-No. 1TA), filed December 5, 1974. Applicant: WEST COAST COACH LINES LIMITED, 1211 Wharf Street, Victoria, British Columbia, Canada. Applicant's representative: Michael B. Crutcher, 2000 IBM Building, Seattle, Wash. 98101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in round-trip charter operations (restricted to origin/destination operations from Vancouver Island, in the Province of British Columbia), beginning and ending at Port Angeles and Blaine, Wash., near the International Boundary line between the United States and Canada, and extending to points in Washington, Oregon, Nevada, and California, under a continuing contract or contracts with T. I. Travellers nternational Tours Limited, for 180 days Supporting shipper: T. I. Travellers International Tours Limited, 1211 Wharf Street, Victoria, British Columbia, Canada. Send protests to: I. D. Boone, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 858 Federal Building, 915 Second Ave., Seattle, Wash. 98174.

No. MC 140444TA, filed December 5, 1974. Applicant: HIGHLAND TOURS, INC., 2002 Clemson Road, Jacksonville, Fla. 32217. Applicant's representative: Sol H. Proctor, 1107 Blackstone Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in military charter service, between Jacksonville, Fla., on the one hand, and, on the other, points in Georgia, Alabama, Tennessee, South Carolina, and North Carolina, for 180 days. Supporting shipper: Department of Defense, Areatranso, E. A. Tanner, Building 13, Comseabasedaswwingslant, NAS, Jacksonville, Fla. 32212. Send protests to: District Supervisor G. H. Fauss, Jr., Interstate Commerce Commission, Bureau of Operations, Box 35008, 400 W. Bay St., Jacksonville, Fla. 32202.

By The Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[No. 35694]

UTAH INTRASTATE FREIGHT RATES AND CHARGES

Order

Upon consideration of the record in the above-entitled proceeding, including the joint petition filed July 29, 1974, by eight common carriers by railroad operating within the State of Utah, for reconsideration of the decision and order of the Commission, Review Board Number 4, decided July 1, 1974; and

It appearing, That, pursuant to a petition filed August 29, 1973, the Commission, by order of September 27, 1973, instituted an investigation under sections 13 and 15a of the Interstate Commerce Act, to determine, *inter alia*, whether the rates and charges of carriers by railroad operating in the State of Utah cause or will cause, by reason of the failure of such rates and charges to include the 3 percent interim increase authorized by the Commission in Ex Parte No. 295, *Increased Freight Rates and Charges, 1973*, any undue or unreasonable advantage, preference or prejudice as between persons or locations in intrastate commerce, on the one hand, and those in interstate or foreign commerce, on the other, or any unjust discrimination against or undue burden on interstate or foreign commerce; and

It further appearing, That no protestants appeared in opposition to the relief sought by the petitioning railroads; but that prior to the filing of the petitioners' opening statement, the 3 percent interim increase was superseded generally by a 3 percent permanent increase; and that said opening statement concerned the lawfulness of Utah intrastate freight rates and charges, to the extent that they do not include the final 3 percent increase authorize in *Increased Freight Rates and Charges, 1973*, 344 I.C.C. 589; and

It further appearing, That an Administrative Law Judge issued an initial decision on March 19, 1974, discontinuing the proceeding for mootness due to the expiration of the interim increase, and that his decision was affirmed by decision and order of Review Board Number 4, decided on July 1, 1974; and

It further appearing, That, because the final increase authorized in the Ex Parte No. 295 proceeding was in the same amount as the previously effective interim increase, the issues involved in determining whether Utah intrastate freight rates and charges violate section 13(4) of the Interstate Commerce Act, to the extent that they do not include the permanent 3 percent increase, are essentially identical to those raised by the order instituting this proceeding; however, in view of the specific language in said order limiting the Commission in this proceeding to consideration of the said interim increase, parties wishing to participate in the investigation as it concerns the final increase have not yet been afforded the opportunity to do so, see *Louisiana Intrastate Freight Rates and Charges—1972*, 346 I.C.C. 482, 486;

And it further appearing, That section 13(4) of the Interstate Commerce Act vests this Commission with the requisite authority to decide the aforementioned issues as they relate to said permanent 3 percent increase;

Wherefore, and good cause appearing therefor:

It is ordered, That the petition for reconsideration be, and it is hereby, granted to the extent that it requests reversal of the decision and order of July 1, 1974, and in all other respects be, and it is hereby, denied.

It is further ordered, That said decision and order, which has been stayed pursuant to section 17(8) of the Interstate Commerce Act, be, and it is hereby vacated and set aside; and that the evidence submitted by petitioners, as it relates to the permanent 3 percent increase authorized in *Increased Freight Rates and Charges, 1973, supra*, be, and it is hereby, accepted as the petitioners' opening statement of facts and argument in this proceeding.

It is further ordered, That all persons not parties of record who wish actively to participate in this proceeding and to file and receive copies of pleadings shall so notify the Office of Proceedings, Interstate Commerce Commission, in writing on or before January 17, 1974.

And it is further ordered, That a copy of this order be served upon each of the said petitioners; that the State of Utah be notified of the current status of this proceeding by sending copies of this order by certified mail to the Governor of Utah and to the Public Service Commission of Utah, Provo, Utah; and that further notice be given to the public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Division 2, acting as an Appellate Division.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 303-2]

PROPOSED OSHA OCCUPATIONAL NOISE EXPOSURE REGULATION

Request for Review and Report

I. SUMMARY

On October 24, 1974, the Occupational Safety and Health Administration (OSHA) of the Department of Labor, published proposed requirements and procedures respecting occupational noise exposures, 39 FR 37773. The Administrator of the Environmental Protection Agency (EPA) believes that the proposed regulation does not protect the public health and welfare to the extent required and feasible. Accordingly, under the authority of section 4(c)(2) of the Noise Control Act of 1972, Pub. L. 92-574 section 4(c)(2), 86 Stat. 1236, 42 USC 4903 (c)(2), the Administrator of EPA hereby requests that the Secretary of Labor review the proposed occupational noise exposure regulation and report to the Administrator of EPA on the advisability of revising such regulation to provide the required protection of the public health and welfare. Such report shall be forwarded to the Administrator of EPA 90 days from the date of this notice, and, as required by section 4(c)(2) of the Noise Control Act, shall be published in the FEDERAL REGISTER, accompanied by a detailed statement of the findings and conclusions of the Secretary of Labor respecting the revision of the regulation.

As presently proposed, the allowable level for an eight-hour workday exposure, 90 dBA, is too high. The Administrator believes that the eight-hour level should be set at 85 dBA, to become effective within three years, with a commitment to reduce to lower levels at a later date when such a reduction is shown to be feasible. Further, the OSHA formula for exposure of other than eight hours in length (the time-intensity tradeoff), allows an increase of 5 dB for each halving of exposure time. The Administrator recommends a 3-dB time-intensity tradeoff as necessary for protection of public health and welfare.

The development of an acceptable occupational noise exposure standard requires the resolution of three major issues: First, the requirements of public health and welfare; next, whether the technology exists to implement the standard necessary to protect health and welfare; and third, whether the costs of implementing such a standard are justified by the need.

EPA believes that there is sufficient information available to address each of these issues. OSHA states, however, that the 90-dBA standard should remain in effect "until further empirical data and information on the health risk, feasibility, and economic impact indicate the practicability and necessity of an 85-dBA requirement" (39 FR 37773). The current standard should not be extended on this basis.

EPA has provided OSHA with sufficient data to support the necessity for reducing the standard to 85 dBA, or lower. EPA has recently published a large amount of information on the effects of noise,[1-6] culminating in a document entitled, *Information on Levels of Environmental Noise Requisite to Protect the Public Health and Welfare with an Adequate Margin of Safety*[6] (March, 1974), that was required by the Noise Control Act of 1972. This document was subjected to an exhaustive review both by the scientific community and by other Federal agencies. The specified levels and the methodology used to identify them have been endorsed by a subcommittee of the Committee on Hearing, Bioacoustics and Biomechanics (CHAPA), of the National Academy of Sciences—National Research Council. EPA does not believe the health justification for a lower occupational noise level requires further study. EPA's criteria support a level of 75 dBA for an ultimate health goal;[6] EPA believes that reduction to 85 dBA is an important step toward this goal.

The National Institute of Occupational Safety and Health (NIOSH), under the authority of sections 20(a)(3) and 22(c)(2) of the Occupational Safety and Health Act, Pub. L. 91-596, 42 USC 669(a)(3), 671(c)(2) (1970), developed and provided criteria to OSHA for a recommended standard, Occupational Exposure to Noise.[7] These criteria clearly stated the need for reducing the eight-hour exposure level to 85 dBA and the accompanying data and background material support that conclusion.[7]

In the preamble to the proposed standard, OSHA states that NIOSH "reluctantly concurs" with the 90-dBA level at the present time. The entire text of this NIOSH statement is as follows:

> Currently NIOSH reluctantly concurs with the generally acceptable 90 dBA occupational exposure level for an 8-hour day. The need for reducing this 8-hour exposure level to 85 dBA, as supported by the material contained in this document is also recognized. It is recommended that the 85-dBA, 8-hour exposure level be applicable to all newly designed occupational exposure environments after 6 months from the effective date of this standard. However, due to the unavailability of sufficient data relating to the technological feasibility of meeting the 85-dBA level, NIOSH is unable to recommended a specific time period after which the 85 dBA, 8 hour occupational exposure level might become effective for all occupational noise environments. (*Occupational Exposure to Noise*, p. II-8.)

This inability to comment on technological feasibility is not surprising in view of the fact that NIOSH's responsibility, as articulated in section 20(a)(3) of the Occupational Safety and Health Act, is to evaluate and recommend safe levels of exposure without regard to economics or technological feasibility.

As to technological feasibility, the Department of Labor contracted for an independent study on the feasibility of implementing both 90- and 85-dBA standards, and the results of that study were published on January 1, 1974.[8] The study concluded that compliance with an 85-dBA standard can be achieved using currently existing technology and that the noise control industry is capable of responding adequately to the increase in demand.[8] This study also explored the relative costs to industry of complying with the current 90-dBA level and an 85-dBA level over three- and five-year compliance periods. EPA believes that the resulting cost estimates are inflated and do not reflect the various economic alternatives to the industry-wide, threshold limit approach to the setting of standards.

EPA, charged, under section 4(c)(1) of the Noise Control Act, with the role of coordinating Federal noise control efforts, has worked with OSHA staff members during the development of the proposed regulation. An EPA representative served as non-voting liaison member to OSHA's Standards Advisory Committee on Noise. OSHA's proposed standard and draft Environmental Impact Statement were reviewed extensively by EPA staff,[9] resulting in suggestions for substantial changes and improvements to the standard and EIS.

The most significant recommendations involved reduction to 85 dBA within a 3-year period and adoption of the 3-dB time-intensity tradeoff. EPA also recommended a more conservative standard for impulse noise so that the maximum level would be decreased by 10 dB for each ten fold increase in the number of impulses. Another recommendation was that the definition of significant threshold shift be improved so that shifts of more than 10 dB at any test frequency would be considered significant. All of EPA's suggested improvements, with the exception of the impulse standard, have been rejected without adequate explanation.

EPA has also made several suggestions aimed at ameliorating the cost impact of a more protective standard. These suggestions include the alternatives of industry-by-industry standards, incremental reductions over time, a stringent standard with variance provisions, and lower levels for new plants. These, too, have been rejected without explanation. None of these recommendations are discussed in the preamble to OSHA's proposal. For these reasons, EPA is resorting to the procedures of section 4(c)(2) of the Noise Control Act in asking for a review of the proposed standard. The Act requires that the Department of Labor complete the requested review and report its findings and conclusions to the Administrator.

II. HEALTH AND WELFARE EFFECTS

A. NOISE EXPOSURE LEVEL

OSHA's Proposed Time-Weighted Level: 90 dBA
EPA's Recommendation: Within Three years: 85 dBA
Later Date: 85 dBA

Supporting information. EPA has reviewed OSHA's proposed standard for occupational exposure to noise and in view of the best available data, has determined that the 90-dBA time weighted

level for an 8-hour day does not adequately protect public health and welfare. EPA has identified a level of approximately 20 decibels below OSHA's proposed 90 dBA as the safe level for protection against hearing loss, i.e., a yearly equivalent sound level of 70 dBA averaged over a 24-hour period (Leq(24) 70).[5] The 70 dBA level would be compatible with an 8-hour exposure level of 75 dBA, so long as the exposure level over the remaining 16 hours is sufficiently low to result in a negligible contribution to the 24-hour average, i.e., no greater than an equivalent sound level of 60 dBA. EPA's criterion for the identified level is that it should produce no more than a 5-dB hearing loss at the 4000-Hz frequency over a period of 40 years in virtually the entire population. Although the identified safe level is not a standard, it provides a basis for judgment in the setting of standards. In that sense, it should be considered a long-range public health goal.

The data on which EPA's criteria and recommended levels are based have been drawn from three significant bodies of data, those of Baughn,[6] Passchier-Vermeer,[10] and Robinson.[11] EPA's conclusions are drawn from the averaged data of more than 10,000 subjects from the 12 studies reported by the above researchers. EPA believes these data represent the best available evidence on the effects of noise on hearing. As will be shown below, regardless of the criteria used to predict the effects of noise on the hearing of exposed workers, 8-hour noise levels of 90 dBA represent an unacceptable health hazard.

1. *Noise induced permanent threshold shift (NIPTS).* EPA believes that OSHA's analysis, based upon hearing risk for the averaged frequencies of 500 Hz, 1000 Hz and 2000 Hz, is inadequate, because it fails to account for hearing loss in the critical frequencies above 2000 Hz, which are the soonest and most severely affected by exposure to noise. To account for these factors, EPA has analyzed hearing loss in terms of noise induced permanent threshold shift (NIPTS),[4, 5, 6] and has examined hearing loss at individual frequencies and various combinations of frequencies,[4] giving special emphasis to the changes in response to higher frequencies. It should be borne in mind that for each 10 dB of hearing loss, sound energy will have to be increased by a factor of 10 in order for a particular sound to be heard.

The most important use of the hearing mechanism in today's society is for hearing and understanding speech. The kind of hearing loss that results from noise exposure impairs this ability to communicate. This impairment is usually a gradual occurrence. Individuals who have begun to suffer such a loss will often notice that ordinary speech is just as loud, but not as distinct as previously. This phenomenon occurs with reduction of high frequency hearing since a considerable portion of the sound energy of consonants lies in the high frequency range. Unfortunately for hearing-impaired individuals, the energy in consonants is smaller in magnitude as well as higher in frequency than it is for vowels, and it is consonants much more than vowels that give intelligibility to English speech.[12, 13] As noise-induced hearing loss increases, speech communication becomes progressively more difficult for the hearing-impaired listener.

OSHA's analysis is based upon studies which have shown that in order to understand undistorted speech in quiet conditions (sound-proofed rooms), 500 Hz, 1000 Hz and 2000 Hz are the most important audiometric frequencies.[14, 15] However, undistorted speech in quiet surroundings is not characteristic of the typical conditions in which speech must be understood. NIOSH[7] cites modern research as showing that "* * * everyday communication is placed under a wide variety of environmental stresses. Estimates of the amount of time that speech is distorted range from a conservative figure of 50 percent.[16] up to about 100 percent." [17] It is obvious that everyday communication does not usually take place in sound-proofed booths.

It has been demonstrated that in order to understand speech in less than optimal conditions good hearing in the frequencies above 2000 Hz is very important. As far back as 1947, French and Steinburg [18] showed in a classic study that the frequencies above 1900 Hz are as important as those below 1900 Hz for determining the intelligibility of speech. There have been numerous other significant studies on the understanding of speech under various conditions of noise and distortion which are typical of environmental situations,[19-26] which point to the importance of preserving hearing above 2000 Hz. While these studies do not minimize the importance of good hearing in the mid-frequencies, they emphasize the previously underrated need for perception of frequencies in the range of 3000 Hz and 4000 Hz. Thus, while examining the effects of noise on hearing it is important to assess the effects on perception of the high frequencies as well as the mid-frequency range.

Figures 1 and 2 show the effects of noise on human response to various audiometric frequencies as a function of exposure level. Figure 1 shows the median NIPTS for ten years as a function of exposure level, according to Passchier-Vermeer.[4, 10] Figure 2 shows these effects for an exposure of forty years.[11] It can be seen that while damage to hearing at the 4000-Hz frequency occurs mostly during the first 10 years, other critical frequencies, such as 2000 Hz and 3000 Hz continue to be affected as exposure is prolonged. It is also noteworthy that the important 2000 Hz frequency is considerably more affected by an exposure level of 90 dBA than by a level of 85 dBA.

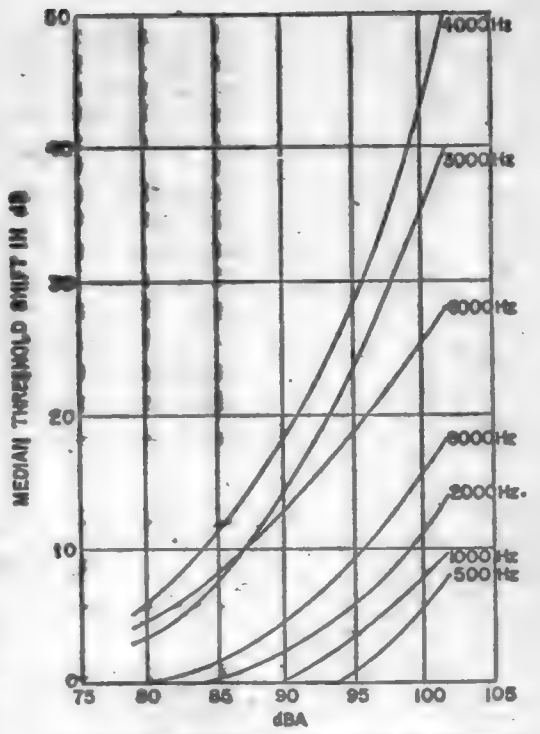

Figure 1. Median Noise-Induced Permanent Threshold Shift in dB as a Function of Exposure Level 8 hours a day for a period of 10 years.[10]

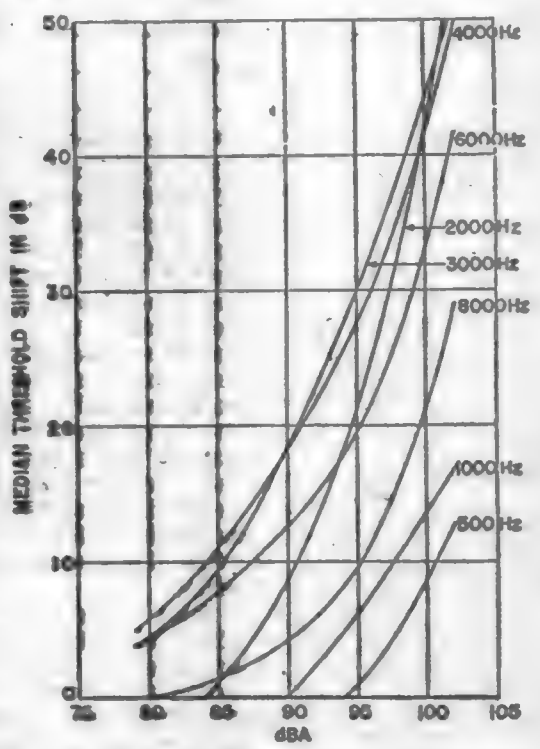

Figure 2. Median Noise-Induced Permanent Threshold Shift in dB as a Function of Noise Exposure Level 8 hours per day for a Period of 40 Years.[11]

Since there appears to be considerable variation in individual susceptibility to NIPTS, it is important to examine the effects of noise on the more affected portion of the population by looking at the higher percentiles. Using data from Passchier-Vermeer [4, 10] and Robinson [4, 11] EPA calculated amounts of NIPTS incurred

See footnotes at end of document.

after numbers of years for various percentiles. Baughn's data were not included in the calculations since discrete NIPTS values for 1000 Hz, 2000 Hz and 3000 Hz were not readily available. Shown in Table 1 are NIPTS for the 50th and 90th percentiles for the frequencies 1000 Hz, 2000 Hz, 3000 Hz and 4000 Hz after 10 and 40 years of exposure as a function of exposure level. Note that at an exposure level of 80 dBA the median NIPTS is less than a decibel for the mid-frequencies, and only reaches 5 dB in the high frequencies after 40 years of exposure. Although more hearing loss is incurred by the 10 percent most susceptible (the 90th percentile), losses due to 80 dBA can still be considered slight. An exposure level of 85 dBA produces nearly twice as much NIPTS as the 80 dBA level and likewise the NIPTS for most frequencies doubles between 85 dBA and 90 dBA for both groups. Although the increase of NIPTS at 4000 Hz appears to level off somewhat between 85 dBA and 90 dBA, there is significant increase in NIPTS at 2000 Hz. This value more than doubles between the exposure levels of 85 dBA and 90 dBA.

TABLE I.—*Noise-induced permanent threshold shift (NIPTS) in decibels as a function of noise exposure level for the 50th and 90th percentiles*

[In decibels]

Exposure level	Years	Audiometric frequency			
		1000 Hz	2000 Hz	3000 Hz	4000 Hz
		(a) 50th percentile			
80 dBA	10	0.2	0.5	2.0	4.2
	40	0.55	1.1	4.0	5.0
85 dBA	10	0.4	1.1	3.0	8.0
	40	0.9	2.5	8.7	10.4
90 dBA	10	0.8	2.0	10.7	12.4
	40	1.7	5.2	16.0	17.3
		(b) 90th percentile			
80 dBA	10	0.4	1.3	4.4	10.2
	40	1.3	2.75	7.8	13.4
85 dBA	10	1.1	3.7	8.8	14.7
	40	2.8	6.7	13.4	15.2
90 dBA	10	2.1	7.8	17.6	21.2
	40	4.2	14.2	26.8	26.8

[1] Averaged data of Passchier-Vermeer [9] and Robinson.[11]

It is important to remember that values of NIPTS are not synonomous with hearing threshold levels. As age increases, hearing loss from the natural aging process or "presbycusis" will contribute to the total amount of hearing loss. Since presbycusis and NIPTS are generally considered additive,[8, 10] it is helpful to consider the summed contribution of noise and aging for the average, and for the more affected elements of the population. These figures will more realistically reflect the effect of noise on an exposed population. Table II shows the amounts of NIPTS described in Table I after the presbycusis values have been added.

Here it can be seen that the combined effect of noise and aging will produce considerably more hearing loss than would occur from noise exposure alone. In particular, exposure to a level of 90 dBA, when seen in combination with the aging process, results in substantial losses for average workers while affecting the 90th percentile even more severely.

See footnotes at end of document.

In order to judge the magnitude of this effect, these exposure levels and the resulting NIPTS can be related to numbers of noise exposed workers. OSHA's contractor, Bolt, Beranek and Newman (BBN), has estimated the percentage of production workers currently exposed to various levels of noise, and the percentage that would be exposed to those levels if maximum compliance with the present 90-dBA standard or a future 85 dBA standard were achieved, Impact of Noise Control at the Workplace," 1974, pp. 13 & 26. (See Tables III and IV in text.) BBN defines maximum compliance as that which would be achieved with the full use of presently available technology. BBN estimates that unless new technology is developed approximately 8 percent of the workforce would continue to be exposed to noise levels above the required limit, whether that limit is 90 dBA or 85 dBA. According to BBN approximately 14 million workers are currently employed in American production industries. The number of noise exposed workers based on this figure have been entered in Tables III and IV.

TABLE II.—*Hearing threshold level in decibels [1] as a function of noise exposure and presbycusis*

[In decibels]

Exposure level	Age	Audiometric frequency			
		1000 Hz	2000 Hz	3000 Hz	4000 Hz
		(a) 50th percentile			
Nonnoise exposed	20	1.0	0.8	1.8	3.8
	60	6.8	11.8	18.0	24.0
80 dBA	20	1.2	1.8	4.8	7.6
	60	7.9	12.4	22.8	29.8
85 dBA	20	1.8	1.9	7.4	11.8
	60	8.6	13.8	26.7	34.4
90 dBA	20	2.6	3.8	12.5	16.7
	60	10.2	19.5	34.0	41.2
		(b) 90th percentile			
Nonnoise exposed	20	3.8	7.6	13.6	16.1
	60	14.6	18.1	29.8	36.8
80 dBA	20	9.4	8.9	18.2	26.8
	60	15.9	20.9	37.6	50.2
85 dBA	20	9.9	11.3	21.9	30.8
	60	16.9	24.8	43.2	56.0

TABLE III.—*Estimates of shift in distribution of worker exposure due to maximum compliance to 90 dBA (according to Bell, Bennett, and Newman, 1974)*

Exposure level (dBA)	Production workers currently exposed		Those exposed after maximum compliance to 90 dBA	
	Percent production workforce	Approximate number of workers	Percent production workforce	Approximate number of workers
80 to 84	20	4,200,000	20	4,200,000
85 to 89	40	8,400,000	32	6,680,000
90 to 94	15	3,100,000	4	560,000
95 to 99	7	980,000	2	280,000
100 to 104	4	560,000	1	140,000
105 to 109	2	280,000	1	140,000
110 to 114	2	280,000	0	
More than 115	1	140,000	0	

TABLE IV.—*Shift in distribution of worker exposure due to maximum compliance to 85 dBA (according to Bell, Bennett, and Newman, 1974)*

Exposure level (dBA)	Production workers currently exposed		Those exposed after maximum compliance to 85 dBA	
	Percent production workforce	Approximate number of workers	Percent production workforce	Approximate number of workers
80 to 84	20	4,200,000	92	12,880,000
85 to 89	40	8,400,000	4	560,000
90 to 94	15	3,100,000	2	280,000
95 to 99	7	980,000	1	140,000
100 to 104	4	560,000	1	140,000
105 to 109	2	280,000	0	
110 to 114	2	280,000	0	
More than 115	1	140,000	0	

It can be seen that requiring compliance at either the 90 dBA or the 85 dBA level would be beneficial. However, the difference between compliance at 90 dBA and at 85 dBA as can be seen by comparing Table III and IV is particularly dramatic. Should compliance at 85 dBA be achieved, the numbers of noise exposed workers in the 85–89 dBA group would be reduced from 8,680,000 to only 560,000. Thus, approximately 8,120,000 workers would be prevented from suffering the amount of NIPTS resulting from exposures of 85 dBA to 90 dBA shown in Table I. In addition, the numbers of workers exposed to the more damaging noise levels between 90 dBA and 110 dBA would be reduced from approximately 1,120,000 to 560,000. Although some amounts of hearing loss would still occur as a result of an 85 dBA exposure level, EPA believes that the demonstrated differences between NIPTS resulting from exposure to 85 dBA as opposed to 90 dBA are so significant as to warrant reduction to the 85 dBA level. This significance becomes more profound when one considers that the hearing of 8 million workers is involved.

2. *Hearing risk.* Since the effects of occupational noise on hearing are often stated in terms of damage risk or hearing risk figures, it would be useful to examine percentages of the population at risk for various exposure levels. The word "risk" for these purposes is defined as the percentage of noise exposed population with a given amount of hearing impairment after subtractions have been made for the percentage of people who would "normally" incur such losses from other causes in the absence of noise. Criteria published by the International Organization for Standardization (ISO),[9] EPA,[1] and NIOSH,[7] are fairly similar. These criteria shown in Table V, are based on 8-hour exposures, 5 days per week for up to 40 years. They show percentages of people who will have hearing losses that exceed 25 dB[8] at the average audiometric frequencies of 500 Hz, 1000 Hz and 2000 Hz. It can be seen that substantial portions of the exposed population will incur such a hearing impairment at 90 dBA, approximately half as many will incur these impairments at 85 dBA, and the risk is quite small at 80 dBA.

TABLE V.—*Percentage of the population at risk (exceeding 25 dB hearing loss) as a result of various noise exposure levels*

Item	Noise exposure level (dBA)	Risk (percent)
a. Averaged frequencies 500 Hz, 1000 Hz, and 2000 Hz:		
ISO	90	21
	85	10
	80	0
EPA	90	22.8
	85	11
	80	5
NIOSH	90	20
	85	15
	80	8
b. Hearing risk for 4000 Hz:		
BAUGHN	90	52
	85	30
	80	6

These risk figures, however, do not take into account hearing losses above the 2000 Hz frequency. As mentioned earlier, human response to the high frequencies is more vulnerable to the adverse effects of noise, and is important to the understanding of speech in lifelike conditions. In order to compare the risk values for the mid-frequencies with those for a higher frequency, risk figures for 4000 Hz are shown. These figures were taken from Baughn's data,[6] whose risk figures for the averaged mid-frequencies were used in the calculations of EPA's and ISO's risk values. The same 25-dB hearing loss criterion is used. It can be seen that the risk is considerably greater when 4000 Hz is examined, and the differences between exposure levels are even more noticeable. While only 6 percent of the exposed population will exceed the 25 dB loss criterion at 80 dBA, 52 percent of the population will exceed it from exposure to 90 dBA. This is clearly an unacceptable risk.

Although the concept of risk appears to be a fairly straightforward way of examining the effects of noise on hearing, there are a number of reasons why EPA is reluctant to use it as the only measure. First, risk figures say nothing about the shape of the distribution. Individuals could cluster around the area of 26 dB loss or they could be scattered widely up to 50 or 60 dB. Also risk figures say nothing about hearing losses that approach, but do not exceed the criterion in question (in this case 25 dB). In other

See footnotes at end of document.

words, risk figures may provide information on people whose hearing goes from fair to bad, but not on those whose hearing goes from excellent to fair as a result of noise exposure. In addition, the percentage of risk will vary according to certain parameters such as the age and years of exposure of the exposed population and the presence and degree of otologic screening.[7] For these reasons, EPA believes that NIPTS, the actual amount of threshold shift due to noise exposure after correction for presbycusis, is a more appropriate descripter of the effects of noise on hearing. While these values may appear to be less dramatic, they are less susceptible to bias and in the long run, more meaningful.

3. *Other health factors not considered.* There are certain adverse effects of noise that apparently have not even been discussed in the formulation of the standard. These are the non-auditory physiological effects of noise, and the effects on communication and job performance. While some of these effects are difficult to quantify, they should be taken into consideration as a noise exposure standard is developed, and where appropriate, they should encourage a more conservative approach to the setting of exposure limits. This is especially important in view of the fact that the proposed standard does not afford full protection against hearing loss. The Preamble states that "OSHA recognizes that comparatively more workers will be at lower risk at 85 dBA than at 90 dBA," but there is no consideration of long-range goals.

There is ample evidence that cardiovascular, endocrine and neurological changes do occur as a result of noise exposure.[1, 2, 3-6] Whether or not these changes are harmful when experienced over a lifetime is still a subject of question for American researchers. Various European and Soviet studies, as well as some American studies, have indicated that high noise levels can produce significant non-auditory physiological effects in humans.[3-6] With specific reference to industrial noise, NIOSH [1] states that:

> The fact that those who work in high noise levels show greater medical difficulties than those who work under quieter conditions is not conclusive evidence that noise is the crucial causal factor. In each case, it is possible that the differences in the specified health parameters may be explained by other factors such as age, other environmental contaminants, workload and job habits.

However, the fact that such evidence does occur, even though it is not as conclusive as the auditory evidence, is reason to approach the standard-setting process with extra caution.

NIOSH concludes the discussion by saying that the "* * * noise limits designed to provide hearing protection should also reduce the possibility of any extra-auditory health disturbance."[1] Here it should be remembered that NIOSH referred to the 85 rather than the 90 dBA level. Such a statement can be still more safely made with reference to EPA's identified levels of 70–75 dBA.

While the possibility of protection against extra-auditory effects may be true for moderate levels of noise, this protection is less likely to occur with long-term exposures to 90 dBA for 8 hours, 95 dBA for 4 hours, or 100 dBA for 2 hours.

Speech and signal interference creates a similar situation. Varying amounts of communication can occur at levels above 85 dBA if talker and listener move close together and very loud voice or shouting is used. However, speech communication is almost impossible above 100 dBA[8] and the audibility of warning shouts and signals becomes increasingly problematical at such high background levels. These hazards should be acknowledged and kept in mind when setting 8-hour exposure limits, and especially when making decisions about a time-intensity tradeoff. Even with an 8-hour exposure limit of 90 dBA, adoption of a more stringent time-intensity tradeoff than the present 5 dB rule would eliminate exposure to continuous noise at levels above 105 dBA. The chances of masking warning shouts or signals, as well as the probability of auditory damage would be reduced accordingly.

The effects of noise on job performance are more difficult to quantify than the effects on speech and signal interference. Continuous noise levels above 90 dBA appear to have potentially detrimental effects on performance, depending on the type of task and the individual's physiological and motivational state.[3] Intermittent levels of less than 90 dBA can be detrimental depending upon the above-mentioned variables, especially if the noise is unexpected, uncontrollable and has predominantly high frequency components.[3] Although these effects have not been studied extensively in the industrial situation, they should provide added incentive for adopting a conservative approach to the setting of standards designed to protect against other adverse effects.

B. TIME-INTENSITY TRADEOFF

OSHA's Proposal: 5-dB Rule
EPA's Recommendation: 3-dB or "Equal Energy" Rule

The question of the allowable increase in exposure levels with decrease of exposure time (time intensity tradeoff) is an issue that is as important as the 8-hour exposure level for the conservation of hearing. EPA believes that OSHA's allowable increase of 5 dB for every halving of exposure duration does not adequately protect public health and welfare. It is based on an over-simplification of the beneficial effects of intermittency. First, the criteria upon which it is based allow excessive amounts of threshold shift in the exposed population. In addition, the criteria require evenly spaced quiet intervals of specific duration in which to recover from temporary threshold shift (TTS). Such precise temporal distributions are not characteristic of the industrial environment. The typical sound levels during intermittencies in most industrial conditions are not sufficiently low to permit adequate recovery from TTS. It is generally agreed that persistent TTSs will eventually result in comparable permanent threshold shifts.[4, 6]

It is true that interrupted noise in some instances causes less damage to the hearing mechanism than an equivalent amount of continuous noise.[9, 10] For this reason, EPA increased by 5 dB the level of environmental noise identified as required to protect against hearing loss.[3] (This correction is distinct from a time-intensity tradeoff.) During the periods of interruption, the ear is able to achieve some amount of recovery from TTS. However, the amount of recovery achieved is highly dependent upon the duration and level of the noise, the amount of time between exposures and the sound level during the quiet period. While long periods of relative quiet are characteristic of most environmental noise, they are not common to industrial noise.

The 5 dB rule is theoretically based on damage-risk criteria developed by Working Group #46 of the Committee on Hearing, Bioacoustics and Biomechanics of the National Academy of Science—National Research Council (CHABA).[6] These criteria, derived from data on TTS, specify tolerable levels and durations of noise for 1-octave and 1/2-octave bands for a range of approximately 85 dB to 135 dB. They allow higher levels of noise as the durations become shorter and recovery periods become longer. Adherence to the CHABA criteria should produce TTS after 2 minutes or NIPTS after 40 years of exposure no greater than the losses displayed in Table VI. EPA believes that these are excessive amounts of allowable threshold shift from noise exposure. Moreover, research has indicated that observed amounts of TTS can be considerably higher than those predicted by the CHABA criteria.[6]

TABLE VI.—*Estimated NIPTS according to damage-risk criteria proposed by CHABA working group No. 46*

Test frequency (hertz)	Median (decibel)	90th percentile (decibel)
1000	10	30
2000	15	41
3000	20	60

The CHABA criteria were later simplified to apply to the industrial situation by consolidating the ⅓- and 1-octave band long- and shortburst intermittent contours into one scheme combining dBA level, total on-time and number of exposure cycles.[7] A time-intensity tradeoff was selected that seemed to characterize a situation with 5 to 7 interruptions per day, namely, a 5 dB tradeoff. The validity of even the simplified method rests on the requirements that the exposure cycles are evenly distributed and the 5 to 7 interruptions are long enough to permit the necessary amount of recovery from TTS. However, as adopted by OSHA, these requirements have disappeared. Thus, an individual can be subjected to a 95 dBA exposure level distributed in any

See footnotes at end of document.

temporal pattern throughout the day, or even continuously, so long as a four-hour dose is not exceeded. The CHABA criteria, even in the simplified form, would permit only 30 minutes of uninterrupted exposure to 95 dBA. A yet more serious misinterpretation occurs by allowing a solid 15 minutes of exposure to 115 dBA. At this level, the CHABA criteria permit only about 3½ minutes of uninterrupted exposure.

In addition to the regularity and duration of the interruptions, the noise level of the quiet period contributes to the amount of recovery that can take place. Significantly greater amounts of TTS were found for equivalent exposures to 103 dBA when the sound level during the quiet intervals was 77 dBA than when it was 40 dBA.[46] Significant differences also appeared between quiet intervals of 67 dBA and 57 dBA.[47] This kind of evidence has prompted EPA to identify a level of 60 dBA as a quiet requirement in order to permit complete recovery from 8-hour work-day exposures no higher than 75 dBA.[8] NIOSH has identified a level of 65 dBA as meeting the requirements of a true "off-level."[7] Both figures are considerably more conservative than the 84 dBA level implicit in the proposed standard since levels below 85 dBA are not included in the calculation of the daily dose. It has been suggested that sufficiently low sound levels can heighten the effectiveness of interruptions and facilitate recovery that otherwise would not occur.[48] This hypothesis could very well explain the advantages attributed to intermittency in the laboratory and in occupations such as forestry and some kinds of mining where the background noise level is fairly low. Obviously, there is quite a differences between a remote mountain top and a typical production factory.

It is generally agreed that the noise in production industries is fairly continuous or steady-state in nature and that it is not intermittent, i.e., interrupted by periods of subjective silence[9] or by noise levels below 55 dBA[8] to 65 dBA[7] depending on the definition of intermittency. OSHA's draft Environmental Impact Statement[49] maintains that "most industrial operations emit steady-state sounds." For this type of noise there is widespread agreement that the "equal energy" rule holds true, that is that equal amounts of sound energy will cause equal amounts of hearing loss regardless of how the energy is distributed in time. This rule allows a 3 dB increase in exposure level with each halving of exposure duration, rather than the 5 dB increase permitted by OSHA. The concept of equal energy is incorporated into the ISO Recommendation R1999 "Assessment of Occupational Noise Exposure for Hearing Conservation Purposes,"[50] it is written into most European standards for occupational noise,[51-73] and it is used in modified form in the U.S. Army[74] and U.S. Air Force[75] standards. Actually, the Army has adopted a standard that identifies any level above 85 dBA as potentially hazardous, regardless of duration (i.e., a more conservative approach than the 3 dB tradeoff). The Air Force, although it previously used the equal energy rule,[76] has adopted a 4 dB tradeoff,[77] presumably as a compromise between the equal energy rule and the present OSHA method. The equal energy rule is incorporated into the methodology by which EPA has identified safe levels of environmental noise.[8] According to the EPA/AMRL criteria[3] the equal energy rule "is probably the best available method of predicting the effect of noise on hearing in the case of continuous noise of which the level fluctuates slowly (seconds to hours) during the workday," and its application to these noise conditions is advocated by most contemporary researchers.[57 59-61] Experimental support has been given to its application to intermittent noise[57 62 63] and there is a growing tendency to apply the rule to impulsive noise as well[64-66] (see Appendices C and G of EPA's "Noise Levels Document"). The English Code of Practice[67] extends the equal energy rule from completely steady-state noise to short-duration impulses as high as 150 dB. There is no doubt that the equal energy rule is simpler, and it is more practical to use since OSHA's 5 dB time-intensity tradeoff imposes limits of 115 dBA on continuous noise and 140 dB on impulsive noise.

An additional point that may have very serious implications for noise control is the fact that noise exposure can produce structural damage to the ear that is not demonstrated by behavioral audiometry.[47] A scheme such as the CHABA method, which is based on the growth and recovery of TTS, neglects the possibility that anatomical damage may occur even though it is not detected by ordinary methods. Thus, damage risk criteria that appear to be safe as measured by TTS and subsequent recovery may fail to protect individuals from physiological damage that might become apparent after years of exposure.

For the above reasons, a 5-dB time-intensity tradeoff is not appropriate to the industrial environment. Employing it would not protect public health and welfare to the extent required. It would allow excessive amounts of NIPTS, particularly in the more susceptible members of the exposed population (see Table VI), even if the CHABA-recommended intermittency patterns were adhered to. As the rule is currently interpreted, 4 hours of continuous noise at 95 dBA, and likewise 2 hours of continuous noise at 100 dBA and 15 minutes at 115 dBA are allowable, with the resulting amounts of hearing loss potentially much greater than those predicted by the CHABA criteria. These points are among the many reasons to severely restrict exposure to noise levels as high as 110 dBA and 115 dBA, and to apply the more conservative equal energy rule to industrial noise exposures.

III. Feasibility, Technology and Cost

To fill the gap in data, which was pointed to in the NIOSH criteria document, the Department of Labor commissioned Bolt, Beranek, and Newman to study the cost and technology of quieting industry to levels of 90 dBA and 85 dBA. As that study showed, the same technology that is available today to achieve a level of exposure to 90 dBA for 92 percent of the workforce can also be applied to achieve a level of 85 dBA for the same number of workers, and that technology can be adequately supplied by the noise control industry. The cost of achieving the 85 dBA level is, of course, greater. However, EPA believes that many of BBN's estimates ($13.5 billion for 90 dBA, $18.1 billion more for 85 dBA) are too high. BBN's report (because of the short time given for it) includes cost data based wholly or in part on extrapolations from individual plants to whole industries, and from smaller industries to very large industries, which could also produce questionable figures. An example is the use of relative gross annual value of production to compare lumber finishing operations with saw mills, where the control requirements are not directly similar. In addition, it appears that estimates were not based on least cost methodology.[78] The final cost estimates do not take into account the combined use of administrative and engineering controls as allowed by the proposed standard, nor do they include the possibility of using in-house labor to achieve noise reduction.

Also, the estimates of economic impact do not consider as an offsetting savings the beneficial effect of new, quieter machinery on capital and labor productivity. Furthermore, alternatives such as those indicated in Part IV of this document can also favorably alter the cost impact. For these kinds of reasons, EPA suggested that a more thorough study of costs and benefits should be performed.

Even assuming, however, that these figures are correct, EPA believes that, in view of the need to reduce the standard ultimately to 75 dBA in order to protect the population adequately, requiring compliance with an 85 dBA standard within three years is a reasonable first step. The added protection is commensurate with even the BBN calculations of added cost. As shown in Tables III and IV, 8,120,000 more workers are protected at 85 dBA than at 90 dBA.

IV. Suggested Alternatives

EPA recognizes that, in the final analysis, it is OSHA that must perform the balancing of the cost, technology and health and welfare considerations. We believe, however, that for the reasons discussed above, the standards proposed and the justification given by OSHA fall short of protecting the health and welfare of workers to the extent required or to the extent that these values could feasibly be protected. Accordingly, EPA is asking that OSHA address in detail the specific points discussed above. If after doing so, the Secretary determines that an 85-dBA standard (and 3 dB time-intensity tradeoff) applicable to all industries after three years is not justified, the following regulatory alternatives should be considered. Because each of

See footnotes at end of document.

XUM

these approaches has been previously suggested to OSHA, and all have been rejected without explanation, the Administrator requests that the detailed response to this notice include a detailed discussion of the Secretary's findings as to whether any one or a combination of these approaches could feasibly be employed to more adequately protect the public health and welfare.

In considering alternatives, EPA would urge OSHA not to abandon its position that the use of hearing protectors and audiometric monitoring are merely supplementary measures. EPA approves of OSHA's inclusion of hearing conservation measures as an integral part of an occupational noise control program. EPA concurs with the approach traditionally held by OSHA that ear protective devices should be used as interim measures until such time as engineering or administrative controls can reduce noise exposure to safe levels. However, since ear protective devices are often improperly used or not used, EPA does not view such devices as a viable alternative to noise reduction at the source or the use of administrative controls. Moreover, there exist with the use of such devices, as with many other personal protective items, possible risks of increased safety hazards.

EPA believes that audiometric monitoring can be a valuable diagnostic tool, but it will not detect "any changes in hearing," and consequently prevent significant threshold shift as OSHA has stated in its preamble. Normal variability among subjects, audiometers and technicians will reduce the probability of detecting hearing losses before they become significant. Moreover, OSHA's definition of significant threshold shift would conceivably allow threshold shifts of up to 35 dB at a single frequency before the worker is appraised of his hearing loss. Even at that point, there are no remedial steps specified except for retraining in the use of ear protection. For these reasons, EPA concurs with OSHA that hearing protection devices and audiometric testing alone cannot be considered as an alternative method of achieving noise reduction.

1. *Industry-by-industry standards.* Bolt, Beranek and Newman pointed out in its feasibility study that a small portion of the American production industries is presently unable to comply with a 90-dBA 8-hour exposure standard with existing noise control technology.[7] In addition, some industries will experience the economic impact of compliance much more severely than others. Presumably for these reasons OSHA has chosen to issue extended compliance intervals for certain industries. Such an agreement is currently in effect with the American Can Company and EPA understands that agreements with other large companies are being negotiated. In addition, a multitude of abatement extensions are currently being granted on the local level. By granting different extensions to different industries OSHA has shown that industry-by-industry standards are administratively feasible, and in a sense, are being practiced. Setting a more stringent goal for all industries and then allowing different compliance schedules for different industries would be one method of approaching the problem. This method could have the advantage of immediate reductions to noise levels well below 90 dBA wherever such reductions are feasible. Reductions in some cases to levels as low as 75 dBA, would preclude even small amounts of threshold shift in most of the exposed population, and would greatly reduce the potential hazard of non-auditory effects.

2. *Incremental reductions.* This alternative is a variation of the plan mentioned above, where all industries would be required to comply with a certain exposure level within, for example, 5 years, and another level in another 5 years and so on until a truly safe level is achieved. It would be less complicated to administer than the industry-by-industry plan, but would not provide such immediate protection for workers employed in industries where abatement to low noise levels is readily achievable. In earlier drafts of OSHA's noise standard (Working Drafts I and II), reduction to 85 dBA in 5 years was specified. That provision has since been deleted. EPA strongly recommends that either the 5-year, or better, the 2-year provision be reinserted with serious consideration given to reducing to 80 dBA after another subsequent period.

3. *Stringent standard with variance provisions.* This alternative involves setting more stringent industry-wide standards, and allowing temporary variances for individual companies that are economically or technologically unable to comply. The agreement with the American Can Company has set clear precedent for the use of variances, even though the word "variance" has not been attributed to the agreement. The concept should be considered not only in terms of the present 90-dBA standard, but with respect to levels of 85 dBA and eventually to 80 dBA. It should, naturally, be viewed in terms of longer compliance periods for the lower levels, and for the companies that would experience the greatest economic and technical difficulties.

4. *Lower levels for new plants.* NIOSH has recommended that new plants be designed to meet an 85-dBA standard. This should be technologically feasible for nearly all industries, and the economic burden would be smaller than it would be for reducing exposures in existing plants. Requiring more stringent standards for new plants would stimulate the development of cost effective noise abatement technology and it would ease the burden of noise abatement requirements in the future.

Dated: December 5, 1974.

RUSSELL TRAIN,
Administrator,
Environmental Protection Agency.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

FOOD STAMP PROGRAM—USDA/FNS proposes regulations prohibiting firms authorized to redeem coupons to serve as issuance agents; comments by 1–20–75 43848

ANTIBIOTIC DRUGS—HEW/FDA revises minimum potency limit for nystatin; effective 12–19–74 43832

NEW ANIMAL DRUGS—HEW/FDA withdraws proposal for nomenclature changes in regulations for Mycoplasma gallisepticum infections in chickens; 43849

FOOD INGREDIENTS—HEW/FDA announces opportunity for public hearing on GRAS substances 43865

ENVIRONMENTAL POLICY—FCC adopts rules implementing act of 1969; effective 1–20–75 43834

AIRCRAFT NOISE—DOT/FAA limits increases resulting from design changes; effective 1–20–75 43830

TREASURY SECURITIES—Treasury invites bids on Series K–1976 notes 43856

MEETINGS—

DOT/CG: National Boating Safety Advisory Council, 1–8 and 1–9–75 43867

Flotation Sub-committee, 1–8–75 43867

National Foundation on the Arts and Humanities/National Endowment for the Arts: Federal Graphics Evaluation Advisory Panel, 1–16 and 1–17–75 43884

HEW/OE: National Advisory Council on Extension and Continuing Education, 1–9–75 43866

OMB: Business Advisory Council on Federal Reports, 1–9–75 43884

PART II:

CHILD ABUSE—HEW/Office of Child Development revises provisions of the Child Abuse and Neglect Prevention and Treatment Program 43935

PART III:

HOUSING ASSISTANCE PAYMENTS PROGRAM—HUD/Office of Low Rent Public Housing proposes "Fair Market Rents" and factors used for automatic annual adjustment of rents; comments by 1–3–75 43943

PART IV:

NATIONAL UTILITY FUEL OIL ALLOCATION—FEA issues supplier percentage notice for January, 1975 43975

December 19, 1974—Pages 43811–43992

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 331]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period December 20–26, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.631 Navel Orange Regulation 331.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges remains active. Prices f.o.b. averaged $3.69 per carton on a reported sales volume of 1,306 carlots last week, compared with an average f.o.b. price of $3.62 per carton and sales of 1,041 carlots a week earlier. Track and rolling supplies at 791 cars were up 212 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 17, 1974.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period December 20, 1974, through December 26, 1974, are hereby fixed as follows:

(i) District 1: 630,000 cartons;

(ii) District 2: Unlimited movement;

(iii) District 3: 70,000 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 18, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Commerce

Part 213 is amended to show that § 213.3114(d)(3) having expired by its own terms is revoked.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74-30857 Filed 12-18-74; 8:45 am]

PART 213—EXCEPTED SERVICE

National Foundation on the Arts and the Humanities

Section 213.3182 is amended to show that one position of Special Assistant to the Deputy Chairman for the Humanities, one position of Deputy Director, Division of Research Grants, and one position of Program Officer, Public Programs Division, are excepted under Schedule A until June 30, 1976. It is further amended to show that the Schedule A authority for one position of Special Assistant to the Chairman is revoked.

Effective on December 19, 1974, § 213.3182(b) is amended to read as set out below.

§ 213.3182 National Foundation on the Arts and the Humanities.

* * * * *

(b) [Revoked] * * *

(12) Until June 30, 1976, two Program Officers, Division of Public Programs.

* * * * *

(19) Until June 30, 1976, two Special Assistants to the Deputy Chairman.

* * * * *

DEC 19 1974 V 39 N 245 XUM

(24) Until June 30, 1976, one Program Officer/Deputy Director, Division of Research Grants.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74-29585 Filed 12-18-74;8:45 am]

PART 213—EXCEPTED SERVICE

National Foundation on the Arts and the Humanities

Section 213.3382 is amended to show that one position of Congressional Liaison Officer, National Endowment for the Arts, is excepted under Schedule C.

Effective on December 19, 1974, § 213.3382(h) is added as set out below.

§ 213.3382 National Foundation on the Arts and the Humanities.

* * * * *

(h) One Congressional Liaison Officer, National Endowment for the Arts.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74-29584 Filed 12-18-74;8:45 am]

PART 213—EXCEPTED SERVICE

Federal Energy Administration

Section 213.3388 is amended to show that one position of Special Assistant to the Assistant Administrator for Conservation and Environment is excepted under Schedule C.

Effective on December 19, 1974, § 213.3388(g)(2) is added as set out below.

§ 213.3388 Federal Energy Administration.

* * * * *

(g) *Office of the Assistant Administrator for Conservation and Environment.*

* * *

(2) One Special Assistant to the Assistant Administrator.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Allocation of Non-bonded Aviation Fuels to International Air Carriers

On August 8, 1974, the Federal Energy Administration issued a notice of proposed rulemaking and public hearing (39 FR 28863, August 9, 1974) to amend Subpart H of Part 211, the Mandatory Petroleum Allocation Regulations, proposing certain changes in supplier/purchaser relationships and allocation levels for aviation fuels. The proposed changes would also have altered the method of allocating non-bonded fuel to international air carriers. On August 21, 1974, FEA issued a notice which extended the comment period, rescheduled the public hearing and provided a further explanation of the proposed regulations (39 FR 30506, August 23, 1974).

Final regulations based on the August 8 notice were issued October 20, 1974 (39 FR 37968, October 24, 1974). In light of comments and testimony received in response to the notice of proposed rulemaking, however, FEA concluded that the method of allocating nonbonded fuel to international air carriers specified in § 211.146(c) should be retained, but that a further notice of proposed rulemaking should be issued with respect thereto because § 211.146(c) is difficult to apply in practice and in some cases produces unintended results.

A further notice of proposed rulemaking was therefore issued November 20, 1974 (39 FR 41183, November 25, 1974), proposing to modify § 211.146(c) in order to insure domestic and international air carriers access to non-bonded aviation fuel on an equitable basis. The further notice set forth a rather complex method of determining allocation of non-bonded fuel to international air carriers which involved a series of calculations which basically treated international air carriers' purchases of bonded fuel as if those purchases were subject to a supplier's allocation fraction.

Because of the complexity of the proposal, FEA also invited comments from interested parties on ways of improving the existing § 211.146(c) or on alternative methods of allocation. An alternative method was suggested by FEA whereby an international air carrier would still certify whenever it was unable to purchase sufficient bonded fuel at a price at or below its base period supplier's lawful price for non-bonded fuel, nominate an amount of non-bonded fuel which it would purchase, and subsequently certify to FEA that its total purchases of bonded and non-bonded fuel for that period did not exceed its base period use.

Comments on the proposed regulation were invited through December 6, 1974. Twenty-four comments were received. Those submitting comments included suppliers, domestic and international air carriers and trade associations. Opposition to the proposed rule was based on its complexity and corresponding susceptibility to error.

Several comments suggested a modification to the method of allocating non-bonded fuel to international air carriers which is simpler than the proposed rule and which the FEA believes is preferable to the present § 211.146(c). The modified method would substantially accomplish the goal of affording domestic and international air carriers access to non-bonded aviation fuels on an equitable basis. This approach has therefore been incorporated into a new § 211.146(c), which is hereby adopted, along with other conforming changes.

Under the new regulation, the definitions of "adjusted allocable supply" and "bonded fuel factor" have been deleted from § 211.142. Section 211.146(c)(1) has been revised to provide that international air carriers shall certify to their base period suppliers for a period corresponding to a base period rather than for each month that they are unable to obtain sufficient bonded fuel at prices which do not exceed their base period supplier's lawful prices for non-bonded fuel. Revised § 211.146(c)(2) provides that a base period supplier of bonded fuel must notify international air carriers upon request whether and in what amounts it will supply bonded fuel at its lawful price for its non-bonded fuel at a station for an entire period corresponding to a base period, rather than for a month.

Certifications are required by § 211.146(c)(3) to be filed with suppliers at least fifteen days prior to the beginning of the period corresponding to a base period to which the certification applies, except that for the period beginning January 1, 1975, certifications are to be filed by December 20, 1974. In its certification to a base period supplier an international air carrier must specify the volumes of bonded aviation fuels which can be obtained for the period from all sources and the volumes of bonded fuel which can be obtained from that supplier; the carrier's base period use for that period; the amount of the carrier's base period volume which was supplied by that supplier; whether the carrier can utilize naphtha-base jet fuel; and the amount of bonded fuel which the supplier is to subtract from that portion of the carrier's base period use supplied by the supplier in determining the amount of non-bonded fuel to supply the international air carrier. This latter amount will include the amount of bonded fuel which the international air carrier will obtain from the base period supplier, and should also include purchases of bonded fuel to be obtained from non-base period suppliers. An international air carrier which files certifications with more than one base period supplier may apportion its bonded fuel purchases from non-base period suppliers among its base period suppliers.

Revised § 211.146(c)(4)(i) provides that in calculating its allocation fraction for a period corresponding to a base period, a supplier which has received certifications from international air carriers must add to its allocable supply (the numerator of the fraction) an amount which represents amounts of bonded fuel which it will supply to international air carriers which have made certifications to the supplier and the additional amounts of bonded fuel which such carriers have advised the supplier to subtract from that portion of their base period uses supplied by that supplier. The supplier shall include in its supply obligation (the denominator of the fraction)

the portion of the international air carrier's base period use to be supplied by that supplier.

The resulting allocation fraction will be multiplied times each purchaser's allocation requirement, as defined in § 211.10(b)(2)(iii). With respect to an international air carrier, the supplier will supply an amount of non-bonded fuel determined by multiplying the international air carrier's allocation requirement times the supplier's allocation fraction less the amount of bonded fuel which it will supply the carrier during the period and other amounts of bonded fuel which the carrier has advised the supplier to subtract from its base period use supplied by the supplier. In certain situations, the amount of non-bonded fuel to be supplied an international air carrier could be a negative figure. In such cases, § 211.146(c)(4)(ii) specifies that the supplier shall allocate no non-bonded fuel to that carrier, and that the supplier should then recalculate its allocation fraction after excluding the carrier's allocation requirements from its supply obligation and any amounts of bonded fuel included in its allocable supply for that carrier.

Section 211.146(c)(4)(iii) specifies that an international air carrier may not accept an amount of non-bonded aviation fuel, except for surplus non-bonded fuel as provided by § 211.10(g), for a period corresponding to a base period, which when added to the bonded fuel available to it from all sources for that period would exceed the carrier's allocation requirement. In addition, under § 211.146(c)(4)(iv), a carrier which purchases more bonded fuel than it has certified was available to it during a period must file an amended certification reporting that fact, and the supplier is required to reduce the amount of non-bonded aviation fuel which would be allocated to the carrier in the current or a subsequent period.

The November 20 further notice of proposed rulemaking also stated that FEA was considering a requirement that international air carriers establish their base period use with FEA for each period corresponding to a base period, and that international air carriers certify to FEA at the end of each period corresponding to a base period that they had not lifted more non-bonded aviation fuel than is permitted by FEA's regulations. Accordingly, § 211.146(c)(6) provides that within twenty days after the end of each period corresponding to a base period, an international air carrier which files a certification under § 211.146(c) is required to certify to FEA in accordance with forms and instructions issued by FEA certain information, including the amount of surplus product purchased during the period pursuant to § 211.10(g), and the amounts of bonded and non-bonded fuels (other than § 211.10(g) purchases) obtained during the period. The carrier must also certify that its purchases of fuel other than surplus fuel did not exceed one hundred percent of its base period use for that period.

With respect to the requirement that international air carriers establish their base period use with FEA, a one time only report will be required of international air carriers pursuant to § 211.146(c)(7), which provides that no international air carrier will be allocated non-bonded fuel under § 211.146(c) for any period corresponding to a base period beginning after March 31, 1975 unless it has provided the information to FEA specified in § 211.146(c)(7).

(Emergency Petroleum Allocation Act of 1974, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, (39 FR 23185)).

In consideration of the foregoing, Part 211 of Chapter II, Title 10, Code of Federal Regulations, is amended as set forth below, effective immediately.

Issued in Washington, D.C., December 13, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

1. Section 211.141 is amended in paragraph (b) to read as follows:

§ 211.141 Scope.

* * * * *

(b) Bonded aviation fuels are excluded from allocation. Allocation of non-bonded fuels to international air carriers is provided for in § 211.146.

* * * * *

§ 211.142 [Amended]

2. Section 211.142 is amended by deleting the definitions of "Adjusted allocable supply" and "Bonded fuel factor."

3. Section 211.146 is revised in paragraph (c) to read as follows:

§ 211.146 Method of allocation.

* * * * *

(c)(1) For periods corresponding to a base period commencing after December 31, 1974, international air carriers which have traditionally used bonded aviation fuel for international flights shall be allocated non-bonded aviation fuels, including naphtha-base jet fuel, by their base period suppliers as provided by this paragraph. Upon certification by an international air carrier to its base period suppliers that the carrier is unable to purchase or obtain sufficient bonded aviation fuel for a period corresponding to a base period at prices which do not exceed the lawful price of its base period suppliers of bonded fuel for similar volumes of non-bonded aviation fuel at the desired location, the base period suppliers shall provide non-bonded aviation fuel, including naphtha-base jet fuel, to that carrier. Unless the international air carrier certifies that it cannot utilize naphtha-base jet fuel, the base period suppliers may to the extent of the carrier's capability to use such fuel allocate non-bonded naphtha-base jet fuel prior to allocating other non-bonded aviation fuels to the international air carrier. International air carriers which do not have base period suppliers or whose base period suppliers are unable to supply them currently with non-bonded aviation fuel shall apply to FEA for assignment of suppliers of non-bonded aviation fuels.

(2) For each period corresponding to a base period, each base period supplier of bonded fuel shall notify international air carriers, upon request, whether the supplier will provide bonded fuel at the supplier's lawful price for its non-bonded fuel at a station and in what amounts.

(3) An international air carrier which files a certification with a supplier under this paragraph shall provide such certification to its supplier at least fifteen (15) days prior to the beginning of the period corresponding to a base period to which the certification applies except that for the period corresponding to a base period beginning January 1, 1975, an international air carrier shall provide such certification by December 20, 1974. The certification shall specify:

(i) The volumes of bonded aviation fuel which can be obtained for the period from all sources;

(ii) The volumes of bonded aviation fuel which can be obtained from that supplier;

(iii) The international air carrier's base period use for that period;

(iv) The amount of the international air carrier's base period use to be supplied by that supplier;

(v) Whether and to what extent the international air carrier can use naphtha-base jet fuel; and

(vi) The amount of bonded fuel which the supplier is to subtract from that portion of the carrier's base period use to be supplied by the supplier in addition to the volume of bonded aviation fuel to be supplied by the supplier in determining the amount of non-bonded fuel the supplier is to supply to the carrier.

(4) Suppliers of non-bonded aviation fuel shall allocate supplies of non-bonded aviation fuel as follows:

(i) A supplier shall calculate its allocation fraction in accordance with § 211.10(b), except that for the purpose of calculating its fraction it shall add to its allocable supply an amount equal to the amounts of bonded fuel which the supplier will supply to an international air carrier which has made a certification pursuant to this paragraph and any other amounts of bonded fuel which a carrier has advised the supplier to subtract from that portion of the carrier's base period use to be supplied by the supplier in order that the carrier will comply with paragraph (c)(4)(iii) and (iv) of this section.

(ii) A supplier shall allocate its aviation fuel in accordance with § 211.10(c), except that with respect to an international air carrier, a supplier shall supply an amount equal to the portion the carrier's allocation requirement supplied by that supplier multiplied times the supplier's allocation fraction, minus an amount equal to the amounts of bonded fuel which the supplier will supply to the international air carrier and any other amounts of bonded fuel which the carrier advises the supplier to subtract from

that portion of the carrier's base period use to be supplied by the supplier in order that the carrier will comply with paragraph (c)(4)(iii) and (iv) of this section and which were included in allocable supply pursuant to paragraph (c)(4)(i) of this section. In the event that the amount to be supplied to an international air carrier as calculated under this subdivision (ii) is a negative amount, the supplier shall supply no non-bonded fuel to the international air carrier, but shall recalculate its allocation fraction in the manner specified in this clause excluding from its supply obligation that carrier's allocation requirement and from its allocable supply any amounts of bonded fuel included pursuant to paragraph (c)(4)(i) of this section for that carrier.

(iii) No international air carrier shall accept an amount of non-bonded aviation fuel except for non-bonded fuel purchased pursuant to § 211.10(g) for a period which corresponds to a base period which when added to the bonded aviation fuel available to that international air carrier from all sources for that period would exceed the volume of aviation fuel the international air carrier would receive if the carrier were to use only non-bonded aviation fuels to meet its base period use for that period. An international air carrier shall take into account purchases of bonded fuel from non-base period suppliers and report such purchases to its base period suppliers in order that the base period suppliers may allocate non-bonded fuel pursuant to this paragraph. The carrier may apportion the amounts of bonded fuel so reported among its base period suppliers in any amounts provided that the sum of all the amounts apportioned equals the total purchases of bonded fuel from non-base period suppliers.

(iv) If an international air carrier purchases or otherwise obtains a quantity of bonded aviation fuel for a period which corresponds to a base period regardless of price in addition to the amount of bonded fuel which it certifies is available to it for that period under this paragraph, the carrier shall immediately report such quantity to its supplier by filing an amended certification and its supplier shall reduce by such quantity the amount of non-bonded aviation fuel which would otherwise be allocated to that carrier in the current or a subsequent period which corresponds to a base period.

(5) None of the provisions of this paragraph shall affect existing contracts for the purchase of bonded aviation fuels.

(6) Within twenty (20) days after the end of each period corresponding to a base period, each international air carrier which files a certification under this paragraph shall certify to FEA in accordance with forms and instructions issued by FEA that it fully complied with paragraph (c)(6)(iii) and (iv) of this section for that period and provide such other information as is required including the following information:

(i) The amount of surplus aviation fuel purchased during the period by the carrier pursuant to § 211.10(g);

(ii) The amount of bonded fuel purchased during the period by the carrier;

(iii) The amount of non-bonded fuel purchased during the period by the carrier other than amounts purchased pursuant to § 211.10(g); and

(iv) A copy of any certification made by the carrier pursuant to paragraph (c)(3) of this section for that period.

(7) For each period corresponding to a base period beginning after March 31, 1975, no international air carrier shall accept non-bonded aviation fuel under this paragraph unless it has provided FEA with the following information by supplier for each period corresponding to a base period:

(i) The carrier's base period volume of bonded fuel;

(ii) The carrier's base period volume of non-bonded fuel;

(iii) The amounts of any adjustments to the carrier's base period use; and

(iv) The carrier's base period use.

[FR Doc.74-29499 Filed 12-16-74;12:10 pm]

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Special Rule No. 3 for Subpart C

On November 29, 1974, FEA issued the final rule for the allocation of old oil (39 FR 42246; December 4, 1974). Subsequent to the issuance of the rule, FEA has concluded that, in light of the special needs of many small refiners, an amendment is necessary to assist those small refiners that will be required to purchase entitlements under the program to adjust on a graduated basis to their entitlement purchase obligations. Accordingly, FEA is hereby adopting Special Rule No. 3 for Subpart C of Part 211 to be effective immediately.

The Emergency Petroleum Allocation Act requires FEA to give special consideration in promulgating a mandatory allocation program to the impact of such program on small and independent refiners. The final rule for the allocation of old oil published on December 4, 1974 will provide significant benefits to such refiners, since as a general rule they are disproportionately dependent on crude oil which is exempt from price controls. FEA's concern that the competitive viability of small refiners be maintained is also reflected in the bias included in the final rule. While FEA believes that the small refiner bias will be adequate to preserve the competitive viability of the vast majority of those refiners over the long run, FEA recognizes that immediate imposition of the full entitlement purchase requirements of the program might have a severe short-term economic impact on certain small refiners which have been running a higher percentage of old oil in their refineries than the national average.

In particular, many small refiners have recently had lower run levels than the industry average; phasing in the entitlement purchase requirements of the program as to small refiners will afford these refiners an interim period during which to bring their run levels back to more normal levels. FEA also realizes that serious cash flow problems will be posed for some small refiners that are required to purchase entitlements; this Special Rule will assist small refiners in arranging any necessary financing and in structuring their marketing operations with regard to compliance with the program. In addition, FEA expects that, at the outset of the program, changes may take place in the product prices of various refiners, depending on the impact of the program on each of them; delaying the impact of the program as to small refiners will permit these refiners to adjust their product prices so as to most effectively pass through their increased crude oil costs under the program. In so providing, FEA is aware that most small refiners will have more difficulty in passing through these increased costs, due to their limited product slate.

Therefore, for all small refiners that would otherwise be required to purchase entitlements under the program, the Special Rule provides specified relief from such requirements for the first 30,000 barrels per day of their daily average volume of crude oil runs to stills. This Special Rule applies to the months of November and December 1974, and January 1975. For small refiners having run levels under 30,000 barrels per day, no purchases of entitlements are required for November 1974. For December 1974 and January 1975, such small refiners will be required to purchase one-third (⅓) and two-thirds (⅔), respectively, of the entitlements they would otherwise be required to purchase under § 211.67(b). For small refiners with run levels in excess of 30,000 barrels per day, this Special Rule is applicable only to that number of entitlements which bears the same proportion to the total number of entitlements required to be purchased that 30,000 barrels per day bears to the average daily volume of crude oil runs to stills of that small refiner. For February 1975, and subsequent months, small refiners will be required to purchase the full number of entitlements in accordance with the final rule issued on December 4, 1974.

FEA also considers that, in a certain number of cases, some form of exception relief will be warranted for small refiners. FEA's Office of Exceptions and Appeals is already implementing an expedited exceptions process for the program. This Special Rule will further ensure that FEA has sufficient time to evaluate and process any exception requests from small refiners required to purchase entitlements prior to the point in time at which the program is fully effective as to such refiners.

This Special Rule is effective immediately because delay of its effectiveness

will result in small refiners being subject to the full impact of the entitlement purchase requirements before a rulemaking procedure could be completed and because this rule is not likely to have a substantial impact on the national economy or large numbers of individuals or businesses.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185).

In consideration of the foregoing, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective immediately.

Issued in Washington, D.C., December 16, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

The Appendix to Subpart C of Part 211 is amended by the addition of a Special Rule No. 3 to read as follows:

SPECIAL RULE NO. 3

1. *Scope.* This Special Rule provides for a reduction in the entitlement purchase requirements of § 211.67(b) for specified volumes of old oil included in the adjusted crude oil receipts of small refiners for the months of November and December 1974, and January 1975.

2. *Reduction in entitlement purchase requirements for small refiners.* (a) Each small refiner with a volume of crude oil runs to stills of less than 30,000 barrels per day in the month concerned, that would otherwise be required to purchase entitlements under § 211.67(b): (i) shall not be required to purchase any entitlements for the month of November 1974; (ii) shall not be required to purchase in excess of one-third (⅓) of the number of entitlements otherwise required to be purchased by that small refiner under § 211.67(b) for the month of December 1974; and (iii) shall not be required to purchase in excess of two-thirds (⅔) of the number of entitlements otherwise required to be purchased by that small refiner under § 211.67(b) for the month of January 1975.

(b) Each small refiner with a volume of crude oil runs to stills in excess of 30,000 barrels per day in the month concerned, that is required to purchase entitlements under § 211.67(b): (i) shall not be required to purchase a number of entitlements for the month of November 1974, which is in the same proportion to the total number of entitlements otherwise required to be purchased by that small refiner under § 211.67 (b) that 30,000 barrels per day is to the daily average volume of that small refiner's crude oil runs to stills for that month; (ii) shall not be required to purchase in excess of one-third (⅓) of that proportion (as calculated in (i) above) of the total number of entitlements otherwise required to be purchased under § 211.67(b) for the month of December 1974; and (iii) shall not be required to purchase in excess of two-thirds (⅔) of that proportion (as calculated in (i) above) of the total number of entitlements otherwise required to be purchased under § 211.67(b) for the month of January 1975.

3. *Adjustment to number of entitlements issuable to refiners and eligible firms.* The total number of entitlements exempted from the purchase requirements of § 211.67(b) pursuant to paragraph 2 of this special rule shall be deducted, on a pro-rata basis, from the number of entitlements otherwise issuable to and available for sale by each refiner and each eligible firm which has entitlements available for sale in the month concerned.

4. *Provisions of Subpart C.* The provisions of subpart C of part 211 shall remain in full force and effect except as expressly modified by the provisions of this special rule.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. G]

PART 207—SECURITIES CREDIT BY PERSONS OTHER THAN BANKS, BROKERS OR DEALERS

Extensions of Credit in Certain Stock Option and Stock Purchase Plans

This interpretation explains that certain stock option and employee stock purchase plans that contain freedom of cancellation provisions involve extensions of credit when the optionee/purchaser receives the right to obtain the stock at a fixed price and defers payment therefor.

207.109. Questions have been raised as to whether certain stock option and stock purchase plans involve extensions of credit subject to Regulation G when the participant is free to cancel his participation at any time prior to full payment, but in the event of cancellation the participant remains liable for damages. It thus appears that the participant has the opportunity to gain and bears the risk of loss from the time the transaction is executed and payment is deferred. In some cases brought to the Board's attention damages are related to the market price of the stock, but in others, there may be no such relationship. In either of these circumstances, it is the Board's view that such plans involve extensions of credit. Accordingly, where the security being purchased is a margin security and the credit is secured, directly or indirectly, by any margin security, the creditor must register and the credit must conform with either the regular margin requirements of § 207.1(c) or the special "plan-lender" provisions set forth in § 207.4(a) of the regulation, whichever is applicable. This assumes, of course, that the amount of credit extended is such that the creditor is subject to the registration requirements of § 207.1(a) of the regulation.

By order of the Board of Governors, December 2, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 2]

PART 101—ADMINISTRATION

Due to extensive reorganization within the Small Business Administration, Part 101—Administration is revised in its entirety to read as set forth below. This revision also includes new provisions for investigations under the Small Business Act (§101.8) and public participation in rulemaking (§ 101.9).

Effective Date: Upon publication in the Federal Register.

Dated December 10, 1974.

THOMAS S. KLEPPE,
Administrator.

Sec.

101.1 Purpose, function, general organization.
101.2 Organization and functions of the Central Office—Administrator.
101.2-1 General Counsel.
101.2-2 Associate Administrator for Operations.
101.2-3 Associate Administrator for Finance and Investment.
101.2-4 Associate Administrator for Procurement Assistance.
101.2-5 Assistant Administrator for Management Assistance.
101.2-6 Assistant Administrator for Administration.
101.2-7 Assistant Administrator for Congressional and Public Affairs.
101.2-8 Assistant Administrator for Advocacy, Planning, and Research.
101.2-9 Associate Administrator for Minority Small Business.
101.3 Organization and Functions of the Field Offices.
101.4 SBA Forms for Public Use.
101.5 Seal.
101.6 Litigation.
101.7 Employment of Fee Counsel.
101.8 Investigations: Small Business Act.
101.8-1 Application of the Rules of this Part.
101.8-2 Scope of Rules.
101.8-3 Authority of Officer Conducting Investigation.
101.8-4 Non-Public Formal Investigation Proceedings.
101.8-5 Right to Copy of Data or Transcript of Testimony.
101.8-6 Counsel for Witnesses in Investigations.
101.8-7 Suspension or Disbarment of Counsel.
101.8-8 Information Obtained in Investigations.
101.8-9 Service of Subpoena.
101.8-10 Witness Fees.
101.9 Public Participation in Rulemaking.

AUTHORITY: Sections 4 and 5, Public Law 85-536, 72 Stat. 384 and 385 (15 U.S.C. 633 and 634, as amended); Section 308, Public Law 85-699, 72 Stat. 694 (15 U.S.C. 687, as amended); 5(b)(11) Public Law 93-386 (Aug. 23, 1974); and 5 U.S.C. 552.

§ 101.1 Purpose, function, general organization.

(a) *Purpose.* To aid, counsel, assist, and protect the interests of small business concerns and to help victims of disaster.

(b) *Functions.*—(1) *Procurement assistance.* To insure that a fair proportion of the total Government purchases and contracts or subcontracts for property and services for the Government be placed with small business enterprises by, among other things, certifying as to

XUM
DEC 19 1974 V 39 N 245
XUM

the competency of small business concerns to perform such contracts, or subletting contracts to small business concerns on which the Agency is prime contractor; to insure that a fair proportion of the total sales of Government property be made to small business enterprises; and to assure that small businesses obtain the benefit of Government sponsored research and development.

(2) *Management and technical assistance.* To improve the management skills of owners, potential owners, and managers of small business concerns with direct action programs and through established channels of business relations; to provide technical and product assistance to small business concerns; and to inventory productive facilities of small business concerns.

(3) *Financial assistance.* To make loans to small business concerns and to victims of floods or other catastrophes, including loans to small business concerns suffering economic injury as a result of displacement by Federal construction, inability to process products for human consumption because of undetermined disease, and need to make changes in facilities or methods of operation because of various Federal laws imposing safety and health requirements; to make direct or bank participation loans on the basis of certifications made by the Secretary of Commerce to assist firms, large and small, to adjust to changed economic conditions resulting from increased competition from imported articles; and to make loans to State and local development companies for purpose of assisting small business concerns.

(4) *Guaranteeing leases and bonds.* To guarantee the payment of rentals under leases entered into by business concerns, and also to guarantee sureties of small businesses against portions of losses resulting from the breach of bid, payment, or performance bonds.

(5) *Small business investment companies.* To provide venture capital in the form of equity financing and long-term loan funds to small business concerns and provide advisory services to such concerns through small business concerns and provide advisory services to such concerns through small business investment companies; to license small business investment companies, regulate the operations of such companies, and purchase or guarantee the purchase of debentures from small business investment companies to supplement their capital requirements for the financing of small business concerns.

(6) *Advocacy of small business interests.* To protect the interests of small businesses as they may be adversely affected by activities of other Federal agencies.

(7) *Further functional description.* The more detailed program functions of the Agency are set forth in other sections of this part and other parts of this chapter.

(c) *General organization.* (1) Management of the Small Business Administration is vested in an Administrator appointed by the President with the advice and consent of the Senate. The Administrator is authorized to appoint three associate administrators under the Small Business Act and one associate administrator under the Small Business Investment Act. The Administrator is authorized to appoint a Deputy Administrator who shall be Acting Administrator of the Administration during the absence or disability of the Administrator or in the event of a vacancy in the Office of the Administrator. The Administrator is authorized, subject to the Civil Service and Classification Laws, to select, employ, appoint, and fix the compensation of such officers, employees, attorneys, and agents as shall be necessary to carry out the provisions of the Small Business Act and the Small Business Investment Act.

(2) The headquarters of the Small Business Administration is located at 1441 L Street NW., Washington, DC 20416.

(d) *Applicable law.* (1) Loans made by SBA are authorized and executed pursuant to Federal programs adopted by Congress to achieve national purposes of the U.S. Government.

(2) Instruments evidencing a loan, obligation of security interest in real or personal property payable to or held by the Administration or the Administrator, such as promissory notes, bonds, guaranty agreements, mortgages, deeds of trust, and other evidences of debt or security shall be construed and enforced in accordance with applicable Federal law.

(3) In order to implement and facilitate these Federal loan programs, the application of local procedures, especially for recordation and notification purposes, may be utilized to the fullest extent feasible and practicable. However, the use of local procedures shall not be deemed or construed to be any waiver by SBA of any Federal immunity from any local control, penalty, or liability.

(4) Any person, corporation, or organization that applies for and receives any benefit or assistance from SBA, or that offers any assurance or security upon which SBA relies for the granting of such benefit or assistance, shall not be entitled to claim or assert any local immunity to defeat the obligation such party incurred in obtaining or assuring such Federal benefit or assistance.

§ 101.2 Organization and functions of the Central Office-Administrator.

All offices heading §§ 101.2 through 101.2–8 are located in Washington, D.C., and their heads report directly to the Administrator. The Administrator is responsible to the President and Congress for exercising direction, authority, and control over the Small Business Administration. He determines and approves all policies covering the Agency's programs to aid, counsel, assist, and protect the interests of the Nation's small business concerns. He delegates responsibility and authority, except the authority to approve or disapprove: Pool loans; Applied research programs; and Defense production pools, as set forth in sections 7(a)(6), 9(d), and 11 of the Small Business Act, to the Deputy Administrator, associate administrators, and other Central Office officials reporting directly to him. He consults with Federal, state, and local agencies in behalf of small business interests in the national economy. He reports to the President and Congress on Agency program accomplishments and problems. He maintains as a responsibility of his office the activities related to equal employment opportunity within SBA, advisory councils, and formal review of size appeals cases. He periodically evaluates the performance, accomplishments, short-range, and long-range planning goals of the Central Office officials reporting directly to him.

(a) *National Advisory Council—Small Business Administration.* The National Advisory Council of the Small Business Administration is composed of representatives from each of the District Advisory Councils and Members-at-Large from each of the Agency regions. These representatives are persons actively engaged in small business or finance, or in services or professions related to small business including the fields of labor, law, accounting, insurance, education, real estate, and the news media. These members particularly qualified by their knowledge of and interest in small business are able to contribute substantially to the Agency and the small business community. All members are selected by the Administrator and serve at his pleasure without compensation. The council meets with and advises the Administrator on the development, execution, and evaluation of present or proposed SBA programs. All functions are purely advisory and all determinations of actions to be taken are made solely by the responsible SBA officials.

(b) *Office of Equal Employment Opportunity and Compliance.* The Director, Office of Equal Employment Opportunity and Compliance (EEOC), serves as a special assistant to the Administrator and as his principal advisor on Agency civil rights policies. The Office of EEOC develops and recommends policies concerning the equal employment opportunity and compliance (EEOC) program and develops plans, operating procedures, and standards to effectively strengthen and improve the Agency's civil rights, equal employment opportunity, and compliance programs and activities. Develops program goals and objectives within the framework of approved policies and reviews and evaluates program effectiveness. Serves as principal liaison with other Federal agencies and non-Federal organizations concerned with civil rights and also serves as the Agency's equal employment officer; civil rights coordinator; and compliance officer. Directs, coordinates, and administers compliance programs and activities executed by Central Office staff and provides advice, assistance, and support to the Administrator in relation to the EEOC program.

§ 101.2–1 General Counsel.

Develops plans, procedures, and standards for providing legal services in support of SBA program operations, includ-

ing execution of loan closing and litigation activities by Agency counsel. Develops and recommends policies governing, the Agency legal functions and activities and develops program goals and objectives within the framework of approved policies. Reviews and evaluates legal program effectiveness including onsite visits to evaluate field office performance and analyzes and interprets legislation, regulations, and orders relating to the operation of the Small Business Administration. Advises the Administrator, Deputy Administrator, Associate and Assistant Administrators and other key officials on the legal aspects of the development and execution of policies and programs. Negotiates with Federal agencies as to the legal aspects of matters pertaining to the responsibilities of SBA and drafts resultant agreements. Develops legal theories incorporated in requests to the Comptroller General or to other Federal agencies for decisions in matters of interest to small business. Provides legal counsel, advice, and assistance to Agency officials in connection with the financial, investment, administrative, technical, procurement and management assistance, and minority enterprise programs, and in the formation of defense production and research and development pools. Within approved policies, gives direct legal advice and assistance to the field offices and exercises technical supervisory responsibility with respect to legal functions in the field offices. Also, advises with respect to eligibility of applicants for assistance from SBA and advises with respect to servicing and liquidation of loans. He assists and participates with the Department of Justice in litigation arising from delinquent loans, criminal matters, and other SBA program activities and prosecutes administrative proceedings pursuant to the Small Business Investment Act. He reviews legislative proposals affecting small business and develops recommendations for the Office of Management and Budget and congressional committees; prepares legislative proposals relating to SBA; and develops reports for congressional hearings or the Office of the President. Serves as legal adviser to the Size Appeals Board. He maintains liaison with governmental and other agencies having activities related to the legal functions of the Agency.

(a) *Office of Finance.* Develops plans, procedures, and standards for the provision of all legal services and assistance relating to the Agency's financial assistance, including wisaster assistance, economic development, and small business investment company programs; including the closing and disbursing of SBA and HUD loans; closing of EDA approved loans, when authorized, but excluding liquidation and litigative matters. Develops and recommends policies concerning the legal finance program. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Provides legal counsel, assistance, services, and support to the Associate Administrator for Operations and the Associate Administrator for Finance and Investment and other Central Office officials in connection with the financial assistance, lease guarantee, and surety bond, economic development, and SBIC programs, exclusive of liquidation and litigative matters. Within approved policies, gives direct legal advice and assistance to the field offices within these program areas. Interprets applicable acts, regulations, and policies from a legal standpoint, including advice as to eligibility and compliance with statutory and regulatory requirements. Analyzes and comments on proposed legislation, policies, programs, and procedures relating to the financial assistance, disaster assistance, lease guarantee, surety bond, economic development, and SBIC programs, exclusive of liquidation and litigative matters. Maintains liaison with governmental and other agencies having activities related to the legal functions of this office.

(b) *Office of Interagency Affairs.* Develops policies concerning the legal aspects of the SBA advocacy program. Represents SBA at hearings and court proceedings involving the Agency's advocacy program. Develops plans, procedures, and standards for the provision of legal advice, assistance, services, and support relating to:

(1) Procurement and management assistance; sections 8(a) and 406 contracts and grants.

(2) Size standards; size appeals.

(3) Small business defense production; research and development pools.

(4) Adminstrative functions, including fiscal, personnel, property management; contracts for the procurement of supplies and services.

(5) Ad hoc committee matters; equal employment opportunity; advisory council; planning, research and analysis; congressional and public affairs; minority enterprise; franchising.

(6) Implementation of the requirements of the Civil Rights Act of 1964.

(7) Employee organization-management program; negotiation of agreements.

Develops program goals and objectives in conformance with approved policy. Reviews and evaluates program effectiveness. Provides legal counsel to small business concerns in their dealings with Federal procurement officials. Interprets applicable acts, regulations, and policies from a legal standpoint, including determinations as to eligibility and compliance with statutory and regulatory requirements. Interprets the Administrative Procedure Act, except with respect to the Small Business Investment Act. Provides legal counsel, assistance, services, and support to Central Office officials relating to the above-listed programs. Within approved policies, gives direct legal advice and assistance to the field offices on program matters. Maintains liaison with the Federal Trade Commission and the Antitrust Division of the Department of Justice.

(c) *Office of Litigation.* Develops plans, procedures, and standards for the conduct of litigation activities of the Small Business Administration. Develops and recommends policies concerning the litigation program. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates litigation program effectiveness. Advises the Administrator and key program officials with respect to all legal action necessary in litigative matters pending in the Agency, and provides legal services, as required. Acts as liaison with the Department of Justice in all civil litigation and criminal matters. Prepares cases for submission to the Department of Justice, with recommendations for litigation or prosecution; obtains and evaluates evidence; assists in the trial of cases whenever necessary or requested; and recommends review or appeal of adverse decisions. Conducts legal research, prepares pleadings, and conducts litigation and other legal proceedings with respect to revocation of SBIC licenses, subpoena enforcement, injunctions and receivers, removal or suspension of directors and officers of licensees, and violations of SBIC regulations. Conducts all administrative hearings required to enforce compliance with the provisions of the SBI Act, policies and regulations, including preparation of necessary pleadings. Advises the Administrator, Associate Administrator for Operations, and the Associate Administrator for Finance and Investment, and other Central Office officials on problems involving subpoenas served upon SBA employees disclosure of information. Reviews and evaluates matters pertaining to security checks referred by the Security and Investigations Division. Advises and assists the Office of Audits and Investigations in all matters involving possible criminal activities by borrowers and others. Prepares and conducts any Agency disbarment proceedings which may be instituted as the result of improper activity by representatives of borrowers and SBIC's. Conducts final legal review of all Boards of Survey Reports and recommendations on claims under the Federal Tort Claims Act in the denial or allowance of claims in unlimited amounts. Provides advice, assistance, and support to the Associate Administrator for Operations in connection with field litigation activities. Within approved policies, gives direct advice and assistance to field offices on litigation program matters. Serves as member of the Central Office Claims Review Committee.

§ 101.2–2 Associate Administrator for Operations.

Plans, directs, and administers all regional and direct office operations, including disaster operations. Serves as the focal point of contact between the Central Office and the regional directors. Receives and evaluates input from the field on aspects of SBA's programs and policies as they affect SBA's performance in the regions and districts, and coordinates with Central Office program and staff personnel to effect such revisions as may be appropriate. Plans, arranges, and par-

XUM
DEC 19 1974 V39 N245
XUM

ticipates in periodic high-level conferences between key Central and field office officials on matters involving program or policy issues. Reviews and evaluates regional and district office operations in management and program areas. Initiates corrective actions when required. Formulates a system of goals, policies, procedures, and regulations for regional management that reflects and implements the basic objectives and goals of the Agency. Has final responsibility for setting goals and objectives. Reviews the priorities, objectives, and program targets established by program staff offices. Recommends the ordering of integrated priorities, consistent with national goals. Defines lines of authority and responsibility of regional directors and coordinates their efforts for attainment of predetermined objectives. Provides advice and guidance to field staff in implementing Agency goals and objectives and in problem solutions in specific operational areas. Analyzes reports involving field visits by Central Office technicians and ensures that corrective action is taken on any problems outlined therein. Reviews and analyzes regional reports and data from the Management Information Summary to provide Agency top management with an overview of progress or lack thereof toward goal attainment and directs that corrective action is taken in case of the latter. Develops and implements a system of periodic onsite reviews of regional and district office operations. This will involve the selection of staff members of appropriate program and staff functions to comprise an Agency team to accomplish a total management analysis of activity and to take or recommend corrective actions. Participates in the development of a Management Information System as related to field office operations. Formulates and gathers data for input into the Agency's measurement of production in all program elements, and to provide regional management with key indicators of strengths and weaknesses. Develops and maintains basic data in profile form of all regional and district offices for use by Central Office staff. Areas to be included are:

(a) Personnel resources allotted and use thereof.

(b) Management reviews and problems encountered.

(c) Annual program targets and accomplishments, and

(d) Operating budget data.

Participates in the development, review, and correction of systems to assure adequate management information and control at both Central and field office levels. Participates in the development and implementation of a continuing program of field management development and training. Develops adequate controls over field activities and evaluates and appraises regional management to ascertain whether plans and objectives are being achieved. Plans, directs and administers the Agency's disaster operations through contingency planning, administration during the disaster, and disaster maintenance. Recommends physical and product disaster declarations to the Administrator. Maintains liaison with other government agencies and individual Congressmen and committee staff members relating to the disaster program. Serves as a member of the Size Appeals Board.

(a) *Disaster Operations Staff.* Plans, directs, and administers the Agency's disaster operations program for all disasters. Directs the execution of disaster operations through contingency planning, and assures that regional offices effectively carry out disaster loan activities. Analyses reports of product disaster information and physical disaster damage from field office and other sources and recommends disaster declarations to the Administrator through the AA/O. Maintains necessary liaison and coordination with Federal, state, and local governments, as well as with private organizations and SBA Central Office officials, maintains, and disseminates up-to-date handbooks, guides, flow charts, and standard operating procedures to reflect past knowledge and experience, and assure increased efficiency of new disaster offices when open. Maintains a roster of SBA personnel in a constant state of readiness to move to the site of a disaster to establish required disaster offices. Monitors and provides advice, guidance, and assistance to regional and district offices in connection with all disaster operations, including the establishment and operation of disaster offices.

§ 101.2–3 Associate Administrator for Finance and Investment.

Develops plans, operating procedures, and standards to effectively strengthen and improve the Agency's finance and investment programs designed to meet the existing and potential needs of the small business community. Develops and recommends policies concerning the financial assistance programs, including related activities of liquidation and disposal. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Promotes the financial assistance program nationwide, enlisting support and participation by private sector financial and investment institutions, States, counties, and municipalities, to broaden the range of assistance to small business concerns. Plans, directs, and administers the small business investment company program, including licensing, lending, and regulations to effectively strengthen and improve the Agency's programs of venture capital assistance to small businesses. Promotes nationwide the investment program to maximize the direct involvement of private business and financial institutions in the provision of equity and long-term financing of small business concerns. Provides technical advice, assistance, and support to the Associate Administrator for Operations relating to finance and investment program matters. Directs and administers the Small Business Investment Company examination program and the Portfolio Review program. Represents the Administrator in negotiations with other Government agencies whose activities relate to his program area. Serves as a member of the Size Appeals Board.

(a) *Office of Financing.* Plans, develops, and executes new loan programs. Reviews proposed and new financial legislation. Makes final determinations of loan eligibility on complex cases submitted by regional directors. Maintains liaison with other Federal, state, and local agencies whose activities relate to the financing programs of SBA. Develops and recommends policies, criteria, guidelines, and standards for all SBA lending except 501, 502, and SBIC as well as the financial aspects of the Certificate of Competency Program (COC) and 8(a) business plans. Serves as a member of the COC Review Committee which takes or recommends final action on requests for compromise settlements of obligations due SBA, and as an alternate member of the Size Appeals Board. Approves or declines business and disaster loans, and conducts review of selected disaster loans. In cooperation with the Associate Administrator for Finance and Investment, evaluates lending programs and takes corrective action. Makes final visits as necessary. Provides technical advice, assistance, and support to the Associate Administrator for Finance and Investment relating to his program area. Develops goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Provides assistance in developing and conducting training programs for field financing personnel.

(b) *Office of Portfolio Management.* Develops and recommends Agencywide policy for the administration of the Agency's portfolio of loans, lease guarantees, the financial aspects of Certificates of Competency and 8(a) contracts, including loan servicing, and loan liquidation and disposal activities. Develops plans, operating procedures, standards, goals, and objectives for (1) the servicing and/or liquidation of these accounts, including nonjudicial foreclosure but exclusive of litigative matters; (2) the liquidation of rehabilitation loans for HUD and Economic Development Administration loans for the Department of Commerce; and (3) the liquidation of Small Business Investment Companies and loans to small business acquired and retained as a result of Small Business Investment Company liquidation. Reviews and evaluates program effectiveness. Maintains liaison, participates, and provides technical advice with and to all other Government agencies and departments within SBA on matters relating to portfolio management activities. Serves as chairman, Central Office Claims Review, and as vice-chairman of the Small Business Investment Company Liquidation Determination Board. Coordinates with the Comptroller of the Currency to provide field offices with National Bank Examiner reports on SBA-guaranteed loans serviced by National banks.

(c) *Office of Community Development.* Develops and recommends to Associate Administrator for Finance and Invest-

ment Agency policy concerning the community development programs of the Small Business Administration, including State and local Development Company programs, Lease Guarantees, and Surety Bond Guarantees. Develops plans, operating procedures, and standards to effectively strengthen and improve the Agency's programs involving community development counseling, the processing of state development company and local development company loans, processing of applications for lease guarantee and surety bond guarantee. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Maintains liaison with state and local development companies and other governmental and nongovernmental agencies having programs relating to these activities. Maintains continuing liaison with the insurance industry, and particularly with the surety bond underwriters and associations of agencies or brokers, for the purpose of keeping them informed as to policy and procedures in both the lease guarantee and surety bond guarantee programs. Also works closely with these groups in order to promote the programs in a way to meet the needs of the maximum number of small business concerns. Provides advice, assistance, and support to the Associate Administrator for Finance and Investment relating to the community development programs of SBA, including the making and/or reviewing of legislative recommendations relative to all community development matters. Develops criteria for management of investment portfolio of lease guarantee revolving fund.

(d) *Deputy Associate Administrator for Investment (Investment division).* Plans, directs, coordinates, and administers the Agency's program for licensing Small Business Investment Companies to operate under the provisions of the Small Business Investment Act, as amended. Develops and recommends policies and established procedures governing the investment program. Recommends changes in legislation and regulations governing the program and program activities. Takes final action on all transactions contemplated by the Small Business Investment Act or the SBA regulations. This includes the issuance of licenses to small business investment companies (SBIC's); the purchase of debentures from Small Business Investment Companies and 301(d) licensees or guarantees thereof; and conversion of existing direct loan notes to debentures; the repurchase of subordinated debentures and direct loan notes from the holders; and the purchase of preferred stock from 301(d) licensees. Determines actions required to protect SBA's credit position in connection with such transactions; also, defines courses of action to be followed in cases of noncompliance with the act or regulations. When indicated, requests investigations and appropriate legal action. Takes final action on all requests and applications submitted by licensees for prior SBA approval of transactions requiring such approval under the regulations; i.e., changes in control, changes in capital structure, mergers, dissolutions, and surrenders of licenses; approval of officers, directors, and 10 percent or more stockholders in connection with actions involving change of control. Also determines that surviving company meets the prescribed licensing standards. Provides counseling with respect to an interpretation of established policies and regulations; also provides information relating to licensed Small Business Investment Companies. Develops and implements a system of accounts for the Small Business Investment Companies and approves investment companies' selections of independent public accountants. Promotes and stimulates the involvement of key business enterprises in the investment program. Coordinates with SBA and other Government agency officials in directing these efforts toward those businesses owned, or to be owned, by the socially or economically disadvantaged. Serves as liaison for the Associate Administrator with other organizational segments of SBA, other Government agencies, financial and industrial organizations, trade associations, and similar groups in relation to program activities.

(e) *Office of Investment Management and Evaluation.* Develops and recommends policies and regulations to improve the operations of Small Business Investment Companies for the benefit of small Business. Conducts research studies, with emphasis on the growth, stabilization and financing of the Small Business Investment Company industry. Also participates with the Office of the Assistant Administrator for Advocacy, Planning, and Research in connection with economic studies involving the investment program. Prepares investment program goals and missions and develops the planning, programming and budgeting data reflecting short-range and long-range objectives of the investment program. Develops and establishes procedures and instructions to Small Business Investment Companies for reporting program evaluation data on portfolio small business concerns. Analyzes financial and economic statistical data furnished by licensees and small business concerns on financial reports, portfolio financing reports, program evaluation reports, and sample survey questionnaires, and provides information on the effectiveness of the Small Business Investment Company industry to management. Provides technical information to the program coordinators in the field relative to the formation and licensing of Small Business Investment Companies. Coordinates with other offices of the Agency in the preparation of all technical information and material released to the public on the investment program. Provides Small Business Investment Companies, and other interested groups with new technical information on the industry and publishes the Guide to the Regulations and Policy and Procedural Releases. Services as technical liaison with the Securities and Exchange Commission on all matters relating to the investment program and the Federal Securities Laws. Provides aggregate debt management support for outstanding direct and guaranteed loans and debentures of SBIC's and coordinates and expedites the periodic public sale of SBA guaranteed SBIC debentures for SBIC's including intra-agency and inter-agency liaison where required and liaison with potential purchasers. Participates in the implementation of periodic SBA guaranty fundings for SBIC's by providing detailed analysis on the method and timing of funding as related to bond market conditions. Prepares SBIC information required for Congressional hearings and other matters relating to Congressional inquiries. Designs, develops, and implements ongoing sample surveys of the small business portfolio concerns of SBIC's. Provides technical liaison with the Reports Management Division and the Data Management Division on computer applications for SBIC and small business concern statistics and reports.

(f) *Office of Small Business Investment Company Operations.* Provides licensing and operational assistance and service to the Small Business Investment Companies. Plans, administers, and coordinates the program for licensing Small Business Investment Companies to operate under the provisions of the Small Business Investment Act of 1958, as amended. Recommends action on license applications filed under the act and regulations, including the review of security information reports. Implements procedures for the licensing, funding, and regulating of Small Business Investment Companies. Provides counseling with respect to and interpretation of the act and established regulations; answers specific official inquiries and provides information relating to licensed Small Business Investment Companies. Reviews and recommends the action to be taken for the approval of officers, directors, and 10 percent or more stockholders in connection with actions involving change of control of a licensee. Also determines that surviving company meets the prescribed licensing standards. Conducts the analysis of all financial statements, examination and investigation reports covering the operations and practices of the individual Small Business Investment Companies. Evaluates the financial stability, reliability of the companies, and compliance with the act and regulations. Recommends to the Deputy Associate Administrator actions to assure compliance. Recommends the levels of reserves for losses in connection with outstanding loans and debentures of operating licensees. Recommends appropriate action on all requests and applications submitted by Small Business Investment Companies for prior SBA approval of transactions requiring such approval under the regulations, including applications for funding. As required, provides testimony as an expert witness in administrative proceedings or court proceedings involving Small Business Investment Companies.

(g) *Office of 301(d) Operations.* Provides licensing and operational assistance and service to section 301(d) licensees. Plans, administers, and coordinates the program for licensing to oper-

XUM
V 39 I 245 DEC 19 1974 V
XUM

ate under the provisions of the Small Business Investment Act of 1958, as amended. Recommends action on proposals and license applications filed under the act and regulations, including the review of security information reports. Implements procedures for the licensing, funding, and regulating of section 301(d) licensees. Provides counseling with respect to and interpretation of the act and established regulations; answers specific official inquiries and provides information relating to licensed section 301(d) licensees. Reviews and recommends the action to be taken for the approval of officers, directors, and 10 percent or more stockholders in connection with actions involving changes of control of a licensee. Also, determines that surviving company meets the prescribed licensing standards. Conducts the analysis of all financial statements, examination and investigation reports covering the operations and practices of the individual section 301(d) licensees. Evaluates the financial stability, reliability of the companies, and compliance with the act and regulations. Recommends to the Deputy Associate Administrator actions to assure compliance. Recommends the levels of reserves for losses in connection with outstanding loans and debentures of operating licensees. Recommends appropriate action on all requests and applications submitted by section 301(d) licensees for prior SBA approval of transactions requiring such approval under the regulations, including applications for funding. As required, provides testimony as an expert witness in administrative proceedings or court proceedings involving section 301(d) licensees.

(h) *Office of Small Business Investment Company Examinations.* Plans, directs, and executes Agencywide annual examination program relating to Small Business Investment Companies licensed under the Small Business Investment Act. Develops and recommends policies and establishes standards and procedures governing the examination program, and develops program goals and objectives within the framework of approved policies. Schedules and maintains control over all examinations conducted on a nationwide basis. Issues reports to Agency officials on the results of on-site examinations which contain the actual or potential violations of the Small Business Investment Act and regulations. Develops and reports facts and evidence to support corrective actions, administrative proceedings, recommendations for legal action, and makes recommendations for investigations when considered appropriate. Maintains liaison with SEC, FDIC, Comptroller of the Currency, GAO, Home Loan Bank Board, and other agencies where matters are of mutual interest or in matters affecting the examination program.

(i) *Office of program development.* Assists the Associate Administrator for Finance and Investment in all outreach activity in connection with the promotion and development of Agency financial assistance and investment activity. Coordinates the efforts of the financial institutions, community liaisons, and Small Business Investment Company promotional functions. Directs the promotion and development nationwide of Agency policy governing participation by private sector financial and investment institutions in the SBA programs of financial assistance and investment. Maintains continuing liaison and personal contact with top representatives of banking, insurance, institutional investor, and other financial institutions and associations to promote their participation in guaranty and participation financial assistance programs of the Agency, to include the development of a secondary market in the SBA guaranteed portions of SBA loans. Represents the Associate Administrator for Finance and Investment at meetings or conventions of banking, insurance, investment, or other groups constituting sources of direct or indirect funding or financial participation in loans for small business. Coordinates conference activities in connection with community development workshops, lease guarantee, and surety bond seminars. Works with field offices in preparation of agenda, conference notes, and related material. Plans and recommends education and training programs to encourage community leadership. Works with participating colleges and other educational institutions in developing new techniques and advances concepts in community planning. Develops methods which can be used by community planning groups to take maximum advantage of human and natural resources as a means of stimulating rural economies and curtailing outmigration. Maintains liaison with USDA, Departments of Commerce, Housing and Urban Development, Interior, and other Government agencies. Serves as Agency representative on the Interagency Economic Adjustment Committee, CSTE Task Force, Model City WIC Review, and other capacities as designated. Counsels with interested groups or individuals concerning the possible formation and licensing of Small Business Investment Companies and to promote the growth and development of the programs. Serves as liaison with other Government agencies, financial and industrial organizations, trade associations, and similar groups to keep such organizations informed of the investment programs. Coordinates with the Office of Public Information in the preparation of all promotional material released to the public on the investment program and preparation of the Small Business Investment Company Digest. Develops, fosters, and stimulates interest and participation nationwide in SBA programs involving the banking-investment industry and state and local governments. Promotes with state, county, and municipal officials plans for the use of public sources of funds in SBA loan programs. In cooperation with financing and legal staff, works with public officials to establish enabling policies and legislation. Negotiates basic agreements with financial institutions at the national level. Develops plans and operating procedures to effectively strengthen and support the efforts of field bank relations officers and other field financing personnel participating in this program to meet the expanding needs of the small business community. Coordinates activities in which field bank relations officers may be helpful in developing sources of funds for community development projects. Supervises preparation of Bank Newsletter. Prepares articles and speeches for the Associate Administrator for Finance and Investment. Conducts followup with private sector financial community officials in generating direct and indirect sources of funding for SBA financial assistance programs. Serves as secretary and processes applications to the Lending Institution Certification Committee, which determines the eligibility of nonbank lending institutions. Reviews publications and other materials revealing current trends in economic development, and disseminates excerpted material to Central Office program personnel.

(j) *Office of Portfolio Review.* Plans, directs, and executes a system of program assistance for Central Office management to provide quality control and uniformity in the application of Financial Assistance policies and the procedures that reflect the basic objectives and goals of the Agency. Develops procedures for detailed loan analysis to determine the quality of credit judgments exercised by field offices under their delegation of authority, and establishes standards to control quality in the performance of the loan analysis. Makes an indepth analysis of selected Financial Assistance loans, particularly those which reflect a high proportion of Agency investment or risk, i.e., very large loans, past due and delinquent loans, deferments, loans purchased or in liquidation, and charged off accounts. Pinpoints deficiencies in policy application, Financial Assistance procedures, credit or eligibility criteria, and standards. Where appropriate, causes immediate corrective action to be taken by the appropriate regional or district director concerning specific deviations from stated Agency policy. Submits a report of findings and recommendations to the Associate Administrator for Finance and Investment for transmittal to the appropriate reginal or district director for corrective action indicated, and to Office of Financial Assistance program directors for use in improvement of the Financial Assistance program. At the direction of the Associate Administrator for Finance and Investment, performs specific reviews of particular problems in a Financial Assistance function, as requested by the program director. The results of these special reviews will be used by Central Office program personnel to establish new or modified policies and procedures, to isolate and correct communication problems, or to identify areas requiring further extensive analysis. Participates with the Associate Administrator for Finance and Investment in periodic conferences with the Associate Administrator for Operations, as ap-

propriate. When not actively engaged in field or field related assignments, assists Financial Assistance program directors in performance of their normal program work.

§ 101.2–4 Associate Administrator for Procurement Assistance.

Develops plans, operating procedures, and standards to effectively strengthen and improve the Agency's procurement assistance programs to meet the existing and potential needs of the small business community. Develops and recommends policies pertaining to the procurement assistance mission of the agency. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Promotes nationwide the Agency's procurement assistance programs to increase the participation of small business concerns in Government procurement awards and sales of timber and excess property. Promotes nationwide the Agency's procurement assistance programs to increase the participation of small business concerns in Government procurement awards and sales of timber and excess property. Promotes nationwide the Agency's 8(a) procurement program to increase the participation and support of industrial concerns, professional and trade associations, local governments, and community groups in developing entrepreneurship opportunities for disadvantage groups, including minorities, in manufacturing, construction, and service related industries. Provides technical advice, assistance, and support to the AA/O relating to procurement assistance matters. Represents the Administrator in negotiations with other Federal agencies whose activities relate to Procurement Assistance program area. Serves as a member of the Size Appeals Board. Operates as Small Business conduit for technology advancement.

(a) *Government Liaison Staff.* Represents the Small Business Administration with the Department of Defense and civilian agencies within the Executive Branch on procurement assistance matters. Recommends and participates in the development and preparation of interagency agreements and related policies and regulations applicable to small business procurement programs. Participates with these agencies in the development, modification, or changes in policies and procedures to assure overall consistency with SBA policies and procedures. Develops and coordinates with the Department of Defense, General Services Administration, and other Government agencies programs, policies, goals, regulations, and procedures to ensure that a fair portion of the total Government contracts, including research and development and stockpile surpluses, is placed with small business concerns. Provides for and coordinates SBA participation at procurement conferences sponsored by other Federal agencies or on behalf of congressional or local sponsors. On receipt at headquarters level of specific complaints by small business, arranges and participates in hearings with policy officials of cognizant Federal agencies to present the position of the complainants and seek amendatory action. Evaluates overall small business procurement programs of Federal agencies (departmental level) and makes recommendations designed to increase awards to small business concerns and facilitate their participation in related procurement. Advise AA/O and other SBA Central Office officials with respect to positions to be taken by SBA in dealing with Government procurement agencies.

(b) *Office of Procurement Assistance.* Develops and recommends policies concerning the procurement assistance and technical assistance programs. Develops plans, operating procedures, and standards to effectively strengthen and improve the Agency's prime contract services, industrial support services, subcontracting assistance, technical assistance, and research and development assistance programs to meet the needs of the small business community. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Represents SBA at the staff level of the Secretary or Administrator of the Department of Defense and other Federal agencies regarding matters involving procurement assistance activities pertaining to specific technical matters. Recommends and participates in the development and preparation of interagency agreements and related policies and regulations. Develops and coordinates, in conjunction with the Assistant Administrator for Advocacy, Planning, and Research, procedures for making economic studies to be utilized in strengthening the SBA procurement assistance programs. Provides technical advice, assistance, and support to AA/O relating to procurement assistance pro-

(c) *Office of Business Development.* Develops and recommends policies and procedures for utilization of the Agency's authority under Section 8(a) of the Small Business Act. Develops plans, operating procedures, goals and standards for execution of an effective and efficient program to implement Section 8(a) of the Small Business Act. Evaluates the Agency's efforts in meeting 8(a) program objectives. Promotes the Agency's program to encourage the involvement of industrial concerns, professional and trade associations, State and local governments, and community groups in supporting and providing assistance to small business firms being developed pursuant to Section 8(a) of the Small Business Act, and to enlist their participation in providing technical, management, financial, and procurement support to the individual entrepreneur. Maintains effective liaison and coordination with other SBA organizational components and other Federal agencies in the development of plans, policies, and procedures for providing assistance to Section 8(a) supported firms under SBA and other agencies' programs. Provides advice, counsel, assistance and support to other Agency organizations with respect to the activities of the Office of Business Development. Provides technical advice, assistance, guidance, and support to the AA/0 relating to the business development program.

§ 101.2–5 Assistant Administrator for Management Assistance.

Develops and recommends policies concerning the management assistance and foreign trade programs. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Develops plans, operating procedures, and standards to effectively strengthen and improve the Agency's management information and training, management counseling, and management contracts programs to meet existing and potential needs of the small business community. Develops plans, operating procedures, standards, goals, and objectives for providing management assistance through volunteer or contract activity, including marketing analyses, feasibility and/or engineering studies to applicant-borrowers, COC, and 8(a) recipients. Develops and recommends policies concerning Agency use of volunteer management assistance groups, such as SCORE (Service Corps of Retired Executives) and ACE (Active Corps of Executives) and maintains active liaison on behalf of SBA with such groups. Develops and recommends policies and procedures for the administration and use of management consultant contracts entered into under Section 406 of the Economic Opportunity Act of 1969, as amended. Administers the SCORE, ACE, and other volunteer program activities on an Agency-wide basis, with accent on recruitment and expansion of these programs in connection with borrower-related management assistance. Coordinates with ACTION in areas of mutual interest with respect to SCORE and ACE volunteer support activity. Develops and recommends policies and procedures which emphasize the effectiveness of management assistance to borrowers. Develops and recommends policies and procedures for the administration of the Small Business Institute Program. Develops and implements policies to carry out the Agency's Foreign Trade program. Provides technical advice, assistance, guidance, and support to the AA/0 and other Central Office officials with respect to the management assistance programs. Maintains liaison with other SBA organizational components and other Federal agencies on matters relating to the management assistance program.

(a) *Office of Management Information and Training.* Develops and recommends Agency policy concerning the management information and training program. Develops plans, operating procedures, and standards to effectively strengthen and improve the Agency's management information and training program for small businessmen. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Develops new methods and techniques for

XUM

small business management training. Develops and promulgates small business management publications. Also, develops training materials for use in courses, conferences, and clinics conducted for small businessmen, and workshops for prospective small businessmen. Plans and develops prototype educational programs and courses. Administers and operates the SBA Film Distribution Center. Develops plans, operating procedures, and other actions to implement the Foreign Trade program. Maintains liaison with the Department of Commerce to assure effectiveness in mutually supporting programs, with particular emphasis on export trade. Provides advice, assistance, and support to the AA/0 and other Central Office officials relating to the management information and training program. Maintains liaison with other Federal agencies and Professional or trade associations whose activities are program related.

(b) *Office of Program Evaluation and Field Coordination.* Develops guidelines for the evaluation of the management assistance program and prepares schedules for onsite review visits. Conducts surveys of field-office management assistance activities and programs through both onsite visits and reviews of reports and other program documentation. Assesses the effectiveness of current management assistance policies, procedures, and activities. Identifies problems and proposes corrective action to the Assistant Administrator for Management Assistance. Works with field managers and management assistance personnel in solving problems onsite where this is possible. When requested by the AA/MA, conducts visits to field offices in order to emphasize the program and motivate field management assistance personnel. Provides advice, assistance, and support to the AA/0 and other Central Office officials relating to the program evaluation and field coordination program.

(c) *Office of Management Counseling Services.* Develops plans, operating procedures, and standards to effectively strengthen and improve the Agency's management counseling program for small businessmen. Maintains liaison with other Federal agencies and non-Federal organizations whose activities are program related. Develops program goals and objectives in conformity with approved policies. Reviews and evaluated program effectiveness. Evaluates management assistance programs provided by franchisors for franchisees. Provides advice, assistance, and support to the AA/0 and other Central Office officials relating to the management counseling program. Develops and recommends policies concerning Agency use of volunteer management assistance groups, such as SCORE and ACE. Develops and recommends policies concerning Agency use of national professional associations such as the National Association of Accountants. Develops and recommends policies concerning the management contracts program of SBA. Develops plans, systems, operating procedures, and standards to effectively strengthen and improve the Agency's management contracts program, involving the negotiation and management of Equal Opportunity Act, Section 406 contracts. Evaluates and makes recommendations on proposals for these contracts, grants, or agreements. Develop and recommends policies and procedures for the SBA Small Business Institute (SBI) program. Maintains contact with the American Assembly of Collegiate Schools of Business and with business school leaders concerning further development and mutual support regarding the SBI program. Develops procedures for selection of schools to participate in the program. Maintains faculty Project Directors Manual in coordination with academic representatives. Continually reviews and updates methods and procedures for effective implementation of the SBI program. Develops specific goals, within approved policy, for each of the borrower services activities managed by the Agency, i.e., SCORE, ACE, manage-consulting contracting, market analysis, and engineering feasibility studies. Serves as the Agency liaison with other Federal activities having responsibility for volunteer management services to the business public, including such agencies as ACTION, the Veterans Administration, and the Department of Defense. Develops and recommends policies and procedures for innovative methods of providing counseling services to small businesses. In cooperation with representatives of the Office of Portfolio Management and other offices of AA/P&I, develops and recommends plans, procedures, and methods to improve the effectiveness of management assistance provided to SBA borrowers.

§ 101.2–6 Assistant Administrator for Administration.

Develops plans, systems, procedures, and standards for effective implementation of budget and finance, personnel, and management systems programs, including emergency preparedness activities. Administers the Agency's investigatory, security, examinations and review, internal and external audits, management studies, and personnel management program review activities Agencywide. Coordinates and maintains control over all formal and informal interagency committees, councils, task forces, or other coordinating groups in which SBA participates. Develops goals and objectives for Agency administrative and management activities. Reviews and evaluates their effectiveness. Represents the Administrator in negotiations with other government agencies on matters relating to office programs and activities.

(a) *Office of Audits and Investigations.* Develops plans, systems, procedures, and standards for effective implementation of internal audits, external audits, security and investigations. Directs, coordinates, and administers the investigatory, security, and audit activities Agencywide. Develops and recommends policies concerning these programs and activities, and develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Represents the Administrator in negotiations with the FBI and General Accounting Office and other agencies on matters relating to division programs and activities. Provides for the development of adequate controls over the administration of these programs as carried out by the Central and regional offices. Submits to appropriate officials, reports and recommendations covering deficiencies disclosed by audits, inspections and investigations. Analyzes reports of corrective action taken on reported deficiencies. Recommends to the Administrator any matters which require further action by the officials concerned or by the Administrator.

(b) *Office of Personnel.* Develops and recommends policies concerning the personnel programs and related activities. Develops plans, procedures, and standards to effectively strengthen and improve the Agency's personnel program, including position classification, recruitment, selection, placement, promotion, separation, pay and wage administration, labor-management relations, performance evaluation and incentives, grievances and appeals, conduct and discipline, training and career development, personnel records management, employee services, and safety. Plans, directs, coordinates, and executes Agency-wide personnel management program reviews. Provides technical advice, assistance, and support to the Associate Administrator for Operations and other Central Office officials relating to the personnel program. Reviews and processes all field personnel actions requiring Central Office approval. Maintains liaison with the Civil Service Commission in matters relating to the development, interpretation, and application of personnel regulations and procedures. Develops, plans, and establishes standards to provide for effective analysis and improvement of the Agency organization. Maintains an organizational plan which describes the structure and functions of the organizational units and the location and geographical responsibilities of the field offices, etc. Directs the conduct of organizational studies as requested by the Administrator or other top management officials of SBA, or on a continuing basis as necessitated by changes in staffing requirements and/or shifts in program emphasis or direction. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Coordinates and administers the Central Office fund drives.

(c) *Office of Budget and Finance.* Develops plans, operating procedures, and standards to effectively strengthen and improve all budget, accounting, and fiscal activities of the Agency. Develops and recommends policies concerning the budget and finance programs. Directs the development and administration of systems for the accountability of all funds, property, and other assets for which the

Agency is responsible. Directs the establishment and implementation of procedure and control systems involving the collection, deposit, and disbursement of funds, including the preparation of financial information and data, and certain statistical data covering the operational programs of the Agency. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Represents the Administrator in negotiations with the Office of Management and Budget, congressional appropriation committees, General Accounting Office, Treasury Department, and other agencies on budgetary, accounting, and fiscal matters. Participates with the Office of Management Services in the development of systems for the accountability of all funds, property, and other assets for which SBA is responsible, including the collection, deposit, and disbursement of funds for the Agency.

(d) *Office of Management Services.* Develops plans, policies, and procedures for the effective operation of the Office of Management Services and the subordinate Reports Management Division, Administrative Services Division, Data Management Division, and Systems Division. Develops all Small Business Administration accounting systems. Designs, prescribes, and installs all SBA accounting systems, including the development of systems procedures. Conducts surveys and systems analysis of current and new program and recommends adoption and use of advanced technological methods. Develops, modifies, and assists the Accounting Operations Division to install all systems of accounting. Analyzes Agency manual systems to determine the need for automation. Develops computer systems to provide increased cost/benefit return in satisfying management information needs. Conducts feasibility studies to determine the practicability of automating new systems or changing existing automated systems. Develops instructions to computer programmers for new systems and documentation in computer language acceptable to the computer. Develops test data and systems verification to determine adequacy of computer programs. Prepares operation instructions for the successful automation of the new computer systems. Develops work measurement and manpower reporting systems for the Agency through techniques developed by the Industrial Engineers on the staff. Directs the conduct of Agencywide procedural and manpower utilization surveys and studies. Develops systems for Agencywide manpower requirements. Conducts reviews to identify operating problems, management effectiveness, and manpower management. Recommends policies and procedures to correct deficiencies identified in reviews, thereby improving utilization of manpower in all program areas. Responsible for reporting Management by Objectives status to the Office of Management and Budget (OMB). Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Provides for the development of adequate controls over the administration of these programs as carried out by the Central and field offices. Represents the Administrator in negotiations with the General Services Administration, OMB, and other agencies on matters relating to Office of Management Services programs and activities.

§ 101.2–7 Assistant Administrator for Congressional and Public Affairs.

Develops and recommends plans, procedures, and standards to effectively strengthen and improve the public affairs, public information, and congressional relations programs of the Small Business Administration. Develops and recommends policies concerning the congressional and public affairs programs. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Provides advice, assistance, and support to the Administrator, the Associate Administrator for Operations, and other Central Office officials relating to the congressional and public affairs programs, and the administration of the advisory councils program. Develops and prepares statements, briefings, and speeches for the Administrator and other key SBA officials. Develops and coordinates an orientation program for visitors to the Central Office. Develops Agency guidelines for making information and/or records available for public use in conformance with the Freedom of Information Act; and acts as coordinator for the Agency regarding the cost and availability of information and/or records requested by the public.

(a) *Office of Congressional Relations.* Serves as liaison with Members of Congress, congressional committees, commissions, organizations, and agencies in relation to program matters. Processes and coordinates with concerned SBA offices regarding oral inquiries and responses to Members of Congress or congressional committees and the Executive Office of the President. Obtains, assembles, prepares, and coordinates information and data requested by Members of Congress or Congressional committees on the SBA programs, exclusive of material for presentation by the Administrator before congressional committees and statements of Agency position on legislative proposals. Keeps the Administrator and key officials of the Agency informed of the activities of congressional committees as they relate to the programs and activities of SBA. Interprets for Members of Congress the Agency's policies, programs, practices, and objectives. Works with other Federal agencies on matters of mutual interest.

(b) *Office of Public Affairs.* Develops plans, procedures, and standards to effectively strengthen and improve the public affairs program. Coordinates field office implementation of these plans through the Associate Administrator for Operations. Develops and recommends policies concerning the public affairs program. Develops program goals and objectives in conformance with approved policies. Reviews and evaluates program effectiveness. Prepares statements, briefings, and speeches for the Administrator and other key SBA officials. Plans, organizes, and conducts Administrator's news conferences with representatives of newspapers, wire services, trade and business publications, and radio and television networks. Provides advice, assistance, and support to the Associate Administrator for Operations relating to field public information and public relations activities, including the provision of public informational material to advance the programs and policies of the Agency. Plans, develops, and operates an orientation program for visitors to the Central Office.

(d) *Office of Public Information.* Disseminates to news media, radio and television stations information as to the work of the Agency to keep the public fully informed as to the activities, plans, policies, and regulations that affect individuals and the small business community. Establishes and maintains liaison with high-level, national representatives of newspapers, wire service, business press, trade associations, chambers of commerce and similar groups. Promotes their involvement in informing the public as to Agency policies, programs, and objectives. Prepares and issues news releases, statements, pamphlets, and other informational materials for public dissemination. Provides material for insertion in publications of other Government agencies. Responsible for final design and editing of Agency general publications (except Management Aids). Edits reports, statements, studies, or other informational materials as requested from operating offices. Plans and directs the development of SBA program and informational films, other than management training films. Distributes these films through the PMA film library nationwide to further the understanding of SBA's policies, programs, and objectives. Plans and directs photographic activities in conjunction with presentation of SBA programs for news stories, articles, pamphlets, and conferences. Responsible for artwork in all publications (except Management Aids) and exhibits. Prepares public statements and special reports, as required. Coordinates SBA participation in public meetings. Plans, organizes, and directs preparation of the Agency's Annual Report to the President and the Congress. Develops Agency guidelines for making information and/or records available for public use in conformance with the Freedom of Information Act; and acts as coordinator for the Agency regarding the cost and availability of information and/or records requested by the public.

§ 101.2–8 Assistant Administrator for Advocacy, Planning, and Research.

Conducts economic planning studies and evaluations of the economic environment and relates to the needs and problems of the small business community. As the economic advisor of the

XUM
V 39 N 245 DEC 19 1974
XUM

Agency, reviews and comments to the Administrator upon all proposed legislation affecting the Agency or other Federal agency programs having an impact on small business. Initiates and participates in interagency studies dealing with the critical aspects of the economy and public policy affecting small business. Coordinates the development of Agency policy plans, programs, goals and objectives. As the principal planning officer of the Agency, develops and directs the preparation of Agency program memorandums as required by the Office of Management and Budget and coordinates with program offices in the developing and maintaining of the SBA Five-Year Plan. Develops policies, plans, systems, and procedures to effectively strengthen and improve the planning and program evaluation functions of the Agency. Conducts economic, cost benefit, program analysis and special studies of agency activities to provide the Administrator and program managers with alternative courses of action and policy. Develops and recommends policy concerning the advisory councils program. Develops plans and procedures for the establishment and operation of the National, District, and Community Advisory Councils. Provides advice, assistance, and support to the Associate Administrator for Operations in relation to the field advisory councils program. Program managers retain responsibility for program related liaison with other agencies, interagency agreements, development of program policy, including coordination with other agency program policy, and overall program interrelationships, to include program evaluation. Plans, organizes, and participates in the annual meeting of the National Advisory Council for the Small Business Administration. Participates in meetings of the district advisory councils. In cooperation with the Associate Administrator for Operations, reviews and coordinates agendas of meetings and proposed resolutions of the councils, and notifies the councils chairmen of the Agency's position on the resolutions received. Reviews and consolidates resolutions adopted by the district advisory councils for presentation to and consideration at the annual meeting of the National Advisory Council. Directs the development of and recommends new and changed size standards for all SBA programs. Is responsible for the determination and interpretation of the SBA size standards and serves as a member of the Size Appeals Board. Initiates studies and develops procedures to provide an historical and current statistical description of the small business sector to provide, in a timely manner, data for policy and program formulation. Provides in-house research capability and identifies and formulates economic and industry research projects to be pursued under contract, and monitors such contracts approved by the Administrator. Conducts studies, in cooperation with program offices, involving across-the-board investigations of SBA programs to measure their effectiveness in terms of costs, benefits, and other considerations. Serves as the central analytical staff to review and evaluate, in conjunction with appropriate program offices, major program evaluation studies submitted to the Administrator. Develops and initiates studies of socio-economic and legislative changes which affect the competitive position of small business.

(a) *Office of the Chief Counsel for Advocacy.* Serves as the Agency's focal point for the development, modification, and ongoing review of its policy, positions, and courses of action, under the direction of the Assistant Administrator for Advocacy, Planning, and Research (AA/APR). Reviews all pending policy changes from any source in order to set actual priorities for consideration by the Agency. Assists and works with the office of General Counsel in the preparation of legislation and testimony on behalf of the Agency and the small business community, and in the preparation of Agency submissions in rulemakings and formal proceedings of other Federal agencies. Constantly solicits from Agency key personnel their views on Agency policy. Assists the AA/APR when needed, to prepare material required for the Office of Management and Budget, the Congress, and for other Federal and State governmental organizations. Initiates, coordinates, and develops the Agency's position as the principal Government's advocate of small business. Promotes, counsels, and champions the position of and for small business and the Agency with all Federal agencies and State governments. Develops an ongoing relationship with same in order to facilitate and develop new programs and policies, or modify existing programs and policies. However, Central Office program officials continue to maintain liaison with other Federal agencies, etc. on program matters. Participates in interagency studies dealing with critical aspects of the economy and public policy affecting the small business community. Plans and develops, through appropriate channels, the Agency's position in this regard. Along with the Office of General Counsel, keeps abreast of policy developments and regulations of other governmental departments and pending congressional action which materially affects the competitive position, the survival, and the best interests of small business. Recommends Agency's position in this regard. Initiates, develops, and maintains liaison with trade and professional organizations so that the Agency is made fully aware of the problems and positions of its small business members. Maintains an up-to-date catalog of all services and programs providing benefits to small businesses, not only from the Small Business Administration, but from all other Federal agencies and departments as well. Develops and recommends policy concerning the Advisory Council program of the Agency. Implements approved Agency policy in this regard. Recommends and establishes single purposed councils to provide the Agency with advice and counsel on current issues or problems of small business. Develops plans and procedures for the establishment and operation of the National, Regional, District, Community, and Specialized Advisory Councils. Develops plans and procedures, including effective liaison with small business trade and professional associations, as well as those associations serving small business. Provides advice, assistance, and support to the Associate Administrator for Operations in relation to the field Advisory Councils. When appropriate, works through AA/O in the utilization of field personnel in this regard. Plans, organizes, and participates in the meetings of National Advisory Councils. Participates with and assists through the AA/O, field personnel in the meetings of Regional, District, and Community Advisory Councils. Coordinates all resolutions for appropriate actions and replies adopted by all Advisory Councils. When appropriate, presents to National Councils for their consideration. Keeps Central Office Officials informed of the activities of the Councils as they relate to their functional areas of responsibility. Assists and works with AA/F&I or his designee, in the planning, organizing, and participating in the meetings of the National Small Business Investment Company Advisory Council. Prepares the summaries of these meetings. Processes and recommends the appointment of persons to serve on the Advisory Councils. Processes reimbursement of travel claims for all members of all Agency Advisory Councils. With the assistance of and through the AA/CPA, publishes a periodic newsletter concerning Agency programs, policies, positions, and activities of all Advisory Councils. This publication shall also go to professional and trade associations mentioned above. Participates whenever appropriate in the meetings of professional and trade associations mentioned above. Develops and maintains effective liaison with economic committees or commissions of Veterans organizations. Program managers retain responsibility for program related liaison with other agencies, interagency agreements, development of program policy, including coordination with other agency programs, and overall program interrelationships, to include program evaluation.

(b) *Office of the Chief Economist.* Directs research to develop statistical and economic information about small business in the American economy. Devises a system which will provide for the retention, maintenance, and dissemination of this information. Develops and initiates studies of socio-economic and legislative changes which affect the competitive position of small business. Generates information to aid in the formulation of an economic position on these matters for policy purpose. Recommends and monitors research contracts to be performed outside the Agency. Conducts economic analyses and policy recommendations relating to finance and taxation, monetary and fiscal policy, and is-

sues of interest to the small business community. Conducts special studies on the impact of energy and environmental policies and programs upon the competitive status of small business. Analyzes the impact of material shortages and price escalations on the small business sector. Develops and implements a comprehensive planning and program evaluation system. Reviews the Agency's objectives and makes determinations of the effectiveness of the Agency's total output in the accomplishing of these objectives. Determines and coordinates revisions to the system to meet the changing needs of management. Directs and coordinates the preparation of the "Annual Report on the State of Small Business" which is presented yearly to the President and members of Congress. This report contains a detailed profile of the small business community, its current and future needs, and the Agency's proposals for corrective action and new programs. Directs the development of and recommends new and changed size standards for all SBA programs. Has responsibility for the determination and interpretation of the SBA size standards. Coordinates the development of the SBA Five-Year Plan. This document is submitted to the Office of Management and Budget and provides the basis for the annual OMB Spring Review.

§ 101.2–9 Associate Administrator for Minority Small Business.

Formulates policy relating to the Agency's programs which provide assistance to minority small business concerns and reviews the execution of such programs in light of such policy. Develops plans, policies, operating procedures, and standards to effectively strengthen and improve the Agency's minority small business program, including the provision of centralized services in the disadvantaged areas. Develops program goals and objectives within the framework of approved policies. Reviews and evaluates program effectiveness. Provides direction and emphasis in the coordination of all Agency programs to achieve the objectives of the Minority Small Business effort. Chairs the ad hoc Minority Small Business advisory group established for this coordinative purpose. Evaluates the performance of the field offices to insure compliance with Minority Small Business program policies and procedures. Represents the Administrator at interagency meetings convened by the Secretary of Commerce for the purpose of coordinating programs and activities that affect or contribute to the growth of minority business enterprise. Serves in this capacity, in cooperation with the Associate Administrator for Procurement Assistance and the Assistant Administrator for Management Assistance, at other interagency meetings, and in negotiations with Federal agencies whose activities relate to the Minority Small Business and business development programs. Provides information and assistance and otherwise participates with the Secretary of Commerce, when requested, in the development of national program objectives for minority business enterprise. Confers with top representatives of industry, trade associations, local governments, and community action groups to enlist their substantial participation and involvement in the SBA Minority Small Business program. Promotes their cooperation in the development of minority enterprises and entrepreneurships in the disadvantaged areas. Negotiates basic agreements with industries for establishment of local outlets and franchises and for the provision of management and technical assistance and other types of support. Coordinates with and invites participation by the Associate Administrator for Procurement Assistance in meetings and conferences that include representatives of manufacturing and construction industries. Works with the Associate Administrator for Procurement Assistance in the development of policies and procedures governing the combined Minority Small Business-Procurement Assistance effort to involve minorities in the manufacturing construction, and related service industries.

(a) *Office of Program Planning and Control.* Coordinates Agency approach to Minority Small Business. Fosters use of innovative and imaginative concepts to assure that resources allocated to Minority Small Business are working effectively and efficiently. Evaluates effect of current programs on Minority Small Business, and recommends changes if appropriate. Assists in setting Minority Small Business goals. Keeps the Performance Management System working, and makes appropriate recommendations based on Performance Management System analysis. Conducts, as appropriate, experimental projects in collaboration with program offices to test innovative programs. Works with the Associate Administrator for Finance and Investment, the Associate Administrator for Procurement Assistance, the Assistant Administrator for management Assistance, and the Assistant Administractor for Advocacy, Planning, and Research in the Central Office to insure that they consider Minority Small Business views in their program areas. Establishes and maintains a free flow of information in both directions.

(b) *Office of Government and Industry Relations.* Seeks and stimulates private sector support for Minority Small Business through Fortune's 500, banks, trade associations, and other private entities in minority business development. Works closely wth OMBE, HUD, FAA, DOT, HEW, DOD, and other Federal agencies that have programs relating to and/or affecting Minority Small Business. Plans and develops special impact projects, such as shopping centers, Local Development Companies, airport opportunities, construction projects, etc., that would promote and develop minority participation, management, and ownership. Continues to expand and improve the Minority Vendors program in order to insure maximum private sector corporate support and the fullest possible benefit to minority enterprises. Works with the Office of Public Information to insure maximum coverage of Minority Small Business success stories and program announcements, etc.

(c) *Office of Program Assistance.* Monitors performance of Minority Enterprise Representatives and field offices to identify problem areas deserving special recognition. Provides guidance and orientation to Minority Enterprise Representatives and other field personnel involved in minority business development. Assists in problem solving, and keeps field offices and Minority Enterprise Representatives apprised of development in Minority Small Business program areas. Reviews declines and problem cases to determine merits of case and see that all possible avenues of assistance have been explored. When necessary, acts as advocate for minority firms with and outside the Agency. Monitors SBA's 406 Grantees and Call Contractors to insure the most effective and efficient use of 406 funds for minority businesses. Replies to all Congressional, White House, and other inquiries relating to individual case matters. Guides and assists minority and other organizations interested in minority business development. Participates in relevant conferences, workshops, seminars, meetings, training programs, etc. Works with the Offices of Budget and Finance, Personnel, Equal Employment Opportunity and Compliance, and the Associate Administrator for Operations on matters of mutual concern.

§ 101.3 Organization and functions of the field offices.

(a) *Regional office.* An SBA office, headed by a regional director, it is the principal field office of the Agency, responsible and responsive to the Central Office. The city locations and geographical boundaries of each of the 10 regional offices were designated by the President in a statement on May 2, 1969. Such office exercises full authority and supervisory responsibility for: (1) The execution of all field activities within the region; (2) supervision of all district offices within the region.

(b) *District office.* An SBA office headed by a district director, located in a city designated by the Administrator within a defined, limited, and contiguous geographical area within the region. Such office is responsible and responsive to the regional office for the region in which it is located. Except for restrictions based on delegations of authority, the district office has full authority and supervisory responsibility for: (1) The execution of all field activities within the district boundaries; (2) supervision of all branch offices and post-of-duty stations located within the district boundaries; and (3) providing subordinate branch offices and post-of-duty stations with the technical capability necessary to execute assigned programs.

(c) *Branch office.* An SBA office headed by a branch manager, located in a city designated by the Administrator within a defined, limited, contiguous

geographic area within a district. Such office is directly responsible and responsive to the district office within whose boundaries it is located. It executes one or more elements of the business or disaster loan programs and has limited authority for program execution.

(d) *Post-of-duty station.* An SBA office headed by an officer-in-charge, located in a city designated by the Administrator within a district. Such office is directly responsible and responsive to the district office within whose boundaries it is located. It performs tasks required to promote and support the business and disaster loan programs and procurement and management assistance activities. It has no authority for program execution.

§ 101.3–1 Listing of field offices.

(a) *Region I.* Regional Office, 150 Causeway Street, Boston, MA 02114. Having jurisdiction over the following district offices and post-of-duty station:

(1) 150 Causeway Street, Boston, MA 02114. Serving Massachusetts.

(2) 328 Appleton Street, Holyoke, MA 01040. Serving counties of Berkshire, Franklin, Hampden, and Hampshire.

(3) 40 Western Avenue, Augusta, ME 04330. Serving Maine.

(4) 55 Pleasant Street, Concord, NH 03301. Serving New Hampshire.

(5) 450 Main Street, Hartford, CT 06103. Serving Connecticut.

(6) 87 State Street, Montpelier, VT 05602. Serving Vermont.

(7) 57 Eddy Street, Providence, RI 02903. Serving Rhode Island.

(b) *Region II.* Regional Office, 26 Federal Plaza, New York, NY 10007. Having jurisdiction over the following district and branch offices and post-of-duty stations:

(1) 26 Federal Plaza, New York, NY 10007. Serving the New York counties of Bronx, Columbia, Delaware, Dutchess, Greene, Kings, Nassau, New York, Orange, Putnam, Queens, Richmond, Rockland, Suffolk, Sullivan, Ulster, and Westchester.

(2) 970 Broad Street, Newark, NJ 07102. Serving New Jersey.

(3) Hunter Plaza, Fayette and Salina Streets, Syracuse, NY 13202. Serving the New York counties of Allegany, Albany, Broome, Cattaraugus, Cayuga, Chautauqua, Chemung, Chenango, Clinton, Cortland, Erie, Essex, Franklin, Fulton, Genesee, Hamilton, Herkimer, Jefferson, Lewis, Livingston, Madison, Monroe, Montgomery, Niagara, Oneida, Onondaga, Ontario, Orleans, Oswego, Otsego, Rensselaer, Saratoga, Schenectady, Schoharie, Schuyler, Seneca, St. Lawrence, Steuben, Tioga, Tompkins, Warren, Washington, Wayne, Wyoming, and Yates.

(4) 111 West Huron Street, Buffalo, NY 14202. Serving the New York counties of Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Niagara, Orleans, and Wyoming.

(5) 1051 South Maine Street, Elmira, NY 14904. Serving the New York counties of Broome, Chemung, Schuyler, Steuben, Tioga, and Tompkins.

(6) 99 Washington Avenue, Albany, NY 12210. Serving the New York counties of Albany, Rensselaer, Saratoga, Schenectady, Schoharie, Warren, and Washington.

(7) 55 St. Paul Street, Rochester, NY 14604. Serving the New York counties of Livingston, Monroe, Ontario, Seneca, Wayne, and Yates.

(8) 255 Ponce de Leon Avenue, Hato Rey, PR 00919. Serving the Commonwealth of Puerto Rico and the U.S. Virgin Islands.

(c) *Region III.* Regional Office, 1 Decker Square, East Lobby, Bala Cynwyd, PA 19004. Having jurisdiction over the following district and branch offices:

(1) 1 Decker Square, East Lobby, Bala Cynwyd, PA 19004. Serving the Pennsylvania counties of Adams, Berks, Bradford, Bucks, Carbon, Chester, Clinton, Columbia, Cumberland, Dauphin, Delaware, Juniata, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Lycoming, Mifflin, Monroe, Montgomery, Montour, Northampton, Northumberland, Perry, Philadelphia, Pike, Potter, Schuylkill, Snyder, Sullivan, Susquehanna, Tioga, Union, Wayne, Wyoming, and York.

(2) Miller Furniture Building, 7–11 Market Square, Harrisburg, PA 17108. Serving the Pennsylvania counties of Adams, Clinton, Cumberland, Dauphin, Juniata, Lancaster, Lebanon, Lycoming, Mifflin, Montour, Northumberland, Potter, Snyder, Union, Tioga, and York.

(3) 24 South Main Street, Wilkes-Barre, PA 18703. Serving the Pennsylvania counties of Bradford, Carbon, Columbia, Lackawanna, Luzerne, Monroe, Pike, Sullivan, Susquehanna, Wayne, and Wyoming.

(4) 844 King Street, Wilmington, Dela. 19801. Serving Delaware.

(5) 7800 York Road, Towson, MD 21204. Serving Maryland except the counties of Montgomery and Prince Georges.

(6) 109 North Third Street, Clarksburg, WV 26301. Serving West Virginia.

(7) Charleston National Bank, Charleston, WV 25301. Serving the West Virginia counties of Boone, Braxton, Cabell, Calhoun, Clay, Fayette, Gilmer, Greenbrier, Jackson, Kanawha, Lincoln, Logan, Mason, McDowell, Mercer, Mingo, Monroe, Nicholas, Pocahontas, Putnam, Raleigh, Roane, Summers, Wayne, Webster, Wirt, and Wyoming.

(8) 1000 Liberty Avenue, Pittsburgh, PA 15222. Serving the Pennsylvania counties of Allegheny, Armstrong, Beaver, Bedford, Blair, Butler, Cambria, Cameron, Centre, Clarion, Clearfield, Crawford, Elk, Erie, Fayette, Forest, Franklin, Fulton, Greene, Huntington, Indiana, Jefferson, Lawrence, McKean, Mercer, Somerset, Venango, Warren, Washington, and Westmoreland.

(9) 400 North Eighth Street, Richmond, VA 23240. Serving Virginia except the counties of Arlington, Fairfax, and Loudoun.

(10) 1030 Fifteenth Street, NW., Washington, DC 20416. Serving the District of Columbia and the Maryland counties of Montgomery and Prince Georges and the Virginia counties of Arlington, Fairfax, and Loudoun.

(d) *Region IV.* Regional Office, 1401 Peachtree Street, NE., Atlanta, GA 30309. Having jurisdiction over the following district and branch offices and post-of-duty stations.

(1) 1401 Peachtree Street, NE., Atlanta, GA 30309. Serving Georgia.

(2) 908 South 20th Street, Birmingham, AL 35205. Serving Alabama.

(3) 222 South Church Street, Charlotte, NC 28202. Serving North Carolina.

(4) 215 South Evans Street, Greenville, NC 27834. Serving the North Carolina counties of Beaufort, Bertie, Brunswick, Camden, Carteret, Currituck, Chowan, Columbus, Craven, Dare, Duplin, Edgecombe, Gates, Greene, Halifax, Hertford, Hyde, Jones, Lenoir, Martin, Nash, New Hanover, Onslow, Pamlico, Perquimans, Pasquotank, Pitt, Pender, Tyrrell, Washington, Wayne, Wilson, and Northampton.

(5) 1801 Assembly Street, Columbia, SC 29201. Serving South Carolina.

(6) Petroleum Building, Suite 690, Pascagoula and Amite Streets, Jackson, Miss. 39205. Serving Mississippi.

(7) 111 Fred Haise Boulevard, Biloxi, Miss. 39530. Serving the Mississippi counties of Forrest, George, Greene, Hancock, Harrison, Jackson, Lamar, Marion, Pearl River, Perry, and Stone.

(8) 400 West Bay Street, Jacksonville, FL 32202. Serving the Florida counties of Alachua, Baker, Bay, Bradford, Calhoun, Citrus, Clay, Columbia, Dixie, Duval, Escambia, Flagler, Franklin, Gadsden, Gilchrist, Gulf, Hamilton, Hernando, Holmes, Jackson, Jefferson, Lafayette, Lake, Leon, Levy, Liberty, Madison, Marion, Nassau, Okaloosa, Orange, Putnam, Santa Rosa, St. Johns, Seminole, Sumter, Suwannee, Taylor, Union, Volusia, Wakulla, Walton, and Washington.

(9) 600 Federal Place, Louisville, KY 40202. Serving Kentucky.

(10) 2222 Ponce de Leon Blvd., Coral Gables, FL 33134. Serving the Florida counties of Brevard, Broward, Charlotte, Collier, Dade, De Soto, Glades, Hardee, Hendry, Highlands, Hillsborough, Indian River, Lee, Manatee, Martin, Monroe, Okeechobee, Osceola, Palm Beach, Pasco, Pinellas, Polk, St. Lucie, Sarasota, and Florida.

(11) 1802 North Trask Street, Tampa, FL 33607. Serving the Florida counties of Hillsborough, Pinellas, Polk, and Pasco. (Circuit rider to Manatee and Hendry.)

(12) 404 James Robertson Parkway, Nashville, TN 37219. Serving Tennessee.

(13) 502 Gay Street, Knoxville, TN 37902. Serving the Tennessee counties of Anderson, Bledsoe, Blount, Bradley, Campbell, Carter, Claiborne, Cocke, Cumberland, Fentress, Grainger, Greene, Hamblen, Hancock, Hawkins, Jefferson, Johnson, Knox, Louden, McMinn, Meigs, Monroe, Morgan, Polk, Rhea, Roane, Scott, Sevier, Sullivan, Unicoi, Union, and Washington.

(14) 167 North Main Street, Memphis, TN 38103. Serving the Tennessee counties of Fayette, Hardeman, Haywood, Lauderdale, Shelby, and Tipton.

(e) *Region V.* Regional Office, 219 South Dearborn Street, Chicago, IL 60604. Having jurisdiction over the following district and branch offices and post-of-duty stations:

(1) 219 South Dearborn Street, Chicago, IL 60604. Serving Illinois.

(2) 502 East Monroe Street, Springfield, IL 62701. Serving the Illinois counties of Adams, Alexander, Bond, Brown, Calhoun, Cass, Champaign, Christian, Clark, Clay, Clinton, Coles, Crawford, Cumberland, De Witt, Douglas, Edgar, Edwards, Effingham, Fayette, Franklin, Fulton, Gallatin, Greene, Hamilton, Hancock, Hardin, Jackson, Jasper, Jefferson, Jersey, Johnson, Lawrence, Logan, McDonough, Macon, Massac, Menard, Montgomery, Morgan, Moultrie, Perry, Piatt, Pike, Pope, Pulaski, Randolph, Richland, St. Clair, Saline, Sangamon, Schuyler, Scott, Shelby, Union, Vermilion, Wabash, Washington, Wayne, White, and Williamson.

(3) 1240 East Ninth Street, Cleveland, OH 44199. Serving the Ohio counties of Ashtabula, Carroll, Columbiana, Cuyahoga, Erie, Geauga, Harrison, Huron, Jefferson, Lake, Lorain, Lucas, Mahoning, Medina, Ottawa, Portage, Sandusky, Stark, Summit, Trumbull, Tuscarawas, Wayne, and Wood.

(4) 34 North High Street, Columbus, OH 43215. Serving the Ohio counties of Adams, Allen, Ashland, Athens, Auglaize, Belmont, Brown, Butler, Champaign, Clark, Clermont, Clinton, Coshocton, Crawford, Darke, Defiance, Delaware, Fairfield, Fayette, Franklin, Fulton, Gallia, Greene, Guernsey, Hamilton, Hancock, Hardin, Henry, Highland, Hocking, Holmes, Jackson, Knox, Lawrence, Licking, Logan, Madison, Marion, Meigs, Mercer, Miami, Monroe, Montgomery, Morgan, Morrow, Muskingum, Noble, Paulding, Perry, Pickaway, Pike, Preble, Putnam, Richland, Ross, Scioto, Seneca, Shelby, Union, Van Wert, Vinton, Warren, Washington, Williams, and Wyandot.

(5) 550 Main Street, Cincinnati, OH 45202. Serving the Ohio counties of Adams, Brown, Butler, Clermont, Clinton, Hamilton, Highland, Montgomery, Preble, and Warren.

(6) 1249 Washington Boulevard, Detroit, MI 48226. Serving Michigan.

(7) 201 McClellan Street, Marquette, MI 49855. Serving the Upper Peninsula of Michigan.

(8) 36 South Pennsylvania Street, Indianapolis, IN 46204. Serving Indiana.

(9) 122 West Washington Avenue, Madison, WI 53703. Serving the Wisconsin counties of Adams, Ashland, Barron, Bayfield, Brown, Buffalo, Burnett, Calumet, Chippewa, Clark, Columbia, Crawford, Dane, Dodge, Door, Douglas, Dunn, Eau Claire, Florence, Fond du Lac, Forest, Grant, Green, Green Lake, Iowa, Iron, Jackson, Jefferson, Juneau, Kenosha, Kewaunee, La Crosse, Lafayette, Langlade, Lincoln, Manitowoc, Marathon, Marinette, Marquette, Menominee, Milwaukee, Monroe, Oconto, Oneida, Outagamie, Ozaukee, Pepin, Pierce, Polk, Portage, Price, Racine, Richland, Rock, Rusk, St. Croix, Sauk, Sawyer, Shawano, Sheboygan, Taylor, Trempealeau, Vernon, Vilas, Walworth, Washburn, Washington, Waukesha, Waushara, Winnebago, and Wood.

(10) 735 West Wisconsin Avenue, Milwaukee, WI 53223. Serving the Wisconsin counties of Dodge, Fond du Lac, Jefferson, Kenosha, Milwaukee, Ozaukee, Racine, Sheboygan, Walworth, Washington, and Waukesha.

(11) 500 South Barstow Street, Eau Claire, WI 54701. Serving the Wisconsin counties of Ashland, Barron, Bayfield, Buffalo, Burnett, Chippewa, Douglas, Dunn, Eau Claire, Florence, Forest, Iron, Lincoln, Oneida, Pepin, Pierce, Polk, Price, Rusk, Sawyer, St. Croix, Taylor, Trempealeau, Vilas, and Washburn.

(12) 12 South Sixth Street, Minneapolis, MN 55402. Serving Minnesota.

(f) *Region VI.* Regional Office, 1720 Regal Row, Dallas, TX 75235. Having jurisdiction over the following district and branch offices and post-of-duty station.

(1) 1100 Commerce Street, Dallas, TX 75202. Serving the Texas counties of Anderson, Archer, Baylor, Bell, Bosque, Brown, Callahan, Clay, Coleman, Collin, Comanche, Cooke, Coryell, Dallas, Delta, Denton, Eastland, Ellis, Erath, Falls, Fannin, Freestone, Grayson, Hamilton, Hendrickson, Hill, Hood, Hopkins, Hunt, Jack, Johnson, Kaufman, Lamar, Limestone, Mclennan, Mills, Montague, Navarro, Palo Pinto, Parker, Rains, Rockwall, Shackleford, Somervell, Stephens, Tarrant, Throckmorton, Van Zandt, Wichita, Wilbarger, Wise, and Young.

(2) 5000 Marble Avenue, N.E., Albuquerque, NM 87110. Serving New Mexico.

(3) 808 Travis Street, Houston, TX 77002. Serving the Texas counties of Angelina, Austin, Brazoria, Brazos, Burlson, Chambers, Colorado, Fort Bend, Galveston, Grimes, Hardin, Harris, Houston, Jasper, Jefferson, Leon, Liberty, Madison, Matagorda, Milam, Montgomery, Newton, Orange, Polk, Robertson, San Jacinto, Trinity, Tyler, Waller, Walker, Washington, and Wharton.

§ 101.4 SBA forms for public use.

SBA forms used by the public when applying for or obtaining SBA assistance or when providing services for SBA are available in all field offices. See § 101.3–1.

§ 101.5 Seal.

The Administrator and the Assistant Administrator for Administration, and each Regional and District Director, and Branch Manager are authorized to certify and authenticate as true, originals and copies of any books, records, papers, or other documents on file within the Small Business Administration; to certify and authenticate as true, originals, and copies of extracts from such material; to certify the nonexistence of records on file; and to cause the Seal of the Small Business Administration to be affixed to all such certifications for all purposes, including the purposes authorized by 28 USC 1733. This authority applies to any books, records, papers, or other documents on file within their respective jurisdictions.

§ 101.6 Litigation.

Service of process in any suit instituted against SBA may be accomplished in accordance with the provisions of Rule 4 of the Federal Rules of Civil Procedure or in accordance with the provisions of section 2410 of Title 28, United States Code. All litigation instituted by or against SBA will be prosecuted or defended by the Attorney General through the United States Attorney for the Federal District in which the matter arises.

§ 101.7 Employment of fee counsel.

(a) *Business loans.* SBA employs attorneys on a full-time basis in most of its field offices and these employees usually perform all the legal services requested on behalf of SBA in the making of business loans. The loan applicant or borrower usually employs his own attorney to represent his interests, and this attorney is selected and paid by the applicant or borrower, except that the reasonableness of the fee is reviewed by SBA. On occasions, such as where the volume of activity has not been sufficient to require a full-time employee, or the area is too remote to economically use the services of a full-time employee, SBA has hired fee counsel to represent it in business loans.

(b) *Disaster loans.* In disaster loans, as defined in Part 123 of this chapter, SBA may contract for the services of fee counsel because the disaster presents an emergency and a volume of activity that cannot be promptly and economically

serviced by the available full-time or temporary employees.

(c) *Compensation.* All work performed at the request of, and for, SBA is performed in compliance with its regulations and instructions, and is compensated for at an hourly rate determined by SBA and established in the contract between SBA and the fee counsel. The contract may be terminated upon written notice by either party.

(d) *Duties.* The fee counsel acts under the general supervision of the General Counsel through field counsel, and takes such action as is legally requisite and necessary for the making of loans under the provisions of the Small Business Act. In the event that fee counsel acts contrary to, or fails to act in accordance with SBA's Regulations and instructions, the loan may be reassigned either to another fee counsel or to a full-time employee. In the performance of functions as an attorney for SBA the highest standards of professional conduct are requisite and proper. All matters of confidence proper to the attorney-client relationship are respected by fee counsel.

§ 101.8 Investigations: Small Business Act.

§ 101.8–1 Application of the rules of this part.

The rules of this part apply only to investigations conducted under the Small Business Act (15 U.S.C. 631 *et seq.*). They do not apply to adjudicative or rule-making proceedings or investigations under the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 *et seq.*).

§ 101.8–2 Scope of rules.

Where, from complaints received from members of the public, examination of filings and reports made with the Agency, communications from Federal or State agencies, or otherwise, it appears that there may be a violation of the Small Business Act, as amended, or the rules and regulations thereunder, or of any order issued under the Act, or where it appears that there is a likelihood that a violation has been or is about to be committed, the Administrator or the Assistant Administrator for Administration or the Director of the Office of Audits and Investigations may order a formal investigation if it is deemed necessary.

§ 101.8–3 Authority of officer conducting investigation.

The person or persons designated by the Order of Formal Investigation shall have all the authority to conduct the inquiry as set forth in Section 5(b)(11) of the Act, 15 U.S.C. 634(b)(11), including the authority to administer oaths and affirmations, subpoena witnesses, compel their attendance to take evidence, and require the production of any books, papers, and documents which are relevant to the inquiry.

§ 101.8–4 Non-public formal investigation proceedings.

Unless otherwise ordered by the Administration, all formal investigative proceedings shall be non-public and the reports thereon are for the use of the Administration only.

§ 101.8–5 Right to copy of data or transcript of testimony.

Transcripts, if any, of formal investigative proceedings shall be recorded by the official reporter, or by any other person or means designated by the officer conducting the investigation. A person who has submitted data or evidence in such investigations shall be entitled to retain or procure a copy of his data or a transcript of his testimony on payment of the prescribed fees; provided, however, in the case of non-public investigations such person shall file a written request stating the reason for desiring to procure such copy or transcript. The Administration may in non-public investigatory proceeding for good cause deny such request. In the latter event, such person, upon proper identification, shall have the right to inspect the official transcript of his testimony.

§ 101.8–6 Counsel for witnesses in investigations.

Any person compelled to appear in person at an investigation designated in § 101.8–2 may be accompanied, represented and advised by counsel, but such counsel may not represent any other witness or any person being investigated, unless permitted in the discretion of the officer conducting the investigation or the Administration upon being satisfied that there is no conflict of interest in such representation and that the presence of identical counsel for other witnesses or persons being investigated would not tend to hinder the course of the investigation.

§ 101.8–7 Suspension or disbarment of counsel.

The Administrator for good cause shown may, in accordance with the procedures set forth in Part 104 of this chapter, reprimand, suspend or disbar counsel from practice before the Administration because of contemptuous course, dilatory tactics or other improper conduct in the court of an investigation.

§ 101.8–8 Information obtained in investigations.

Information or documents obtained by the Administration in the course of any investigation shall, unless made a matter of public record, be deemed confidential. Officers and employees are hereby prohibited from making such confidential information or documents or any other non-public records of the Administration available to anyone other than an officer or employee of the Administration, unless the Administration authorizes the disclosure of such information or the production of such documents as not being contrary to the public interest. Any officer or employee who is served with a subpoena requiring the disclosure of such information or the production of such documents shall appear in court and, unless the authorisation described in the preceding sentence shall have been given, shall respectfully decline to disclose the information or produce the documents called for, basing his refusal upon this section. Any officer or employee who is served with a subpoena shall promptly advise the Assistant Administrator for Congressional and Public Affairs and the Office of General Counsel of the service of such subpoena, the nature of the information or documents sought, and any circumstances which may bear upon the desirability of making available such information or documents.

§ 101.8–9 Service of subpoena.

(a) Service of subpoenas issued in an investigative proceeding may be effected as follows:

(1) *By registered mail.* A copy of the subpoena shall be addressed to the person, partnership, corporation, or unincorporated association to be served at his or its residence or principal office or place of business, registered, and mailed; or

(2) *By delivery to any individual.* A copy of the subpoena may be delivered to the person to be served, or to a member of the partnership to be served, or to the president, secretary, or other executive officer or a director of the corporation or unincorporated association to be served; or

(3) *By delivery to an address.* A copy of the subpoena may be left at the principal office or place of business of the person, partnership, corporation or unincorporated association, or it may be left at the residence of the person or a member of the partnership or of an officer or director of the corporation or unincorporated association to be served.

(b) *Proof of service.* (1) When service is by registered mail, it is complete upon delivery of the document by the Post Office.

(2) The return Post Office receipt for a document registered and mailed, or the verified return of certificate by the person serving the document by personal delivery, setting forth the manner of said service, shall be proof of the service of the document.

§ 101.8–10 Witness fees.

Witnesses in an investigative proceeding shall be paid the same fees and mileage as are paid witnesses in the courts of the United States.

§ 101.9 Public participation in rule-making.

SBA is governed as a matter of policy by the public participation provisions of the Administrative Procedure Act, 5 U.S.C. section 553, notwithstanding the exemptions given by such section 553 for matters relating to agency management or personnel, or to public property, loans, grants, benefits, or contracts. Where, as provided by 5 U.S.C. section 553, it is determined that such public

XUM
V 39 N 245 DEC 19 1974
XUM

participation procedures would be impracticable, unnecessary, or contrary to the public interest, a specific finding to this effect shall be published with the rules or regulations in question. Such exceptions from public participation procedures are not to be favored and will be used sparingly, as for example, in emergencies and in instances where public participation would be useless or wasteful because proposed regulations, or amendments thereto, cover minor technical matters. In connection with any notice of proposed rulemaking, written material or suggestions submitted will be available for public inspection during regular business hours at the office indicated in such notice.

[FR Doc.74-29541 Filed 12-18-74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 11412; Amdt. No. 36-3]

PART 36—NOISE STANDARDS—AIRCRAFT TYPE AND AIRWORTHINESS CERTIFICATION

Acoustical Change Approvals

The purpose of this amendment is to tighten the conditions under which an applicant for an acoustical change approval must show that issuance of type certificate changes authorizing modification of certain turbojet or transport category airplanes will not increase the takeoff or sideline noise levels of those airplanes. The primary basis of this amendment is section 611 of the Federal Aviation Act of 1958 (49 U.S.C. 1431) as amended by the Noise Control Act of 1972.

This amendment is based on three proposals contained in Notice 71-26, published in the FEDERAL REGISTER (36 FR 18584) on September 17, 1971. That Notice contained other proposals that are still under consideration by the FAA and that may result in additional rule making. Interested persons have been afforded an opportunity to comment on the matters contained in this amendment, and all relevant comments have been considered.

Pursuant to 49 U.S.C. 1431(b)(1), the Federal Aviation Administration has consulted with the Secretary of Transportation, prior to the adoption of this amendment. Pursuant to that provision, section 309 of the Clean Air Act, as amended (42 U.S.C. 1857 h-7), and § 1500.9(b) of the guidelines of the Council on Environmental Quality entitled "Preparation of Environmental Impact Statements" (40 CFR Part 1500), published in the FEDERAL REGISTER on August 1, 1973, the FAA has consulted with the Administrator of the Environmental Protection Agency, and has submitted this amendment to that agency for review and comment, prior to adoption of this amendment.

I. NOTICE 71-26.

Among its proposals, Notice 71-26, as stated above, proposed three changes affecting the acoustical change requirements in order to ensure that valid comparative tests of modified and unmodified aircraft are conducted. This amendment addresses these three proposals with respect to type design changes of airplanes that do not comply with the noise levels prescribed in Appendix C of Part 36, that is, airplanes covered by § 36.1(c)(2) of that Part.

First, the Notice proposed to prohibit any reduction in power or thrust during the takeoff and sideline noise tests conducted before and after the type design change. Second, the Notice proposed to require that the takeoff and sideline noise levels be determined using the quietest airworthiness approved configuration available at the highest approved takeoff weight. As the Notice stated, these two amendments were proposed "since, by manipulating the schedules of power or thrust reduction and the takeoff configuration, an unrepresentative comparison may result under which the changed aircraft may actually be capable of generating more noise, under the same conditions, than before the type design change."

Finally, the Notice proposed to amend the airspeed requirement by eliminating V_2+10 knots as a minimum takeoff airspeed (that may be exceeded without limit) and requiring instead a speed of V_2+10 knots with a flight test tolerance of ±3 knots. This proposal, like the two discussed above, was intended to ensure a valid comparative test by prohibiting the modified airplane from overflying the measurement points at an airspeed markedly different from that of the unmodified airplane (since flyover time can affect recorded noise levels).

II. COMMENTS RECEIVED

The following public comments in response to Notice 71-26 were relevant to the matters addressed in this amendment (that is, the airspeed, thrust, and configuration conditions to be used in acoustical change demonstrations for airplanes that do not meet Appendix C of Part 36):

A. *Test airspeed.* 1. One comment objected to the proposal concerning test airspeed stating that Part 36 requires all procedures used to show compliance with that Part to be consistsent with the airworthiness regulations constituting the type certification basis of the airplane. This comment suggested that, rather than a speed of $V_2+10\pm3$ knots, the test speed should be the lowest airspeed at which airworthiness compliance is shown. A related comment stated that, under the airworthiness requirements of Part 25, the all-engine takeoff speed can exceed V_2+10+3 knots at 35 feet under certain test conditions. This comment stated that the proposed airspeed limit would require the airplane to decelerate at 35 feet, which would not represent safe operational practice. In response to this comment, and in order to ensure that the test airspeed is consistent with airspeeds demonstrated under the airworthiness regulations constituting the type certification basis of the airplane, this amendment provides that the acoustic day reference speed must be the minimum approved value of V_2, plus 10 knots, "or the all-engines-operating speed at 35 feet (for turbine engine powered airplanes) or 50 feet (for reciprocating engine powered airplanes), whichever speed is greater as determined under the regulations constituting the type certification basis of the airplane." In addition, since the unqualified reference to the speed V_2, as proposed in the notice, would have permitted a range of speeds to be selected (since acoustic day reference V_2 values would, therefore, be permitted to vary for the same airplane) which could result in invalid noise comparisons, the language discussed above ensures that a single value (i.e., minimum approved value) of V_2 is used for the purpose of determining the acoustic day reference speed. Under this amendment, the criteria for selecting the acoustic day reference speed must also be followed in selecting test day speeds, except that a test tolerance of ±3 knots is allowed. These amendments are intended to improve the ability of the acoustical change demonstration to ensure that speed differences between the two tests do not mask real increases in noise on the part of the altered aircraft.

2. One comment stated that any tolerance more restrictive than ±10 knots is overly restrictive for flight test purposes, and will result in repeated tests and unnecessary omission of data. However, another commentator agreed that a test tolerance of ±3 knots is acceptable. The FAA believes that a test tolerance of more than ±3 knots may permit unnecessary correction errors to be introduced and is not needed in order to conduct a satisfactory flight test program.

3. One comment stated that, for some aircraft, the best noise performance is obtained with climb speeds greater than V_2+10+3 knots. This comment suggested that a speed of V_2+10+X be used, with X being the same for the tests conducted before and after the type design change. The FAA agrees that a speed greater than the proposed test speed may in fact be optimum with respect to obtaining low noise levels in a test environment. However, for the purpose of establishing whether or not takeoff or sideline noise has escalated as a result of a type design change, it is sufficient to use a well defined airspeed such as the one discussed above. It is not necessary to add the further complication of determining which specific value of X would in fact be optimum acoustically.

B. *Prohibition of thrust reduction.* 1. One comment stated that prohibiting reduction in power or thrust would deter development of acoustic devices that are most effective at reduced power. This comment stated that such a rule would unfairly treat derivative aircraft having such devices and would thus reduce the incentive to improve the acoustical performance of such aircraft. For the purpose of acoustical change testing, the FAA, after several years of experience in

administering § 36.1(c)(2), believes that the objective of eliminating the potential for significant noise escalation (that results from permitting cutback in power and thrust as a means of showing compliance with that section) in the current regulation outweighs the hypothetical benefits to be derived from the development of such devices.

2. It was argued that, if the change in type design permits proper flight characteristics with a reduction in power or thrust, such reduction should be permitted. As stated above, the objective of § 36.1(c)(2) is to prevent the issuance of type certificate change approvals that permit an increase in the noise levels generated by the airplane. Demonstrations of takeoff and sideline noise levels at reduced thrust do not ensure that the noise levels associated with takeoff thrust will not be increased in operation as a result of the type design change. Requiring full takeoff power or thrust before and after the type design change will help to prevent such escalation. It is thus not pertinent to the objectives of § 36.1(c)(2) that there may be reduced thrust values at which the modified (derivative) airplane may be as quiet as the unmodified airplane. The FAA does agree, however, that any reduction in power or thrust that is required by the operating limitations of the airplane during takeoff or climbout should be permitted during the noise test. This amendment thus modifies the proposed language by only prohibiting reductions in power or thrust "below the highest airworthiness approved power or thrust."

3. One comment stated that prohibiting reduction in power or thrust is contrary to the fundamental purpose of Part 36, which is to encourage power cutback. With respect to the goal of § 36.1(c)(2), the fundamental objective has never been to encourage power cutback as a test procedure, but rather to stop the issuance of type certificate change approvals that permit noise levels, already higher than those in Appendix C of Part 36, to be increased further in actual operation. Unless full-power takeoff and sideline noise demonstrations are made, this objective can be compromised as discussed above.

4. One commentator stated that it is inconsistent to allow thrust reduction for the purpose of showing compliance with Appendix C, while prohibiting thrust reduction under § 36.1(c)(2) for the purpose of showing that one airplane is as quiet as another. The FAA agrees that, so far as use of power or thrust is concerned, a different takeoff and sideline noise test concept is intended under § 36.1(c)(2) than under those portions of Part 36 that require compliance with the noise limits of Appendix C of that Part. The reason for this intended difference is that no real potential for noise escalation has yet been observed in the administration of those provisions of Part 36 that are tied to specific noise levels, whereas such a potential clearly exists under § 36.1(c)(2), where the only reference noise level is that of an airplane type design that may itself have been modified using levels of power or thrust different from those of its "parent" aircraft. This potential for repeated modifications using dissimilar power or thrust, and the fact that aircraft covered by § 36.1(c)(2) are already incapable of complying with the noise limits specified in Appendix C, dictate that more restrictive test conditions, designed to positively prevent even further takeoff or sideline noise escalation, be applied to those aircraft than are necessary for aircraft whose modification is tied to the noise levels of Appendix C.

5. It was stated that prohibiting reduction of power or thrust under § 36.1(c)(2) will seriously curtail the industry practice of developing growth versions of aircraft. The specific claim was made that such an effect would not be economically reasonable and would violate the FAA's duty, under section 611 of the Federal Aviation Act of 1958, to consider whether any proposed standard or regulation is economically reasonable. The FAA disagrees. The effect of § 36.1(c)(2), as amended by this action, is simply to require a type certificate change applicant to either develop means of "freezing" the noise level of the aircraft, or to accept the economic value of the airplane as it is. No effect on the current economic viability of an aircraft is imposed by this amendment. Considering the high noise levels generated by aircraft covered by § 36.1(c)(2), a requirement that desired economic growth be accomplished without acoustical degradation is believed to be reasonable and fair for aircraft that already exceed the noise limits of Appendix C of Part 36.

6. One comment stated that the FAA has issued an Advisory Circular (AC 91-39, January 18, 1974) which refers to a reduction in power or thrust at a height of 1,500 feet above field elevation. It was argued that the FAA should, therefore, permit such a cutback under § 36.1(c)(2). The FAA disagrees. The terms of AC 91-39, while intended to encourage the reduction of the total takeoff noise impact of aircraft operations, were not intended, and are not detailed enough, to ensure that design changes incorporated into a given aircraft do not increase the noise generated by that aircraft. Requiring full takeoff power, before and after the type design change, will, on the other hand, help to minimize the probability that a modified aircraft will be noisier than it was before modification under a range of takeoff procedures (including those in AC 91-39).

7. It was stated that prohibiting reduction in power or thrust is inconsistent with achieving takeoff noise reduction over communities. This comment is partially correct with respect to takeoff procedures used in actual operation. However, the purpose of the certification procedures in § 36.1(c)(2) is not to determine how quiet an aircraft can be in operation, but is rather to ensure that, if the aircraft already exceeds Appendix C noise levels, its capability of generating noise is not increased further when a type certificate change approval is issued. For this purpose, the aircraft must be tested at full takeoff power.

8. One comment stated that requiring comparative noise testing at takeoff power could involve the retesting of airplanes that may have previously been tested with reduced thrust, since noise data would not be available for those airplanes at takeoff power. It is recognized that this amendment may have this effect. However, insofar as previously acquired noise data was obtained through the use of procedures that may permit noise to escalate, the FAA believes that such data should not continue to be used and that the cost of obtaining new data is justified by the public interest in preventing escalation of the noise levels of aircraft that already exceed the limits specified in Appendix C.

C. The quietest configuration. Comments were received stating that the proposed requirement that takeoff and sideline noise demonstrations under § 36.1(c)(2) be conducted using "the quietest airworthiness approved configuration" is unclear. It was suggested that the regulation refer instead to "the quietest comparable airworthiness approved configuration of that airplane model" (prior to the change in type design). The FAA believes that adoption of the commentor's proposed language could cause unnecessary penalties by requiring comparison of the modified aircraft with one having the same model designation but that is quieter. Such a result would be more restrictive than intended by the regulation, which is only intended to require that the modified airplane not be noisier than it was prior to the type design change. The rule as proposed by FAA requires comparison only with the quietest configuration of the type design of the particular aircraft for which a type certificate change is being issued.

D. *Other comments.* 1. One comment stated that the proposal to apply the new requirement to all applications received after the publication date of Notice 71-26 would make it impossible for manufacturers to fix designs, start production, and make final commitment until the certification requirements are finally established. The FAA agrees that, unless sufficient reasons exist, type certification regulations should apply only to applications received after the effective dates of such regulations. However, as stated in the Notice, the FAA believes that sufficient reason exists in this case, since the effectiveness of the proposals in the notice could be compromised, possibly for long periods of time, unless the amendment is applied to all applications made after the notice was published in the FEDERAL REGISTER. As also stated in the notice, however, this amendment is not retroactive to any type design change approvals issued before its effective date.

2. It was stated that changing the manner in which acoustical changes are evaluated would constitute an infringement on the pre-existing rights of type

certificate holders. Nothing in this amendment affects the ability of type certificate holders to exercise the rights granted therein. However, such rights do not include the right to obtain further FAA type certificate change approvals, the effect of which would be to authorize escalation of the noise of aircraft that already exceed Appendix C noise limits.

3. It was urged that the provisions of §§ 36.101 and 36.103 concerning the approval of equivalent procedures should be retained. With respect to compliance with Appendices A and B of Part 36, this amendment does not alter the provisions for approval of equivalent procedures for measuring and evaluating aircraft noise under those appendices during acoustical change demonstrations. It is not, however, intended that the equivalency provisions applicable to the measurement and evaluation of noise under §§ 36.101 and 36.103 be extended to include the flight test procedures of § 36.1 (c) (2) (i) through (iii). Those procedures are thus stated to be "in addition to the applicable provisions of Appendices A and B of this Part" and are essential aspects of a valid comparative noise test for aircraft that are not limited by the noise levels specified in Appendix C.

Finally, in order to prevent a conflict between the new provisions of § 36.1(c) (2) and those in the general takeoff test conditions prescribed in § C36.7 of Appendix C of Part 36, paragraph (a) of the latter section is amended to specifically except the provisions of § 36.1(c) (2).

(Sections 313(a), 601, 603, and 611, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423, and 1431 as amended by Noise Control Act of 1972 (P.L. 92-574)); Section 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Title I, National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); Executive Order 11514, March 5, 1970)

In consideration of the foregoing, Part 36 of the Federal Aviation Regulations is amended, effective January 20, 1975, as follows:

1. Section 36.1(c) (2) is amended to read as follows:

§ 36.1 Applicability.

• • • • • •

(c) • • •

(2) The noise levels created by the airplane prior to the change in type design, measured and evaluated as prescribed in Appendices A and B of this part, for airplanes that cannot achieve the noise limits prescribed in Appendix C of this part prior to the change in type design. For airplanes covered by this subparagraph for which application for acoustical change approval is received by the FAA after September 17, 1971, the following must be complied with, in addition to the applicable provisions of Appendices A and B of this part, in determining the takeoff and sideline noise levels of the airplane:

(i) There may be no reduction in power or thrust, below the highest airworthiness approved power or thrust, during the tests conducted before and after the change in type design.

(ii) For the noise levels measured and evaluated before and after the change in type design, the test day speeds and the acoustic day reference speed must be the minimum approved value of V_2+10 knots, or the all-engines-operating speed at 35 feet (for turbine engine powered airplanes) or 50 feet (for reciprocating engine powered airplanes), whichever speed is greater as determined under the regulations constituting the type certification basis of the airplane. The tests must be conducted at the test day speeds ±3 knots. Noise values measured at the test day speeds must be corrected to the acoustic day reference speed.

(iii) During the tests conducted before the change in type design, the quietest airworthiness approved configuration available for the highest approved takeoff weight must be used.

2. Section C36.7(a) of Appendix C of Part 36 is amended by inserting the words "Except as provided in § 36.1(c) (2)" before the words "this section applies • • •."

Issued in Washington, D.C., on December 12, 1974.

ALEXANDER P. BUTTERFIELD,
Administrator.

[FR Doc.74-29480 Filed 12-18-74;8:45 am]

[Docket No. 74-SO-116; Amdt. 39-2047]

PART 39—AIRWORTHINESS DIRECTIVES

Piper PA-28-180 Airplanes

There has been an instance where an incorrect placard was installed on a Piper PA-28-180 airplane which could result in improper operation. Since this condition could exist in other airplanes of the same design, an airworthiness directive is being issued to require inspection for the correct placard and replacement if necessary on Piper PA-28-180 airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new airworthiness directive:

PIPER. Applies to Model PA-28-180 airplanes serial numbers 28-7305001 through 28-7505079 certificated in all categories.

Compliance required as indicated.

To detect an incorrect placard accomplish the following:

a. Before further flight, unless already accomplished, check the Airplane Operating Limitations Placard to insure that it indicates that spins are not approved for normal and utility category operation. If placard correctly indicates that spins are not approved, no further action is necessary.

b. If the incorrect placard is installed, cut out appropriate temporary Operating Limitations Placard from Piper Service Bulletin No. 436 or an FAA approved equivalent and attach over existing placard before further flight.

c. If a temporary placard is necessary, install permanent placard Piper Part No. 76206-00 (m.p.h.) or 76296-00 (knots) or an FAA approved equivalent within 100 hours time in service from the effective date of this AD.

The action required by paragraphs (a) and (b) may be performed by the pilot.

NOTE.—For the requirements regarding the listing of compliance and method of compliance with this AD in the airplane permanent maintenance record, see FAR 91.173.

This amendment becomes effective December 21, 1974.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Georgia on December 9, 1974.

P. M. SWATEK,
Director, Southern Region.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

SANITIZING SOLUTIONS; CORRECTION

In FR Doc. 64-11578 appearing at page 15266 in the issue of Friday, November 13, 1964, the substance "diethylene glycol monoethyl ether" was inadvertently listed as a required ingredient rather than an optional ingredient of the stanitizing solution identified in § 121.2547(b) (4).

Section 121.2547(b) (4) is corrected by listing diethylene glycol monoethyl ether as an optional ingredient. As corrected, § 121.2547(b) (4) reads as follows:

§ 121.2547 Sanitizing solutions.

• • • • • •

(b) • • •

(4) An aqueous solution containing iodine, butoxy monoether of mixed (ethylene-propylene) polyalkylene glycol having a cloudpoint of 90° C–100° C in 0.5 percent aqueous solution and an average molecular weight of 3,300 and ethylene glycol monobutyl ether. Additionally, the aqueous solution may contain diethylene glycol monoethyl ether as an optional ingredient.

• • • • • •

Dated: December 12, 1974.

SUBCHAPTER D—DRUGS FOR HUMAN USE

PART 449—ANTIFUNGAL ANTIBIOTICS

Revised Minimum Potency Limit for Nystatin

A notice was published in the FEDERAL REGISTER of August 30, 1972 (37 FR

17561), proposing to raise the minimum potency limit for nystatin from 2,000 units to 3,800 units per milligram. The notice afforded interested persons an opportunity to submit written comments on the proposal within a 60-day period. Comments were received from two manufacturers of nystatin, as follows:

1. One manufacturer objected to the 3,800-unit limit as too low in light of today's advancements in manufacturing and processing the drug. The firm proposed a limit of 4,500 units per milligram instead.

2. The second manufacturer, who requested a delay in establishing a new potency limit for nystatin, stated that there is a significant difference between the potencies obtained by them and those obtained by the Food and Drug Administration and that these differences should be resolved before a new minimum potency is established. This firm felt that a problem might result from the nystatin standard used in the assays, and requested that a decision on the minimum potency be delayed until the new nystatin standard, then under consideration, was established.

At the completion of a collaborative study, the new standard was established in August 1973.

After receipt of the comments, the Food and Drug Administration reviewed the certification records for both firms for fiscal year 1973 and 2 previous years. A compilation of that data showed that nearly all batches submitted for testing had a potency value of at least 4,400 units of nystatin per milligram.

Both firms were informed by letter that, based on a reevaluation of available data and experience with the new standard, a minimum potency of 4,400 units was being considered instead of the originally proposed limit of 3,800 units. Comments from both firms are on display in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

The firm that had proposed a 4,500-unit limit agreed to the 4,400-unit limit.

The second firm stated that, although the product produced at one of two locations would meet the 4,400-unit recommended limit, occasional batches produced at its other facility would be rejected under the new specification. This firm also stated that because of the possible future shortage of petroleum-based products, substitution of solvents might be necessary and might result in a product of lower potency.

The Commissioner of Food and Drugs finds that it would not be in the best interest of the public to allow material of lower potency on the market simply because of the possible rejection of occasional batches; and if alternate procedures were employed to produce this drug, these procedures would have to have prior approval by the Food and Drug Administration. If they resulted in a product of lower potency, revision of the potency limit would be considered at that time.

After considering all the comments and evaluating laboratory data as well as certification experience based on the new standard, the Commissioner concludes that the minimum potency for nystatin should be raised to 4,400 units per milligram and that the antibiotic drug regulations should be amended as set forth below. (The antibiotic drug regulations were reorganized and republished in the FEDERAL REGISTER of May 30, 1974 (39 FR 18922).)

Therefore, under provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), § 449.50 (formerly § 148k.1) *Nystatin* is amended in paragraph (a) (1) (i) by changing the figure "2,000" to read "4,400."

Effective date. This order shall become effective January 20, 1975.

(Sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357))

Dated: December 13, 1974.

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs, Bureau of Drugs.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 426]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by o designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
Alabama	Perry	Marion, city of	Dec. 13, 1974. Emergency			
Colorado	La Plata	Unincorporated areas	do			
Florida	Pasco	New Port Richey, city of	do	Jan. 16, 1974		
Do	St. Johns	Hastings, town of	Sept. 28, 1970. Emergency Dec. 31, 1971. Suspension Dec. 6, 1974. Reinstated	July 19, 1974		
Illinois	Will	Beecher, village of	Dec. 13, 1974. Emergency	Apr. 12, 1974		
Do	McHenry	Lake in The Hills, village of	do	do		
Kansas	Harvey	Sedgwick, city of	do	June 7, 1974

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19555; FCC 74-1042]

PART 1—PRACTICE AND PROCEDURE

Implementation of the National Environmental Policy Act of 1969; Termination of Proceeding

1. A notice of proposed rulemaking in this proceeding was released on August 1, 1972 (FCC 72-663, 36 FCC 2d 108, 37 FR 15711, August 4, 1972). The purpose of the proposed rules was to implement the National Environmental Policy Act (NEPA)[1] and particularly Section 102(2)(c) of that Act. Section 102(2)(c) requires all agencies of the Federal Government to consult with and obtain the comments of expert Federal agencies before taking any major action significantly affecting the quality of the human environment and, following such consultation, to prepare a detailed environmental impact statement. Copies of the statement and of the comments of appropriate Federal, State and local agencies are to be made available to the Council on Environmental Quality (CEQ) and to the public under the Public Information Act and are to "accompany the proposal through the existing agency review processes."

2. The proposed rules required applicants for authority to construct communications facilities to submit with the application either a preliminary environmental report, if the construction would not have significant environmental effect, or a detailed report if it would (§§ 1.1315 and 1.1317). Where it appeared that construction would involve a significant environmental problem and that comment would be helpful in assessing environmental effect, the applicant was required, prior to filing, to notify and request comment from persons and organizations which could provide such comment (§ 1.1311). Under § 1.1315(a), applicants for authority to engage in construction of a very minor nature were excused from the reporting requirement. In the case of construction involving expenditures of less than $100,000, applicants were permitted to substitute for the preliminary environmental report a statement that the project would not have significant environmental effect, provided the application was one for which the Commission gave public notice of filing (§ 1.1313). Section 1.1321 dealt with the Commission's consideration of environmental reports and specified procedures for eliciting agency and public comment on such reports. Section 1.1323 specified procedures for consideration of comments received and for Commission preparation of a detailed environmental statement. Section 1.1325 dealt with consideration of the statement during the hearing and decision-making process.

3. Comments and reply comments on the proposed rules were requested by September 29 and October 30, 1972, respectively. At the request of the American Radio Relay League, the time for filing comments was extended to October 31 and the time for filing reply comments was extended to December 8, 1972. Comments and/or reply comments were filed by the following interests:

Dr. Richard A. Tell (informal comments)

4. In carrying out its consultative responsibilities under NEPA and in accordance with Executive Order 11514, CEQ has issued Guidelines, which essentially constitute an interpretation and amplification of section 102(2)(c) and advice to agencies on its implementation.[3] Although the Guidelines are variously referred to as rules or a directive and are phrased in mandatory terms, they are, in our judgment, merely advisory in nature, as some participants in this proceeding maintain, and do not have the force and effect of law. As guidance provided by the expert agency pursuant to a statutory mandate, however, they are entitled to respect and should not be varied from unless an agency, after consultation with the Council, is convinced that their application in a particular factual and procedural setting is not sensible or is unreasonably disruptive or unworkable. See Greene County Planning Board v. F.P.C. 455 F.2d 412, 421 (2nd Cir. 1972). We have carefully studied the Guidelines and the comments and have drawn on them heavily in drafting final rules to implement the Act.

5. Taken as a whole, the comments question the viability of the proposed rules. They raise a number of questions concerning the overall approach and details of the rules and contain many constructive suggestions. In many respects, these suggestions are close in substance to the guidance offered by CEQ. Perhaps the two most important points made are (1) that the Commission should make a greater effort to identify those of its actions which are major within the meaning of NEPA and should require the submission of environmental data only for such action; and (2) that the Commission should assume responsibility for conclusions regarding the environmental effect of its actions and not ask the applicant to do so.

6. In a similar vein, § 1500.6(c) of the Guidelines provides that, "The words 'major' and 'significantly' are intended to imply thresholds of importance and impact that must be met before a statement is required," and that each agency is responsible for identifying those of its actions which pass these thresholds. Section 1500.7(c) reads as follows:

(c) Where an agency relies on an applicant to submit initial environmental information, the agency should assist the applicant by outlining the types of information required. In all cases, the agency should make its own evaluation of the environmental issues and take responsibility for the scope and content of draft and final environmental statements.

Section 1500.8(c) goes on to say that for actions which normally require statements and for those which require statements in certain circumstances, the agency should identify the typically associated environmental consequences and specify what information needs to be gathered, how and when it is to be assembled and analyzed, and the bases on which decisions to prepare impact statements will be made.

7. We are in agreement with these points made in the comments and the Guidelines and have, accordingly, substantially modified the proposed rules. The "notice by the applicant" provision (proposed § 1.1311) and provisions of proposed §§ 1.1315 and 1.1317 calling for conclusions on the part of the applicant have been deleted, and adjustments have been made in other sections. These changes reflect our acceptance of responsibility for assessing the environmental significance of our actions and, in the case of environmentally significant actions, for invoking and implementing the environmental impact statement process. To require the applicant to make judgments and to give notice which must subsequently be made and given by the Commission is a pointless and wasteful process. If he concludes that the action is significant and the Commission disagrees, his efforts to comply with such a requirement have been totally wasted. If he concludes that the action is not significant and the Commission disagrees, the proceeding is delayed while he complies with the requirement, and the notice and report-statement process is engaged in both by the applicant and the Commission, with consequent annoyance and burden to those asked to comment. If the applicant and the Commission agree that the action is significant, the notice and report-statement process is also duplicated.

8. The proposed $100,000 threshold provision (§ 1.1313) has also been deleted. This is based on our conclusion, following consideration of the comments, that a dollar figure cannot be used in a meaningful way to distinguish between major and minor communications facilities. Most of those who discussed this provision urged an increase in the dollar amount or the elimination of land and electronic equipment from the cost computations. We were principally impressed, however, by comments filed by the Association of Federal Communications Consulting Engineers, which took the position that the cost of an antenna structure had little relationship to its environmental significance. The Association stated that the cost of a 400 foot self-supporting structure may exceed $100,000, whereas a guyed tower over 1,000 feet tall or ten 200 foot towers can cost less than $100,000. The magnitude of the structures referred to makes it evident that the specific $100,000 figure is not an appropriate threshold; and disparities in the environmental effect of structures which can be constructed for a given dollar value demonstrate that a dollar threshold provision is not realistic. We will instead endeavor herein to distinguish between major and minor facilities on the basis of their physical characteristics and probable environmental significance. At first blush, it might seem that deletion of the $100,000 provision materially, and perhaps unnecessarily, increases the burden on applicants. However, the provision as proposed could be taken advantage of only if the applicant could perceive no significant environmental effect and if construction of the facilities had not been the subject of local objection. In such a case, the environmental information required by the final rules consists of little more than a description of the facilities to be constructed, a description of the area in which the facilities are to be located, and a statement as to the considerations which led to selection of that area for the site. See § 1.1311(a). This is information the applicant should not find it difficult to furnish, and is the minimum information required by the Commission to make the environmental determination for which we are accepting responsibility.

9. In summary, the final rules identify types of facilities which are considered to be major on the basis of their probable environmental significance (see § 1.1305) and require that information relating to such facilities be submitted

[3] 38 FR 20550, August 1, 1973, 40 CFR Part 1500. A copy of the Guidelines is attached hereto as Appendix 2, filed as part of the original document.

DEC 19 1974 V 39 N 245 XUM

to the Commission with applications for construction permits (see § 1.1311). On the basis of available information, including information submitted by the applicant, the processing staff will assess the environmental consequences of a grant (see § 1.1313). If the environmental consequences are considered significant, the staff will, to the extent it is useful and appropriate, discuss matters of environmental concern with the applicant, concerned individuals, and experts, in and out of Government, in an effort to identify alternatives which are not, or which are less, objectionable. The applicant may in the process withdraw his application or amend it to eliminate or reduce its environmental significance. If these efforts fail to resolve the matter, the staff will prepare a draft environmental impact statement and will take the measures necessary to obtain comment from appropriate agencies and the public (see § 1.1315). Upon consideration of the comments, the staff will prepare, and the Commission will consider, a final environmental impact statement (see § 1.1317). Section 1.1319 concerns consideration of the final statement in a hearing proceeding. The final rules are set out as Appendix 4 hereto.

Major Actions

10. With regard to actions considered major under NEPA and Section 1500.6(c) of the Guidelines,[5] we think there is no class of action taken by the Commission which will always or even usually require the preparation of an environmental impact statement. There are three principal classes of action which will require the preparation of statements in certain instances: legislative proposals, rule making and actions authorizing "major" construction.[6] It is possible that other Commission actions will require preparation of a statement in unusual circumstances, but we are unable to forecast what those actions or circumstances may be, and their identification must be left to a case-to-case determination. Legislation and rule making are discussed in paragraph 12, infra. In the case of major construction, information needed by the Commission should be submitted with the application and will be analyzed when the application processing staff reaches the application for processing. The classes of construction considered major, information to be submitted with the application, typical environmental consequences of such construction, and the bases for preparation of an impact statement are discussed in paragraphs 13–38.

11. The Network Project, referring to the social importance of a diversity in sources of information, advances the argument that actions involving "the growth * * * of large media conglomerates" warrant preparation of an environmental impact statement. Diversity of control over the news media is clearly an affirmative social value. We think, however, that invocation of the environmental statute must be related in some meaningful way to the effect of an action on the physical environment. We fully understand that the societal consequences of environmental change warrant consideration in making environmental determinations. But actions which have no discernible impact on the physical environment cannot be held to require preparation of an impact statement, no matter what social, economic or moral issues may otherwise be presented. We can find no relationship between the ownership structure of broadcast facilities and the physical environment, and consequently reject the position advanced by the Network Project. An action made subject to the environmental impact statement process should have some reasonably proximate and predictable effect on the physical environment.

12. *Legislation and rulemaking.* In advance of specific legislation or rule making, it is difficult to be more definite than to say that an impact statement will be prepared when the enactment of legislation (or its defeat) or the adoption of a rule (or its rejection) appears to carry with it significant environmental consequences. We do not expect to propose environmentally significant legislation but are nevertheless aware of our responsibilities should we propose such legislation or, as is more likely, should we be asked to comment on environmentally significant legislation proposed by others. In one rule making area, frequency allocation proceedings, it is possible to be somewhat more definite. The preparation of a statement would be appropriate in proceedings which involve the availability of frequencies for use in a way which can significantly affect the physical environment. Examples would include communications facilities designed to warn of power outages, of an oil spillage, or of forest fires. A statement will be prepared before a rule having a significant adverse effect on facilities devoted to such uses is adopted and before a rule having a significant beneficial effect on them is rejected. We do not consider that it would serve the interest of the public or of the environment to prepare a statement prior to action which has a beneficial effect, since preparation of the statement would delay the benefit. We stress, in addition, that the use of the radio spectrum for environmentally beneficial purposes must, realistically, be dealt with in frequency allocation rule making proceedings rather than in particular application proceedings.

13. *Major actions authorizing construction.* NEPA applies to major Federal actions having a significant effect on the quality of the human environment. Considerable thought has been given to the question of whether it is possible to determine in advance, by rule, that a particular class of Commission action authorizing construction is either major or minor within the meaning of the act, to list those classes of action which are major, and to consider environmental significance only in the case of major action. It would appear, however, that such an effort cannot be usefully attempted. With the possible exception of extreme cases, where the conclusion would in any event be obvious, the importance of an action within the meaning of NEPA cannot be separated from its environmental significance[5] and, in the case of construction, significance cannot be considered apart from the location of the construction being authorized. We do think, however, that advance judgments can be made as to the likelihood that actions within a class will have significant environmental effect and that this factor can properly be considered in determining whether routine environmental processing of applications is called for. We have followed this course. From the continuum of Commission actions authorizing construction (over 500,000 annually), we have singled out as "major" those which, on a relative basis, we think are more likely than others to have significant environmental effect. Environmental information will be required with applications requesting the Commission to take such actions, and the Commission will make an environmental judgment before taking the action. In the case of other ("minor") actions, the Commission will not engage in routine environmental processing but reserves the right to address such significant environmental questions as appear and will do so on motion of any interested person. Factors we have considered in selecting major classes of actions include the size of the facilities to be authorized, their geographic extent, their typical location and the activity

[5] The reader may find it helpful at this point to refer back to para. 8, supra.

[6] The Guidelines are in part directed to internally generated programs (e.g., flood control) in which an agency plans, designs and possibly constructs facilities (e.g., dams) which impact the environment. In some respects, they seem better adapted to this type of activity than to the activities of a regulatory agency, whose normal function is to approve or disapprove proposals submitted to it by others under procedures providing fully for participation by interested persons or agencies. In Commission practice, legislative proposals, rule making and enforcement proceedings may be generated internally. Legislation and rule making initiated by the Commission can be environmentally significant, but Commission initiated enforcement proceedings are not.

[5] In our inquiry into this question, we have located only one case, *Davis v. Morton*, 336 F. Supp. 1256 (D.N.M. 1971), which was decided, even in part, on the ground that the action of a Federal agency, although having environmental significance, was not "major", and that case was reversed on appeal, 4 ERC 1735 (10th Cir. 1973). In a second case, the court determined that the action was not major but, in doing so, looked to the particular facts and circumstances and went on to conclude independently that the project was not significant. *Julis v. City of Cedar Rapids, Iowa*, 349 F. Supp. 93 (N.D. Ia. 1972).

involved in constructing them." Another permissible factor, we think, but one we found it unnecessary to consider, is the number of applications for which routine environmental processing would be useful and productive, it being apparent that processing in every instance would be neither possible nor productive, so diluting staff attention as to produce no useful results.

14. On the basis of these criteria, we consider that the following classes of facilities are "major":

(a) Underground cable or wave guide routes, and aerial transmission lines, for long distance tele-communication.[7] (This category does not include the installation of additional cable over existing routes. Nor does it include the laying of submarine cable.)

(b) Private and common carrier microwave relay antenna towers or supporting structures exceeding 100 feet in height, excluding pole mounted microwave antennas. (This category does not include the mounting of a microwave antenna on an existing tower or building.)

(c) Standard (AM), FM, television and international broadcast antenna towers or supporting structures which exceed 300 feet in height, and all AM broadcast directional arrays without regard to height. (This category does not include the mounting of an FM or television antenna on an existing tower or building.)

(d) Other antenna towers or supporting structures including pole mounted microwave antennas, which exceed 300 feet in height and are not located in areas devoted to heavy industry or to agriculture. (This category does not include the mounting of small antennas on an existing tower or building.)

(e) Satellite earth stations having an antenna of 30 feet or more in diameter.

(f) Communications facilities to be located in the following areas:

(1) Facilities which are to be located in an officially designated wilderness area or in an area whose designation as a wilderness area is pending consideration;

(2) Facilities which are to be located in an officially designated wildlife preserve or in an area whose designation as a wildlife preserve is pending consideration;

(3) Facilities which will affect districts, sites, buildings, structures or objects, significant in American history, architecture, archeology or culture, which are listed in the National Register of Historic Places or are eligible for listing (see 36 CFR 800.2 (d) and (f) and 800.10);

(4) Facilities to be located in areas which are recognized either nationally or locally for their special scenic or recreational value.

(g) Facilities whose construction will involve extensive changes in surface features (e.g., wetland fill, deforestation or water diversion).

These categories do not include a modification of existing facilities involving no change in the site, and no substantial change in the height, of those facilities, construction of antenna structures to be located in an antenna farm, construction of temporary antenna structures which will have no lasting effects of environmental significance, or replacement of an existing structure with a structure of the same kind on the same site. Classes of facilities not listed in (a)–(g) above are considered minor. The bases for the classification of facilities as major or minor are discussed below.

15. *Cable routes.* In developing a new underground cable route, a swath is cleared and trenched, the cable is buried, and the swath is restored. Thereafter, it must be maintained in a condition permitting access by maintenance vehicles. Repeater facilities, which may be housed in a small structure or buried, are usually required approximately every one to four miles. Access roads and a source of electrical power must be provided for such facilities.

16. Underground cable routes are considered "major" because they involve considerable construction activity over long distances, potentially affecting all types of terrain and land uses, because they are national in scope and can therefore pose difficulties for local, State and regional land use authorities, and because they involve the clearance and continuing maintenance of a swath through the territory covered which can permanently scar the landscape. Although there may be other relevant considerations, such as construction activity, our main concern is with the appearance of the swath.

17. The installation of new cable over existing cable routes is excluded from this category because it involves no new scarring of the landscape and because use of existing routes is environmentally preferable to construction of a new route.[8] Action on an application for a submarine cable landing license is also considered a minor action. Although laying transoceanic cable obviously involves considerable activity over vast distances, the environmental consequences for the ocean, the ocean floor, and the land are negligible. In shallow water, the cable is trenched and immediately covered; in deep water, it is simply laid on the ocean floor. In the landing area, it is trenched for a short distance between the water's edge and a modest building housing facilities.

18. It is evident that the route between at least two major terminals must be considered as a whole. To the extent practicable, the route should be planned to utilize farm land and fields which have already been cleared, where there would be no significant visual impact, and to avoid wooded, hilly terrain, where the visual impact would be the greatest. Where the swath will leave a visible scar on the landscape, the route should be planned to avoid areas of special scenic beauty, historical or archeological significance, park land, recreation areas, and other areas of high use by man. Areas in which construction and maintenance activity would have an unduly disruptive effect on wildlife should also be avoided. When sensitive areas must be traversed, special design features can and should be used to minimize the visual impact. To the extent feasible, for example, cable should be routed through less visible, low lying areas and should be screened by natural vegetation from areas of extensive use. Where serious aesthetic or other environmental problems are unavoidable, consideration should be given to the alternative of microwave relay stations over all or part of the route.

19. In applications for authority to construct cable facilities, we want the applicant to describe the terrain to be traversed and its uses, to discuss environmental and other considerations which led to selection of the particular route, to discuss the nature and extent of any unavoidable adverse effects along the route selected, to discuss efforts made to minimize such effects, and (where adverse effects are present) to explain whether alternative routes were considered, why they were rejected, and why the alternative of cable was decided on. In deciding whether to prepare an environmental impact statement, the Commission will look to the terrain and its uses. Where the cable route is unobtrusive or where the area has no special environmental significance and design features have been utilized to minimize environmental impact, no statement will be prepared. Where the route adversely affects an environmentally sensitive area or where it seriously impacts a mar-

---

[6] The electric power consumed by communications facilities may also prove to be a relevant consideration. However, energy conservation officials have not at this date taken steps to curtail new uses of electricity, and since new projects are unlikely to be undertaken without assurance of adequate energy to operate and heat the facilities, this step may prove to be unnecessary. In the absence of guidance from energy conservation officials, we would not deny a permit because of the electric power usage the facilities entail.

To put this matter in perspective, the largest consumer of power among VHF television stations serving Washington, D.C. consumes from 250,000 to 350,000 kilowatt hours of electricity per month. This would be sufficient to power perhaps 1000 homes if the occupants of those homes were doing their utmost to limit their use of electric power. It would be far less in the summer months for air conditioned homes. By comparison the headquarters building for the FCC, with 306,477 square feet of office space, last year used between 385,000 and 450,000 kw/hours per month. The bulk of the power used by a VHF television station is for lighting, air conditioning and other common uses of electricity and not for the transmitter. Moreover, far greater power is used by television and radio receivers than is used to run the stations. Thus, energy conservation measures, if imposed, would have far greater impact if they were directed to the hours of operation of stations rather than to the number of stations operating.

[7] By and large, current authorizations are for underground cable routes only.

[8] If the installation of new cable does involve additional scarring, as by widening the swath, an environmental statement should be submitted.

ginally valuable area, a statement will be prepared.

20. *Microwave relay antenna towers.* Microwave relay antenna towers are part of a microwave relay system. Most stations are constructed at approximately 25 mile intervals along a route. As a line of sight beam path must be provided between adjacent stations, they are usually located on high ground, if available, and can be several hundred feet in height. They can be relatively bulky. Many are located in remote areas. Very little land is required, and construction is limited to erecting the tower, a small building to house equipment, and (if not already in place) an access road and a power line.

21. The microwave tower and the system with which it is associated are considered major because the tower is usually a relatively substantial structure in both height and bulk and because the system may extend over long distances, potentially affecting many types of terrain and land uses. A lower cutoff is specified for microwave than for other towers because the tower and the antennas mounted on it tend to be bulkier and more obtrusive than other towers of the same height. Here again, although there may be other relevant considerations, our principal concern is with the visual impact of the tower and service facilities on environmentally significant land use areas.

22. Towers of less than 100 feet in height have been excluded from this category because of their height, of course, but also because of their lesser bulk. Pole mounted microwave antennas are dealt with as "other antenna towers", *infra*, para. 30, because of their lesser bulk.

23. As is the current practice, microwave relay stations connecting at least two major terminals must be considered together. Environmentally sound construction techniques should of course be utilized and can be set out in a code (see Note 13, *infra*), but the effects of construction proper normally have little or no environmental significance. The principal, and probably the only, significant environmental effect is the visual impact of the completed facilities. To the extent possible, the route should be planned to avoid areas in which a tall man-made structure would intrude objectionably. The same considerations should govern the selection of particular sites. Generally speaking, for example, advantage should be taken of natural features such as hills and woodland to shield the tower from view.[9]

24. In applications for authority to construct microwave facilities, we want the applicant to discuss environmental and other considerations which led to selection of a particular route, to note the height and any special design features of the tower at each relay point, to describe the site of each station and discuss the reasons for its selection, to point out any special features of a site which distinguish it from the surrounding countryside or which would be helpful in assessing its environmental value, to discuss the nature and extent of any unavoidable adverse effects, to discuss efforts made to minimize such effects, and (where adverse effects are present) to explain whether alternative routes or sites were considered and (if so) why they were rejected. In deciding whether to prepare an environmental impact statement, the Commission will consider whether any of the sites selected has special environmental significance and (if so) whether and the extent to which the microwave station will intrude objectionably on the site. If the station were located on farmland in an area where more or less homogeneous farmland stretched for mile after mile, for example, it is unlikely that a statement would be necessary. If, on the other hand, a tower in the same farming area was so located as to visually impact a lake used for recreation or resort purposes or a historic battlefield, a statement probably would be necessary.

25. *Broadcast antenna towers.* Broadcast antenna structures are ordinarily at least 150 feet high and can be as high as 2000 feet or higher. The quality of service rendered depends, *inter alia*, on the height and location of the antenna. The location of the tower must be consistent with zoning and air safety requirements. Radio frequency interference caused and received is also a factor, as are the cost and availability of land. TV and FM antenna structures must be higher than surrounding buildings or natural formations and must provide line of sight communication with the service area. They should be located near to the service area, preferably at its center.[10] Standard (AM) antenna structures must be located where there is room for a ground system with a minimum radius of approximately 50 to 140 meters (equalling the height of the structure), depending on frequency. If possible, they should be located in areas where ground conductivity is favorable; marshy areas are preferred. Reradiating structures within the vicinity of the proposed site must be avoided. Topographical features, such as a series of hills between the antenna and the service area, are also of concern. See 47 CFR 73.188, 73.189, 73.315, 73.316, and 73.685.

26. Construction activity proper is usually not extensive. A self-supporting structure normally requires little land. The base area and the bulk of components, however, increase with height. The guyed tower requires a land area whose radius at least equals the height of the tower. An AM directional array consists of a cluster of towers (as many as 20, usually 3–8) and may extend over substantial acreage. Installation of the ground system associated with an AM antenna requires clearance of trees within the area.

27. The likelihood that broadcast antenna towers will have significant environmental effect depends on their height and bulk and the land area required for their construction. Those for which we think routine environmental processing is warranted, and which are therefore classified as major facilities, are single towers which exceed 300 feet in height (whether self-supporting or guyed) and AM directional arrays. Towers of lesser height are also less bulky or occupy a smaller land area and are considered minor. Under favorable conditions, in addition, FM and TV antennas, which are only a few feet in length, can be mounted on a tall building or an existing antenna tower. Doing so obviously has no significant aesthetic effect and is environmentally preferable to the construction of a new tower, provided there is compliance with radiation safety standards (see Appendix 3). New FM and TV antenna towers can also be located in an "antenna farm" (i.e., an area in which similar towers have already been clustered) and, when so located, are unlikely to alter the character of that area. For these reasons, authorizations involving use of existing structures or location of a new tower in an antenna farm are considered minor actions.

28. Depending on the nature and location of the site, construction activity could have some significant effect. Here again, however, the principal factor of environmental significance is the visual impact of the completed structure, which depends on its physical characteristics and its location. A tall tower can of course be seen from a considerable distance. At most locations in a built-up area, however, nearby buildings and trees are likely to block it from view. From a distance, moreover, the visual impact is very slight. People are more likely, we think, to regard a tower as a landmark, to be pointed out to visitors, than as an objectionable structure. There could be exceptions, as where the tower shares the horizon with, or blocks the view of, a locally treasured and otherwise dominant church spire. By and large, however, we think that visual impact at a distance will not have significant effect. The visual impact of an antenna structure on the immediate site is more likely to be significant. Here, local zoning and planning authorities have an important role. Their approval as well as the Commission's is required; their disapproval of a site on the basis of land use considerations is conclusive. The roles of land use authorities and the Commission are discussed *infra*, at paragraphs 39–41. Generally speaking, it can be assumed that broadcast antenna structures are environmentally compatible with industrial or farming uses, with most commercial uses, or with undeveloped areas lacking

[9] It should be understood that all generalizations of this kind are subject to exceptions. Thus, in a given case, it may be preferable to locate an antenna tower on the brow of a hill overlooking a scenic valley rather than in the valley. The view of the valley is thereby preserved, and the higher location may mean that smaller structure will suffice.

[10] Some structures are located on remote mountain sites at some distance from the community served. As a rule, however, they are located in developed areas.

special scenic value. Residential areas, city parkland and sites proximate to monuments or to historically or architecturally valuable buildings should ordinarily be avoided.

29. In applications involving the authorization of "major" broadcast facilities, we want the applicant to discuss environmental and other considerations which led to the selection of a particular site, to describe the surrounding area and its uses to describe any environmentally noteworthy buildings or features of the immediate area, to discuss the nature and extent of any unavoidable adverse effects, to discuss efforts made to minimize such effects, and (where adverse effects are present) to explain whether alternative sites were considered and (if so) why they were rejected. (The height and design features of the tower are of course relevant, but this information is routinely submitted as part of the application form and need not be duplicated in the narrative environmental statement.) In deciding whether to prepare an environmental statement, the Commission considers whether the site has any special environmental significance and (if so) whether and the extent to which it would be adversely affected by the antenna structure.

30. *Other antenna towers.* This category applies to all antenna towers other than broadcast and microwave relay antenna towers, and specifically includes pole mounted microwave antennas. It applies, for example, to television broadcast translator stations and to base stations associated with land or maritime mobile operations, but is not limited thereto. Most such towers are guyed and are similar in physical characteristics to guyed broadcast antenna towers of the same height. Towers of substantial height are almost always asociated with industrial, commercial, agricultural or local government activities and are therefore located in areas devoted to and/or zoned for those uses. Subject to the approval of appropriate Federal, State and local land use authorities, however, such towers may be constructed in any use area, including areas which are environmentally significant.

31. The likelihood that such towers will have a significant environmental effect depends on their height and location. Those for which we think routine environmental processing is warranted, and which are therefore classified as major facilities, are towers which are in excess of 300 feet in height and are not located in areas devoted to "heavy industry" or to agriculture. By the term, "heavy industry," we mean an area of intensive industrial use, normally containing large structures, covering substantial acreage, and isolated from less intense, and particularly residential, land use areas. Examples would include the following: steel mills, oil refineries, aluminum plants, chemical plants, power plants, oil fields, copper mines, freight yards, a heavy truck terminal, a major warehouse complex, etc. Dozens of other examples could be cited. What we mean to include is any area in which the environmental effect of a tall antenna tower would be virtually nil by comparison with the effect of the industrial facilities with which it is associated. In the case of agricultural activities, we would normally expect antenna towers to be located on large farms and ranches, near a house or outbuilding and at a considerable distance from highways or other areas of general use. By comparison with a silo or windmill, for example, the tower should be most inconspicuous.

32. We do not think we can make a blanket preliminary judgment concerning the probable aesthetic effect of tall antenna towers in areas devoted to uses other than heavy industry or agriculture. Our main concern here would be with residential areas and with scenic, recreational, historic and other comparable areas of special environmental significance. There is probably little basis for concern in areas of light industrial or commercial use, but we are not quite prepared to make the same blanket judgment for such use that we have made for heavy industry. Commercial areas, and particularly urban commercial areas, often have historic, architectural or life style characteristics which warrant protection. Theatres, art galleries, museums, libraries and other cultural facilities, as well as monuments and public parks, are frequently interspersed among commercial uses. Urban commercial areas, in addition, tend to merge into and impact adjacent areas of residential use. State and local government facilities, such as police stations and fire houses, are often located in, or adjacent to, predominantly residential areas. Radio facilities are found in coastal areas, for the benefit of boatmen, or in forests in connection with fire watch activities, and so forth, ad infinitum. Except as noted above, we do not think we can generalize about the compatibility of a given tower with a given area. What we are doing, and consider it reasonable to do, is to draw a line based on the height of the structure and to concentrate routine processing on the larger structures, for which the probability of significant effect is greater. The information to be submitted routinely with applications involving "major" antenna towers is essentially the same as that to be submitted with broadcast station applications, as discussed above at paragraph 29, and will be considered by the Commission in the same way in determining whether to prepare an environmental impact statement.

33. *Satellite Earth Stations.* For the most part, satellite earth stations currently being authorized consist of a circular parabolic dish or dishes with diameters of from 30 to 100 feet, a maximum height above ground level about the same as the diameter, and a small building to house equipment and operating personnel. They are now being located some 25–30 miles outside of the city served, and are connected with communications facilities in the city by a one or two hop microwave relay system or by cable. Where possible, they are located in areas protected from terrestrial interference, such as an abandoned quarry or a horseshoe valley open to the south. In the future, it is anticipated that smaller dish antennas will be located on the top of tall buildings in the city served.[34]

34. The authorization of earth stations is included as a major action because the facilities are substantial in size by comparison with most other communications facilities authorized by the Commission and because microwave relay antenna towers or cable facilities are an adjunct to the station.

35. Although the visual impact of the facilities is a factor, because they are relatively substantial, it seems to us unlikely that the impact would be adverse. Even assuming that the intrinsic aesthetic effect of a parabolic dish antenna would be adverse, its location in remote areas or on roof tops should minimize that effect. Experience to date, moreover, indicates that the location of an earth station at a given site tends to enhance aesthetic values at that site. The abandoned quarry which constituted a safety hazard, for example, would be fenced, terraced and otherwise restored. Moreover, satellite communication can serve as an alternative to cable or microwave facilities and should have less effect on the environment than those facilities.

36. In applications for authority to construct satellite earth stations, the applicant should furnish with his application a description of the facilities, the site and its uses, should point out any environmentally valuable features or uses of the site which would be intruded on by the facilities, should specify the environmental and other considerations which led to selection of the site, should specify measures taken to minimize any adverse environmental effects, if they are present, and (if there are adverse effects) should discuss any alternative sites considered and the reasons for their rejection. In deciding whether to prepare an environmental impact statement, the Commission will look to the site and its uses and the compatibility of the facilities therewith.

Environmental Consequences

37. In the above discussion of major actions authorizing the construction of communications facilities, we have stressed the visual or aesthetic impact of such facilities as their primary environmental effect. In most cases, indeed, if aesthetics were not a factor, we doubt very much that routine environmental input and processing would be justified. The construction of most antenna towers involves a minor amount of activity over a short period by comparison with projects for which impact statements have ordinarily been prepared by other agencies, and the operation of communications facilities appears to have little or no effect on the environment. They do not, for example, contribute in any dis-

[34] The authorization of earth stations having an antenna less than 30 feet in diameter is not considered a major action. Several of such smaller stations have been authorized in the amateur radio service.

XUM

tinctive or significant way to air or water pollution. They do not use hazardous substances, and, except as noted in the margin, do not produce them.[23] In short, as some of those submitting comments suggest, communications is a clean industry.

38. Our emphasis on the aesthetic consequences of communications facilities as the primary consideration, however, should not be read as meaning that other environmental consequences perceived by the applicant can properly be ignored; they should be dealt with in the narrative statement submitted with an application to construct major facilities. Such consequences may follow from construction activity per se or from operation and maintenance of the facilities. Construction can, for example, involve a substantial change in surface features—e.g., wetland fill—and can imput environmentally sensitive areas—e.g., a wildlife preserve. The statement should clearly indicate both the extent of construction activity and the characteristics of the site on which it is to be undertaken.[24] In a sensitive area, the recurring presence of maintenance vehicles can be a factor warranting consideration, as can be the noise associated with the operation of stand-by generators. In the case of antenna towers exceeding 500 feet in height, the impact of the structure on migratory birds is a matter of concern. Location of such structures along favored migration routes should be avoided if possible and, if not, should be discussed in the statement.[25] We offer these specifics simply as examples of possible environmental effects and obviously not as a compendium of all such effects, which would have in any event to be incomplete. For general insight into the variety of possible environmental consequences, we would suggest referring to Appendix II of the CEQ Guidelines, 38 FR 20557. In addition, it is well to keep in mind the basic questions which should be answered in the narrative statement, which are whether the impacted area is environmentally significant, whether the facilities or their construction, intrude objectionably on the area, whether measures have been taken to minimize any adverse effects, and whether less objectionable alternatives have been given fair consideration.

THE ROLE OF LOCAL, STATE AND FEDERAL LAND USE AUTHORITIES

39. Traditionally, in authorizing the construction of communications facilities, the Commission's concern with the physical plant has been limited to its communications efficiency. Other considerations relating to the physical facilities or to their construction have been the concern of local building, zoning and planning agencies and State and Federal land use authorities. Where they have jurisdiction, their approval as well as the Commission's is required. If comprehensive land use legislation is enacted by the Congress, moreover, State and regional controls will be extended to areas not currently regulated at the local level. (See, e.g., S. 268, 93d Cong., 1st Sess., introduced by Senator Jackson on January 9, 1973.) Local, State and regional land use authorities and Federal agencies responsible for the management of Government land are obviously better situated than the Commission—by location, experience, and awareness of local values—to deal with land use questions. Commission interference with common land use determinations traditionally made at the local level would under most circumstances place a considerable strain on our concept of the Federal system. Where local land use authorities have authorized the use of a site for communications facilities, we think that the Commission's role under NEPA should be narrowly construed. In such circumstances, we will proceed with caution and with due respect for the role and the qualifications of local authorities. Deference will be accorded to their rulings and their views, particularly in matters of aesthetics and when the record demonstrates that environmental issues have been given full and fair consideration. This is not to say, however, that we can defer entirely to State and local determinations. Although State and local authorities often take environmental factors into consideration, they do not function under NEPA, and their rulings do sometimes go to matters in which the Federal Government has a legitimate interest. Thus, their approval of a project cannot be accepted as conclusive and does not absolve the Commission of its statutory responsibilities. Their prior consideration of the project and objections thereto, on the other hand, should materially facilitate Commission efforts to reach the correct decision.

40. In the light of these considerations, it seems to us reasonable and highly desirable to suggest that persons objecting to the construction of communications facilities on environmental grounds voice their objections first to responsible local, State or Federal land use officials (if any), so that the Commission may have the benefit of their views and of their insight into the matters at issue. If an objection is filed first with the Commission, it will not be dismissed, but the person filing it may be requested to present his objection to appropriate land use officials; in that event action on the application will be deferred for a period which is reasonable under prevailing circumstances, pending the outcome of his efforts in this respect and Commission consideration thereof. The well-meaning individual who is sincerely concerned about the environmental consequences of a

---

[23] Radio facilities do, of course, emit nonionizing electromagnetic radiation (radio waves), the medium for transmission of communications by radio. Exposure to sufficiently high concentrations of such radiation can cause biological damage. Power densities of a magnitude warranting concern occur within the major lobes of the radiation pattern of high powered radio facilities within limited distances from the antenna and, with lower probability, may also occur in an area immediately surrounding the antenna but outside the major lobes of the radiation pattern. Commission policy is to require licensees to observe applicable exposure safety standards. If, for any reason, it is not possible to limit exposure to prescribed levels, existing licensees should notify the Commission to this effect while new applicants should prepare and submit an environmental impact statement dealing with the matter. Applicable safety standards and a more extended discussion are contained in Appendix 3.

[24] Since we are dealing with the repeated construction of similar facilities, we think it may be useful to develop a series of environmentally oriented construction codes. Such codes could cover the routing, siting and construction of communications facilities and would state principles and techniques designed to minimize their environmental effect. AT&T has developed a code covering cable routes and microwave stations. Bureau of Land Management Regulations Relating to the construction of power transmission lines also provide some specific guidance. See 43 CFR 2851.2–1. Other communications and construction companies, trade or professional associations, etc. concerned with the construction of like facilities at various locations may have developed similar codes, may find it advantageous to do so, or may choose to adopt the telephone company code, a copy of which is being placed in the docket file for this proceeding. Such codes could be submitted to the Commission for consideration under NEPA procedures. The approval of environmentally satisfactory codes under those procedures, followed by a statement of compliance for individual projects, should reduce in detail the information to be submitted with applications for authority to construct particular facilities.

[25] Towers less than 500 feet in height constitute a much smaller hazard than taller towers. We would expect an applicant for authority to construct a tall tower to seek out, consider and report such information concerning local migratory patterns as is available. Maps of the flyways of some species, particularly waterfowl, cranes and other larger birds, can be obtained from the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Washington, D.C. However, the usefulness of such maps in siting an antenna structure is limited. For the most part, sufficiently detailed information concerning local migratory patterns particularly for small birds, can be obtained only from ornithologists located at State universities or at other institutions within the area, if at all. The hazard is principally to the smaller song birds, some species of which characteristically fly at night and at lower altitudes than other species. The detection of nocturnal flight patterns involves the use of techniques (notably specially equipped aircraft and/or radar systems) which are not available to the casual bird watcher. (See Bellrose, Frank C., "The Distribution of Nocturnal Migrants in the Air Space," The Auk, Vol. 88, p. 397, April 1971.) The availability of information concerning such patterns varies a great deal from one area to another, depending on the intensity of scientific investigation within the area.

We would also expect the applicant to avail himself of such techniques as may be devised to minimize the hazard of tall towers to migratory birds. Evidence exists, for example, that birds are attracted to, rather than warned by, the usual tower lighting; and we would expect the applicant to utilize a modified lighting system, should one be approved by the FAA which had been demonstrated to be a lesser hazard. It is possible, but by no means certain, that the increasing use of strobe lights will lessen this problem.

Commission action will presumably welcome this opportunity to present his case at the local level. However, the procedure is voluntary and, if a person declines to follow it, the Commission may itself refer the matter to the appropriate land use officials. This procedure will be followed only if a possibly significant environmental concern has been raised, if it appears that the views of land use officials would be helpful in resolving it, and if time permits.

41. Our relationship with other Federal agencies which have a role in the authorization of communications facilities differs from the relationship between the Commission and State and local authorities. First, the roles of other Federal agencies are not limited to land use controls; and, secondly, since they also function under NEPA, the question is presented as to whether the Commission or another agency should assume responsibility for compliance with the statute. A number of the comments urge that responsibility for preparation of the environmental impact statement be clearly established and that there be no repetitive NEPA processing. APCO urges that joint review of environmental concerns be ruled out. Section 1500.7(b) of the Guidelines states that a single statement should be prepared, either jointly or by designation of a "lead agency" to prepare the statement. It further provides that, where a lead agency prepares the statement, other agencies should provide assistance and the statement should reflect the views of all. Factors in selection of the lead agency include the time sequence of their involvement, the magnitude of their involvement, and their relative expertise with respect to environmental effects of the project. There are several situations in which other agencies routinely have a role in the authorization of communications facilities:

(a) The Department of Health, Education, and Welfare makes funds available for the construction and improvement of educational broadcast facilities. Normally an applicant would apply simultaneously to HEW for funding and to the FCC for a construction permit.[32] Since the applicant must demonstrate to the FCC that he is financially qualified, an HEW grant would normally precede action by the FCC. As between HEW and the FCC, however, it appears that the Commission is in a better position to deal with environmental considerations. The electromagnetic characteristics of the station are its concern, and it is better equipped to judge the feasibility of alternative locations and facilities. Thus, if an environmental statement for such a station is prepared, the FCC will prepare it.[33]

(b) Where communications facilities are established on land under the jurisdiction of the Forest Service or the Bureau of Land Management, the issuance of a construction permit by the Commission is conditioned on the prior issuance of a land use permit by the appropriate agency. See 47 CFR 1.70. The land agency has infinitely greater knowledge concerning the land, its uses and prospective uses than does the Commission and, we assume, would simply deny the permit if the communications facilities would have a significant adverse effect on the land or its use. There may, however, be close cases in which import (or even vital) communications facilities significantly impact the land. In such cases, the land agency is better able to assess the environmental significance of the project, and the Commission should be better able to judge the importance of the communications facilities and the availability of feasible alternatives. In such circumstances, we would think that the land agency is better equipped to prepare an environmental statement; but, if the land agency prefers, we will decide, on the facts it presents, whether a statement should be prepared and, if so, prepare the statement. The land agency's grant of a use permit is persuasive evidence that the facilities to be constructed will not significantly affect the environment or, at least, that the land agency does not believe they will. However, the grant of a permit does not, as some of the comments maintain, excuse the Commission from considering the question of environmental effect under NEPA standards and procedures, if the land agency has not done so.

(c) In considering the authorization of antenna structures, the Commission seeks the views of the Federal Aviation Administration when there is a possibility that the structure may constitute a menace to air navigation. See 47 CFR 1.61 and Part 17. The existing procedures should suffice for air safety purposes. If the facilities have significant environmental effect for other reasons, the Commission will assume responsibility for preparation of an environmental statement.

Other Matters

42. Proposed § 1.1303 provided, among other things, that environmental considerations would be applied to applications involving the abandonment or razing of a structure. The deletion of that provision is based on the provisions of section 303(q) of the Communications Act, 47 U.S.C. 303(q), which imposes specific duties on the owner of an antenna tower which ceases to be licensed by the Commission. The owner is required (1) to maintain painting and illumination until the tower is dismantled, and (2) to dismantle and remove the tower, on order of the Commission, if the Administrator of the Federal Aviation Administration determines that it constitutes a menace to air navigation. It would thus appear that the Congress may have intended to limit the Commission's authority over abandoned towers to that prescribed by this provision. We are reluctant to burden these general rules with a provision for which the authority is doubtful. We will, however, address the question in a case involving particular facilities, should it appear that abandonment will have significant environmental effect.

43. Proposed § 1.1303 also covered applications for modification of existing facilities. (A minor exception was specified in proposed § 1.1315(a)(7).). Upon further consideration, we think that where communications facilities are in place, it is most unlikely that modification not involving a site change or a substantial increase in antenna tower height will have a significant effect on the environment. Section 1.1305(b)(2) of the final rules accordingly provides that actions authorizing the modification of facilities which do not involve a site change or a substantial increase in tower height are minor actions. As a general rule of thumb, height increases on the order of 20 feet or 10% (whichever is greater) are not considered substantial. Somewhat greater increases in height would be considered insubstantial if the increase saved construction of a new tower. Also, of course, the modification of existing facilities is not considered major if the facilities, as modified, are not major (if the height of a modified broadcast tower, for example, is less than 300 feet). The note following § 1.1305(a), and (b)(2), are designed to maximize use of existing structures. The other types of applications listed in proposed § 1.1315(a) which continue relevant have been carried forward into the final rules without major change. Section 1.1305(c) of the final rules provides protection in any circumstances in which construction listed as minor might prove to be major and significant.

44. Section 1.1311(c) of the final rules clarifies application of the rules to facilities licensed in the Safety and Special Radio Services. This provision requires the submission of environmental data and the completion of NEPA procedures *before construction is commenced*. It replaces precatory statements in paragraph 4 of the Notice of Proposed Rule Making, to the effect that it would be unwise for the applicant not to consider environmental consequences prior to commencing construction. The change reflects the Commission's acceptance of responsibility for making the environmental determination and our belief that it would be neither wise nor responsible to permit construction to go forward before that determination is made. This requirement of prior approval on environmental grounds should not, however, be looked upon as a requirement of prior approval under section 319 of the Communications Act or of prior approval of construction on other than environmental grounds.

45. Sections 1.1313 and 1.1315 of the final rules cover the consideration of environmental information submitted with major applications and carry the impact statement process up to the point of the final impact statement. These sections are roughly comparable to proposed Section 1.1323 but differ in important respects from the proposal. First, of course,

---

[32] The improvement of facilities may relate to matters beyond the Commission's jurisdiction, such as the purchase of stereo tape equipment, in which event, of course, no application is filed with the FCC.

[33] Similarly, telephone cooperatives are sometimes dependent on financing by the Rural Electrification Administration. The Commission would prepare any necessary impact statement for facilities to be constructed by such cooperatives.

XUM
V 39 I 245 DEC 19 1974
XUM

the final rules concern the consideration of information submitted by applicants rather than a conclusory report and reflect the Commission's assumption of responsibility for preparation of a draft statement. The second important difference is that environmental processing under the final rules is separated from the notice and petition to deny procedure prescribed by Section 309 of the Communications Act and similar procedures followed in the case of applications filed under Section 214 of the Act. The issuance of a notice of acceptance for filing (and parallel AM broadcast procedures), which triggers the petition to deny process, is a routine action involving no substantive consideration of the merits of the application. Consideration of environmental significance must wait to the point when the professional staff reaches the application for processing. Legal, financial, engineering and environmental matters will then be given consideration. If the staff determines that a grant would have significant environmental effect and informal measures fail to eliminate the environmental problem, the environmental impact statement process is initiated. Section 1.1313(b)(2) provides, *inter alia*, for early notice of the decision to prepare a statement, as suggested by Section 1500.5(e) of the Guidelines. The notice will offer a copy of the statement to any person who requests a copy before the statement is duplicated for distribution to agencies. Section 1.1313(c) provides for waiver of the construction permit requirement, and for temporary authorizations, where it appears that construction can proceed without significant environmental effect.

46. Some of the comments take the position that the Commission need not become involved in environmental regulation, that communications is a clean industry which does not present the country with significant environmental problems, or that existing procedures are entirely adequate to deal with any problems which may be presented. Such positions are, at best, difficult to understand. NEPA does, after all, apply to "all agencies of the Federal Government," and though we agree that the environmental effect of the communications industry is minor by comparison with many others, it seems to us clear, as has been indicated above, that there are major actions taken by the Commission which can have significant environmental effect. In the case of such actions, NEPA clearly requires consultation with expert agencies, the preparation of an impact statement, and consideration of that statement at all levels of the decision-making process, and these requirements clearly go beyond those of the Communications Act.

47. The Network Project takes the position that all persons who file applications should actively seek out public assistance in determining whether the construction they propose to undertake involves a significant environmental problem warranting submission of an environmental report, and that the public should have a role in the Commission's review of the applicant's determination. Since a determination by the applicant is not being required and will of course not be reviewed, this specific position is no longer pertinent. Nor will the Commission delegate its responsibility for making the determination to any private group submitting affidavits from two "expert witnesses" stating that the proposed facilities have "the potential of adversely affecting the human environment," as the Network Project suggests. We nevertheless understand the thrust of the Network Project's position, which is that the public should have a role in making the environmental judgment. The Commission gives public notice of the filing of applications considered major within the meaning of NEPA, and the public is thereby afforded an opportunity to comment on any aspect of those applications. When the Commission determines whether to prepare an environmental impact statement, environmentally oriented comments will be considered; and when the Commission decides to prepare such a statement, the procedures recommended by CEQ will be followed. In these circumstances, we think the role of all interested members of the public is assured.

48. Section 1500.2(b) of the Guidelines states that the draft environmental statement should be prepared and circulated for comment in time to accompany a proposed action through agency review processes for such action. Section 1500.7(a) states that the draft statement should be circulated prior to the first significant point of decision. The Guidelines do not precisely identify the point at which a final statement must be prepared, but NEPA provides that the final statement—i.e., one prepared following consultation with expert agencies—must be available during the decision-making process. It would appear that some preliminary procedures may be followed, and some actions which do not predispose the outcome may be taken, during the period in which comments on the draft statement are being submitted and a final statement is being prepared. In application proceedings, however, the first significant action taken is to grant the application or designate it for hearing; and as this action may terminate the proceeding, the final statement should be prepared before it is taken. In rule making proceedings, on the other hand, it would appear that the draft statement should be prepared and considered before issuing a notice of proposed rule making, that it should be circulated when the notice is issued, and that the final statement should be completed before rules are adopted.

49. Final § 1.1315(a) describes the content of the draft statement, noting in particular that the purpose of the statement is to assess *environmental* consequences and not to balance them against other considerations or to make a public interest determination, these matters being left to the decision-making process, during which the statement will be considered.

50. In response to a number of the comments and § 1500.3(a) of the Guidelines, providing that agency procedures should designate the officials who are responsible for the preparation of impact statements, § 1.1315(b) provides, for application proceedings, that the draft statement is prepared by the staff of the Bureau which is responsible for processing the application and submitting a recommendation to the commission. (The final statement is also prepared by the appropriate processing staff.) In rule making proceedings, the statements will be prepared by staff personnel responsible for the preparation of proposed and final rules. Section 1500.8(c) of the Guidelines states that agencies should attempt to have relevant disciplines represented on their staffs and that, where this is not feasible, should make appropriate use of relevant Federal, State and local agencies or the professional services of universities and outside consultants. Initially at least, the Commission will follow the second route, relying on existing staff personnel to make environmental judgments and to prepare impact statements. Where input is required from scientific and social disciplines not represented on the Commission's staff, it will be sought from outside the Commission. If it develops that input is repeatedly required from particular disciplines, consideration will be given to the employment of personnel with the appropriate training and background.

51. Section 1.1315(c) provides for publication of notice that the draft statement has been prepared and that a limited number of copies are available on request. This limited number is in addition to those distributed automatically to persons who requested a copy at the time early notice was given that a statement would be prepared. These procedures are in lieu of provisions for maintenance of copies at FCC field offices (Guidelines, § 1500.11(d) and *new* requirements for maintenance of papers by applicants for inspection locally (proposed § 1.1321(1)).

52. The remainder of Section 1.1315 provides for circulation of the statement to expert agencies, comment by any person or agency within 45 days (consistent with the Guidelines), reply comment within 21 days, a limitation of comments at this stage to environmental issues, and the availability of all relevant papers for inspection. Two copies of comments and reply comments are for use of the Commission. The remaining copies required will be furnished to CEQ in accordance with the Guidelines.

53. Sections 1.1317 and 1.1319 provide for preparation, distribution and consideration of the final environmental impact statement. It should be noted that § 1.1317(a) allows for the possibility that the comments may show that the effect of the facilities will not in fact be significant. Section 1.1317(c) provides that the Commission will either adopt or reject conclusions set out in the final statement concerning the environmental consequences of the action or their significance and, if all or part of the statement is rejected and the application is des-

ignated for hearing on an issue relating to the rejected statement or part, that a supplementary final statement will be prepared and circulated to interested persons and agencies before the hearing is commenced.

54. Several of the comments urge that standing to participate as a party on environmental issues be limited or that participation by an intervenor on such an issue be circumscribed. Under section 309(e) of the Communications Act, intervention is governed by the "party in interest" standard—an intervenor must be able to show that he will be aggrieved or adversely affected. There is a considerable body of case law construing this standard. When the question of standing is raised in a particular case, it will be decided on the basis of the party in interest standard and cases construing it. No purpose would be served in the present context by further elaboration on the law of standing or by attempting to delineate the scope of participation by an intervenor in a particular case.

55. Authority for the rules set out as Appendix 4 hereto is set out in Sections 4(i) and (j) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and (j) and 303(r), and in the National Environmental Policy Act of 1969, 42 U.S.C. 4321–4347.

56. Accordingly, IT IS ORDERED That Part 1 of the Rules and Regulations is amended by adding a new Subpart I, as set forth in Appendix 4 hereto, applicable to applications filed on or after January 20, 1975, and that this proceeding is hereby TERMINATED.

57. Reporting requirements in 47 CFR 1.1311 have been approved by U.S. General Accounting Office under approval number 180227–(ROO 86).

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082 (47 U.S.C. 154, 303))

Adopted: September 26, 1974.

Released: December 16, 1974.

FEDERAL COMMUNICATIONS COMMISSION,*

[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX 3

1. It is known that non-ionizing electromagnetic radiation (radio waves), at frequencies above 10 MHz, at sufficiently high power densities, can cause heating and damage to living tissue. This heating effect is used to man's advantage in diathermy equipment (where power is limited and exposure is controlled), in microwave ovens (where shielding is utilized to prevent exposure), and in diverse other ways. The scientific and medical communities are not satisfied that data developed in this area to date provide an adequate understanding of the biological effects of such radiation or, consequently, a sufficient basis for formulating definitive exposure safety standards. Further research is in progress under a multiagency Government program. However, based on present knowledge, various exposure safety guidelines have been formulated, and the Occupational Safety and Health Administration (OSHA) has promulgated a standard under which employers are required to maintain working conditions in which employees will not be exposed to power densities greater than 10 milliwatts per square centimeter of body area averaged over a six minute period. 29 CFR 1910.97.

2. In the case of radio communications facilities, the area of protection under this standard can be calculated and expressed in distance from the antenna within the major lobes of the radiation pattern, with results varying as follows with effective radiated power above isotropic (EIRP):

EIRP:	*Hazard area—distance in feet from antenna within radiation pattern*
10 kw	20
100 kw	60
300 kw	100
1 Mw	180
5 Mw	420

See OCE Report No. 7104. Distance figures are approximate. With the exception of satellite earth stations, the Commission does not authorize power in excess of 5 Mw. The following formula is used in calculating hazardous radiation distances where the maximum permissible exposure level is 10 mM/cm²:

$$d = \frac{\sqrt{EIRP}}{5.4024}$$

Where

d = Distance in feet and EIRP is in watts.

To put these figures in perspective, it should be appreciated that high power is utilized to transmit usable signals over substantial distances. To aid in this purpose, the antenna is normally mounted on a tall structure and is oriented generally toward the horizon, not toward the base of the antenna tower. The point at which the signal reaches the ground depends on the above factors (i.e., antenna height and orientation) and on the shape of the major lobes of the radiation pattern. Thus, for example, the antenna for an omnidirectional television station produces a donut-shaped pattern, with a low signal area at ground level within varying distances from the tower; the antenna for a microwave relay station, on the other hand, produces a narrow beam aimed at a receiving antenna on the horizon, at a distance of about 25 miles, and touches ground at or beyond the receiving tower; and the satellite earth station antenna produces an even more highly concentrated beam which is aimed at the satellite. For radiation levels to exceed maximum permissible exposure levels under the OSHA standard at ground level, the distance from the antenna to the nearest ground point within the major lobes of the radiation pattern would have to be less than the distance set out in the table above (e.g., less than 100 feet when EIRP is 300 kw and less than 420 feet when EIRP is 5 Mw). While it is theoretically possible that a combination of circumstances could produce areas of exposure in excess of those permissible under the OSHA standard at ground level, it is most unlikely. Measurements at a sampling of Commission licensed stations indicate that power densities present at ground level immediately below the antenna are well below (e.g., by a factor of 10,000) the maximum permissible level under the OSHA standard (10mW/cm2). To the extent that a hazard may exist, we would expect it to be associated with circumstances such as the following: With tall buildings proximate to the antenna (i.e., within the distances set out in the above table) and within the major lobes of the radiation pattern; with the rooftops of buildings on which antennas for high power stations are located if the antenna are not sufficiently elevated above roof level; and with maintenance personnel working on an antenna tower while the station is operating (not a usual practice).

3. The Commission's role in this area is to assist in current Government efforts to develop a dependable understanding of biological effects and realistic exposure levels, primarily by furnishing measurement data for existing Commission-licensed communications facilities, and to see that the OSHA standard and such other applicable official standards as may be established by the responsible Government agencies are met by Commission licensees. In the case of satellite earth stations, for example, a very powerful signal is generated (EIRP within the highly concentrated beam can be as high as 1000 Mw). If the antenna is not significantly elevated, exposure to hazardous power densities is possible at ground level at the antenna site, even though the beam is directed skyward. The Commission has accordingly required applicants for earth stations to identify any hazardous area and to take such measures as are necessary (e.g., warning signs, fencing and shielding) to protect against exposure. 38 FCC 2d 665, at paras. 94–95. Similar requirements will be imposed in any other situation which we discover, or is called to our attention, in which protective measures are needed. In this connection, we recommend that licensees of high power facilities operating on frequencies above 10 MHz review conditions at the antenna site for compliance with the OSHA standard, calculate to determine the possibility of exposure to power densities in excess of 10 mw/cm², either on or off the site, measure actual power densities at any such location, and take such appropriate remedial measures as may be necessary in areas subject to their control. The Commission may wish to survey stations to obtain information useful in determining environmental radiation levels. However, that possibility is not within the scope of this proceeding. Radiation levels are a consideration under NEPA procedures only in situations where measures cannot practicably be taken to preclude exposure to power densities which exceed maximum permissible levels prescribed by applicable official safety standards.

APPENDIX 4

Part 1, Chapter I of Title 47 of the Code of Federal Regulations is amended by adding a new Subpart I to read as follows:

Subpart I—Procedures Implementing the National Environmental Policy Act of 1969

Sec.

1.1301 Basis and purpose.
1.1303 Scope.
1.1305 Major actions.
1.1311 Environmental information to be submitted with applications for authority to construct major communications facilities.
1.1313 Commission consideration of environmental information.
1.1315 The draft environmental impact statement; comments.
1.1317 The final environmental impact statement.
1.1319 Consideration of the final environmental impact statement during the hearing and decision-making process.

* Commissioners Wiley, Chairman; Reid, and Robinson concurring in the result.

XUM V 39 N 245 DEC 19 74 XUM

Subpart I—Procedures Implementing the National Environmental Policy Act of 1969

§ 1.1301 Basis and purpose.

The provisions of this subpart implement the National Environmental Policy Act of 1969, 42 U.S.C. 4321–4347.

§ 1.1303 Scope.

The provisions of this subpart apply to all major Commission actions authorizing the construction of communications facilities (see §§ 1.1305 and 1.1311(c)). The Commission will, in addition, invoke and implement the environmental impact statement process before taking a position on legislative or rule making matters which would have a significant effect on the quality of the human environment.

§ 1.1305 Major actions.

(a) Except as provided in paragraph (b) of this section, Commission actions authorizing construction of the following classes of communications facilities are major actions within the meaning of the National Environmental Policy Act:

(1) Underground cable or wave guide routes, and aerial transmission lines, for long distance tele-communication.

(2) Private and common carrier microwave relay antenna towers or supporting structures exceeding 100 feet in height, excluding pole mounted microwave antennas.

(3) Standard (AM), FM television and international broadcast antenna towers or supporting structures which exceed 300 feet in height, and all AM directional arrays without regard to height.

(4) Other antenna towers or supporting structures, including pole mounted microwave antennas, which exceed 300 feet in height and are not located in areas devoted to heavy industry or to agriculture.

(5) Satellite earth stations having an antenna of 30 feet or more in diameter.

(6) Communications facilities to be located in the following areas:

(i) Facilities which are to be located in an officially designated wilderness area or in an area whose designation as a wilderness area is pending consideration;

(ii) Facilities which are to be located in an officially designated wildlife preserve or in an area whose designation as a wildlife preserve is pending consideration;

(iii) Facilities which will affect districts, sites, buildings, structures or objects, significant in American history, architecture, archeology or culture, which are listed in the National Register of Historic Places or are eligible for listing (see 36 CFR 800.2 (d) and (f) and 800.10); and

(iv) Facilities to be located in areas which are recognized either nationally or locally for their special scenic or recreational value.

(7) Facilities whose construction will involve extensive change in surface features (e.g., wetland fill, deforestation or water diversion).

NOTE: The provisions of this paragraph do not encompass the installation of additional cable over existing underground cable routes or the mounting of microwave, FM, television or other antennas comparable thereto in size on an existing building or antenna tower. The use of existing routes, buildings and towers is an environmentally desirable alternative to the construction of new routes or towers and is encouraged.

(b) In the circumstances recited in this paragraph, Commission actions authorizing construction of the classes of communications facilities listed in paragraph (a) of this section are minor actions within the meaning of the National Environmental Policy Act:

(1) The construction of an antenna tower or supporting structure in an established "antenna farm" (i.e., an area in which similar antenna towers are clustered, whether or not such area has been officially designated as an antenna farm).

(2) The modification of existing or authorized facilities, provided such modification does not involve a site change or a substantial increase in tower height.

(3) The construction of an antenna structure which is to remain in place for a temporary period (as for the conduct of experimental or developmental operations, for the duration of emergency conditions, or for maintenance of service pending repair of a permanent structure) and then be removed, providing there will be no lasting effects of environmental significance.

(4) The replacement of an existing structure with a structure of the same kind on the same site.

(c) Commission action authorizing the construction of communication facilities not listed in paragraph (a) of this section are minor actions within the meaning of the National Environmental Policy Act: *Provided, however,* That the Commission, on its own motion or on motion of any interested person, may determine that the environmental consequences of a particular action are such as to warrant preparation of an environmental impact statement.

§ 1.1311 Environmental information to be submitted with applications for authority to construct major communications facilities.

(a) Except as provided in paragraphs (d) and (e) of this section, a narrative statement containing the following information shall be submitted with each application for authorization of the construction of major communications facilities (as defined in § 1.1305):

(1) For underground cable facilities, a description of the route between at least two major terminals, and a discussion of environmental and other considerations which led to selection of that route.

(2) For antenna towers and satellite earth stations, a description of the facilities (including height and special design features, access roads and power lines), a description of the site, the surrounding area and its uses, and a discussion of environmental and other considerations which led to its selection.

(3) A statement as to the zoning classification of the site (if any) and concerning communication with or proceedings before zoning, planning environmental, or other local, State or Federal authorities on matters relating to environmental effect.

(4) A statement as to whether construction of the facilities has been a source of controversy on environmental grounds in the local community.

(5) A discussion of the nature and extent of any unavoidable adverse environmental effects perceived by the applicant and (where adverse effects are present) a discussion of any efforts made to minimize such effects and of any alternative routes, sites or facilities which have been or might reasonably be considered.

NOTE: To the extent that such information is submitted in another part of the application, it need not be duplicated in the statement, but adequate cross-reference to such information shall be supplied.

(b) The information submitted should be factual (not argumentative or conclusory) and should be sufficiently comprehensive and detailed to convey an understanding of the environmental consequences and to serve as a basis for a judgment concerning their significance. If the applicant perceives unavoidable environmental consequences, it may be appropriate to attach a statement by an expert in the relevant discipline(s) detailing the extent and precise nature of such consequences and measures which can be taken to minimize them. The statement should deal specifically with any feature of the site or route which has special environmental significance—e.g., wilderness areas, wildlife preserves, natural flyways for birds, and sites of scenic, cultural, historic, architectural, archeological, or recreational value. In the case of historically significant sites, the statement should specify the effect of the facilities on any district, site, building, structure or object listed in the National Register of Historic Places, 39 F.R. 6402, February 19, 1974. It should also detail any substantial change in the character of the land utilized—e.g., deforestation, water diversion, wetland fill, or other extensive change of surface features. In the case of wilderness areas, wildlife preserves, or other like areas, the statement should discuss the effect of any continuing pattern of human intrusion into the area (as for operation or maintenance of the facilities or site habitation). To the extent that the principles and techniques governing construction, siting and routing of the facilities are consistent with an environmental code filed with and approved by the Commission, a reference to that code will suffice in lieu of a detailed discussion.

NOTE: The National Register is updated and re-published in the FEDERAL REGISTER each year in February. Addenda are published on the first Tuesday of each month.

(c) In the case of facilities licensed in the Safety and Special Radio Services, the information required by paragraph

(a) of this section shall be submitted and ruled on by the Commission, and the environmental impact statement process (if invoked) shall be completed, before construction of the facilities is commenced. Except as regards environmental effect, however, a construction permit for such facilities is not required.

(d) A narrative statement need not be submitted to the Commission if another agency of the Federal Government has assumed responsibility for determining whether construction of the facilities in question will have a significant effect on the quality of the human environment and, if it will, for invoking the environmental impact statement process. The issuance of a permit for the use of Federal land is an important consideration favoring the conclusion that an authorization will not have significant environmental effect or that the effect is not of sufficient significance to warrant denial of a permit, but it is conclusive only if the agency issuing the land use permit followed procedures prescribed by the National Environmental Policy Act.

(e) A narrative statement need not be submitted to the Commission if the facilities are to be utilized exclusively in rendering services to the United States Government and the existence or purpose of such facilities is classified security information. (In such cases, it would appear that the environmental determination should be made by the Government agency for which the services are to be rendered under procedures compatible with the national security and on the basis of information which that agency alone may have.)

§ 1.1313 Commission consideration of environmental information.

(a) No major Commission action (as defined in § 1.1305) granting an application (or authorizing construction on the basis of a narrative statement, pursuant to § 1.1311(c)) will be taken by the Commission earlier than 30 days following the Commission's issuance of a public notice stating that the application, the narrative statement, or a substantial amendment thereof has been accepted for filing. In the case of an application to which Section 309(b) of the Communications Act applies, objections based on environmental considerations may be filed as petitions to deny (see Section 309(d) of the Communications Act and §§ 1.580, 1.962, and 21.27 of this chapter). Informal objections to any major Commission action (as defined in § 1.1305) which are based on environmental considerations may be filed at any time prior to the action. Any person who wishes to raise a question concerning the effect of a grant on the quality of the environment should file either a petition to deny or an informal objection within the period prescribed. A subsequent opportunity to comment on a draft environmental impact statement will be afforded only if the application processing staff determines, on the basis of available information, that a grant would have a significant effect on the quality of the environment.

(b) When the application is reached for processing, the processing staff will review the statement required by § 1.1311 and any other available information bearing on the question of environmental effect and will determine whether a grant of the application will have a significant effect on the quality of the human environment. In connection with this review, the staff may require the applicant to furnish additional information bearing on the effect of a grant.

(1) If it is determined that grant of an application will not have significant environmental effect, the application will thereafter be processed without further consideration of environmental effect.

(2) If it is determined that a grant will or may have significant environmental effect, the staff may, before deciding to prepare a draft environmental impact statement, discuss matters of environmental concern with the applicant, concerned individuals and experts, in an effort to identify measures which could be taken to minimize adverse effect and alternatives which are not, or are less, objectionable. (The Advisory Council on Historic Preservation has adopted formal procedures for such consultation. See 39 FR 3366, January 25, 1974, 36 CFR Pt. 800.) The staff may direct that technical studies be made or that expert opinion be obtained concerning the effect of a grant and the environmental, communications and cost effects of measures or alternatives which could reduce, minimize or eliminate an environmental problem. The staff may also request that a person objecting to grant of an application on environmental grounds raise his objections with appropriate local, State or Federal land use authorities (if their views have not previously been sought) and, if he declines, may itself request the views of such authorities. The applicant may amend his application to reduce, minimize or eliminate such a problem. If such measures as are taken fail to eliminate the environmental problem, the staff will prepare a draft environmental impact statement. When a decision to prepare a statement is made, a public notice to that effect will be published in the Federal Register. The public notice will indicate the nature and location of the facilities and will advise interested persons that they may obtain a copy of the statement by submitting a written request to the Commission prior to the date on which the statement is duplicated for circulation to agencies.

(c) If it appears that grant of an application will not have significant environmental effect or that construction can proceed in part without such effect, and if all statutory requirements pertaining to such action are met, the Commission may waive the requirement for a construction permit, or may grant a temporary authorization, prior to final action on the application.

§ 1.1315 The draft environmental impact statement; comments.

(a) The draft environmental impact statement will describe the facilities, the area affected and its uses. It will enumerate the environmental consequences and, to the extent possible, will evaluate their magnitude and significance. It will relate views expressed by persons opposing grant of the application on environmental grounds. It will describe alternatives considered by the applicant, advocated by persons opposing grant of the application or developed by the Commission, explain the basis for rejection of any alternative not considered feasible, and discuss the relative advantages and disadvantages of feasible alternatives. It will discuss measures which will or could be taken to minimize adverse effects and will indicate whether the applicant proposes to take such measures. It will deal specifically with any feature of the impacted area which has special environmental significance. Except as may be appropriate in assessing the feasibility of alternatives, it will not discuss non-environmental considerations, or draw conclusions as to whether a grant will serve the public interest. Such matters will be considered by the Commission in acting on the application after the final environmental impact statement has been prepared. The summary sheet set out as Appendix I to the CEQ Guidelines will accompany each draft statement.

(b) The draft statement will be prepared by the application processing staff before any action is taken on the application and before any recommendation regarding action is made to the Commission. The statement will not be adopted by the Commission.

(c) When a draft statement is prepared, the Commission will publish in the FEDERAL REGISTER a public notice containing the following information:

(1) The nature and location of the facilities.

(2) A brief statement regarding the nature of any environmental problem dealt with in the draft environmental impact statement.

(3) A statement that the draft statement is available for inspection at the Commission and that a limited number of copies will be made available upon request.

(4) A statement that comments on the draft statement may be filed within 45 days after publication of the notice. (The date of publication will be specified in the notice.)

(d) Before notice of the draft statement is published in the FEDERAL REGISTER, copies will be mailed, with a request for comment, to Federal and Federal-State agencies having jurisdiction by law or special expertise with respect to the environmental effects of the facilities. (See Appendix II to the CEQ Guidelines.) Five copies of the statement will be mailed to the Council on Environmental Quality. Copies of the statement will be mailed to the applicant and to individuals, groups and State and local agencies known to have an interest in the environmental consequences of a grant.

(e) Any person or agency may comment on the environmental impact of the facilities described in the environmental impact statement within 45 days after public notice of the statement is

published in the Federal Register. Comments shall be served on the applicant by the person who files them. An original and 6 copies of comments shall be submitted to the Commission. Five (5) additional copies shall be forwarded by the person commenting to the Council on Environmental Quality. If a person submitting comments is specially qualified in any way to comment on the environmental impact of the facilities, a statement of his qualifications shall be set out in the comments. Comments submitted by an agency shall, in addition, specify the identity of the person(s) who prepared them.

(f) The applicant may file reply comments within 21 days after the time for filing comments has expired. Reply comments shall be served by the applicant on persons or agencies which filed comments. An original and six copies of reply comments shall be submitted to the Commission.

(g) Comments and reply comments shall be accompanied by a certificate of service. See § 1.47.

(h) The preparation of a draft environmental impact statement and request for comments shall not open the application to attack on other grounds.

(i) The application, the draft environmental impact statement, and all related papers, including agency comments, shall be routinely available for public inspection.

§ 1.1317 The final environmental impact statement.

(a) Upon consideration of the comments and reply comments, the application processing staff will prepare a final environmental impact statement. The final statement will contain a discussion of matters discussed in the draft statement (see § 1.1315(a)), taking into consideration all matters of substance raised in the comments and reply comments. If the comments show that the effect of the facilities will in fact not be significant, the final statement will state that conclusion. The summary sheet set out as Appendix I of the CEQ Guidelines will accompany each final statement.

(b) Copies of the final statement will be distributed to the applicant and to persons and agencies which submitted substantive comment on the draft statement. If practicable, copies of the comments and reply comments will be attached to and distributed with the final statement. Persons who submitted comments may be requested to furnish additional copies for this purpose. Five copies of the final statement and all comments will be submitted to the Council on Environmental Quality.

(c) The Commission will consider the final environmental impact statement in determining whether to grant the application or to designate it for hearing on an environmental issue. It may adopt or reject conclusions set out in the final statement relating to environmental consequences of the action or their significance. If the Commission adopts the final statement, it will be made a part of the opinion issued by the Commission in granting the application or designating it for hearing. If the Commission rejects all or part of the final statement and grants the application, the reasons for rejection of the statement will be stated in the opinion, and the statement will be associated with that opinion. If the Commission rejects all or part of the final statement and designates the application for hearing on an issue relating to the rejected statement or part, a supplementary final statement reflecting the Commission's determination will be prepared, circulated to interested persons and agencies and associated with the designation order before the hearing is commenced.

§ 1.1319 Consideration of the final environmental impact statement during the hearing and decision-making process.

(a) If the application is designated for hearing on an environmental issue, the final (or supplementary final) environmental impact statement will be associated with the designation order and will be considered in delineating the scope of the environmental issue.

(b) Copies of comments from Federal, State and local agencies will be associated with the record of the hearing proceeding, shall be admissible in evidence for the limited purpose of showing the views of those agencies, and may be used in cross-examining witnesses on the environmental issue.

(c) Agencies and individuals who comment on environmental effect may be invited to participate as parties to the proceeding and, if not named as parties, may petition to intervene. Agencies which comment may be asked by Commission counsel or others to furnish expert witnesses to testify on matters of environmental impact. Subpoenas for the appearance of such agency experts will be issued, if necessary, when their testimony is required to lay a foundation for the admission of agency comments in evidence to show the truth of facts and the validity of conclusions contained therein.

(d) The burden of proceeding with the introduction of evidence on the environmental issue, as well as the burden of proof on that issue, shall be upon the applicant, except as otherwise provided in the designation order.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Arapaho National Wildlife Refuge, Colorado

The following special regulation is issued and is effective on December 19, 1974.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

COLORADO

ARAPAHO NATIONAL WILDLIFE REFUGE

Sport fishing on the Arapaho National Wildlife Refuge, Colorado, is permitted from January 1 through May 31 and August 1 through December 31, 1975, inclusive, on the area designated by signs as open to fishing. This open area is delineated on maps available at refuge headquarters, Walden, Colorado 80480, and from the Area Manager, U.S. Fish and Wildlife Service, Federal Building, Room 2215, Salt Lake City, Utah 84111. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

V. CARROL DONNER,
Refuge Manager, Arapaho National Wildlife Refuge, Walden, Colorado.

DECEMBER 12, 1974.

[FR Doc.74-29636 Filed 12-18-74;8:45 am]

PART 33—SPORT FISHING

De Soto National Wildlife Refuge, Iowa and Nebraska

The following special regulation is effective on December 19, 1974.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

IOWA AND NEBRASKA

DE SOTO NATIONAL WILDLIFE REFUGE

Sport fishing on the De Soto National Wildlife Refuge, Iowa and Nebraska, is permitted on the lake area within the refuge. This open area, comprising 850 acres, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225. Sport fishing is subject to the following conditions:

(1) All fishermen shall conform with the regulations of the State in which they are properly licensed, either Iowa or Nebraska, subject to more restrictive regulations that may be included herein.

(2) Open Season: Daylight hours January 4, 1975 through February 28, 1975, providing ice conditions are safe enough to permit this activity, and 6 a.m. to 9 p.m., April 15, 1975, through September 30, 1975.

(3) Trot lines and float lines are not permitted.

(4) Archery fishing is permitted during the period May 1, 1975, through June 15, 1975. Only the following fishes can be taken with bow and arrow: Bigmouth Buffalofish (Ictiobus cyprinellus), Smallmouth Buffalofish (Ictiobus bubalus), Carp (Cyprinus carpio), Longnose Gar (Lepisosteus osseus) and Shortnose Gar (Lepisosteus platostomus).

(5) Digging or seining for bait is not permitted.

(6) No more than two lines with two hooks on each line may be used for fishing.

(7) Motor or wind driven conveyances are not permited on the lake

during the period January 4, to February 28.

(8) The use of boats, with or without motors, is permitted during the period April 15 to September 15.

(9) During the period September 15 to September 30, only boats without motors or motors up to 20 H.P. are permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through September 30, 1975.

JAMES E. FRATES,
Refuge Manager, DeSoto National Wildlife Refuge, Missouri Valley, Iowa.

DECEMBER 2, 1974.

[FR Doc.74-29585 Filed 12-18-74;8:45 am]

PART 33—SPORT FISHING

Swan Lake National Wildlife Refuge, Missouri

The following special regulation is issued and is effective on December 19, 1974.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MISSOURI

SWAN LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Swan Lake National Wildlife Refuge, Sumner, Missouri, is permitted on the areas designated by signs as open to fishing. The open areas, comprising 10,800 acres, are delineated on maps available at refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, Denver Federal Center, P.O. Box 25486, Denver, Colorado 80225. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from March 1 through September 30, 1975 inclusive, during daylight hours only.

(2) Boats without motors may be used on Swan Lake, Silver Lake, and that portion of South Lake immediately adjacent to No. 5 Levee.

(3) Travel is permitted on all roads except those posted with "Road Closed" signs.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through September 30, 1975.

DECEMBER 2, 1974.

ALFRED O. MANKE,
Refuge Manager, Swan Lake National Wildlife Refuge, Sumner, Missouri 64681.

[FR Doc.74-29594 Filed 12-18-74;8:45 am]

PART 33—SPORT FISHING

Valentine National Wildlife Refuge, Nebraska

The following special regulation is issued and is effective on December 19, 1974 .

§ 33.5 Special regulations; sport fishing for individual wildlife refuge areas.

NEBRASKA

VALENTINE NATIONAL WILDLIFE REFUGE

Sport fishing on the Valentine National Wildlife Refuge, Nebraska, is permitted only on the areas designated by signs as open to fishing. These open areas comprising 3,107 acres of water on the refuge, are delineated on maps available at the refuge headquarters and from the Office of the Area Manager, U.S. Fish & Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501.

Sport fishing shall be in accordance with all applicable State regulations subject to the following special regulations:

(1) The open season for sport fishing on the refuge during daylight hours only, will be from January 1, 1975 through December 31, 1975.

(2) Hook and line, bow and arrow, and hand spear fishing only are permitted.

(3) Boats with or without electric-type outboard motors are permitted on lakes open to sport fishing in accordance with State boating regulations. Internal combustion type motors are prohibited.

(4) The use or possession of live minnows or fish for bait or the possession of any seine or net for capturing live minnows is prohibited. Dead minnows or parts thereof may be used as bait.

The provisions of this special regulation supplement the regulations which govern sport fishing and wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

ROBERT M. ELLIS,
Refuge Manager, Fort Niobrara—Valentine Complex, Valentine, Nebraska.

DECEMBER 9, 1974.

[FR Doc.74-29594 Filed 12-19-74;8:45 am]

PART 33—SPORT FISHING

Pathfinder National Wildlife Refuge, Wyoming

The following special regulation is issued and is effective on December 19, 1974.

33.5 Special regulations; sport fishing for individual wildlife refuge areas.

WYOMING

PATHFINDER NATIONAL WILDLIFE REFUGE

Sport fishing on all areas of the Pathfinder National Wildlife Refuge, Wyoming, is permitted from January 1 through December 31, 1975, inclusive. These areas, comprising 16,807 acres, are delineated on maps available at refuge headquarters, Walden, Colorado 80480, and from the Area Manager, U.S. Fish and Wildlife Service, Federal Building, Room 2215, Salt Lake City, Utah 84111. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

V. CARROL DONNER,
Refuge Manager, Pathfinder National Wildlife Refuge, Walden, Colorado.

DECEMBER 12, 1974.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 959]

ONIONS GROWN IN SOUTH TEXAS

Expenses and Rate of Assessment

Consideration is being given to authorizing the South Texas Onion Committee to spend not more than $94,311 for its operations during the fiscal period ending July 31, 1975, and to collect two cents ($0.02) per 50-pound container of onions, or equivalent quantity, handled by first handlers under the program.

The committee is the administrative agency established under Marketing Agreement No. 143 and Order No. 959, both as amended, regulating the handling of onions grown in South Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals may file the same, in duplicate, with the Hearing Clerk, Room 112–A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than January 6, 1975. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposals are as follows:

§ 959.215 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending July 31, 1975, by the South Texas Onion Committee for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to $94,311.

(b) The rate of assessment to be paid by each handler in accordance with the Marketing Agreement and this part shall be two cents ($0.02) per 50-pound container of onions, or equivalent quantity, handled by him as the first handler thereof during said fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period ending July 31, 1975, may be carried over as a reserve.

(d) Terms used in this section have the same meaning as when used in the said marketing agreement and this part.

Dated: December 16, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-29605 Filed 12-18-74;8:45 am]

[7 CFR Part 981]

ALMONDS GROWN IN CALIFORNIA

Proposed Termination of a Certain Provision

Notice is hereby given of a proposal to terminate § 981.482 of Subpart—Administrative Rules and Regulations (7 CFR 981.441–981.482; 39 FR 23239; 39258) of the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981), regulating the handling of almonds grown in California (hereinafter referred to collectively as the "order"). The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was unanimously recommended by the Almond Control Board.

Section 981.482 of the administrative rules and regulations requires each handler desiring credit for paid media advertising to submit a statement of assessments due with his redetermination report of December 31, March 31 and June 30. Recapitulation of his claims already approved by the Control Board must accompany this statement. With his June 30 report (due by July 15 of the following crop year), the handler must submit the balance of any assessments due.

However, since § 981.441 permits each handler to file claims for advertising credit until July 15—the same date which is the deadline for submission of the June 30 report—there is not enough time for the handler to determine his assessments due because the Control Board staff must first: (a) Consider the claims; (b) approve or disapprove them; and (c) notify the handler of the status of his claims.

Moreover, no useful purpose is served by requiring the handle to recapitulate and submit information already in the possession of the Control Board.

Therefore, the proposal is to terminate § 981.482 of the administrative rules and regulations (Subpart—Administrative Rules and Regulations).

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same in quadruplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than January 3, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

Dated: December 13, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division.

Food and Nutrition Service

[7 CFR Part 271]

[Amdt. 46]

FOOD STAMP PROGRAM

Notice of Proposed Rulemaking

Pursuant to the authority contained in the Food Stamp Act of 1964, as amended (78 Stat. 703, as amended; 7 U.S.C. 2011–2026) notice is hereby given that the Food and Nutrition Service, Department of Agriculture, proposes to amend the regulations governing the Food Stamp Program to provide generally that State agencies may not designate any concerns that have been authorized to redeem coupons as coupon issuance agents. The considerations behind this regulation are that such a dual designation would give a competitive advantage to those firms performing both issuance and redemption functions, and that there is no guarantee against diversion of food coupons for private gain when both functions are handled by the same concern.

Interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to P. Royal Shipp, Director, Food Stamp Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250, not later than January 20, 1975. All comments, suggestions, or objections received by this date will be considered before the final regulations are issued.

All written comments, suggestions, or objections will be open to public inspection pursuant to 7 CFR 1.27(b) at the Office of the Director, Food Stamp Division, during regular business hours (8:30 a.m. to 5 p.m.) at 500 12th Street SW., Washington, D.C., Room 650.

The proposed amendment is as follows:

Section 271.6(d) of Part 271 of Chapter II, Title 7 of the Code of Federal Regulations is revised to read:

§ 271.6 Methods of distributing, issuing, and accounting for coupons and receipts.

• • • • •

(d) The State agency or the State issuing agency shall arrange for the issuance of coupons to eligible households and for the collection of sums required

from eligible households for the purchase requirement. The State agency or State issuing agency shall not contract the issuance of coupons to any firm, or agent thereof, authorized to redeem coupons, unless the State agency, in concurrence with FNS, determines that such an arrangement would best achieve the purposes of the program. The coupon allotment to be issued to any household shall be in the amount determined in accordance with § 271.5.

(78 Stat. 703, as amended; 7 U.S.C. 2011–2026)

(Catalog of Federal Domestic Assistance Programs No. 10.551, National Archives Reference Services)

Dated: December 16, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

[FR Doc.74-29596 Filed 12-18-74;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 121, 146, 146a, 146b, 146c, 146e]

INFECTION IN CHICKENS

Nomenclature Change; Withdrawal of Proposal and Termination of Rule Making Proceedings

A proposal was published in the FEDERAL REGISTER of January 1, 1964 (29 FR 15) proposing that the regulations be amended with respect to nomenclature regarding *Mycoplasma gallisepticum* infections in chickens. It was proposed that the term "chronic respiratory disease" should refer to infection caused by the primary infective agent *Mycoplasma gallisepticum* and respiratory infections commonly associated with this disease should be called "complicated chronic respiratory disease." This proposal was based upon conclusions reached by qualified university and governmental personnel meeting under the auspices of the Animal Disease and Parasite Research Division of the Agricultural Research Service, United States Department of Agriculture.

Following publication of the proposal, the Commissioner of Food and Drugs received comments, including comments from participants in the above-cited meeting, objecting to the proposed changes. Because of the differences of opinion expressed regarding the proposed revised nomenclature, the Commissioner has concluded that the changes contemplated in the proposal should not be made.

Accordingly, the subject proposal is withdrawn and the rule making proceedings in this matter are terminated.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 409, 507, 59 Stat. 463 as amended, 72 Stat. 1785 as amended; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 1.120).

Dated: December 12, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 74-NW-25-AD]

AIRWORTHINESS DIRECTIVES

Boeing Model 747-100 and -200 Series Airplanes

There have been eight reported cases of operation with either partial extension or no extension of the leading edge flaps on the 747 airplane, six of which were during the takeoff phase of flight. The latest case resulted in a low altitude stall of the airplane and impact.

In the first reported instance, it was found that a circuit breaker had been de-activated causing half the leading edge flaps to remain retracted. This condition was not noticed nor corrected by the flight crew during the entire preflight procedure, including the challenge and response exercise of the pre-flight check list. Investigation revealed that the flight engineer had indications of only half the leading edge flaps extended; and the pilot and copilot had an indication of improper leading edge flap extension on their panel.

In the second instance, the crew reported a disagreement between the pilots' and the flight engineer's annunciator panels. The pilot reported he had a green light and the flight engineer reported he had no leading edge flap light indication. It was found that both A and B section circuit breakers had been deactivated prior to flight. Subsequent engineering investigation could find no system malfunction.

In the third instance, the crew detected a pre-stall buffeting on takeoff, but gained additional airspeed and made a successful takeoff. In flight, both A and B section circuit breakers were found de-activated. In this case it was determined that the crew overlooked the absence of the green flap extended lights.

In the fourth instance, the crew detected absence of green leading edge flap annunciator lights prior to takeoff. The alternate electrical drive system was therefore used to extend the leading edge flaps. After takeoff, the four engine pylon bleed air valves were found in a closed position. The effect of closed engine bleed valves is discussed below.

In three instances, involving the same airline, takeoffs were made with no leading edge flaps extended because the alternate flap drive system switches had been set to the up position and the arming switch had been set to the arm position. This condition results in a lock of the pneumatic motors such that no leading edge flap extension is possible by means of the pneumatic system. However, successful takeoffs were executed.

Preliminary investigation conducted following the latest reported instance indicates that the four engine pylon bleed air valve switches were found in the closed position. This condition is displayed to the flight engineer by means of four amber caution lights on his panel. When these valves are closed, no bleed air is available to the pneumatic leading edge flap drive motors and consequently, no leading edge flap extension is possible except by the use of the alternate electrical system, or by use of the APU.

In spite of existing visual warning means available to the flight crew, at least six takeoffs have been made involving failure to extend all leading edge flaps. The FAA has already taken regulatory action by means of an amendment to the operations specifications of U.S. certificated carriers. This amendment requires that flight crew members assure that the leading edge flap control circuit breakers are closed, that alternate flap drive and arming switches are in the off position, that the green light is illuminated on the pilot's panel and eight green lights are illuminated on the flight engineer's panel, and that prior to takeoff, all engine bleed air valve switches are double checked to be in the open position.

Additionally, an Operations Information Alert has been issued which recommends that prior to leaving ramp, the takeoff flaps be extended and that confirmation of full extension of all wing leading edge devices be received from a qualified ground observer.

Herein, an AD is being proposed to require the installation of an additional warning system or systems to warn the flight crew if the leading edge flaps are not fully extended during takeoff.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Northwest Region, Attention: Regional Counsel, Airworthiness: Rules Docket, FAA Building, King County International Airport, Seattle, Washington 98108. All communication received on or before February 11, 1975 will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), it is proposed that § 39.13 of the Federal Aviation regulations be amended by adding the following new airworthiness directive:

BOEING: Applies to all Model 747 Series Airplanes, certificated in all categories

XUM V 393 DEC 1974 XUM

Compliance required as indicated unless already accomplished. To assure the flight crew positive warning when the leading edge flaps are not fully extended for takeoff, accomplish the following:

Within three (3) months calendar time after the effective date of this AD, install, in accordance with data approved by the Chief, Engineering and Manufacturing Branch, FAA, Northwest Region, an additional warning system or systems, including a leading edge flap logic input to the takeoff aural warning system and a logic which will cause warning lights to flash on the pilots' and flight engineer's panels, which will give the flight crew positive warning when any of the leading edge flap drive motors have not driven to the fully extended position when the trailing edge flaps are extended to a takeoff setting.

This amendment is proposed under the authority of section 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354 (a), 1421, and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Seattle, Washington on December 11, 1974.

C. B. WALK, Jr.,
Director, Northwest Region.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 76]

[Docket No. 20272; FCC 74-1310]

CABLE TELEVISION

Notice of Proposed Rulemaking and Inquiry

In the matter of amendment of Part 76 of the Commission's Rules and Regulations Relative to an Inquiry on the Need for Additional Rules in the Area of Duplicative and Excessive Over-Regulation of Cable Television.

1. On February 2, 1972, the Commission adopted the Cable Television Report and Order (FCC 72-108, 36 FCC 2d 143 (1972)), reconsidered in part in FCC 72-530, 36 FCC 2d 326 (1972). In that report, we adopted a comprehensive set of new rules for most aspects of cable television operation.

2. One segment of that report dealt with the appropriate division of regulatory jurisdiction between the Federal and State-Local levels of government. Three alternative approaches were considered:

(a) Federal licensing of all cable television systems.

(b) Maintenance of the current Federal regulatory program enforced by Section 312(b) proceedings.

(c) Federal regulation of some aspects of cable operations, with local regulation of others under Federal prescription of standards for local jurisdictions.

3. The alternatives were put forward because, as the Commission observed:

"• • • actions have been taken in the cable field without any overall plan as to the Federal-Local relationship." This has resulted in a patchwork of disparate approaches affecting the development of cable television. While the Commission was pursuing a program to promote national cable policy, State and Local governments were formulating policies to reflect local needs and desires. In many respects, this dual approach worked well. To a growing extent, however, the rapid expansion of the cable television industry has led to overlapping and sometimes incompatible regulations. This resulted in confusion, and we faced an obvious need to clarify the respective Federal, State, and Local regulatory roles.

4. After a thorough examination of the alternatives, the Commission decided to attempt a unique experiment in creative federalism, combining aspects of both federal and non-federal jurisdiction. We stated:

• • • local governments are inescapably involved in the process because cable makes use of the streets and ways and because local authorities are able to bring a special expertness to such matters, for example, as how best to parcel large urban areas into cable districts. Local authorities are also in better position to follow up on service complaints. Under the circumstances, a deliberately structured dualism is indicated; the industry seems uniquely suited to this kind of creative federalism.

5. Federal rules of general applicability were adopted regarding the franchising process, access, etc., but the basic decision as to the franchisee was left in the hands of local officials. Considerable latitude was given to those officials to formulate processes for granting the franchise, criteria for judging applicants, parameters for determining qualifications, etc.

6. At the same time, recognizing that we were embarking on an as yet uncharted course of regulatory dualism, we formally established an advisory committee composed of representatives of Federal, State, and local governments, the cable industry, and public interest groups. This Federal/State-Local Advisory Committee, or FSLAC as it came to be called, was formed to aid the Commission as it attempted to define an appropriate allocation of responsibilities in cable regulation.

7. The Committee spent over 16 months studying the various problems inherent in our experiment with regulatory dualism. The result of that study, the FSLAC Final Report, was submitted to the Commission in September 1973.[1] That report has been thoroughly reviewed by this Commission, including a special meeting held between the FSLAC Steering Committee and the full Commission in public session on December 11, 1973. The report was separated into two principal parts—the first dealing with specific regulatory issues and the second with the overall problem of duplicative regulation.

8. In April 1974, we responded to Part I of the FSLAC report with the issuance of the Clarification of Rules and Notice of Proposed Rule Making, FCC 74-384, 46 FCC 2d 175 (1974). In that document, we attempted to deal with the individual issues highlighted by the FSLAC report. In many instances, a simple clarification or reiteration of the existing rules was sufficient. In other areas, the suggestions of the Committee resulted in the initiation of new rulemaking proceedings. These proceedings are now in various stages of resolution.

9. Part II of the FSLAC report, dealing with the desirability of non-duplicative regulation of cable television, is the subject of this document. As we explained in the Clarification:

• • • Our rules attempted to blend diverse needs into a cohesive, cooperative program between federal and local authorities. This effort appears to have been basically successful.

One significant new development, however, has become a complicating factor. State governments have begun asserting a regulatory role in cable television, thus adding a third-tier to the regulatory scheme. When we adopted our rules, we envisioned a system whereby federal rules and guidelines would be complemented by one other regulatory authority—the so-called "local" level of government. We did not specify cities or municipalities because we recognized that in some states the state government would serve as the "local" authority rather than some smaller political subdivision. Indeed, this was the case in 1972, since several states had already asserted state jurisdiction over cable franchising (e.g., Connecticut, Nevada, Rhode Island, and Vermont). However, at that time there were no states asserting an additional regulatory function while leaving other regulatory and franchising matters to localities. It is this latter development that concerns us. A major portion of the FSLAC report deals with this "three-tier" problem (see Part II, FSLAC Final Report). In our December meeting with the FSLAC Steering Committee, this was also a prime topic of discussion. We intend, in the near future, to deal with this question specifically. (Para. 41, 42).

The time has now come for us to deal directly with this troublesome issue.

10. The preface to Part II of the FSLAC Report succinctly states the problem we face:

Part II • • • deals with the legal and political considerations involved in regulatory allocation. The Steering Committee reached unanimous agreement that nonduplicative regulation is a desirable objective. There was considerable disagreement on how or whether that could be accomplished. This disagreement resulted in a majority and minority position being drafted.

11. The main thrust of the two positions is best stated in their own summaries. The majority position states:

A substantial majority of the Committee believes that under the Communications Act of 1934 the Federal Communications Commission has the overriding responsibility and authority to regulate such aspects of cable television as are appropriate to realization of national communications goals.

In discharging this responsibility the FCC has already established exclusive jurisdiction over many aspects of cable. In a number of other areas, in recognition of legitimate local interests in cable, the Commission has not asserted exclusive jurisdiction. Instead while enunciating a general policy of "federal-local

[1] The Final Report of the Steering Committee of the FCC Cable Television Advisory Committee on Federal/State-Local Regulatory Relationships is available for $8.75 from the National Technical Information Service at 5285 Port Royal Road, Springfield, Virginia 22151, Order No. PB 223-147.

dualism," it has evidenced considerable respect for local option and has created a non-directive and admittedly experimental environment in which it hoped an appropriate local partner would emerge.

The majority believes that the FCC must now reconsider this approach. After 18 months of experience, it appears that the FCC's non-directive posture is promoting a regulatory free-for-all rather than the natural and unstructured dualism which the Commission sought. The majority is concerned that the multi-level scramble for control of cable is producing policies and regulations which duplicate, and thereby burden, or directly conflict with the federal objectives. At the very least contending with and attempting to reconcile these problems is dissipating resources which could and should be dedicated to achieving national communications objectives. It is the majority's opinion that what might otherwise be procedural and administrative matters of primarily local concern become appropriate matters for federal direction when they threaten to undermine or detract from accomplishment of such national objectives.

The majority believes its recommendations proceed directly and logically from the Committee's unanimously adopted position "that non-duplicative regulation of cable television is a desirable objective." While many member of the majority initially felt that only total federal preemption with delegation of limited functions to specific local government units could relieve the jurisdictional problems, this approach was questioned by some on Constitutional grounds. Without conceding the merits of these objections, the majority found it could reach a consensus on a less assertive and more easily implemented approach to avoiding regulatory duplication and conflict.

We believe that such duplication can be eliminated if the Commission will forcefully assert its totally pervasive jurisdiction and simultaneously indicate its willingness to defer to lesser jurisdictions the regulation of various local matters provided such local regulation does not imperil its overall objectives. It should clearly enunciate that one such objective is the avoidance of duplication, and that as a result it is committed to a policy of regulatory "dualism."

Exercising appropriate constitutional constraint, the Commission would not direct the action of State or local governments, but would simply make the public interest judgment that federal objectives are best served if in effect only one non-federal jurisdiction is party to the overall regulatory scheme.[14] The Commission would defer definition of its "local partner" for determination by appropriate legislative bodies in each State. So that no momentum is lost, it is recommended that the Commission continue to license cable systems in all States, giving those States which presently maintain two non-federal regulatory tiers a reasonable time to revise their regulatory schemes.

It is the belief of the majority that this experiment in dynamic federalism will make a major contribution to realization of national communications goals by providing a clear and stable regulatory environment for cable's long-term development.

There are eight points to the Committee's arguments in support of its conclusions and recommendations. We present here a brief outline of how this argument is organized. We believe that:

1. The FCC has a responsibility to regulate cable in such a way as to promote realization of national communications objectives and that commensurate with this responsibility, the FCC has clear, overriding, preemptive authority to regulate all aspects of cable as may be appropriate to integrating cable into the national communications scheme;

2. Previous failure to exercise the breath of such legal authority does not imply its absence, but probably reflects:

(a) an inability to anticipate that the Commission's flexible approach would induce duplicative multiple-level local regulation;

(b) a concern for the administrative and regulatory burden that might be created at the FCC by a totally preemptive regulatory plan; and

(c) a recognition of legitimate local interests in many elements of cable's development.

3. The Committee's review of developments since February 1972, suggests to the majority that the Commission must now reconsider its flexible jurisdictional plan, since an increasing incidence of regulatory overlap and conflict in matters left for local determination now threatens to impair and undermine accomplishment of national communications objectives;

4. In developing more structured allocations, the Committee produced, under an "ideal world" assumption, a strong consensus for a "federal-most local level of government dualism," with the States playing a legislative and judicial, rather than regulatory, role;

5. The most logical and direct way of implementing this consensus, i.e., preemption and redelegation of specific functions to the most local levels of government," was questioned by some members on constitutional grounds;

6. In deference to these strongly held political and constitutional precepts, the majority endorses and recommends an alternative and less constitutionally questionable way of establishing regulatory stability. Specifically, the majority recommends that the FCC should declare that:

(a) it is totally preempting regulation of cable and simultaneously announcing its intention not to occupy certain defined areas of jurisdiction subject to the condition that local regulation is consistent with (b) below;

(b) it is in the national communications interest that duplicative or conflicting regulation of cable be avoided and that its overall regulation will embrace only programs which involve one non-federal regulatory jurisdiction or its equivalent; (Subject to modification consistent with footnote, supra.).

(c) the allocation of non-federal authority will be subject to determination under appropriate laws on a State-by-State basis, subject only to compliance with the policy established in (b) above;

(d) in any cases where, after a reasonable period, such local determinations are not made or are made in such a way as to conflict with national policy enunciated in (b) above, the FCC will exercise exclusive jurisdiction;

7. Constitutional and policy arguments raised by a minority of the Committee against the foregoing position lack merit, in that:

(a) There is an overriding federal interest in non-federal procedures when duplications and conflicts in those procedures threaten to frustrate the attainment of national objectives;

(b) The majority's compromise recommendation involves no impingement of any constitutionally protected rights, but merely conditions certification of cable systems' authority to operate in interstate commerce on the absence of burdensome non-federal conflicting or duplicative regulation;

(c) There is precedent for the FCC involving itself in the local aspects of CATV (e.g., franchising standards);

(d) There is precedent for granting CATV Certificates subject to conditions which require changes in local authorizations by local governments (e.g., Sapulpa, Oklahoma);

8. Acceptance of views contrary to the majority's leaves the FCC with only two alternatives, both of which the majority adjudged unacceptable:

(a) total federal preemption which would foreclose legitimate local interests; and,

(b) a "do-nothing" maintenance of the status quo, which is unacceptable in light of what the majority feels is a potential threat to attainment of national communications goals posed by developing regulatory duplication and conflict.

[14] It should be noted that there is a presumption throughout this report that divided (multilevel) local jurisdiction is inherently duplicative. The record of such divided jurisdiction available to the Committee to date supports this presumption. However, some of the signatories to this position believe that in certain carefully designed cases, two non-federal jurisdictions could operate without duplication or conflict. The remaining signatories, while somewhat skeptical about such hypotheses, are prepared to withhold judgment until specific future plans are proposed. Accordingly, the program recommended here makes allowance for approval of individual programs for split local jurisdiction on showings to the FCC that a specific plan for split local jurisdiction is non-duplicative, i.e., has achieved the equivalent of two-tiered federal/local regulation. This qualification on means of achieving regulatory dualism should be borne in mind throughout this report.

V 39 I 245 DEC 19 1974 V
XUM

12. The minority position was summarized as follows:

A clear preponderance of opinion on the Steering Committee favors local regulation of those incidents of cable communications that are not regulated exclusively at the federal level. State regulation of such incidents is also considered acceptable by a majority; but some on the Committee would condition their acceptance on the proviso that such State regulation totally supplant local regulation. The sole question at issue in Part II, therefore, is whether those States that do interest themselves in cable regulation may or should be required by the FCC to act in an either-or manner: either staying out entirely, or entirely displacing local governments. The proper answer, on both legal and policy grounds, should be: No. Cities and States may differ on allocations of authority as between themselves, but they are competent to resolve those differences by themselves and they unite in resisting inappropriate federal dictation.

First, the problem itself is scarcely worthy of federal concern. "Three-tier" or cooperative regulation has been enacted into law in only four States, and only two of these (New York and Massachusetts) have commissions in operation.[2] There is simply no hard evidence on which to base a claim of impairment of national communications objectives; and the industry-recommended bill (S. 2015)—which calls for three-tier regulation—is impressive evidence the other way.[3]

Furthermore, the "national communications objectives" at issue are themselves not well-defined or -established. Are they simply to wire all economically viable areas as rapidly as possible? Or may they leave room for thought, such as Massachusetts is giving, to the development of policies that will promote extension of service to all interested residents? No justification has been offered for setting aside the creative resources of our federal system to benefit any one school of thought regarding supposed efficiencies. At the least, the Commission should defer any extension of its own jurisdiction for this purpose pending development of Congressional policy and of concrete facts documenting the supposed "impairment." Cf. CATV and TV Repeater Services, 26 FCC 403 (1959).

Second, the proposed federal remedies would introduce more problems than they would resolve. They would create an artificial inducement for States to involve themselves in cable regulation, and (quite possibly) to do so on a straight public-utility basis. Specifically, one of the proposals would establish a date certain (suggested as March 31, 1977) as a political "High Noon" for States and localities to eliminate one or the other from all regulatory responsibilities, thereby severely politicizing the jurisdictional debate. The alternative proposal—that the Commission claim authority to approve or disapprove cooperative State-local regulatory plans—is more sophisticated but remains insensitive to the creative diversity of our federal system. The rich variety of existing State laws regarding allocations of authority for regulatory and police-power purposes (distinguishing between classes of cities, qualifying certain counties as "home rule" entities and withholding all regulatory power from others, dealing differently with townships and villages, etc. etc.) strongly suggests the futility of seeking any one "right" or federally approved jurisdictional framework. Both proposals would in fact depend upon the legislative (and sometimes constitutional) alignment of regulatory jurisdiction within each of the 50 States in a manner judged acceptable to the Commission—in default of which, in any State, the whole burden of franchising, with competitive hearings and all the rest, would have to be picked up and borne by the Commission. And both proposals would, because of their legal infirmities, invite extensive litigation with resultant serious setbacks to cable development.

Those legal infirmities can be briefly summarized. Both proposals are built on the premise that the Commission has legal authority under the Communications Act as presently written to exercise plenary regulatory jurisdiction—a premise which at the least is not solidly founded. See T.V. Pix, Inc. v. Taylor, 396 U.S. 556 (1970), affirming 304 F. Supp. 459 (D. Nev. 1968); United States v. Midwest Video Corp. 405 U.S. 1015 (1972). More seriously still, even if the substantive law to be applied were entirely federal in origin, there simply is no federal power, arising from the Commerce Clause or otherwise, to limit or control the intra-State allocation of regulatory jurisdiction. See Reynolds v. Sims, 377 U.S. 533, 575 (1964); Hunter v. City of Pittsburgh, 207 U.S. 161 (1907); Testa v. Katt, 330 U.S. 386, 394 (1947); Advisory Commission on Intergovernmental Relations, Urban America and the Federal System, Ch. 5 (1969). Finally, the certificate of compliance does not provide a procedural means of avoiding these difficulties, because "unconstitutional conditions" are no less unconstitutional for being conditions. Sherbert v. Verner, 347 U.S. 398, 404–06 & n. 6 (1963); Note, Unconstitutional Conditions, 73 Harv. L. Rev. 1595 (1960).

The absence of federal power in the premises does not mean that such problems as may arise from State-local cooperative regulation are going to be left unattended. Undue delays and duplications of effort do not commend themselves to State or local governments any more than they do to the industry. But the public welfare is not necessarily or everywhere synonymous with industry welfare. Effective protection of consumer interests is the spur beneath the development, at levels closest to the consumer, of effective schemes of State-local regulation—as it should be the chief concern of this Committee and of the FCC. Efforts in any event have been and are under way to perfect workable allocations of authority for incorporation in State-local regulatory schemes; illustrations are outlined in Section IV of this paper. The Commission may properly encourage such developments, and it should certainly be cognizant of them. But it should be wary of invitations to extend its own reach beyond its grasp, which would only complicate and retard development of cable communications in this country.

13. Both positions are fully explored in the FSLAC Report and the Commission is appreciative of the effort that went into the preparation of the respective briefs. What is of most significance to us, however, is their similarities, not their differences. It cannot be overemphasized that the Committee reached unanimous agreement that non-duplicative regulation is a desirable objective. It is interesting to note that a wholly separate expert committee, the President's Cabinet Committee on Cable Communications, submitted a report to the President in January 1974 that reached essentially the same conclusion. The Cabinet Committee report stated:

> • • • the Committee has concluded—as has virtually every other body that has grapped with this issue—that there must be a carefully structured dualism of government oversight.

14. The Office of Telecommunications Policy, in proposing draft legislation to implement the cabinet committee report, stated in a widely distributed public draft submitted to this Commission (among many others) for comment that:

This bill would provide that wherever non-Federal cable regulation must be consistent with Federally imposed standards, such regulation may be imposed, executed, and enforced by only one non-Federal level of government in order to avoid duplication and inconsistency of regulation. Since the local levels of government, which have traditionally exercised the licensing function, have the greatest interest in cable system construction and operations, it would be logical for them to continue to exercise this important function. However, because such a determination is most appropriately left to the States, the bill does not address the allocation of non-Federal regulatory authority, and this decision remains within the States' discretion.

15. It would appear that the Office of Telecommunications Policy proposal is very similar to the majority position of the FSLAC Report, the major distinction being that their draft proposes a strict "two-tier" approach where the FSLAC majority allows more flexibility for State-Local interaction stressing any appropriate non-duplicative regulatory scheme. We think that particular attention should be paid to the footnote in the majority position summary. It seems to

---

[2] The Commission notes that subsequent to the submission of this report, two more states adopted "three-tier" approaches and several others are considering same.

[3] The Commission notes that the industry representatives on the Committee specifically denied that S. 2015 was an "industry bill" or that they considered it in any way an ideal solution to the problem.

offer a potential for "cooperative" regulation (as espoused by the minority position) that would still accomplish non-duplicative regulation.

16. Efforts at cooperative regulation between Federal agencies and State and local officials are being developed in several areas. We note, for instance, the provisions of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C., Secs. 1673, 1674) and the Federal Railroad Safety Act of 1970 (45 U.S.C. Secs. 434, 436) which define the Federal-State relationship in these areas of public concern. In both instances, the Federal government reimburses a percentage of the regulatory costs incurred by the State. Such a cost sharing proposal has not been advanced in the area of cable television and federal budgetary constraints appear to preclude such an approach at this time. This, of course, highlights the economic realities of regulation. That is, in order to do an adequate job, the assumption of regulatory responsibility, particularly the establishment of new regulatory agencies, is expensive. As an example, the current annual budget of the New York State Commission on Cable Television is approximately one million dollars. Some other states have contemplated adopting, in essence the same regulatory program that New York State has but with only one-third the budget. It is questionable whether efficient regulation could result. Even the simple addition of a new department to an existing State agency requires significant expenditures. We urge all parties to investigate the true costs of proposed additional regulatory entities and the expected benefits in relation to those costs before going forward.

17. With the exception of the signatories to the FSLAC minority position on Part II, most studies of this subject have concluded that a problem regarding duplicative regulation does exist and is growing. While there were only two operating "third-tier" bodies when the FSLAC Report was submitted, that number has now doubled. New state legislation is being proposed in several other states that would also create a duplicative tier of regulation. Contrary to the minority view, we do think this is cause for concern.

18. The problems we have encountered since adopting our regulatory dualism approach, however, are not limited only to duplicative regulations and delay. The opposite is also a problem, that is, absence of regulation. In many cases coming before us we are presented with a situation in which there is apparently no non-federal authority capable of issuing and enforcing a franchise. This is particularly true in unincorporated county areas. This problem arises either because of the absence of any clear state law on the subject or because of confusion regarding the applicability of existing law. We cannot stress enough the imperative need for clarifying State legislation in this area. We are very reluctant to grant certificates of compliance in the absence of local authorizations. We have been forced to do so, however, because no local authority was apparently legally empowered to act, yet the public sought service. In each such case, our certificate grant is subject to any subsequent local assumption of authority. We have further made all certificates of this nature temporary, that is, they all expire on March 31, 1977. Hopefully, every state in which uncertainty still exists as to franchising authority will, by that date, have adopted clarifying legislation. We urge the states involved to do this regardless of any potential rulings resulting from this rulemaking proceeding. At the moment, the lack of any local authority appears to be a more pressing problem from our view than the opposite pole of excessive regulation.

19. Some local authorities seem to have construed our rules, such as the franchise fee limitation in Section 76.31(b), as granting them authority to impose such fees or grant franchises in the first instance. This is not the case. Our rules only apply to those governmental entities that already have legal authority to grant a franchise or impose fees, etc.; they do not in any way vest franchising authority in a political jurisdiction not already possessing same under applicable State or local laws. This is yet another reason why clarifying state legislation in the area of cable television is important.

20. The purpose of the rulemaking we are announcing today is to determine what, if any, federal regulations might be necessary to assure that there is both clear and non-duplicative regulation at the local or state level. We have already determined that duplicative regulation is, by definition, not in the public interest and further that a strict requirement of "two-tier" regulation may not offer enough flexibility for creative regulatory programs that could conceivably encompass more than two-tiers while still being non-duplicative. Our experience to date indicates that many non-federal authorities are also now gaining an appreciation of this problem. The question presented, therefore, is how to assure, by rule, legislation, or any other means, that duplicative and excessive regulation is avoided. In the first instance, of course, this is accomplished by a thorough understanding of the problem. Hopefully, this rulemaking will aid in that educational effort.[1]

21. It is clear to us that cable television is in danger of becoming smothered in regulatory paper work. For this reason, we have already embarked on a program of investigating all of our own requirements to see where we could ease this burden. To add yet another layer of regulation would appear to be counterproductive—particularly if that layer simply duplicates what is already being done. As an example, this Commission requires that franchises be awarded only following a public proceeding. We also have a certification procedure to assure that our rules have been complied with. Most states have specific public proceeding requirements before franchises can be granted—these are enforceable in state courts. For the State then to add a certification procedure regarding the franchise grant would appear to be duplicative. It would seem to be far simpler and less costly, both for the State and for the cable operator, to adopt state regulations that would be enforced in court upon an allegation of violation instead of via a non-selective, time consuming, and expensive certification process. We make the presumption, in our certification procedures, that local franchising authorities operate within our rules and within the confines of state laws. To date, this presumption appears to have been valid and we would suggest that state governments might adopt it.

22. The problem of multiple tiers of regulation is exacerbated even further when the laws adopted by the States creating the third-tier lack clarity as to the specific jurisdiction of the two state levels of regulation. Serious delays have been encountered, for example, where a State reviewing body is established without clear statements or guidelines as to exactly what it is reviewing. In one State the review function now includes a thorough study of the economic viability of the individual applicants but the reviewing body has not issued any guidelines as to what the criteria for review consist of. This has resulted in protracted discussions and delays between the local and State officials. Questions have now been raised as to whether local officials can appeal State decisions to this Commission. A more precise structuring of regulatory roles eliminating overlapping or unclear regulatory authority could probably have avoided this problem.

23. While there are now only four states that have adopted so-called "three-tier" approaches to regulating cable, we are aware that other states are contemplating some form of State regulation. We strongly recommend, regardless of the outcome of this rulemaking, that any new state legislation adopted be tested against the concept of non-duplicative regulation and inflationary impact. This is not to say, however, that the States have no role in cable regulation. Indeed there are many areas where it would appear that the states could provide very valuable input. Interconnection agreements, joint powers agreements, educational resource allocations, technical planning and enforcement, pole and duct agreements, and advisory assistance are but a few. There is much yet to be done not only in establishing appropriate regulation of cable television, but also cohesive statewide communications plans that encompass cable

[1] Some might argue that the mere announcement that we are considering action to prevent excessive regulation will prompt hasty action by some jurisdictions. We do not think this is the case. However, it should be made clear that should we adopt regulations on this subject, we contemplate that they would deal with any pre-existing duplicative formats.

television, state educational broadcasting, if any, telephony, etc.

24. One obvious way States have attempted to deal with the duplication problem in cable regulation is to preempt local officials and place cable regulation solely at the State level—generally in the same agency that regulates public utilities. Examples of this form of regulation may be found in Vermont, Connecticut, Nevada, Alaska, Hawaii, and Rhode Island. New Jersey has a separate cable television arm of its Board of Public Utilities but localities still make the initial franchise grant. Delaware leaves franchising to incorporated cities but the Public Utilities Commission grants the franchise in all unincorporated areas. This Commission has continually stated that we do not consider cable to be a classic public utility at this juncture. Some fear that placing cable under the jurisdiction of a State utility regulator would inevitably lead in this direction.[5]

New York and Minnesota, apparently responding to this fear, have opted for a complete three-tier approach much like New Jersey in that a complete certification procedure is required at the State level; however, a separate agency has been established outside the Public Utilities Commission. In Massachusetts, a separate agency has also been created but there is no certification procedure. The agency has the power to promulgate rules and step in on appeal or on its own motion in instances where conflicts arise, but no directly duplicative procedures have been established.

25. This Commission has attempted to work with each of these State agencies to foster to the degree possible harmonious regulatory approaches. We have also maintained continuing contacts with the Informal Conference of State Cable Agencies (CSCA) representing all of these states. We intend to continue working with these various groups to find ways to best regulate cable television while at the same time seeking to eliminate any perceived excessive regulation. A key question posed by this inquiry is how this can best be accomplished.

26. The problems we have encountered to date, however, do not lie solely in the area of duplication of certification procedures. Lengthy additional reporting forms, non-uniform systems of accounting, technical standards, and in some instances rules inconsistent with our own are also of serious concern. The obvious difficulties, particularly for multiple system operators, of maintaining, for instance, separate books with different accounting standards for different states has prompted us to work with both the industry and the state agencies to see whether some agreement can be reached on a uniform system of accounts to be voluntarily adopted by the individual states. Any state contemplating statewide regulations for cable television should become aware of these efforts before going forward. We will offer any assistance we can in this process.

27. Our interest here is in determining to what extent possible and via what mechanisms the Commission can insure that additional regulation of cable television is non-duplicative. We have determined that excessively duplicative regulation does endanger the accomplishment of federal objectives and presents the possibility of obstruction of interstate commerce. We are considering the adoption of any appropriate action or regulation that would prevent such an obstruction while at the same time maintain the rightful prerogatives of the States (and localities as entities of the State) to adopt necessary regulations. Such regulations could, for instance, take the form of rules limiting specific duplication of tasks such as certification, nonconforming reporting forms, systems of accounts, etc. Alternatively, a program of cooperative review and approval of diverse non-federal regulatory structures could suffice similar to the ones already in place under the Natural Gas Pipeline Safety Act of 1968 and the Federal Railroad Safety Act of 1970. "Joint Board" proposals such as we already have with the State Regulatory Commissions in the area of common carrier matters will also be considered.

28. If it is determined that our existing jurisdiction limits our ability to deal with this problem, we will immediately proceed to draft and propose to Congress appropriate additional legislation or amendments to the Communications Act to allow us to adequately resolve the inherent difficulties in duplicative regulation of cable television. All parties are invited to specifically address the issue of proposed legislation as well as the basic questions outlined below. We can foresee that due to the complexities of the issues raised in this document, it may be necessary to issue further notices of proposed rulemaking attacking the problem on a segmented basis. However, if it is determined that, following this rulemaking proceeding, we can take immediate steps to cure the problem of excessive and burdensome over regulation of cable television, we will not hesitate to do so. It is already abundantly clear to us that some action, be it voluntary or mandatory, is necessary.

29. In view of the foregoing, the Commission invites all interested parties to submit comments on or related to the following questions:

1. Is it necessary for this Commission to take any formal action now regarding duplicative and burdensome regulatory schemes being developed in some non-federal jurisdictions? Are there specific areas of regulatory overlap that could be dealt with individually to ease the problem?

2. Under what authority could the Commission regulate the type or nature of non-federal regulatory programs? If legislation is needed to clarify that authority, what should the legislation contain?

3. Should the Commission adopt rules that would permit, at most, two levels of regulatory authority over cable television in any given area? If so, what should those rules be?

4. Should the Commission adopt rules that would require non-duplicative regulation of cable television? If so, what should those rules be?

5. If the Commission does not adopt specific rules in this area, what can or should the Commission do to prevent duplicative and burdensome regulatory requirements being imposed on cable television operations?

30. Authority for the rule making and inquiry proposed herein is contained in sections 4(i), 303, and 403 of the Communications Act of 1934, as amended. All interested parties are invited to file written comments on or before February 17, 1975, and reply comments on or before March 17, 1975. In reaching a decision on this matter, the Commission may take into account any other relevant information before it, in addition to the comments invited by this Notice.

31. In accordance with provisions of Section 1.419 of the Commission's Rules and Regulations, an original and 14 copies of all comments, replies, pleadings, briefs, or other documents filed in this proceeding shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission Public Reference Room at its Headquarters in Washington, D.C.

Adopted: December 3, 1974.

Released: December 18, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[6]

[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-29512 Filed 12-18-74;8:45 am]

[5] It should be noted that the OTP Legislative draft proposal would prohibit, by definition, a State public utility Commission from regulating cable television. Further, while designating cable as a public utility for the legal purpose of including it in easement agreements, etc. might be beneficial, this does not mean that it should automatically be regulated as such.

[6] Statement of Chairman Wiley, in which Commissioners Reid and Robinson join, is filed as part of the original document. Commissioners Hooks and Ovello absent.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 1204, 1260, 1261]

[Ex Parte No. 306; Valuation Docket No. 1428 (1971 Report) and (1972 Report)]

WILLIAMS BROTHERS PIPELINE CO.

Valuation of Common Carrier Pipelines

At a general session of the Interstate Commerce Commission, held at its Office in Washington, D.C., on the 9th day of December, 1974.

It appearing, that by order of August 28, 1974, the Commission instituted a rulemaking proceeding under part I of the Interstate Commerce Act (49 U.S.C.

sec. 1), including section 19a thereof, relating to valuation of common-carrier property, and pursuant to sections 553 and 554 of the Administrative Procedure Act (5 U.S.C. secs. 553 and 554), for the purpose of determining whether any modification is required in the rules and regulations contained in part 1204 of Title 49 of the Code of Federal Regulations, entitled "Pipeline Companies, List of Instructions and Accounts," in part 1260 of said Title 49, entitled "Reporting of Data for Initial Pipeline Valuations," and in part 1261 of said Title 49, entitled "Regulations Governing the Reporting of Property Changes; Pipeline Carriers," or any modification in the methodology of valuation stated in *Ajax Pipe Line Corporation*, 50 Val. Rep. 1.

It further appearing, that Valuation Docket No. 1423 (1971 Report) and (1972 Report) were consolidated with the rulemaking proceeding Ex Parte No. 308 and that motions filed by Williams Brothers Pipe Line Company to reject protests in Valuation Docket No. 1423 were denied by order of August 26, 1974;

It further appearing, that American Petrofina Company of Texas, et al. has filed a petition for leave to intervene in Valuation Docket No. 1423 (1973 Report) in order, among other things, to review the methodology employed by the Commission in the valuation process;

It further appearing, that consideration of pipeline valuation methodologies is the proper subject of, and will be considered in, Ex Parte No. 308, and further good cause existing therefor:

It is ordered, That the Interstate Commerce Commission's Notice of Proposed Rulemaking in Ex Parte No. 308 be modified insofar as it consolidated the rulemaking and valuation proceedings. Valuation Docket No. 1423 is hereby severed from Ex Parte No. 308;

It is further ordered, That American Petrofina's petition for leave to intervene in Valuation Docket 1423 (1973 Report) be, and it is hereby granted.

It is further ordered, That Reports 1971, 1972, 1973, of Valuation Docket No. 1423 be, and they are, hereby consolidated among themselves for hearing separate from Ex Parte No. 308, with exceptions, if any, going to Division 2;

It is further ordered, That Valuation Docket No. 1423 (Reports 1971, 72, 73) be governed by the rules and regulations published by the Commission in 49 CFR part 1204 entitled "Pipeline Companies, List of Instructions and Accounts"; in part 1260 entitled "Reporting of Data for Initial Pipeline Valuations"; part 1261 entitled "Regulations Governing the Reporting of Property Changes; Pipeline Carriers", or any statement of the methodology of valuation described in *Ajax Pipe Line Corporation*, 50 Val. Rep. 1.

It is further ordered, That notice of this supplement to the notice of proposed rulemaking and order be given to the general public, including interested persons, by mailing a copy of this order to the Governor and the regulatory agency of every State, by depositing a copy with the Secretary of the Interstate Commerce Commission, and by delivering a copy to the FEDERAL REGISTER for publication therein; and a copy will be mailed to each respondent.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[FR Doc.74-29605 Filed 12-18-74;8:45 am]

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[Notice No. 269]

ADVISORY COMMITTEE ON DISTILLED SPIRITS PLANT SUPERVISION

Notice of Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776, 5 U.S.C. App. I, Supp. II) the Bureau of Alcohol, Tobacco and Firearms announces the establishment of the following advisory committee:

Title. Advisory Committee on Distilled Spirits Plant Supervision.

Purpose. The Committee will provide informed advice and make recommendations to the Director, Bureau of Alcohol, Tobacco and Firearms, as to practical methods to achieve an orderly transition from the present "joint custody" concept of supervision of distilled spirits plants to a plan of more flexible supervision of such operations. Specifically, the committee is to consider the means of implementing the planned elimination or relaxation of the following statutory requirements at distilled spirits plants:

1. Affixture of Government locks and seals;
2. Assignment of Government officers;
3. Joint Custody with respect to storage rooms, or buildings in which distilled spirits are stored; and
4. Exercise of General Government supervision.

Statement of Public Interest. The "joint custody" concept of supervision in distilled spirits operations is a long-established one, and the termination of its use as a revenue protection method will create various problems for both Government and industry. It is in the public interest that the impact of this change be minimized in order to best protect federal revenue, and insure stability in the industry. This function cannot be effectively performed by the Bureau of Alcohol, Tobacco and Firearms or the Treasury Department without the services of this committee and there exists no other advisory committee or group able to provide the required assistance.

To insure balance, membership on the Committee will seek to represent all segments of the distilled spirits industry, including the grain beverage, the brandy, and the industrial producers. In addition, the Committee representation will provide relevant expertise from the academic community, as well as including knowledgeable Government officials.

Authority for this Committee will expire two years from the date the Committee's charter is approved by signature of the Assistant Secretary of the Treasury for Administration unless the Director formally determines that continuance is in the public interest.

Dated: December 12, 1974.

REX D. DAVIS,
Director, Bureau of Alcohol, Tobacco and Firearms.

Office of the Secretary

[Department Circular Public Debt Series No. 16-74]

TREASURY NOTES OF SERIES K-1976

Dated and Bearing Interest From December 31, 1974

DECEMBER 16, 1974.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for $2,000,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series K-1976. The interest rate for the notes will be determined as set forth in section III, paragraph 3, hereof. Additional amounts of the notes may be issued by the Secretary of the Treasury to Government accounts and Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities at the average price of accepted tenders. Tenders will be received up to 1:30 p.m., Eastern Standard time, Monday, December 23, 1974, under competitive and noncompetitive bidding, as set forth in section III hereof. The 5⅞ percent Treasury Notes of Series F-1974, maturing December 31, 1974, will be accepted at par in payment, in whole or in part, to the extent tenders are allotted by the Treasury.

II. DESCRIPTION OF NOTES

1. The notes will be dated December 31, 1974, and will bear interest from that date, payable semiannually on June 30, 1975, December 31, 1975, June 30, 1976, and December 31, 1976. They will mature December 31, 1976, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Standard time, Monday, December 23, 1974. Each tender must state the face amount of notes bid for, which must be $5,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield, with two decimals, e.g., 7.75. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, federally insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment (in cash or 5⅞ percent Treasury notes of Series F-1974 which will be accepted at par) of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which

public announcement will be made by the Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established at the nearest ⅛ of one percent necessary to make the average accepted price 100.00 or less. That will be the rate of interest that will be paid on all of the notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept more or less than the $2,000,000,000 offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated yield from any one bidder will be accepted in full at the average price (in three decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after 1:30 p.m., Eastern Standard time, Monday, December 23, 1974.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own accounts.

IV. Payment for and Delivery of Notes

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before December 31, 1974, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. Payment must be in cash, 5⅞ percent Treasury Notes of Series F–1974 (interest coupons dated December 31, 1974, should be detached), in other funds immediately available to the Treasury by December 31, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Friday, December 27, 1974, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Tuesday, December 24, 1974, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. When payment is made with notes, a cash adjustment will be made to or required of the bidder for any difference between the face amount of notes submitted and the amount payable on the notes allotted.

2. Delivery of notes in bearer form will be made on or about January 6, 1975. Purchasers of bearer notes may elect to receive interim certificates on December 31, 1974, which will be exchangeable for the notes when available at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

V. Assignment of Registered Notes

1. Registered notes tendered as deposits and in payment for notes allotted hereunder are not required to be assigned if the notes are to be registered in the same names and forms as appear in the registrations or assignments of the notes surrendered. Specific instructions for the issuance and delivery of the notes, signed by the owner or his authorized representative, must accompany the notes presented. Otherwise, the notes should be assigned by the registered payees or assignees thereof in accordance with the general regulations governing United States securities, as hereinafter set forth. Notes to be registered in names and forms different from those in the inscriptions or assignments of the notes presented should be assigned to "The Secretary of the Treasury for Treasury Notes of Series K–1976 in the name of (name and taxpayer identifying number)." If notes in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon Treasury Notes of Series K–1976 to be delivered to _____." Notes tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The notes must be delivered at the expense and risk of the holder.

VI. General Provisions

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

Stephen S. Gardner,
Acting Secretary of the Treasury.

[No. A 8800]

ARIZONA

Proposed Withdrawal and Reservation of Lands

The Forest Service, United States Department of Agriculture has filed an application, Serial Number A 8800, for the withdrawal of lands under the Act of July 9, 1962 (76 Stat. 140; 43 U.S.C. 315g–1).

Subject to valid existing rights the following described lands, acquired in an exchange made pursuant to section 8 of the Taylor Grazing Act of June 28, 1934 (48 Stat. 1272; 43 U.S.C. 315g), as amended, would be added to and made a part of the Sitgreaves National Forest and would be subject to all laws and regulations applicable to national forest lands:

Gila and Salt River Meridian, Arizona

T. 13 N., R. 13 E.,
Sec. 7, lots 2 to 8, incl., and lots 11 and 12.

The area described aggregates approximately 341.13 acres in Coconino County.

On or before January 20, 1975, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal, may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 3022 Federal Building, Phoenix, Arizona 85025.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

XUM
DEC 19 1974
XUM

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

Dated: December 13, 1974.

JOE T. FALLINI,
State Director.

GEOTHERMAL LEASE SALE

Competitive Bid

Bid Submission Procedures. Notice is hereby given that pursuant to section 4 of the Geothermal Steam Act of 1970 (84 Stat. 1566, 30 U.S.C. 1001–1025) and the regulations issued thereunder (43 CFR Part 3200) sealed bids will be received for the leasing of geothermal resources in lands described below situated in the vicinity of Clifton, Graham County, Arizona. Sealed bids must be mailed to the Arizona State Office, Bureau of Land Management, 3022 Federal Building, 230 North First Avenue, Phoenix, Arizona 85025, or delivered in person to Room 3204, Federal Building, at the same address, prior to 10 a.m., m.s.t. January 28, 1975. Bids received after 10 a.m. on January 28, 1975, will be returned unopened. Bids may not be modified or withdrawn unless written modification or withdrawal is received prior to the time set for opening of bids. All bids must be submitted and will be considered in accordance with applicable regulations, including 43 CFR Part 3220.

FORM OF BID

Any bid submitted shall be in a sealed envelope endorsed "Sealed Bid for Geothermal Lease Sale—Clifton, Arizona, Area, not to be opened until 10 a.m. January 28, 1975". Bids are to be submitted on Form 3200–4 "Competitive Geothermal Resources Lease Bid." Bid forms are available through the Arizona State Office, Bureau of Land Management at the address above. Bidders must submit with each bid one-half of the bonus amount bid in cash, or by cashier's check, bank draft, certified check, or money order, payable to the Bureau of Land Management. Proof of qualifications as required by 43 CFR Part 3202 must also be filed with the bid. All bidders are warned against violation of the provision of Title 18 U.S.C. section 1860 prohibiting unlawful combination or intimidation of bidders.

BID OPENING

Bids will be opened on January 28, 1975, at 10 a.m., m.s.t., in Room 3204, Federal Building, at the above address. The opening of bids is for the sole purpose of publicly announcing and recording bids received. No bid will be accepted or rejected at that time. Any cash, checks, drafts, or money orders submitted with the bids may be deposited in an unearned escrow account in the Treasury during the period the bids are being considered. Such a deposit does not constitute and shall not be construed as acceptance of any bid on behalf of the United States.

ACCEPTANCE OR REJECTION OF BIDS

No bid will be accepted and no lease will be awarded to any bidder unless the bidder has complied with all requirements of this notice, his bid is the highest valid cash bonus bid for the tract, and the amount of the bonus bid has been determined to be adequate by the United States. The Government reserves the right to reject any and all bids. If the highest responsible qualified bidder fails to execute the lease or otherwise comply with the applicable regulations as set forth herein, his deposit will be forfeited (43 CFR 3220.6(e)). Before any lease will be issued to a successful bidder, the balance of the bonus bid, plus the first year rental, shall be remitted and a proposed plan of operation as required by 43 CFR 3210.2–1(d) shall be furnished. Where the lessee has not previously furnished a $150,000 full nationwide bond covering geothermal leases, the lessee must furnish either a $50,000 statewide bond applicable to the State of Arizona, or a $10,000 lease compliance bond conditioned upon compliance with the terms of the lease. Lessee shall also complete and file Forms 1140–7, Equal Opportunity Affirmative Action Program Representation, and 1140–8 Equal Opportunity Compliance Report Certification.

RENTAL RATE

Royalties payable to the United States will be at the rate of: (a) 10 percent of the amount or value of steam or any other form of heat or energy derived from production; (b) 5 percent of the value of any by-product derived from production under the lease, except that as to any by-product which is a mineral named in section 1 of the Mineral Leasing Act of February 25, 1920, as amended (30 U.S.C. 181), the rate of royalty for such mineral shall be the same as that provided in that Act and (c) 5 percent of the value of commercially demineralized water sold or utilized by the leasee, except that no payment of royalty will be required on such water used in plant operation for cooling or in the generation of electric energy or otherwise. Annual rental for the first through the fifth lease year will be at the rate of $2.00 per acre or fraction thereof, for the sixth lease year and for each lease year thereafter prior to production, the rental will be the amount of the rental for the preceding year, plus an additional $1.00 per acre.

LEASE TERMS

Any lease issued as a result of this sale will be on Form 3200–21 (May 1974) as modified by the stipulations as set forth below. Copies of the lease form are available from the Arizona State Office, Bureau of Land Management at the above address. The stipulations to be contained in each lease are:

SPECIAL STIPULATIONS AND CONDITIONS

In addition to lease terms and requirements contained in the lease form, the lessee shall comply with the following special conditions and stipulations unless they are modified by mutual agreement of the lessee, the Supervisor and the authorized officer.

1. Any occupancy or disturbance to the land surface on the SW¼SE¼ and S½SE¼-SE¼ of Sec. 19, and the N½NE¼, the SE¼NE¼ and the NE¼SE¼ of Sec. 30 which are within the City limits of Clifton, Arizona will not be initiated without prior approval of the authorized officer.

2. The lessee shall provide a complete inventory and evaluation of archaeological and historical values on lands to be disturbed or occupied. This will be prepared by a competent archaeologist, acceptable to the authorized officer, in advance of any surface disturbance.

3. Any public land survey markers accidentally damaged or obliterated by the lessee or his operator must be re-established in accordance with instructions of the responsible agency at the expense of the lessee.

4. Natural drainage systems shall not be blocked. No cuts or fills shall be made in or near drainages which will result in siltation or the accumulation of debris.

5. The lessee shall make every possible effort to prevent, control or suppress any fire on national resource lands within the lease area. Reports of uncontrolled fire must be immediately sent to the BLM District Office, Safford, Arizona. Fire suppression costs relating fires caused by the lessee's operations will be borne by lessee.

6. If considered necessary by either the Supervisor or the Authorized Officer, the Supervisor may require temporary fencing of areas to alleviate hazards to humans, livestock or wildlife or to allow seedlings on rehabilitated areas to become established.

7. Existing surface waters in pipelines, storage tanks, ponds, reservoirs or streams are not available for use in any activities under this lease except as may be specifically permitted by the authorized officer.

8. If considered necessary by either the Supervisor or the Authorized Officer, the Supervisor may, in his discretion, apply standards from local, county, and state zoning ordinances, building codes and environmental protection regulations to lessee's operations under this lease.

TRACT DESCRIPTION

The lands offered for bid comprise a single leasing tract and are described as follows:

TOWNSHIP 4 SOUTH, RANGE 30 EAST, GSR MERIDIAN, ARIZONA

Sec. 19: SW¼SE¼, S½SE¼SE¼
Sec. 29: SW¼
Sec. 29: W½, W½SE¼
Sec. 30: N½NE¼, SE¼NE¼, NE¼SE¼
Total 285 acres.

GLENDON E. COLLINS,
Acting State Director.

Notice of Application

DECEMBER 13, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Chandler & Associates, Inc. has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 56 N., R. 74 W.,
Sec. 2, SW¼NW¼, N½SW¼, SW¼SE¼;
Sec. 3, lots 1 and 2.

The pipeline will convey natural gas across 1.17 miles of national resource lands in Campbell County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 2834, Casper, WY 82601.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

PROPOSED CHASE LAKE WILDERNESS AREA

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91-190, the Department of the Interior has prepared a Final Environmental Statement for the Proposed Chase Lake Wilderness Area, Stutsman County, North Dakota.

The proposal recommends that approximately 4,155 acres of the Chase Lake National Wildlife Refuge in Stutsman County, North Dakota be designated as wilderness within the National Wilderness Preservation System.

Copies of the Final Statement are available for inspection at the following locations:

Regional Director
10597 West Sixth Avenue
Lakewood, Colorado 80215

Refuge Manager
Rural Route 1
Edmunds, North Dakota 58434

U.S. Fish and Wildlife Service
Office of Environmental Coordination
Department of the Interior
Room 2252
18th and C Streets, N.W.
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Coordination, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Dated: December 13, 1974.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A107]

INDIANA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in 20 counties in Indiana. The Secretary has found that this need exists as a result of natural disasters shown on the attached chart which also lists the 20 counties.

Therefore, the Secretary has designated these areas as eligible for Emergency Loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Otis R. Bowen that such designation be made.

Applications for Emergency loans must be received by this Department no later than February 6, 1975, for physical losses and September 9, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D. C., this 13th day of December 1974.

FRANK W. NAYLOR, JR.,
Acting Administrator,
Farmers Home Administration.

SOUTH DAKOTA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in eight counties in South Dakota. The Secretary has found that this need exists as a result of natural disasters shown on the attached chart which also lists the eight counties.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Richard F. Kneip that such designation be made.

Applications for Emergency loans must be received by this Department no later than February 6, 1975, for physical losses and September 9, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 12th day of December 1974.

CULLASAJA RIVER & WHITEWATER RIVER UNIT PLANS

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Cullasaja River and Whitewater River Unit Plans, Nantahala National Forest, USDA-FS-R8-FES (ADM.)—75-3.

This environmental statement concerns the proposed 10-year plan for the Cullasaja River and Whitewater River Units of the Highland and Wayah Ranger Districts, Nantahala National Forest, located in Transylvania, Jackson and Macon Counties, North Carolina. These units contain 30,600 acres of National Forest land.

Management decisions will affect major forest resources as wildlife, water quality, soils, vegetative cover, aesthetics, roads, trails and recreation.

This final environmental statement was filed with CEQ December 10, 1974. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Rm. 3230
12th St. & Independence Ave., SW
Washington, DC 20250

USDA, Forest Service
District Ranger
Highland Ranger District
Highlands, NC 28741

GRAND MESA-UNCOMPAHGRE NATIONAL FOREST

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Timber Management Plan Revisions for the Grand Mesa-Uncompahgre National Forest. The Forest Service report number is USDA-FS-R2-DES(Adm) FY-75-03.

The environmental statement concerns a proposal to revise the 1961 (Rev.) Timber Management Plan for the Grand Mesa-Uncompahgre National Forest in west central Colorado. Such Plans are required to regulate the flow of timber products from National Forest lands.

This draft environmental statement was transmitted to CEQ on December 13, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
So. Agriculture Bldg., Room 3230
12th St. & Independence Ave., SW
Washington, D.C. 20250

USDA, Forest Service
11177 West 8th Avenue
P.O. Box 25127
Denver, Colorado 80225

USDA, Forest Service
Grand Mesa-Uncompahgre National Forest
11th and Main Street
P.O. Box 138
Delta, Colorado 81416

A limited number of single copies are available upon request to W. J. Lucas, Regional Forester, USDA Forest Service, 11177 West 8th Avenue, P.O. Box 25127, Denver, Colorado 80225.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to W. J. Lucas, Regional Forester, USDA Forest Service, 11177 West 8th Avenue, P.O. Box 25127, Denver, Colorado 80225. Comments must be received by February 11, 1975, in order to be considered in the preparation of the final environmental statement.

Dated: December 13, 1974.

CLAYTON B. PIERCE,
Director, Multiple Use and Environmental Quality Coordination.

HORSESHOE MEADOWS, INYO NATIONAL FOREST

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Horseshoe Meadows Land Use Plan, Inyo National Forest, California, USDA-FS-FES (Adm)-74-66.

The environmental statement concerns a proposed land use plan which will provide year-round recreational facilities of moderate scale near Horseshoe Meadows, within Cottonwood Basin, Inyo National Forest, Inyo County, California. The plan calls for a 100-unit overnight campground, 25 back-country camp units, an interpretive program, Pacific Crest trailhead facilities, a pack station with overnight facilities, limited development for cross-country skiing, and a road extension of about one mile. Parking will be provided for and limited to 150 cars.

This final environmental statement was transmitted to the Council on Environmental Quality (CEQ) on December 13, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th Street and Independence Ave., SW
Washington, D.C.

Packers and Stockyards Administration

[P. & S. Docket No. 5040]

DIXIE STOCK YARD, INC.

Order Extending Period of Suspension of Modifications of Rates and Charges

On November 15, 1974, an order was issued instituting the following proceeding under Title III of the Packers and Stockyards Act, 1921, as amended, 42 Stat. 159, as amended (7 U.S.C. 181 et seq.):

Dixie Stock Yard, Inc.
Meridian, Mississippi
(39 FR 40965, 40966)

Such order, among other things, suspended and deferred the operation and use by the respondent of modifications of its current schedule of rates and charges to become effective November 18, 1974, for a period of thirty days beyond the time such modifications would otherwise go into effect.

Notice is hereby given that, since the hearing in this proceeding could not be concluded within such period of suspension, an order has been issued in the above proceeding suspending and deferring the operation and use of such modifications of the current schedule of rates and charges for a further period of thirty days beyond the date when such modifications would have otherwise become effective.

Done at Washington, D.C. on December 16, 1974.

MARVIN L. MCLAIN,
Administrator, Packers and Stockyards Administration.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

FERROUS SCRAP SHIPMENTS

Fourth Quarter 1974 Foreign Policy Allocations

On November 4, 1974, the Department of Commerce announced that 100,000 short tons of ferrous scrap had been assigned, following consultations with the Department of State and the National Security Council, to certain countries to fill special needs that are in consonance with U.S. foreign policy objectives. The deadline for receiving applications for licenses to export this scrap was December 6, 1974. Tonnages for which valid applications were not received prior to the deadline are reassigned as follows:

[In short tons]

Country	Allocation	Exporter limit	Type "A"[1]
Brazil	5,000	5,000	5,000
Chile	3,300	3,300	3,000
Dominican Republic	300	300	300
Egypt	6,000	6,000	2,000
Israel	6,000	6,000	2,000
Korea	6,400	6,400	1,500
Pakistan	5,000	5,000	3,150
Philippines	2,000	2,000	1,200

[1] The column designated Type "A" indicates the maximum tonnage of ferrous scrap, out of the total foreign policy allocation for a particular country, that may be licensed from the Type "A" scrap grades, which include No. 1 and No. 2 heavy melting steel scrap, No. 1 bundles, and ire scrap.

Any exporter who obtains an order dated after December 12, 1974 and before January 1, 1975 for export of ferrous scrap to a country that has received an additional allocation hereunder, may submit an application for an export license whether or not he has a past history of exporting scrap to the country involved. The application must be clearly marked "Foreign Policy Allocation." No exporter may apply for licenses for any one country for more than the amount shown in the column designated "Exporter Limit". If applications are received from an exporter for export to a country of a quantity that exceeds that country's "Exporter Limit" or Type "A" maximum tonnage, the applicant will be contacted to determine which of his applications should be reduced in quantity or returned without action. Applications received by the Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230 after 12 noon e.s.t. Tuesday, December 31, 1974, will not be considered.

Licenses will be issued after December 31, 1974. In the event that applications for licenses are received for quantities in excess of the total quantity allocated to a particular country or its Type "A" maximum, the Department of Commerce will request advice and guidance from such country as to the consignee(s) that should receive preference. Such advice will be considered along with other factors, such as the type and location of the scrap involved, etc., in deciding which applications to license.

In addition to the requirements set forth above, the applications must conform to the requirements for submission set forth in § 377.4 of the Export Administration Regulations. Applications must be submitted on Forms DIB–622P or FC–419 and DIB–623P or FC–420.[1] Such applications must be accompanied by: (1) a photocopy or certified copy of the order (if the order is not from the ultimate consignee, a copy of the contract between the purchaser or other parties involved and the ultimate consignee must also be submitted in support of the application), and (2) where import permits are required by the country of destination, a statement from the ultimate consignee (or other foreign party to the transaction), or other documentation, which indicates to the satisfaction of the Office of Export Administration that the permit has been obtained.

Applications for which the required accompanying documentation is not received by the Office of Export Administration by 12 noon e.s.t. December 31, 1974 will not be considered. In order for an application to be acceptable, the ferrous scrap must be described in sufficient detail so that the "Type" it belongs in may be ascertained and verified.

Licenses will expire 90 days from the date of issuance. The shipping tolerance for exports shall be 5 percent of the unshipped quantity. Any cancellation of an order automatically revokes the license that was issued against it.

Effective date of action: December 31, 1974.

RAUER H. MEYER,
Director,
Office of Export Administration.

National Oceanic and Atmospheric Administration

METEOROLOGICAL SATELLITE IMAGERY SIGNAL

Availability

Notice is hereby given that, pursuant to the authority contained in 15 U.S.C. 1152 and 31 U.S.C. 483a, the National Oceanic and Atmospheric Administration, United States Department of Commerce, is making available to the public the Synchronous Meteorological Satellite (SMS) imagery signal at the Satellite Field Services Stations (SFSS) of the National Oceanic and Atmospheric Administration's National Environmental Satellite Service. These SFSS stations, located at Miami, Florida; Washington, D.C.; Kansas City, Missouri; and San Francisco, California, are now capable of providing meteorological satellite imagery signals of their geographical regional areas to interested private and Government users.

Upon installation of appropriate telephone communications and terminal recording devices by the interested user, a connection at one of the SFSSs indicated above can now be obtained for a one-time charge and a minimal annual recurring service charge.

For additional detailed information, parties interested in obtaining a license for subscription to this service should forward a written request to:

NOAA, National Environmental Satellite Service
Field Services Division, S122, WWB
Washington, D.C. 20233
Attn: GOES–Tap

Licenses will be granted in order of receipt of applications.

M. P. SNIDERO,
Acting Assistant Administrator for Administration, National Oceanic and Atomspheric Administration.

Office of the Secretary

ADVISORY COMMITTEES

Notice of Review and Renewal

In accordance with the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I, the provisions of Office of Management and Budget Circular No. A–63 as amended by Transmittal Memoranda Nos. 1 and 2, and the provisions of OMB Bulletin 75–2, a review was conducted as to the essentiality of all Department of Commerce advisory committees which were in existence when the Act went into effect on January 5, 1973. Of 34 committees subject to this review, and after consultation with OMB, it has been determined that continuation and rechartering of 30 of the committees is in the public interest in accordance with duties imposed on the Department by law. The remaining 4 will be terminated.

Each of the 30 committees, the names of which are listed below, will be rechartered for two years effective January 5, 1975, without change in basic purpose. Copies of the present charters of these committees have been on file with appropriate committees of the Congress, and have been available for public inspection at the Library of Congress, since January 1973.

Copies of the new charters will be similarly filed in early January 1975. In addition, and at the same time, copies will be available for public inspection and copying in the Department's Central Reference and Records Inspection Facility, Room 7043, Main Commerce Building, 14th Street and Constitution Avenue NW, Washington, D.C.

Any inquiries or comments regarding this notice may be directed to Mr. Robert T. Jordan, Management Services Head, Room 5026, Main Commerce Building.

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

ANNUAL SURVEYS IN MANUFACTURING AREA

Determination

In conformity with Title 13, United States Code, sections 181, 224, and 225 and due notice having been published on November 8, 1974 (39 FR 39589), I have determined that annual data to be derived from the surveys listed below are

[1] Forms are available from any of the Commerce Department's Domestic and International Business Administration District Offices or from the Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230.

needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry. The data derived from these surveys, most of which have been conducted for many years, are not publicly available from nongovernmental or other government sources.

Report forms in most instances furnishing data on shipments and/or production and in some instances on stocks, unfilled orders, orders booked, consumption, etc., will be required for all or a sample of establishments engaged in the production of the items covered by the following list of surveys.

The surveys have been arranged under major group headings shown in the Standard Industrial Classification Manual (1972 edition) promulgated by the Office of Management and Budget for the use of Federal statistical agencies.

MAJOR GROUP 22—TEXTILE MILL PRODUCTS

Broadwoven goods finished.
Narrow fabrics.
Yarn production.

MAJOR GROUP 23—APPAREL AND OTHER FINISHED PRODUCTS MADE FROM FABRICS AND SIMILAR MATERIALS

Gloves and mittens.
Apparel.
Brassieres, corsets, and allied garments.
Sheets, pillowcases, and towels.

MAJOR GROUP 24—LUMBER AND WOOD PRODUCTS, EXCEPT FURNITURE

Hardwood plywood.
Softwood plywood.
Lumber.

MAJOR GROUP 26—PAPER AND ALLIED PRODUCTS

Pulp, and detailed grades of paper and board.

MAJOR GROUP 28—CHEMICALS AND ALLIED PRODUCTS

Sulfuric acid.
Industrial gases.
Inorganic chemicals.
Pharmaceutical preparations, except biologicals.

MAJOR GROUP 29—PETROLEUM REFINING AND RELATED INDUSTRIES

Asphalt and tar roofing and siding products.

MAJOR GROUP 30—RUBBER AND MISCELLANEOUS PLASTICS PRODUCTS

Rubber.
Plastics products.

MAJOR GROUP 31—LEATHER AND LEATHER PRODUCTS

Shoes and slippers (by method of construction).

MAJOR GROUP 32—STONE, CLAY, AND GLASS

Consumer, scientific, technical, and industrial glassware.
Fibrous glass.

MAJOR GROUP 33—PRIMARY METAL INDUSTRIES

Steel mill products.
Insulated wire and cable.
Magnesium mill products.

MAJOR GROUP 34—FABRICATED METAL PRODUCTS EXCEPT ORDNANCE, MACHINERY, AND TRANSPORTATION EQUIPMENT

Commercial steel forgings.
Steel power boilers.
Heating and cooking equipment.

MAJOR GROUP 35—MACHINERY, EXCEPT ELECTRICAL

Internal combustion engines.
Tractors.
Farm machines and equipment.
Mining machinery and equipment.
Air-conditioning and refrigeration equipment.
Office, computing, and accounting machines.
Pumps and compressors.
Selected air pollution control equipment.
Construction machinery.

MAJOR GROUP 36—ELECTRICAL MACHINERY, EQUIPMENT, AND SUPPLIES

Radios, television, and phonographs.
Motors and generators.
Wiring devices and supplies.
Switchgear, switchboard apparatus, relays, and industrial controls.
Selected electronic and associated products.
Electric housewares and fans.
Electric lighting fixtures.
Major household appliances.

MAJOR GROUP 37—TRANSPORTATION EQUIPMENT

Aircraft propellers.

MAJOR GROUP 38—PROFESSIONAL, SCIENTIFIC, AND CONTROLLING INSTRUMENTS; PHOTOGRAPHIC AND OPTICAL GOODS; WATCHES AND CLOCKS

Selected instruments and related products.
Atomic energy products and services.

The following list of surveys represents annual supplements of monthly and quarterly surveys and will cover the same establishments canvassed in the monthly or quarterly survey. There will be no duplication of reporting, however, since the type of data collected on the annual supplement will be different from that collected on the more frequent survey.

MAJOR GROUP 32—STONE, CLAY, AND GLASS

Glass containers.
Refractories.

MAJOR GROUP 34—FABRICATED METAL PRODUCTS EXCEPT ORDNANCE, MACHINERY, AND TRANSPORTATION EQUIPMENT

Closures for containers.
Steel shipping barrels, drums and pails.

The following list of surveys represents annual counterparts of monthly and quarterly surveys and will cover only those establishments which are not canvassed or do not report in the more frequent survey. Accordingly, there will be no duplication in reporting. The content of these annual reports will be identical with that of the monthly and quarterly reports.

MAJOR GROUP 20—FOOD AND KINDRED PRODUCTS

Flour milling products.
Margarine Manufacturers' packaging operations.

MAJOR GROUP 22—TEXTILE MILL PRODUCTS

Man-made fiber, silk, woolen, and worsted fabrics.
Finishing plant report—broadwoven fabrics.
Piece goods inventories and orders.
Broadwoven goods (cotton, wool, silk, and synthetic).
Consumption of wool and other fibers, and production of tops and noils.
Rugs, carpets and carpeting.
Knit cloth.

MAJOR GROUP 25—FURNITURE AND FIXTURES

Mattresses and bedsprings.

MAJOR GROUP 26—PAPER AND ALLIED PRODUCTS

Converted flexible packaging products.

MAJOR GROUP 28—CHEMICALS AND ALLIED PRODUCTS

Phosphatic fertilizer materials.
Paint, varnish, and lacquer.

MAJOR GROUP 30—RUBBER AND MISCELLANEOUS PLASTICS PRODUCTS

Thermoplastics pipe, tube, and fittings.

MAJOR GROUP 32—STONE, CLAY, AND GLASS

Flat Glass.
Glass containers.
Refractories.
Clay construction products.

MAJOR GROUP 33—PRIMARY METAL INDUSTRIES

Nonferrous castings.
Iron and steel foundries.
Steel mill shapes and forms (Consumers and Producers Report).
Copper-base mill products.

MAJOR GROUP 34—FABRICATED METAL PRODUCTS, EXCEPT ORDNANCE, MACHINERY AND TRANSPORTATION EQUIPMENT

Plumbing fixtures.
Metal cans.

MAJOR GROUP 35—MACHINERY, EXCEPT ELECTRICAL

Construction machinery.

MAJOR GROUP 36—ELECTRICAL MACHINERY, EQUIPMENT, AND SUPPLIES

Electric lamps.
Fluorescent lamp ballasts.

MAJOR GROUP 37—TRANSPORTATION EQUIPMENT

Aircraft engines.
Complete aircraft.
Backlog of orders for aircraft, space vehicles, missiles, engines and selected parts.
Truck trailers.

The Annual Survey of Manufactures will be conducted and will call for general statistical data such as employment, payroll, man-hours, capital expenditures, cost of materials consumed, gross book value of fixed assets, rental payments, supplemental labor costs, etc., in addition to information on value of products shipped and quantity data for selected classes of products and quantity and cost of selected fuels used. This survey, while conducted on a sample basis, will cover all manufacturing industries including data on plants under construction but not in operation.

A survey of research and development costs will be conducted also. The data to be obtained will be limited to total research and development costs of work performed by the company, total cost of research and development work performed for the Federal Government, and, for comparative purposes, total net sales and receipts, and total employment of the company.

In addition, a survey on shipments to, or receipts for work done for, Federal Government agencies and their contractors and suppliers is planned. It is designed to provide information on the impact of Federal procurement on selected industries and on the economy of States, standard metropolitan statistical areas, and geographic regions.

The Annual Survey of Oil and Gas will canvass the industry which provides most of the field command in the United States, as well as a substantial portion

of the raw material requirement of many industries. The survey will collect information on exploration, development, production costs, revenues, expenditures and assets in the crude petroleum and natural gas industry.

The Annual Survey on Pollution Abatement Expenditures is designed to collect from the manufacturing area total expenditures made by industry to abate pollutant emissions. The survey covers current and capital expenditures made by industry to reduce pollution in its air, water, or solid forms.

The report forms will be furnished to firms included in these surveys and additional copies are available on request to the Director, Bureau of the Census, Washington, D.C. 20233.

I have, therefore, directed the annual surveys be conducted for the purpose of collecting the data hereinabove described.

Dated: December 16, 1974.

VINCENT P. BARABBA,
Director,
Bureau of the Census.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Filing of Annual Reports

Notice is hereby given that pursuant to section 13 of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770-776; 5 U.S.C. App.), the annual reports required by section 10(d) of the act for Food and Drug Administration advisory committees have been filed with the Library of Congress.

Copies are available for public inspection at: (1) the Library of Congress; (2) on weekdays between 9 a.m. and 4:30 p.m., at the Department of Health, Education, and Welfare Library, Rm. 1436, 300 Independence Ave. SW., Washington, DC; and (3) the Public Records and Document Center, Rm. 4-62, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852 during working hours, Monday through Friday.

Dated: December 13, 1974.

SAM D. FINE,
Associate Commissioner
for Compliance.

[FR Doc.74-29487 Filed 12-18-74;8:45 am]

SAFETY OF CERTAIN FOOD INGREDIENTS

Opportunity for Public Hearing

In the FEDERAL REGISTER of July 26, 1973 (38 FR 20063), the Commissioner of Food and Drugs issued a notice advising the public that an opportunity would be provided for oral presentation of data, information, and views at public hearings to be conducted by the Select Committee on GRAS Substances of the Life Sciences Research Office, Federation of American Societies for Experimental Biology (hereinafter referred to as the Select Committee), with respect to the safety of ingredients used in food on a determination that they are generally recognized as safe (GRAS) or subject to a prior sanction.

The first of such opportunities for public hearings was announced in the FEDERAL REGISTER of September 23, 1974 (39 FR 34218). The Commissioner now gives notice that the Select Committee is prepared to conduct a public hearing with respect to the following additional categories of food ingredients:

Mustard
Sorbose
Licorice-related products
Caprylic acid

This public hearing will provide an opportunity, before the Select Committee reaches its final conclusions, for any interested person to present scientific data, information, and views relevant to the safety of these substances in addition to those previously submitted in writing pursuant to the notices previously published in the FEDERAL REGISTER of July 26, 1973 (38 FR 20051 and 20053), and April 17 1974 (39 FR 13796 and 13798).

The Select Committee has reviewed all of the available data and information on the above categories of food ingredients and has reached one of the four following tentative conclusions on the status of each:

1. There is no evidence in the available information that demonstrates or suggests reasonable grounds to suspect a hazard to the public when it is used at levels that are now current or that might reasonably be expected in the future.

2. There is no evidence in the available information that demonstrates or suggests reasonable grounds to suspect a hazard to the public when it is used at levels that are now current and in the manner now practiced. However, it is not possible to determine, without additional data, whether a significant increase in consumption would constitute a dietary hazard.

3. While no evidence in the available information demonstrates a hazard to the public when it is used at levels that are now current and in the manner now practiced, uncertainties exist requiring that additional studies be conducted.

4. The evidence is insufficient to determine that the adverse effects reported are not deleterious to the public health when it is used at levels that are now current and in the manner now practiced.

The following table lists each ingredient, the Select Committee's tentative conclusion (keyed to the four types of conclusions listed above), and the available information on which the Select Committee reached its conclusion.

Substance	Select committee tentative conclusion	Scientific literature review		Animal study report		Other information
		Order No.	Cost	Order No.	Cost	
Mustard:						
Brown mustard	1					Correspondence with R.T. French Co.
Yellow mustard	1					
Allyl isothiocyanate (oil of mustard).	1	PB-221-215	$4.15	PB-223-612/AS.	$3.12	
p-Hydroxybensyl isothiocyanate (oil of mustard).	1	PB-223-545/AS.	3.00			
Sorbose	1	PB-223-852 AS.	2.75			None.
Licorice-related products:						
Licorice	2					Thesis of Ms. Gordon.
Glycyrrhiza	2					
Ammoniated glycyrrhizin	2	PB-221-220	3.75	PB-221-743	4.30	
Caprylic acid	1	PB-221-229	4.50			None.

Reports given in the table may be obtained from the National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Rd., Springfield, VA 22151. The above titles may also be purchased in microfiche form. Microfiche document prices are $1.45 each for those with order numbers having an FDABF prefix or AS suffix, and $0.95 each for all others.

In addition to the information contained in the Scientific Literature Review, the Select Committee supplemented, where appropriate, the scientific information developed in the reviews with additional materials, as discussed in the previous hearing opportunity notice published in the FEDERAL REGISTER of September 23, 1974 (39 FR 34218).

The Select Committee's tentative reports on mustard, sorbose, licorice-related substances and caprylic acid, along with any referenced information not in the Scientific Literature Reviews, are available for review in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852 and also at the Public Information Office, Food and Drug Administration, Rm. 3807, 200 C Street SW., Washington, DC 20204.

In order to schedule the public hearing, it is necessary that the Select Committee be informed of the number of persons who wish to take advantage of this opportunity for hearing, and the length of time requested for presentation of their views. Accordingly, any interested person who wishes to appear at the public hearing to make an oral presentation shall so inform the Select Committee in writing, addressed to: The Select Committee on GRAS Substances, Life Sciences Research Office, Federation of

American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20014. A copy of each such request shall be sent to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, and all such requests shall be placed on public display in that office. Any such request shall be postmarked on or before January 20, 1975, shall state the substance(s) on which an opportunity to present oral views is requested, and shall state a length of time requested for the presentation. As soon as possible thereafter, a notice will be published in the FEDERAL REGISTER announcing the date, time, place, and scheduled presentations for any public hearing that may be requested.

The purpose of the public hearing is to receive data, information, and views not previously available to the Select Committee with respect to the substances listed above. Information already contained in the Scientific Literature Reviews and in the tentative Select Committee report shall not be duplicated, although views on the interpretation of this material may be presented.

Depending upon the number of requests for opportunity to make oral presentations, the Select Committee may reduce the time requested for any presentation. Individuals and organizations with common interests are urged to consolidate their presentations in view of the limitations of time. Any interested person may, in lieu of an oral presentation, submit written views, which shall be considered by the Select Committee. Three copies of such written views shall be addressed to the Select Committee at the above address, and shall be postmarked not later than 10 days prior to the scheduled date of the hearing. A copy of any written views shall be sent to the Hearing Clerk, Food and Drug Administration, and shall be placed on public display in that office.

A public hearing will be presided over by a member of the Select Committee. A hearing will be transcribed by a reporting service, and a transcript of each hearing may be purchased directly from the reporting service and will also be placed on public display in the office of the Hearing Clerk, Food and Drug Administration.

Dated: December 12, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of Education

THE NATIONAL ADVISORY COUNCIL ON EXTENSION AND CONTINUING EDUCATION

Notice of Closed Meeting

Notice is hereby given, pursuant to section 10 of the Federal Advisory Committee Act Pub. L. 92-463 and section 9.d. of Office of Management and Budget Circular A-63 that a closed meeting of the Executive Committee of the National Advisory Council on Extension and Continuing Education will be held on January 9, 1975, in the Council's office, Suite 710, 1325 G St., NW, Washington, D.C.

The National Advisory Council on Extension and Continuing Education is authorized under section 109(a) of the Higher Education Act, under Pub. L. 89-329, as amended (20 USC 1009). The Council is directed to advise the Commissioner of Education in the preparation of general regulations and with respect to policy matters arising in the administration of Title I of the Higher Education Act, and to report annually to the President and to the Secretary of Health, Education, and Welfare on the administration and effectiveness of all federally supported extension and continuing education programs, including community service programs.

This meeting of the Executive Committee of the Council will not be open to the public. The purpose of the meeting will be to interview applicants for the position of Executive Director to the Council. At this meeting matters will be discussed and documents will be produced (for example recommendations and references) which if released to the public would amount to a clearly unwarranted invasion of personal privacy. Such documents need not be released to the public under exemption 6 of the exemptions from mandatory disclosure under the Freedom of Information Act, section 552(b)(6) of Title 5 USC. This meeting may, therefore, be closed to the public under section 10(d) of the Federal Advisory Committee Act. Records of Council proceedings are available for public inspection at the Council's office located at the address given above.

RICHARD F. MCCARTHY,
Association Director.

DECEMBER 12, 1974.

[FR Doc.74-29577 Filed 12-18-74;8:45 am]

Office of the Secretary

OFFICE FOR CIVIL RIGHTS

Statement of Organization, Functions, and Delegation of Authority

The Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare has been amended to reflect certain changes in the Statement of the Office for Civil Rights (39 FR 34088) 9/23/74, as follows:

Section 1D.10, the Statement of Organization is amended to include an Office of New Programs.

Section 1D.20, the Statement of Functions is amended to include the functional statement for the new Office of New Programs.

The revised sections read as follows:

Sec. 1D.10 *Organization.* The Office for Civil Rights is under the supervision of the Director, Office for Civil Rights, who reports directly to the Secretary. He also serves as Special Assistant to the Secretary for Civil Rights. The Office for Civil Rights consists of:

Office of the Director:
- Director
- Deputy Director
- Office of Policy Communications
- Office of Public Affairs
- Office of Governmental Relations
- Office of New Programs

Assistant Director (Planning and Program Development)
Assistant Director (Administration and Management)
Contract Compliance Division
Elementary and Secondary Education Division
Higher Education Division
Health and Social Services Division
Director, Office for Civil Rights (Regions I-X)

The statement for the Office of New Programs in Sec. 1D.20 Functions will be inserted after the statement for the Office of Governmental Relations.

The added statement reads as follows:

(6) The Office of New Programs (1D2004) is responsible for the development of policies and formulation of compliance or other programs, including regulations, guidelines or rules or orders of general applicability, for newly-enacted statutes, newly-issued executive orders, redelegations of Departmental program authorities or orders for which the Office for Civil Rights has responsibility, such as Section 504 of the Rehabilitation Act of 1973. In furtherance of these responsibilities, the Office: (1) prepares designs of enforcement strategies for the new programs including development of remedies and sanctions; (2) analyzes needed data items and design of formats or surveys; (3) develops and operates pilot tests for the new programs; (4) handles complaints on an interim basis for new programs; (5) formulates recommendations for the Director as to the manner in which the Office for Civil Rights should implement the new programs; and (6) coordinates with the Assistant Director (Planning and Program Coordination) in accomplishing a smooth transition of program responsibilities to the operating divisions.

Whenever the Department of Health, Education, and Welfare is designated as lead agency for a new program and the Office for Civil Rights is assigned the responsibility for carrying out lead agency responsibilities, this Office is responsible for coordinating the approach of the other federal agencies and departments to the new program, including providing technical assistance to these agencies and participating in the formulation of and evaluation of their new program.

The Office is also responsible for (1) commenting on legislative proposals and proposed regulations of federal departments and agencies which affect statutes and executive orders which the Office for Civil Rights administers or which create new enforcement responsibilities, and (2) preparing proposals for new

legislation or amendments to existing legislation for the Office for Civil Rights.

Dated: December 12, 1974.

THOMAS S. MCFEE,
Acting Assistant Secretary for Administration and Management.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 74-203]

NATIONAL BOATING SAFETY ADVISORY COUNCIL

Open Meeting

This is to give notice in accordance with section 10(a) of the Federal Advisory Committee Act (P.L. 92-463; 5 U.S.C. App. 1) of October 6, 1972, that the National Boating Safety Advisory Council (the Council) will conduct an open meeting on Wednesday and Thursday, 8-9 January 1975 at the Americana Hotel, 52nd Street and 7th Avenue, New York City, New York. The meeting is scheduled to begin at 9 a.m. each day.

The agenda for this Tenth meeting of the National Boating Safety Advisory Council is as follows:

1. Review of action taken at the Ninth meeting of the Council.
2. Status report by the Visual Distress Signal Subcommittee.
3. Report on the status of the previously contemplated regulations governing a means for secondary propulsion and dewatering devices for recreational boats.
4. Presentation on the effects of hypothermia.
5. Progress report by the Level Flotation Subcommittee.
6. Presentation on the problems related to white water rafting in the western United States.
7. Discussion on the possibility of requiring a persons capacity (in terms of number of persons) to be displayed on motor-hull boats less than 20 feet in length.
8. Progress report on previously suggested changes to the navigational light requirements.
9. Status of changing label wording requirements for certain Personal Flotation devices.
10. Vote on need for technical regulations for race boats.
11. Observation and discussion of a Half-Model boat at the preview of the New York Boat Show.
12. Chairman's session.
13. Suggestions for date, place and thrust of next meeting.

The National Boating Safety Advisory Council was established in 1971 pursuant to section 39 of the Federal Boat Safety Act of 1971 (P.L. 92-75, 46 U.S.C. 1451 et seq.). The Coast Guard is required to consult with the Council in determining the need for, and in prescribing, regulations and standards for boats and associated equipment. In addition, the Coast Guard is required to consult with the Council on any other major boating safety matters related to the Act.

Any member of the public who wishes to do so may file a written statement with the Council before or after the meeting, or may present an oral statement with advance notice to the Chairman.

Interested persons may seek additional information or the summary minutes of the meeting by writing to:

Captain David E. Bels, USCG
U.S. Coast Guard (G-BB/TRPT)
Washington, D.C. 20590

or by calling (202) 426-4176.

Dated: December 13, 1974.

A. F. FUCARO,
Acting Chief,
Office of Boating Safety.

[FR Doc.74-29079 Filed 12-18-74;8:45 am]

[CGD 74-204]

NATIONAL BOATING SAFETY ADVISORY COUNCIL FLOTATION SUB-COMMITTEE

Open Meeting

This is to give notice in accordance with section 10(a) of the Federal Advisory Committee Act (P.L. 92-463; 5 U.S.C. App. 1) of October 6, 1972, that the Flotation Sub-committee of the National Boating Safety Advisory Council will conduct an open meeting on Wednesday, 8 January 1975 at the Americana Hotel, 52nd Street and 7th Avenue, New York City, New York. The meeting is scheduled to begin at 8:30 a.m.

The purpose of the meeting is to review the need for regulations that would require level flotation on recreational boats.

The sub-committee, authorized by the Federal Boat Safety Act of 1971 (P.L. 92-75; 46 U.S.C. 1451 et seq.), was established to review proposed standards for level flotation on recreational boats and to make technical recommendations to the Council.

Interested persons may seek additional information by writing: Executive Director, National Boating Safety Advisory Council, United States Coast Guard (GBR/TRPT) Washington, D.C. 20590 or by calling: (202) 426-4176.

Dated: December 6, 1974.

JOHN F. THOMPSON,
Chief, Office of Boating Safety.

[FR Doc.74-29078 Filed 12-18-74;8:45 am]

ATOMIC ENERGY COMMISSION

BARNWELL NUCLEAR PLANT

Interim Amount of Financial Protection and Interim Indemnity Fee

In December 1970 pursuant to its authority under section 104b of the Atomic Energy Act of 1954 (the Act), as amended, the Atomic Energy Commission issued a construction permit to Allied-General Nuclear Services (AGNS) for the construction of a production facility for the reprocessing of irradiated fuel elements. AGNS is constructing and proposes to operate the Barnwell Nuclear Fuel Plant (BNFP) in Barnwell, South Carolina.

Section 170 of the Act requires (1) each license issued under section 104 to have as a condition of the license a requirement that the licensee have and maintain financial protection of such type and in such amounts as the Commission shall require to cover public liability claims, (2) the licensee to execute and maintain an indemnification agreement with the Commission and (3) the Commission to collect a fee from each licensee with whom an indemnification agreement is executed.

Subsection 170h of the Act provides that the amount of financial protection required of such licensees shall be equal to the maximum amount of nuclear liability insurance available from private sources except that the Commission may establish a lesser amount on the basis of written criteria, taking into consideration such factors as (1) the cost and terms of private insurance; (2) the type, size, and location of the licensed activity and other factors pertaining to the hazard; and (3) the nature and purpose of the licensed activity.

The indemnity fee is set by subsection 170f of the Act at $30 per thousand kilowatts of thermal energy capacity for facilities licensed under section 103. However, for facilities licensed under section 104, and for construction permits issued under section 185, the Commission is authorized to reduce this fee. The Commission is directed to establish written criteria for determination of the fee, taking into consideration such factors as (1) the type, size, and location of the facility involved, and other factors pertaining to the hazard, and (2) the nature and purpose of the facility. The Commission's regulations in 10 CFR Part 140 prescribe criteria for determining the amounts of financial protection and indemnity fees with specific reference to reactors. No similar criteria have been adopted for other types of facilities, such as reprocessing plants. The Commission has previously established financial protection requirements for two fuel reprocessing facilities, the Nuclear Fuel Services, Inc., Reprocessing Plant and the General Electric Company's Midwest Fuel Recovery Plant. Financial protection requirements for both facilities were set by the Commission at $5 million for the preoperational storage of fuel and $20 million for Plant operations, with an annual indemnity fee of $500 for storage only of fuel and $4,000 for plant operations.

These financial protection requirements were established on an interim basis since there was not sufficient experience or data available to prescribe financial protection requirements for reprocessing plants as a class. In arriving at the interim amounts, the Commission took into account, in addition to the specific statutory criteria, the following considerations: (a) amount of liability insurance carried by fabricators of cold fuel; (b) liability insurance limits carried by firms engaged in hazardous operations in nonnuclear industries, i.e., chemicals and petroleum, and (c) the maximum amount of nuclear liability insurance available (at that time, $85 million).

The Commission recognizes that there is an ongoing licensing proceeding with respect to the Barnwell Nuclear Fuel

Plant pending before an Atomic Safety and Licensing Board. No license will be issued except in accordance with the applicable Commission regulations. The proposed rule that follows would merely provide the basis for financial protection requirements in the event that a license should be issued.

As a production facility, the Barnwell plant cannot be licensed to receive fuel assemblies unless Allied-General Nuclear Services provides financial protection to protect against public liability claims arising out of or resulting from a nuclear incident. Pending establishment in a general rule making proceeding of financial protection and indemnity fee requirements for reprocessing facilities as a class, notice is hereby given that the Commission is considering establishing interim financial protection requirements of $5 million for fuel storage with an indemnity fee of $500 at the Barnwell plant. Rule making regulations on permanent levels of financial protection to be required for all reprocessing plants should be accomplished by the time the construction of the plant is completed. All interested persons who desire to submit written comments and suggestions for consideration in connection with the proposed interim amount of financial protection and indemnity fee for fuel storage for the Barnwell plant should send them to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Docketing and Service Section by January 20, 1975. Copies of comments on the proposed rule may be examined at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

(Sec. 161, Pub. Law 83-703, 68 Stat. 948 (42 USC 2201); Sec. 4, Pub. Law 85-256, 71 Stat. 576 (42 USC 2210))

Dated at Washington, D.C. this 13th day of December 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.74-29484 Filed 12-18-74;8:45 am]

[Dockets Nos. STN 50-454, STN 50-455]

COMMONWEALTH EDISON CO.

Limited Work Authorization

Pursuant to the provisions of 10 CFR 50.10(e) of the Atomic Energy Commission's (Commission) regulations, the Commission has authorized the Commonwealth Edison Company to conduct certain site activities in connection with the Byron Station, Units 1 and 2 prior to a decision regarding the issuance of a construction permit.

The activities that are authorized are within the scope of those authorized by 10 CFR 50.10(e)(1), and specifically include the following:

1. Excavations and associated activities such as de-watering for structures and equipment, and placement of mud mats for: (a) two containment buildings; (b) turbine room; (c) service building; (d) auxiliary building; (e) fuel building; (f) solid radwaste storage building; (g) installation of portions of condenser circulating water piping, not including any class I piping; and (h) switchyard and on-site transmission lines.

2. Construction of the following service requirements: (a) rail spur from adjacent Chicago and Northwestern line into site; (b) temporary construction track; (c) fencing; (d) perimeter lighting system; (e) road construction, permanent and temporary; (f) temporary construction power and lighting system; (g) sanitary system in conjunction with sewage treatment plant; (h) wells for potable and construction water requirements; (i) fire protection system; and (j) temporary parking lots.

3. Construction of support facilities with necessary utilities: (a) three metal warehouses (50' x 200' each); (b) metal construction office (50' x 200'); (c) metal contractor's office; (d) metal contractor's shop facilities; (e) main gate guardhouse; (f) temporary construction toilet; (g) temporary fire pump house; and (h) concrete batch plant.

This authorization is subject to the following conditions for the protection of the environment:

1. During the construction, CECo shall take the necessary mitigating actions, including those commitments summarized in section 4.5 of the AEC staff's Final Environmental Statement, to avoid unnecessary adverse environmental impacts from construction activities.

2. CECo shall follow the pre-operational monitoring program, including modifications recommended by the staff, described in Section 6.1 of the Final Environmental Statement.

3. Before engaging in a construction activity which may result in a significant adverse environmental impact that was not evaluated or that is significantly greater than that evaluated in the Final Environmental Statement, CECo shall provide written notification to the Director of Licensing.

4. A control program shall be established by CECo to provide for a periodic review of all construction activities to assure that those activities conform to the environmental conditions set forth herein.

5. If unexpected harmful effects or evidence of irreversible damage are detected during facility construction, CECo shall provide to the staff an acceptable analysis of the problem and a plan of action to eliminate or significantly reduce the harmful effects or damage.

6. CECo shall comply with the applicable portions of the standards published by the United States Environmental Protection Agency on October 8, 1974 (39 FR 36176 et seq.).

7. CECo shall comply with the applicable portions of the Illinois Environmental Protection Act and the Water Pollution Regulations of the Illinois Pollution Control Board.

This authorization is subject to the additional condition that it will terminate upon a denial by the Director of Regulation of a Construction Permit for the Byron Station, Units 1 and 2.

Any activities undertaken pursuant to this authorization are entirely at the risk of the Commonwealth Edison Company and the grant of the authorization has no bearing on the issuance of a construction permit with respect to the requirements of the Atomic Energy Act of 1954, as amended, and rules, regulations, or orders promulgated pursuant thereto.

A Partial Initial Decision on matters relating to the National Environmental Policy Act and site suitability was issued by the Atomic Safety and Licensing Board in the above captioned proceeding on December 6, 1974. A copy of (1) the Partial Initial Decision; (2) the applicant's Preliminary Safety Analysis Report and amendments thereto; (3) the applicant's Environmental Report, and amendments thereto; (4) the staff's Final Environmental Statement dated July 1974; and (5) the Commission's letter of authorization dated December 13, 1974, are available for public inspection at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and in the Byron Public Library, Third and Washington Streets, Byron, Illinois.

Dated at Bethesda, Maryland, this 13th day of DECEMBER 1974.

For the Atomic Energy Commission.

F. J. MIRAGLIA,
Acting Chief, Environmental Projects Branch 3, Directorate of Licensing.

[Docket No. 50-512]

GENERAL ELECTRIC CO.

Issuance of Facility Export License

Please take notice that no request for a hearing or a petition for leave to intervene having been filed following publication of notice of proposed action in the FEDERAL REGISTER on August 29, 1974 (39 FR 31544) and the Atomic Energy Commission having found that:

(a) The application filed by General Electric Company, DOCKET NO. 50-512, complies with the requirements of the ACT, and the Commission's regulations set forth in Title 10, Chapter I, Code of Federal Regulations, and

(b) The reactor proposed to be exported is a utilization facility as defined in said Act and regulations,

the Commission has issued License No. XR-102 to General Electric Company, authorizing the export of a boiling water reactor with a thermal power level of 1931 megawatts to the Commission Federal De Electricidad, Rodano 14, Mexico.

The export of this reactor to Mexico is within the purview of the present Agreement for Cooperation Between the Government of the United States of America, the Government of Mexico and the International Atomic Energy Agency.

Dated at Bethesda, Maryland this fifth day of DECEMBER 1974.

For the Atomic Energy Commission.

HOWARD J. LARSON,
Acting Deputy Director for Fuels and Materials, Directorate of Licensing.

[FR Doc.74-29562 Filed 12-18-74;8:45 am]

[Docket No. 25280, etc.; Order 74-12-51]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Denying Motion To Stay

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 13th day of December 1974.

In the matter of Dockets 25280; 25513; 26494; Agreement C.A.B. 24008 R-15; Agreement C.A.B. 24024 R-5, Agreement C.A.B. 24233 R-6, Agreement C.A.B. 24265 R-5, Agreement C.A.B. 24713.

By a motion filed December 11, 1974, Japan Air Lines Company, Ltd., (JAL) requests the Board to stay the effectiveness of Order 74-11-153 (November 29, 1974). That order, *inter alia*, revoked Board approval of various resolutions of the International Air Transport Association (IATA) establishing a three percent currency-related surcharge on U.S.-originating North/Central Pacific fares and rates on the grounds that the U.S. dollar has closely approached its pre-devaluation parity vis-a-vis the yen, and there is therefore no justification for continuing the surcharge. The carriers were directed to revise their tariffs to comply with the Board's action for effect not later than December 16, 1974.

JAL, in support of its motion, contends that the Board's order does not comply with section 1002(j)(2) of the Federal Aviation Act of 1958 (the Act) which provides that with respect to any existing tariff of an air carrier or foreign air carrier stating rates, fares, or charges for foreign air transportation, the Board may enter into a hearing concerning the lawfulness of such rate, fare, or charge, provided that the Board gives reasonable notice of said hearing and provides further that the Board may suspend such tariff upon reasonable notice delivered to the carrier setting forth in writing the reasons for said suspension. It is further contended that, not only has the Board failed to comply with section 1002(j)(2), the contested order was not submitted to the President as required by section 801(b) of the Act; that the order denies JAL and the other affected carriers due process of law in that it affords the carriers less than the 20-day period for petitions for reconsideration allowed by § 302.37 of the Board's rules of practice in economic proceedings; and that the order lacks the specificity necessary to place all carriers on equal competitive grounds because it does not state clearly whether tariffs are to be filed on the normal 30 days' notice or whether permission is granted for filings to be effective in less than 30 days.

Upon due consideration of the motion, the order in question, and all other relevant factors, the Board has concluded deny JAL's motion for stay. Order 74-11-153 is not, as JAL apparently contends, an order of suspension pursuant to section 1002(j)(2). The IATA agreements establishing the North/Central Pacific surcharge on U.S.-originating transportation were filed and approved by the Board under section 412(b) of the Act, which provides that the Board "shall by order disapprove any such contract or agreement, *whether or not previously approved by it* (emphasis added), that it finds to be adverse to the public interest, or in violation of this Act * * *" It is clear that the Board's statutory authority enables it to review on its own motion, without notice, any previously approved carrier agreement and, if the agreement is found to be adverse to the public interest or in violation of the Act, to disapprove it.

The Board concluded that the three percent surcharge on U.S. dollar fares was no longer warranted and that, accordingly, the relevant IATA resolutions should not continue to have the sanction of Board approval. It was not our intention to invoke section 1002(j)(2) of the Act with respect to tariffs on file with the Board, but merely to withdraw approval of an agreement which provides for fares now found unlawful. Accordingly, we are herein amending order 74-11-153 to delete ordering paragraph 3.

Finally, we are unable to agree that JAL has been denied due process. The carriers are free to submit petitions for reconsideration of any Board order within the stipulated 20-day period; pending analysis of the petitions, however, the Board believes the carriers should not continue charging fares which the Board, in accord with its regulatory responsibilities, has found to be adverse to the public interest and in violation of the Act.[1]

Accordingly, it is ordered, That:

1. Order 74-11-153 (pg. 4 mimeo) be and hereby is amended by deletion of ordering paragraph 3; and

2. The motion of Japan Air Lines Company, Ltd. to stay the effectiveness of Order 74-11-153 be and hereby is denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.74-29563 Filed 12-18-74;8:45 am]

---

[1] We will expect the carriers to file appropriate revised tariffs promptly and will grant Special Tariff Permissions for filings on less than 30 days' notice.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

Entry or Withdrawal From Warehouse for Consumption

DECEMBER 18, 1974.

On October 4, 1974, there was published in the FEDERAL REGISTER (39 FR 35840) a letter of September 26, 1974, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, implementing those provisions of the Bilateral Wool and Man-Made Fiber Textile Agreement of January 4, 1972, as amended, between the Governments of the United States and the Republic of Korea, which establish export limitations, among other categories, on man-made fiber textile Category 200 for the agreement year which began on October 1, 1974.

There is published below a letter of December 18, 1974, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that, effective on December 20, 1974, the level of charges made against Category 200 be reduced by 1,099,943 pounds for the twelve-month period which began on October 1, 1974. This figure represents amounts shipped during the previous agreement year but improperly charged to the current-year level.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229

DECEMBER 18, 1974.

DEAR MR. COMMISSIONER: To facilitate implementation of the Bilateral Wool and Man-Made Fiber Textile Agreement of January 4, 1972, as amended, between the Governments of the United States and the Republic of Korea, it would be appreciated if, effective on December 20, 1974, you would reduce the charges made against the level of restraint established for Category 200 by 1,099,943 pounds for the year which began on October 1, 1974.

Thank you for your assistance with the textile program.

This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 387-2; OPP-30000/15A]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the Federal Register a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before February 18, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the Federal Register of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until after February 18, 1975. If no claims are received on or before February 18, 1975, the 2(c) application will be processed according to normal procedure. However, if claims are received on or before February 18, 1975, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after February 18, 1975.

APPLICATIONS RECEIVED

EPA File Symbol 1706-ET. Amplon Corp. 4-36 47th Ave., Long Island City NY 11101. AMPICIDE-9. Active Ingredients: Disodium cyanodithioimidocarbonate 3.68%; Potassium N - methyldithiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy.

[FRL 300-1]

ROCKAWAY TOWNSQUARE SHOPPING CENTER

Approval and Promulgation of Implementation Plan; Opportunity for Public Comment on Indirect Source Application

On October 29, 1974, the EPA, Region II office received from the firm of Copaken, White and Blitt an application for a permit to construct the proposed Rockaway Townsquare Shopping Center in Rockaway Township, Morris County, New Jersey. Shopping Centers are defined in the July 9, 1974 FEDERAL REGISTER (39 FR 25292) as indirect sources of air pollution since they attract mobile source activity and, as such, must obtain a permit from EPA before construction can begin.

The Rockaway Townsquare Shopping Center is proposed as a regional center which would occupy a 208 acre site. The shopping center would serve approximately 20,000 people per day and provide parking for 6,950 cars. Construction is expected to begin in January 1975, and be completed by the summer of 1976. The tract on which the center is to be constructed is bordered by Interstate 80 on the north, Mt. Hope Avenue on the east and Mt. Pleasant Avenue on the south. New Jersey State Route 15 lies approximately one-half mile to the west of the project's western property line.

A preliminary review of the air quality impact of the proposed project was performed by the Region II office of EPA using the EPA document entitled: "Guidelines for the Review of the Impact of Indirect Sources on Ambient Air Quality." This document presents a conservative screening technique to identify situations in which a potential carbon monoxide problem may exist. The review performed indicated that the 8-hour national standard for carbon monoxide of 9 ppm would be marginally violated at one intersection. The maximum 8-hour carbon monoxide concentration is predicted to be 10 ppm in 1976 at the

intersection of the northeast corner of the shopping center and Mt. Hope Avenue. No violations of the maximum 1-hour standard for carbon monoxide of 35 ppm are predicted to result in 1976.

Since the EPA guideline document presents a conservative method for predicting carbon monoxide concentrations and the identified problem was marginal, the Regional Administrator, Region II has made a preliminary determination to approve the application for construction of the shopping center pending the outcome of a more intensive, sophisticated review. This review will consist of a dispersion model analysis of all intersections and areas within the parking lot to predict the maximum 8 and 1-hour carbon monoxide concentrations in 1976. If this review shows that there would continue to be violation of the national standards for CO, by construction as proposed, reasonable conditions on approval related to the air quality aspects of the proposed shopping center may be imposed to prevent the predicted violations from occurring.

Although regulations ordinarily require notice of receipt of an application and of the opportunity for public comment to be given within 30 days, the Regional Administrator has extended such preliminary time period by an additional 30 days. This notice is issued to advise the public that comments may be submitted on whether the application should be approved, approved with conditions, or disapproved. An advertisement as to this opportunity for public comment is being prepared for publication in the Daily Advance, a local newspaper in Dover, New Jersey simultaneously with this FEDERAL REGISTER notice. Only comments received on or before the end of the 30-day comment period will be considered. The Regional Administrator's final decision to approve, approve with conditions or disapprove the application for construction of the shopping center will be based on whether the requirements of the EPA regulations in 40 CFR Part 52 are met.

Copies of the indirect source application, the "Guidelines" referred to above, Region II's preliminary air quality impact review and a document entitled: "Traffic Impact Assessment-Rockaway Townsquare", are available for public inspection during normal business hours at the Environmental Programs Division, Air Branch, EPA Region II, 26 Federal Plaza, New York, N.Y. 10007, Room 907 and Rockaway Township Planning Board, 19 Mount Hope Road, Rockaway, New Jersey 07886. Additional copies are available for public inspection at the Freedom of Information Center, EPA, 401 M Street, SW., Washington, D.C. 20460. All comments should be addressed to the Regional Administrator, Environmental Protection Agency, Region II, 26 Federal Plaza, New York, N.Y. 10007. Such comments, and the subsequent EPA review, will also be made available for public inspection at the same locations.

(Sec. 110(c), 301(a), Clean Air Act (42 U.S.C. 1857 et seq.))

Dated: December 10, 1974.

GERALD M. HANSLER, P. E.,
Regional Administrator,
Environmental Protection Agency.

FEDERAL POWER COMMISSION

[Docket No. CP74-239]

ALASKAN ARCTIC GAS PIPELINE CO.

Supplement to Application

DECEMBER 11, 1974.

Take notice that on November 15, 1974, Alaskan Arctic Gas Pipeline Company (Applicant), Suite 230, 1730 Pennsylvania Avenue, NW., Washington, D.C. 20006, filed in Docket No. CP74-239 a supplements to its application filed in said docket pursuant to section 7(c) of the Natural Gas Act by submitting Exhibit P, its proposed tariff, in compliance with § 157.14(a)(18)(i) of the Commission's Regulations under the Natural Gas Act (18 CFR 157.14(a)(18)(i)), all as more fully set forth in the supplement which is on file with the Commission and open to public inspection.

By its application in the subject docket filed March 21, 1974,[1] Applicant seeks a certificate of public convenience and necessity authorizing the construction and operation of facilities to transport as a contract carrier natural gas in interstate commerce from the Prudhoe Bay area on the North Slope of Alaska, eastward for approximately 195 miles to a point of interconnection at the Canadian border with the proposed facilities of the Canadian Arctic Gas Pipeline Limited for the account of various contract shippers. Applicant did not accompany said application with certain required exhibits, including Exhibit P. Applicant now submits as Exhibit P its proposed tariff which contains a cost-of-service form of rate schedule for firm transportation service.

Applicant states that it shall transport gas only pursuant to written service agreements acceptable to it in light of its commitments and other factors deemed pertinent and shall, to the extent possible, provide the same contract for each shipper. Applicant further states that its tariff generally contemplates that Applicant will transport gas owned by shippers, rather than purchase and sell the gas. According to the provisions of the proposed tariff:

Each shipper may tender any amount up to its contractual maximum daily quantity (MDQ), and Applicant is obligated to accept all of such tendered gas within the separate contractual quantities for each delivery point. Deliveries by a shipper in excess of its MDQ, which excess Applicant may refuse to receive, are subject to an overrun transportation charge pursuant to Applicant's proposed Rate Schedule OT-1. Applicant will redeliver thermally equivalent volumes to each shipper or to other persons designated to receive deliveries on behalf of each shipper reduced by each shipper's share of gas necessary to run Applicant's compressors, for Applicant's line pack and for other uses and losses associated with gas transportation. In return for the transportation of its gas, each shipper must pay its allocable share of Applicant's cost-of-service.[2] Pursuant to Applicant's proposed Rate Schedule T-1, each shipper will pay the proportion that its contract Mcf-miles bears to the total contract Mcf-miles of all shippers (so that all shippers together must pay 100 percent of Applicant's cost-of-service). The return component (rate of return x rate base) of Applicant's cost-of-service will be computed monthly. Working capital, a component of the rate base, will include 150 per cent of monthly gas operating and maintenance expenses, plus prepayments, materials and supplies, uncollected service costs and required deposits. Amounts actually billed each month to the shippers will be based on advanced estimates, with adjustments to later charges for the difference between estimates and actual cost to each shipper. If Applicant takes less than 80 per cent of gas tendered (within the MDQ) by a shipper, that shipper shall be entitled to a reduction equal to the proportion that the volume tendered-but-not-received bears to that shipper's MDQ multiplied by the rate of return on common equity, plus applicable taxes.

Applicant states that the proposed tariff, based on the concept of a cost-of-service charge, is designed to furnish security for prospective investors. Applicant also states that it will not build or contribute to the cost of building any lateral delivery line, but Applicant may construct or contribute to the construction of lateral supply lines.

Any person desiring to be heard or to make any protest with reference to said supplement should on or before January 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Any person who

[1] The application was noticed in the FEDERAL REGISTER on April 15, 1974 (39 FR 13590).

[2] Applicant states that it has not yet determined the rate of return on common equity that it will propose, but that it will do so at a later time.

has heretofore filed a protest or petition to intervene need not file again.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74-97]

ALGONQUIN GAS TRANSMISSION CO.

Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

DECEMBER 11, 1974.

Take notice that Algonquin Gas Transmission Company (Algonquin Gas), on November 21, 1974, tendered for filing First Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

This sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in section 22 of the General Terms and Conditions of its FPC Gas Tariff, Original Volume No. 1. The rate change is being filed to reflect higher purchased gas costs to be paid by Algonquin Gas to its supplier, Texas Eastern Transmission Corporation (Texas Eastern), on December 1, 1974. Algonquin Gas requests that the Commission waive the requisite notice and grant special permission to permit such First Revised Sheet No. 10 to become effective on December 1, 1974, which will synchronize Algonquin Gas' rates with those of Texas Eastern.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9146]

BLACK HILLS POWER & LIGHT CO.

Application

DECEMBER 12, 1974.

Take notice that on November 25, 1974, Black Hills Power and Light Company (Applicant), filed an application with the Federal Power Commission, pursuant to section 204 of the Federal Power Act seeking authorization to negotiate with at least three underwriters regarding the proposed issuance and sale of $5 million principal amount of cumulative preferred stock, by negotiated underwriting.

Applicant seeks permission to negotiate with underwriters regarding the terms upon which the securities might be issued, in order to determine whether application for exemption from the competitive bidding requirements of § 34.1a (a) (b) and (c) of the Commission's Regulations under the Federal Power Act should be made. Applicant represents that it has not engaged in any negotiations for the sale or underwriting of securities.

Applicant is incorporated under the laws of the State of South Dakota, with its principal business office at Rapid City, South Dakota. Applicant is engaged in the generation, transmission, distribution and sale of electric energy in the States of South Dakota, Wyoming and Montana.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

CAROLINA POWER & LIGHT CO.

Extension of Procedural Dates; Correction

NOVEMBER 27, 1974.

In the Notice of Extension of Procedural Dates issued November 22, 1974 and Published in the FEDERAL REGISTER on December 3, 1974 39 FR 41904, the extensions granted were applicable to Phase I of the above designated matter. The Phase II procedural dates remain as fixed in the order of August 26, 1974.

MARY B. KIDD,
Acting Secretary.

[Docket Nos. E-7021, E-8038]

CENTRAL MAINE POWER CO.

Acceptance of Answer to Brief Opposing Exception

DECEMBER 11, 1974.

On November 15, 1974, New England Power Company filed a motion requesting the Commission to allow the filing of their answer to the brief opposing exception of Central Maine Power Company, dated October 24, 1974.

Notice is hereby given that the above answer has been accepted for consideration.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9158]

CONNECTICUT LIGHT & POWER CO.

Exchange Agreement

DECEMBER 11, 1974.

Take notice that on December 5, 1974 The Connecticut Light and Power Company (CL&P) tendered for filing a proposed rate schedule pertaining to an exchange between CL&P, The Hartford Electric Light Company (HELCO) and Western Massachusetts Electric Company (WMECO) (the NU Companies) and Boston Edison Company (Edison) dated as of November 1, 1974.

CL&P states that the Exchange Agreement provides for an exchange between the NU Companies and Edison of a specified amount of pumped storage capacity from the NU Companies' Pumped Storage Hydroelectric Project (Project) at Northfield Mountain in Northfield and Erving, Massachusetts, for an equal amount of gas turbine capacity in Edison's gas turbine generating units situated at West Medway, Massachusetts (Units), during the Term of the Exchange Agreement.

CL&P further states that the parties to the Exchange Agreement reached agreement on the principles to be applied to this exchange prior to November 4, 1974. However, the development of the detailed language of the rate schedule prevented the filing of such rate schedule until this date. In order to permit the NU Companies and Edison to achieve mutual benefits of this Exchange Agreement, it is hereby requested that the Commission, pursuant to § 35.11 of its regulations, waive the thirty-day notice period and permit the rate schedule filed herewith to become effective on November 4, 1974.

CL&P also states that the charges provided for in the rate schedule were arrived at through negotiations. Certificates of Concurrence were filed with the rate schedule.

CL&P states that a copy of this rate schedule has been mailed or delivered to HELCO, Hartford, Connecticut, WMECO, West Springfield, Massachusetts and Edison, Boston, Massachusetts.

CL&P further states that the filing is in accordance with Part 35 of the Commission's regulations.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedures (18 CFR 1.8, 1.10). All such petitions or protests

should be filed on or before December 27, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29550 Filed 12-18-74;8:45 am]

[Docket No. E-9154]

CONNECTICUT LIGHT AND POWER CO.

Transmission Agreement

DECEMBER 11, 1974.

Take notice that on December 5, 1974 the Connecticut Light and Power Company (CL&P) tendered for filing a proposed initial rate schedule pertaining to a Transmission Agreement between The Connecticut Light and Power Company and The United Illuminating Company (UI) dated as of June 15, 1974.

CL&P states that the filing is in accordance with Part 35 of the Commission's Regulations.

CL&P also states that the Transmission Agreement provides for the joint use of specified CL&P transmission facilities.

CL&P states that although the parties had agreed in principle to the joint use of the specified transmission facilities and the support thereof starting December 1, 1972, they did not reach agreement on the details of the rate schedule filed herewith until recently. This delay in development of the detailed language of the rate schedule prevented the filing of such rate schedule until this date. CL&P therefore requests that, in order to permit CL&P to receive payment in accordance with the agreement between the parties for service rendered after December 1, 1972, the Commission, pursuant to Section 35.11 of its regulations, waive the customary notice period and permit the rate filed to take effect as of December 1, 1972.

CL&P states that the charges provided for in the rate schedule were arrived at through negotiations.

A Certificate of Concurrence signed by the United Illuminating Company accompanied the filing.

CL&P states that a copy of this rate schedule has been mailed or delivered to UI, New Haven, Connecticut.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 27, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29549 Filed 12-18-74;8:45 am]

[Docket No. CP75-158]

CONSOLIDATED GAS SUPPLY CORP.

Application

DECEMBER 11, 1974.

Take notice that on November 27, 1974, Consolidated Gas Supply Corporation (Applicant), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP75-158 an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of natural gas pipeline facilities and for an order permitting and approving the abandonment of certain pipeline facilities all in the state of West Virginia, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant proposes, from 1975 through 1978, the following projects:

1975 PROJECTS

1. Construction and operation of approximately 20.0 miles of 18-inch Line No. TL-418, from Burnt House Junction in Ritchie County to Maxwell Junction in Doddridge County.

2. Abandonment of 18.9 miles of 12-inch Line No. H-57 from Fleming Junction in Ritchie County to connection with Line No. TL-362 in Doddridge County.

3. Abandonment of 5.9 miles of 10-inch Line No. H-66 from Burnt House Junction to Fleming Junction, all in Ritchie County.

4. Abandonment of 5.8 miles of 12-inch Line No. E-154 from Burnt House Junction to Fleming Junction, all in Ritchie County.

1976 PROJECTS

1. Construction and operation of approximately 24.4 miles of 24-inch Line No. TL-418 from Maxwell Junction in Doddridge County to Hastings in Wetzel County.

2. Abandonment of 4.9 miles of 12-inch Line No. H-57 from connection with TL-362 in Doddridge County to Doak Junction in Tyler County.

3. Abandonment of 20.5 miles of 12-inch Line No. H-117 from Doak Junction in Tyler County to Hastings in Wetzel County.

4. Abandonment of 3.0 miles of 12-inch Line No. TL-362 from Maxwell Junction to connection with Line No. H-57, all in Doddridge County.

5. Abandonment of 23.5 miles of 20-inch Line No. H-45 from Maxwell Junction in Doddridge County to Hastings in Wetzel County.

1977 PROJECTS

1. Construction and operation of approximately 14.1 miles of 16-inch Line No. TL-419 from Burnt House Junction in Ritchie County to Jones Station in Gilmer County.

2. Construction and operation of approximately 11.4 miles of 12-inch Line No. TL-422 from Burnt House Junction in Ritchie County to Cabot Station in Calhoun County.

3. Construction and operation of approximately 8.9 miles of 10-inch Line No. TL-423 from Burnt House Junction to Craig Station, all in Ritchie County.

4. Construction and operation of a 1320 H.P. Burnt House Compressor Station.

5. Abandonment of 12.1 miles of 12-inch Line No. H-107 from Cabot Station in Calhoun County to Burnt House Junction in Ritchie County.

6. Abandonment of 7.5 miles of 10-inch Line No. H-66 from Craig Station to Burnt House Junction, all in Ritchie County.

7. Abandonment of 1.1 miles of 10-inch Line No. H-139 from Payne Station to Heckert Junction, all in Gilmer County.

8. Abandonment of the 1,910 H.P. Payne Station in Gilmer County.

9. Abandonment of 35.9 miles of 16- and 20-inch Line No. H-138 from Jones Station in Gilmer County to Stutler Junction in Harrison County.

10. Abandonment of 3.1 miles of 16- and 20-inch Line No. H-45 from Fink Junction in Lewis County to Maxwell Station in Doddridge County.

11. Abandonment of 1.1 miles of 16-inch Line No. H-150 from Stutler Junction to New Stutler Junction, all in Harrison County.

12. Abandonment of 4.8 miles of 10-inch Line No. TL-207 from Fink Junction to Douglas Junction, all in Lewis County.

1978 PROJECTS

1. Construction and operation of approximately 1.8 miles of 8-inch Line No. TL-424 from Maxwell Junction to Collins Station, all in Doddridge County.

2. Construction and operation of approximately 4.1 miles of 6-inch Line No. TL-424 from Collins Station to Smithburg Station, all in Doddridge County.

3. Construction and operation of approximately 5.7 miles of 8-inch Line No. TL-425 from Davis Station to Law Station all in Harrison County.

4. Construction and operation of approximately 1.6 miles of 6-inch Line No. TL-426 from Weston Station to Kennedy Station, all in Lewis County.

5. Construction and operation of approximately 7.1 miles of 10-inch Line No. TL-427 from Camden Station to Kennedy Station, all in Lewis County.

6. Construction and operation of approximately 4.6 miles of 12-inch Line No. TL-427 from Kennedy Station in Lewis County to Law Station in Harrison County.

7. Construction and operation of approximately 4.6 miles of 8-inch Line No. TL-428 from Sardis Station to existing Wilsonburg Station, all in Harrison County.

8. Construction and operation of approximately 8.1 miles of 8-inch Line No. TL-428 from Wilsonburg Station to Line No. TL-413, all in Harrison County.

9. Relocation of one 440 H.P. compressor engine from Maxwell Station to Smithburg Station, both in Doddridge County.

10. Abandonment of approximately 7.2 miles of 16- and 20-inch Line No. H-45 from Maxwell Station to Maxwell Junction, all in Doddridge County.

11. Abandonment of approximately 4.1 miles of 8-inch Line No. H-15 from Smithburg Station to Collins Junction, all in Doddridge County.

12. Abandonment of approximately 0.8 mile of 6-inch Line No. H-140 from Maxwell Station to Line No. H-45, all in Doddridge County.

13. Abandonment of the 440 H.P. Maxwell Station in Doddridge County.

14. Abandonment of approximately 2.8 miles of 10-inch Line No. TL-238 from Camden Station to Douglas Junction in Lewis County.

15. Abandonment of approximately 5.7 miles of 10-inch Line No. TL–221 from Kennedy Station to Douglas Junction, all in Lewis County.

16. Abandonment of approximately 4.0 miles of 12- and 16-inch Line No. TL–215 from Kennedy Station in Lewis County to Law Junction in Harrison County.

17. Abandonment of approximately 3.4 miles of 8- and 10-inch Line No. TL–226 from Kennedy Station to connection with Line No. H–32, all in Lewis County.

18. Abandonment of approximately 9.5 miles of 8-, 12-, and 16-inch Line No. H–32 from Weston Station in Lewis County to Law Junction in Harrison County.

19. Abandonment of approximately 3.3 miles of 10-inch Line No. H–96 from Davis Station in Harrison County to Wymer Junction in Lewis County.

20. Abandonment of approximately 3.5 miles of 10-inch Line No. TL–354 from Sardis Station to Morrison Junction, all in Harrison County.

21. Abandonment of approximately 4.8 miles of 16-inch Line No. H–141 from Morrison Junction to Springer Junction, all in Harrison County.

22. Abandonment of approximately 4.7 miles of 16-inch Line No. H–150 from Springer Junction to New Stutler Junction, all in Harrison County.

Applicant estimates the cost of the proposed facilities at $18,812,292, to be financed from funds on hand and funds to be obtained from Applicant's parent, Consolidated Natural Gas Company. No additional sales or services are proposed in this application.

Applicant states that construction proposed herein will result in the replacement of approximately 200 miles of aged and deteriorated pipeline with approximately 119 miles of new, wrapped, coated and cathodically protected pipeline. Applicant further states that, with the exception of Line No. TL–362, which is 3.0 miles in length, all of the pipelines which are proposed to be abandoned were originally constructed between 1904 and 1925, and that, although Line No. TL–362 was constructed in 1963, the abandonment of this section of pipeline is necessitated by the abandonment of Maxwell Station. Applicant estimates that approximately 4,500 Mcf of gas per day are being lost from the pipeline system which is proposed herein to be replaced.

Applicant alleges that the relocation of the Maxwell Station horsepower and the abandonment of Payne Station are required because it will be necessary to relocate many pipelines.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–29561 Filed 12–18–74;8:45 am]

[Docket No. CP75–160]

EL PASO NATURAL GAS CO.

Notice of Application

DECEMBER 11, 1974.

Take notice that on November 27, 1974, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP75–160 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain compressor facilities located in Howard and Scurry Counties, Texas, all as set forth in the application which is on file with the Commission and open to public inspection.

The application states that by Commission orders issued June 19, 1952, in Docket No. G–1631 (11 FPC 1071) and March 26, 1958, in Docket No. G–1197 (19 FPC 393) Applicant was authorized, inter alia, to construct and operate the Vealmoor Compressor Station in Howard County, Texas, consisting of three 440 horsepower and one 800 horsepower gas engine-driven reciprocating compressor units with appurtenances, for the transportation of available volumes of residue gas from the Vealmoor area. The application further states that due to the continuing decline in available supplies of residue gas in the Vealmoor area, Applicant's interstate system no longer requires the use of the total compressor horsepower now comprising such facility for the purpose initially installed.

In addition, the application states that by various Commission orders Applicant was authorized, inter alia, to construct and operate the Snyder Compressor Station in Scurry County, Texas, consisting of five 660 horsepower and one 2,000 horsepower gas engine-driven reciprocating compressor units with appurtenances, for the transportation of gas from sources in the Snyder area in Scurry County, Texas, to Applicant's interstate system. The application states further that due to the reductions in the amount of residue gas supplies from sources in the Snyder area, Applicant's system operations no longer require the use of the total compressor horsepower facilities installed at said location.

Applicant, accordingly, proposes to abandon and store in place, until installation at some other location on Applicant's interstate system is required, or until such facilities are sold on the used compressor market, one 440 horsepower compressor unit authorized by the order issued June 19, 1952, in Docket No. G–1631, from the Vealmoor Compressor Station, and the 2,000 horsepower compressor unit authorized by order issued March 23, 1971, in Docket No. CP71–72 (45 FPC 477), at the Snyder Compressor Station, together with appurtenant facilities. The total cost of abandonment of the facilities is estimated by Applicant to be $4,050 including filing fees.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 3, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

IOWA PUBLIC SERVICE CO.

Notice of Application

DECEMBER 11, 1974.

Take notice that on November 18, 1974 and November 25, 1974, Iowa Public Service Company (Applicant), filed applications with the Federal Power Commission, pursuant to section 204 of the Federal Power Act seeking authorization to negotiate with at least three underwriters, in each transaction, regarding the proposed issuance and sale of (1) not more than 700,000 shares of Common Stock; (2) $20 million principal amount of First Mortgage Bonds; and (3) 100,000 shares of Cumulative Preferred Stock, by negotiated underwriting.

Applicant seeks permission to negotiate with underwriters regarding the terms upon which the securities might be issued in order to determine whether application for exemption from the competitive bidding requirements of § 34.1a (a) (b) and (c) of the Commission's regulations under the Federal Power Act should be made. Applicant represents that it has not engaged in any negotiations for the sale or underwriting of securities.

Applicant is incorporated under the laws of the State of Iowa, with its principal business office at Sioux City, Iowa, and is engaged in the electric utility business within that State.

Any person desiring to be heard or to make any protest with reference to the application should on or before December 31, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP75-164]

LONE STAR GAS CO.

Notice of Application

DECEMBER 11, 1974.

Take notice that on December 2, 1974, Lone Star Gas Company (Applicant), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. CP75-164 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval of the Commission to abandon the operation of certain facilities for the transportation of natural gas in interstate commerce located in Collin County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks permission and approval to abandon approximately 0.01 mile of its 2-inch Line F-5 pipeline system located in Collin County and to transfer the use of said portion of Line F-5 from transmission to distribution pipeline. Applicant explains that the equipment and facilities used to serve the customers currently on Line F-5 are in a condition that will not tolerate the high pressures required on Applicant's transmission lines, but that the line may still effectively be used at lower distribution pressures to serve residential customers in the area. In addition, Applicant proposes to abandon and scrap, at an estimated cost of $300, the existing measuring station which is located at the terminus of Line F-5. Applicant claims that said measuring station is obsolete.

Applicant states that the proposed abandonment of the Line F-5 facilities from interstate operations will not result in abandonment or reduction of natural gas service to any of Applicant's customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 8, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. RP75-20]

MISSISSIPPI RIVER TRANSMISSION CORP.

Order Granting Interventions

DECEMBER 11, 1974.

On October 1, 1974, Mississippi River Transmission Corporation (MRT) tendered for filing proposed changes in its FPC Gas Tariff [1] to provide for a rate increase of approximately $14,166,924 over the rates effective October 1, 1974.

Letters of protest, comments or petitions to intervene were due on or before October 18, 1974. The following parties filed untimely interventions:

Illinois Power Company
Illinois Commerce Commission

The participation of the above-named Company and State Commission may be in the public interest and therefore, their untimely interventions shall be granted.

The Commission finds. The participation of the above named parties may be in the public interest.

The Commission orders. (A) The above named parties are permitted to intervene in this proceeding subject to the rules and regulations of the Commission and the procedures set forth in the Commission Order of October 31, 1974; *Provided, however,* That participation of said intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions to intervene, and *Provided, further,* The admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders entered in this proceeding.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[1] The below listed revised tariff sheets to Mississippi's FPC Gas Tariff, First Revised Volume No. 1 were filed on October 1, 1974: ------ Revised Sheet No. 3A, Twelfth Revised Sheet No. 5; Tenth Revised Sheet No. 6; Third Revised Sheet No. 27E.

[Docket Nos. RP73-110 and RP71-128 (PGA 75-4B)]

NATURAL GAS PIPE LINE COMPANY OF AMERICA

Notice of Rate Filing

DECEMBER 11, 1974.

Take notice that on December 5, 1974, Natural Gas Pipe Line Company of America (Natural) tendered for filing changes to its FPC Gas Tariff, Third Revised Volume No. 3:

Revised 5th Substitute 16th Revised Sheet No. 5.	*Effective* Nov. 1, 1974.
2d 5th Substitute 16th Revised Sheet No. 5.	Nov. 18, 1974.

Natural states that its December 5, 1974, filing is to be substituted for its December 2, 1974, filing. Natural states that its December 2, 1974, filing was pursuant to a Commission directive which: (1) Required the rates which were effective November 1, 1974, to be revised to reflect the elimination of the effect of an advance payment unit adjustment being withdrawn by Natural and to record the PGA increases from Great Lakes and United Gas [1] (2) Required the rates to be effective November 18, 1974 to reflect the PGA increase by Colorado Interstate.[2] Furthermore, Natural states that one tariff sheet of its December 2, 1974, filing, to become effective November 2, 1974, was revised to track the rate effect of United Gas' Petition For Special Relief through the establishment of a temporary National Rate Surcharge.[3]

Natural states that its December 5, 1974, filing is necessitated by the fact of a Commission denial of United Gas Petition For Special Relief. Therefore, Natural states that its December 5, 1974, filing eliminates Second Revised Fifth Substitute Revised Sheet No. 5 contained in its December 2, 1974 filing and also eliminates the effect of the proposed National Rate Surcharge on its rates to become effective November 18, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[2] Third Revised Fifth Substitute Sixteenth Revised Sheet No. 5.

[3] Second Revised Fifth Substitute Sixteenth Revised Sheet No. 5.

[Docket No. CP75-161]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

DECEMBER 11, 1974.

Take notice that on November 27, 1974, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP75-161 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the Commission's regulations thereunder (18 CFR 157.7(b)), for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1975, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which will be purchased from producers in the general area of its existing system, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system new supplies of natural gas in various producing areas generally co-extensive with said system.

The application states that the total costs of all facilities for which authorization is sought herein will not exceed $7,000,000, with no single onshore project to exceed a cost of $1,000,000, and with no single offshore project to exceed a cost of $1,750,000. Applicant states that the proposed facilities will be financed from funds on hand.

Applicant notes that the Commission has issued a Notice of Proposed Rulemaking in Docket No. RM75-2, [1] wherein it is proposed to amend the aforesaid Section 157.7(b). Applicant, therefore, requests, should the Commission issue an order in Docket No. RM75-2 increasing the maximum cost limitations for budget-type facilities, authorization for a total expenditure not to exceed $10,000,000, with the cost of onshore and offshore gas purchase facilities for a single project not to exceed $1,500,000 and $2,500,000, respectively.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 2, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

---

[1] 39 FR 29238

Take further notice that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-29561 Filed 12-18-74;8:45 am]

[Docket No. CP74-71]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Petition To Amend

DECEMBER 11, 1974.

Take notice that on December 2, 1974, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP74-71 a petition to amend the order issued in said docket on December 3, 1973 (50 FPC —), pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the Commission's regulations thereunder (18 CFR 157.7(b)), by authorizing the construction and operation of onshore gas purchase facilities through waiver of the cost limitation prescribed by § 157.7(b)(1)(ii) of the Commission's regulations (18 CFR 157.7(b)(1)(ii)), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the order of December 3, 1973, Petitioner was authorized to construct during the calendar year 1974 onshore natural gas purchase facilities with no single project to exceed a cost of $1,000,000 and to operate said facilities. Section 157.7(b)(1)(ii) of the Regulations under the Natural Gas Act limits to $1,000,000 the cost of any single onshore gas purchase facility which Petitioner may construct under that section. Petitioner now requests a waiver of this limit so that it may include the construction of transportation facilities from its Maud Field reserves located in Bowie County, Texas, under the authorization in Docket No. CP74-71.

Petitioners states that during the period January 1974 through May 1974 it constructed facilities to transport production from the Maud Field to a point of connection with Petitioner's existing transmission system located in Miller County, Arkansas, at an actual cost of $1,218,000, which exceeded Petitioner's original estimate by $368,000 and also exceeds the authorization granted by the December 3, 1974, order. Petitioner further states that the major portion of this increase is attributable to the installation cost, which was $307,500 higher than Petitioner's original estimate primarily because of the increase in the cost of labor, the extended period required for construction, the delay in placing all facilities in service, and the inclement weather conditions that prevailed in the construction area during the period January to March 1974. Petitioner contends that it could not have reasonably foreseen this cost overrun prior to the completion of substantially all of the construction and installation of said facilities, which consist of 21 miles of 8-inch pipeline, and a 6-inch measuring facility.

Petitioner asserts that the gas purchased in the Maud Field and transported by means of the facilities described in the petition to amend is required and will be used by Petitioner to augment its total gas supply and to assure maintenance of adequate service to its customers. Petitioner, therefore, requests the Commission to increase the authorized cost ceiling for any single onshore project in the December 3, 1974, order to $1,300,000.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before January 7, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-29563 Filed 12-18-74;8:45 am]

[Docket No. E-9151]

NIAGARA MOHAWK POWER CORP.

Notice of Tariff Change

DECEMBER 11, 1974.

Take notice that Niagara Mohawk Power Corporation and New York State Electric & Gas Corporation, on December 4, 1974, tendered for filing proposed changes in Niagara Mohawk Power Corporation's Rate Schedule FPC No. 45 and New York State Electric & Gas Corporation's Rate Schedule FPC No. 36. The proposed filing is submitted as Supplement No. 4 to both companies.

Supplement No. 3 between the Power Authority of the State of New York, Niagara Mohawk Power Corporation and New York State Electric & Gas Corporation stated that the transmission fee would increase from $4.375 per Kw per year to $4.80 per Kw per year when the contract demand exceeded 100,000 Kw. On September 1, 1974, the Power Authority of the State of New York commenced deliveries of 130,000 Kw of power under the agreement thereby necessitating the filing.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before December 27, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-29564 Filed 12-18-74;8:45 am]

[Docket No. RP73-8 PGA 75-4]

NORTH PENN GAS CO.

Proposed Changes in FPC Gas Tariff

DECEMBER 11, 1974.

Take notice that North Penn Gas Company (North Penn) on December 2, 1974, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA clause for rates to be effective January 1, 1975. North Penn states that the proposed rate increase would generate $739,999.01 annually in additional jurisdictional revenues based on the twelve-month period ending October 31, 1974.

North Penn states that this PGA filing was triggered by a rate increase filed by Tennessee Gas Pipeline Company (Tennessee) and Consolidated Gas Supply Corporation (Consolidated), both to be effective January 1, 1975. Tennessee filed two sets of tariff sheets for the same effective date, one of which, designated as Second Substitute Sixth Revised Sheet Nos. 12A and 12B, includes small producer increases above the level established by Opinion No. 699 while the other, designated as Substitute Sixth Revised Sheet Nos. 12A and 12B, does not. North Penn has reflected in its filing the Second Substitute Sixth Revised Sheet Nos. 12A and 12B rates of Tennessee. Additionally, North Penn has included the change in rates from Consolidated, filed November 5, 1974, to become effective December 1, 1974, and designated as Second Substitute Original Sheet No. 7A. This change in rates from Consolidated was to correct rates filed October 16, 1974 to become effective December 1, 1974, in Docket No. RP74-90.

XUM
DEC 19 1974 V 39 245

Sheet No. 5; Tenth Revised Sheet No. 6; Third Revised Sheet No. 27K.

teenth Revised Sheet No. 5.

[39 FR 29038

North Penn is requesting a waiver of the 45-day notice requirement contained in its PGA clause since it did not receive the suppliers' revised rates in sufficient time to make a timely filing. Further, North Penn asks for a waiver of any other of the Commission's rules and regulations in order to permit the proposed rates to go into effect on January 1, 1975.

Copies of this filing were served upon North Penn's jurisdictional customers, as well as interested state commissioners.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-236]

NORTHERN NATURAL GAS CO.

Order Granting Interventions, Setting Date for the Filing of Evidence and Hearing Date; Correction

NOVEMBER 14, 1974.

In the Order Granting Interventions, Setting Date for The Filing of Evidence and Hearing Date issued September 23, 1974 and Published in the FEDERAL REGISTER on September 27, 1974 39 FR 34709, Page 34710, Paragraph 4, listed intervenor Iowa Electric Gas and Electric Company is an erroneous combination of two separate intervenors, and should be changed to:

Iowa Electric Light and Power Company
Iowa-Illinois Gas and Electric Company

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29565 Filed 12-18-74;8:45 am]

[Docket No. E-9148]

NORTHERN STATES POWER CO.

Filing of Proposed Rate Increase

DECEMBER 11, 1974.

Take notice that Northern States Power Company, Minneapolis, Minnesota, (NSP) on December 2, 1974, tendered for filing Third Revised Schedule A to NSP's contracts with the following sixteen total requirements wholesale customers:

	FPC Rate Schedule No.
City of Anoka	338
City of Arlington	276
Village of Brownton	224
Village of Buffalo	269
City of Chaska	323
City of Granite Falls	256
Home Light & Power Co.	226
Village of Kasota	318
Village of Kasson	279
City of Lake City	261
Village of North St. Paul	271
City of St. Peter	225
City of Shakopee	263
Town of Valley Springs	266
City of Wasson	280
City of Winthrop	264

The rate schedule is proposed to be effective for deliveries of power and energy on and after January 1, 1975, but NSP requests, in accordance with a settlement agreement in Docket No. E-8252 that the proposed increase be suspended by the Commission so as to allow the increase to become effective for deliveries of power and energy on and after June 1, 1975.

NSP states that the proposed rate schedule will increase revenues from the total requirements sales by $2,219,600, based on sales for the 1975 test year. The proposed increase is needed, NSP states, so that the revenues will more nearly recover NSP's costs in rendering the service.

NSP states that it has mailed a copy of the proposed rate schedule and comparative billing data to each of NSP's customers affected by the proposed change and to the Minnesota Public Service Commission as required by § 35.2 of the Commission's regulations.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 24, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. CI75-340]

SKYLINE OIL CO., ET AL.

Notice of Application

DECEMBER 11, 1974.

Take notice that on November 22, 1974, Skyline Oil Company, 413 Atlas Building, Salt Lake City, Utah 84101, Joseph Oil Corp. and Joseph S. Gruss, 55 Broad Street, New York, New York 10004, (collectively Applicants) filed in Docket No. CI75-340 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to Columbia Gas Transmission Corporation (Columbia) from the Sweet Lake Land and Oil Co. Well Nos. 1 and 2, Chalkley Field, Cameron Parish, Louisiana, and delivery of said gas at Columbia's existing measuring station No. 503 in Cameron Parish, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The application indicates that Applicants have commenced a sale of natural gas to Columbia on November 18, 1974, from the Chalkley Field within the contemplation of § 157.29 of the Commission's regulations under the Natural Gas Act (18 CFR 157.29) and propose to continue said sale for one year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicants propose to sell to Columbia all gas produced from the subject wells, estimated at approximately 2,500 Mcf of gas per day, at a rate of $1.00 per million Btu at 15.025 psia. Said rate is subject to the condition that if Columbia is not able upon good faith effort to include any portion of the contract price in its cost-of-service, the portion which was not includable shall be refunded by Applicant and the contract price reduced accordingly.

Any person desiring to be heard or to make any protest with reference to said application should on or before January

2, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP75-159]

TENNESSEE GAS PIPELINE CO.

Notice of Application

DECEMBER 11, 1974.

Take notice that on November 27, 1974, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP75-159 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the Commission's regulations thereunder (18 CFR 157.7(b)), for a certificate of public convenience and necessity authorizing the construction during the calendar year 1975 and the operation of gas-purchase facilities to enable Applicant to take into its certificated main pipeline system natural gas which will be purchased from producers in the general area of its existing system, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

The stated purpose of the budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system new supplies of natural gas in various producing areas generally coextensive with said system.

The application states that the total cost of all facilities for which authorization is sought herein will not exceed $7,000,000, with no single onshore or offshore project to exceed costs of $1,000,000 and $1,750,000, respectively. Applicant states that initial financing will be from general funds and/or borrowings under Applicant's revolving credit agreements.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 3, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29572 Filed 12-18-74;8:45 am]

[Docket No. RP74-91-6]

TENNESSEE GAS PIPELINE CO.

Order Granting Withdrawal of Petition for Extraordinary Relief and Vacating Prior Order

DECEMBER 11, 1974.

On September 19, 1974, Mississippi Valley Gas Company (Mississippi Valley), filed in Docket No. RP74-91-6 a petition for extraordinary relief pursuant to § 1.7 of the Commission's rules of practice and procedure and 2.78 of the Commission's rules and regulations requesting: (1) that the Commission authorize Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Tennessee) to restructure its 1974 allocation of natural gas or in the alternative, (1) that the Commission order that no penalty be imposed on Mississippi Valley for volumes of gas taken in excess of its April–October, 1974 curtailment period quantity entitlement (CPQE) of 2,796 Mcf as long as the overrun does not exceed the 2,080 Mcf that Mississippi Valley was entitled to but did not take during the January–March, 1974 curtailment period; and (2) that the Commission waive any and all requirements which would delay the immediate grant of the relief requested. By order of October 25, 1974, the Commission, inter alia, ordered a formal hearing be held on the issues raised by Mississippi Valley's petition, and authorized Tennessee to deliver to Mississippi Valley the requested volumes of natural gas subject to payback if determined to be required at the aforementioned hearing.

On November 13, 1974, Mississippi Valley filed a motion requesting the Commission to: (1) allow it to withdraw its petition for extraordinary relief; (2) vacate the order granting temporary relief; and (3) dismiss the proceeding. Mississippi Valley states that due to warmer than normal weather during October, 1974, and delay of the cotton ginning season due to wet fields, it required delivery of only 2,723 Mcf, while its CPQE for that period was 2,769 Mcf. Mississippi Valley states that its petition for extraordinary relief is now unnecessary and therefore requests the Commission grant the relief set forth above. We shall grant Mississippi Valley's request and allow it to withdraw its petition of September 19, 1974; we shall also vacate our order of October 25, 1974, which inter alia, ordered a formal hearing be held on the issues raised by Mississippi Valley's petition.

The Commission finds. That Mississippi Valley's request to withdraw its petition for extraordinary relief filed in the instant docket on September 19, 1974 should be granted; and that the order issued in this docket on October 25, 1974, should be vacated.

DEC 19 1974 V 39 N 245 XUM

The Commission orders: That Mississippi Valley's request to withdraw its petition for extraordinary relief filed in the instant docket on September 19, 1974, is hereby granted; and that the order issued in this docket on October 25, 1974 is hereby vacated.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. RP74-52]

TRANSWESTERN PIPELINE CO.

Notice of Extension of Procedural Dates

DECEMBER 10, 1974.

On December 9, 1974, Transwestern Pipeline Company filed a motion to extend the procedural dates fixed by order issued November 18, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Rebuttal, January 14, 1975.
Hearing, January 28, 1975 (10 a.m. e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29575 Filed 12-18-74;8:45 am]

[Docket No. E-8619]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN MICHIGAN POWER CO.

Further Extension of Procedural Dates

DECEMBER 10, 1974.

On December 4, 1974, Staff Counsel filed a motion to extend the procedural dates fixed by order issued April 19, 1974, as most recently modified by notice issued, September 16, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon Consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, December 23, 1974.
Service of Intervenor's Testimony, January 7, 1975.
Service of Company Rebuttal, January 28, 1975.
Hearing, February 18, 1975 (10 a.m. e.s.t.).

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

CANTON BANCORPORATION, INC.

Order Denying Formation of Bank Holding Co.

Canton Bancorporation, Inc., Canton, Oklahoma, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 85 percent of the voting shares of Bank of Canton, Canton, Oklahoma ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a nonoperating corporation organized for the purpose of becoming a bank holding company through the acquisition of shares of Bank. The purpose of the proposed transaction is to effect a transfer of ownership of Bank from individuals to a corporation owned by the same individuals with no significant change in Bank's management or operations. With total deposits of $5.3 million on December 31, 1973, Bank was the smallest of five banks in Blaine County, which approximates the relevant banking market. Bank holds about 13 per cent of the total deposits in banks in Blaine County and less than .1 of 1 per cent of the total deposits in the State. Since the proposal is essentially a reorganization, consummation thereof would not eliminate any existing competition, nor would it appear to have any adverse effects on other banks or on the development of competition in the relevant market. Therefore, competitive considerations are consistent with approval of the application.

Under the Bank Holding Company Act, the Board is required to take into consideration the financial and managerial resources and future prospects of the proposed holding company and the bank to be acquired. In the exercise of that responsibility, the Board finds that considerations relating to the financial resources of Applicant warrant denial of the application.

Applicant has no operating history. Applicant's revenues would be limited to its 85 percent interest in cash dividends declared by Bank. The Applicant expects to service the $388,000 debt it will incur as part of this transaction through dividends from Bank. On the basis of the record, the Board is unable to conclude that the Applicant's projected earnings are reasonable or attainable. Furthermore, even if Applicant's projections are realized, the projected earnings for Bank do not, in the Board's view, provide Applicant with the necessary financial flexibility to meet its annual debt servicing requirements as well as any unexpected problems that might arise at Bank. In addition, the high level of dividend payout from Bank necessary for Applicant to service its debt could inhibit growth in Bank's capital at a rate compatible with its projected asset growth, thus impairing Bank's financial condition and its ability to continue as a viable banking organization in meeting the banking needs of the community it serves. Accordingly, on the basis of the record, the Board concludes that the considerations relating to the financial aspects of Applicant's proposal weigh against approval of the application.

Applicant does not propose, as part of this application, to make any changes or additions in the services presently offered by Bank. Thus, the considerations relating to the convenience and needs of the community to be served do not lend any significant weight in favor of approval of the application. Moreover, in view of the proposed debt-retirement plan, consummation of the proposal could diminish Bank's ability to continue to serve the area as a banking alternative.

On the basis of all the facts in the record, it is the Board's judgment that the financial considerations involved in the proposed transaction present adverse factors weighing against approval of the application. Accordingly, the Board concludes that consummation of the proposal would not be in the public interest, and that the application should be, and is hereby, denied.

By order of the Board of Governors,[1] effective December 11, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

Assistant Secretary of the Board.

[FR Doc.74-29523 Filed 12-18-74;8:45 am]

PEOPLES BANCORPORATION

Order Denying Formation of Bank Holding Co.

Peoples Bancorporation, Hampton, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 86.5 percent of the voting shares of Peoples Savings Bank, Elma, Iowa ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a non-operating company with no subsidiaries, was organized for the purpose of becoming a bank holding company through the acquisition of Bank (deposits of $5.7 million).[1] Bank is the only bank in Elma (population of approximately 600), an agriculturally oriented community located in northeastern Iowa. Bank is the third largest of five banks in the Howard County banking market and holds approximately 17 percent of the total commercial bank deposits therein. Upon acquisition of Bank, Applicant would control the 453rd largest bank in Iowa, holding .06 of one percent of total deposits in commercial banks in the State. Since the purpose of the proposed transaction is to effect a transfer of the ownership of Bank from individuals to a corporation owned by the same individuals, consummation of the proposal herein would not eliminate existing or potential competition, nor have an adverse effect on other area banks.

The principals of Applicant are also principals in A. M. Sayler, Incorporated, Hampton, Iowa, a registered one-bank holding company which owns 59.3 percent of First National Bank of Hampton, Hampton, Iowa ("Hampton Bank"). Hampton Bank (deposits of $16.6 million) is the largest of five banks in the Franklin County banking market, a separate banking market located approximately 50 miles southwest of Bank. It appears that there is no significant competition between Hampton Bank and Bank. Accordingly, on the basis of the facts of record, the Board concludes that competitive considerations are consistent with approval of the application.

The Board has indicated on previous occasions that it believes that a holding company should provide a source of strength to its subsidiary bank(s), and that it will examine closely the condition of the Applicant in each case with this view in mind. The proposal herein involves an acquisition debt of $407,300 which Applicant proposes to service over an eleven-year period through a dividend payout from Bank averaging over 50 percent of Bank's net income. Moreover, Applicant proposes to borrow an additional $51,000 during the next five years in order to meet the principal and interest payments during that period. In the Board's view, this high level of debt and the dividend payout required from Bank to service the debt could place an undue strain on Bank's capital position. In this regard, the projected asset and deposit growth and earnings of Bank during the debt retirement period do not appear to provide Applicant with the necessary financial flexibility to meet its annual debt serving requirements while maintaining adequate capital at Bank. On the basis of the foregoing and other facts of record, the Board is unable to conclude that it would be in the public interest to permit the formation of a one-bank holding company with an initial debt structure which could result in impairing Bank's financial condition. Accordingly, the Board concludes that the financial aspects of Applicant's proposal weigh against approval of the application.

Applicant has proposed some changes which could benefit the community, including increased real estate lending and the increased use of loan participations enabling Bank to extend larger loans to its customers. However, the introduction of these expanded services is not dependent upon formation of Applicant as a bank holding company and, in any event, does not outweigh the aforementioned adverse considerations relating to the banking factors.

On the basis of all of the circumstances concerning this application, the Board concludes that the financial considerations involved in this proposal present adverse circumstances bearing upon the financial condition and prospects of both Applicant and Bank. Such adverse factors are not outweighed by any procompetitive effects or by benefits which would result in serving the convenience and needs of the community. Accordingly, it is the Board's judgment that approval of the application would not be in the public interest and that the application should be denied.

On the basis of the record, the application is denied for the reasons summarized above.

By order of the Board of Governors,[2] effective December 9, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-29522 Filed 12-18-74;8:45 am]

VICTORIA BANKSHARES, INC.

Acquisition of Bank

Victoria Bankshares, Inc., Victoria, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of the successor by merger to the Jackson County State Bank, Edna, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 13, 1975.

Board of Governors of the Federal Reserve System, December 12, 1974.

WACHOVIA CORP.

Order Approving Retention of Southeastern Financial Corp.

The Wachovia Corporation, Winston-Salem, North Carolina, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to retain all of the outstanding shares of Southeastern Financial Corporation, Charlotte, North Carolina ("Southeastern"), a company that engages in the activities of purchasing of accounts receivable, principally on a nonrecourse basis ("factoring"), and of making secured and unsecured advances and loans to commercial customers, such loans being secured by accounts receivable, inventory, equipment, and/or real estate ("commercial financing"). Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1)). The shares of Southeastern are presently held by American Credit Corporation,

[1] All banking data are as of December 31, 1973.

[2] Voting for this action: Chairman Burns and Governors Sheehan, Bucher, Holland and Coldwell. Absent and not voting: Governors Mitchell and Wallich.

Charlotte, North Carolina ("ACC"), a wholly-owned subsidiary of Applicant.[1]

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 9187). The time for filing comments and views has expired, and those received have been considered in light of the standards of section 4(c)(8) of the Act.

Applicant, the largest banking organization in North Carolina, controls one bank, Wachovia Bank and Trust Company, N.A. ("Bank"), with total deposits of $2.5 billion, representing 21 per cent of total deposits in commercial banks in North Carolina.[2] Applicant's nonbanking subsidiaries include ACC, a mortgage company, a data processing company, an insurance agency, a courier corporation, a title insurance agency, and a real estate development company. Certain of these nonbanking subsidiaries must be divested, under section 4(a)(2) of the Act, by December 31, 1980, unless the Board, prior to that date, approves Applicant's retention of those subsidiaries.

Southeastern is engaged in both factoring and commercial financing and conducts business from its sole office in Charlotte, North Carolina. Its customers, that is, business entities that either borrow from it or sell accounts receivable to it, are principally located throughout the southeastern United States. During 1973, it had a factoring volume of $628 million, representing approximately 3.8 per cent of total commercial factored accounts held by all factoring firms in the United States. It is estimated that Southeastern is thereby the ninth largest such firm.

The United States Department of Justice ("Justice") has urged that the Board deny this application on grounds that Applicant's original acquisition of ACC eliminated what Justice deems a probability that Applicant would have entered factoring either de novo or by foothold entry. Justice relies on the facts that Southeastern is the second largest factor in North Carolina and that Applicant is the largest commercial banking organization in the southeastern United States. Applicant's bank is the largest commercial bank in North Carolina and numerous users or potential users of factoring services are among its customers. More than 65 per cent of Southeastern's clients and factoring volume are from North Carolina, and no other State accounts for more than 7 per cent of Southeastern's factoring business.[3] As factoring requires business contacts and factoring firms prefer to deal with local factors, Justice argues that the State of North Carolina approximates the relevant geographic market in which to adjudge the competitive effects of the instant acquisition and retention.

Applicant contends that the nation as a whole constitutes the relevant geographic market in that the receivables purchased by Southeastern are owed by debtors located throughout the country. However, the competitive choice whether to deal with Southeastern is made by sellers of accounts receivable, not by account debtors. More than 97 per cent of Southeastern's clients were located in the southeastern United States in 1970,[4] and those clients represented more than 98 percent of Southeastern's factoring volume. The southeastern United States is the area where Southeastern operates, and to which its factoring clients can practicably turn for factoring alternatives. It is the area in which the effect on competition of the acquisition in 1970, and the retention, of Southeastern will be direct and immediate. Accordingly, it is the relevant geographic market in which to adjudge the competitive effects of the affiliation of Applicant and Southeastern.[5] However, while the southeastern United States constitutes the relevant market, the bulk of the Board's analysis has focused on that area in which adverse competitive effects, if any, would be most likely to occur, the State of North Carolina.

The factoring business in North Carolina is concentrated, the four largest firms in 1971 accounting for more than 66 percent of factoring volume and the eight largest firms accounting for more than 85 per cent of such volume. Of the 28 factoring firms in the State in 1971, Southeastern ranked second and accounted for slightly more than 18 per cent of total factoring volume.

Justice asserts that Applicant has both the incentive and the capacity to enter factoring in North Carolina; that textile and furniture manufacturers, prime users of factoring services, constitute substantial components of the North Carolina economy; that growth of the North Carolina textile and furniture manufacturing industries has contributed to growth of factoring volume; and that the other major banking organizations in North Carolina are affiliated with factors. Further, in a proxy statement to shareholders of Bank in 1968, in seeking shareholder approval for the plan of reorganization in which Applicant was formed, Bank's management expressly stated that "factoring accounts receivable" was among the services that "[i]t is contemplated that Wachovia Corporation will ultimately offer" either de novo or by acquisition. Applicant does not contend that it lacked an incentive to enter factoring de novo or by foothold entry, and the Board concludes that Applicant had such an incentive in 1970 and, but for its ownership of Southeastern, would have such incentive today.

However, Applicant asserts that whatever its incentive, it did not and does not have the capacity to enter factoring in North Carolina de novo or by foothold acquisition. However, its simple assertion is not dispositive of the issue. Justice contends that Applicant's substantial North Carolina contacts enable it to enter factoring de novo or by foothold acquisition. Internal memoranda of Southeastern, written in 1969 and 1970, suggest an expectation that competing factors would affiliate with banks.

Applicant's position is premised on the assertions that it lacks the expertise necessary to service factored customers and to collect accounts receivable throughout

---

[1] As originally filed, the instant application proposed retention of all of the shares of American Credit Corporation, Charlotte, North Carolina, parent of Southeastern. American Credit Corporation, through various subsidiaries, makes personal loans, purchases retail installment sales contracts, underwrites and sells insurance, leases personal property, and provides certain data processing services, as well as engaging in factoring and commercial financing activities through Southeastern. On April 25, 1974, that application was amended to incorporate Applicant's undertaking upon approval of this application to divest no later than December 31, 1978, all of the shares of American Credit Corporation, except for retention of all of the shares of American Credit Corporation's subsidiary, Southeastern.

Applicant had also filed a separate application to retain shares of Southeastern Fire Insurance Company and South State Insurance Company, both wholly-owned subsidiaries of American Credit Corporation. Southeastern Fire Insurance Company and South State Insurance Company each underwrites credit fire and casualty insurance, an activity that the Board has not determined to be closely related to banking or managing or controlling banks. Prior to the Board's consideration of whether there existed a reasonable basis for Applicant's opinion that such activity is closely related to banking or managing or controlling banks, that application was withdrawn.

[2] Banking data are as of December 31, 1973.

[3] Data is for year 1970.

[4] The southeastern United States as used herein includes, and is limited to, the States of North Carolina, Virginia, South Carolina, Tennessee, Georgia, Mississippi, Florida, Alabama, and Kentucky.

[5] In prior cases involving the acquisition of factors by bank holding companies, the Board has recognized the existence of factoring markets less than national in scope. E.g., see Order of September 4, 1974, approving application of The Main Corporation, Chicago, Illinois, to acquire Health Management Services Corporation, 39 FR 33261 (September 16, 1974); Order of September 11, 1973, approving application of Philadelphia National Corporation, Philadelphia, Pennsylvania, to retain Congress Factors Corporation, 38 FR 26156 (September 18, 1973); Order of September 8, 1972, approving application of Bank of Virginia Company, Richmond, Virginia, to retain Rusch Factors, Inc., 58 Federal Reserve Bulletin 935 (1972), 37 FR 18960 (September 16, 1972). Applicant cites the Board's Order of January 27, 1972, approving the acquisition of Ambassador Factors Corporation ("Ambassador") by Industrial National Corporation, 58 Federal Reserve Bulletin 171 (1972), as support for its contention that factoring firms compete in a national market. However, in that case, the Board spoke not of a national market, but of Ambassador's rank among "the 26 factors that compete in national markets", that is, its rank among all factors that compete in the various markets in the nation. A determination as to relevant geographic market was not made in that case as such a finding was not essential to an assessment of the competitive effects of the affiliation, that assessment having been based upon the Board's finding that Industrial National Corporation was not capable of de novo entry into factoring, in any area.

the United States. It purports not to possess the credit files on, or personnel who are able to assess the credit of, account debtors dispersed throughout the country. Applicant asserts that when Bank deems it necessary to resort to the active collection of accounts receivable to protect its interest as a creditor, it contracts with a factor to take over the receivables. Bank, according to Applicant, will not make a loan collateralled solely or chiefly by accounts receivable except in participation with a factor that would administer the accounts receivable.

The Board has in the past expressed its view that de novo entry into factoring is difficult but it has not characterized such entry as impossible. In earlier cases, the Board was not presented with proposed acquisitions of factors by bank holding companies that possessed the combination of resources, proximity to prime users of factoring services, and competitive incentives to enter factoring[6] that Applicant has. In recent years, several bank holding companies with fewer resources, less proximity to users of factoring services, and less competitive incentive to do so, have entered factoring de novo or announced plans to do so.[7] It appears that, but for its acquisition of Southeastern in 1970 and its continued retention of Southeastern, it is likely that Applicant would have entered factoring in North Carolina de novo or through another acquisition.

Applicant also argues that the acquisition constituted a foothold acquisition.[8] Southeastern is the second largest competitor in North Carolina with a share of more than 18 percent of that State's factoring volume. Its market share is overstated in that North Carolina serves as a surrogate in this case for a broader area, the southeastern United States, which is the relevant geographic market. Nonetheless, it appears that whatever market power Southeastern possesses is substantial and exceeds that traditionally held by firms the acquisitions of which are deemed to be foothold acquisitions. On the basis of the record, it is uncertain whether there existed firms which could be considered both foothold acquisitions and available for acquisition by Applicant. However, section 4(c)(8) requires the Board to consider "possible" adverse effects, and Applicant, upon whom the burden of proof in this matter falls, having failed to attempt to demonstrate that such foothold acquisitions were, or are, not possible, must be considered to have had the ability to have entered North Carolina factoring by foothold acquisition, as well as de novo, as discussed above.

The question then arises whether such entry by Applicant would have significantly increased competition, so that elimination of such entry could be deemed to have had, or to have, the effect of decreasing competition that may otherwise have developed. There were 28 competitors in the market in 1970. The instant application suggests that there are 32 competitors in the market today,[9] and accordingly, it does not appear that the acquisition of Southeastern by Applicant substantially raised barriers to entry into the market. In any event, as might be expected, the substantial presence of textile and furniture manufacturers, prime users of factoring services, in North Carolina, has drawn most of the nation's largest factoring firms into that market, and each of the eight factors that is larger than Southeastern currently competes in that market. Thus, de novo entry by Applicant into this market in 1970 would have increased the number of competitors from 28 to 29. Its de novo entry today would increase the number of competitors from 32 to 33. The competitive significance of such increases in the number of competitors appears slight, particularly in view of the presence of 12 of the nation's 15 largest factoring firms in the market. The market shares of these large firms is not in the record, but the shares of the majority of them may be estimated as not exceeding 6 per cent.[10] If each of those competitors with their sizable resources, expertise and national reputations, has not increased its market share beyond 6 per cent, it does not appear reasonably probable that Applicant's de novo entry without the benefit of such expertise and reputation would have any significant beneficial impact upon competition in the market. To the contrary, it appears likely that such entry would not have significantly affected competition in the market.

With respect to the separate product line of commercial financing, approximately 34 per cent of the receivables held by Southeastern derive from making loans and advances to its factoring customers and others and discounting installment notes secured by interests in commercial equipment. At year-end 1971, more than 85 per cent of the commercial financing receivables held by Southeastern derived from firms located in the southeastern United States and that area constitutes a reasonable approximation of the relevant geographic area in which to adjudge the effects that the acquisition in 1970, and the retention, of Southeastern would have upon competition in commercial financing.

It does not appear that Applicant and Southeastern were in significant competition with one another in the area of commercial financing in 1970. Interest rates on commercial financing loans available from factors are 4 to 7 per cent above those on commercial loans made by commercial banks. Firms finding it necessary to borrow from commercial finance companies usually do so after they have exhausted credit lines from, or have been denied credit by, commercial banks. Whereas loans by Southeastern generally are secured, 95 per cent of Bank's commercial loans are unsecured, Southeastern relying primarily on collateral to avoid undue risk, banks relying primarily upon a borrower's creditworthiness to avoid undue risk. Accordingly, it does not appear that the acquisition or retention of shares of Southeastern would eliminate significant existing competition in commercial financing. Furthermore, in view of the large number of existing competitors, the Board concludes that the acquisition and retention of Southeastern by Applicant did not and would not eliminate any significant probable future or potential competition in commercial financing in the southeastern United States.

Justice has also asserted that the affiliation of Applicant with Southeastern would entrench the positions of both through channeling of deposits to Bank and through voluntary tie-ins of Southeastern's services with extensions of credit by Bank. Justice has not alleged any specific case of such channeling or tie-in, nor does the record contain evidence supporting that assertion. More than three times as many of Southeastern's clients bank with direct actual competitors of Bank than do with Bank. Furthermore, Applicant has taken internal management measures to avoid these adverse effects, and, such practices, if they arose, would be subject to prosecution by Justice under section 106 of the 1970 Amendments to the Act.

Finally, Justice contends that splitting Southeastern from the rest of ACC will weaken ACC's ability to compete in personal, consumer, and sales finance, and leasing markets and thus indirectly decrease competition within the meaning of section 4(c)(8). In this regard, Justice notes that Southeastern constitutes 20 per cent of of the assets of ACC and accounts for approximately 20 per cent of its income. Justice argues that ACC would thus lose a substantial portion of its asset and income base, as well as some of its diversification and thereby, according to Justice, its ability to attract capital at favorable rates would be impeded.

ACC's diversification has contributed to its ability to raise funds through the

---

[6] Two of Applicant's major competitors, NCNB Corporation and First Union National Corporation, the second and third largest banking organizations in North Carolina respectively, acquired small factors in 1970 and 1969 respectively.

[7] These include First Pennsylvania Corporation, Midlantic Banks, Inc., Heritage Bancorporation, Flagship Bankshares, Hartford National Corp., and Shawmut Association, the latter in a joint venture with Milberg Factors.

[8] In July, 1970, Southeastern held outstanding receivables of $26.4 million and had an annual factoring volume of $291 million.

[9] The record actually identifies 39 competitors, besides Southeastern, presently in the market. However, five of these apparently are "captive" factors each serving only one user of factoring services, and another two are different offices of factors already included within the market. The record does not identify the firms included among the 28 competitors in 1970.

[10] If Southeastern's market share is 18 per cent and it has the second largest market share, if the four largest market shares total 66 percent, and if the eight largest market shares total 85 percent, then, even, if the 12 large national firms in the market hold the 12 largest market shares eight of the 12 must have market shares below 6 per cent.

XUM
V 39 N 245 DEC 19 1974
XUM

[illegible] of commercial paper and some of that diversification will be lost upon its divestiture of Southeastern. However, Southeastern is highly leveraged, and it appears that the removal of debt, attributable to Southeastern, from ACC would significantly improve the capital position of ACC. ADC would remain well-diversified and would rank as the 16th largest independent finance company in the nation. The Board concludes that the separation of ACC and Southeastern would not, on balance, weaken ACC's ability to raise capital or significantly increase the cost of that capital and that such separation would not significantly impair the ability of ACC to compete.

There is no evidence in the record to indicate that the proposed retention might lead to an undue concentration of resources, conflicts of interests, unsound banking practices, or other adverse effects on the public interest.

Since Applicant's acquisition of Southeastern in July, 1970, Southeastern has steadily reduced its average monthly factoring charge. Those reductions may reflect responses to competitive pressures or cost savings attributable to economies associated with servicing large wholesale accounts. Since the acquisition, Southeastern's outstanding factored receivables increased from $36.4 million to $94.4 million. Its factoring volume increased from approximately $393 million in 1970 to $628 million in 1973. Further, Southeastern has expanded into wholesale factoring since its acquisition by Applicant. This rapid expansion has not been funded by Applicant, but rather has been funded by ACC, due to requirements of a court-imposed "hold-separate" order. However, direct affiliation of Southeastern and Applicant, with the removal of ACC as an intermediate funding vehicle, may be expected to result in lowered costs of funds for Southeastern as Applicant is less leveraged than is ACC. Applicant will not have to incur dealer fees to place commercial paper or long-term debt to fund Southeastern. Southeastern's reduced cost of funds should be reflected in further reduced factoring and commercial rates and also in a greater amount of business credit extended by Southeastern. This should indirectly benefit the high-risk borrowers who comprise Southeastern's indirect clientele and who, in periods of credit stringency, may be among the first to lose their sources of credit.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[1] effective December 11, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

[FPMR Temporary Reg. F-314]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the interests of the executive agencies of the Federal Government in intrastate rate proceedings.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Georgia Public Service Commission involving the application of the Georgia Power Company for interim increases in its intrastate rates as of December 16, 1974.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Services.

DECEMBER 12, 1974.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

FEDERAL GRAPHICS EVALUATION ADVISORY PANEL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a meeting of the Federal Graphics Evaluation Advisory Panel to the National Council on the Arts will be held on January 16 from 9 a.m.–5:30 p.m. and on January 17 from 9 a.m.–5:30 p.m. in the 10th floor conference room of the Shoreham Building, 806 15th Street, NW., Washington, D.C.

A portion of this meeting will be open to the public on January 16 from 9 a.m.–11 a.m. and on January 17 from 9 a.m.–11 a.m. on a space available basis. Accommodations are limited. During the open session there will be a discussion on the graphic material from the Department of Interior.

The remaining sessions of this meeting on January 16 and 17 are for the purpose of Panel review, discussion, evaluation, and recommendation on graphics under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these sessions, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b), (4) and (5), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6110.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

OFFICE OF MANAGEMENT AND BUDGET

BUSINESS ADVISORY COUNCIL ON FEDERAL REPORTS

Public Meeting

Pursuant to Public Law 92-463, notice is hereby given of a meeting of a panel of the Business Advisory Council on Federal Reports to be held in Room 2004, New Executive Office Building, 726 Jackson Place, NW., Washington, D.C., on Thursday, January 9, 1975, at 9:30 a.m.

The purpose of the meeting is to advise the Statistical Policy Division of the Office of Management and Budget concerning problems associated with proposed revisions of the renegotiation Board's regulations to require that renegotiation filings be in conformance with Cost Accounting Standards promulgated by the Cost Accounting Standards Board. The meeting will be open to public observation and participation.

Further information regarding the meeting may be obtained from the Statistical Policy Division, Office of Management and Budget, Room 10201, New Executive Office Building, Washington, D.C. 20503, Telephone (202) 395-3443.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

[1] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Bucher, Holland, Wallich and Coldwell. Absent and not voting: Chairman Burns.

SECURITIES AND EXCHANGE COMMISSION

AMERICAN STOCK EXCHANGE, INC. AND CHICAGO BOARD OPTIONS EXCHANGE, INC.

Delaying Amendment to Proposed Rules for a Common Clearing Corporation

Notice is hereby given that the American Stock Exchange, Inc. (Amex) and the Chicago Board Options Exchange, Inc. (CBOE) have filed an amendment delaying the effectiveness of the proposed charter, by-laws and rules of the Option Clearing Corporation (OCC) filed pursuant to Rule 9b-1 (17 CFR 240.9b-1) under the Securities Exchange Act of 1934. The proposed changes were originally published at 39 FR 39615 on November 8, 1974.

The OCC was originally organized and has been operating as a wholly owned subsidiary of the CBOE under the name Chicago Board Options Exchange Clearing Corporation (CBOECC). With the proposed option trading plans of the Amex reaching their final stages, the CBOECC was reorganized to be the issuer of the options which may be purchased or sold in transactions on any participating exchanges (Amex and CBOE) with each exchange having an ownership and voting interest in the operation of the OCC. Provisions of the OCC also provide for any other exchange which has been qualified under the rules of the SEC for option trading to become a participating exchange.

All interested persons are invited to submit their views and comments on the proposed OCC charter, by-laws and rules either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10-54. All amendments that have been made to the Amex's plans have been placed in their respective option files under file number S7-505. The proposed rules are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

Dated: December 11, 1974.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Rule 19, Ex Parte 241, Exemption 91]

AKRON, CANTON & YOUNGSTOWN RAILROAD CO.

Exemption Under Mandatory Service Rules

It appearing, that The Akron, Canton & Youngstown Railroad Company owns numerous 50-ft. plain boxcars; that under present conditions there are substantial surpluses of these cars on its line; that return of these cars to the owners would result in their being stored idle; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of these cars, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, 50-ft. plain boxcars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 393, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, and bearing reporting marks assigned to The Akron, Canton & Youngstown Railroad Company, shall be exempted from the provisions of Car Service Rules 1, 2(a), and 2(b).

Effective December 11, 1974.

Expires January 15, 1975.

Issued at Washington, D.C., December 11, 1974.

FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 16, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before January 3, 1975. FSA No. 42916—*Petroleum—Southwest to Official Territory, also Returned Shipments*. Filed by Southwestern Freight Bureau, Agent, (No. B-500), for and on behalf of carriers parties to schedule listed below. Rates on petroleum, petroleum products and related articles, in tank-carloads, as described in the application, from points in southwestern territory, including Kansas and Missouri, to points in official territory; also, returned shipments in the reverse direction.

Grounds for relief—Rate relationship.

Tariff—Supplement 36 to Southwestern Freight Bureau, Agent, tariff SW/E-133-K, ICC 5106. Rates are published to become effective on January 18, 1975.

By the Commission.

[Rev. S.O. 994, I.C.C. Order 136]

READING CO.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Reading Company (Andrew L. Lewis, Jr., and Joseph L. Castle, Trustees) (RDG) is unable to transport traffic to and from Carney's Point, New Jersey, and Gibbstown, New Jersey, because of inoperative bridge float at Carney's Point.

It is ordered, That:

(a) The RDG, being unable to transport traffic to and from Carney's Point, New Jersey, and Gibbstown, New Jersey, because of an inoperative bridge float, is hereby authorized to reroute or divert such traffic via any available route. Traffic necessarily diverted by authority of this order shall be rerouted so as to preserve as nearly as possible the participation and revenues of other carriers provided in the original routing. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 12:01 a.m., December 11, 1974.

(g) *Expiration date.* This order shall expire at 11:59 p.m., May 31, 1975.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., December 10, 1974.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

DECEMBER 16, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before December 30, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 83745 (Sub-No. E7), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities*, generally requiring rigging, special equipment, or specialized handling except articles requiring special vehicular equipment for over-the-road movements, between Clarksburg, Pa., on the one hand, and, on the other, points

in Maryland. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 83745 (Sub-No. E8), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities*, generally requiring rigging, special equipment, or specialized handling, except articles requiring special vehicular equipment for over-the-road movements, between points in Armstrong County, Pa., within 25 miles of Pittsburgh, Pa., on the one hand, and, on the other, points in Maryland, Ohio, and West Virginia. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 83745 (Sub-No. E9), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities*, generally requiring rigging, special equipment, or specialized handling except articles requiring special vehicular equipment for over-the-road movements, between points in Indiana County, Pa., within 25 miles of Pittsburgh, Pa., on the one hand, and, on the other, points in Ohio and West Virginia. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 83745 (Sub-No. E10), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities*, generally requiring rigging, special equipment, or specialized handling except articles requiring special vehicular equipment for over-the-road movements, between points in Beaver, Butler, and Lawrence Counties, Pa., within 25 miles of Pittsburgh, Pa., on the one hand, and, on the other, points in West Virginia and Maryland. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 83745 (Sub-No. E12), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities*, generally requiring rigging, special equipment, or specialized handling except articles requiring special vehicular equipment for over-the-road movements, between points in Fayette County, Pa., within 25 miles of Pittsburgh, Pa., south and west of a line beginning at the Fayette-Washington County line, extending along Pennsylvania Highway 201 to junction Pennsylvania Highway 819, thence along Pennsylvania Highway 819 to the Fayette-Westmoreland County line, on the one hand, and, on the other, Baltimore, Md. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 83835 (Sub-No. E40), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe* (except oilfield pipe), (1) which because of size or weight, require the use of special equipment (except pipe used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas, and petroleum and their products and by-products (2) which is earth drilling machinery and equipment, (3) which is incidental to, used in, or in connection with (a) the transmission, installation, removal, repair, operation, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, (4) which is used in, or in conection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; (a) from points in Texas, to points in Iowa, Michigan, Minnesota, and Wisconsin; (b) from points in Illinois, to points in California.

(c) From points in Colorado, Kansas, and Nebraska, to points in Mississippi; (d) from points in Kansas and Nebraska to points in Georgia and South Carolina; (e) from points in Colorado, Kansas, and Nebraska to points in Florida; (f) from points in Nebraska to points in Alabama; (g) from points in Arkansas, Illinois, and Missouri to points in Arizona; (h) from points in Arkansas and Louisiana to points in California, Idaho, Nevada, Oregon, and Washington; (i) from points in New Mexico, Oklahoma, and Texas to points in New York, Ohio, and Pennsylvania; (j) from points in New Mexico and Oklahoma to points in Indiana, Kentucky, Michigan, and Wisconsin; (k) from points in Colorado and New Mexico to points in Alabama, Tennessee, and Virginia; (l) from points in Colorado, New Mexico, and Oklahoma, to points in Georgia, North Carolina, South Carolina, and Virginia; (m) from points in Colorado, New Mexico, Oklahoma, and Texas, to points in Connecticut, Delaware, Maryland, Maine, Massachusetts, New Hampshire, New Jersey, Rhode Island, and Vermont; (n) from points in Louisiana to points in that part of Arizona on and north of a line beginning at the New Mexico-Arizona State line, thence along U.S. Highway 70 to its junction with U.S. Highway 60, thence along U.S. Highway 60 to its junction with U.S. Highway 80, thence along U.S. Highway 80 to its junction with U.S. Highway 95, thence along U.S. Highway 95 to the U.S.-Mexico International Boundary line, and points in that part of Iowa on and west of a line beginning at the Missouri-Iowa State line, thence along U.S. Highway 63 to its junction with Iowa Highway 149, thence along Iowa Highway 149 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with Iowa Highway 149, thence along Iowa Highway 149 to its junction with U.S. Highway 151, thence along U.S. Highway 151 to its junction with Iowa Highway 13, thence along Iowa Highway 13 to its junction with U.S. Highway 52, thence along U.S. Highway 52 to the Minnesota-Iowa State line; (o) from points in Missouri to points in that part of California on and south and west of a line beginning at the California-Iowa State line, thence along Interstate Highway 5 to its junction with California Highway 89, thence along California Highway 89 to its junction with California Highway 44, thence along California Highway 44 to its junction with U.S. Highway 395, thence along U.S. Highway 395 to the California-Nevada State line, and in that part of Nevada on and south of a line beginning at the Utah-Nevada State line, thence along U.S. Highway 50 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to the California-Nevada State line.

(p) From points in Kansas to points in that part of Alabama on and south of a line beginning at the Alabama-Mississippi State line, thence along U.S. Highway 78 to its junction with U.S. Highway 278, thence along U.S. Highway 278 to the Alabama-Georgia State line; (q) from points in New Mexico, to points in that part of Florida on and east of a line beginning at the Georgia-Florida State line, thence along U.S. Highway 319 to its junction with Florida Highway 369, thence along Florida Highway 369 to the Gulf of Mexico; (r) from points in Texas, to points in that part of North Carolina on and east of a line beginning at the North Carolina-South Carolina State line, thence along U.S. Highway 52 to its junction with U.S. Highway 311, thence along U.S. Highway 311 to its junction with U.S. Highway 220, thence along U.S. Highway 220 to the North Carolina-Virginia State line; (s) from points in Oklahoma, to points in that part of Florida on and east of a line beginning at the Florida-Georgia State line, thence along U.S. Highway 319 to its

junction with Florida Highway 363, thence along Florida Highway 363 to the Gulf of Mexico; (t) from points in that part of Kansas on and south of a line beginning at the Kansas-Missouri State line, thence along Kansas Highway 57 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to its junction with Kansas Highway 37, thence along Kansas Highway 37 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with Kansas Highway 14, thence along Kansas Highway 14 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to its junction with Kansas Highway 184, thence along Kansas Highway 184 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Kansas Highway 27, thence along Kansas Highway 27 to the Kansas-Nebraska State line, to points in Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, Rhode Island, and Vermont.

(u) From points in that part of Colorado on and south of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 24 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 125, thence along Colorado Highway 125 to the Colorado-Wyoming State line, to points in Pennsylvania; (v) from points in that part of Kansas on and south and west of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 24 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Nebraska State line, to points in North Carolina; (w) from points in that part of Kansas on and south of a line beginning at the Kansas-Missouri State line, thence along Kansas Highway 57 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to its junction with Kansas Highway 37, thence along Kansas Highway 37 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with Kansas Highway 14, thence along Kansas Highway 14 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 183, thence along Kansas Highway 183 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to the Kansas-Colorado State line, to points in Maryland; (x) from points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 69 to its junction with Oklahoma Highway 3, thence along Oklahoma Highway 3 to its junction with Oklahoma Highway 13, thence along Oklahoma Highway 13 to its junction with Oklahoma Highway 39, thence along Oklahoma Highway 39 to its junction with Interstate Highway 35, thence along Interstate Highway 35 to the Oklahoma-Kansas State line, to points in California.

(y) From points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Kansas State line, thence along U.S. Highway 177 to its junction with Oklahoma Highway 9, thence along Oklahoma Highway 9 to its junction with U.S. Highway 170, thence along U.S. Highway 170 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to its junction with Oklahoma Highway 3, thence along Oklahoma Highway 3 to its junction with Oklahoma Highway 7, thence along Oklahoma Highway 7 to the Oklahoma-Arkansas State line, to points in Arizona; (z) from points in that part of Texas on and north of a line beginning at the Texas-Arkansas State line, thence along U.S. Highway 67 to its junction with U.S. Highway 90, thence along U.S. Highway 90 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to the U.S.-Mexico International Boundary line, to points in Georgia; (a1) from points in that part of Texas on and north of a line beginning at the Texas-New Mexico State line, thence along Interstate Highway 10 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to the Texas-Louisiana State line, to points in Virginia; (b1) from points in Texas on and west of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 75 to its junction with Interstate Highway 45, thence along Interstate Highway 45 to the Gulf of Mexico, to points in Indiana; (c1) from points in that part of Texas on and south of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 259 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to its junction with Texas Highway 63, thence along Texas Highway 63 to its junction with U.S. Highway 190, thence along U.S. Highway 190 to the Texas-Louisiana State line, to points in West Virginia; (d1) from points in that part of Texas on and north of a line beginning at the Texas-New Mexico State line, thence along Interstate Highway 10 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with Texas Highway 121, thence along Texas Highway 121 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to the Texas-Oklahoma State line, to points in South Carolina.

(e1) From points in that part of Colorado on and west of a line beginning at the Colorado-Wyoming State line, thence along Colorado Highway 71 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Colorado-Kansas State line, and in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 271 to its junction with Texas Highway 19, thence along Texas Highway 19 to its junction with Texas Highway 59, thence along Texas Highway 59 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 77, thence along Texas Highway 488 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to its junction with U.S. Highway 190, thence along U.S. Highway 190 to its junction with Texas Highway 21, thence along Texas Highway 21 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with Texas Highway 316, thence along Texas Highway 316 to the Gulf of Mexico, to points in Kentucky; (f1) from points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Missouri State line, thence along Interstate Highway 44 to its junction with U.S. Highway 277, thence along U.S. Highway 277 to its junction with U.S. Highway 81, thence along U.S. Highway 81 to the Oklahoma-Texas State line, and points in that part of Texas on and east of a line beginning at the U.S.-Mexico International Boundary line, thence along U.S. Highway 83 to its junction with Texas Highway 42, thence along Texas Highway 42 to its junction with U.S. Highway 377, thence along U.S. Highway 377 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to the Texas-Oklahoma State line, to points in Washington.

(g1) From points in that part of Colorado on and south of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 24 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 13, thence along Colorado Highway 13 to the Colorado-Wyoming State line, and in that part of Kansas on and south of a line beginning at the Kansas-Missouri State line, thence along Kansas Highway 57 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to its junction with Kansas Highway 37, thence along Kansas Highway 37 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with Kansas Highway 14, thence along Kansas Highway 14 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to the Kansas-Colorado State line, to points in New York; (h1) from points in that part of Illinois

on and south of a line beginning at the Lake Michigan, thence along U.S. Highway 66 to its junction with U.S. Highway 136, thence along U.S. Highway 136 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Missouri-Illinois State line, points in that part of Oklahoma on and east of Interstate Highway 35, and points in Texas on and east of a line beginning at the Gulf of Mexico, thence along Texas Highway 44 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to its junction with Interstate Highway 35W, thence along Interstate Highway 35W to its junction with Texas Highway 121, thence along Texas Highway 121 to its junction with Interstate Highway 35E, thence along Interstate Highway 35E to its junction with U.S. Highway 75, thence along U.S. Highway 75 to the Texas-Oklahoma State line, to points in Nevada.

(i1) From points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Texas State line, thence along the H. E. Bailey Turnpike to its junction with U.S. Highway 81, thence along U.S. Highway 81 to the Oklahoma-Kansas State line, and in that part of Texas on and east of a line beginning at the Gulf of Mexico, thence along U.S. Highway 75 to its junction with Texas Highway 6, thence along Texas Highway 6 to its junction with Interstate Highway 35W, thence along Interstate Highway 35W to the Oklahoma-Texas State line, to points in Oregon; (j1) from points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Texas State line, thence along the H. E. Bailey Turnpike to its junction with Interstate Highway 44, thence along Interstate Highway 44 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to the Kansas-Oklahoma State line, and in that part of Texas on and east of a line beginning at the U.S.-Mexico International Boundary line, thence along U.S. Highway 281 to its junction with U.S. Highway 81, thence along U.S. Highway 81 to its junction with Interstate Highway 35W, thence along Interstate Highway 35W to the Oklahoma-Texas State line, to points in Idaho.

(k1) From points in that part of Kansas on and west of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 77 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to its junction with U.S. Highway 81, thence along U.S. Highway 81 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to the Kansas-Nebraska State line, and in that part of Nebraska on and west of a line beginning at the Kansas-Nebraska State line, thence along U.S. Highway 83 to its junction with Nebraska Highway 97, thence along Nebraska Highway 97 to its junction with Nebraska Highway 2, thence along Nebraska Highway 2 to its junction with Nebraska Highway 250, thence along Nebraska Highway 250 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with U.S. Highway 385, thence along Nebraska Highway 385 to the South Dakota-Nebraska State line, and in that part of Oklahoma on and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 69 to its junction with U.S. Highway 266, thence along U.S. Highway 266 to its junction with U.S. Highway 64, thence along U.S. Highway 64 to its junction with Oklahoma Highway 82, thence along Oklahoma Highway 82 to its junction with Oklahoma Highway 10, thence along Oklahoma Highway 10 to its junction with Oklahoma Highway 20, thence along Oklahoma Highway 20 to the Oklahoma-Arkansas State line, and in that part of Texas on, west, and north of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 271 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with Texas Highway 121, thence along Texas Highway 121 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with Texas Highway 174, thence along Texas Highway 174 to its junction with Texas Highway 22, thence along Texas Highway 22 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to its junction with Texas Highway 186, thence along Texas Highway 186 to its junction with Texas Highway 497, thence along Texas Highway 497 to the Gulf of Mexico, to points in Tennessee.

(l1) From points in that part of Arkansas on and west of a line beginning at the Arkansas-Texas State line, thence along U.S. Highway 71 to its junction with Arkansas Highway 59, thence along Arkansas Highway 59 to its junction with Arkansas Highway 33, thence along Arkansas Highway 33 to the Arkansas-Oklahoma State line, and in that part of New Mexico on and south of a line beginning at the New Mexico-Arizona State line, thence along Interstate Highway 40 to its junction with U.S. Highway 64, thence along U.S. Highway 64 to the New Mexico-Texas State line, and in that part of Oklahoma on and south of a line beginning at the Oklahoma-Arkansas State line, thence along Oklahoma Highway 33 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to the Oklahoma-Texas State line, to points in Iowa; (m1) from points in that part of Oklahoma on, north, and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 77 to its junction with Oklahoma Highway 7, thence along Oklahoma Highway 7 to its junction with Oklahoma Highway 12, thence along Oklahoma Highway 12 to its junction with Oklahoma Highway 1, thence along Oklahoma Highway 1 to its junction with U.S. Highway 270, thence along U.S. Highway 270 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to its junction with U.S. Highway 266, thence along U.S. Highway 266 to its junction with U.S. Highway 59, thence along U.S. Highway 59 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to the Oklahoma-Arkansas State line, and in that part of Texas on and north of a line beginning at the Texas-New Mexico State line, thence along Interstate Highway 10 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with U.S. Highway 285, thence along U.S. Highway 285 to its junction with Texas Highway 302, thence along Texas Highway 302 to its junction with Texas Highway 181, thence along Texas Highway 181 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 283, thence along U.S. Highway 283 to the Texas-Oklahoma State line, to points in Alabama.

(n1) From points in New Mexico on and west of a line beginning at the New Mexico-Arizona State line, thence along Interstate Highway 40 to its junction with U.S. Highway 84, thence along U.S. Highway 84 to the New Mexico-Texas State line, and in that part of Oklahoma on and south of a line beginning at the Oklahoma-Arkansas State line, thence along Oklahoma Highway 20 to its junction with Oklahoma Highway 82, thence along Oklahoma Highway 82 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to its junction with Oklahoma Highway 33, thence along Oklahoma Highway 33 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to the Oklahoma-Texas State line, to points in Minnesota; (o1) from points in that part of New Mexico on and north of a line beginning at the New Mexico-Texas State line, thence along U.S. Highway 84 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with Interstate Highway 10, thence along Interstate Highway 10 to the New Mexico-Texas State line, and in that part of Oklahoma on and north of a line beginning at the Oklahoma-Texas State line, thence U.S. Highway 66 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to its junction with U.S. Highway 266, thence along U.S. Highway 266 to its junction with Oklahoma Highway 100, thence along Oklahoma Highway 100 to its junction with Oklahoma Highway 82, thence along Oklahoma Highway 82 to its junction with Oklahoma Highway 10, thence along Oklahoma Highway 10 to its junction with Oklahoma Highway 20,

thence along Oklahoma Highway 20 to the Oklahoma-Arkansas State line, and in that part of Texas on and north of U.S. Highway 66, to points in Mississippi; (p1) from points in that part of Louisiana on and west of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 171 to its junction with Louisiana Highway 27, thence along Louisiana Highway 27 to the Gulf of Mexico, to points in that part of Indiana on and north of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 136 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line.

(q1) From points in that part of Louisiana on and west of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 79 to its junction with Louisiana Highway 7, thence along Louisiana Highway 7 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Louisiana Highway 6, thence along Louisiana Highway 6 to its junction with U.S. Highway 171, thence along U.S. Highway 171 to its junction with Louisiana Highway 27, thence along Louisiana Highway 27 to the Gulf of Mexico, to points in that part of Pennsylvania on and west of U.S. Highway 219; (r1) from points in that part of Louisiana on and west of a line beginning at the Louisiana-Arkansas State line, thence along Louisiana Highway 3 to its junction with Louisiana Highway 1, thence along Louisiana Highway 1 to its junction with Louisiana Highway 175, thence along Louisiana Highway 175 to its junction with U.S. Highway 171, thence along U.S. Highway 171 to its junction with Louisiana Highway 27, thence along Louisiana Highway 27 to the Gulf of Mexico, to points in that part of Ohio on and north of a line beginning at the Ohio-Indiana State line, thence along Ohio Highway 49 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Ohio Highway 29, thence along Ohio Highway 29 to its junction with U.S. Highway 33, thence along U.S. Highway 33 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-West Virginia State line; (s1) from points in that part of Texas on and east of a line beginning at the Gulf of Mexico, thence along U.S. Highway 75 to its junction with Texas Highway 6, thence along Texas Highway 6 to its junction with Interstate Highway 35W, thence along Interstate Highway 35W to the Texas-Oklahoma State line, to points in that part of California on and west of a line beginning at the Pacific Ocean, thence along California Highway 74 to its junction with U.S. Highway 395, thence along U.S. Highway 395 to its junction with California Highway 168, thence along California Highway 168 to the California-Nevada State line.

(t1) From points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 75 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with Texas Highway 79, thence along Texas Highway 79 to its junction with U.S. Highway 283, thence along U.S. Highway 283 to its junction with Texas Highway 351, thence along Texas Highway 351 to its junction with U.S. Highway 80, thence along U.S. Highway 80 to its junction with Texas Highway 302, thence along Texas Highway 302 to its junction with U.S. Highway 285, thence along U.S. Highway 285 to its junction with Texas Highway 652, thence along Texas Highway 652 to its junction with Texas Highway 1108, thence along Texas Highway 1108 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to the U.S.-Mexico International Boundary line, to points in that part of Mississippi on and north of a line beginning at the Mississippi-Arkansas State line, thence along Mississippi Highway 322 to its junction with Mississippi Highway 6, thence along Mississippi Highway 6 to its junction with U.S. Highway 78, thence along U.S. Highway 78 to the Alabama-Mississippi State line; (u1) from points in that part of Texas on and north of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 75 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with U.S. Highway 277, thence along U.S. Highway 277 to its junction with U.S. Highway 180, thence along U.S. Highway 180 to its junction with Texas Highway 350, thence along Texas Highway 350 to its junction with U.S. Highway 80, thence along U.S. Highway 80 to the Texas-New Mexico State line, to points in that part of Florida on and east of a line beginning at the Gulf of Mexico, thence along Florida Highway 369 to its junction with U.S. Highway 319, thence along U.S. Highway 319 to the Florida-Georgia State line; (v1) from points in that part of Texas on and east of a line beginning at the Gulf of Mexico, thence along Interstate Highway 45 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to the Texas-Oklahoma State line, to points in that part of Indiana on and north of a line beginning at the Indiana-Illinois State line, thence along Interstate Highway 70 to its junction with Indiana Highway 46, thence along Indiana Highway 46 to its junction with Indiana Highway 7, thence along Indiana Highway 7 to the Indiana-Kentucky State line.

(w1) From points in that part of Texas on and east of a line beginning at the Gulf of Mexico, thence along Interstate Highway 45 to its junction with Texas Highway 94, thence along Texas Highway 94 to its junction with Texas Highway 19, thence along Texas Highway 19 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with Texas Highway 19, thence along Texas Highway 19 to its junction with U.S. Highway 171, thence along U.S. Highway 171 to the Texas-Oklahoma State line, to points in that part of Arizona on and west of a line beginning at the Arizona-Utah State line, thence along U.S. Highway 89 to its junction with U.S. Highway 89 Alternate, thence along U.S. Highway 89 Alternate to its junction with Arizona Highway 71, thence along Arizona Highway 71 to its junction with U.S. Highway 60, thence along U.S. Highway 60 to its junction with U.S. Highway 95, thence along U.S. Highway 95 to the Arizona-California State line; (x1) from points in that part of Missouri on and west of a line beginning at the Missouri-Iowa State line, thence along U.S. Highway 65 to its junction with Missouri Highway 23, thence along Missouri Highway 23 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to its junction with Missouri Highway 13, thence along Missouri Highway 13 to its junction with Missouri Highway 82, thence along Missouri Highway 82 to its junction with Missouri Highway 97, thence along Missouri Highway 97 to its junction with Missouri Highway 37, thence along Missouri Highway 37 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to its junction with U.S. Highway 71 Alternate, thence along U.S. Highway 71 Alternate to its junction with U.S. Highway 71, thence along U.S. Highway 71 to the Missouri-Arkansas State line, to points in that part of Mississippi on and south of U.S. Highway 84; (y1) from points in that part of New Mexico on and south of a line beginning at the New Mexico-Texas State line, thence along U.S. Highway 84 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with Interstate Highway 10, thence along Interstate Highway 10 to the New Mexico-Texas State line, to points in that part of Mississippi on and north of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 82 to its junction with U.S. Highway 49E, thence along U.S. Highway 49E to its junction with Mississippi Highway 322, thence along Mississippi Highway 322 to its junction with Mississippi Highway 1, thence along Mississippi Highway 1 to its junction with US. Highway 49, thence along U.S. Highway 49 to the Mississippi-Arkansas State line.

(z1) From points in that part of Colorado on, north, and east of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 24 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-Wyoming State line, to points in that part of Pennsylvania on and south of a line beginning at the Pennsylvania-Maryland State line, thence along U.S. Highway 219 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 522, thence along U.S. Highway 522 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with U.S.

XUM

Highway 6, thence along U.S. Highway 6 to its junction with Pennsylvania Highway 652, thence along Pennsylvania Highway 652 to the Pennsylvania-New York State line; (a2) from points in that part of Colorado on and north of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 24 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 13, thence along Colorado Highway 13 to the Colorado-Wyoming State line, to points in that part of New York on and east of a line beginning at the New York-Pennsylvania State line, thence along New York Highway 6217 to its junction with New York Highway 242, thence along New York Highway 242 to its junction with U.S. Highway 219, thence along U.S. Highway 219 to its junction with New York Highway 39, thence along New York Highway 39 to its junction with U.S. Highway 20 Alternate, thence along U.S. Highway 20 Alternate to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with New York Highway 14, thence along New York Highway 14 to the Lake Ontario.

(b2) From points in that part of Colorado on and south of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 50 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 789, thence along Colorado Highway 789 to the Wyoming-Colorado State line, to points in that part of Ohio on and south and east of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to its junction with U.S. Highway 68, thence along U.S. Highway 68 to its junction with Ohio Highway 67, thence along Ohio Highway 67 to its junction with Ohio Highway 18, thence along Ohio Highway 18 to its junction with Ohio Highway 4, thence along Ohio Highway 4 to Lake Erie; (c2) from points in that part of Colorado on and south of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 50 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with Colorado Highway 9, thence along Colorado Highway 9 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 13, thence along Colorado Highway 13 to the Colorado-Wyoming State line, to points in that part of Indiana on and south of U.S. Highway 40; (d2) from points in that part of Wyoming on and west of a line beginning at the Wyoming-Montana State line, thence along Wyoming Highway 120 to its junction with Wyoming Highway 789, thence along Wyoming Highway 789 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with Wyoming Highway 71, thence along Wyoming Highway 71 to the Wyoming-Colorado State line, to points in that part of Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 50 to its junction with Indiana Highway 60, thence along Indiana Highway 60 to its junction with Indiana Highway 56, thence along Indiana Highway 56 to the Indiana-Kentucky State line.

(e2) From points in that part of Illinois on and west of a line beginning at the Lake Michigan, thence along U.S. Highway 66 to its junction with U.S. Highway 136, thence along U.S. Highway 136 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Missouri-Illinois State line, to points in that part of Nevada on and south of U.S. Highway 50; (f2) from points in Arkansas on and south of a line beginning at the Arkansas-Oklahoma State line, thence along U.S. Highway 64 to its junction with U.S. Highway 65, thence along U.S. Highway 65 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to the Arkansas-Mississippi State line, to points in that part of Iowa on and west of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 69 to its junction with Interstate Highway 35, thence along Interstate Highway 35 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to its junction with U.S. Highway 65, thence along U.S. Highway 65 to the Iowa-Minnesota State line; (g2) from points in that part of Kansas on and south of a line beginning at the Kansas-Oklahoma State line, thence along Interstate Highway 35 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with Kansas Highway 14, thence along Kansas Highway 14 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to the Kansas-Colorado State line, to points in that part of West Virginia on and east of a line beginning at the West Virginia-Virginia State line, thence along U.S. Highway 50 Alternate to its junction with West Virginia Highway 16, thence along West Virginia Highway 16 to its junction with U.S. Highway 21, thence along U.S. Highway 21 to its junction with Interstate Highway 77, thence along Interstate Highway 77 to the West Virginia-Ohio State line.

(h2) From points in that part of Kansas on and south of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 50 to its junction with U.S. Highway 154, thence along U.S. Highway 154 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with Kansas Highway 47, thence along Kansas Highway 47 to its junction with Kansas Highway 57, thence along Kansas Highway 57 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to the Kansas-Colorado State line, to points in that part of Pennsylvania on and south and east of a line beginning at the Pennsylvania-Ohio State line, thence along U.S. Highway 62 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to the Pennsylvania-New York State line; (i2) from points in that part of Kansas on and west of a line beginning at the Kansas-Oklahoma State line, thence along Interstate Highway 35 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to its junction with Kansas Highway 184, thence along Kansas Highway 184 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Kansas Highway 27, thence along Kansas Highway 27 to the Kansas-Nebraska State line, to points in that part of Kentucky on and south of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 41 Alternate to its junction with U.S. Highway 62, thence along U.S. Highway 62 to its junction with U.S. Highway 68, thence along U.S. Highway 68 to the Kentucky-Ohio State line.

(j2) From points in that part of Kansas on and south and west of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 50 to its junction with U.S. Highway 154, thence along U.S. Highway 154 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to the Kansas-Oklahoma State line, to points in that part of Indiana on and south of U.S. Highway 40; (k2) from points in that part of Kansas on and south of a line beginning at the Kansas-Missouri State line, thence along Kansas Highway 57 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to its junction with Kansas Highway 37, thence along Kansas Highway 37 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with Kansas Highway 14, thence along Kansas Highway 14 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with

U.S. Highway 183, thence along U.S. Highway 183 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to its junction with Kansas Highway 184, thence along Kansas Highway 184 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Kansas Highway 27, thence along Kansas Highway 27 to the Kansas-Nebraska State line, to points in that part of Virginia on and east of Interstate Highway 81. The purpose of this filing is to eliminate the gateway of Wagoner, Okla.

No. MC 83835 (Sub-No. E36), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe* (except oilfield pipe), which is incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operation at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells or which is used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way, (a) from points in Kentucky, Ohio, Pennsylvania, and West Virginia, to points in Arizona, California, New Mexico, Nevada, and Oklahoma; (b) from points in Kentucky and West Virginia, to points in Idaho, Oregon, and Washington; (c) from points in Iowa, Michigan, and Minnesota to points in Arizona and Texas; (d) from points in Indiana, to points in Arizona, California, New Mexico, and Oklahoma; (e) from points in Ohio and Pennsylvania, to points in Texas; (f) from points in Michigan, to points in New Mexico and Oklahoma; (g) from points in Minnesota, to points in Florida; (h) from points in West Virginia, to points in Colorado; (i) from points in Pennsylvania, to points in Utah; (j) from points in the state of Pennsylvania, to points in that part of Colorado on and south of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 24 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 125, thence along Colorado Highway 125 to the Colorado-Wyoming State line.

(k) From points in Indiana to points in that part of Nevada on and west and south of a line beginning at the Utah-Nevada State line, thence along U.S. Highway 50 to its junction with Nevada Highway 8A, thence along Nevada Highway 8A to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with U.S. Highway 95, thence along U.S. Highway 95 to the Oregon-Nevada State line, and in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 75 to its junction with Interstate Highway 45, thence along Interstate Highway 45 to the Gulf of Mexico; (l) from points in that part of Indiana on and south of U.S. Highway 24, and in that part of Ohio on and south of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 36 to its junction with Ohio Highway 4, thence along Ohio Highway 4 to its junction with U.S. Highway 30S, thence along U.S. Highway 30S to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Ohio Highway 585, thence along Ohio Highway 585 to its junction with Interstate Highway 76, thence along Interstate Highway 76 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to its junction with U.S. Highway 422, thence along U.S. Highway 422 to the Pennsylvania-Ohio State line, to points in Utah; (m) from points in Kentucky to points in that part of Colorado on and west of a line beginning at the Colorado-Wyoming State line, thence along Colorado Highway 71 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Colorado-Kansas State line, and that part of Texas on and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 271 to its junction with Texas Highway 19, thence along Texas Highway 19 to its junction with Texas Highway 59, thence along Texas Highway 59 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with Texas Highway 433, thence along Texas Highway 433 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to its junction with U.S. Highway 190, thence along U.S. Highway 190 to its junction with Texas Highway 21, thence along Texas Highway 21 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with Texas Highway 316, thence along Texas Highway 316 to the Gulf of Mexico.

(n) From points in West Virginia to points in that part of Texas on and south and west of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 259 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to its junction with Texas Highway 63, thence along Texas Highway 63 to its junction with U.S. Highway 190, thence along U.S. Highway 190 to the Texas-Louisiana State line, and in that part of Wyoming on and west of a line beginning at the Colorado-Wyoming State line, thence along U.S. Highway 287 to its junction with Wyoming Highway 487, thence along Wyoming Highway 487 to its junction with Wyoming Highway 220, thence along Wyoming Highway 220 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to the Montana-Wyoming State line; (o) from points in Michigan (except the Upper Peninsula), to points in California; (p) from points in Iowa, to points in that part of Arkansas on and west of a line beginning at the Arkansas-Texas State line, thence along U.S. Highway 71 to its junction with Arkansas Highway 59, thence along Arkansas Highway 59 to its junction with Arkansas Highway 33, thence along Arkansas Highway 33 to the Arkansas-Oklahoma State line, and in that part of California on and south of a line beginning at the California-Nevada State line, thence along Interstate Highway 15 to its junction with California Highway 58, thence along California Highway 58 to its junction with California Highway 99, thence along California Highway 99 to its junction with California Highway 180, thence along California Highway 180 to its junction with California Highway 68, thence along California Highway 68 to the Pacific Ocean, and points in that part of Nevada on and south of a line beginning at the Arizona-Nevada State line, thence along U.S. Highway 91 to its junction with Interstate Highway 15, thence along Interstate Highway 15 to the California-Nevada State line, and points in that part of New Mexico on and south of a line beginning at the New Mexico-Texas State line, thence along U.S. Highway 60 to its junction with U.S. Highway 285, thence along U.S. Highway 285 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to the New Mexico-Arizona State line, and points in that part of Oklahoma on and south of a line beginning at the Oklahoma-Arkansas State line, thence along Oklahoma Highway 33 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to the Oklahoma-Texas State line.

(q) From points in Kentucky and West Virginia, to points in Utah; (r) from points in that part of Iowa on and west of a line beginning at the Missouri-Iowa State line, thence along U.S. Highway 63 to its junction with Iowa Highway 149, thence along Iowa Highway 149 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with Iowa Highway 149, thence along Iowa Highway 149 to its junction with U.S. Highway 151, thence along U.S. Highway 151 to its junction with Iowa Highway 13, thence along Iowa Highway 13 to its junction with U.S. Highway 52, thence along U.S. Highway 52 to the Minnesota-Iowa State line, to points in Louisiana; (s) from points in Minnesota, to points in that part of New Mexico on and south of a line beginning at the New Mexico-Texas State line, thence along U.S. Highway 60 to its junction with U.S. Highway 64, thence along U.S. Highway 64 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to the New Mexico-Arizona State line, and in that part of Oklahoma on and south of a line beginning at the Oklahoma-Arkansas

State line, thence along Oklahoma Highway 20 to its junction with Oklahoma Highway 82, thence along Oklahoma Highway 82 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to the Oklahoma-Texas State line; (t) from points in that part of Minnesota on and west of a line beginning at the South Dakota-Minnesota State line, thence along U.S. Highway 16 to its junction with Minnesota Highway 23, thence along Minnesota Highway 23 to its junction with U.S. Highway 59, thence along U.S. Highway 59 to its junction with Minnesota Highway 79, thence along Minnesota Highway 79 to its junction with Minnesota Highway 78, thence along Minnesota Highway 78 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with U.S. Highway 59, thence along U.S. Highway 59 to its junction with Minnesota Highway 1, thence along Minnesota Highway 1 to its junction with Minnesota Highway 219, thence along Minnesota Highway 219 to its junction with Minnesota Highway 89, thence along Minnesota Highway 89 to its junction with Minnesota Highway 11, thence along Minnesota Highway 11 to its intersection with the Warroad River, thence along the Warroad River to Lake of the Woods, to points in Alabama.

(u) From points in that part of Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 50 to its junction with Indiana Highway 60, thence along Indiana Highway 60 to its junction with Indiana Highway 56, thence along Indiana Highway 56 to the Indiana-Kentucky State line, to points in that part of Wyoming on and west of a line beginning at the Wyoming-Colorado State line, thence along Wyoming Highway 71 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with Wyoming Highway 769, thence along Wyoming Highway 769 to its junction with Wyoming Highway 120, thence along Wyoming Highway 120 to the Wyoming-Montana State line; (v) from points in that part of Indiana on and north of a line beginning at the Indiana-Illinois State line, thence along Interstate Highway 70 to its junction with Indiana Highway 46, thence along Indiana Highway 46 to its junction with Indiana Highway 7, thence along Indiana Highway 7 to the Illinois-Kentucky State line, to points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 75 to its junction with Interstate Highway 45, thence along Interstate Highway 45 to the Gulf of Mexico; (w) from points in that part of Indiana on and south of U.S. Highway 40, to points in that part of Colorado on and south of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 50 to its intersection with Interstate Highway 25, thence along Interstate Highway 25 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with Colorado Highway 9, thence along Colorado Highway 9 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 13, thence along Colorado Highway 13 to the Colorado-Wyoming State line; (x) from points in that part of Indiana on and north of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 136 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line, to points in Louisiana on and west of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 171 to its junction with Louisiana Highway 27, thence along Louisiana Highway 27 to the Gulf of Mexico.

(y) From points in Indiana on and south of U.S. Highway 40, to points in Kansas on and south and west of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 50 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to the Kansas-Oklahoma State line; (z) from points in that part of Iowa on and west of U.S. Highway 169, to points in that part of Mississippi on and west of a line beginning at the Mississippi-Tennessee State line, thence along Interstate Highway 55 to its junction with Mississippi Highway 35, thence along Mississippi Highway 35 to its junction with Mississippi Highway 19, thence along Mississippi Highway 19 to the Mississippi-Alabama State line; (aa) from points in that part of Iowa on and west of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 69 to its junction with Interstate Highway 35, thence along Interstate Highway 35 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to its junction with U.S. Highway 65, thence along U.S. Highway 65 to the Iowa-Minnesota State line, to points in that part of Arkansas on and south of a line beginning at the Arkansas-Oklahoma State line, thence along U.S. Highway 64 to its junction with U.S. Highway 65, thence along U.S. Highway 65 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to the Arkansas-Mississippi State line.

(bb) From points in that part of Kentucky on and south of a line beginning at the Illinois-Kentucky State line, thence along U.S. Highway 45 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to its junction with U.S. Highway 60, thence along U.S. Highway 60 to its junction with Mountain Parkway Toll Road, thence along the Mountain Parkway Toll Road to its junction with Kentucky Highway 114, thence along Kentucky Highway 114 to its junction with Kentucky Highway 80, thence along Kentucky Highway 80 to the Virginia-Kentucky State line, to points in that part of Montana on and west of a line beginning at the Montana-Wyoming State line, thence along U.S. Highway 87 to its junction with U.S. Highway 212, thence along U.S. Highway 212 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with U.S. Highway 89, thence along U.S. Highway 89 to its junction with U.S. Highway 91, thence along U.S. Highway 91 to the U.S.-Canada International Boundary line; (cc) from points in that part of Kentucky on and south of Interstate Highway 64, to points in that part of Wyoming on and north of a line beginning at the Wyoming-Utah State line, thence along Interstate Highway 80 to its junction with Wyoming Highway 13, thence along Wyoming Highway 13 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Wyoming Highway 34, thence along Wyoming Highway 34 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with U.S. Highway 26, thence along U.S. Highway 26 to the Wyoming-Nebraska State line.

(dd) From points in that part of Kentucky on and east and south of a line beginning at the Kentucky-Tennessee State line, thence along Alternate U.S. Highway 41 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to its junction with U.S. Highway 68, thence along U.S. Highway 68 to the Kentucky-Ohio State line, to points in that part of Kansas on and west of a line beginning at the Kansas-Oklahoma State line, thence along Interstate Highway 35 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 187, thence along U.S. Highway 187 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to its junction with Kansas Highway 184, thence along Kansas Highway 184 to its junction with Kansas Highway 27, thence along Kansas Highway 27 to the Kansas-Nebraska State line; (ee) from points in that part of Minnesota on and west of a line beginning at the Minnesota-North Dakota State line, thence along U.S. Highway 16 to its junction with Minnesota Highway 23, thence along Minnesota Highway 23 to its junction with Minnesota Highway 19, thence along Minnesota Highway 19 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Minnesota Highway 23, thence along Minnesota Highway 23 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with Minnesota Highway 371, thence along Minnesota Highway 371 to its junction with Minnesota Highway 210, thence along Minnesota Highway 210 to its junction with Minnesota Highway 6, thence along Minnesota Highway 6 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to the U.S.-Canada International Boundary line, to points in Alabama on and south of a line beginning at the Alabama-Mississippi State line, thence along U.S. Highway 82 to its junction with U.S. Highway 80, thence along U.S.

Highway 80 to the Alabama-Georgia State line.

(ff) From points in that part of Minnesota on and east of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 16 to its junction with Minnesota Highway 23, thence along Minnesota Highway 23 to its junction with Minnesota Highway 19, thence along Minnesota Highway 19 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to the U.S.-Canada International Boundary line, to points in that part of California on and south of a line beginning at the California-Nevada State line, thence along Interstate Highway 40 to its junction with California Highway 58, thence along California Highway 58 to its junction with California Highway 99, thence along California Highway 99 to its junction with California Highway 152, thence along California Highway 152 to its junction with California Highway 1, thence along California Highway 1 to its junction with California Highway 17, thence along California Highway 17 to the Pacific Ocean; (gg) from points in Minnesota on and west of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 71 to its junction with Minnesota Highway 72, thence along Minnesota Highway 72 to its junction with Minnesota Highway 11, thence along Minnesota Highway 11 to the U.S.-Canada International Boundary line, to points in that part of Georgia on and south of a line beginning at the Alabama-Georgia State line, thence along Georgia Highway 26 to its junction with Georgia Highway 23, thence along Georgia Highway 23 to its junction with Georgia Highway 21, thence along Georgia Highway 21 to its junction with U.S. Highway 301, thence along U.S. Highway 301 to the South Carolina-Georgia State line.

(hh) From points in Minnesota on and west of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 65 to its junction with U.S. Highway 61, thence along U.S. Highway 61 to its junction with U.S. Highway 53, thence along U.S. Highway 53 to the U.S.-Canada International Boundary line, to points in that part of Mississippi on and south and west of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 80 to its junction with U.S. Highway 49, thence along U.S. Highway 49 to its junction with U.S. Highway 49E, thence along U.S. Highway 49E to its junction with Mississippi Highway 322, thence along Mississippi Highway 322 to the Mississippi-Louisiana State line; (ii) from points in that part of Ohio on and south and east of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to its junction with U.S. Highway 68, thence along U.S. Highway 68 to its junction with Ohio Highway 67, thence along Ohio Highway 67 to its junction with Ohio Highway 18, thence along Ohio Highway 18 to its junction with Ohio Highway 4, thence along Ohio Highway 4 to Lake Erie, to points in that part of Colorado on and south of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 50 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 789, thence along Colorado Highway 789 to the Colorado-Wyoming State line.

(jj) From points in that part of Ohio on and north of a line beginning at the Ohio-Indiana State line, thence along U.S. Highway 36 to its junction with Ohio Highway 29, thence along Ohio Highway 29 to its junction with U.S. Highway 33, thence along U.S. Highway 33 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-West Virginia State line, to points in that part of Louisiana on and west of a line beginning at the Arkansas-Louisiana State line, thence along Louisiana Highway 3 to its junction with Louisiana Highway 175, thence along Louisiana Highway 175 to its junction with U.S. Highway 171, thence along U.S. Highway 171 to its junction with Louisiana Highway 14, thence along Louisiana Highway 14 to its junction with Louisiana Highway 27, thence along Louisiana Highway 27 to the Gulf of Mexico; (kk) from points in that part of Pennsylvania on and west of U.S. Highway 219, to points in that part of Louisiana on and west of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 79 to its junction with Louisiana Highway 7, thence along Louisiana Highway 7 to its junction with Louisiana Highway 6, thence along Louisiana Highway 6 to its junction with U.S. Highway 171, thence along U.S. Highway 171 to its junction with Louisiana Highway 27, thence along Louisiana Highway 27 to the Gulf of Mexico; (ll) from points in that part of Pennsylvania on and west of a line beginning at the Pennsylvania-West Virginia State line, thence along U.S. Highway 219 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 522, thence along U.S. Highway 522 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with Pennsylvania Highway 652, thence along Pennsylvania Highway 652 to the Pennsylvania-New York State line, to points in that part of Colorado on and north and east of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 24 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-Wyoming State line;

(mm) From points in that part of Pennsylvania on and south and east of a line beginning at the Pennsylvania-Ohio State line, thence along U.S. Highway 62 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to the Pennsylvania-New York State line, to points in that part of Kansas on and south of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 160 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to its junction with Kansas Highway 57, thence along Kansas Highway 57 to its junction with Kansas Highway 47, thence along Kansas Highway 47 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 154, thence along U.S. Highway 154 to its junction with U.S. Highway 50, thence along U.S. Highway 50 to the Kansas-Colorado State line; (nn) from points in that part of West Virginia on and east of a line beginning at the West Virginia-Virginia State line, thence along Interstate Highway 77 to its junction with U.S. Highway 21, thence along U.S. Highway 21 to its junction with West Virginia Highway 16, thence along West Virginia Highway 16 to its junction with U.S. Highway 50, thence along U.S. Highway 50 to the West Virginia-Ohio State line, to points in that part of Kansas on and south of a line beginning at the Kansas-Oklahoma State line, thence along Interstate Highway 35 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with Kansas Highway 14, thence along Kansas Highway 14 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to its junction with Kansas Highway 96, thence along Kansas Highway 96 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to the Kansas-Colorado State line. The purpose of this filing is to eliminate the gateway of Wagoner, Okla.

No. MC 95540 (Sub-No. E802), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen fruits, frozen berries, and frozen vegetables,* from those points in North Carolina on and east of a line beginning at the North Carolina-Virginia State line and extending along North Carolina Highway 18 to its junction with North Carolina Highway 115, thence along North Carolina Highway 115 to its junction with Interstate Highway 77, thence along Interstate Highway 77 to the North Carolina-South Carolina State line, to those points in Arizona on and north of a line beginning at the Arizona-California State line and extending along U.S. Highway 80 to its junction with Arizona Highway 84, thence along Arizona Highway 84 to its junction with U.S. Highway 80, thence along U.S. Highway

DEC 1974 V39 #245 XUM

80 to its junction with Arizona Highway 77, thence along U.S. Highway 60 to the Arizona-New Mexico State line. The purpose of this filing is to eliminate the gateway of Washington, Pa.

No. MC 106398 (Sub-No. E75), filed May 31, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings, complete, knocked down, or in sections, including component parts, materials, supplies, and fixtures*, from points in New Jersey, to points in Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Ohio, South Carolina, Tennessee, West Virginia, Wisconsin, and that part of North Carolina on and west of a line beginning at the Atlantic Ocean, thence along North Carolina Highway 117 to junction U.S. Highway 301, thence along U.S. Highway 301 to the North Carolina-Virginia State line. The purpose of this filing is to eliminate the gateway of Hanover, Pa.

No. MC 106398 (Sub-No. E78), filed May 31, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings*, complete, knocked down, or in sections, from points in Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Ohio, Pennsylvania, South Carolina, Tennessee, West Virginia, Wisconsin, and that part of North Carolina on and west of a line beginning at the Atlantic Ocean, thence along North Carolina Highway 117 to junction U.S. Highway 301, thence along U.S. Highway 301 to the North Carolina-Virginia State line, to points in New Jersey. The purpose of this filing is to eliminate the gateway of Hanover, Pa.

No. MC 106398 (Sub-No. E79), filed May 31, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prefabricated houses and buildings, and sections, panels, parts and accessories thereof*, from points in Wisconsin, Michigan, Pennsylvania, Virginia, West Virginia, Ohio, Indiana, and that part of Illinois north of U.S. Highway 50, to points in New Mexico. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 106398 (Sub-No. E81), filed May 31, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings, complete, knocked down, or in sections and component parts; materials, supplies and fixtures*, from points in Wisconsin, Illinois, Michigan, Indiana, Ohio, Pennsylvania, West Virginia, Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, and Louisiana, to points in Nebraska. The purpose of this filing is to eliminate the gateway of Des Moines or Clarinda, Iowa.

No. MC 107515 (Sub-No. E202) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Alan E. Serby, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except commodities in bulk, in tank vehicles), from points in that part of Florida on and east of a line beginning at the Georgia-Florida State line, thence along U.S. Highway 41 to junction U.S. Highway 129, thence along U.S. Highway 129 to junction Florida Highway 339, thence along Florida Highway 339 to junction Florida Highway 24, thence along Florida Highway 24 to the Gulf of Mexico, to points in Alabama, Mississippi, and Louisiana. The purpose of this filing is to eliminate the gateway of Tifton, Ga. The purpose of this correction is to clarify the origin territory.

No. MC 107515 (Sub-No. E263), (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 21, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from Cook, DuPage, Lake, and Will Counties, Ill., and Lake County, Ind., to Memphis, Tenn., and points in Clark, Floyd, Harrison, Perry, and Spencer Counties, Ind., Mississippi, Louisiana, that part of West Virginia on and south of a line beginning at the Kentucky-West Virginia State line, thence along Interstate Highway 64 to Charleston, thence along U.S. Highway 60 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction West Virginia Highway 41, thence along West Virginia Highway 41 to junction West Virginia Highway 15, thence along West Virginia Highway 15 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction West Virginia Highway 28, thence along West Virginia Highway 28 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Virginia-West Virginia State line, and that part of Virginia on and south of a line beginning at the Virginia-West Virginia State line, thence along U.S. Highway 33 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Virginia Highway 29, thence along Virginia Highway 29 to junction Virginia Highway 7, thence along Virginia Highway 7 to the Potomac River. The purpose of this filing is to eliminate the gateway of the plant site of Food Specialties of Kentucky, Division of Oscar Ewing, Inc., in Jefferson County, Ky. The purpose of this correction is to include a destination State which was omitted in the previous publication.

No. MC 107515 (Sub-No. E265) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 76 (except commodities in bulk, in tank vehicles, and hides), from points in Cook, Du Page, Lake, and Will Counties, Ill., and Lake County, Ind., to points in that part of Arkansas on and south of a line beginning at the Arkansas-Tennessee State line, thence along Interstate Highway 40 to junction Interstate Highway 30, thence along Interstate Highway 30 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Arkansas-Oklahoma State line, that part of Oklahoma on and south of U.S. Highway 70, and that part of Texas on and south of U.S. Highway 70. The purpose of this filing is to eliminate the gateway of Adairsville, Ky. The purpose of this correction is to include territorial descriptions which were omitted in the previous publication.

No. MC 107515 (Sub-No. E326) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen edible meats, edible meat products, and frozen by-products* (except commodities in bulk), from points in that part of Iowa on and west of a line beginning at the Iowa-Missouri State line, thence along Iowa Highway 139 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Iowa Highway 141, thence along Iowa Highway 141 to

the Iowa-South Dakota State line, to points in that part of Tennessee on and east of a line beginning at the Tennessee-Georgia State line, thence along U.S. Highway 27 to the Tennessee-Kentucky State line. The purpose of this filing is to eliminate the gateway of Rossville, N.C. The purpose of this correction is to include territorial descriptions which were omitted.

No. MC 107515 (Sub-No. E396) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER December 2, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared dough*, when moving in refrigerated vehicles, from Atlanta, Ga., to points in that part of West Virginia on and east of Interstate Highway 77, and that part of Ohio on and east of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction Ohio Highway 21, thence along Ohio Highway 21 to Lake Erie. The purpose of this filing is to eliminate the gateway of Greensboro, N.C. The purpose of this correction is to clarify the commodity description.

No. MC 107515 (Sub-No. E397) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER December 2, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except commodities in bulk, in tank vehicles), from points in that part of Georgia on and south of a line beginning at the Alabama-Georgia State line, thence along Georgia Highway 62 to junction U.S. Highway 80, thence along U.S. Highway 80 to Savannah Beach, to points in Texas. The purpose of this filing is to eliminate the gateway of Tifton, Ga. The purpose of this correction is to include the destination points.

No. MC 107515 (Sub-No. E398) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER December 2, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in that part of Georgia on and north of a line beginning at the Alabama-Georgia State line, thence along Georgia Highway 18 to junction Georgia Highway 74, thence along Georgia Highway 74 to Macon, thence along U.S. Highway 80 to the Atlantic Ocean, to points in Texas. The purpose of this filing is to eliminate the gateway of Florence, Ala. The purpose of this correction is to include the destination points.

No. MC 107515 (Sub-No. E414) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats*, from points within 5 miles of Albany, Ga. (except Albany), to points in Missouri, Iowa, Minnesota, Wisconsin, Illinois, Indiana, and Michigan. The purpose of this filing is to eliminate the gateway of the plant site of Odom's Sausage Co., at Madison, Tenn. The purpose of this correction is to correct the origin territory.

No. MC 107515 (Sub-No. E415) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats*, from points within 10 miles of Atlanta, Ga. (except Atlanta), to points in Missouri, Iowa, Minnesota, Wisconsin, Illinois, Indiana, and Michigan. The purpose of this filing is to eliminate the gateway of the plant site of Odom's Sausage Co., at Madison, Tenn. The purpose of this correction is to correct the origin territory.

No. MC 107515 (Sub-No. E416) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Atlanta, Ga. 33050. Applicant's representative: Alan E. Serby, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats*, from points that are (a) within 5 miles of Macon, Ga. (except Macon), and (b) within 5 miles of Griffin, Ga. (except Griffin), to points in Minnesota, Iowa, Missouri, Wisconsin, Illinois, Michigan, and Indiana. The purpose of this filing is to eliminate the gateway of the plant site of Odom's Sausage Co., at Madison, Tenn. The purpose of this correction is to correct the origin territory.

No. MC 111545 (Sub-No. E519) (Correction), filed June 2, 1974, published in the FEDERAL REGISTER November 19, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts*, and *supplies* moving in connection therewith, (1) between points in that part of Alabama within 175 miles of Chattanooga, Tenn., and on and north of a line beginning at the Alabama-Mississippi State line, thence along U.S. Highway 82 to Tuscaloosa, thence along U.S. Highway 11 to Birmingham, thence along U.S. Highway 280 to the Georgia-Alabama State line, on the one hand, and, on the other, points in that part of Texas on, west, and south of a line beginning at the Texas-Arkansas State line, thence along U.S. Highway 59 to Houston, thence along U.S. Highway 75 to Galveston; (2) between points in that part of Alabama within 175 miles of Chattanooga, Tenn., and on and north of U.S. Highway 78, on the one hand, and, on the other, points in Texas; and (3) between points in that part of Alabama within 175 miles of Chattanooga, Tenn., on and north of a line beginning at the Alabama-Georgia State line, thence along U.S. Highway 80 to Montgomery, thence along U.S. Highway 82 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in that part of Texas on, south, and west of a line beginning at the Texas-Arkansas State line, thence along U.S. Highway 59 to Lufkin.

Thence along Texas Highway 94 to Trinity, thence along Texas Highway 19 to Huntsville, along Texas Highway 30 to Bryan, thence along Texas Highway 21 to junction U.S. Highway 290, thence along U.S. Highway 290 to Austin, thence along U.S. Highway 183 to Cuero, thence along U.S. Highway 87 to Port Lavaca, restricted in (1), (2), and (3) above to the transportation of commodities which are transported on trailers, and restricted in (1), (2), and (3) above against the transportation of machinery, equipment, material, and supplies used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, materials, equipment, and supplies used in or in connection with the construction, operation, repair, servicing, and picking up thereof. The purpose of this filing is to eliminate the gateway of points in that part of Mississippi within 175 miles of Chattanooga, Tenn. The purpose of this correction is to clarify the destination points.

No. MC 111545 (Sub-No. E520) (Correction), filed June 2, 1974, published in the FEDERAL REGISTER November 20, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery*,

tools, parts, and supplies moving in connection therewith; (1) from points in Iowa, to points in Mercer, Monroe, Wyoming, Summers, McDowell, Pocahontas, and Greenbrier Counties, W. Va.; and (2) from points in that part of Missouri on and north of a line beginning at the Minnesota-Kansas State line, thence along U.S. Highway 54 to Nevada, thence along U.S. Highway 71 to junction Missouri Highway 52, thence along Missouri Highway 52 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Missouri-Illinois State line, to points in Mercer, Monroe, Wyoming, Summers, McDowell, Pocahontas, and Greenbrier Counties, W. Va., restricted in (1) and (2) above to the transportation of machinery and contractors' equipment and commodities which are transported on trailers. The purpose of this filing is to eliminate the gateways of Peoria or Decatur, Ill., and points in that part of Iowa within 380 miles of Ames, Iowa. The purpose of this correction is to clarify the territorial description.

No. MC 111545 (Sub-No. E537)' (Correction), filed May 30, 1974, published in the FEDERAL REGISTER November 18, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Valves, hydrants, indicator posts, floor stands, fittings, sleeves, and covers*, the transportation of which, because of size or weight, requires the use of special equipment (except agricultural machinery and implements, other than hand, as defined by the Commission), (1) from points in Florida to points in Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming; (2) from points in Florida to points in that part of California north and west of a line beginning at the California-Arizona State line, thence along U.S. Highway 95 to junction California Highway 78, thence along California Highway 78 to junction California Highway 111, thence along California Highway 111 to Calexico; and (3) from points in that part of Florida on and east of a line beginning at the Florida-Georgia State line, thence along U.S. Highway 319 to Wakulla, thence along Florida Highway 363 to St. Marks, to points in Arizona and Colorado. The purpose of this filing is to eliminate the gateways of points in that part of Georgia within 175 miles of Chattanooga, Tenn., and Anniston, Ala. The purpose of this correction is to include destination states which were omitted in the previous publication.

No. MC 111956 (Sub-No. E9) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER November 14, 1974. Applicant: SUWAK TRUCKING COMPANY, 1105–15 Fayette Street, Washington, Pa. 15301. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper cartons, paper sheets, cullet, and tin plate*, from points in that part of West Virginia on and south of West Virginia Highway 50, to points in Allegheny and Westmoreland Counties, Pa., and *rejected or refused shipments of paper cartons, paper sheets, cullet, and tin plate*, from points in Allegheny and Westmoreland Counties, Pa., to points in that part of West Virginia on and south of West Virginia Highway 50. The purpose of this filing is to eliminate the gateway of Connellsville, Pa. The purpose of this correction is to include rejected and refused shipments on return.

No. MC 111956 (Sub-No. E14) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER November 14, 1974. Applicant: SUWAK TRUCKING COMPANY, 1105–15 Fayette Street, Washington, Pa. 15301. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Corrugated fibreboard boxes and parts thereof*, between points in that part of Ohio on and south of U.S. Highway 40, on the one hand, and, on the other, points in that part of New York on and south of U.S. Highway 6, and in New Jersey and Delaware. The purpose of this filing is to eliminate the gateway of Connellsville-McKees Rocks, Pa. The purpose of this correction is to include points in New Jersey and Delaware.

No. MC 112822 (Sub-No. E177), (Correction), filed June 3, 1974, published in the FEDERAL REGISTER November 13, 1974. Applicant: BRAY LINES, INC., P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Robert A. Stone (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in containers, from Oklahoma City, Okla., to points in Alabama on, north, and east of a line extending from the Alabama-Tennessee State line along U.S. Highway 43 to Grove Hill, thence along U.S. Highway 84 to Alabama Highway 41, thence along Alabama Highway 41 to the Alabama-Florida State line, and ponts in Tennessee east of Tennessee Highway 22. The purpose of this filing is to eliminate the gateway of Coffeyville, Kans. The purpose of this correction is to correct the origin points.

No. MC 114211 (Sub-No. E107), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, between points in Colorado, on the one hand, and, on the other, points in that part of Oklahoma on and east of Oklahoma Highway 136, and that part of Texas on and east of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 62 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction Texas Highway 16, thence along Texas Highway 16 to junction Texas Highway 285, thence along Texas Highway 285 to junction U.S. Highway 281, thence along U.S. Highway 281 to the International Boundary line between the United States and Mexico. The purpose of this filing is to eliminate the points in Kansas.

No. MC 114211 (Sub-No. E110), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, between points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 31, thence along Texas Highway 31 to junction Interstate Highway 45, thence along Interstate Highway 45 to junction Texas Highway 14, thence along Texas Highway 14 to junction Texas Highway 6, thence along Texas Highway 6 to junction Texas Highway 21, thence along Texas Highway 21 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico, on the one hand, and, on the other, points in South Dakota, Minnesota, Nebraska, Iowa, and Illinois. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E112), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors' equipment and supplies*, from points in that part of Nebraska on and north of Interstate Highway 80 to points in that part of North Carolina on and east of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 17 to junction U.S. Highway 70, thence along U.S. Highway 70 to Atlanta, and that part of Wisconsin on and north of U.S. Highway 10, restricted to the transportation of self-propelled vehicles (except motor vehicles as defined in Section 203(a)(13) of the Interstate Commerce Act and commodities moving in driveaway service), equipment designed for use in conjunction

with self-propelled vehicles (except tank semi-trailers), and parts and attachments for self-propelled vehicles and equipment designed for use in conjunction therewith. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E113), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories, and attachments*, between points in that part of Nebraska on, north, and west of a line beginning at the Wyoming-Nebraska State line, thence along Interstate Highway 80 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-South Dakota State line, on the one hand, and, on the other, points in Ohio, New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, Rhode Island, Pennsylvania, New Jersey, Delaware, Maryland, West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, that part of Michigan on, north, and east of a line beginning at Muskegon, thence along Interstate Highway 96 to junction U.S. Highway 131, thence along U.S. Highway 131 to the Michigan-Indiana State line, that part of Illinois on, north, and east of a line beginning at the Wisconsin-Illinois State line, thence along Illinois Highway 26 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction Illinois Highway 173, thence along Illinois Highway 173 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Illinois Highway 120, thence along Illinois Highway 120 to Waukegan, Ill., that part of Wisconsin on, north, and west of a line beginning at the Iowa-Wisconsin State line.

Thence along U.S. Highway 18 to junction Wisconsin Highway 39, thence along Wisconsin Highway 39 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction Wisconsin Highway 81, thence along Wisconsin Highway 81 to junction Wisconsin Highway 69, thence along Wisconsin Highway 69 to the Wisconsin-Illinois State line, that part of Indiana on and east of a line beginning at the Michigan-Indiana State line, thence along Indiana Highway 19 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction Indiana Highway 15, thence along Indiana Highway 15 to junction Indiana Highway 35, thence along Indiana Highway 35 to junction Indiana Highway 28, thence along Indiana Highway 28 to the Indiana-Ohio State line, that part of Kentucky on and east of Interstate Highway 75, that part of Tennessee on and east of a line beginning at the Kentucky-Tennessee State line, thence along Interstate Highway 75 to junction U.S. Highway 129, thence along U.S. Highway 129 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Georgia-Tennessee State line, and that part of Alabama on and south of a line beginning at the Alabama-Georgia State line, thence along Alabama Highway 48 to junction Alabama Highway 9, thence along Alabama Highway 9 to junction U.S. Highway 80, thence along U.S. Highway 80 to Interstate Highway 65, thence along Interstate Highway 65 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Alabama-Mississippi State line. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 114211 (Sub-No. E114), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements, other than hand*, as described in Section 1(b) of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *parts therefore*, when their transportation is incidental to the transportation of machinery and implements, from points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 65 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 137, thence along Iowa Highway 137 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line, to points in that part of Kansas on and west of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 183 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateways of Ottumwa, Iowa, and Beatrice, Nebr.

No. MC 114211 (Sub-No. E115), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery, agricultural implements, and parts therefore* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from Tulsa, Okla., to the District of Columbia, Las Cruces, Lordsburg, and Deming, N. Mex., El Paso, Dallas, Ft. Worth, Houston, Galveston, Abilene, Sweetwater, Big Springs, Midland, and Odessa, Tex., and points in California, Arizona, Nebraska, Iowa, Wisconsin, North Carolina, Virginia, Maryland, and New Jersey. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E117), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between points in that part of South Dakota on and south of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 12 to junction South Dakota Highway 25, thence along South Dakota Highway 25 to junction South Dakota 20, thence along South Dakota Highway 20 to junction South Dakota Highway 45, thence along South Dakota Highway 45 to junction U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Wyoming State line, on the one hand, and, on the other, points in that part of Minnesota on and north of a line beginning at the South Dakota-Minnesota State line, thence along U.S. Highway 12 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Minnesota-Wisconsin State line. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and points within 25 miles thereof.

No. MC 114211 (Sub-No. E119), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors' equipment and supplies*, from points in that part of Nebraska on and north of U.S. Highway 20, to points in North Carolina, South Carolina, that part of Georgia on and east of a line beginning at the North Carolina-Georgia State line, thence along Georgia Highway 11 to junction U.S. Highway 129, thence along U.S. Highway 129 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction Georgia Highway 257, thence along Georgia Highway 257 to junction Georgia Highway 62, thence along Georgia Highway 62 to the Georgia-Alabama State line, that part of Alabama on, south, and east of a line beginning at the Georgia-Alabama State line, thence along Alabama Highway 62 to junction U.S. Highway 431, thence

along U.S. Highway 431 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line, that part of Florida on and east of U.S. Highway 231, and to that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 54 to junction Wisconsin Highway 35, thence along Wisconsin Highway 35 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction Interstate Highway 94, thence along Interstate Highway 94 to Milwaukee, restricted to the transportation of self-propelled vehicles (except motor vehicles as defined in Section 203(a)(13) of the Interstate Commerce Act and commodities moving in driveaway service), equipment designed for use in conjunction with self-propelled vehicles (except tank semi-trailers), and parts and attachments for self-propelled vehicles, and equipment designed to be used in conjunction therewith. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E120), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors' equipment and supplies*, from points in Kansas to points in the Upper Peninsula of Michigan, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 35 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 41, thence along U.S. Highway 41 to Green Bay, restricted to the transportation of self-propelled vehicles (except motor vehicles as defined in Section 203(a)(13) of the Interstate Commerce Act and commodities moving in driveaway service), equipment designed for use in conjunction with self-propelled vehicles (except tank semi-trailers), and parts and attachments for self-propelled vehicles, and equipment designed for use in conjunction therewith. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E121), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors' equipment and supplies*, from points in Nebraska to points in Maine, Vermont, New Hampshire, the Upper Peninsula of Michigan, and that part of New York on and east of a line beginning at the International Boundary line between the United States and Canada, thence along New York Highway 30 to junction New York Highway 28, thence along New York Highway 28 to junction Interstate Highway 27, thence along Interstate Highway 27 to junction New York Highway 7, thence along New York Highway 7 to the New York-Vermont State line, restricted to the transportation of self-propelled vehicles (except motor vehicles as defined in Section 203(a)(13) of the Interstate Commerce Act and commodities moving in driveaway service), equipment designed for use in conjunction with self-propelled vehicles (except tank semi-trailers), and parts and attachments for self-propelled vehicles, and equipment designed for use in conjunction therewith. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E124), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which because of size or weight require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from points in that part of Nebraska on and east of U.S. Highway 77 to points in Arizona and that part of California on, south, and west of a line beginning at the Arizona-California State line, thence along U.S. Highway 66 to junction California Highway 58, thence along California Highway 58 to junction California Highway 41, thence along California Highway 41 to the Pacific Ocean. The purpose of this filing is to eliminate the gateways of points in Kansas, and Claremore, Okla.

No. MC 114457 (Sub-No. E151), filed November 22, 1974. Applicant: DART TRANSIT COMPANY, 780 North Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such paper and paper articles* as are paper mill products and supplies (except commodities in bulk), from the facilities of Hudson Pulp & Paper Company at Pine Bluff, Ark., to Chicago, Ill., restricted to the transportation of shipments originating at the above-described facilities. The purpose of this filing is to eliminate the gateway of Hammond, Ind.

No. MC 114457 (Sub-No. E152), filed November 22, 1974. Applicant: DART TRANSIT COMPANY, 780 North Prior Avenue, St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such newsprint, printing paper, and groundwood paper*, in rolls, as are paper mill products and supplies (except commodities in bulk), from Minneapolis, Minn., to Hamilton, Ohio, and Hammond, Ind., restricted to the transportation of traffic having a prior movement by rail or water. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 115331 (Sub-No. E7) (Correction), filed May 6, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: TRUCK TRANSPORT INCORPORATED, 230 St. Clair Ave., East St. Louis, Ill. 62201. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime and limestone products* (except dolomite), in bulk, from Chicago, Ill., to points in South Dakota, Nebraska, Kansas, Louisiana, Oklahoma, Colorado, Texas, Wyoming, Arkansas, points in Montana south of U.S. Highway 2 and on and west of Montana Highway 232. The purpose of this filing is to eliminate the gateways of Davenport, Iowa, Hannibal, Kansas City, and Ste. Genevieve, Mo. The purpose of this correction is to clarify the territorial description.

No. MC 115331 (Sub-No. E15) (Correction), filed May 6, 1974, published in the FEDERAL REGISTER November 21, 1974. Applicant: TRUCK TRANSPORT, INC., 230 St. Clair Ave., East St. Louis, Ill. 62201. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (3) *Lime* (except lime used for agricultural purposes), in bulk, from Gibsonburg, Ohio, to points in Oklahoma, Louisiana, Arizona, New Mexico, and Texas (except Houston and points within 50 miles thereof) (Limedale, Ark.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to correct the origin point in (3) above. The remainder of this letter-notice remains as previously published.

No. MC 115331 (Sub-No. E16) (Correction), filed May 6, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: TRUCK TRANSPORT, INC., 230 St. Clair Ave., East St. Louis, Ill. 62201. Applicant's representative: E. Stephen Heisley, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime* (except lime used for agricultural purposes), in bulk, from Hannibal, Mo., and Marblehead and Quincy, Ill., to points in Florida, points in Alabama and Mississippi on and south of U.S. Highway 78, and points in Georgia on and south of Interstate Highway 20. The purpose of this filing is to eliminate the gateways of Limedale, Ark., and Roberta, Ala. The purpose of this correction is to clarify the origin points.

No MC 115603 (Sub-No. 82), filed May 20, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipe lines, (2) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-ways; and (3) *Earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies and pipe* incidental to, used in or in connection with (2) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in North Dakota on and west of a line beginning at the United States-Canadian International Boundary line and extending along North Dakota Highway 30 thru York, and Medina to Lehr, thence along unnumbered highway to Ashley, and thence along North Dakota Highway 3 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in Morton, Stevens, Seward, and Meade Counties, Kansas, between points in Kansas on and south of a line beginning at the Colorado-Kansas State line and extending east along U.S. Highway 160 to its junction with U.S. Highway 83, thence east on Kansas Highway 144 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to Dodge City, thence southeast on U.S. Highway 154 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 281, thence south along U.S. Highway 281 to its junction with U.S. Highway 160, thence east along U.S. Highway 160 to its junction with Kansas State Highway 49, thence south along Kansas State Highway 49 to its junction with U.S. Highway 166, thence east along U.S. Highway 166 to its junction with U.S. Highway 77 at Arkansas City, thence south along U.S. Highway 77 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in North Dakota on, north, and west of a line beginning at the Montana-North Dakota State line and extending east along U.S. Interstate Highway 2 to its junction with North Dakota State Highway 8 to Stanley, thence north on North Dakota State Highway 8 to the United States-Canadian International Boundary line. The purpose of this filing is to eliminate the gateway of points in Texas.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 167]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 13, 1974.

The following are notices of filing of application; except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 921 (Sub-No. 27TA), filed December 4, 1974. Applicant: DEAN TRUCK LINE, INC., P.O. Drawer 631 (Fulton Drive), Corinth, Miss. 38834. Applicant's representative: A. Doyle Cloud, Jr., 2008 Clark Tower, 5100 Poplar Avenue, Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined in 17 M.C.C. 467, livestock, commodities in bulk, and articles which because of size or weight require special equipment), (1) between Tupelo, Miss., and the Alabama-Mississippi State line near Tremont, Miss.: From Tupelo over U.S. Highway 78 to Alabama State line and return over the same route, serving all intermediate points and their commercial zones, and the off-route points of Mantachie and Marietta, Miss., and their commercial zones, in connection with applicant's existing regular route between Corinth and Tupelo, Miss., over U.S. Highway 45 and the applied for route herein; (2) between Belmont, Miss., and the junction of Mississippi Highway 25 and U.S. Highway 78 at or near Fulton, Miss.: From Belmont over Mississippi Highway 25 to the intersection of Mississippi Highway 25 and U.S. Highway 78 as an alternate route for operating convenience only; and (3) between Red Bay, Ala., and Tremont, Miss.: From Red Bay, Ala., over Mississippi Highway 23 to Tremont, Miss., and return over the same route, as an alternate route for operating convenience only, for 180 days.

NOTE.—Applicant intends to tack the authority here applied for with all regular route authority held by it under Docket MC 921 and would interline primarily at Tupelo, Miss., Memphis, Tenn., and terminal points. Supporting shippers: There are approximately 37 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Floyd A. Johnson, Interstate Commerce Commission, Bureau of Operations, 435 Federal Office Building, 167 North Main Street, Memphis, Tenn. 38103.

No. MC 106644 (Sub No. 199TA), filed December 3, 1974. Applicant: SUPERIOR TRUCKING COMPANY, 2770 Peyton Road NW., Atlanta, Ga. 30318. Applicant's representative: W. Randall Tye, Attorney at Law, 1400 Candler Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Switch gears, circuit breakers, bus barsystems, and rectifiers*, which because of size or weight require special equipment, from Camden, New Jersey, and Philadelphia, Pennsylvania, to points in the United States, including Alaska but excluding Hawaii, restricted to the transportation of traffic originating at the plant sites, storage facilities, and shipping facilities of the General Electric Company at Camden, New Jersey, and Philadelphia, Pennsylvania. Supporting shipper: General Electric Company, 6901 Elmwood Avenue, Philadelphia, Pennsylvania 19142. Send protests to: District Supervisor, William L. Scroggs, 1252 W. Peachtree St. NW., Room 546, Atlanta, Ga. 30309.

No. MC 107403 (Sub No. 925TA), filed December 9, 1974. Applicant: MATLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a *common carrier, by* motor vehicle, over irregular routes, transporting: *Synthetic plastics*, dry, in bulk, from the plantsite of Georgia Pacific Corporation at or near Plaquemine, La., to points in Arkansas, Arizona, California, Colorado,

Delaware, Florida, Iowa, Kentucky, Massachusetts, Mississippi, Missouri, North Carolina, New Jersey, Ohio, Oklahoma, Oregon, Pennsylvania, Tennessee, and Texas, for 180 days. Supporting shipper: Georgia Pacific Corporation, P.O. Box 629, Plaquemine, La. 70764 (G. K. Hendrix, Traffic Analyst). Send protests to: Ross A. Davis, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Arch Street, Room 3238, Philadelphia, Pa. 19106.

No. MC 107496 (Sub-No. 976TA), filed December 2, 1974. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from points in Missouri (except Birds Point and points within four miles, Kansas City, LaGrange, Malden, Palmyra, Selma and points within five miles, South River, Sugar Creek, and Clark County, Mo.), to points in Illinois, for 180 days. Supporting shipper: Texas Gas Industrial, P.O. Box 37, Barnhart, Mo. 63012. Send protests to: Herbert W. Allen, District Supervisor Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 107496 (Sub-No. 977TA), filed December 5, 1974. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Inedible tallow, animal feeding fats, and feed supplements*, in bulk, from points in Sarpy County, Nebr., to points in Iowa, Kansas, Minnesota, Missouri, and South Dakota, for 180 days. Supporting shipper: National By-Products, P.O. Box 7187, Omaha, Nebr. 68107. Send protests to: Herbert W. Allen, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 108207 (Sub-No. 411TA), filed December 9, 1974. Applicant: FROZEN FOOD EXPRESS, INC., 318 Cadiz Street, P.O. Box 5888, Dallas, Tex. 75222. Applicant's representative: J. B. Ham (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese and commodities* dealt in by retail gift shops or retail curio shops, when moving in mixed loads with cheese, from Monroe, Wis., to points in Missouri, Arizona, and California, for 180 days. Supporting shipper: Swiss Colony Stores, Inc., 1112 7th Avenue, Monroe, Wis. 53566. Send protests to: District Supervisor Gerald T. Holland, Interstate Commerce Commission, Bureau of Operations, 1100 Commerce Street, Room 13C12, Dallas, Tex. 75202.

No. MC 109649 (Sub-No. 21TA), filed December 10, 1974. Applicant: L. P. TRANSPORTATION, INC., Cross & Main Streets, Chester, N.Y. 10918. Applicant's representative: John L. Alfano, 550 Mamaroneck Avenue, Harrison, N.Y. 10528. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquefied natural gases*, in bulk, (1) from Chattanooga, Tenn., to Charlotte, N.C., and West Conshohocken, Pa.; and (2) from Roanoke, Va., to West Conshohocken, Pa., for 180 days. Supporting shipper: South Jersey Gas Co., William C. Bingham, Route 54, Folsom, N.J. 08037. Send protests to: Robert A. Radler, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 New Federal Building, Albany, N.Y. 12207.

No. MC 114097 (Sub-No. 5TA), filed December 9, 1974. Applicant: NIEDFELDT TRUCKING SERVICE, INC., 821 South Front Street, La Crosse, Wis. 54601. Applicant's representative: Fred C. Niedfeldt (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Empty metal beverage containers*, from the plant site of the Continental Can Co., La Crosse, Wis., and the G. Heileman Brewing Co., Inc., warehouse, La Crosse, Wis., to the G. Heileman Brewing Co., Inc., Cincinnati, Ohio, Newport, Ky., and Evansville, Ind., for 180 days. Supporting shipper: G. Heileman Brewing Co., Inc., 926 South 3rd Street, La Crosse, Wis. 54601. Send protests to: Barney L. Hardin, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 139 W. Wilson St., Room 202, Madison, Wis. 53703.

No. MC 116300 (Sub-No. 16TA), filed December 6, 1974. Applicant: NANCE AND COLLUMS, INC., P.O. Drawer J, Fernwood, Miss. 39635. Applicant's representative: Harold D. Miller, Jr., 700 Petroleum Building, P.O. Box 22567, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips, sawdust, wood shavings, and other scrap waste lumber materials*, (1) from the facilities of American Box Company, Division of Altamil Corp. at or near Fernwood, Miss., to Elizabeth, DeRidder, and Bastrop, La., and Mobile, Ala.; and (2) from the facilities of Great Southern Wirebound Box Company at or near Magnolia, Miss., to Elizabeth, DeRidder, Bastrop, and New Orleans, La.; and Mobile, Ala., for 180 days. Supporting shippers: American Box Company, Division of Altamil Corp., P.O. Box 248, Fernwood, Miss. 39635, and Great Southern Wirebound Box Co., P.O. Box 229, Magnolia, Miss. 39652. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 212, 145 East Amite Building, Jackson, Miss. 39201.

No. MC 117068 (Sub-No. 35TA), filed December 5, 1974. Applicant: MIDWEST SPECIALIZED TRANSPORTATION, INC., P.O. Box 6418, North Highway 63, Rochester, Minn. 55901. Applicant's representative: Paul F. Sullivan, 711 Washington Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer spreaders, lift trucks, front-end loaders, and solid waste compactors* (restricted against the transportation of self-propelled vehicles each weighing 15,000 lbs. or more) on flat-bed trailers and with winch-equipped tractors from the plants and other facilities of TCI, Inc., located at Benson, Minn., and Yankton, South Dakota, to points in Alabama, Arizona, California, Delaware, Florida, Georgia, Indiana, Louisiana, Maine, Maryland, New York, Michigan, Mississippi, New Jersey, North Carolina, Pennsylvania, Texas, Virginia, Utah, and Washington, for 180 days. Supporting shipper: TCI, Inc., W. Hwy. 12, Benson, Minnesota 56215. Send protests to: District Supervisor, A. N. Spath, Interstate Commerce Commission, Bureau of Operations, 414 Federal Building & U.S. Court House, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 119493 (Sub-No. 132TA), filed December 9, 1974. Applicant: MONKEM COMPANY, INC., West 20th Street Road, P.O. Box 1196, Joplin, Mo. 64801. Applicant's representative: J. J. Knotts, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods* (unfrozen), from Princeville and Hoopeston, Ill., to points in the United States in and East of Wisconsin, Iowa, Missouri, Kansas, Oklahoma, and Texas, for 180 days. Supporting shipper: Joan of Ark Company, 2231 W. Altorfer Drive, Peoria, Ill. 61614. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Federal Office Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 119619 (Sub-No. 78TA), filed December 5, 1974. Applicant: DISTRIBUTORS SERVICE CO., 2000 West 43rd Street, Chicago, Ill. 60609. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, and meat by-products and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsites and storage facilities of Equity Meats Corp., Ohio Division, Grant Road and Interstate Highway 75, North Baltimore, Ohio, to Jamestown, Rochester, Buffalo, and Mount Morris, N.Y.; Pittsburgh, Carnegie, and Erie, Pa.; and Linden, Mich.; and (2) *Meats*, fresh and frozen, and *materials and supplies* used in the manufacture, preparation, processing, selling, and distribution of the commodities shown in (1) above, from the destination

points named in (1) above, to the plant-sites and storage facilities of Equity Meats Corp., Ohio Division, Grant Road and Interstate Highway 75, North Baltimore, Ohio, for 180 days. Supporting shipper: James Temprano, Director of Transportation, Equity Meats Corp., Ohio Division, Interstate 75 and Grant Road, North Baltimore, Ohio 45872. Send protests to: Robert G. Anderson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Building, 219 S. Dearborn Street, Room 1086, Chicago, Ill. 60604.

No. MC 124328 (Sub-No. 68TA), filed December 4, 1974. Applicant: BRINK'S INCORPORATED, 234 E. 24th Street, Chicago, Ill. 60616. Applicant's representative: Chandler L. van Orman, 704 Southern Building, 15th & H Streets NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Silver bullion*, from Laredo, Tex., to Newark, N.J., and New York, N.Y., for 180 days. Supporting shipper: American Smelting & Refining Company, Charles W. Kane, Traffic Manager, 120 Broadway, New York, N.Y. 10005. Send protests to: District Supervisor Richard K. Shullaw, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 210 S. Dearborn Street, Room 1086, Chicago, Ill. 60604.

No. MC 127811 (Sub-No. 1TA), filed December 6, 1974. Applicant: BRYNWOOD TRANSFER, INC., 175 8th Avenue SW., New Brighton, Minn. 55112. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Precast pre-stressed concrete products*, which because of unusual size or weight require special handling and the use of special equipment, and (2) *related parts and equipment* when transported in the same vehicle at the same time with the commodities described in (1) above, from Osseo, Minnesota, to Chippewa Falls, Wisconsin, for 180 days. Supporting shipper: Bladhome Bros., Pre-Stressed, Division of Bladhome Bros. Culvert Co., Box H, Osseo, Minnesota 55369. Send protests to: District Supervisor Raymond T. Jones, Interstate Commerce Commission, Bureau of Operations, Room 414, Federal Building & U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minnesota 55401.

No. MC 127811 (Sub-No. 2TA), filed December 6, 1974. Applicant: BRYNWOOD TRANSFER, INC., 175 8th Avenue SW., New Brighton, Minn. 55112. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *bulk storage tanks and smokestacks*, which because of unusual size or weight require special handling and the use of special equipment, and (2) related parts and equipment when transported in the same vehicles at the same time with the commodities described in (1) above, from the plant site of Arrow Tank and Engineering Company located at Cambridge, Minn., to points in Iowa, North Dakota, South Dakota, Wisconsin, and the Upper Peninsula of Michigan, for 180 days. Supporting shipper(s): Arrow Tank and Engineering Co., 8950 Evergreen Blvd., Minneapolis, Minn. Send protests to: Raymond T. Jones, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 414, Federal Building & U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minn. 55401.

No. MC 128078 (Sub-No. 4TA), filed December 6, 1974. Applicant: MICHAEL VALIHORA, 3050 West Fort Street, Detroit, Mich. 48216. Applicant's representative: James P. Tryand, 111 S. Main Street, Ann Arbor, Mich. 48108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (1) between points in Canada via ports of entry on the United States-Canada International Boundary in the state of Minnesota, Michigan, New York, Vermont, New Hampshire, and Maine, on the one hand, and, on the other, points in Connecticut, Illinois, Indiana, Iowa, Kentucky, Maryland, Maine, Massachusetts, Michigan (Lower Peninsula), Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Vermont, Virginia, West Virginia, and Wisconsin.

NOTE.—This request duplicating areas presently authorized seeks use of all ports of entry in the named states; present authority is limited to movement via port of entry at or near Detroit and Port Huron, Mich., and Buffalo and Niagara Falls, N.Y., (2) between points in Canada via ports of entry on the United States-Canada International Boundary in the states of Minnesota, Michigan, New York, Vermont, New Hampshire, and Maine, on the one hand, and, on the other, points in Alabama, Arkansas, Delaware, District of Columbia, Florida, Georgia, Kansas, Louisiana, Michigan (Upper Peninsula), Mississippi, Nebraska, North Carolina, North Dakota, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, and Texas, for 180 days. Supporting shippers: There are approximately 17 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Melvin F. Kirsch, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1110 Broderick Tower, 10 Witherell Avenue, Detroit, Mich. 48226.

No. MC 129613 (Sub-No. 16TA), filed December 9, 1974. Applicant: ARTHUR H. FULTON, P.O. Box 86, Stephens City, Va. 22655. Applicant's representative: Charles E. Creager, 1329 Pennsylvania Avenue, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Veneers*, (1) between Rocky Mount, Va., on the one hand, and, on the other, points in Indiana, Illinois, Ohio, Kentucky, Tennessee, Maryland, West Virginia, Pennsylvania, North Carolina, South Carolina, New York, New Jersey, and Arkansas; and (2) between Martinsburg, W. Va., on the one hand, and, on the other, points in Illinois, Ohio, Tennessee, New Jersey, and New York, for 180 days. Supporting shipper: Erath Veneer Corporation, P.O. Box 1015, High Point, N.C. 27261. Send protests to: W. C. Hersman, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 317, 12th & Constitution Avenue NW., Washington, D.C. 20423.

No. MC 135518 (Sub-No. 2TA), filed December 4, 1974. Applicant: EVERETT TRUCKING, INC., P.O. Box 56, Mount Vernon, Wash. 98273. Applicant's representative: George Kargianis, 2120 Pacific Building, Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* requiring mechanical refrigerated equipment, from Los Angeles, San Francisco, and Bakersfield, Calif., and their commercial zones, to points in Washington, Oregon, Alaska, and their commercial zones, for 180 days. Supporting shippers: There are approximately 15 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: L. D. Boone, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 858 Federal Building, 915 Second Avenue, Seattle, Wash. 98174.

No. MC 136089 (Sub-No. 3TA) filed December 5, 1974. Applicant: WILLIAM W. WILLIAMS, 507 Cline Avenue, Port Orchard, Wash. 98366. Applicant's representative: George Kargianis, Attorney, 2120 Pacific Building, Seattle, Wash. 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Finished plastic products*, including, but not limited to, plastic containers, from Akron, Ohio, to points in Washington, Oregon, California, Colorado, Montana, New Mexico, Nevada, North Dakota, South Dakota, Idaho, Texas, Arizona, Wyoming, and Utah, for 180 days. Supporting shipper: Cardinal Plastic 815 E. Tallmadge Avenue, Akron, Ohio 44310. Send protests to: L. D. Boone, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission 858 Federal Building 915 Second Avenue, Seattle, Wash. 98174.

No. MC 136602 (Sub-No. 5TA), filed December 5, 1974. Applicant: ARIZONA WESTERN TRANSPORT, INC., P.O. Box F (Guadalupe Road), Chandler, Ariz. 85224. Applicant's representative: A. Michael Bernstein, 1327 United Bank Building, 3550 N. Central Avenue, Phoenix, Ariz. 85012. Authority sought to

[Notice No. 100]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

DECEMBER 13, 1974.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission on or before January 20, 1975. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and on or before January 20, 1975, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

APPLICATION SET FOR HEARING

No. MC 95876 (Sub-No. 165), filed December 12, 1974. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: Andrew R. Clark, 1000 First National Bank Building, Minneapolis, Minn. 54402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Construction, mining, excavating machinery, and equipment;* (2) *self-propelled vehicles* when transported on trailers; (3) *attachments and accessories* for the commodities described in (1) and (2) above; (4) *parts* for the commodities described in (1), (2), and (3) above; and (5) *materials, equipment, and supplies* used in the manufacture or distribution of the commodities described in (1), (2), (3), and (4) above, between points in Bannock County, Idaho, on the one hand, and, on the other, points in the United States including Alaska (but excluding Hawaii, Washington, Oregon, California, Nevada, Utah, Arizona, Colorado, New Mexico, Oklahoma, and Texas).

NOTE.—Common control was approved in MC-F-10497.

HEARING: January 16, 1975 (2 days), at Salt Lake City, Utah, at 9:30 am Local Time, in a hearing room to be later designated.

No. MC 263 (Sub-No. 219), filed November 22, 1974. Applicant: GARRETT FREIGHTLINES, INC., 2055 Garnett Way, Pocatello, Idaho 83201. Applicant's representative: Wayne S. Green (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Maple Grove, Minn. as an off-route point in connection with carrier's authorized regular-route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 730 (Sub-No. 375), filed November 21, 1974. Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, 1417 Clay Street, P.O. Box 958, Oakland, Calif. 94612. Applicant's representative: R. N. Cooledge (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Palm oil and derivatives and coconut oil and derivatives*, in bulk, in tank vehicles, from Portland, Oreg., to points in the United States, including Alaska but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Portland, Oreg., or San Francisco, Calif.

No. MC 2202 (Sub-No. 473), filed November 22, 1974. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Blvd., P.O. Box 471, Akron, Ohio 44309. Applicant's representative: William Slaubaugh (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of The Firestone Tire and Rubber Company located near Nashville (Rutherford County), Tenn., as an off-route point in connection with applicant's present regular route operation.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Akron, Ohio, or Washington, D.C.

No. MC 3854 (Sub. No. 27), filed November 21, 1974. Applicant: BURTON LINES, INC., P.O. Box 11306, East Durham Station, Durham, N.C. 27703. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Ave. & 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tobacco, unmanufactured, leaf, scrap, cuttings, including stems, unground and reconstructed tobacco and materials and supplies* used or useful in the processing, packaging, storing, handling, and marketing of tobacco, between Ancram, N.Y., Spotswood, N.J., Louisville and Lexington, Ky., Petersburg and Richmond, Va., Wilson and Winston-Salem, N.C., and Macon, Ga.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Washington, D.C.

No. MC 5888 (Sub-No. 38), filed Nov. 18, 1974. Applicant: MID-AMERICAN LINES, INC., 127 West 10th Street, Kansas City, Mo. 64105. Applicant's representative: Louis A. Hoger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electrical distribution transformers*, and parts thereof, between the plantsites and warehouses of RTE Corporation, at or near Pewaukee and Waukesha, Wis., on the one hand, and, on the other, points in Iowa, Kansas, and Missouri, restricted to traffic originating at or destined to, the facilities of RTE Corporation, at or near Pewaukee, or Waukesha, Wis.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Milwaukee or Madison, Wis., or Kansas City, Mo.

No. MC 5888 (Sub-No. 39), filed Nov. 18, 1974. Applicant: MID-AMERICAN LINES, INC., 127 West Tenth Street, 11th Floor, Kansas City, Mo. 64105. Applicant's representative: Louis A. Hoger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading): Serving the plantsites and storage facilities of the Donaldson Company, Inc., at or near Chillicothe, Mo., as intermediate or off-route points in connection with applicant's regular route operations to or from Kansas City, or St. Joseph, Mo.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Kansas City, Mo.

No. MC 7640 (Sub-No. 48), filed November 25, 1974. Applicant: BARNES TRUCK LINE, INC., 506 Mayo Street, Wilson, N.C. 27893. Applicant's representative: Harry J. Jordan, 1000 Sixteenth Street N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulating board*, including fibre board, made of vegetable, wood and/or mineral fibre, mineral or mineral and wood fibres and *accessories and supplies* used in the installation thereof, from Jamesburg, N.J., to points in Georgia, North Carolina, South Carolina, and Virginia.

the same route, serving all intermediate

No. MC 56553 (Sub-No. 29), filed

Centerville, Iowa, Joliet, and Blue Island,

DEC 19 1974 V 39 N 245 XUM

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 19045 (Sub-No. 51), filed November 15, 1974. Applicant: BEHNKEN TRUCK SERVICE, INC., Route No. 13, New Athens, Ill. 62264. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Bldg., St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flue dust*, in bulk, in dump vehicles, from the plantsite and storage facilities of Laclede Steel Company at Alton, Ill., to Frit Industries, Inc., at Humboldt, Iowa.

NOTE. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Washington, D.C.

No. MC 26068 (Sub-No. 11), filed Nov. 18, 1974. Applicant: NORTH & SOUTH LINES, INCORPORATED, 2710 South Main Street, Harrisonburg, Va. 22801. Applicant's representative: John M. Musselman, P.O. Box 1146, 410 North Third Street, Harrisburg, Pa. 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh fruit, and vegetable juices and frozen foods*, from Winchester, Va., and Ranson, W. Va., to points in the United States in and east of Minnesota, Iowa, Nebraska, Colorado, Oklahoma, and Texas.

NOTE. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 29079 (Sub-No. 78), filed November 12, 1974. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 S. Union, P.O. Box 935, Kokomo, Ind. 46901. Applicant's representative: Ben W. Cotten, 704 Southern Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Automobile parts and accessories, material, equipment, and supplies*, from the plant site and facility of American Motors Corp. at or near South Charleston, W. Va., to points in Illinois, Indiana, Michigan (Lower Peninsula), those in New York on and west of U.S. Highway 62, Ohio, Pennsylvania, on and west of U.S. Highway 219, and the plant site and warehouse facilities of American Motors Corp. at or near Kenosha, Wis. and in Racine County, Wis.; and (2) *material, equipment, and supplies*, from the destination territory in (1) above, to the plant site and facilities of American Motors Corp. at or near South Charleston, W. Va.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Washington, D.C., or Indianapolis, Ind.

No. MC 29079 (Sub-No. 79), filed November 19, 1974. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 South Union, P.O. Box 935, Kokomo, Ind. 46901. Applicant's representative: Ben Cotten, 704 Southern Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and iron and steel articles*, from the plantsite and warehouses of Midwestern Joists, Inc., at or near Washington, Mo., to points in Illinois, Indiana, Kentucky, the Southern Peninsula of Michigan, New York, Ohio, Pennsylvania, West Virginia, and Wisconsin on and south of Wisconsin Highway 60; and (2) *materials, equipment, and supplies* used in the manufacture, production and distribution of iron and iron and steel articles, from the destination points named in (1) above, to the plantsite of Midwestern Joists, Inc. at or near Washington, Mo.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., Indianapolis, Ind., or Washington, D.C.

No. MC 29130 (Sub-No. 105), filed November 8, 1974. Applicant: THE ROCK ISLAND MOTOR TRANSIT COMPANY, 2744 SE. Market Street, P.O. Box 1355, Des Moines, Iowa 50305. Applicant's representative: Mr. James E. Sykes, La Salle Street Station, 139 West Van Buren Street, Chicago, Ill. 60605. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Serving Lake Mills, Iowa, as an intermediate point in connection with carrier's authorized regular route operations over U.S. Highway 69 between Albert Lea, Minn., and Ames, Iowa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Mason City or Des Moines, Iowa.

No. MC 29886 (Sub-No. 219), filed November 22, 1974. Applicant: DALLAS AND MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieromi (same address as applicant). NOTE.—If a hearing is deemed necessary, applicant requests it be held at Jacksonville, Fla., Atlanta, Ga., or Washington, D.C.

No. MC 61231 (Sub-No. 80) (Correction), filed October 23, 1974, published in the FEDERAL REGISTER issue of November 21, 1974, and republished as corrected this issue. Applicant: ACE LINES, INC., 4143 East 43d Street, Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles and building and construction materials*, from Albuquerque, N. Mex., Centerville, Iowa, Joliet, and Blue Island, Ill., Denver, Colo., Columbus and Toledo, Ohio, Detroit, Grand Rapids, and Lansing, Mich., Newton, Kans., and Kokomo and Fort Wayne, Ind., to points in Arizona, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming; and (2) *materials and supplies* used in the manufacture and distribution of iron and steel articles and building and construction materials, from points in Arizona, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming, to Albuquerque, N. Mex., Centerville, Iowa, Joliet and Blue Island, Ill., Denver, Colo., Columbus and Toledo, Ohio, Detroit, Grand Rapids, and Lansing, Mich., Newton, Kans., and Kokomo and Fort Wayne, Ind., restricted against the transportation of commodities in bulk and further restricted to shipments originating at, or destined to the plantsites of Continental Steel Corporation.

NOTE.—The purpose of this republication are (A) to indicate the correct origin point of Columbus, Ohio, in lieu of Columbia, Ohio, in (1) above, and (B) to indicate applicant seeks to restrict service to traffic originating and destined to said plantsites in lieu of restricting service against such traffic. If a hearing is deemed necessary, the applicant requests it be held at Indianapolis, Ind.

No. MC 61231 (Sub-No. 82), filed November 25, 1974. Applicant: ACE LINES, INC., 4143 East 43d Street, Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Welded wire fabric and nails*, from Duluth, Minn., to points in Illinois, Iowa, Michigan, Minnesota, Montana, Nebraska, North Dakota, South Dakota, Wisconsin, and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at St. Paul, Minn.

No. MC 63837 (Sub-No. 4), filed November 15, 1974. Applicant: DIGGINS AND ROSE, INC., Sagamore Park Road, Hudson, N.H. 03051. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *High speed printers*, (1) from Boston Mass., to Chelmsford, Mass., and Hudson, N.H., restricted to traffic having a prior movement by water or rail; and (2) from Chelmsford, Mass., to Hudson, N.H.

NOTE.—It is applicant's position that it holds the authority requested herein in MC 63837, applicant has therefore concurrently filed a petition to dismiss the instant application. If a hearing is deemed necessary, the

DEC 1974 V39 XUM

applicant requests it be held at Concord, N.H., or Boston, Mass.

No. MC 67450 (Sub-No. 51), filed November 18, 1974. Applicant: PETER-LIN CARTAGE CO., a Corporation, 9651 South Ewing Avenue, Chicago, Ill. 60617. Applicant's representative: Joseph M. Scanlan, 111 West Washington Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soybeans, products of soybeans, and materials, supplies, and ingredients*, used in the processing thereof, in bulk, between the plant and warehouse facilities of Krause Milling Company, located at or near Logansport, Ind. on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 69116 (Sub-No. 170), filed November 18, 1974. Applicant: SPECTOR FREIGHT SYSTEM, INC., 205 West Wacker Drive, Chicago, Ill. 60606. Applicant's representative: Edward G. Bazelon, 39 South LaSalle Street, Chicago, Ill 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), serving the plant and warehouse facilities of The Firestone Tire and Rubber Company located near Nashville (Davidson-Rutherford Counties), Tenn. as an off-route point in connection with carrier's authorized regular route operations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Nashville, Tenn.

No. MC 69322 (Sub-No. 5), filed November 4, 1974. Applicant: DOBSON CARTAGE & STORAGE COMPANY, a Corporation, 1006 East Indiana Street, Bay City, Mich. 48706. Applicant's representative: James E. Dobson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods:* (1) Between points in Marquette County, Mich, on the one hand, and, on the other, points in the Upper Peninsula of Michigan; and (2) between points in Marquette County, Mich., restricted to the transportation of shipments having a prior or subsequent movement, in containers, beyond the points authorized, and further restricted to the performance of pickup and delivery service in connection with the packing, crating, and containerization or unpacking, uncrating, and decontainerization of such shipments.

NOTE.—Applicant holds motor contract carrier authority in MC 127458 (Sub-No. 2), therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich., or Chicago, Ill.

No. MC 69397 (Sub-No. 14), filed November 18, 1974. Applicant: JAMES H. HARTMAN & SON, INC., U.S. Route 13, P.O. Box 85, Pocomoke City, Md. 21851. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberglass tanks, and accessories thereof*, from the plantsite of the Justin Atlantic Corp., at or near Georgetown, Del., to points in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 71459 (Sub-No. 46), filed November 19, 1974. Applicant: O.N.C. FREIGHT SYSTEMS, a Corporation, 2800 West Bayshore Road, Palo Alto, Calif. 94303. Applicant's representative: Roland Rice, 1111 E Street NW., Suite 618, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant site and construction facilities of the Nuclear Power Plant; and points within 5 miles thereof, approximately 8 miles east of Sedro Woolley, Wash., as an off-route point in conjunction with its regular-route operations.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either San Francisco, Calif., or Seattle, Wash.

No. MC 72285 (Sub-No. 10), filed November 20, 1974. Applicant: MOTOR TRANSPORT COMPANY, a Corporation, 4101 W. Blue Mound Road, Milwaukee, Wis. 53208. Applicant's representative: Rolfe E. Hanson, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper mill machine parts*, between the plantsite of Beloit Corporation located at or near Rockton, Ill., on the one hand, and, on the other, points in Outagamie, Brown, Wood, and Portage Counties, Wis.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Milwaukee or Madison, Wis.

No. MC 74321 (Sub-No. 109), filed November 7, 1974. Applicant: B. F. WALKER, INC., P.O. Box 17-B, Denver, Colo. 80217. Applicant's representative: Richard P. Kissinger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Terminal Island, Calif., to points in Arizona, Colorado, New Mexico, Idaho, Utah, and Texas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif. or Denver, Colo.

No. MC 75816 (Sub-No. 4), filed November 14, 1974. Applicant: STONY'S TRUCKING CO., a Corporation, 11550 Youngstown-Akron Road, North Jackson, Ohio 44451. Applicant's representative: Richard H. Brandon, 79 East State Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Steel buildings, building sections, parts, materials, parts, and accessories*, from Van Wert, Ohio, to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 78687 (Sub-No. 40), filed November 18, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell Street, Penn Yan, N.Y. 14527. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, from Clearfield, Jefferson, Indiana, Cambria, Clarion and Armstrong Counties, Pa., to points in New York.

NOTE.—Applicant holds contract carrier authority in No. MC 2505, therefore dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 82841 (Sub-No. 147), filed November 7, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 I Street, Omaha, Nebr. 68127. Applicant's representative: Donald L. Stern, 530 Univac Bldg., 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from points in Madison and Stanton Counties, Nebr., to points in Arizona, California, Idaho, Illinois, Indiana, Montana, Nevada, New Mexico, Oregon, Utah, and Washington.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 101219 (Sub-No. 57), filed November 6, 1974. Applicant: MERIT DRESS DELIVERY, INC., 524 West 36th Street, New York, N.Y. 10018. Applicant's representative: Herman B. J. Weckstein, One Woodbridge Center, Woodbridge, N.J. 07095. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies* used in the manufacture of wearing apparel (except commodities in bulk), between Colebrook, N.H., points in the New York, N.Y., Commercial Zone, and Fall River, Mass.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either New York, N.Y., or Washington, D.C.

No. MC 103191 (Sub-No. 48), filed November 22, 1974. Applicant: THE GEO. A. RHEMAN CO., INC., 2019 Elgin Street, P.O. Box 2095, Station A, Charleston, S.C. 29403. Applicant's representative: Harris G. Andrews, P.O. Box 4255, Greenville, S.C. 29608. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles (except chemicals and petrochemicals), from Tampa, Fla., to points in South Carolina.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 105045 (Sub-No. 56), filed November 25, 1974. Applicant: R. L. JEFFRIES TRUCKING CO., INC., P.O. Box 3277, Evansville, Ind. 47701. Applicant's representative: Paul F. Sullivan, 711 Washington Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brake presses and shears and parts thereof*, from Topeka, Kans., to points in Alabama, Florida, Georgia, Mississippi, Oklahoma, North Carolina, South Carolina, Texas, and Tennessee.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 105813 (Sub-No. 200), filed Nov. 13, 1974. Applicant: BELFORD TRUCKING CO., INC., 3500 NW. 79th Avenue, Miami, Fla. 33148. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk, in tank vehicles), from points in Massachusetts and New York, to points in Florida and Georgia, restricted to products originating at the plantsite and storage facilities of Howard Johnson Company, and destined to the above named points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 106398 (Sub-No. 722), filed November 25, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., 525 South Main Street, Tulsa, Okla. 74103. Applicant's representative: Irvin Tull (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Delaware County, Okla., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If hearing is deemed necessary, the applicant requests it be held at Oklahoma City, Okla.

No. MC 106644 (Sub-No. 198), filed November 20, 1974. Applicant: SUPERIOR TRUCKING COMPANY, INC., 2770 Payton Road NW., Atlanta, Ga. 30318. Applicant's representative: W. Randall Tye, 1500 Candler Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor graders, road making, construction, and earth moving machinery and equipment*, between Owensboro, Ky., on the one hand, and, on the other, Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 107012 (Sub-No. 213), filed November 18, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Lincoln Highway and Meyer Road, Fort Wayne, Ind. 46801. Applicant's representative: Michael L. Harvey (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Carpet*, (1) from Lewisville, Ark., to points in North Carolina, South Dakota, Iowa, Kansas, Texas, Colorado, New Mexico, Kentucky, Georgia, Florida, and Alabama; and (2) from Little Falls, N.J., to points in North Carolina, Virginia, Florida, Georgia, Alabama, and Pennsylvania.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 107445 (Sub-No. 8), filed November 22, 1974. Applicant: UNDERWOOD MACHINERY TRANSPORT, INC., 940 W. Troy Avenue, Indianapolis, Ind. 46225. Applicant's representative: K. Clay Smith, P.O. Box 33051, Indianapolis, Ind. 46203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, between the plant site and warehouses of Roll Coater Company at or near Kingsbury, Ind., on the one hand, and, on the other, points in Indiana, Illinois, Michigan, Ohio, Kentucky, Missouri, and Iowa.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 107515 (Sub-No. 965), filed November 18, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, Post Office Box 18584, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural chemicals* (except in bulk), from Memphis and Arlington, Tenn., to points in Colorado, South Dakota, North Dakota, Idaho, Montana, Oregon, and Washington.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., Memphis, Tenn., or Atlanta, Ga.

No. MC 108303 (Sub-No. 84), filed November 20, 1974. Applicant: SIGNAL DELIVERY SERVICE, INC., 201 E. Ogden Avenue, Hinsdale, Ill. 60521. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail department stores and mail order houses, and, in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between Atlanta, Ga., Boston, Mass., Chicago, Ill., Columbus, Ohio, Dallas, Tex., Greensboro, N.C., Jacksonville, Fla., Kansas City, Mo., Memphis, Tenn., Minneapolis-St. Paul, Minn., Philadelphia, Pa., North Bergen, N.J., and St. Louis, Mo., under a continuing contract or contracts with Sears, Roebuck and Co.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 108676 (Sub-No. 73), filed November 21, 1974. Applicant: A. J. METLER HAULING AND RIGGING, INC., 117 Chicamauga Avenue, Knoxville, Tenn. 37917. Applicant's representative: William T. McManus (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled articles*, each weighing 15,000 pounds or more, and related *machinery, tools, parts and supplies* moving in connection therewith, from the plantsite and facilities of FMC Corporation, Crane and Excavator Division at Lexington, Ky., to points in Alabama, Florida, Georgia, Mississippi, Louisiana, Virginia, North Carolina, South Carolina, Arkansas, Texas, and Tennessee.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Lexington, Ky. or Knoxville, Tenn.

No. MC 108869 (Sub-No. 17), filed October 17, 1974. Applicant: WEBER TRUCK AND WAREHOUSE, a Corporation, 5035 Gifford Avenue, Vernon, Calif. 90058. Applicant's representative: Donald Murchison, 9454 Wilshire Blvd., Suite 400, Beverly Hills, Calif. 90212. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated cooling or freezing equipment, or parts thereof*, other than household, between Los Angeles, Calif., on the one hand, and, on the other, points in Kern, Los Angeles (except the Los Harbor Commercial Zone 3 M.C.C. 254), Orange, Riverside, San Bernardino, San Diego, and Ventura Counties, Calif., subject to prior or subsequent movement in interstate commerce, under a continuing contract with Hussman-Los Angeles and Clark Equipment Company (R. W. Lester-Tyler Refrigeration Division).

NOTE.—Applicant holds common carrier authority in MC 41665 and Sub 2, therefore

DEC 19 1974 V 39 N 245 XUM

dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.

No. MC 109020 (Sub-No. 18), filed November 7, 1974. Applicant: MANNING MOTOR EXPRESS, INC., P.O. Box 685, Glasgow, Ky. 42141. Applicant's representative: Walter Harwood, P.O. Box 15214, Nashville, Tenn. 37215. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined by the Commission, Classes A and B explosives, commodities in bulk, and articles requiring special equipment), (1) Between Edmonton and Columbia, Ky.: From Edmonton, Ky. over Kentucky Highway 80 to Columbia, Ky., serving all intermediate points; and (2) Between Columbia and Hodgenville, Ky.: From Columbia, Ky., over Kentucky Highway 61 to Hodgenville, Ky., serving no intermediate points, and serving Hodgenville, Ky. for purposes of joinder only.

NOTE.—Applicant contends that it holds authority to serve Columbia, Ky. to and from a Louisville, Ky. gateway pursuant to the Commission's Superhighway Deviation Rules in 49 CFR 1042. Applicant therefore, has filed currently a motion to dismiss the instant application as to the point of Columbia, Ky. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky.

No. MC 109324 (Sub-No. 29), filed November 19, 1974. Applicant: GARRISON MOTOR FREIGHT, INC., P.O. Box 969, Harrison, Ark. 72601. Applicant's representative: Louis Tarlowski, 914 Pyramid Life Building, Little Rock, Ark. 72201. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, in tank vehicles, and those requiring special equipment): (1) Between Yellville, Ark., and the plantsite of Holiday Manufacturing Company, Inc.: From Yellville, Ark., over Arkansas State Highway 14, to its junction with Arkansas State Highway 235, thence over Arkansas State Highway 235, to the plantsite, and return over the same route, serving all intermediate points.

(2) Between Mountain Home, and Henderson, Ark.: From Mountain Home, Ark. over U.S. Highway 62, to Henderson Ark., and return over the same route, serving all intermediate points. (3) Between Mountain Home, Ark., and the plantsite of Travenol Laboratories, Inc., located at the junction of U.S. Highway 62 and 167, at or near Ash Flat, Ark.: From Mountain Home, Ark., over U.S. Highway 62, to the plantsite, and return over the same route, serving no intermediate points.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Little Rock, Ark., or Memphis, Tenn.

No. MC 109533 (Sub-No. 67) (Correction), filed October 21, 1974, published in the FEDERAL REGISTER issue of November 27, 1974, and republished as corrected this issue. Applicant: OVERNITE TRANSPORTATION COMPANY, a Corporation, 1100 Commerce Road, Richmond, Va. 23224. Applicant's representative: E. T. Lipfert, Suite 1100, 1660 L Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) Between Jacksonville, Fla. and Houston, Tex., serving all intermediate points and the off-route points of Gonzales, Fla., Port Arthur and Fort Neches, Tex., Lemoyne, Ala., Calvert, Ala. and the plant site of Dow Badische Company at or near Calvert, Ala.: From Jacksonville over Interstate Highway 10 and also Interstate Highway 90 to New Orleans, La., thence over U.S. Highway 61 to Baton Rouge, La., thence over U.S. Highway 190 to Opelousas, La., thence over U.S. Highway 167 to Lafayette, La., thence over Interstate Highway 10 and also Interstate Highway 90 to Houston, and return over the same route; (2) Between junction Interstate Highway 12 and Interstate Highway 10 at or near Pearl River, La. and junction Interstate Highway 12 and Interstate Highway 10 at or near Baton Rouge, La., serving all intermediate points: From junction Interstate Highway 12 and Interstate Highway 10 at or near Pearl River, La. over Interstate Highway 12 to junction Interstate Highway 10 at or near Baton Rouge, La. and return over the same route; (3) Between junction U.S. Highway 190 and U.S. Highway 90 near Slidell, La. and Baton Rouge, La., serving all intermediate points: From junction U.S. Highway 190 and U.S. Highway 90 near Slidell, La. over U.S. Highway 190 to Baton Rouge, La. and return over the same route; (4) Between New Orleans, La. and Lafayette, La., serving all intermediate points: From New Orleans, La. over Interstate Highway 10 to Lafayette, La., and return over the same route; (5) Between LaGrange, Ga. and Mobile, Ala., serving no intermediate points, but serving Pensacola and Gonzales, Fla. as off-route points: From LaGrange over Georgia Highway 219 to junction Interstate Highway 85, thence over Interstate Highway 85 to junction Interstate Highway 65, thence over Interstate Highway 65 to junction Alabama Highway 59, thence over Alabama Highway 59 to junction U.S. Highway 31, thence over U.S. Highway 31 to Mobile, Ala., and return over the same route; and (6) Between Macon, Ga. and Tallahassee, Fla., serving no intermediate points: From Macon over Interstate Highway 75 to junction U.S. Highway 319 at or near Tifton, Ga., thence over U.S. Highway 319 to Tallahassee, and return over the same route.

NOTE.—The purposes of this republication are (A) to indicate in (1) that applicant seeks authority over Interstate Highway 90 in addition to Interstate Highway 10; and (B) in (4) indicate Lafayette, La. as the correct terminal point in lieu of Baton Rouge, La. If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga., or New Orleans, La.

No. MC 109818 (Sub-No. 19), filed November 18, 1974. Applicant: WENGER TRUCK LINE, INC., P.O. Box 36, Beaver, Iowa 50031. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed vehicles and scrap metal*, from points in Iowa and Nebraska, to points in Illinois, Indiana and Beloit, Wis.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Des Moines, Iowa or Omaha, Nebr.

No. MC 109847 (Sub-No. 20), filed November 15, 1974. Applicant: BOSS-LINCO LINES, INC., Suite 450, One West Genesee Street, Buffalo, N.Y. 14240. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except Classes A and B explosives, commodities in bulk, commodities which because of their size or weight require special equipment and household goods as defined by the Commission), Between Binghamton, N.Y., and New Haven, Conn., as an alternate route for operating convenience only, serving no intermediate points: From Binghamton, N.Y. over New York Highway 17 to the junction of New York Highway 17 and 17K at or near Bloomingburg, N.Y., thence over New York Highway 17K to the junction of Interstate Highway 84 to Connecticut Highway 34 near Newton, Conn., thence over Connecticut Highway 34 to New Haven, Conn.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Buffalo, N.Y.

No. MC 110166 (Sub-No. 21), filed November 18, 1974. Applicant: TENNESSEE CAROLINA TRANSPORTATION, INC., 40 Nance Lane, P.O. Box 7308, Nashville, Tenn. 37210. Applicant's representative: J. C. Hutcheson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, commodities in bulk, and those requiring special equipment), serving the plantsite and warehouse of the Firestone Tire and Rubber Co., located in Rutherford County, Tenn., as an off-route point in connection with applicant's existing authority to serve Nashville, Tenn.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Nashville, Tenn.

No. MC 110563 (Sub-No. 148), filed November 4, 1974. Applicant: COLDWAY FOOD EXPRESS, INC., Box 747, Sidney,

Ohio 45365. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 125777 (Sub-No. 148), filed November 25, 1974. Applicant: JACK GRAY TRANSPORT, INC., 4600 East 15th Avenue, Gary, Ind. 46403. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coke*, in bulk, in dump vehicles, from points in Arkansas, Illinois, Indiana (except Terre Haute and Indianapolis), Iowa, Kansas, Kentucky (except Ashland), Michigan (except Detroit), Minnesota (except St. Paul), Missouri (except St. Louis), Nebraska, New York (except Buffalo), Ohio (except Ironton and Painesville), Oklahoma, Pennsylvania (except Erie and Philadelphia), Tennessee, Texas, West Virginia, and Wisconsin (except Milwaukee), to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, New York, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, West Virginia and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 126305 (Sub-No. 67), filed Nov. 19, 1974. Applicant: BYOD BROTHERS TRANSPORTATION CO., INC., Rural Delivery 1, Clayton, Ala. 36016. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: (1) *Spheres, highway marking strip glass, ballotini, and glass*, crushed, ground, and powered, from the facilities of Potters Industries, Inc., at Apex, N.C., to points in Kentucky, Arkansas, Virginia, Tennessee, North Carolina, South Carolina, Georgia, and Louisiana; and (2) *materials and supplies*, used in the manufacture and sale of glass spheres, and *glass spheres* (except in bulk, in tank vehicles), from Louisiana, Georgia, South Carolina, North Carolina, Tennessee, Virginia, Arkansas, and Kentucky, to the facilities of Potters Industries, Inc., at Apex, N.C.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 126525 (Sub-No. 30), filed November 22, 1974. Applicant: KATUIN BROS. INC., 102 Terminal Street, Dubuque, Iowa 52001. Applicant's representative: Carl E. Munson, 469 Fischer Bldg., Dubuque, Iowa 52001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt and salt products*, from Rock Island, Ill., to points in Iowa.

NOTE.—Applicant holds contract carrier authority in MC 129185 Sub 2, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago or Peoria, Ill.

No. MC 127187 (Sub-No. 12), filed November 11, 1974. Applicant: FLOYD DUENOW, 1728 Industrial Park Blvd., Fergus Falls, Minn. 56537. Applicant's representative: Charles E. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed, and animal and poultry feed ingredients* (except liquid commodities in bulk, in tank vehicles), from East Grand Forks, Crookston, Moorhead, and Renville, Minn., to points in Montana, restricted to traffic originating at the above named origins and destined to the above named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Fargo, N. Dak., or Minneapolis, Minn.

No. MC 128021 (Sub-No. 15), filed Nov. 15, 1974. Applicant: DIVERSIFED PRODUCTS TRUCKING CORPORATION, 309 Williamson Avenue, Opelika, Ala. 36801. Applicant's representative: Robert S. Richard, 57 Adams Avenue, Montgomery, Ala. 36103. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Weights and counterweights*, from the plantsite of Diversified Products Corporation, at Opelika, Ala., to points in the United States (except Alaska and Hawaii), under contract with Diversified Products Corporation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Opelika or Montgomery, Ala.

No. MC 128383 (Sub-No. 61), filed November 19, 1974. Applicant: PINTO TRUCKING SERVICE, INC., 1414 Calcon Hook Road, Sharon Hill, Pa. 19079. Applicant's representative: Gerald K. Gimmel, 303 N. Frederick Ave., Gaithersburg, Md. 20760. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, Classes A and B explosives, and motor vehicles requiring the use of special equipment), between John F. Kennedy International Airport at or near New York, N.Y., Eau Claire Municipal Airport at or near Eau Claire, Wis., Austin Straubel Airfield at or near Green Bay, Wis., La Crosse Municipal Airport at or near La Crosse, Wis., General Mitchell Field at or near Milwaukee, Wis., Madison Municipal Airport (Traux Field) at or near Madison, Wis., Wausau Municipal Airport at or near Wausau, Wis., Rock County Airport at or near Janesville, Wis., St. Louis International Airport

(Lambert Field) at or near St. Louis, Mo., Memphis International Airport at or near Memphis, Tenn., Chicago-O'Hare International Airport at or near Chicago, Ill., Detroit Metropolitan Airport at or near Detroit, Mich., Standiford Field at or near Louisville, Ky., Greater Cincinnati Airport at or near Cincinnati, Ohio, Weir Cook Airport at or near Indianapolis, Ind., and Minneapolis-St. Paul International Airport at or near St. Paul, Minn., restricted to shipments having a prior or subsequent movement by air.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 128383 (Sub-No. 62), filed November 27, 1974. Applicant: PINTO TRUCKING SERVICE, INC., 1414 Calcon Hook Road, Sharon Hill, Pa. 19079. Applicant's representative: Gerald K. Gimmel, 303 N. Frederick Avenue, Gaithersburg, Md. 20760. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, Classes A and B explosives, and motor vehicles, requiring the use of special equipment), having a prior or subsequent movement by air, between Oneida County Airport, Oneida County, N.Y., on the one hand, and, on the other, points in Pennsylvania, New York, New Jersey, Maryland, the District of Columbia, Delaware, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 129706 (Sub-No. 1), filed November 25, 1974. Applicant: APPLE LINES, INC., 212 SW. Second, Madison, S. Dak. 57042. Applicant's representative: Robert A. Appelwick (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flattened car bodies, scrap iron, and solid waste*, from points in Iowa, Minnesota, Nebraska, North Dakota, and South Dakota, to points in Illinois, Indiana, Minnesota, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 133106 (Sub-No. 47), filed November 22, 1974. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Frederick J. Cosman, 521 South 14th Street, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is manufactured or distributed by Warner Lambert Company, and related advertising material*, from the plantsites and storage facilities utilized by Warner Lambert Company, located at Long Island City, N.Y., Lititz and Philadelphia, Pa., and South Brunswick and North Bergen, N.J., to Morrow, Ga., under contract with Warner-Lambert Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y., or Kansas City, Mo.

No. MC 133291 (Sub-No. 3), filed November 14, 1974. Applicant: JAMES H. FUNCH, doing business as JAMES FUNCH TRUCKING, 2750 North Polk Avenue, Fresno, Calif. 93705. Applicant's representative: William H. Kessler, 638 Divisadero Street, Fresno, Calif. 93721. Authority sought to operate as a *contract carrier, by motor* vehicle, over irregular routes, transporting: *Shingles, shakes, and ridge*, from points in Clallam and Skagit County, Wash., to points in Shasta, Tehama, Sutter, Yuba, Sacramento, Yolo, San Joaquin, Alameda, Contra Costa, San Francisco, San Mateo, Santa Clara, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, Kern, Santa Cruz, Monterey, San Benito, San Luis Obispo, Santa Barbara, Ventura, Los Angeles, Orange, San Bernardino, Riverside, San Diego, and Imperial Counties, Calif., and points in Maricopa and Pima Counties, Ariz., under a continuing contract or contracts with Consolidated Cedar Corporation and its affiliates.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Fresno, San Francisco, Calif., or Seattle, Wash.

No. MC 133878 (Sub-No. 2), filed November 18, 1974. Applicant: A. E. TRUCKS, INC., Weston, Pa. 18256. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery and machine parts, and filters*, which because of size or weight require the use of special equipment or handling, from the plantsite of Dorr-Oliver, Inc., located at Fogelsville, Pa., to points in the New York, N.Y. Commercial Zone, as defined by the Commission, points in that part on New York on, south, and east on New York Highway 30, points in those parts of New Jersey, Delaware, and Pennsylvania on and east of U.S. Highway 15, that part of Maryland on and east of U.S. Highway 11 (Intermediate Highway 81), and the District of Columbia; (2) *water treatment and sewage disposal plants, refuse systems, and filtering systems, and all component parts* of the above items (except commodities in bulk), from the plantsite of Dorr-Oliver Inc., located Fogelsville, Pa., to points in Delaware, Connecticut, Indiana, Maine, Massachusetts, Maryland, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia; and (3) *materials, supplies, or equipment* used in connection with or incidental to the manufacture of commodities named in (2) above (except commodities in bulk), from points in the destination states named above to the plantsite of Dorr-Oliver, Inc., located at Fogelsville, Pa., restricted to the transportation of traffic originating at or destined to the plantsite and destination points in (1), (2), and (3) above, and (2) and (3) further restricted against the transportation of clay products originating at or destined to points in Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Harrisburg, Pa.

No. MC 134142 (Sub-No. 6), filed November 18, 1974. Applicant: BROWN REFRIGERATED EXPRESS, INC., 21st and Sidney, P.O. Box 603, Ft. Scott, Kans. 66701. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 NW. 58th, Oklahoma City, Okla. 73112. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the Report in *Descriptions in Motor Carrier Certificates*, 61 F.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Lee's Summit, Mo., to points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with R. B. Rice Company, Inc.

NOTE.—Applicant holds common carrier authority in MC 139587 and Sub No. 1 thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 134323 (Sub-No. 65), filed October 30, 1974. Applicant: JAY LINES, INC., 720 North Grand, Amarillo, Tex. 79105. Applicant's representative: Gailyn Larsen, 521 South 14th Street, Lincoln Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in by retail department stores, and equipment, materials, and supplies used in the conduct of such business* (except commodities in bulk), from the facilities of J. C. Penney Company, Inc. located at or near Ridgefield, N.J., to points in Houston and Dallas, Tex., Kansas City and St. Louis, Mo., Denver, Colo., and Memphis, Tenn., under a continuing contract with J. C. Penney Company, Inc.

NOTE.—Applicant has pending contract carrier authority in MC 125070 Sub 4 and 5, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Lincoln, Nebr., or New York, N.Y.

No. MC 134717 (Sub-No. 2), filed November 20, 1974. Applicant: DONALD R. MARSHALL, Route 1, Greer, S.C. 29651. Applicant's representative: Mitchell King, Jr., P.O. Box 1628, Greenville, S.C. 29602. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Ground clay*, in containers, from the plantsites of Waverly Mineral Products Co., at or near Meigs, Ga., to points in Delaware, Kentucky, Maryland, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia; and (2) from the plantsites of Waverly Mineral Products Co., at or near Pinewood, S.C.,

XUM

to points in Delaware, Kentucky, Maryland, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Tennessee, Virginia, and West Virginia, under continuing contract with Waverly Mineral Products Co.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 134734 (Sub-No. 19), filed November 22, 1974. Applicant: NATIONAL TRANSPORTATION, INC., 14031 "L" Street, Omaha, Nebr. 68137. Applicant's representative: Lanny N. Fauss, Box 37096, Omaha, Nebr. 68137. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk), from Markham, Wash., to points in Arizona, California, and Nevada, under a continuing contract or contracts with Ocean Spray Cranberries, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Seattle or Portland, Wash.

No. MC 134783 (Sub-No. 27), filed November 25, 1974. Applicant: DIRECT SERVICE, INC., P.O. Box 786, Plainview, Tex. 79072. Applicant's representative: Charles J. Kimball, 2310 Colorado State Bank Bldg., Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Toilet preparations, beauty aids, hair grooming and conditioning aids, cosmetics soap, shaving cream, shampoo, washing compounds, drugs, medicines, store display racks, store displays, and advertising materials*, (1) from the plantsites and storage facilities of Noxell Corporation, at or near Cockeysville, Md. and Holyoke, Mass., to points in and west of Louisiana, Arkansas, Missouri, Iowa and Minnesota, and points in Georgia, Tennessee, Illinois and Indiana; and (2) between the plantsites and storage facilities of Noxell Corporation at or near Cockeysville, Md. and Holyoke, Mass.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Baltimore, Md.

No. MC 134790 (Sub-No. 4), filed November 22, 1974. Applicant: DANIEL C. HAFFNER, and doing business as HAFFNER TRUCKING SERVICE, RR #1, Farmington, Iowa 52626. Applicant's representative: Larry D. Knox, 9th Floor, Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, knocked down or in sections, and *component parts, materials, supplies and fixtures and accessories* used in the erection and construction of buildings, from the facilities of Mitchell Engineering Company located at or near Mt. Pleasant, Iowa, to points in Nebraska, Wyoming, Montana, Idaho, Utah, Nevada, Arizona, Oregon, Washington, New Mexico, Texas, California, Oklahoma, Arkansas, Louisiana, Missouri, Kansas, South Dakota, North Dakota, Minnesota, and Colorado.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Des Moines, Iowa or Omaha, Nebr.

No. MC 134806 (Sub No. 31), filed November 20, 1974. Applicant: B-D-R TRANSPORT, INC., P.O. Box 813, Brattleboro, Vt. 05301. Applicant's representative: Francis J. Ortman, 1100 17th Street, NW., Suite 613, Washington, DC. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tanned leather*, from Sheboygan, Wis., to Wilton, Maine, under contract with G. H. Bass & Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 134806 (Sub-No. 32), filed November 20, 1974. Applicant: B-D-R TRANSPORT, INC., P.O. Box 813, Brattleboro, Vt. 05301. Applicant's representative: Francis J. Ortman, 1100 17th Street NW., Suite 613, Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paints* (except in bulk), *supplies and machinery* for tanning leather, from points in Wisconsin and Illinois, to points in San Francisco, Alameda, Napa, Solano, San Mateo, and Santa Cruz Counties, Calif., under contract with West Coast Tanners Production Club.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 135616 (Sub No. 4), filed Nov. 25, 1974. Applicant: PERRYSBURG TRUCKING CO., INC., 24982 Thompson Road, Perrysburg, Ohio 43551. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th St., NW., Washington, D.C. 20001. Authority sought to operate as a *contract carrier*, by motor vericle, over irregular routes, transporting: *Glass, and materials, equipment and supplies*, used or useful in the manufacture, production and sale of glass (except commodities in bulk), between Upper Sandusky, Ohio, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under a continuing contract with Guardian Industries Corp., at Carleton, Mich.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Toledo, Ohio, or Detroit, Mich.

No. MC 135725 (Sub No. 15), filed November 25, 1974. Applicant: FRY TRUCKING, INC., 507 W. 5th Street, Wilton, Iowa 52778. Applicant's representative: Kenneth F. Dudley, 611 Church Street, P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Feed ingredients, minerals, ground ores, fertilizer ingredients, and pigments*, from Springfield, Ill., to points in the United States (except Alaska and Hawaii) and (2) *materials, equipment, and supplies* used in the manufacture, processing, sale and distribution of the commodities named in (1) above, from points in the United States (except Alaska and Hawaii), to Springfield, Ill.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago or Springfield, Ill.

No. MC 136211 (Sub-No. 27), filed November 13, 1974. Applicant: MERCHANTS HOME DELIVERY SERVICE, INC., P.O. Box 5067, Oxnard, Calif. 93030. Applicant's representative: T. M. Brown, 600 Leininger Building, Oklahoma City, Okla 73112. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New furniture, furnishings, and appliances*, between Nashville, Tenn., on the one hand, and, on the other, points in that part of Kentucky on and within a line beginning at the junction of the Kentucky-Tennessee State Boundary line and Kentucky Highway 139, thence along Kentucky Highway 139 to junction U.S. Highway 62, thence along U.S. Highway 62 junction U.S. Highway 31-E, thence along U.S. Highway 31-E to the Kentucky-Tennessee State Boundary line, thence along the Kentucky-Tennessee State Boundary line to point of beginning, under a continuing contract or contracts with Morris Furniture Stores.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Nashville, Tenn., or Washington, D.C.

No. MC 136222 (Sub-No. 2), filed November 12, 1974. Applicant: MOVERS PORT SERVICE, INCORPORATED, 7035 Convoy Court, San Diego, Calif. 92138. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, in containers, between points in Los Angeles, Orange, Riverside, Imperial, Kern, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, and Ventura Counties, Calif.; Cochise, Maricopa, Pima, Pinal, and Yuma Counties, Ariz.; and Hidalgo County, N. Mex., restricted to the transportation of traffic having a prior or subsequent movement in containers, beyond the points authorized, and further restricted to the performance of packing, crating and containerization or unpacking, uncrating and decontainerization of such traffic.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at San Diego, Calif.

No. MC 136232 (Sub-No. 5), filed November 20, 1974. Applicant: FRALEY'S INCORPORATED, Route 1, Big Stone Gap, Va. 24219. Applicant's representative: Harry J. Jordan, 1000 16th St. NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (a) *Mine roof support bolts*, from Duffield, Va., to points in Kentucky (except those in Harlan and Clay Counties, Ky.), and points in West Virginia (except those in Fayette, Logan, McDowell, Nicholas, Raleigh, Summers, and Wyoming Counties, W.

Va.), under contract with Virginia Birmingham Bolt, Inc., restricted to a transportation service to be performed under a continuing contract, or contracts with Virginia Birmingham Bolt, Inc.; and (b) *mining equipment and supplies*, from Andover (Appalachia), Va., to points in Virginia and Kentucky, restricted to a transportation service to be performed under a continuing contract, or contracts with Central Supply Company of Virginia, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Richmond, Va.

No. MC 136343 (Sub-No. 37), filed November 15, 1974. Applicant: MILTON TRANSPORTATION, INC., P.O. Box 355, Milton, Pa. 17847. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Spheres, highway marking strip glass, and ballotine, and glass*, crushed, ground and powdered, from the facilities of Potters Industries, Inc., at Pottsdam, N.Y., to points in Connecticut, Rhode Island, Maine, New Hampshire, Vermont, Ohio, Pennsylvania, New York, New Jersey, and Massachusetts; and (2) *materials and supplies*, used in the manufacture and sale of glass spheres, and *glass spheres* (except in bulk, in tank vehicles), from points in Massachusetts, New Jersey, New York, Pennsylvania, Ohio, Vermont, New Hampshire, Maine, Rhode Island, and Connecticut, to the facilities of Potters Industries, Inc., at Pottsdam, N.Y.

NOTE.—Applicant holds contract carrier authority in MC 96098 Sub 46, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 136757 (Sub-No. 3), filed November 21, 1974. Applicant: INTERSTATE ROAD RUNNER INCORPORATED, 74–16 Grand Avenue, Maspeth, N.Y. 11378. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Steel tubing, electrical fittings, electrical conduit, microphone stands, pipe and fittings, lamp and lighting fixtures, parts and accessories, and furniture parts and furniture accessories, bicycles and parts and accessories therefor*, and (2) *materials, equipment and supplies* used in the manufacture and distribution, and sale of the commodities in (1) above (except commodities in bulk), between Martins Ferry, Ohio, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted to service to be performed under a continuing contract or contracts with Berger Industries, Inc., of Maspeth, N.Y.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 136757 (Sub-No. 4), filed November 21, 1974. Applicant: INTERSTATE ROAD RUNNER, INCORPORATED, 74–16 Grand Avenue, Maspeth, N.Y. 11378. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting (1) *Steel tubing, electrical fittings, electrical conduit, microphone stands, pipe and fittings, lamp and lighting fixture, parts and accessories, and furniture parts and furniture accessories, bicycles and parts and accessories* therefor, and (2) *materials, equipment and supplies* used in the manufacture and distribution, and sale of the commodities in (1) above (except commodities in bulk), between Atlanta, Ga., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with Berger Industries, Inc., of Maspeth, N.Y.

NOTE.—Applicant states that it can already perform the same identical service on the same commodities to and from the facilities of Berger Industries, Inc., at Maspeth, N.Y., Metuchen, N.J., and Chicago, Ill., and here merely seeks to add the two new facilities of the contracting shipper. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 136762 (Sub-No. 3), filed Nov. 20, 1974. Applicant: OSBORNE HIGHWAY EXPRESS, 127 University Avenue, Berkeley, Calif. 94710. Applicant's representative: Martin J. Rosen, 140 Montgomery Street, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood particle board*, from the plantsite of Fiberboard Corporation, located at Rocklin, Calif., to points in California, Washington, Oregon, Wyoming, Idaho, New Mexico, Utah, Montana, Nevada, Arizona, and Colorado.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 138104 (Sub-No. 18), filed November 18, 1974. Applicant: MOORE TRANSPORTATION CO., INC., 3509 North Grove Street, Fort Worth, Tex. 76106. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers and trailer chassis* (except those designed to be drawn by passenger automobiles), *trailer converter dollies, containers, and refuse bodies*, in initial truckaway service, from the plantsites of Fruehauf Corporation, at or near Omaha, Nebr.; Memphis, Tenn.; Port Madison, Iowa; and Charlotte, N.C., to points in the United States including Alaska, but excluding Hawaii; and (2) *trailers, and trailer chassis* (except those designed to be drawn by passenger automobiles), *trailer converter dollies, containers, and refuse bodies*, in secondary truckaway service, between the plants, agencies, dealerships, and branches of Hobbs Trailer Company, and Fruehauf Corporation, located at points in the United States, including Alaska, but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Detroit, Mich. or Washington, D.C.

No. MC 138336 (Sub-No. 2), filed November 18, 1974. Applicant: CROSSLIN-GRADER CORPORATION, 1022 Sixth Avenue North, Nashville, Tenn. 37208. Applicant's representative: R. Connor Wiggins, Jr., Suite 909, 100 N. Main Building, Memphis, Tenn. 38103. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Household articles, household supplies, and nutritional and dietary foods*, dealt in by The Drackett Products Company, from Urbana, Ohio, and Franklin, Ky., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, Washington, and Wyoming, under contract with The Drackett Products Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Cincinnati, Ohio, or Louisville, Ky.

No. MC 138719 (Sub-No. 5), filed November 25, 1974. Applicant: PATTEN TRUCKING COMPANY, INC., 145 Princeton Road, Brookline, Mass. 02167. Applicant's representative: Theodore Polydoroff, 1250 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and wooden fencing*, from points on the International Boundary line between the United States and Canada, in Clinton County, N.Y., and points in Clinton County, N.Y., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, North Carolina, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia, under a continuing contract or contracts with Northern Mill and Lumber Co.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Philadelphia, Pa.

No. MC 139196 (Sub-No. 5), filed November 14, 1974. Applicant: RAY WAGNER & SON TRUCKING CO., INC., Box 117, Owen, Wis. 54460. Applicant's representative: F. H. Kroeger, 1745 University Avenue, St. Paul, Minn. 55104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mink feed* (except mink feed in liquid, in tank vehicles), from the plantsite and warehouse facilities of Heger Company, at Minneapolis, Minn., to points in McHenry County, Ill., those in the upper peninsula of Michigan, Minnesota, those points in Nebraska on and east of U.S. Highway 83, South Dakota, and Wisconsin (except points in Ashland,

XUM

Brown, Door, Florence, Forest, Iron, Kewaunee, Lincoln, Marathon, Marinette, Oconto, Oneida, Outagamie, Price, Shawano, Taylor, and Vilas Counties).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either St. Paul or Minneapolis, Minn.

No. MC 139425 (Sub-No. 1), filed October 29, 1974. Applicant: HAROLD E. RICH, 14608 Benfield Avenue, Norwalk, Calif. 90650. Applicant's representative: Harold E. Rich (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bakery goods* (fresh and frozen), *bakery racks, advertising material, and bakery goods ingredients*, (1) from points in the Los Angeles, Calif., Commercial and Harbor Zone as defined by the Commission, to Akron, Columbus, and Euclid, Ohio, Albany, Buffalo, and New York, N.Y., Birmingham and Mobile, Ala.; Bismarck and Minot, N. Dak., Boise, Idaho, Boston, Mass., Brentwood, Md., Charleston and Columbia, S.C., Chicago, Ill., Dallas, San Antonio, and Houston, Tex., Denver, Colo., Detroit, Mich., Eugene and Portland, Oreg., Forest Park, Ga., Kansas City and St. Louis, Mo., Las Vegas, Nev., Little Rock, Ark., Louisville, Ky., Memphis and Nashville, Tenn., Miami, Panama, and Tampa, Fla., Milwaukee, Wis., New Orleans, La., Norfolk, Va., Oklahoma City and Tulsa, Okla., Omaha, Nebr., Philadelphia, Pa., Salt Lake City, Utah, Seattle, Wash., Tucson, Ariz., Waterbury, Conn., and Wichita, Kans.; and (2) from Boston, Mass., Cedar Rapids, Iowa, Chicago, Ill., Houston, Tex., Milwaukee, Wis., New York, N.Y., Norfolk, Va., Omaha, Nebr., Philadelphia and Scranton, Pa., and Seattle, Wash., to points in the Los Angeles, Calif., Commercial and Harbor Zone as defined by the Commission, under a continuing contract or contracts with Pogens Family Bakery, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.

No. MC 139495 (Sub-No. 16), filed November 15, 1974. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ice cream*, from the plantsite and storage facilities of Thomas J. Lipton, Inc., located at or near Chicago, Ill., to points in Minnesota, Iowa, Missouri, Arkansas, Louisiana, Texas, Oklabert Alan Dubin, 1819 H Street NW., homa, Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming, Colorado, New Mexico, Arizona, Utah, Idaho, Washington, Oregon, Nevada, and California.

NOTE.—Applicant holds contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 139566 (Sub-No. 4), filed November 18, 1974. Applicant: FEDERAL ARMORED EXPRESS, INC., P.O. Box 333, Baltimore, Md. 21203. Applicant's representative: Timothy M. Biddle, 1100 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Special nuclear materials*, between Lynchburg, Va., and points in Pike County, Ohio, under a continuing contract or contracts with Edlow International Company.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Baltimore, Md.

No. MC 139771 (Sub-No. 2), filed October 17, 1974. Applicant: GAFCO, INC., 1040 West 45th Street, Norfolk, Va. 23508. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic and malt beverages*, in containers, and *tobacco products*, from the facilities of C. H. Peters & Co., Inc., at Norfolk, Va., to the port of entry on the International Boundary line between the United States and Canada at or near Noyes, Minn., under a continuing contract or contracts with C. H. Peters & Co., Inc., restricted to traffic having an immediately subsequent movement in foreign commerce.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139884 (Sub-No. 3), filed November 25, 1974. Applicant: KLIMA, INC., 10650 S.W. Wilsonville Road, Wilsonville, Oreg. 97070. Applicant's representative: Lawrence V. Smart, Jr., 419 N.W. 23rd Avenue, Portland, Oreg. 97210. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Candy, chewing gum, and bakery goods*, from points in Massachusetts, Pennsylvania, New Jersey, Iowa, and Illinois, to Portland, Oreg., and Seattle, Wash., under contract with Northwest Brokerage Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or Seattle, Wash.

No. MC 139947 (Sub-No. 1), filed November 25, 1974. Applicant: BUFFALO TRUCKING, INC., 411 East Frye Road, P.O. Box 640, Chandler, Ariz. 85224. Applicant's representative: Gene Tackett (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Roofing, roofing products, and commodities*, used in the construction and application of roofing or roofs, from Barstow, Camarillo, Corona, Long Beach, Los Angeles, Oakland, Riverside, San Francisco, San Leandro, Santa Clara, South Gate, and Wilmington, Calif., to points in Arizona, under contract with Southwest Roofing Supply, and A & H Supply Co., Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Phoenix or Tucson, Ariz.

No. MC 140063 (Sub-No. 2), filed November 19, 1974. Applicant: CORA H. MABE, BOBBY L. MABE, AND ERNIE M. MABE, a Partnership, doing business as MABE TRUCKING COMPANY, P.O. Box 121, Saltville, Va. 24370. Applicant's representative: Ernie M. Mabe (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips and lumber, and lumber products*, from Saltville, Va., to points in North Carolina, Tennessee, Kentucky, and West Virginia, under a continuing contract or contracts with McWhorter Lumber Company, Inc.

NOTE.—If a hearing is deemed necessary, applicant does not specify a location.

No. MC 140071 (Sub-No. 3), filed November 21, 1974. Applicant: MID-AMERICA CARTAGE, INC., 814 Busse Highway, Park Ridge, Ill. 60068. Applicant's representative: Carl L. Steiner, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Carpeting, padding, and related floor covering materials*, between Chicago, Ill., on the one hand, and, on the other, points in Illinois.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 140194 (Sub-No. 2), filed November 21, 1974. Applicant: CHARLES F. KEPPLER, P.O. Box 367, Clay City, Ill. 62824. Applicant's representative: Robert T. Lawley, 300 Reisch Bldg., Springfield, Ill. 62701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips*, from points in Clay and Richland Counties, Ill., to Terre Haute, Ind.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Chicago, Ill.

No. MC 140309 (Sub-No. 1), filed November 13, 1974. Applicant: A-1 MOVERS TRANSFER & STORAGE, INC., Route 3, Box 66, Mineral Wells, Tex. 76067. Applicant's representative: Billy R. Reid, 6108 Sharon Road, Fort Worth, Tex. 76116. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between Mineral Wells, Tex., on the one hand, and, on the other, points in Palo Pinto, Erath, Hood, Parker, and Somervell Counties, Tex., restricted to the transportation of traffic having prior or subsequent movement in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Fort Worth or Dallas, Tex.

No. MC 140382, filed November 7, 1974. Applicant: BRAUN TRUCKING, INC., North Fourth Street, Leoti, Kans. 67861. Applicant's representative: Joseph F. Nigro, 400 Denver Hilton Office Building, 1515 Cleveland Place, Denver, Colo. 80202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Feed and feed ingredients* (except feed ingredients in liquid form; soy bean meal; cotton seed meal; alfalfa meal; dehydrated and sun cured, whether in bag, bulk, or pelleted), (1) between points in Dodge and Saunders Counties, Nebr., on the one hand, and, on the other, points in Wichita and Sedgwick Counties, Kans.; (2) between points in Dodge and Saunders Counties, Nebr., and Wichita and Sedgwick Counties, Kans., on the one hand, and, on the other, points in Crowley, Otero, Bent, and Prowers, Rio Grande, Alamosa, Costilla, Conejos, and Saguache Counties, Colo.; (3) between Phoenix and Casa Grande, Ariz., and Lubbock, Tex., on the one hand, and, on the other, points in Crowley, Otero, Bent, Prowers, Rio Grande, Alamosa, Costilla, Conejos, and Saguache Counties, Colo.; and (4) between points in Crowley, Otero, Bent, and Prowers Counties, Colo., on the one hand, and, on the other, points in Potter, Randall, and Smith Counties, Tex., Cimarron, Tex., and points in Beaver County, Okla., and Union and Curry Counties, N. Mex., under a continuing contract or contracts with Vern Braun Harvesting Company and Randall Allmendinger, doing business as Allmendinger Commodities.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Denver, Colo., or Wichita, Kans.

No. MC 140399 (Sub-No. 1), filed November 25, 1974. Applicant: ALBERT RELL PECK, doing business as PECK'S, Burna, Ky. 42028. Applicant's representative: Richard H. Peek, Box 8, Smithland, Ky. 42081. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Limestone and limestone products*, from Smithland, Ky., to Massac, Pope, and Hardin Counties, Ill., Mississippi, Stoddard, Scott, and New Madrid Counties, Mo., and Lake, Obion, Dyer, Weakley, Gibson, Henry, and Carroll Counties, Tenn., and (2) *coal and coke*, from Dawson Springs, Ky., to Humphreys and Shelby Counties, Tenn., and Herculaneum, Mo., under contracts with Three Rivers Rock Co. and Chemical Coke Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky.

No. MC 140410, filed November 7, 1974. Applicant: CHARLES ARNETT, a Proprietorship, doing business as GRAIN & PRODUCE, R.R. 2, P.O. Box 367, Corsicana, Tex. 75110. Applicant's representative: Jack H. Blanshan, 39 South LaSalle Street, Room 330, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas and agricultural commodities* exempt from economic regulations under Section 203(b)(6) of the Act, when transported in mixed loads with bananas, from Mobile, Ala., to points in Illinois, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin, restricted to the transportation of traffic having an immediate prior movement by water.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Miami, Fla., or Washington, D.C.

No. MC 140421, filed November 15, 1974. Applicant: ACTION MOTOR EXPRESS, INC., 8303 Old Gentilly Road, P.O. Box 29102, New Orleans, La. 70189. Applicant's representative: Harold R. Ainsworth, 2307 American Bank Building, New Orleans, La. 70130. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cans and can ends*, from Harvey and New Orleans, La., to Alexandria City, Aliceville, Birmingham, and Mobile, Ala.; Jacksonville, Ark.; Contomnment and Pensacola, Fla.; Hattiesburg, Jackson, Morehead, Pascagoula, and Yazoo City, Miss.; and Orange, Port Arthur, Waco, Beaumont, Brownsville, Freeport, Longview, Owentown, and Tyler, Tex.; (2) *pulpboard and corrugated boxes*, knocked down or flat, from Harahan, La., to Alexandria City, Aliceville, Birmingham, and Mobile, Ala.; Jacksonville, Ark.; Contomnment and Pensacola, Fla.; Hattiesburg, Jackson, Pascagoula, and Yazoo City, Miss.; and Beaumont, Brownsville, Freeport, Longview, Orange, Owentown, Port Arthur, Tyler, and Waco, Tex.; (3) *pulpboard, roll paper, and paper bags*, from Hodge, La., to Alexandria City, Aliceville, Birmingham, and Mobile, Ala.; Jacksonville, Ark.; Contomnment and Pensacola, Fla.; Hattiesburg, Jackson, Pascagoula, and Yazoo City, Miss.; and Beaumont, Brownsville, Freeport, Longview, Orange, Owentown, Port Arthur, Tyler, and Waco, Tex.; and (4) *soft drinks*, in cans and bottles, from Gretna and New Orleans, La., to Aliceville, Alexandria City, Mobile, Robertsdale, Tuscaloosa, and Montgomery, Ala.; Panama City, Fla.; Jackson, Ocean Springs, and Pascagoula, Miss.; and Beaumont, Brenham, Corpus Christi, Fort Worth, Houston, and Texarkana, Tex., under a continuing contract or contracts with Louisiana Coca-Cola Bottling Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New Orleans, La.

No. MC 140422, filed November 15, 1974. Applicant: GENE R. THEODORI AND JERRY M. SMIELL, a Partnership, doing business as THEODORI TRUCKING, Box 45, Waltersburg, Pa. 15488. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery*, between points in Fayette County, Pa., on the one hand, and, on the other, points in West Virginia, New Jersey, New York, Maryland, Ohio, and Indiana; and (2) *coal*, in bulk, in dump vehicles, from points in Monongalia, Preston, and Marion Counties, W. Va., to points in Fayette, Greene, and Washington Counties, Pa., restricted to a transportation service under a continuing contract or contracts with Betty Louise Coal Company, Inc., and L. B. Smith, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Pittsburgh, Pa.

APPLICATION(S) OF PASSENGERS

No. MC 124568 (Sub-No. 4), filed October 31, 1974. Applicant: BRITISH COLUMBIA HYDRO AND POWER AUTHORITY, a Crown Corporation, doing business as: PACIFIC STAGE LINES and ROYAL BLUE LINE MOTOR TOURS, 150 Dunsmuir Street, Vancouver, British Columbia, Canada V6B 1W9. Applicant's representative: S. G. Boucher (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, (a) in round trip special operations; and (b) in one-way and round trip charter operations between Ports of entry on the International Boundary line between the United States and Canada including Alaska, and Ports of entry which are termini of ferry services operating between the United States and Canada including Alaska, on the one hand, and, on the other, points in the United States, including Alaska (except California, Idaho, Nevada, Oregon, Washington, and Hawaii), restricted to traffic originating in British Columbia, Canada.

NOTE.—Applicant states it intends to tack the requested authority at points along the California, Idaho, Nevada, Oregon, and Washington State Boundary lines and the International Boundary line between the United States and Canada located at the Yukon Territory to extend its service to all points in the United States (except Hawaii). If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 140254 (Correction), filed September 24, 1974, published in the FEDERAL REGISTER issue of October 24, 1974, and republished as corrected this issue. Applicant: APPOMATTOX TOURS, INC., doing business as APPOMATTOX TOURS, RFD #1, Box 49, Dinwiddie, Va. 23841. Applicant's representative: James B. Porter (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers in round-trip special and charter operations, beginning and ending at points in Dinwiddie and Prince George Counties (including Petersburg, Colonial Heights, and Hopewell), Va., and extending to points in North Carolina, South Carolina, Georgia, Florida, Tennessee, Kentucky, West Virginia, Ohio, Pennsylvania, New York, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine, and the District of Columbia.

NOTE.—The purpose of this correction is to restrictively amend applicant's territorial description. If a hearing is deemed necessary,

the applicant requests it be held at Petersburg, Va.

[illegible] APPLICATION(S)

No. MC 130279, filed November 7, 1974. Applicant: FOUR WINDS TRAVEL, INC., 175 Fifth Avenue, New York, N.Y. 10010. Applicant's representative: Edward F. Bowes, 744 Broad Street, Newark, N.J. 07102. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at New York, N.Y., to sell or offer to sell, transportation by motor vehicle of *passengers and their baggage*, (1) between Flagstaff, Phoenix, and Tucson, Ariz., Los Angeles, Sacramento, and San Francisco, Calif., Denver and Grand Junction, Colo., Browning, East Glacier, Glacier Park, Great Falls, Livingston, and West Glacier, Mont., Albuquerque and Lamy, New Mex., Las Vegas and Reno, Nev., Portland, Oreg., Ogden, Salt Lake City, and Thompson, Utah, Spokane, and Seattle, Wash., Cheyenne, Jackson, and Rock Springs, Wyo., on the one hand, and, on the other, points in Arizona, California, Colorado, Idaho, Montana, New Mexico, Nevada, Oregon, Texas, Utah, Washington, and Wyoming; (2) between Mobile, Ala., and New Orleans, La., Meridian, Miss., El Paso, Houston, and San Antonio, Tex., on the one hand, and, on the other, points in Alabama, Arizona, Florida, Georgia, Louisiana, Mississippi, New Mexico, South Carolina, Tennessee, and Texas; (3) between Bar Harbor and Portland, Maine, Boston, Mass., and the District of Columbia, on the one hand, and, on the other, points in Connecticut, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Virginia; and (4) between points in the International Boundary line between the United States and Canada in Maine, Montana, Vermont, and Washington, on the one hand, and, on the other, points in Maine, Montana, Vermont, and Washington; and (5) between points on the International Boundary line between the United States and the Republic of Mexico, on the one hand, and, on the other, points in Arizona, restricted in (1) through (5) above, to the transportation of passengers of passengers having a prior and/or subsequent transportation by air, water, or land facilities, other than motor carriers, which facilities have been arranged by the broker as part of a tour or trip, in interstate or foreign commerce.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y., or Newark, N.J.

No. MC 130280, filed November 19, 1974. Applicant: THEDA I. REDA AND DAVID R. REDA, a Partnership, doing business as THEDA REDA TRAVEL SERVICE, 811 Third Avenue, New Brighton, Pa. 15066. Applicant's representative: John A. Pillar, 1122 Frick Bldg., Pittsburgh, Pa. 15219. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at New Brighton, Pa., to sell or offer to sell the transportation of *Passengers and their baggage*, in special and charter operations, in round-trip and one way group tours, by motor, air, and rail carriers, between points in Beaver County, Pa., on the one hand, and, on the other, points in the United States, including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Pittsburgh, Pa.

FREIGHT FORWARDER APPLICATION(S)

No. FF-460, filed October 4, 1974. Applicant: CAST NORTH AMERICA LIMITED, doing business as CAST, One Westmount Square, Montreal, Quebec, Canada H3Z2R9. Applicant's representative: Klaus Glussing (same address as applicant). Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by railroad, motor vehicle, water, and express, transporting: *General commodities*, in containers (except household goods as defined by the Commission, unaccompanied baggage, and used motor vehicles), between points in Illinois, Indiana, Michigan, Minnesota, Ohio, Tennessee, West Virginia, and Wisconsin, on the one hand, and, on the other, Montreal, Quebec, Canada (insofar as such transportation takes place within the United States), through points on the International Boundary line between the United States and Canada located in Michigan, Minnesota, New York, and Vermont, restricted to import/export traffic having a prior or subsequent movement by water in applicant's direct water service.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

WATER CARRIER APPLICATION(S)

No. W-1283, filed November 18, 1974. Applicant: AMERICAN CRUISE LINES, INC., Steamboat Landing, Haddam, Conn. 06438. Applicant's representative: J. Raymond Clark, 1250 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to engage in operation, in interstate or foreign commerce, as a *common carrier* by water in the transportation of *Passengers*, by self-propelled vessel, in one way and round trip scheduled excursion cruises, between Eastport and Boothbay, Maine, Boston, Mass., Haddam, Conn., New York, N.Y., Annapolis and Baltimore, Md., Norfolk and Hampton, Va., Charleston, S.C., Jacksonville, St. Augustine, Daytona Beach, and Ft. Lauderdale, Fla., and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Hartford or Middletown, Conn.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON, *Acting Secretary*.

CHILD ABUSE AND NEGLECT PREVENTION AND TREATMENT PROGRAM

V 39 N 245 DEC 19 1974 XUM

Title 45—Public Welfare

SUBTITLE B—OFFICE OF CHILD DEVELOPMENT, OFFICE OF HUMAN DEVELOPMENT, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 1340—CHILD ABUSE AND NEGLECT PREVENTION AND TREATMENT PROGRAM

In the FEDERAL REGISTER of August 28, 1974 (39 FR 31507), a notice of proposed rulemaking was published, in which the policies, procedures, and requirements necessary for implementation of the Child Abuse Prevention and Treatment Act (Public Law 93–247) were set forth. The notice provided for the filing of comments, suggestions, or objections on or before September 27, 1974. Approximately 60 comments were received from 35 agencies, organizations and individuals. The principal comments and the Department's conclusions are as follows:

A. An objection was made to exempting a parent or guardian from being considered negligent where he does not provide specified medical treatment for a child solely because the parent or guardian is legitimately practicing his religious beliefs. A further question was raised whether this exemption would prohibit courts from ordering such treatment. Finally, a comment sought the same type of exception where poverty was the sole reason for the neglect of the parent or guardian.

The Department, having considered these recommendations, concludes that the exception for medical reasons should remain, as a legitimate exception and as an exception required by the legislative intent of the Congress. Such grounds do not apply to an exception on the grounds of poverty. Courts remain free to make such determinations on the grounds of poverty, however, on a case-by-case basis, under State and local law. Finally, in order to clarify the court's continued authority to grant an exception on the grounds of religion, an amendment has been added to § 1340.1–2(b)(1).

B. Suggestions were made to alter the scope of the regulations. Such comments included: (i) extending "child" to include persons mentally retarded, (ii) extending "persons responsible" to include persons such as day care and day school personnel, and (iii) extending States eligible for State grants to include jurisdictions beyond the 50 States (such as the Commonwealth of Puerto Rico and the District of Columbia). Other additions were suggested as to the eligibility of (i) various Indian groups for State, research and demonstration grants, (ii) colleges and universities for research and demonstration grants, (iii) varying ethnic groups for innovative demonstration grants, and (iv) potential applicants without discrimination on the basis of sex. Finally, a comment asked that the female as well as the male gender be used in the regulations.

The Department, having considered these suggestions, concludes that no extension of the scope of the regulations is permitted by or necessary under the Act as to age, responsible persons, or eligible applicants for any grants. All public agencies or non-profit private agencies are eligible for research and demonstration grants. Because of their unique position in relationship to States, however, the Indian tribal governments have been explicitly included as potential parties to purchase agreements with States that receive State grants. This amendment has been added to § 1340.3–2(b).

In regard to differentiation on the basis of sex, the policy of the Department prohibits such discrimination in awarding grants. As a clarification, however, of the scope of words of the male gender, a new paragraph (j) has been added to § 1340.1–2.

C. A suggestion was made that the training of professionals and paraprofessionals, which was included in Public Law 93–247, be added to the regulation. The Department agrees and therefore has amended § 1340.2–3 accordingly.

D. Several comments, questions and objections were raised in reference to the impact of the regulation on the program under Title IV–A and IV–B of the Social Security Act, particularly in regard to the "single State agency," the State agency administering or supervising the administration of the State plan under Title IV–A and IV–B of the Social Security Act. One set of recommendations suggested requiring that all research, demonstration and State applications be cleared by or submitted by such agency. Other comments questioned whether this regulation goes beyond the requirements of the Act in regard to (i) which, if any, requirements the single State agency must meet, (ii) whether the detailed requirements may appear in Part 220 of 45 CFR, (iii) whether Title IV–A and IV–B money may be used for State grants under P.L. 93–247, and (iv) whether the date of the effect of the regulations impacting on the Title IV–A and IV–B program is reasonable or should appear as it does, in § 1340.3–4(c).

These recommendations have been considered by the Department, with the conclusion that the requirements imposed with regard to the Title IV–A and IV–B program are legal and in fact are required by § 4(b)(3) of P.L. 93–247, and should not be altered in scope, date of effect, or placement in the regulations. The procedures and requirements for § 4(b)(1) *State grants* are legal and are imposed on the *State, not on an agency*. P.L. 93–247 specified no procedures for approving or selecting State or research and demonstration grants, and it is the policy of the Department that neither the Governor, acting on behalf of the State in designating an applicant for a State grant, nor the Department in selecting recipients of demonstration grants, should have preselections made for them. Finally, the funds for State grants under P.L. 93–247 will, of course, be dispersed under that authority, rather than under the Social Security Act.

E. Questions were raised about the meaning and scope of the requirement that the State require and receive reports of known or suspected instances of child abuse and neglect. Such questions included whether neglect need be reported, and what authority or authorities must be able to receive reports.

These questions have been considered by the Department, with the following conclusions. The language requiring reports of child neglect as well as abuse is sufficiently clear. However, in order to eliminate possible confusion, language has been added to § 1340.3–3(d)(2), enabling the State to receive reports through "one or more duly constituted authorities" capable of receiving such reports at any hour. There need not be one authority that receives all such reports. And, in fact, a second duly constituted authority must receive reports for the acts or omissions of child abuse and neglect committed by a duly constituted authority.

F. Recommendations were made as to the requirement of conducting a "prompt investigation," upon receipt of a report of a known or suspected instance of child abuse and neglect. It was suggested that "prompt" be given a flexible meaning and that certain emergency services be included as suggested "immediate steps," that might be taken upon a finding of an incident of child abuse or neglect.

The Department has considered these comments. It has concluded that no further language is necessary to permit the "flexible" approach suggested. An amendment, however, has been made to § 1340.3–3(d)(3)(ii) to include the other suggested immediate steps.

G. Questions were raised as to the meanings of "effectively" and "throughout the State," in regard to procedures, staff, etc., the State must have in operation as one of the requirements for State grant eligibility.

Having considered these comments, the Department concludes that no changes in the regulation are necessary. The term "effectively" requires the four operational procedures specified; other required procedures will be adjudged on a flexible case-by-case basis, in keeping with the intent of Congress. The term "throughout the State" does require that services be provided everywhere, although they may be supplied from a central rather than a local office.

H. A number of comments addressed the procedure required and the exceptions suggested for preserving the confidentiality of child abuse and neglect records. In particular, the requirement that the State have a law or laws as the means of preserving confidentiality was questioned. Some conflicting suggestions were made as to the persons who might be excepted by the State from confidentiality requirements: Parents, the child, legislators, and researchers were among the exceptions that should *not* be followed according to one suggestion. Another comment suggested that not only should parents and guardians be excepted and allowed to see the records, but that all other persons be required to state why they wish to see the record and gain the permission of the allegedly abusing parent or guardian.

The suggestions have been considered. The Department has concluded that a

State law(s) is an allowable procedure (no procedure is stated in the law) and in keeping with the importance of confidentiality provides a stronger, more effective safeguard to the rights of children, their parents, or guardians than other methods of protection. On the other hand, to require that all persons seeking access to the records gain the permission of an allegedly abusing or neglecting parent or guardian would drastically hamper the reporting process and the use of information in the record. Finally, all of the exceptions to the confidentiality law are suggested, not required; but they all have a substantial, rational basis and would be beneficial.

I. Requests were made for clarification of some terms in regard to State grants. Among these were: (i) Does the maintenance of effort section apply to (and only to) *State* support of child abuse and neglect program; and (ii) what is the meaning of the term "preferential treatment," to be accorded by States to parental organizations combatting child abuse and neglect?

These comments have been considered by the Department, with conclusions as follows: (i) It is the *State* support that must be maintained at the same level as in Federal Fiscal Year 1973, and an amendment to such an effect has been added to § 1340.3–3(d)(8); and (ii) preferential treatment will be judged on a case-by-case basis on the basis of State plans, procedures, and rulings.

Effective date. This part shall become effective December 19, 1974; *Provided, however,* That with respect to the requirements imposed upon the single State agency in regard to new or continued eligibility for Federal financial assistance for programs or projects related to child abuse and neglect assisted under Part A or B of Title IV of the Social Security Act, the effective date shall be July 1, 1975, or the close of the next legislative session, whichever is later.

Dated: December 13, 1974.

CASPAR W. WEINBERGER,
Secretary.

Subtitle B of 45 CFR Chapter XIII is amended by adding Part 1340 as follows:

Subpart A—General Provisions

Sec.
1340.1–1 Purpose of the program.
1340.1–2 Definitions.
1340.1–3 General administrative requirements.
1340.1–4 Application for a grant.
1340.1–5 Awards.
1340.1–6 Conflict of interest.
1340.1–7 Non-allowable costs.
1340.1–8 Grant appeals.
1340.1–9 Civil rights.
1340.1–10 Non-discrimination of handicapped.
1340.1–11 Project duration.
1340.1–12 Program and project plan amendments.
1340.1–13 Protection of human subjects.
1340.1–14 Publications and copyright policy.
1340.1–15 Reports.

Subpart B—Demonstrations, Technical Assistance, and Other Activities

Sec.
1340.2–1 Demonstrations.
1340.2–2 Technical assistance.
1340.2–3 Training materials and Training.
1340.2–4 Research.
1340.2–5 Confidential information.

Subpart C—Child Abuse and Neglect Grants to States Under the Act and Under Title IV of the Social Security Act

1340.3–1 Purpose and eligible applicants.
1340.3–2 Establishment of compliance.
1340.3–3 Qualification for assistance.
1340.3–4 Approval of compliance statements and plan amendments.
1340.3–5 Approval of applications, plan amendments, and funds.
1340.3–6 Funds available.
1340.3–7 Allocation of funds available.
1340.3–8 Reallocation of funds available.

AUTHORITY: Sec. 3, 88 Stat. 5 (Sec. 3, Pub. L. 93–247); Sec. 4(d), 88 Stat. 7 (Sec. 4(d), Pub. L. 93–247).

Subpart A—General

§ 1340.1–1 Purpose of the program.

(a) The basic purpose of this program is to assist States and localities, and nonprofit private organizations in carrying out their responsibilities for the protection of children and for the amelioration of their environment, particularly as an integral part of a family unit whose adult member(s) need help in coping with emotional or environmental stresses.

(b) The main thrust of this program effort is to assist State, local, and voluntary agencies and organizations to strengthen their capacities to develop programs that will:

(1) Prevent child abuse and neglect;

(2) Identify abused and neglected children; and

(3) Provide necessary ameliorative services to them and their families.

(c) In order to achieve this purpose, the National Center on Child Abuse and Neglect will:

(1) Develop, gather, analyze, and disseminate information on child abuse and neglect research, public and private programs, training materials, and the national incidence of child abuse and neglect;

(2) Provide technical assistance to public agencies and nonprofit private organizations to assist them in their activities relating to the prevention, identification, and treatment of child abuse and neglect;

(3) Conduct research in order to develop new techniques in identifying, preventing, and treating child abuse and neglect; and

(4) Make grants and enter into contracts for demonstrations and program models designed to develop and establish improved training programs, more effective service delivery vehicles, and for other innovative programs and projects showing promise of successfully preventing or treating child abuse and neglect.

(d) In seeking to directly assist and encourage States to improve their capacity to identify, prevent, and treat child abuse and neglect, the Secretary will:

(1) Provide Federal financial assistance under the Act to States meeting the requirements therefore; such assistance is designed to enable States to develop, strengthen, and carry out activities related to child abuse and neglect and

(2) Require the single State agencies to meet specified requirements in order to receive assistance for activities related to child abuse and neglect assisted under Part A or B of Title IV of the Social Security Act.

§ 1340.1–2 Definitions.

For purposes of this part—

(a) "Act" means the Child Abuse Prevention and Treatment Act, 88 Stat. 4 (Pub. L. 93–247), unless otherwise specified.

(b) "Child abuse and neglect" means harm or threatened harm to a child's health or welfare by a person responsible for the child's health or welfare.

(1) "Harm or threatened harm to a child's health or welfare" can occur through: Non-accidental physical or mental injury; sexual abuse, as defined by State law; or negligent treatment or maltreatment, including the failure to provide adequate food, clothing, or shelter. *Provided,* However, that a parent or guardian legitimately practicing his religious beliefs who thereby does not provide specified medical treatment for a child, for that reason alone shall not be considered a negligent parent or guardian; *However,* such an exception shall not preclude a court from ordering that medical services be provided to the child, where his health requires it.

(2) "Child" means a person under the age of eighteen.

(3) "A person responsible for a child's health or welfare" includes the child's parent, guardian, or other person responsible for the child's health or welfare, whether in the same home as the child, a relative's home, a foster care home, or a residential institution.

(c) "Director" means the Director of the Office of Child Development.

(d) (1) "Facility" means a building or portion thereof used to house programs or services designed to treat or prevent child abuse and neglect such as attention homes; emergency shelters; nurseries or treatment rooms or wards; central reporting registers; hot line services; diagnostic treatment and training centers; hospital emergency rooms and neighborhood health centers; and other services or programs established to deal with the prevention and treatment of child abuse and neglect.

(2) "Repair or minor remodeling or alteration of an existing facility" means the physical modification of the facility, the cost of which must be reasonable in relation to the total proposed cost of the program or project and is consistent with the provisions of Chapter I–44 of the Grants Administration Manual of the Department of Health, Education, and Welfare.

(e) "Non-profit private organization" means a corporation or association, the income of which is exempt from taxation under section 501(c)(3) of the Internal Revenue Code of 1954.

XUM
DEC 19 1974
XUM

(f) "Project period" means the total period of time for which a project is approved for support with Federal funds.

(g) "Secretary" means the Secretary of the Department of Health, Education, and Welfare.

(h) "State" means one of the fifty States.

(i) "The single State agency" means the State agency administering or supervising the administration of the State plan under title IV–A and IV–B of the Social Security Act.

(j) As used in this part, words importing the masculine gender may be applied to female persons or organizations.

§ 1340.1–3 General administrative requirements.

(a) The provisions of Part 74 of this title shall apply to all grants made under this part to units of State and local government, as defined in Part 74 of this title, and the following subparts of Part 74 shall apply to grants to nonprofit private organizations:

Subpart:	*Subject*
A	General.
B	Cash depositories.
C	Bonding and insurance.
D	Retention and custodial requirements for records.
F	Grant-related income.
K	Grant payment requirements.
L	Budget revision procedures.
M	Grant closeout, suspension, and termination.
O	Property.
Q	Cost principles.

(b) Any contract under this part shall be entered into in accordance with and shall conform to all applicable laws, regulations, and other published Departmental policy.

§ 1340.1–4 Application for a grant.

(a) An application for a grant under this part shall be submitted by such time and in such form and manner as the Director may prescribe. The application shall contain a budget and narrative plan of the manner in which the applicant intends to conduct the project and carry out the applicable requirements of this part.

(b) The application must be signed by an individual authorized to act for the applicant and to assume for the applicant the obligations imposed by the statute, the applicable regulations of this part, and any additional conditions of the grant.

§ 1340.1–5 Awards.

All grant awards and contract awards for programs or projects under the Act shall be in writing and shall constitute the encumbrance of the Federal funds awarded. An award shall specify the project period.

§ 1340.1–6 Conflict of interest.

Employees or individuals participating in a program or project under the Act shall not use their positions for a purpose that is, or gives the appearance of being motivated by a desire for private gain for themselves, or others, particularly those with whom they have family, business or other ties.

§ 1340.1–7 Non-allowable costs.

(a) Federal financial assistance is not available under the Act for the construction of facilities.

(b) No Federal financial assistance may be furnished under the Act for the cost of activities for which payment is made under another part of this chapter or under other authority for the same purpose.

§ 1340.1–8 Grant appeals.

When a post-award dispute arises in the administration of grants under the Act following certain determinations adverse to a grantee, the grantee may apply for a review of such determination in accordance with the provisions of Subtitle A, Part 16, of this title.

§ 1340.1–9 Civil rights.

Attention is called to the requirements of title VI of the Civil Rights Act of 1964 (78 Stat. 252 (42 U.S.C. 2000d et seq.)) and in particular section 601 of such act, which provides that no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such title VI, which applies to grants and contracts made under this part, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

§ 1340.1–10 Non-discrimination of handicapped.

No otherwise qualified handicapped individual shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination in any program, project, or activity assisted under the Act. No otherwise qualified individual shall be denied employment in any program, project, or activity assisted under this part solely because of a physical or mental disability (Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794)).

§ 1340.1–11 Project duration.

Programs and projects may be approved for a period not to exceed five years. Program and project budgets must be submitted and will be reviewed and approved annually.

§ 1340.1–12 Program and project plan amendments.

(a) The grantee shall submit an amendment describing any material change in the plan of his program or project proposed to be made during the project period. Proposed program or project plan amendments shall be submitted in writing for appropriate review prior to consideration by the Director.

(b) Proposed program and project plan amendments may be initiated by the Director if, on the basis of reports, it appears that Federal funds are being used for purposes beyond the scope of the approved project application.

§ 1340.1–13 Protection of human subjects.

The provisions of Part 46 of Subtitle A of this part, the Protection of Human Subjects, shall apply to all grants and contracts assisted under the Act supporting research, development, and related activities in which human subjects at risk, as defined in 45 CFR Subtitle A, § 46.3(b), are involved.

§ 1340.1–14 Publications and copyright policy.

(a) The results of any activity supported under this part may be published without prior review by the Department: *Provided*, That such publication's preface shall acknowledge the Federal assistance received and stating that interpretations of data do not necessarily represent interpretations of the Department and *Provided, further*, that 35 copies of such publication are furnished to the Department.

(b) Where a project activity leads to the publication of a book or other copyrighted material, the author is free to copyright the work, but the Department reserves royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, all copyrightable or copyrighted material resulting from the grant-supported activity. Any such publication shall contain a notice of such license.

§ 1340.1–15 Reports.

Reports shall be made to the Director in such form and containing such information as the Director may find necessary to enable the Director to perform his functions under this part.

Subpart B—Demonstrations, Technical Assistance, and Other Activities

§ 1340.2–1 Demonstrations.

(a) *Eligible applicants or contractors.* The Director will make grants to or enter into contracts with public agencies or nonprofit private organizations (or combinations thereof) for demonstration programs and projects.

(b) *Nature of demonstration programs and projects.* (1) Such demonstrations may include, but are not limited to pilot or experimental efforts to provide additional and more effective ways of preventing, identifying or treating child abuse and neglect than are currently available; testing the feasibility of providing child abuse and neglect services in new settings or under new conditions; innovative programs and methods of providing preventive and treatment services in urban and in rural areas; methods of coordinating most effectively the variety of disciplines and agencies involved in child abuse and neglect; the establishment and maintenance of facilities, such as central registers, satellite centers, attention homes, emergency shelters, hospital emergency rooms, neighborhood health centers, and "hot lines"; provision of consultation by teams to small communities; programs

for the prevention and treatment of child abuse related to drug abuse; and, parent self-help projects and programs.

(2) All such demonstrations shall be evaluated, either as a part of the program or project or through a separate contractual effort. All demonstration programs should include provisions for continuing the program within the agency or organization or under other auspices upon the termination of funding under the Act. These provisions should be reasonable and firm commitments rather than hopeful expectations.

(c) *Manner of solicitations.* (1) Grant applications will be solicited through Program Announcements specifying the project goals and objectives for which applications are being solicited, the criteria by which they will be judged, the amount of funds available for such grants, and the deadline for receipt of applications.

(2) Contracts will be awarded in accordance with the procurement regulations of the Department of Health, Education, and Welfare (41 CFR Subtitle A, Part 3).

(d) *Per centum of appropriation.* Not less than 50 per centum of the funds appropriated under the Act for any fiscal year shall be used for carrying out the provisions of subsection 4(a) of the Act.

(e) *Special criterion for selection—equitable distribution.* (1) The formula prescribed in § 1340.3–7, which includes for each State a minimum amount and an additional amount based on the number of children under the age of eighteen, is designed to achieve equitable distribution of assistance among the States.

(2) In the selection of applications submitted under this subpart which are judged to be of approximately equal merit, the Director will take into account the extent to which the selection of one applicant as against the other may achieve equitable distribution of assistance among geographic areas of the Nation and among rural and urban areas.

§ 1340.2–2 Technical assistance.

Technical assistance authorized in subsection 2(b)(4) of the Act will be furnished by the National Center on Child Abuse and Neglect, directly or by contract, to public agencies and nonprofit private organizations to assist them in planning, improving, developing and carrying out programs and activities relating to the prevention, identification, and treatment of child abuse and neglect.

§ 1340.2–3 Training materials and Training.

The National Center on Child Abuse and Neglect, directly or through contracts, will develop, compile and publish training materials and conduct training for personnel who are engaged or intend to engage in the prevention, identification, and treatment of child abuse and neglect.

§ 1340.2–4 Research.

The National Center on Child Abuse and Neglect will conduct research into the causes of child abuse and neglect and into the prevention, identification, and treatment thereof. Such research will include a complete and full study and investigation of the national incidence of child abuse and neglect, including a determination of the extent to which incidents of child abuse and neglect are increasing in number or severity.

§ 1340.2–5 Confidential information.

(a) All information including lists of names, addresses, photographs and records of evaluation, obtained as to personal facts about individuals served by any demonstration, research, training or technical assistance project or program assisted under the Act shall be held to be confidential and may not be disclosed except as provided in paragraph (b).

(b) The use of such information and records shall be limited to purposes directly connected with the administration of the program or project, including evaluations thereof conducted under contract from the Department of Health, Education, and Welfare, and such information may not be disclosed, directly or indirectly, other than for such a purpose thereof or pursuant to the requirements of § 1340.3–3(d)(5), unless the written consent of the agency providing the information and the individual to whom the information applies or his representative has been obtained. No report or other documentation of a program or project to be disclosed outside the program or project may contain information that might serve to identify any person without his written consent or that of his representative.

Subpart C—Child Abuse and Neglect Grants to States Under the Act and Under Title IV of the Social Security Act

§ 1340.3–1 Purpose and eligible applicants.

(a) States that qualify under § 1340.3–2, may receive grants to initiate or continue the support of programs or projects of the State or one of its political subdivisions which can be expected to assist the State in developing, strengthening, and carrying out child abuse and neglect prevention and treatment programs. The Act also requires that the single State agency comply with certain requirements in order to begin or continue the receipt of funds for programs or projects related to child abuse and neglect assisted under Part A or B of Title IV of the Social Security Act.

(b) This subpart describes the process States must follow to establish their compliance and to apply for funds provided under section 4(b)(1) of the Act (Pub. L. 93–247). The process the single State agency must follow to establish compliance under the Act (and under the Social Security Act) is described in 45 CFR Part 220.

§ 1340.3–2 Establishment of compliance.

(a)(1) In order to be eligible for Federal financial assistance for programs or projects related to child abuse and neglect assisted under section 4(b)(1) of this Act, a State shall provide, in such form and with such documentation as the Secretary may require, a statement that the State meets the requirements of the Act and of this part, signed by the Governor. All legal opinions shall be certified by the Attorney General of the State.

(2) In order to be eligible for Federal financial assistance for programs or projects related to child abuse and neglect assisted under Part A or B of Title IV of the Social Security Act, the single State agency shall provide, in such form and with such documentation as the Secretary may require, a statement that it meets the requirements of the Act (Pub. L. 93–247) and the Social Security Act, in accordance with regulations published in 45 CFR Part 220.

(3) For programs or projects funded under section 4(b)(1) of the Act, the requirements are set forth in § 1340.3–3 (d)(1)–(10). For programs or projects funded under Part A or B of Title IV of the Social Security Act, the requirements are set forth in 45 CFR 220.

(b) Whichever State office, agency, or organization is designated by the Governor, may apply for financial assistance under section 4(b)(1) for the payment of reasonable and necessary expenses in developing, strengthening, and carrying out child abuse and neglect prevention and treatment programs. Such State office, agency, or organization need not be limited in its mandate or activities to child abuse and neglect. Such State office, agency, or organization designated by the Governor may enter into purchase agreements with other offices, agencies, or organizations (including Indian Tribal governments) to conduct activities under the grant. The application for such funds shall include a description of the activities presently conducted by the State and its political subdivisions in relation to preventing and treating child abuse and neglect, the activities to be assisted under the grant, a statement of how the proposed activities are expected to develop, strengthen or carry out child abuse prevention and treatment programs, together with a budget in the form and detail and in accordance with the procedures prescribed by the Secretary, and such additional information in such form and with such documentation as the Secretary may require.

§ 1340.3–3 Qualification for assistance.

(a) The Act enumerates ten elements of a comprehensive system to prevent and treat child abuse and neglect which a State must have in order to qualify for assistance under section 4(b)(1). The enactment of identical laws and procedures in the States is not necessary. Rather, as its purpose, the Act seeks to insure that all States receiving assistance under this subsection (in meeting the ten requirements) must provide what may be grouped into four fundamental child protective capabilities: (1) Detection through third party reporting of children in danger, including mandatory and permissive reporting of suspected child abuse and neglect; (2) child protective services to provide non-criminal

investigations for the verification of reports, to provide immediate protection of children through such means as protective custody, and to provide rehabilitative and ameliorative services; (3) juvenile or family court action to remove a child or to impose treatment services; and (4) law enforcement investigations and criminal court prosecution, when appropriate.

(b) Similarly, it is not necessary for States to adopt language for the definition of "child abuse and neglect" identical to that used in the Act. A State definition which is the same in substance as the one set forth in this part will be sufficient. In addition, nothing in this part is intended to prevent a State from further elaborating on the definition or from providing additional grounds to consider a child abused or neglected. This part takes this approach in recognition of the need to allow and encourage flexibility and innovation in light of the diverse local conditions found from State to State and community to community.

(c) Finally, in order to facilitate compliance, this part makes a distinction between requirements that can be satisfied by a specific State law and those that can be satisfied by a legally authorized and legally binding administrative procedure, if certified by the State's Attorney General.

(d) In order for a State to qualify for assistance under section 4(b)(1) of the Act, the State shall satisfy each of the following ten requirements:

(1) The State must have in effect a child abuse and neglect law which includes provisions for immunity for all persons reporting, whether mandated by law or not, instances of known or reasonably suspected child abuse and neglect, from civil or criminal prosecution under any State or local law, arising out of such reporting. In the absence of a specific statutory provision in an existing child abuse and neglect reporting law, this requirement may be satisfied, but only until July 1, 1975, or the close of the next session of the State legislature, whichever is later, by a legal opinion of the State's Attorney General holding that such immunity exists under State law.

(2)(i) The State must provide for the reporting of known or suspected instances of child abuse and neglect. This requirement shall be deemed satisfied if a State requires specified persons by law, and has a law or administrative procedure which requires, allows, or encourages all other citizens, to report known or suspected instances of child abuse and neglect to one or more properly constituted authorities with the power and responsibility to perform an investigation and take necessary ameliorative and protective steps as required in paragraph (3). A properly constituted authority may include the police, the juvenile court or any agency thereof, or a legally mandated, public or private child protective agency; *Provided*, However, that a properly constituted authority must be an agency other than the agency, institution or facility involved in the acts or omissions, if the report of child abuse and neglect involves the acts or omissions of a public or private agency or other institution or facility.

(ii) In the absence of a specific statute, the requirements of this subsection may be satisfied by an opinion of the State Attorney General holding that the State administrative procedures in this regard are legally binding.

(3)(i) A State must provide that upon the receipt of a report of known or suspected instance of child abuse or neglect an appropriate investigation by a properly constituted authority shall be initiated promptly to substantiate the accuracy of the report. Such investigation may include contact with central registers, field investigations and interviews, home visits, consultation with other agencies, medical examinations, and psychological and social evaluations.

(ii) The State must provide further that, upon a finding of abuse or neglect, immediate steps, as required by law and/or administrative procedure, shall be taken to protect the health and welfare of the abused or neglected child, as well as that of any other child under the same care who may be in danger of abuse or neglect. Such steps may include multidisciplinary teams, instruction in education for parenthood, protective and preventive social counselling, foster care, emergency caretaker service, emergency homemaker service, emergency shelter care, emergency medical service, and, if appropriate, criminal court or juvenile court action, in order to protect the child and help strengthen the family, help the parents in their child rearing responsibilities, and if necessary, remove the child from a dangerous situation.

(4) The State must demonstrate that there are in effect throughout the State, in connection with the enforcement of child abuse and neglect laws and with the reporting of suspected instances of child abuse and neglect, such administrative procedures, such personnel trained in child abuse and neglect prevention and treatment, such training procedures, such institutional and other facilities (public and private), and such related multidisciplinary programs and services as may be necessary or appropriate to assure that the State has operational procedures and capabilities sufficient to deal effectively with child abuse and neglect cases in the State. Such operational procedures and capabilities shall include: provision for receipt, investigation and verification of reports; provision for the determination of treatment or ameliorative social service and medical needs; provision of such services; and, when necessary, resort to criminal or juvenile court.

(5) The State must provide for methods to preserve the confidentiality of all records concerning reports of child abuse and neglect in order to protect the rights of the child, his parents or guardians. This section shall be satisfied only if a State has a law which makes such records confidential and which makes any person who permits or encourages the unauthorized dissemination of their contents guilty of a crime. Such law may allow access to such records but only to the following agencies and persons: (i) A legally mandated, public or private child protective agency investigating a report of known or suspected child abuse or neglect or treating a child or family which is the subject of a report or record; (ii) a police or other law enforcement agency investigating a report of known or suspected child abuse or neglect; (iii) a physician who has before him a child whom he reasonably suspects may be abused or neglected; (iv) a person legally authorized to place a child in protective custody when such person has before him a child whom he reasonably suspects may be abused or neglected and such person requires the information in the report or record in order to determine whether to place the child in protective custody; (v) an agency having the legal responsibility or authorization to care for, treat, or supervise a child who is the subject of a report or record, or a parent, guardian, or other person who is responsible for the child's welfare; (vi) any person named in the report or record who is alleged to be abused or neglected; if the person named in the report or record is a minor or is otherwise incompetent, his guardian ad litem; (vii) a parent, guardian, or other person responsible for the welfare of a child named in a report or record, with protection for the identity of reporters and other appropriate persons; (viii) a court, upon its finding that access to such records may be necessary for determination of an issue before such court, but such access shall be limited to in camera inspection, unless the court determines that public disclosure of the information contained therein is necessary for the resolution of an issue then pending before it; (ix) a grand jury upon its determination that access to such records is necessary in the conduct of its official business; (x) any appropriate State or local official responsible for the child protective service or legislation carrying out his official functions; (xi) any person engaged in a bona fide research purpose, provided, however, that no information identifying the subjects of the report shall be made available to the researcher unless it is absolutely essential to the research purpose and the appropriate State official gives prior approval. Nothing in these regulations is intended to affect a State's laws or procedures concerning the confidentiality of its criminal court and its criminal justice system.

(6) The State must provide for the cooperation of law enforcement officials, courts of competent jurisdiction, and all appropriate State agencies providing human services in relation to preventing, identifying and treating child abuse and neglect. Such cooperation may include joint consultation and services, joint planning, joint case management, joint public education and information service, utilization of each other's facilities, and joint staff and other training.

(7) The State must provide that in every case involving an abused or ne-

glected child which results in a judicial proceeding, a guardian ad litem shall be appointed to represent the child in such proceedings. The requirement of this clause may be satisfied by a State law or by a legal opinion of the State's Attorney General holding that such appointments can be made, and by a statement from the Governor that such appointments are made, in all cases. Such guardian ad litem need not be an attorney; however, such representative may be an attorney charged with the presentation in a judicial proceeding of the evidence alleged to amount to the abuse and neglect, so long as his legal responsibility includes representing the rights, interests, welfare, and well-being of the child; where such appointments are made, the legal opinion of the State Attorney General must specify that such attorney has said legal responsibility.

(8) The State must provide that the aggregate of State support for programs or projects related to child abuse and neglect assisted by State funds shall not be reduced below the level provided during Federal fiscal year 1973, and set forth policies and procedures designed to assure that Federal funds made available under this Act for any fiscal year will be so used as to supplement and, to the extent practicable, increase the level of State funds which would, in the absence of Federal funds, be available for such programs and projects.

(9) The State must provide for dissemination of information to the general public with respect to the problem of child abuse and neglect and the facilities and the prevention and treatment methods available to combat instances of child abuse and neglect; and

(10) To the extent feasible, the State must insure that parental organizations combating child abuse and neglect, as recognized by the State, receive preferential treatment.

§ 1340.3–4 Approval of compliance statements and plan amendments.

(a) The Secretary shall approve a compliance statement submitted under this subpart if he finds that it meets the requirements of this subpart and of the Act.

(b) If a State does not appear to meet the requirements of this subpart, the State will be provided reasonable opportunity to qualify before final action on the application or continued extension of funds is taken by the Secretary.

(c) The requirement that a single State agency must comply with section 4(b)(3) of the Act and 45 CFR Part 220 in order to continue receiving funds for programs or projects related to child abuse and neglect assisted under Part A or B of Title IV of the Social Security Act shall take effect on July 1, 1975, or the close of the State's next legislative session, whichever is later.

§ 1340.3–5 Approval of applications, plan amendments, and funds.

(a) The Secretary shall approve an application for funds under section 4(b)(1) of the Act if he finds: (1) That the State applying for such funds qualifies for such funds under section 4(b)(2) of the Act, (2) that the funds are intended to be used to develop, strengthen, or carry out child abuse or neglect prevention or treatment programs, (3) that the State is otherwise in compliance with these regulations, and (4) that the funds requested are within the State's allocation as determined pursuant to § 1340.3–7.

(b) The Secretary shall approve the initial or continued use of funds for the single State agency's programs or projects related to child abuse and neglect assisted under Part A or B of Title IV of the Social Security Act if he finds that the single State agency qualifies for such funds under the Act (Pub. L. 93–247) and under the Social Security Act, in accordance with the regulations published in 45 CFR Part 220.

§ 1340.3–6 Funds available.

Not less than 5 per centum and not more than 20 per centum of the sums appropriated under the Act shall be used by the Secretary for making grants to the States under subsection 4(b)(1) of the Act.

§ 1340.3–7 Allocation of funds available.

(a) Funds available for grants to States for a fiscal year under section 4(b)(1) of the Act shall be allocated among the States on the basis of the following criteria:

(1) An amount of $20,000, or such other amount as the Secretary may determine, for a fiscal year, plus,

(2) An additional amount bearing the same ratio to the total amount made available for this purpose (after providing for the minimum amounts in paragraph (1) as the number of children under the age of eighteen in each State bears to the total number of children under eighteen in all the States. The number of children under the age of eighteen to be used in this allocation shall be the number as determined by official estimates furnished to the Secretary by the Department of Commerce by October 1 of the fiscal year for which Federal grant funds are appropriated.

(b) The Director will announce the allocations available to the States under section 4(b)(1) of the Act and this subpart.

§ 1340.3–8 Reallocation of funds available.

If a State has not qualified for assistance under section 4(b)(1) of the Act prior to the date designated by the Secretary in each fiscal year, the amount previously allocated to that State under § 1340.3–7 shall be used by the National Center on Child Abuse and Neglect for such purposes under the Act as the Secretary shall determine.

HOUSING ASSISTANCE PAYMENTS PROGRAM

Fair Market Rents and Contract Rents; Automatic Annual Adjustment Factors

V 39 I 245 DEC 19 1974 XUM

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Low Rent Public Housing

[24 CFR Part 1280]

[Docket No. R-74-811]

HOUSING ASSISTANCE PAYMENTS PROGRAM

Fair Market Rents and Contract Rents Automatic Annual Adjustment Factors

The Department of Housing and Urban Development (HUD) hereby amends Title 24 CFR, Chapter VIII by adding a new Part 1280 which sets forth (1) the HUD-determined "Fair Market Rents" for the section 8 Housing Assistance Payments Program, and (2) the Automatic Annual Adjustment Factors (Adjustment Factors) to be used for the automatic annual adjustment of rents specified in Housing Assistance Payments Contracts for the section 8 New Construction and Substantial Rehabilitation Programs.

Part 1280 includes (1) a Subpart A which sets forth the purpose and applicability, categories, geographic areas and manner of publication for the Fair Market Rents; (2) a Schedule A of Fair Market Rents for the Section 8 New Construction Program, 24 CFR Part 1273, Substantial Rehabilitation Program, 24 CFR Part 1277, and the State Housing Finance and Development Agencies Program, 24 CFR Part 1278; (3) a Schedule B of Fair Market Rents for the section 8 Existing Housing Program 24 CFR Part 1275, and the State Housing Finance and Development Agencies Program, 24 CFR Part 1278 (to be published at a later date); (4) a Subpart B which sets forth the purpose and applicability and manner of publication of the Adjustment Factors; and (5) a Schedule C of Adjustment Factors (to be published at a later date).

The definitions of and policies pertaining to Fair Market Rents will be set forth in the final regulations for the Section 8 Housing Assistance Payments Programs (New Construction, Substantial Rehabilitation, Existing Housing, and State Housing Finance and Development Agencies), to be effective January 1, 1975. The definition of and policies pertaining to Adjustment Factors will also be set forth in these final regulations.

Interested parties are invited to submit written comments, suggestions and objections regarding the proposed amendment by January 6, 1975, addressed to the Office of Assistant Secretary for Housing Production and Mortgage Credit/FHA Commissioner, Room 6156, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410. All relevant material will be considered before adoption of the final regulations. A copy of each communication will be available for public inspection during regular business hours at the above address.

Since the regulations to which these Fair Market Rents pertain will be effective January 1, 1975, the Assistant Secretary for Housing Production and Mortgage Credit—FHA Commissioner has determined it to be reasonable and in the public interest to allow for a 15-day comment period.

It is, therefore, proposed that 24 CFR, Part 1280 be added to read as follows:

Subpart A—Fair Market Rents

Sec.

1280.101 Fair Market Rents for New Construction and Substantial Rehabilitation.
1280.102 Fair Market Rents for Existing Housing [Reserved].
1280.103 Manner of Publication.

SCHEDULE A—FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION (INCLUDING STATE AGENCIES PROGRAM)

SCHEDULE B—FAIR MARKET RENTS FOR EXISTING HOUSING (INCLUDING STATE AGENCIES PROGRAM) [RESERVED]

Subpart B—Contract Rent Automatic Annual Adjustment Factors

1280.201 Purpose of Applicability.
1280.202 Manner of Publication.

SCHEDULE C—CONTRACT RENT AUTOMATIC ANNUAL ADJUSTMENT FACTORS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION (INCLUDING STATE AGENCIES PROGRAM) [RESERVED]

AUTHORITY: Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)); section 5(b) of the U.S. Housing Act of 1937 (42 U.S.C. 1437f).

Subpart A—Fair Market Rents

§ 1280.101 Fair Market Rents for New Construction and Substantial Rehabilitation.

(a) *Purpose and Applicability.* Schedule A of this Part sets forth Fair Market Rents, as determined by HUD, for the Section 8 Housing Assistance Payments Program—New Construction, 24 CFR Part 1273, Substantial Rehabilitation, 24 CFR, Part 1277, and State Housing Finance and Development Agencies ("State Agencies"), 24 CFR, Part 1278. (See 24 CFR 1272.102(g), 1276.102(G), and 24 CFR 1278.202(g), respectively, for the definition of "Fair Market Rent".)

(b) *Categories.* (1) These Fair Market Rents are established by unit size (number of bedrooms) and basic structure type (e.g., detached, semi-detached/row houses, walk-up apartments, elevator apartments; mobile homes; housing designed for the elderly or handicapped is a separate type for this purpose).

(2) Fair Market Rents for mobile homes will be established on an area by area basis upon application to any HUD field office demonstrating that there is a need therefor in the geographic area under the jurisdiction of that HUD field office.

(c) *Geographic areas.* The respective geographic market areas to which these Fair Market Rents apply are as specified in Schedule A.

§ 1280.102 Fair Market Rents for Existing Housing [Reserved].

§ 1280.103 Manner of Publication.

Schedule A and Schedule B Fair Market Rents will be published in the FEDERAL REGISTER at least annually. Interim revisions may be published as market conditions dictate.

U. S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT
Section 8 Housing Assistance Payments Program

Schedule A - Fair Market Rents for New Construction and Substantial Rehabilitation (Including State Agencies Programs)

Effective Date _____. These Fair Market Rents include projection for construction time through Dec. 31, 1976.

NOTE: The Fair Market Rents for (1) dwelling units designed for the elderly or handicapped are those for the appropriate size unit, not to exceed 2-Bedroom, multiplied by 1.05 and rounded to the next higher whole dollar, (2) congregate housing dwelling units are the same as for non-congregate units, and (3) single-room occupancy dwelling units are those for 0 - Bedroom units of the same type.

SCHEDULE B—FAIR MARKET RENTS FOR EXISTING HOUSING (INCLUDING STATE AGENCIES PROGRAM)

[SCHEDULE B FAIR MARKET RENTS WILL BE PUBLISHED AT A LATER DATE]

Subpart B—Contract Rent Automatic Annual Adjustment Factors

§ 1280.201 Purpose and Applicability.

Schedule C of this Part sets forth the Automatic Annual Adjustment Factors as determined by HUD for the Section 8 Housing Assistance Payments Program—New Construction, Substantial Rehabilitation, and State Agencies (see 24 CFR 1273.103(h)(2), 1277.103(h)(2), and 1278.203(e)(2), respectively).

§ 1280.202 Manner of Publication.

Schedule C Adjustment Factors will be published in the FEDERAL REGISTER at least annually. Interim revisions may be published as market conditions dictate.

SCHEDULE C—CONTRACT RENT AUTOMATIC ANNUAL RENT ADJUSTMENT FACTORS

[SCHEDULE C ADJUSTMENT FACTORS WILL BE PUBLISHED AT A LATER DATE]

Issued at Washington, D.C., December 12, 1974.

DAVID M. DEWILDE,
Acting Assistant Secretary for Housing Production and Mortgage Credit/FHA Commissioner.

NATIONAL UTILITY RESIDUAL FUEL OIL ALLOCATION

January 1975 Supplier Percentage Notice

XUM V 39 N 245 DEC 19 1974 XUM

FEDERAL ENERGY ADMINISTRATION

NATIONAL UTILITY RESIDUAL FUEL OIL ALLOCATION

Supplier Percentage Notice for January, 1975

Pursuant to the provisions of 10 CFR 211.163(b)(3), 211.165 and 211.166(d)(2), the Federal Energy Administration (FEA) hereby provides notice of the volumes of residual fuel oil allocated to each utility for January, 1975, and the percentage of such volumes required to be supplied by each supplier for delivery in January. This information is set forth in the Appendix to this notice. Adjustments of certain supplier base period percentages have been made at the request of affected utilities, pursuant to the criteria of 10 CFR 205.25 and are reflected in the Appendix.

The utility allocations were determined after review of the impact of available fuel supplies between utility and non-utility uses of residual fuel oil. In calculating the allocation level for each utility the FEA considered all of the factors enumerated in 10 CFR 211.-163(b)(3) and also the following other factors:

1. The data contained in the Federal Power Commission (FPC) Forms 23 and 23A submitted by utilities;
2. Reduced utility coal reserves;
3. Natural gas curtailments;
4. FEA's prediction that the supply level of residual fuel oil is expected to generally equate to the total demand.

The amounts shown in the Appendix are the quantities of residual fuel oil to be delivered to the utilities listed during the month of January, 1975. Some utilities will not receive any allocation for this month. This is due to the fact that these utilities burn other fuels primarily and use residual fuel oil only for standby purposes.

The Appendix provides the names of the suppliers obligated to supply each utility and each supplier's percentage and volume of each month's allocation to a utility. The first column of the Appendix lists each utility with its suppliers. The second column sets forth the recommended FEA burn level for January. The third and fourth columns provide each supplier's respective percentage and volume share of a utility's allocated volume of residual fuel oil. The fifth column provides the total volume of residual fuel oil for each utility from all suppliers. Following the name of certain suppliers, an additional supplier is shown in parentheses. The supplier in parentheses is presumed, on the basis of the best information available, to be the supplier of the utility's supplier. This information is provided for the convenience of such suppliers and the FEA requests that any additions or corrections in this regard be forwarded to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

FEA will consider special circumstances such as unexpected outages which may cause fuel consumption to exceed FEA burn levels in any month. Adjustments have been made in the allocation levels of certain utilities to reflect necessary corrections in the delivery levels authorized in previous months. It is contemplated that corrections or adjustments to delivery levels for certain utilities may be required during the month of January to avoid undue hardship. Such corrections or adjustments may be made pursuant to Subparts B and C of 10 CFR Part 205.

FEA expects the utilities to consume supplies at or below FEA burn levels, which are based on the utilities' proposed burn levels less adjustments for projected growth exceeding historic averages.

The utility residual fuel oil allocation program is based in part on the data derived from utilities' filings of FPC Forms 23 and 23A. Thus, the timely submission of these forms will be a necessary prerequisite to receiving future allocation notices.

Reports should be addressed to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

Issued in Washington, D.C., December 16, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

federal register

December 20, 1974—Pages 43993–44191

FRIDAY, DECEMBER 20, 1974

WASHINGTON, D.C.

Volume 39 ■ Number 246

Pages 43993–44191

PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

NEW ANIMAL DRUGS—HEW/FDA approves use of phenylbutazone; effective 12–20–74 44011

ANTIBIOTIC DRUGS—HEW/FDA certifies use of cephacetrile sodium; effective 12–20–74 44011

AMATEUR RADIO SERVICE—FCC proposal regarding operator classes, requirements, and privileges; comments by 6–16–75 44042

MEETINGS—

HEW/CDC: Safety and OccupationalHealth Study Section, 1–23 and 1–24–75 44061
State: Government Advisory Committee on International Book and Library Programs, 1–16–75 44053
CRC: State Advisory Committees (6 documents) 1–14–75 through 1–23–75 ..... 44067, 44068
Defense/DIA: Scientific Advisory Committee, 1–22 and 1–23–75 44054
FCC: CTAC Steering Committee, 1–8 and 1–9–75 44085
OMB: Business Advisory Council on Federal Reports, 1–7–75 44098
FEA: Wholesale Petroleum Advisory Committee, 1–7–75 44086
NSF: Advisory Committee for Research Task Groups 10 and 11 (2 documents) 1–13 and 1–14–75 44098
AEC: Advisory Committee on Reactor Safeguards Subcommittee on Regulatory Guides, 1–8–75 44064

RESCHEDULED MEETINGS—

AEC: Advisory Committee on Reactor Safeguards' Subcommittee on River Bend Station, 1–6–75 44062

PART II:

FOREIGN INVESTMENT—Treasury/Monetary Office promulgates final portfolio study regulations.. Monetary Office publishes forms and instructions for portfolio investment studies 44119

PART III:

PUBLIC AGENCY EMPLOYEES—Labor extends Wage and Hour requirements; effective 1–1–75 44141

PART IV:

MINIMUM WAGES—Labor/ESA issues rates for Federal and Federally assisted construction 44149

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. [illegible]

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

PART 401—FEDERAL CROP INSURANCE

Subpart—Regulations for the 1969 and Succeeding Crop Years

Crop Insurance; Appendix; Counties Designated for Pea (Canning and Freezing)

Pursuant to authority contained in § 401.101 of the above-identified regulations, as amended, the following counties are hereby added to the list of counties published December 2, 1974, (39 FR 41722), which were designated for pea (canning and freezing) crop insurance for the 1975 crop year.

WISCONSIN

Manitowoc	Sauk	Walworth
Rock	Sheboygan	

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; (7 U.S.C. 1506, 1516))

[SEAL] M. R. PETERSON,
Manager, Federal Crop Insurance Corporation.

[FR Doc.74-29731 Filed 12-19-74;8:45 am]

PART 401—FEDERAL CROP INSURANCE

Subpart—Regulations for the 1969 and Succeeding Crop Years

Counties Designated for Dry Bean Crop Insurance; Appendix

The appendix designating counties for dry bean crop insurance for the 1975 crop year which was published in the FEDERAL REGISTER on December 2, 1974, (39 FR 41721), is hereby amended by adding light and dark, kidney, cranberry, turtle and pintos to the classes of beans on which insurance is offered in the following counties:

MICHIGAN

Bay	Sanilac
Gratiot	Shiawassee
Huron	Tuscola
Saginaw	

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; (7 U.S.C. 1506, 1516))

[SEAL] M. R. PETERSON,
Manager, Federal Crop Insurance Corporation.

[FR Doc.74-29732 Filed 12-19-74;8:45 am]

CHAPTER VI—SOIL CONSERVATION SERVICE, DEPARTMENT OF AGRICULTURE

PART 650—COMPLIANCE WITH NEPA

Subpart B—Related Environmental Concerns

On September 3, 1974, the Soil Conservation Service (SCS) published in the FEDERAL REGISTER (39 FR 31909) for comment, proposed 7 CFR Part 650, Compliance with NEPA, Subpart B—Related Environmental Concerns.

Comments received have been incorporated into the final Subpart B where appropriate. Written comments received are available for public inspection in Room 5125, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

SCS herewith publishes final 7 CFR Part 650, Subpart B—Related Environmental Concerns, which are to be effective on December 20, 1974. Section 650.20 is reserved for archeological and historical data and historical sites to be published at a later date.

Dated: December 11, 1974.

KENNETH E. GRANT,
Administrator, Soil Conservation Service.

Subpart B—Related Environmental Concerns

Sec.
650.20 [Reserved]
650.21 Working relations with the U.S. Environmental Protection Agency (EPA) and related state environmental agencies.
650.22 Rare, threatened, and endangered species of plants and animals.
650.23 Natural areas.
650.24 Scenic beauty (visual resource).

AUTHORITY: Pub. L. 86-523, 74 Stat. 220 as amended, Pub. L. 93-291, 88 Stat. 174 (16 U.S.C. 469); Pub. L. 89-665, 80 Stat. 915 (16 U.S.C. 470); Pub. L. 93-205, 87 Stat. 884 (16 U.S.C. 1531 et seq.); Secretary of Agriculture Memorandum 1695, May 28, 1970.

Subpart B—Related Environmental Concerns

§ 650.20 [Reserved]

§ 650.21 Working relations with the U.S. Environmental Protection Agency (EPA) and related state environmental agencies.

(a) *Background.* The authorities and missions of SCS, EPA, and state environmental agencies make it imperative that an effective cooperative and coordinative working relationship be developed and maintained in areas of mutual concern. These common areas include air quality, water quality, pesticides, waste recycling and disposal, environmental considerations in land use, Environmental Impact Statements (EIS's) and environmental considerations in the conservation and development of natural resources.

(b) *Policy.* SCS will work closely with EPA in accordance with the provisions of the EPA–USDA Memorandum of Understanding July 31, 1974, at all administrative levels and with related state agencies to meet statutory requirements and to achieve harmonious implementation of all actions of mutual concern directed to improving or maintaining the quality of the environment.

(c) *Responsibility.*—(1) *SCS national office.* The Deputy Administrator for Field Services is responsible for overall coordination with EPA at the national office level. The Deputy Administrator for Water Resources is responsible for contacts with EPA in relation to activities of the Water Resources Council on water and related land resource planning and for coordinating work with EPA on EIS development.

(2) *Technical service center.* The TSC director is responsible for contacts and coordination with EPA regional offices within the group of states served by the TSC.

(3) *SCS state office.* The state conservationist is responsible for contacts and coordination with regional representatives of EPA and state environmental agencies in matters of mutual concern within his state.

(d) *Coordination and implementation.* (1) The SCS national office will:

(i) Within the framework of USDA agreements and guidelines, develop agreements for undertaking specific activities or projects of national significance and mutual advantage.

(ii) Assist EPA as requested in developing EPA policy, guidelines, and standards.

(iii) Consider EPA needs in soil survey and land, inventory, and monitoring activities.

(iv) Maintain needed liaison and develop mutual guidelines with EPA on water resources work and in coordinating EIS's.

(v) Advise EPA regarding soils, plant materials, and soil and water conservation techniques.

(vi) Establish procedures for periodic review of SCS national standards for treatment systems and practices for agricultural pollution abatement, including wind and water erosion and sediment control, transport of pesticides, organic matter and fertilizers, and burning of residues or clearing debris.

(2) The TSC director will:

(i) Within the framework of SCS memorandums and guidelines coordinate with the EPA regional administrator(s) the development of needed agreements for undertaking specific activities or projects of multistate significance and mutual advantage.

(3) The state conservationist will:

(i) Obtain early input of EPA and interested state and local environmental agencies in the planning process for projects or measures within the state impacting on the environment.

(ii) Coordinate preparation of SCS practice standards and procedures for

XUM
V 39 N 246 DEC 20 1974
XUM

agricultural pollution abatement within the state with EPA and related state agencies.

(iii) Encourage the development of a coordinated review and approval process within the state with EPA and appropriate state and local agencies including conservation districts for actions of mutual concern.

(iv) Attempt to resolve all EPA areas of concern on SCS assisted project-type actions within the state before a final EIS is prepared.

§ 650.22 Rare, threatened, and endangered species of plants and animals.

(a) *Background.* (1) A variety of plant and animal species of the United States are so reduced in numbers that they are threatened with extinction. The disappearance of any of these would be a biological, cultural, and in some instances an economic loss. Their existence contributes to scientific knowledge and understanding, and their presence adds interest and variety to life.

(2) The principal hazard to threatened and endangered species is the destruction or deterioration of their habitats by human activities such as industrialization, urbanization, agriculture, lumbering, recreation, and transportation. These activities of man will continue but the necessity of recognizing their adverse impacts and selecting alternatives that minimize or eliminate such impacts on threatened and endangered species is imperative.

(3) The Endangered Species Act of 1973 (Pub. L. 93–205, 87 Stat. 884 (16 U.S.C. 1531 et seq.)) provides a means whereby the ecosystems upon which endangered and threatened species depend may be maintained and a program for the conservation of such species. The Act also provides that, in addition to the Department of the Interior, "All other federal departments and agencies shall, in consultation with and with the assistance of the Secretary (of Interior), utilize their authorities for the conservation of endangered species and threatened species listed pursuant to section 4 of this Act and by taking such action necessary to insure that actions authorized, funded, or carried out by them do not jeopardize the continued existence of such endangered species and threatened species or result in the destruction or modification of habitat of such species which is determined by the Secretary, after consultation as appropriate with the affected states, to be critical." The Act also:

(i) Defines endangered species as any species in danger of extinction throughout all or a significant portion of its range and threatened species as any species likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range. The Act uses the category "threatened." The term "rare" is not used.

(ii) Further defines species as including any subspecies of fish or wildlife or plants and any other group of fish and wildlife of the same species or smaller taxa in common spatial arrangements that interbreed when mature.

(iii) Provides for the Secretary of the Interior to enter into cooperative agreements with states for the purpose of implementing state programs for the conservation of endangered and threatened fish and wildlife. This assistance may include financial grants.

(iv) Provides national lists of endangered and threatened animal and plant species to be maintained by the Secretary of the Interior and published in the FEDERAL REGISTER. When resident fish and wildlife are added to the list, the affected states are to be consulted by the Secretary. The Secretary of the Smithsonian Institution is preparing a list of endangered or threatened plant species.

(b) *Policy.* The Act gives SCS additional direction for participation in the conservation and protection of endangered and threatened species. As the principal federal agency concerned with land use planning of privately owned rural land and with professional conservation employees headquartered in almost every county, SCS is uniquely capable of playing a vital role. Additional training will be provided as needed to meet SCS responsibilities. SCS will assist in the conservation of threatened and endangered species and consistent with legal requirements avoid or prevent activities detrimental to such species. SCS concern for these species will not be limited to those listed by the Secretary of the Interior and published in the FEDERAL REGISTER, but will include species designated by state agencies as rare, threatened, endangered, etc.

(c) *Responsibility.*—(1) *SCS national office.* The Administrator will arrange for consultation and coordination of SCS national office activities with the U.S. Fish and Wildlife Service, other federal agencies, and national organizations.

(2) *Technical service center.* The TSC director will, within the group of states served by the TSC arrange for consultation and coordination with regional representatives of the U.S. Fish and Wildlife Service, other federal agencies, and national and regional organizations.

(3) *SCS state office.* The state conservationist will arrange for consultation and coordination with the state fish and game or conservation agency, other state agencies, state organizations and foundations, conservation districts, and state representatives of federal agencies and national organizations.

(d) *Coordination and implementation.* (1) The SCS national office will:

(i) Within the framework of national legislation, USDA agreements, and SCS objectives, develop SCS policies and directives for guiding agency efforts that will protect threatened and endangered species and for avoiding actions that jeopardize the continued existence of such species and their critical habitats.

(ii) Maintain needed liaison and develop mutual understanding with the U.S. Fish and Wildlife Service and other concerned federal agencies.

(iii) Establish procedures for periodic review of SCS participation in the national effort to conserve these species.

(2) The TSC director will: (i) Within the framework of SCS policies and guidelines, arrange for needed liaison and understanding with regional counterparts of other federal agencies within the group of states served by the TSC and keep state conservationists informed of developments within such states.

(ii) Provide guidance and assistance to state conservationists in carrying out SCS policies and guidelines.

(3) The state conservationist will develop procedures to establish working relationships with other concerned federal agencies, state fish and wildlife or conservation agencies, conservation districts, concerned scientists in state university systems and natural history museums, and other informed persons and organizations to offer assistance in:

(i) Preparing or maintaining lists of the state's threatened and endangered species.

(ii) Determining the geographic occurrence of endangered and threatened species, the nature of their habitat, and that portion of the habitat that is critical to the survival, maintenance, or increase of these species.

(iii) Discussing the kinds of measures important to preserve their habitat.

(iv) A monitoring program that would obtain advanced warning of actions or conditions that could further endanger these species, thereby enabling SCS and others to take appropriate protective action.

(v) Assisting recovery teams, as appropriate, in preparing species recovery plans of those endangered and threatened species included in Federal lists.

(4) The state conservationist will also:

(i) Keep SCS area and field offices informed of species listed as being threatened or endangered, geographic area in which they are found, and information such as their numbers, preferred habitat, and critical factors.

(ii) Review the status of threatened and endangered species each December and send a report of the review to the Administrator.

(5) SCS district conservationists within the geographic range of threatened and endangered species will examine conservation district programs and SCS operations to evaluate their effects on these species, and recommend to district officials and the state conservationist any action needed for their protection.

(6) SCS field employees within the geographic range of threatened and endangered species will be continually alert to conditions, actions, or trends that may adversely affect the welfare of these species and report adverse situations to the state conservationist.

§ 650.23 Natural areas.

(a) *Background.* (1) Natural areas are defined as land or water units where natural conditions are maintained insofar as possible. Natural conditions usually result from allowing ordinary physical and biological processes to operate with a minimum of human intervention. Manipulations may be required on natural areas to maintain or restore features that the areas were established to protect.

(2) Natural areas may be designated areas of federal, nonfederal government, or privately controlled land. Designation may be formal as provided for under federal regulations for areas of federal

land to be administered as natural areas or by foundations or conservation organizations specifically created to acquire and maintain natural areas. Designation may be informal in the case of private landowners who designate a specific area as a natural area and manage it accordingly. Several professional societies concerned with renewable natural resources encourage establishment of natural areas withdrawn from economic uses and recognition of natural areas maintained and managed in economic enterprises.

(3) Natural areas are established and maintained for a variety of purposes including:

(i) *Furthering science and education.* Natural areas provide sites for research and outdoor classrooms for study of plant and animal communities in environments with particular ecological conditions.

(ii) *Monitoring the surrounding environment.* Natural areas serve as gauges against which to evaluate changes in land use, vegetation, animal life, air quality, or other environmental values.

(iii) *Providing recreation attractions.* Natural areas are valued by many people for their scenic, wild, and undisturbed character but must be protected, as needed, to prevent disturbance or alteration of the resources.

(iv) *Preserving unique values.* Natural areas may be established to protect scenic, biologic, geologic, or paleontologic features.

(v) *Serving as a genetic base for native plants and animals.* Natural areas may be established to preserve examples of land and water ecosystems with their full range of genetic diversity of native plants and animals including threatened and endangered species.

(b) *Policy.* SCS will recognize natural areas, if so dedicated, as a land use, and will support the designation of appropriate natural areas.

(c) *Responsibility.*—(1) *SCS national office.* The Administrator will designate a member of the national office staff to act as SCS representative on the Federal Committee for Ecological Preserves and to provide appropriate liaison with other federal agencies and nonfederal groups concerned with natural areas.

(2) *Technical service center.* The TSC director will designate a TSC plant sciences discipline leader to provide leadership, appropriate liaison, and assistance on natural areas to SCS state offices.

(3) *SCS state office.* The state conservationist will designate an appropriate SCS representative to work with other agencies and groups, and will coordinate assistance on natural areas needed by area and field offices.

(d) *Coordination and implementation.* (1) SCS technical assistance will be furnished to representatives of administering agencies, foundations, groups, and individuals when requested through conservation districts. Conservation district officers will be encouraged to recognize appropriate natural areas concepts and programs and to participate in them.

(2) SCS employees will report to state conservationists abuses and potential or actual damages to natural areas that may be found in the course of ordinary business.

(3) SCS will cooperate with professional societies, groups, and individuals in locating areas suitable for and needed as natural areas.

(4) SCS employees providing technical assistance to land users must inform them about the impact their decisions may have on adjacent or nearby natural areas. Land users will be encouraged to consult with concerned agencies, societies, and individuals to arrive at mutually satisfactory land use and treatment.

(5) Recommended classification systems for characterizing areas designated as ecological preserves or as natural areas are contained in the following publications:

Soil Taxonomy, a Basic System of Soil Classification for Making and Interpreting Soil Surveys, USDA–SCS Agricultural Handbook 436.

Forest Cover Types of North America Exclusive of Mexico, Report of the Committee on Forest Cover Types, Society of American Foresters, 1964.

Potential Natural Vegetation of Conterminous United States, A. W. Kuchler, American Geographical Society Special Publication 36, 1964.

Wetlands classification described by the U.S. Fish and Wildlife Service in its Circular [illegible].

SCS will, to the extent feasible, use these classification systems when providing technical assistance on public and private natural areas and ecological preserves.

(6) The SCS published National List of Scientific Plant Names will be used when scientific names or name symbols are needed for automatic data processing.

§ 650.24 Scenic beauty (visual resource).

(a) *Background.* Contributions to scenic beauty are a normal product of SCS work. Strip-cropping, field borders, field windbreaks, and ponds are examples. Emphasis is given to those soil and water conservation measures that contribute to a productive and efficient agriculture and increase the attractiveness of rural America and are in line with goals and objectives of conservation districts. This is best accomplished by considering the landscape visual resource when providing planning assistance to individual landowners, groups, units of government, and watershed and resource conservation development project sponsors. SCS responsibilities in recreation also offer opportunities to develop the scenic beauty of the rural landscape. Department of Agriculture Secretary's Memorandum 1695, May 28, 1970, "Protecting and Improving The Quality of the Environment," includes scenic beauty as an objective of the Department's programs.

(b) *Policy.* SCS will: (1) Provide technical assistance with full consideration of alternative management and development systems that preserve scenic beauty or improve the visual resource; (2) emphasize the application of conservation practices having scenic beauty or visual resource values particularly in waste management systems; field borders, field windbreaks wetland management, access roads, critical area treatment; design and management of ponds, stream margins odd areas, and farmsteads; siting or positioning of structures and buildings to be in harmony with the landscape while reducing the potential for erosion; using native and other adaptable plants for conservation which enhance scenic beauty and create variety while linking beauty with utility; (3) promote personal pride in landowners in the installation, maintenance, and appearance of conservation practices and their properties; (4) select suitable areas for waste products and use of screens to hide "eyesore" areas, and (5) encourage conservation districts to include practices which promote scenic beauty in their annual and long-range programs.

(c) *Responsibility.* The Soil Conservation Service will provide technical assistance through conservation districts to landowners, operators, communities, and state and local governments in developing programs relating to scenic beauty.

(1) *SCS national office.* The Administrator will:

(i) Assign appropriate SCS national office leadership to insure that enhancement of scenic beauty is included in national information, policy, guidelines, standards, guides to specifications for conservation practices without impairing basic soil and water conservation functions.

(ii) Emphasize in plant material center management and in plant materials functions that locating and evaluating plants for forage, erosion control, and recreation or wildlife uses be carried out with full attention to visual resource value.

(2) *SCS state office.* The state conservationist will:

(i) Assign appropriate staff member(s) to provide leadership in carrying out scenic beauty policy and procedure within the state.

(ii) Develop and keep current a landscape management plan to improve and maintain the appearance of all real properties under SCS control, and provide appropriate assistance to owners and managers of properties leased or rented by SCS.

(iii) Give emphasis to preserving scenic beauty and contributing to the visual resource in the SCS information program whenever opportunities exist.

(d) *Coordination and implementation.* (1) The governing body of each conservation district will be encouraged to revise or update its district program to appropriately provide for beautification of the countryside through applicable land use changes and effective soil and water conservation treatment.

(2) In providing assistance to watershed and resource conservation and development project sponsors and other resource planning groups for soil, water, and related resources, emphasis will be given to measures that preserve natural beauty or contribute to the quality of the visual resource.

(3) Local organizations and groups interested in scenic beauty will be contacted and consulted for cooperation in and coordination with SCS and conservation district efforts.

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER F—ENVIRONMENTAL PROTECTION

PART 799—PREPARATION OF ENVIRONMENTAL STATEMENTS—GUIDELINES

On June 11, 1974, the Agricultural Stabilization and Conservation Service (ASCS) published in the FEDERAL REGISTER (Vol. 39 No. 113) for comment, proposed guidelines for Preparation of Environmental Statements in compliance with the National Environmental Policy Act (NEPA) (42 U.S.C. 4321), in accordance with the guidelines of the Council on Environmental Quality (CEQ) appearing as 40 CFR Part 1500, published in the FEDERAL REGISTER August 1, 1973, (38 FR 20549) and the guidelines of the Department of Agriculture appearing May 29, 1974 (39 FR 18678).

Written comments received on the proposed ASCS guidelines were given full consideration in developing the final guidelines. ASCS also consulted with CEQ, Office of Environmental Quality Activities of USDA, and other agencies in finalizing these guidelines. The text of all comments are on file and available for public inspection in Room 4702, South Building, U.S. Department of Agriculture, Washington, D.C.

The more substantive comments received and their considerations are as follows:

(1) Section 799.4(a)(2). *Identifying major actions significantly affecting the environment.* Comment suggests that the requirement to prepare an EIS where the environmental impact of projects are individually limited but cumulatively significant appears to be contradicted under (b)(2)(i–iv).

We concur that the listing of actions normally excluded from the preparation of an EIS as provided in (b)(2) (ii), (iii), and (iv) appears to conflict somewhat with the provisions in (a)(2). Paragraph (a)(2) is intended to be applicable where several individual farms are participating in a project effort to solve a conservation or pollution problem and there will not be a major impact on the project this year, but if other farms are added to the project in future years the cumulative effect may be a significant impact on the environment. This section has been rewritten to clarify.

(2) Section 799.4(b)(2). *Actions normally excluded from the preparation of an EIS.* Comment notes that individual farm projects are exempt from EIS process and suggests that they are likely to have a cumulatively significant environmental effect.

It is not feasible to require an EIS on each individual farmer's participation in a program. In addition, participation is often dispersed within an area, therefore not creating significant impact within a given area. As noted above where a number of farms join together in a project effort, which may be on a watershed basis, a statement may be required. To avoid the conflict discussed in item (1) above, (b)(2) (ii), (iii) and (iv) have been deleted.

(3) Section 799.5(c)(2). *Preparation of Environmental Statements.* Comment noted the environment includes both the natural environment and the social and economic environment and questioned whether Congress intended, by the enactment of NEPA, that economic factors were to be considered environmental factors for the purpose of the environmental impact analysis and stated that economic environment should be deleted in the final guidelines.

Since the passage of NEPA and the development of the EIS process, Congress in various actions has indicated that the economic is one of the factors to be considered as an environmental impact. In addition, this provision is the same as that provided in the USDA guidelines issued by the Secretary of Agriculture on May 22, 1974 and published in the FEDERAL REGISTER on May 29, 1974. The suggestion to delete was not accepted.

(4) Section 799.6(d)(2). *Consultation, review and public involvement.* Comment notes that the regulation provides that "the agency *may* utilize timely and effective procedures such as direct verbal contact, public meetings, printed materials, news media, *public notices,* and hearings as appropriate." (Italics added by commenter). Suggests that something more than the catalogue of possibilities is needed. This provision has been reworded to be more direct.

(5) Section 799.6(d)(2). *Consultation, review and public involvement.* Comment suggested that for informing the public the use of public notices in newspapers serving the area upon which the environmental impact is being assessed.

We concur in requiring the use of the public notice where a public hearing is to be held. Paragraph (d)(3) has been rewritten to clarify. The catalogue of actions to be carried out to inform the public has been expanded to include radio, a very useful media for informing the public of public meetings relating to agricultural/environmental concerns.

(6) Section 799.6(d)(3). *Consultation, review and public involvement.* Comment suggested more definite guidelines on announcing availability of environmental statement. This portion of the regulations has been rewritten to expand the guidelines.

(7) Section 799.6(f). *Consultation, review and public involvement.* Comment suggested that the listing of those to receive environmental statements should include newspapers.

This recommendation has not been adopted. News releases will be furnished to newspapers on the availability of an EIS.

(8) Suggestion that ASCS familiarize State and local personnel with the NEPA regulations.

The agency has been carrying out a NEPA awareness program with personnel including those at State and local level. It is our plan to expand the environmental awareness program among agency professional employees and committeemen.

These final regulations will be issued to State and county offices as published in the FEDERAL REGISTER. They will also be placed in the operating procedures issued to State and county offices as published in the FEDERAL REGISTER. They will also be placed in the operating procedures issued to State and county offices.

(9) The agency in reviewing the proposed guidelines has found a need to clarify the filing of an EIS on legislation. Section 799.4 has therefore been expanded.

The ASCS hereby publishes its final guidelines by issuing a new Subchapter F and a new Part 799 as set out below, to be effective January 15, 1975.

Issued in Washington, D.C. on December 13, 1974.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

Sec.

799.1 Purpose and authority.
799.2 Policy.
799.3 Implementing in ASCS.
799.4 Identifying major actions significantly affecting the environment.
799.5 Preparation of environmental statements.
799.6 Consultation, review and public involvement.
799.7 Lead agency.
799.8 Review of EIS prepared by another agency.
799.9 CEQ requests.
Appendix 1—Cover page format.
Appendix 2—Summary sheet format.
Appendix 3—Outline of environmental statement content.
Appendix 4—Circulation of environmental statements.

AUTHORITY: Pub. L. 91–190, 83 Stat. 852 (42 U.S.C. 4321); E.O. 11514, 35 FR 4247; 38 FR 20549.

§ 799.1 Purpose and Authority.

(a) Section 102(2)(C) of the National Environmental Policy Act (Pub. L. 91–190) requires the submission of an environmental statement with "every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment". The act and Executive Order 11514 mandate that Federal agencies, to the fullest extent possible, direct their policies, plans and programs to protect and enhance environmental quality. Agencies are required to view their actions in a manner calculated to encourage productive and enjoyable harmony between man and his environment, to promote efforts preventing or eliminating damage to the environment and biosphere and stimulating the health and welfare of man, and to enrich the understanding of the ecological systems and natural resources important to the Nation.

(b) The Council on Environmental Quality (CEQ) issued Guidelines for Preparation of Environmental Impact Statements in the FEDERAL REGISTER on

August 1, 1973. The USDA guidelines for filing environmental statements (EIS) were published in the FEDERAL REGISTER on May 29, 1974 (39 FR 18678).

(c) These guidelines provide for the implementation of section 102(2)(C) of the National Environmental Policy Act (NEPA) in administering programs of the Agricultural Stabilization and Conservation Service.

§ 799.2 Policy.

(a) *ASCS mission.* The mission of the Agricultural Stabilization and Conservation Service is to provide services both to the farmers and consumers through the administration of domestic agricultural programs as provided by law. These programs are designed to:

(1) Encourage a level of agricultural production which will assure ample supplies of food and fiber for American consumers and for an adequate response to improved export sales opportunities;

(2) Provide farmers with production freedom so that they may use their resources in the way they feel will earn them the most income from the marketplace;

(3) Protect farm income—through guaranteed prices with deficiency payments which would be triggered by depressed market prices, through commodity loans to producers to help assure orderly crop marketing, and through payments to eligible farmers compensating for crop production losses suffered due to natural disasters; and

(4) Assist farmers in their long-term role as conservationists in protecting basic natural resources and improving the quality of the environment.

In carrying out this mission under the authority of the Agriculture and Consumer Protection Act of 1973, which continues the market-oriented approach to farm programs established by the Agricultural Act of 1970, ASCS has the added responsibility of helping farmers gain a better understanding of modern marketing methods to enable them to utilize the marketplace as a source of income.

(b) *General.* ASCS administers various commodity and related land use programs through State, county, and community committees established in accordance with provisions of section 8(b) of the Soil Conservation and Domestic Allotment Act of 1935, as amended. The programs are based upon specific legislative authorities; provisions for national programs within these authorities are developed by the Washington staffs in specified program divisions under the supervision of the agency Administrator. A number of the programs administered by ASCS provide direct and/or indirect financial assistance to individual landowners and operators. In some instances, the assistance may be to a combination of such producers or an organization composed of landowners and operators. The environmental assessment and EIS process shall be carried out in harmony with the intent of the various programs and of those to whom assistance is to be provided to the extent feasible.

(c) *Assessing environmental quality and impacts of proposed actions.* (1) In accordance with national policy and directives, and as early as possible and in all cases prior to the agency decision concerning recommendations for or favorable reports on proposals for legislation and other major actions (administrative actions) significantly affecting the quality of the human environment, ASCS will assess in detail the potential environmental impact in order to avoid or minimize adverse effects wherever possible and to restore or enhance environmental quality to the fullest extent practicable. Alternative actions that will avoid or minimize adverse impacts should be explored. The long- and short-range implications of the proposed actions to man, his physical and social surroundings and to nature should be evaluated. ASCS may, in preparing the EIS, consult with other appropriate Federal, State and local agencies and the public.

(2) Assessments of the environmental impacts of the proposed action should be undertaken as early as possible and should be considered along with the economic, technical and other related studies of the proposed action or program provisions. A draft EIS should be prepared on administrative actions where provided for in these guidelines and accompany the proposal through the agency review process. The draft statement is to be submitted to CEQ and circulated for comments as outlined in § 799.5(e).

§ 799.3 Implementing in ASCS.

(a) *Responsible official.* The administrator of ASCS, or his designee, is the responsible Federal official for carrying out the purpose of NEPA for all ASCS programs. County committees, State committees, and directors of Washington Divisions, within their respective areas of responsibility, through the ASCS member of the USDA Environmental Quality Executive Committee (EQEC), shall assist the Administrator in assessing compliance with the policies and purposes of NEPA generally, and, in particular, in determining whether the quality of the human environment will be significantly affected in implementing agency programs and whether an environmental statement is or is not needed.

(b) *Offices responsible for preparing environmental statements.* (1) *Washington divisions.* Legislative proposals and favorable legislative reports, and multi State and national programs or major revisions of national programs.

(2) *State committees.* Major actions on a State or area basis within a State.

(3) *County committees.* Major actions within a county. The environmental statement will be forwarded through the appropriate agency channels to the ASCS member of EQEC for review and submission to the Administrator.

§ 799.4 Identifying major actions significantly affecting the environment.

(a)(1) The identification of major actions significantly affecting the quality of the environment is to be carried out against the background of ASCS' own program responsibility.

(2) In considering what constitutes a major action significantly affecting the environment, the responsible official should bear in mind that the effect of many Federal decisions about a project or complex of projects can be individually limited but cumulatively considerable. This can occur when over a period of years a small project, consisting of a number of producers joining together to solve a conservation problem, is expanded putting into the overall project individually minor but collectively major resources. In such cases, an EIS should be prepared if it is reasonable to anticipate a cumulatively significant impact on the environment from such project. In all cases where the proposed environmental impact of which is likely to be highly controversial a statement shall be prepared. Broad public reaction will generally be necessary for deeming that a controversy exists.

(b) *ASCS actions covered or excluded.* (1) *Actions which normally require an EIS.* Environmental statements will normally be prepared on all national commodity programs for which a set-aside or diverted acreage program is in effect and all conservation programs. The programs in this category include:

(i) Wheat, feed grains, cotton or any other commodity program for which a set-aside or diverted acreage program is in effect.

(ii) Rural Environmental Conservation Program.

(iii) Emergency Conservation Program.

(iv) Water Bank Program.

(v) Other conservation type programs.

(2) *Actions normally excluded from the preparation of an EIS.* The following or similar types of actions will not generally be considered as major federal actions significantly affecting the human environment and are excluded from the EIS process and negative determination.

(i) Individual farm participation in ASCS programs.

(ii) Rehabilitation of farmlands as a result of a natural disaster or other work of improvement which is covered by a program statement such as the Emergency Conservation Measures Program.

(3) *Other major ASCS actions which may require an EIS.* Major actions (programs or projects) which do not fall under the criteria established by paragraph (b)(1) or (2) of this section will require a decision by the responsible Federal official whether to prepare an EIS based on individual considerations. The decision made is to be based on an appropriate environmental assessment of environmental factors and significant effects, including beneficial and adverse effects. Significant adverse effects may be those which degrade the environment, curtail the use of the environment, or serve only short-term needs. Assessment is to cover secondary effects such as socio-economic impacts as well as direct effects.

(i) Identifying major actions which may or may not significantly affect the

XUM
DEC 20 1974 V 39

environment. At least the following environmental factors are to be assessed by the committee as appropriate to determine whether an EIS is needed:

Upland wildlife habitat.
Bottom land wildlife habitat.
Wildlife migration routes.
Bottom land hardwoods.
Stream fisheries including potential not presently productive.
Wetlands.
Endangered animals and plants.
Natural streams.
Man-altered streams.
Archeological and historical resources.
Water quantity.
Air quality.
Appearance of the landscape.

(ii) The degree of public interest, potential controversy, urban or rural setting, and economic and social impacts should also be assessed. Factors are to be quantified and qualified to the extent practicable as to the total amount in the area, the amount affected by the proposed actions, and the percent of the total resources in the area which will be affected. No single or multiple effect of factors can give the absolute answer. The data, once assembled will provide an indication of the probable impact and aid in making a judgment as to whether an EIS is needed.

(4) *Negative determination.* On major ASCS actions which under paragraph (b)(1) of this section would normally require an EIS, but where an assessment indicates no significant impact on the environment and no major controversy, the decision office should document the basis for the negative determination. This may include the State or county committee minutes where that level is the decision office. Information assembled in assessing the environmental impacts should be retained in appropriate files. A list of actions on which EIS's will not be prepared will be maintained and available for public inspection.

(5) *Statement on continuing programs.* Where a final EIS has been issued on a program, a new EIS will not be required in the next program year unless significant changes are made in the operations of the program. If significant changes are made, a new draft statement shall be prepared and circulated as provided in § 799.5.

(i) Significant changes in operations may include, but are not limited to, important changes in the conduct of the program, scope of the program is significantly expanded, the program changed as a result of controversial impacts on the environment, etc. The CEQ should be advised of the decision that a new EIS is not required.

(6) *Legislative actions.* A draft EIS will be prepared for legislative proposals or favorable reports on legislation where a national program is being developed or a major change in a program is being considered and the carrying out of the program could significantly affect the quality of the human environment.

(i) The EIS when required shall, to the extent feasible, accompany the legislative proposal or report to OMB. The proposal or report should make reference to the EIS.

(ii) Upon transmittal of the legislative proposal or report to Congress, the draft EIS will be forwarded to CEQ and the Congress. Copies of the EIS will be distributed as provided in § 799.5. Comments received on the legislative EIS will be forwarded to the appropriate Congressional Committees, through the ASCS Member of the EQEC. If deemed appropriate, the agency may respond to specific comments, and such response forwarded with the comments to the Congressional committees. Since legislation undergoes changes in Congress, a final legislative EIS need not be prepared.

§ 799.5 Preparation of environmental statements.

(a) *Types of statements.* An EIS is prepared in two stages. A draft EIS is the first formal statement for filing with CEQ and for review and comment by Federal and State agencies and the public as outlined in Appendix 4 of this part. A final EIS reflects the results of the draft review process. It is also filed with CEQ and each Federal and State agency, organization, group or individual who furnished substantive comments on the draft EIS or who requests a copy.

(b) *EIS development.* (1) The draft EIS is to be prepared early in the decisionmaking process in conjunction with other technical and economic studies. It should be circulated for public review before the significant program or project provisions are announced. The draft EIS must fulfill and satisfy to the fullest extent possible, at the time the draft is prepared, the requirements established for the final EIS by section 102(2)(C) of NEPA. Comments received during preliminary consultations on the draft EIS and the final EIS will be carefully evaluated and considered in the decisionmaking process.

(2) Applicants or consultants on certain type projects may be requested to furnish analyses and information in connection with the project. This material may be used in the preparation of the EIS.

(3) A systematic, interdisciplinary approach integrating the natural, economic, social science, and environmental design arts should be used in the preparation of the EIS. Alternative actions that will reduce adverse impacts or enhance positive effects will be thoroughly explored. Long- and short-range implications to man, to his physical and social surroundings and to nature will be examined.

(4) The EIS's will be documents complete enough to stand on their own, yet they should be succinct and understandable as possible. Highly technical and specialized analyses and data should, if needed, be appended to the body of the statement. Attention should be given to the substance of the information conveyed rather than to the particular form, length or detail of the EIS.

(c) *Content of environmental statements.* The following points must be addressed in the EIS: (See Appendix 3 of this part for outline.)

(1) *Description.* The proposed action or alternative should be clearly described by including enough information and technical data to give readers a clear understanding of the nature of the proposed action or program. Where relevant, maps, photographs, and other materials may be used. Give the relevant background information on the project or program including its purpose, the origin of the proposal, the social, economic or environmental objective. The description should include, as appropriate, population and growth assumption used to justify the project or program or to determine secondary population and growth impacts resulting from the proposed action and its alternatives. The sources of data used should be identified (i.e., OBERS projection). The relationship of the proposal to land use plans, policies and controls for the affected area must be described. Where conflicts exist, the proposed resolution of these conflicts or the reasons why they can't be resolved must be thoroughly addressed. If appropriate, describe the present environment, location, size, landownership, and status, physiography, ecosystems, climate, and other special features. The interrelationships of this proposed action with other projects and possible cumulative effects shall be presented.

(2) *Environmental impacts.* This requires an analysis of both the anticipated favorable and adverse impacts of the proposed action as it affects both the national and international environment. The environment in this case includes both the natural environment and the social and economic environment. Discuss both primary and secondary effects.

(i) Identify, analyze, and discuss the full range of social, physical, and biological factors which change as a result of direct or indirect effects of the proposed program or project. Examples of areas of environmental impact are: air quality, weather modification, water quality, fish and wildlife, noise, radiation, hazardous substances, energy supply, land use, soil, plants, outdoor recreation, historic, architectural and archeological preservation, impacts on low-income populations, and employment. Refer to CEQ Guidelines, Appendix II.

(ii) Both primary and secondary consequences should be considered in the analysis. The implications, if any, of the proposed program or project on population distribution or concentration should be objectively estimated and an assessment made of the probable effects of such changes in population patterns upon the resource bases, including land use and public services of the area in question as well as economic impacts on employment, unemployment, changes in local culture, social and other economic factors.

(iii) The distinction between primary and secondary impacts is important for insuring consideration of all alternatives. One way to describe the distinction is

that project inputs generally cause primary impacts and projects outputs generally cause secondary impacts. Primary impacts are generally easier to analyze and measure, while secondary impacts may require analyses by a number of agencies because they generally are not within any single agency area of responsibility or expertise. Secondary impact may, in fact, be more important or more damaging than primary impacts.

(iv) Summarize any environmental effects which are considered as favorable. This listing should contain only sufficient detail to identify the items.

(v) Discuss any planned measures to minimize and mitigate any probable adverse environmental impacts of the proposed action.

(3) *Summary of probable adverse environmental effects which cannot be avoided.* Identify and discuss the nature and extent of probable adverse effects and explain why they cannot be avoided. Such adverse effects may include water, air, sound, or visual pollution; undesirable land use patterns; damage to life systems; threats to health; or urban congestion consequences adverse to the environmental goals set out in section 101 (b) of NEPA.

(4) *Relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* This in essence requires the agency to assess the action for cumulative and long-term effects from the perspective that each generation is trustee of the environment for succeeding generations. Discuss the extent of trade-offs between short- and long-term impacts.

(5) *Irreversible and irretrievable commitment of resources.* This requires the agency to identify the extent to which the action curtails the range of potential beneficial uses of the environment.

(6) *Alternatives to the proposed action.* The intent of this section is to assure that the responsible officer has identified the objective(s) and formulated the alternatives to achieve the objectives based upon a rigorous exploration and objective evaluation. The range of alternative means to reach the objectives of the proposed action may include alternatives as to location, design, scale, sequence, and timing. All reasonable alternatives and their environmental impacts should be discussed. The alternatives should be described, and an analysis presented, including costs and impacts on the environment. The viable alternatives should not be foreclosed prematurely in the agency review and decision process. Creativity is required in recognizing and developing alternatives. Examples of categories of alternatives that must be considered in connection with specific actions are as follows:

(i) The alternative of taking no action.

(ii) Alternatives requiring actions of a significantly different nature which would provide similar benefits with different environmental impacts.

(iii) Alternatives related to different designs or details of the proposed program or project which would present different environmental impacts. In each case, the analysis of alternatives should be sufficiently detailed and rigorous to permit independent and comparative evaluation of the benefits, costs, and environmental risks of the proposed action and each alternative.

(7) *Other Federal policies and considerations.* There should be included an indication of what other interests and considerations of Federal policy are thought to offset the adverse environmental effects.

(8) *Consultation with appropriate Federal agencies and review by States and the public.* (i) In the draft environmental statement, list the agencies, groups, and individuals consulted in the preliminary consultation phases. Also, list the agencies and groups to whom the draft environmental statement will be sent.

(ii) In the final environmental statement, this section will include a discussion of comments on the draft environmental statement. Comments received from Federal, State and local agencies, leading national organizations and substantive comments received from individuals which influence decisionmaking are to be attached.

(d) *Cover page and summary sheet for environmental statements.* The EIS will include a cover page and a summary sheet constructed as shown in Appendix 1 and 2 of this Part.

(e) *Distribution of environmental statements.*

(1) The EIS is to be forwarded to the CEQ and then made available to other Federal agencies, State Clearinghouses, known interested organizations or groups, and the public. Statements issued by this agency will be forwarded to CEQ by the Administrator or his designee, where required under the USDA Guidelines, through the USDA Coordinator of Environmental Quality Activities. Preparing offices will submit the prepared EIS to the ASCS member of EQEC for review, assigning report number, and preparation of transmittal memorandum before submission to the Administrator for approval.

(2) Five (5) copies of the draft EIS and five (5) copies of the final EIS will be supplied to CEQ. The EIS's will be circulated for review and comment as required by the CEQ Guidelines, as summarized in Appendix 4 of this part.

(3) EIS prepared on legislation is to accompany the legislative proposal or report. The proposal or report should make reference to the EIS. The Office of Management and Finance will forward the copies to CEQ. Following clearance of the legislative proposal or report by OMB the EIS will be made available to the Congress and the public.

§ 799.6 Consultation, review and public involvement.

(a) *Consultation.* (1) Prior to the development of draft environmental statements, preparing office shall consult with interested parties, including appropriate Federal, State and local agencies. Comments and views of such interested parties may be considered in developing the draft environmental statement. Appendix II, CEQ Guidelines, should be reviewed for agencies which are to be consulted.

(2) In addition, the NEPA process is to the extent possible to meet the consulting and coordinating requirements of the Fish and Wildlife Coordination Act or the wildlife requirement of the Watershed Protection and Flood Prevention Act, National Historic Preservation Act and section 4(f) of the Department of Transportation Act, 49 U.S.C. 1653(f).

(b) *Circulation for review and comment, Federal, State and local agencies and time limit.* (1) The draft EIS shall be circulated for review and comment by Federal, State and local agencies having jurisdiction by law or special expertise with respect to environmental impacts and shall be made available for comment by the public.

(2) A time limit of not less than sixty (60) days from the date of transmittal to CEQ will be observed to receive comments by reviewers. To the maximum extent practicable no administrative action is to be taken for 30 days after the final statement has been furnished to CEQ and made available to all who commented on the draft statement or who requests a copy. The EIS's will be circulated for review and comment as outlined in Appendix 4 of this part.

(c) *Expedited procedures.* Where emergency circumstances make it necessary to take action with significant environmental impact without observing the provisions of paragraphs (a) and (b) of this section, the agency will work through the Office of the Coordinator of Environmental Quality Activities in consulting with the CEQ about alternative arrangements.

(d) *Public Information and involvement.* (1) The agency will use appropriate procedures to insure the fullest practicable provision of timely public information, understanding and involvement in plans and programs with environmental impact in order to obtain views and information on alternative courses of action as required in Executive Order No. 11514.

(2) It is an objective of the USDA to involve the public in developing its policies and in formulating and implementing its programs. To assist in accomplishing these objectives, the agency will utilize timely and effective procedures such as public meetings, news media, radio, public notices, hearings, and printed materials in mail outs, as needed for the particular type program or project.

(3) When public hearings are held relating to environmental concern, the draft environmental statement should be available at least fifteen (15) days in advance of the hearing and a public notice placed in the local newspapers serving the area upon which the environmental impact is being assessed. The public notice is to be placed on three different days at least fifteen (15) days prior to the public hearing. The notice shall contain information on the project or program proposal, the date, time, and

XUM
V 39 N 246 DEC 20 1974
XUM

location of the hearing, and where information on the environmental considerations, including the proposed draft environmental statement, may be obtained.

(4) In determining whether a recorded public hearing is needed the officials responsible for the program or activity should consider (i) the magnitude of the proposal in terms of potential environmental impact, (ii) the degree of controversy or opposing views, (iii) complexity of issues and (iv) the degree of public review of the proposal already achieved.

(e) *List of statements.* The ASCS member of EQEC will maintain a list of the environmental statements under preparation by this agency. The list will be furnished to CEQ on a quarterly basis as required in the CEQ Guidelines and will be available for public inspection. A listing of those major actions for which it has been decided an EIS is not required will be maintained.

(f) *Availability of EIS's.* Draft and final EIS's will be made available to the public as required in the CEQ guidelines as summarized in Appendix 4 of this part. A notice will be placed in the FEDERAL REGISTER to advise the public of the proposed program or activity, the availability of the draft or final EIS and where a copy may be obtained. A press release will be prepared and issued to newspaper and radio media, the extent of issuance depending upon scope of the program or project. This action will be coordinated by the ASCS Member of EQEC.

§ 799.7 Lead Agency.

In certain instances, several USDA agencies may have program responsibilities relative to a major Federal action with significant environmental impact. If ASCS is designated as the lead agency, the ASCS Member of EQEC will coordinate the input of all concerned agencies in development of the EIS. In actions involving several departments the role of ASCS will be determined in consultation with the USDA Office of the Coordinator of Environmental Quality Activities and the CEQ.

§ 799.8 Review of EIS prepared by another agency.

ASCS will review and comment on EIS's initiated by other agencies as requested by the Office of the Coordinator. This review and development of comments will be coordinated by the ASCS Member of EQEC.

§ 799.9 CEQ requests.

In order to assist the CEQ in fulfilling its responsibilities under NEPA and Executive Order 11514, ASCS will give careful consideration to requests by CEQ for reports, and other information and actions dealing with issues arising in connection with the implementation of NEPA. This involvement will be coordinated by the ASCS Member of EQEC.

APPENDIX 1

COVER PAGE FORMAT

The cover page should not include the description title shown on the left margin, but only that information within the box, which is given as an example:

Title [1]	DRAFT (OR FINAL) ENVIRONMENTAL STATEMENT Rural Environmental Conservation Program
Report No.[2]	USDA–ASCS–ES (Adm.) 74–1–D
Responsible official.[3]	Kenneth E. Frick, Administrator, Agricultural Stabilization and Conservation Service
Performing organization.[4]	Agricultural Stabilization and Conservation Service, State and County Offices
Date prepared	January ___, 1974
Sponsoring agency	Prepared by _____
Name and address [5]	U.S. Department of Agriculture, Agricultural Stabilization and Conservation Service, Washington, D.C. 20250

[1] Name of program or project on which EIS is prepared.

[2] Indicates the following: USDA–ASCS–Environmental Statement, Administrative type statement (Leg. for legislative statement), program year 1974, sequential number 1 within that year, draft or "F" for final statement. The sequential number will be assigned by the Washington office.

[3] Name and title of responsible official.

[4] For State or county statement show appropriate title.

[5] Address of responsible official.

APPENDIX C

CIRCULATION OF ENVIRONMENTAL STATEMENTS

After sign-off by the responsible ASCS official, and where required, the USDA Coordinator of Environmental Quality Activities, the draft and final EIS's will be forwarded for review and comment as follows:

Draft environmental statements:

Federal and State agencies, interested organizations, public:	*Copies*
Council on Environmental Quality	5
Environmental Protection Agency	5
Department of the Interior	5
Department of Commerce	5
Department of Health, Education, and Welfare	5
Other Federal agencies having special expertise or jurisdiction by law on areas of environmental impact (each)	1
State clearinghouses (OMB Circular A-95, attachment D) (for national programs having national scope circulate to all States, otherwise only to States where the program or project EIS is applicable).	
Organizations, groups, individuals with expertise or known special interest in the program or project and its environmental impacts (each)	1
Public upon request (each)	1

Final Environmental Statement.—To the Federal and State agencies, organizations and groups listed above for the draft statement and to any other public body, private organization or individual who made substantive comments on the draft statement.

Statements on Legislation.—Following clearance by OMB of the related legislative proposal or report, the EIS will be circulated as provided above and made available to the Congress.

[FR Doc.74-29709 Filed 12-19-74;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 671]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period December 22–28, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.971 Lemon Regulation 671.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and orders, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons has been very active thus far this week. Overall supply is in line with demand and most auctions have a good balance between lemon supplies and demand. Average f.o.b. price was $4.27 per carton the week ended December 14, 1974, compared to $4.49 per carton the previous week. Track and rolling supplies at 143 cars were down 11 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 17, 1974.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period December 22, 1974, through December 28, 1974, is hereby fixed at 175,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 20, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-29905 Filed 12-19-74;8:45 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK) DEPARTMENT OF AGRICULTURE

[Milk Order No. 63]

PART 1063—MILK IN THE QUAD CITIES-DUBUQUE MARKETING AREA

Order Suspending a Certain Provision

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Quad Cities-Dubuque marketing area.

Notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 41987) concerning a proposed suspension of a certain provision of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, none in opposition thereto, it is hereby found and determined that for the months of December 1974 and January 1975 the following provision of the order does not tend to effectuate the declared policy of the Act:

Section 1063.13(b)(2)—"In any of the months of September through January, milk diverted from the farm of a producer on days in excess of the number of days that milk was delivered to a pool plant from such farm during the month shall not be producer milk."

Statement of Consideration

This suspension will permit unlimited diversions of producer milk under the Quad Cities-Dubuque order during December 1974 and January 1975.

Two cooperatives representing a substantial majority of producers filed views and arguments in support of this action.

Reserve milk supplies in this market are customarily diverted from pool distributing plants to nonpool manufacturing plants. The reserve milk supplies during December 1974 and January 1975 are expected to exceed the quantity of milk that could be diverted to nonpool manufacturing plants under the present diversion limitations and still maintain producer status for all such milk. To maintain producer status for all their member milk, during these two months, it will be necessary for cooperative associations to move much of the reserve milk supply from farms to pool distributing plants and then reship to nonpool manufacturing plants, unless this action is taken.

This suspension will permit the economical movement of milk directly from farms to manufacturing plants while maintaining producer status for all dairy farmers regularly associated with the market.

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that the most efficient method of handling the market's reserve milk supplies is by direct movement from producers' farms to nonpool manufacturing plants. This suspension allows such economical movement of milk while the dairy farmers involved retain producer status.

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this suspension.

Therefore, good cause exists for making this order effective December 20, 1974.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended for December 1974 and January 1975.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Effective date. December 20, 1974.

Signed at Washington, D.C., on: December 16, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

[Milk Order No. 65; Docket No. AO-86-A32]

PART 1065—MILK IN THE NEBRASKA-WESTERN IOWA MARKETING AREA

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Nebraska-Western Iowa marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in sec. 8c (9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Nebraska-Western Iowa marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. In § 1065.7, the introductory text and paragraph (a) are revised as follows:

§ 1065.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means:

(a) A distributing plant from which there is:

(1) Route disposition (except filled milk) in the marketing area during the month equal to not less than 15 percent of the Grade A milk received at such plant from dairy farmers, supply plants (exclusive of plants qualifying as pool plants pursuant to this paragraph), and handlers described in § 1065.9(c); and

(2) Total route disposition (except filled milk) during the month or the immediately preceding month equal to not less than 35 percent of the Grade A milk received at the plant during such month from the sources specified in paragraph (a) (1) of this section.

* * * * *

§ 1065.73 [Amended]

2. In § 1065.73, *Payments to producers and to cooperative associations*, the term "advance payment" in paragraph (b) (2) is changed to "partial payment."

3. In § 1065.73, a new paragraph (d–1) is added to read as follows:

* * * * *

(d–1) To a cooperative association for fluid milk products received from a pool plant operated by the cooperative association as follows:

(1) On or before the 26th day of the month, for fluid milk products received during the first 15 days of the month not less than the value at the Class III price for the preceding month, adjusted by the butterfat differential pursuant to § 1065.74 for the preceding month; and

(2) On or before the 14th day after the end of each month for fluid milk products received during the month not less than the value at the class prices pursuant to § 1065.50, adjusted for the location of the transferee plant and by the butterfat differential pursuant to § 1065.74, less payment made pursuant to paragraph (d–1) (1) of this section;

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Effective date: February 1, 1975.

Signed at Washington, D.C., on: December 16, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74–SO–97]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On October 24, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 37779), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Savannah, Tenn., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., February 27, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Savannah, Tenn., transition area is amended. "* * * longitude 88°13'00" W. * * *" is deleted and "* * * longitude 88°13'00" W.); within 3 miles each side of the 197° bearing from Savannah RBN (latitude 35°10'13" N., longitude 88°12'50" W.), extending from the 7-mile radius area to 8.5 miles south of the RBN * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on December 10, 1974.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.74–29629 Filed 12–19–74;8:45 am]

[Airspace Docket No. 74–SW–45]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate the Mt. Pleasant, Tex., transition area.

On October 30, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 38238) stating the Federal Aviation Administration proposed to designate a transition area at Mt. Pleasant, Tex.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., February 27, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

MT. PLEASANT, TEXAS

That airspace extending from 700 feet above the surface within a 5-mile radius of Mt. Pleasant Municipal Airport (latitude 33°07'45.4" N., longitude 94°58'31.8" W.) and within 2.5 miles each side of the Quitman, Tex., VORTAC 052° radial extending from the 5-mile radius area to a point 11 miles southwest of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on December 10, 1974.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.74–29632 Filed 12–19–74;8:45 am]

[Airspace Docket No. 74–SO–102]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Control Zone and Transition Area

On November 4, 1974, a Notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 38910), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Oak Grove, N.C., temporary control zone and transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., May 22, 1975, as hereinafter set forth.

In § 71.171 (40 FR 354), the following control zone is added:

OAK GROVE, NORTH CAROLINA

Within a 5-mile radius of Oak Grove HOLF (Navy), N.C. (Lat. 35°01'15" N., Long. 77°15'12" W.). This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

In § 71.181 (40 FR 441), the following transition area is added:

OAK GROVE, NORTH CAROLINA

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Oak Grove HOLF (Navy), N.C. (Lat. 35°01'15" N., Long. 77°15'12" W.), excluding the portion within New Bern, N.C., transition area. This transition area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on December 11, 1974.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.74–29628 Filed 12–19–74;8:45 am]

[Docket No. 14196; Amdt. No. 947]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rule making dockets of the FAA

in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amending by originating, amending, or canceling the following VOR-VOR/DME SIAPs, *effective January 30, 1975:*

Beloit, Wisc.—Beloit Arpt., VOR-A, Orig.
Dubuque, Iowa—Dubuque Municipal Arpt., VOR Rwy 36, Orig.
Plymouth, Ind.—Plymouth Municipal Arpt., VOR Rwy 10, Amdt. 5.

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 363—CHINA TRADE ACT CORPORATIONS

Editorial Revisions

Part 363 of Chapter III of Title 15 of the Code of Federal Regulations implements the responsibilities of the Secretary of Commerce under the China Trade Act, 1922, as amended, and section 941 of the Internal Revenue Code. This part has been rewritten to eliminate obsolete wording and reflect nonsubstantive changes in position titles, nomenclature, and form designations. The relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation and delay in effective date are omitted as unnecessary because the changes are procedural and editorial in nature. Accordingly, Part 363 of Chapter III of Title 15 of the Code of Federal Regulations is revised to read as follows:

Sec.
363.1 Purpose.
363.2 Definitions.
363.3 Application for certificate of incorporation.
363.4 Holding shares of stock in other corporations prohibited.
363.5 Accredited agent.
363.6 Certificates of property value.
363.7 Issuance of certificate of incorporation.
363.8 Certificate of amendment to articles of incorporation.
363.9 Certificate of authorization for extension.
363.10 Certificate of authorization for voluntary dissolution.
363.11 Fees.
363.12 Stockholders' meeting.
363.13 Bylaws.
363.14 Special dividend.
363.15 Annual report.
363.16 Appeal from decision of Registrar.
363.17 Forms.
363.18 Inspection of records.

AUTHORITY: Sec. 17 of the China Trade Act, 1922 (15 U.S.C. 157 (42 Stat. 854)); and sec. 941 of the Internal Revenue Code of 1954, (26 U.S.C. 941).

§ 363.1 Purpose.

The regulations in this part implement the responsibilities of the Secretary of Commerce under the China Trade Act, 1922, as amended (15 U.S.C. 141 et seq.), and section 941 of the Internal Revenue Code of 1954, as amended (26 U.S.C. 941), concerning District of Columbia corporations organized to engage in business within China. The statutory authority and responsibilities of the Secretary of Commerce relating to China Trade Act corporations have been delegated to the Deputy Assistant Secretary for International Commerce of the Department of Commerce, with power of redelegation.

§ 363.2 Definitions.

For the purposes of the regulations in this part and the forms issued to implement it, unless the context otherwise indicates:

(a) "Act" means the China Trade Act, 1922, as amended, 15 U.S.C. 141 et seq. (42 Stat. 849).

(b) "China Trade Act corporation" and "corporation" mean a District of Columbia corporation organized under the provisions of the Act.

(c) "China" means China including Manchuria, Tibet, Mongolia, and any territory leased by China to any foreign government; the Crown Colony of Hong Kong; and the Province of Macao.[1]

(d) "Deputy Assistant Secretary" means the Deputy Assistant Secretary for International Commerce of the Department of Commerce, or such official as may be designated by him to act in his behalf.

(e) "Registrar" means the individual designated Registrar or Acting Registrar,

[1] Under section 941 of the Internal Revenue Code of 1954, the special deduction allowed in computing the taxable income of a China Trade Act corporation is based on income derived from sources within Formosa (Taiwan) and Hong Kong.

authorized by the Deputy Assistant Secretary to perform the duties of the Registrar as authorized by the Act, the regulations of this part, and the directions of the Deputy Assistant Secretary.

(f) "Person" includes individual, partnership, corporation, and association.

(g) "Applicants" means incorporators of a District of Columbia corporation who apply for certification of incorporation under the provisions of the Act.

§ 363.3 Application for certificate of incorporation.

Applicants desiring to qualify a District of Columbia corporation for certification under the Act shall file an application, in duplicate, in accordance with the provisions of the Act and this part on Form DIB–491P (see § 363.17 for titles of forms, where obtained, and place of filing). The application shall be accompanied by the corporation's articles of incorporation, in quintuplicate, which articles shall:

(a) State the names, addresses, and nationalities of the incorporators;

(b) State the particular business in which the corporation is to engage and clearly indicate how the corporation will aid in developing markets in China for goods produced in the United States;

(c) State the name and address of the corporation's accredited agent, any successor of whom may be later appointed as provided by § 363.5(b) without amendment to the articles of incorporation;

(d) If more than one class of stock is contemplated, provide a method for the apportionment of any "special dividend" between or among such classes; and

(e) Otherwise conform to the requirements of subsection 144(b) of title 15, U.S.C.

§ 363.4 Holding shares of stock in other corporations prohibited.

No China Trade Act corporation shall purchase or acquire, either directly or indirectly, for investment purposes, shares of stock of any corporation engaged in any activity prohibited by subsection 144(c) of title 15, U.S.C.

§ 363.5 Accredited agent.

(a) In accordance with section 160 of title 15, U.S.C., every China Trade Act corporation shall maintain in the District of Columbia a person, who shall be domiciled within the District of Columbia, as its accredited agent. Power of attorney appointing the agent shall be filed in duplicate with the Registrar at the time of filing the application for certificate of incorporation. Before issuance of the certificate of incorporation a letter of consent to act shall be filed by the agent with the Registrar, in duplicate.

(b) No corporation shall remove, or accept the resignation of, its accredited agent until a successor has been appointed by the corporation, and a power of attorney appointing the successor agent and the written consent of such successor have been filed in duplicate.

(c) In the event of the death of the agent, or his inability to serve, the corporation shall, within 30 days after notice thereof, appoint a successor in the same manner as set forth in paragraph (b) of this section.

§ 363.6 Certificates of property value.

(a) No share of stock of a China Trade Act corporation shall be held paid in real or personal property unless:

(1) A certificate describing the property and stating the value at which it is to be received has been filed by the corporation in duplicate on Form DIB–492P (see § 363.17);

(2) The fee prescribed by § 363.11 has been paid; and

(3) The Deputy Assistant Secretary has found and certified to the corporation that the value at which the property is to be received is not more than the fair market value of the property.

(b) There shall be filed with each certificate of property value a statement in duplicate by the owner of any property to be received by the corporation in payment for its stock, showing the date he purchased the property, the price paid therefor, and the amount, if any, of any lien, mortgage, or other encumbrance against the property at the time it is placed in the custody of the directors as provided for by sections 144, 147 and 148 of title 15, U.S.C.

(c) There shall be filed, with the corporation's certificate of property value, a certificate of property value, in duplicate, on Form DIB–493P (see § 363.17), of two disinterested persons acceptable to the Deputy Assistant Secretary.

§ 363.7 Issuance of certificate of incorporation.

(a) Upon the filing of an application and payment of the fee prescribed by § 363.11, the Deputy Assistant Secretary shall issue a certificate of incorporation on Form DIB–494 (see § 363.17) if he finds that:

(1) The application and articles of incorporation and statements therein conform to the requirements of the Act and the regulations of this part;

(2) The incorporation is authorized by the act; and

(3) The corporation will aid in developing markets in China for goods produced in the United States.

(b) A copy of the articles of incorporation shall be made a part of the certificate of incorporation. The original certificate shall be retained by the Registrar as official records. A copy of the certificate, certified by the Deputy Assistant Secretary, shall be transmitted to the corporation.

(c) In accordance with subsection 144(d) of title 15, U.S.C., no certificate of incorporation shall be delivered to a China Trade Act corporation and no incorporation shall be complete until the applicants have filed a statement, under oath, and in duplicate, with the Registrar that at least 25 per centum of the corporation's authorized capital stock has been paid in in cash, or in real or personal property as provided for by section 148 of title 15, U.S.C.

§ 363.8 Certificate of amendment to articles of incorporation.

(a) No amendment to the articles of incorporation shall take effect until:

(1) The corporation files a certificate on Form DIB–495P (see § 363.17) stating the action taken;

(2) The fee prescribed by § 363.11 has been paid; and

(3) The amendment is found and certified to by the Deputy Assistant Secretary to conform to the requirements of the Act.

(b) The certificate of amendment to articles of incorporation shall be signed by the president or other authorized officer, and attested by the secretary of the corporation, and filed in quintuplicate with the Registrar.

(c) When a certificate of amendment to articles of incorporation is for the purpose of increasing the capital stock of the corporation, an authorized officer thereof shall file with the certificate, in duplicate, a certified statement that an amount equal to 25 per centum of the increased capital stock has been subscribed to in good faith.

(d) No certificate authorizing the increase of capital stock shall be delivered to a China Trade Act corporation until it has filed a statement, under oath, and in duplicate, with the Registrar that at least 25 per centum of the increased capital stock has been paid in in cash, or in real or personal property as provided for by section 148 of title 15, U.S.C.

§ 363.9 Certificate of authorization for extension.

(a) No authorization for extension of the period of duration of a China Trade Act corporation shall take effect until:

(1) The corporation files a certificate on Form DIB–496P (see § 363.17) stating the action taken; and

(2) The authorization for extension is found and certified to by the Deputy Assistant Secretary to conform to the requirements of the Act.

(b) The certificate of authorization for extension shall be signed by the president or other authorized officer and attested by the secretary of the corporation and filed, in quintuplicate, with the Registrar.

§ 363.10 Certificate of authorization for voluntary dissolution.

(a) No authorization for voluntary dissolution of a China Trade Act corporation shall take effect until:

(1) The corporation files a certificate on Form DIB–497P (see § 363.17) stating the action taken; and

(2) The authorization for dissolution is found and certified to by the Deputy Assistant Secretary to conform to the requirements of the Act.

(b) The certificate of authorization for voluntary dissolution shall be signed by the president or other authorized officer and attested by the secretary of the corporation and filed, in quintuplicate, with the Registrar.

§ 363.11 Fees.

The following fees are prescribed and shall be payable in the form of a draft payable to the Treasurer of the United States of America, upon the filing by the corporation of any of the following documents:

Application for certificate of incorporation	US$100
Certificate of amendment to articles of incorporation	25
Certificate of property value (minimum) (fee based on value of property and nature of investigation made)	25

§ 363.12 Stockholders' meeting.

Except as otherwise provided in § 363.15, concerning meetings wherein the annual report is adopted, within 30 days of each stockholders' meeting, the following documents, signed by an authorized officer of the corporation, shall be filed with the Registrar:

(a) Two copies of the minutes of the meeting, which shall set forth in detail the action taken or business transacted. The minutes shall also show that notice of call (unless waived) was delivered or mailed to each stockholder of record and the date thereof. In lieu of filing two copies of the notice, it may be incorporated, verbatim, in the minutes.

(b) Notice of call of a stockholders' meeting may be waived by the stockholders filing with a proper officer of the corporation waivers of the notice in writing, signed by each stockholder of record. When notice is so waived the secretary or other authorized officer of the corporation shall either:

(1) Sign and file a statement, in duplicate, that waivers of notice of the particular meeting have been signed by each stockholder and filed with him; or

(2) Sign and file a copy of each waiver filed by each stockholder with the corporation.

(c) When any share of stock is voted by proxy, the secretary or other authorized officer of the corporation shall either:

(1) Sign and file a statement in duplicate, showing the total number of shares voted by proxy at the meeting, the name and address of each stockholder represented by proxy, the name and address of each proxy voting at the meeting, the number of shares voted by each proxy, and that the proxies so voted were authorized by an instrument in writing signed and filed by each stockholder represented by proxy; or

(2) Sign and file a copy of each proxy filed with the corporation.

(d) Two copies of a list of current officers and directors of the corporation, stating the name, residence, and nationality of each. This document need not be filed if the information required is incorporated in the minutes.

(e) Statement, in duplicate, that all shares of stock voted at the meeting were fully paid. This statement need not be filed if the information required is incorporated in the minutes.

§ 363.13 Bylaws.

In accordance with section 150 of title 15, U.S.C., a China Trade Act corporation shall, within 30 days of their adoption by the stockholders, submit to the Registrar two certified copies of its bylaws and any amendments thereto.

§ 363.14 Special dividend.

(a) Section 941 of the Internal Revenue Code of 1954, as amended, allows a special deduction in computing the taxable income of a China Trade Act corporation, based on the amount of taxable income derived from sources within Formosa and Hong Kong. Rules pertaining to the tax treatment of China Trade Act corporations are published in 26 CFR Part 1, § 1.941 to § 1.943–1.

(b) The special deduction is not allowed unless the Deputy Assistant Secretary certifies to the Commissioner of Internal Revenue:

(1) The amount which, during the year ending on the date fixed by law for filing the return, including the period of any extension of time granted for filing the return, the corporation has distributed as a special dividend to or for the benefit of such persons as on the last day of the taxable year were resident in Formosa, Hong Kong, the United States, or possessions of the United States, or were individual citizens of the United States, and owned shares of stock of the corporation;

(2) That such special dividend was in addition to all other amounts, payable or to be payable to such persons or for their benefit, by reason of their interest in the corporation; and

(3) That such distribution has been made to or for the benefit of such persons in proportion to the par value of the shares of stock of the corporation owned by each. However, if the corporation has more than one class of stock, the certificate shall state that the articles of incorporation provide a method for the apportionment of the special dividend among such persons, and that the amount certified has been distributed in accordance with the method so provided.

(c) A China Trade Act corporation desiring to obtain the special deduction referred to in paragraph (a) of this section shall file, after the close of the taxable year, a certificate of distribution of special dividend on Form DIB–499P (see § 363.17).

(d) The certificate of distribution of special dividend shall be signed by the president, or other authorized officer, and attested by the secretary of the corporation, and filed in duplicate with the Registrar.

(e) Dividends declared by a China Trade Act corporation shall be derived wholly from the surplus profits of its business, as required in section 153 of title 15, U.S.C.

§ 363.15 Annual report.

(a) The fiscal year of a China Trade Act corporation shall end December 31, and on or before March 15 of each succeeding year the corporation shall file with the Registrar a report of its business for the fiscal year showing the financial condition of the corporation at the close of the year. An extension of time in which to file the annual report may, in the discretion of the Registrar, be obtained upon written request received by the Registrar prior to March 15. Any corporation engaged in business for a period of less than one year, or any corporation which is in process of dissolution or liquidation, shall file an annual report for such period as it is operated as a China Trade Act corporation.

(b) The annual report shall be adopted at a meeting of the stockholders or directors, in accordance with the articles of incorporation or the bylaws of the corporation, and filed in duplicate on Form DIB–499P (see § 363.17) by the secretary of the corporation. The following documents shall be attached to Form DIB–499P and made a part of the annual report:

(1) Minutes of meeting, in duplicate, which shall show, in addition to other business transacted, the adoption of an audited balance sheet and statement of profit and loss for the fiscal year. In lieu of filing, in duplicate, notice of call, the notice may be incorporated in the minutes as provided for by § 363.12(a). When notice of call of meeting is waived or any votes are voted by proxy at the meeting, documentation of such shall be provided as prescribed by § 363.12(b) and (c).

(2) Two copies of balance sheet and two copies of statement of profit and loss for the fiscal year, audited and certified by an accredited public accountant.

(3) Whenever the articles of incorporation or bylaws of the corporation provide for the adoption of the annual report by the stockholders, there shall be filed, in duplicate, a statement by an authorized officer of the corporation showing that all shares of stock voted were fully paid. This statement need not be filed if the information required is incorporated in the minutes as provided for by § 363.12(e).

(4) Statement, in duplicate, setting forth the names, addresses, and nationalities of all stockholders of the corporation on the last day of the fiscal year, including number of shares and classes of stock held by each. This statement need not be filed if the information required is incorporated in the minutes.

(5) Statement, in duplicate, setting forth the names, residences, and nationalities of directors and officers elected for the current year. This statement need not be filed if the information required is incorporated in the minutes. However, when directors and officers are elected subsequent to the adoption of the annual report, or when there is a change of directors and officers, the corporation shall file a statement, in duplicate, with the Registrar immediately upon such election or change of directors and officers. The statement shall be signed by the secretary or other authorized officer of the corporation.

(6) Certificate of distribution of special dividend, in duplicate, provided such dividend is declared.

§ 363.16 Appeal from decision of Registrar.

(a) Any decision or action of the Registrar may be appealed to the Deputy Assistant Secretary within six months, except that the time for filing an appeal may be extended at the discretion of the Deputy Assistant Secretary.

(b) The person presenting an appeal shall submit to the Deputy Assistant Secretary a written statement setting forth, in full, the alleged facts upon which the appeal is based, simultaneously submitting a copy to the Registrar.

(c) The Deputy Assistant Secretary may request additional information from the person presenting the appeal or from the Registrar, or both. Information provided to the Deputy Assistant Secretary by the person presenting the appeal must also be provided to the Registrar, and vice versa.

(d) The Deputy Assistant Secretary, as soon as practicable, shall render a decision based on the record to the person presenting the appeal and to the Registrar.

§ 363.17 Forms.

(a) For the convenience and guidance of interested persons, the following printed forms are available for use in connection with submissions under this part in connection with China Trade Act corporations:

Form DIB–491P	Application for Certificate of Incorporation Under the China Trade Act.
Form DIB–492P	Certificate of Property Value.
Form DIB–493P	Certificate of Property Value by Disinterested Persons.
Form DIB–494	Certificate of Incorporation.
Form DIB–495P	Certificate of Amendment to Articles of Incorporation.
Form DIB–496P	Certificate of Authorization for Extension.
Form DIB–496P	Certificate of Authorization for Voluntary Dissolution.
Form DIB–498P	Certificate of Distribution of Special Dividend.
Form DIB–499P	China Trade Act Corporation Annual Report.

(b) Copies of blank forms, and instructions for their preparation and filing, may be obtained upon request from the Registrar, China Trade Act, U.S. Department of Commerce, Washington, D.C. 20230. Applications, certificates, related material, and inquiries concerning China Trade Act corporations should be submitted to the Registrar at the address given in this paragraph.

§ 363.18 Inspection of records.

Applications for a certificate of incorporation, certificates, certified copies, and reports received or issued by the Registrar and Deputy Assistant Secretary under the China Trade Act shall be available for public inspection as provided for by section 152 of Title 15, U.S.C. Rules concerning public access to information are published in Part 4, Subtitle A, of this title.

Dated: December 11, 1974.

CHARLES W. HOSTLER,
Deputy Assistant Secretary for International Commerce.

Title 18—Conservation of Water and Power Resources

CHAPTER I—FEDERAL POWER COMMISSION

[Docket No. R-432 (A)]

PART 141—STATEMENTS AND REPORTS (SCHEDULES)

Monthly Report of Cost and Quality of Fuels for Electric Plants

DECEMBER 13, 1974.

On September 12, 1974 the Commission amended § 141.61 of the Commission's rules and regulations under the Federal Power Act by Order No. 512. Order No. 512 enacted a revised Form 423 providing for increased reporting of fossil-fuel deliveries to electric power generating plants. Under the amending Order No. 512, utilities must now file Form 423 for all fossil-fueled plants of 25 megawatts or greater generating capacity. The 25 megawatts may consist of steam generation only, gas turbine and internal combustion engine generation only, or all three types of generation at the same plant.

On November 18, 1974, Ohio Edison Company filed with the Commission a motion for an order staying the required report with respect to coal in accordance with Instruction (6) on the revised Form 423, as adopted in Attachment A to the Commission's Order No. 512, issued September 12, 1974. Ohio Edison supports their motion with the contention that the language—"For coal, show name of mine and county from which coal originated;"—constitutes an amendment to Form 423, as proposed by the Commission's Notice of Proposed Rulemaking, Docket No. R-432(A), issued July 19, 1973 Ohio Edison further states that "[t]his amendment is on a subject not addressed in the Commission's notice of proposed rulemaking of July 19, 1973, its Notices of staff conference on October 10 and October 23, 1973, or its Order No. 512."

In the notice of proposed rulemaking, Docket No. R-432(A), issued July 19, 1973, the attached proposed revision to Form 423 contained the following instructions:

* * * * *

(5) Show state and Bureau of Mines coal producing district and if available the name and county of the mine shall be shown in a footnote.

(6) For oil show supplier and refinery or port of entry; for gas show pipeline (supplier) or distributor, producing area by state, and port of entry if LNG.

The revised Form 423, as enacted by our Order No. 512, reads in relevant part as follows:

* * * * *

(5) Show state and Bureau of Mines coal producing district.

(6) For coal, show name of mine and county from which coal originated; for oil, show supplier and refinery or port of entry; for gas, show pipeline (supplier) or distributor, producing area by state or port of entry.

It is clear from a comparison of the relevant provisions of the proposed and enacted Form 423 that the substance of the first clause of Instruction (6) of revised Form 423 was previously noticed as part of Instruction (5) of the proposed revision to Form 423. Ohio Edison, having been provided with opportunity to comment on Instruction (5) as it appeared in the notice of proposed rulemaking of July 19, 1973, cannot now complain that the incorporation of part of Instruction (5) in the ultimately enacted Instruction (6) of revised Form 423 constitutes an amendment on "a subject not addressed" by the Commission.

It will be useful to here point out that Instruction (6) of revised Form 423, as issued, has been amended by Erratum Notice, dated November 29, 1974, to include the phrase, "if available," in order that the revised Form 423 more accurately convey the Commission's intent, as expressed in the revisd Form 423. Nevertheless, we find the objections of Ohio Edison, as stated in their motion, without substance.

The Commission finds:

(1) The notice and opportunity to participate in the proceeding in Docket No. R-432(A) through the submission in writing of data, views, comments and suggestions have been consistent and in accordance with the procedural requirements prescribed in 5 U.S.C. 553.

(2) Revised Form 423 is necessary and appropriate in the administration of the Federal Power Act.

(3) The objections raised by Ohio Edison Company in their motion to stay reporting under Instruction (6) of revised Form 423 is without substance and the granting of such motion would not be in the public interest.

The Commission orders:

(1) The Motion to Stay Reporting with Respect to Coal in Accordance with Instruction (6) on New Form 423, filed by Ohio Edison Company, be hereby denied.

(2) Reporting on the Revised Form 423 shall proceed according to the schedule outlined in Order No. 512, issued September 12, 1974.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7336]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Bonds and Other Evidences of Indebtedness

The Income Tax Regulations (26 CFR Part 1) currently require that holders of face-amount certificates issued after December 31, 1974, include the original

XUM
DEC 1974 V39 N246 FEDERAL REGISTER V39 N246 DEC 1974 XUM

issue discount in income ratably over the term of the certificate in accordance with section 1232(a)(3) of the Internal Revenue Code of 1954. The following amendments to the regulations make these ratable inclusion rules apply only to face-amount certificates issued after June 30, 1975.

Based on the foregoing, the Income Tax Regulations (26 CFR Part 1) are amended as set forth below:

PARAGRAPH 1. Paragraph (c)(3) of § 1.1232–1 is amended to read as follows:

§ 1.1232–1 Bonds and other evidences of indebtedness; scope of section.

* * * * *

(c) * * *

(3) *Certificates issued after June 30, 1975.* In the case of a face-amount certificate issued after June 30, 1975 (other than such a certificate issued pursuant to a written commitment which was binding on such date and at all times thereafter), the provisions of section 1232(a)(3) (relating to the ratable inclusion of original issue discount in gross income) shall apply. See § 1.1232–3A(f). For treatment of any increase in basis under section 1232(a)(3)(A) as consideration paid for purposes of computing the investment in the contract under section 72, see § 1.72–6(c)(4).

* * * * *

PAR. 2. Paragraph (f)(1) of § 1.1232–3A is amended to read as follows:

§ 1.1232–3A Inclusion as interest of original issue discount on certain obligations issued after May 27, 1969.

* * * * *

(f) *Application of section 1232(a)(3) to face-amount certificates*—(1) *In general.* Under paragraph (c)(3) of § 1.1232–1, the provisions of section 1232(a)(3) and this section apply in the case of a face-amount certificate issued after June 30, 1975 (other than such a certificate issued pursuant to a written commitment which was binding on such date and at all times thereafter).

* * * * *

Because this Treasury decision only postpones the date on which section 1232(a)(3) of the Internal Revenue Code of 1954 applies to face-amount certificates, it is found unnecessary to issue the Treasury decision with notice and public procedure thereon under section 553(b) of title 5 of the United States Code, or subject to the effective date limitation of subsection (d) of such section.

(Section 7805, Internal Revenue Code of 1954 (68A Stat. 917 (26 U.S.C. 7805)))

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: December 16, 1974.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

[FR Doc.74-29344 Filed 12-19-74; 8:45 am]

[T.D. 7335]

PART 11—TEMPORARY INCOME TAX REGULATIONS UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Regulations Relating to Election With Respect to Bonds and Other Evidences of Indebtedness When Valuing Assets of Retirement Plans

This document contains temporary regulations under the Employee Retirement Income Security Act of 1974 (26 CFR Part 11) in order to provide rules for an election with respect to bonds and other evidences of indebtedness for purposes of valuing assets of certain retirement plans.

Section 412(c)(2)(A) of the Internal Revenue Code of 1954 provides that the value of a retirement plan's assets is to be determined on the basis of any reasonable actuarial method of valuation which takes into account fair market value.

Section 412(c)(2)(B) of the Code and section 302(c)(2)(B) of the Act provide that an alternative method of valuing plan assets with respect to bonds or other evidences of indebtedness may be used at the election of the plan administrator. If this election is made, the value of such debt instruments may be determined on an amortized basis running from initial cost at purchase to par value at maturity or the earliest call date. The Code provides that this election is to be made in such manner and at such time as provided by regulations, and that the election, once made, may be revoked only with the consent of the Secretary of the Treasury or his delegate.

The temporary regulations provide, in general, that an election may be made by filing a statement that such evidences of indebtedness have been valued under the alternative method. This statement is filed as a part of the annual return of the plan required under section 6058 of the Code.

The election, once made, will affect all evidences of indebtedness not in default as to principal or interest and which are plan assets for the plan year for which the election is made and all evidences of indebtedness subsequently acquired by the plan unless consent to revoke the election is obtained.

In order to prescribe temporary regulations relating to an election with respect to valuation of bonds or other evidences of indebtedness pursuant to section 412(c)(2)(B) of the Internal Revenue Code of 1954, as added by section 1013 of the Employee Retirement Income Security Act of 1974 (Pub. L. 93-406, 88 Stat. 914), and section 302(c)(2)(B) of the Act (88 Stat. 871) the following temporary regulations are hereby prescribed:

§ 11.412(c)-11 Election with respect to bonds.

(a) *In general.* Section 412(c)(2)(B) provides that, at the election of the administrator of a plan which includes a trust qualified under section 401(a) or of a plan which satisfies the requirements of section 403(a) or section 405(a), the value of a bond or other evidence of indebtedness which is held by the plan and which is not in default as to principal or interest may be determined on an amortized basis running from initial cost at purchase to the amount payable at maturity (or, in the case of a bond which is callable prior to maturity, the earliest call date). So long as this election is in effect, the value of any such evidence of indebtedness shall, for purposes of section 412, be determined on such an amortized basis rather than on a method taking into account fair market value as described in section 412(c)(2)(A).

(b) *Manner of making election.* The election to value evidences of indebtedness in accordance with paragraph (a) of this section shall be made by a statement to that effect attached to and filed as a part of the annual return of the plan required under section 6058 of the Code.

(c) *Effect of election.* The election provided by section 412(c)(2)(B), once made, will affect the valuation of all evidences of indebtedness, not in default as to principal or interest, which are held by the plan for the plan year for which the election is made and any evidences of indebtedness which are subsequently acquired by the plan. The value of any evidence of indebtedness which is in default as of the valuation date for the plan year must be determined on the basis of any reasonable actuarial method of valuation which takes into account fair market value in accordance with section 412(c)(2)(A) and must continue to be so valued until the indebtedness is no longer in default.

(d) *Consent to revoke required*—(1) *In general.* An election made in accordance with paragraph (a) of this section may be revoked only if consent to revoke the election is obtained from the Secretary or his delegate.

(2) *Manner of obtaining permission for revocation.* [Reserved].

Because of the need for immediate guidance with respect to the provisions contained in this Treasury decision, it is found impracticable to issue it with notice and public procedure thereon under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

agreement and upon the American

(This Treasury decision is issued under the authority contained in section 412(c)(2)(B) and 7805 of the Internal Revenue Code of 1954, 68A Stat. 917; 88 Stat. 829, 916; 26 U.S.C. 412(c)(2)(B), 7805))

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: December 16, 1974.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. No. 1204]

PART 1033—CAR SERVICE

Chicago, Milwaukee, St. Paul and Pacific Railroad Co.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 13th day of December 1974.

It appearing, that because of unserviceable track conditions the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (MILW) is unable to operate over its line between Fairmont, Minnesota and Welcome, Minnesota, a distance of approximately 7.1 miles; that MILW service between these two points can be continued through the use of Chicago and North Western Transportation Company (CNW) between milepost No. 185 at Fairmont, Minnesota, and milepost No. 192 at Welcome, Minnesota, a distance of 7.1 miles all within Martin County, Minnesota; that the CNW has consented to the use of their tracks by the MILW; that the MILW has filed concurrent applications with the Commission for abandonment of this portion of its line in AB-7, Sub No. 19 and for permanent authority to operate over that portion of the line of the CNW in Finance Docket No. 27754; that continued operation by the MILW in this area is necessary and in the interest of the public and commerce of the people, pending disposition of the aforementioned application. Accordingly, the Commission finds that notice and public procedure herein are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1204 *Service Order No. 1204*, (Chicago, Milwaukee, St. Paul and Pacific Railroad Co. authorized to operate over tracks of Chicago and North Western Transportation Co.)

(a) The Chicago, Milwaukee, St. Paul and Pacific Railroad Company (MILW) be, and it is hereby, authorized to operate over tracks of the Chicago and North Western Transportation Company (CNW) between milepost No. 185 at Fairmont, Minnesota, and milepost No. 192 at Welcome, Minnesota, a distance of 7.1 miles, all within Martin County, Minnesota.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) Nothing herein shall be considered as pre-judgement of the applications of the MILW in AB-7, Sub No. 19 seeking authority for abandonment of a portion of their line, nor Finance Docket No. 27754 seeking permanent authority to operate over that portion of the CNW.

(d) *Effective date.* This order shall become effective at 12:01 a.m., December 16, 1974.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., June 30, 1975, unless otherwise modified, changed or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17)), 15(4), and 17(2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[S.O. No. 1139; Amdt. 4]

PART 1033—CAR SERVICE

The Atchison, Topeka and Santa Fe Railway Co.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 11th day of December 1974.

Upon further consideration of Service Order No. 1139 (38 FR 14944, 27354, and 39 FR 1046 and 24373), and good cause appearing therefor:

It is ordered, That: § 1033.1139 *Service Order No. 1139*, (The Atchison, Topeka and Santa Fe Railway Co. authorized to operate over tracks of Union Pacific Railroad Co.) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., June 30, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1974.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), and 17(2)))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[S.O. No. 1148; Amdt. 3]

PART 1033—CAR SERVICE

Graham County Railroad Co.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 13th day of December 1974.

Upon further consideration of Service Order No. 1148 (38 FR 22482, 34664; and 39 FR 24016), and good cause appearing therefor:

It is ordered, That: § 1033.1148 *Service Order No. 1148*, (Graham County Railroad Co. authorized to operate over trackage in Graham County, North Carolina) be, and it is hereby, amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., June 30, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1974.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), and 17(2)))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that

section 507 of the Federal Food, Drugs,

agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[Revised S.O. No. 995; Amdt. 5]

PART 1033—CAR SERVICE

Appointment of Embargo Agents

At a Session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 11th day of December 1974.

Upon further consideration of Revised Service Order No. 995 (35 FR 7016; 36 FR 23726; 37 FR 28301; and 38 FR 35002), and good cause appearing therefor:

It is ordered, That: § 1033.995 Revised Service Order 995, Amdt. 5 (Appointment of Embargo Agents) be, and it is hereby amended by substituting the following paragraph (f) for paragraph (f) thereof:

(f) *Expiration date.* This order shall expire at 11:59 p.m., December 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1974.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)) Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), and 17(2)))

It is further ordered, That copies of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[Revised S.O. No. 1002; Amdt. 5]

PART 1033—CAR SERVICE

Car Distribution Directions—Appointment of Agents

At a Session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 11th day of December 1974.

Upon further consideration of Revised Service Order No. 1002 (35 FR 7016; 36 FR 23803; 37 FR 28301; and 38 FR 35002), as amended, and good cause appearing therefor:

It is ordered, That: § 1033.1002 Revised Service Order 1002, Amdt. 5 (Car distribution directions—Appointment of Agents) be, and it is hereby amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* This order shall expire at 11:59 p.m., December 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1974.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), and 17(2)))

It is further ordered, That copies of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[FR Doc.74-29739 Filed 12-19-74;8:45 am]

[Revised S. O. No. 994; Amdt. 5]

PART 1034—ROUTING OF TRAFFIC

Rerouting of Traffic—Appointment of Agents

At a Session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 11th day of December 1974.

Upon further consideration of Revised Service Order No. 994 (35 FR 7017; 36 FR 23726; 37 FR 28301; and 38 FR 35002), and good cause appearing therefor:

It is ordered, That: § 1034.994 Revised Service Order 994, Amdt. 5 rerouting of traffic—Appointment of agents be, and it is hereby amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* This order shall expire at 11:59 p.m., December 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1974.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10-17), 15(4), and 17(2). 40 Stat. 101, as amended, 54 Stat. 911;. (49 U.S.C. 1(10-17), 15(4), and 17(2)))

It is further ordered, That copies of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Phenylbutazone

The Commissioner of Food and Drugs has evaluated a new animal drug application (48-391V) filed by D-M Pharmaceuticals Inc., Rockville, MD 20850, proposing the safe and effective use of phenylbutazone injection for the treatment of horses. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135b.47 is amended by revising paragraph (b)(2) to insert the sponsor code number "088", to read as follows:

§ 135b.47 Phenylbutazone injection, veterinary.

* * * * * *

(b) * * *

(2) Approval for use of the 200 milligrams per milliliter drug in horses: See sponsor code Nos. 054, 059, 087, 088, 092, and 099 in § 135.501(c) of this chapter.

* * * * * *

Effective date. This order shall be effective December 20, 1974.

(Sec. 512(i), 82 Stat. 347; (21 U.S.C. 360b(i)))

Dated: December 12, 1974.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.74-29655 Filed 12-19-74;8:45 am]

SUBCHAPTER D—DRUGS FOR HUMAN USE

CEPHACETRILE SODIUM

Miscellaneous Amendments

The Commissioner of Food and Drugs has evaluated data submitted in accordance with regulations promulgated under

§ 442.19 Cephacetrile sodium.

(ii) Samples required: 12 packages,

XUM

section 507 of the Federal Food, Drugs, and Cosmetic Act, as amended, with respect to approval of the antibiotic drug cephacetrile sodium.

The Commissioner concludes that data supplied by the manufacturer concerning the subject antibiotic drug are adequate to establish its safety and efficacy when used as directed in the labeling and that the regulations should be amended to provide for the certification of this drug.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended as follows to provide for certification of the antibiotic drug cephacetrile sodium:

PART 430—ANTIBIOTIC DRUGS: GENERAL

1. Part 430 is amended:

a. In § 430.5 by adding new paragraphs (a)(54) and (b)(54), as follows:

§ 430.5 Definitions of master and working standards.

(a) • • •

(54) *Cephacetrile.* The term "cephacetrile master standard" means a specific lot of cephacetrile that is designated by the Commissioner as the standard of comparison in determining the potency of the cephacetrile working standard.

(b) • • •

(54) *Cephacetrile.* The term "cephacetrile working standard" means a specific lot of a homogeneous preparation of cephacetrile.

b. In § 430.6 by adding a new paragraph (b)(57), as follows:

§ 430.6 Definitions of the terms "unit" and "microgram" as applied to antibiotic substances.

• • • • •

(b) • • •

(57) *Cephacetrile.* The term "microgram" applied to cephacetrile means the cephacetrile activity (potency) contained in 1.13 micrograms of the cephacetrile master standard.

PART 436—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

2. Part 436 is amended:

a. In § 436.33(b) by alphabetically inserting a new item in the table, as follows:

§ 436.33 Safety test.

• • • • •

(b) • • •

Antibiotic drug	Dilluent (diluent number as listed in § 436.32)	Test dose: Concentration in units or milligrams of activity per milliliter	Test dose: Volume in milliliters to be administered to each mouse	Route of administration as described in paragraph (c) of this section
•	•	•	•	•
Cephacetrile sodium.		3	60	0.5 Intravenous.
•	•	•	•	•

b. In § 436.105(a) and (b) by alphabetically inserting a new item in the respective tables, as follows:

§ 436.105 Microbiological agar diffusion assay.

• • • • • • •

(a) • • •

Antibiotic	Media to be used (as listed by medium number in § 436.102(b)): Base layer	Media to be used (as listed by medium number in § 436.102(b)): Seed layer	Milliliters of media to be used in the base and seed layers: Base layer	Milliliters of media to be used in the base and seed layers: Seed layer	Test organism	Suggested volume of standardized inoculum to be added to each 100 milliliters of seed agar	Incubation temperature for the plates
						Milliliters	*Degrees C.*
•	•	•	•	•	•	•	•
Cephacetrile...	2	1	21	4	A	0.5	32-36
•	•	•	•	•	•	•	•

(b) • • •

Antibiotic	Working standard stock solutions: Drying conditions (method number listed in § 436.209)	Initial solvent	Diluent (solution number as listed § 436.101(a))	Final concentration units or milligrams per milliliter (milligrams)	Storage time under refrigeration	Standard response line concentrations: Diluent	Final concentrations, units or micrograms of antibiotic activity per milliliter
•	•	•	•	•	•	•	•
Cephacetrile...	Not dried		1	1	1 week.....	1	6.4,8.0, 10.0, 12.5, 15.6 μg.
•	•	•	•	•	•	•	•

c. In § 436.205 (b) and (c) by alphabetically inserting a new item in the respective tables, as follows:

§ 436.205 Hydroxylamine colorimetric assay.

• • • • •

(b) • • •

Antibiotic	Diluent (solution number as listed in § 436.101(a))	Final concentration in milligrams per milliliter of standard solution
•	•	•
Cephacetrile...	Distilled water....	2.0
•	•	•

(c) • • •

Antibiotic	Diluent (solution number as listed in § 436.101(a))	Final concentration in milligrams per milliliter of sample
•	•	•
Cephacetrile sodium.	Distilled water.	2.0
•	•	•

d. In § 436.213(c) by alphabetically inserting a new item in the table, as follows:

§ 436.213 Nonaqueous titrations.

• • • • •

(c) • • •

Antibiotic	Weight in milligrams of sample	Solvent
• •	•	• •
Cephacetrile sodium-base titration.	50	50 milliliters glacial acetic acid.
• •	•	• •

• • • • • •

e. By adding to Subpart F a new section, as follows:

§ 436.313 Thin layer chromatographic identity test for cephacetrile sodium.

Using the sample solution prepared as described in the section for the antibiotic drug to be tested, proceed as described in paragraphs (a), (b), (c), (d), and (e) of this section.

(a) *Equipment*—(1) *Chromatography tank.* A rectangular tank, approximately 23 centimeters long, 23 centimeters high, and 9 centimeters wide, equipped with a glass solvent trough in the bottom and a tight-fitting cover for the top. Line the inside walls of the tank with chromatographic paper (Whatman 3MM, or equivalent).

(2) *Plates.* Use a 20x20 centimeter thin layer chromatography plate coated with silica gel G or equivalent to a thickness of 250 microns.

(b) *Developing solvent.* Mix ethyl acetate, pyridine, *n*-butanol, acetic acid, and water in volumetric proportions of 42: 21: 21: 6: 10, respectively.

(c) *Spray solution.* Immediately before use, mix 100 milliliters of a 1-percent ferric chloride solution in 1 percent hydrochloric acid with 100 milliliters of a 1-percent potassium ferricyanide solution and 75 milliliters of methanol.

(d) *Preparation of working standard solution.* Prepare a solution containing approximately 2.5 milligrams per milliliter of cephacetrile working standard in distilled water.

(e) *Procedure.* Pour developing solvent into the bottom of the chromatography tank. Cover and seal the tank. Allow it to equilibrate for 1 hour. Prepare a plate as follows: On a line 2 centimeters from the base of the silica gel plate, and at intervals of 2 centimeters, spot 10 microliters each of the standard solution and the sample solution. After all spots are thoroughly dry, place the silica gel plate directly into the glass trough. Cover and seal the tank. Allow the solvent front to travel about 15 centimeters from the starting line. Remove the plate from the tank and heat it for 1 hour at 60° C. in a circulating air oven. Remove the plate from the oven and allow it to cool at room temperature. Apply the spray solution and allow it to air dry. After approximately 15 minutes, the compound appears as a blue spot on a yellow-green background at an R_f of about 0.4. The test is satisfactory if the sample compares qualitatively with the standard.

PART 442—CEPHA ANTIBIOTIC DRUGS

3. In Part 442 by adding to Subparts A and C two new sections as follows:

§ 442.19 Cephacetrile sodium.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity.* Cephacetrile sodium is the sodium salt of 7-(2-cyanoacetamido-3-(hydroxymethyl) -8- oxo-5-thia-1-azabicyclo[4.2.0]oct-2-ene-2-carboxylate acetate (ester). It is so purified and dried that:

(i) Its potency is not less than 800 micrograms and not more than 940 micrograms of cephacetrile per milligram.

(ii) It passes the safety test.

(iii) Its moisture content is not more than 1.5 percent.

(iv) Its pH in an aqueous solution containing 100 milligrams per milliliter is not less than 3.8 and not more than 5.8.

(v) Its cephacetrile content is not less than 80 and not more than 94 percent.

(vi) It gives a positive identity test for cephacetrile.

(vii) It is crystalline.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, safety, moisture, pH, cephacetrile content, identity, and crystallinity.

(ii) Samples required: 12 packages, each containing approximately 500 milligrams.

(b) *Tests and methods of assay*—(1) *Potency.* Use either of the following methods; however, the results obtained from the microbiological agar diffusion assay shall be conclusive:

(i) *Microbiological agar diffusion assay.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed sample in sufficient 1 percent potassium phosphate buffer, pH. 6.0 (solution 1), to give a stock solution containing 1.0 milligram per milliliter (estimated). Further dilute an aliquot of the stock solution with solution 1 to the reference concentration of 10 micrograms of cephacetrile per milliliter (estimated).

(ii) *Hydroxylamine colorimetric assay.* Proceed as directed in § 436.205 of this chapter.

(2) *Safety.* Proceed as directed in § 436.33 of this chapter.

(3) *Moisture.* Proceed as directed in § 436.201 of this chapter.

(4) *pH.* Proceed as directed in § 436.202 of this chapter, using an aqueous solution containing 100 milligrams per milliliter.

(5) *Cephacetrile content.* Proceed as directed in § 436.213 of this chapter, using the titration procedures described in paragraph (e) (2) of that section. Calculate the percent cephacetrile content as follows:

$$\text{Percent cephacetrile content} = \frac{(A-B)\ (\text{normality of perchloric acid reagent})\ (389.3)\ (100)}{(\text{Weight of sample in milligrams})}$$

Where:

A = Milliliters of perchloric acid reagent used in titrating the samples;
B = Milliliters of perchloric acid reagent used in titrating the blank.

(6) *Identity.* Proceed as directed in § 436.313 of this chapter, preparing the sample as follows: Prepare a solution containing about 2.5 milligrams per milliliter of cephacetrile in distilled water.

(7) *Crystallinity.* Proceed as directed in § 436.203(a) of this chapter.

§ 442.219 Cephacetrile sodium for injection.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity.* Cephacetrile sodium for injection is a dry mixture of cephacetrile sodium and mannitol. Its potency is satisfactory if it contains not less than 90 percent and not more than 115 percent of the number of milligrams of cephacetrile that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. Its moisture content is not more than 1.5 percent. When reconstituted as directed in the labeling, its pH is not less than 3.8 and not more than 5.8. It passes the identity test. The cephacetrile sodium used conforms to the standards prescribed by § 442.19(a) (1) of this part.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) The results of tests and assays on:

(*a*) The cephacetrile sodium used in making the batch for potency, moisture, pH, cephacetrile content, identity, and crystallinity.

(*b*) The batch for potency, sterility, pyrogens, safety, moisture, and pH.

(ii) Samples required:

(*a*) The cephacetrile sodium used in making the batch: 12 packages, each containing approximately 500 milligrams.

(*b*) The batch:

(1) For all tests except sterility: A minimum of 15 immediate containers.

(2) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay*—(1) *Potency.* Use either of the following methods; however, the results obtained from the microbiological agar diffusion assay shall be conclusive:

(i) *Microbiological agar diffusion assay.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Reconstitute the vials as directed in the labeling. Using a suitable hypodermic needle and syringe, remove all of the withdrawable contents and dilute the sample thus obtained with

XUM

sufficient 1 percent potassium phosphate buffer, pH 6.0 (solution 1), to give a stock solution of convenient concentration. Further dilute an aliquot of the stock solution with solution 1 to the reference concentration of 10 micrograms of cephacetrile per milliliter (estimated).

(ii) *Hydroxylamine colorimetric assay.* Proceed as directed in § 436.205 of this chapter, preparing the sample for assay as follows: Reconstitute the sample as directed in the labeling. Then using a suitable hypodermic needle and syringe, remove all of the withdrawable contents and dilute the sample thus obtained with distilled water to the prescribed concentration.

(2) *Sterility.* Proceed as directed in § 436.20 of this chapter, using the method described in paragraph (a)(1) of that section.

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 80 milligrams of cephacetrile per milliliter.

(4) *Safety.* Proceed as directed in § 436.33 of this chapter.

(5) *Moisture.* Proceed as directed in § 436.201 of this chapter.

(6) *pH.* Proceed as directed in § 436.202 of this chapter, using the solution obtained when the product is reconstituted as directed in the labeling.

(7) *Identity.* Proceed as directed in § 436.313 of this chapter, preparing the sample as follows: Reconstitute the sample as directed in the labeling. Then using a suitable hypodermic needle and syringe, remove all of the withdrawable contents and dilute the sample thus obtained with distilled water to a concentration of 2.5 milligrams per milliliter.

Since the conditions prerequisite to providing for certification of subject antibiotic drug have been complied with and since the matter is noncontroversial in nature, notice and public procedures and delayed effective date are not prerequisites to this promulgation.

Effective date. This order shall be effective December 20, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360(i))

Dated: December 11, 1974.

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs, Bureau of Drugs.

[FR Doc.74-29490 Filed 12-19-74; 8:45 am]

Title 32—National Defense

CHAPTER XVI—SELECTIVE SERVICE SYSTEM

MISCELLANEOUS AMENDMENTS TO CHAPTER

Whereas, on November 1, 1974, the Director of Selective Service published a notice of proposed Amendments of Selective Service Regulations 39 FR 38670 on November 1, 1974; and

Whereas such publication complied with the publication requirement of section 13(b) of the Military Selective Service Act (50 App. U.S.C. sections 451 et seq.) in that more than thirty days have elapsed subsequent to such publication during which period comments from the public have been received and considered; and I certify that I have requested the views of officials named in section 2(a) of Executive Order 11623 and none of them has timely requested that the matter be referred to the President for decision. The proposed amendments are being made effective without change.

The revision of §§ 1602.1 and 1602.16 would correct the citation of the Military Selective Service Act. The deletion of §§ 1602.4 and 1602.6 would eliminate the definition of words unused in the regulations.

The revision of § 1603.3 reflects the revision of § 1604.31. The revision of § 1604.31 would establish a medical specialty advisor to the State Director for each of the medical specialties for which the Secretary of Defense places a call for the induction of men into the Armed Forces. Such advisor would furnish advice regarding the deferment of registrants in his respective medical specialty at the request of the State Director.

Section 1622.2 is revised to eliminate the listing of the various classes established in Part 1623.

Section 1622.14 is amended to provide that registrants who had been separated from the Armed Forces by reason of conscientious objection to participation in both combatant and noncombatant training and service in the Armed Forces would be classified in Class 1–O.

Section 1623.15(a) is revised to eliminate the reference to a provision of the Military Selective Service Act that has expired.

Section 1622.17 is added to establish Class 1–A–OM: Medical, dental, or allied specialist available for noncombatant military service instead of identifying such personnel in Class 1–A–O in accord with the present section 1622.11(b). Section 1624.1(b), Part 1661, and § 1680.11 are modified to reflect this change.

Section 1622.19 is added to establish Class 1–OM: Medical, dental, or allied specialist available for alternate service instead of identifying such personnel in Class 1–O in accord with the present § 1622.14(b). Section 1624.1(b), Part 1661, and § 1680.9 are modified to reflect this change.

The revision of § 1622.26(a) restricts Class 2–M to registrants pursuing their first professional degree in the medical, dental, or allied specialist category.
